Federal relief may include temporary housing, grants and low interest loans.

Weather across the Midwest today featured clear skies and chilly temperatures after dozens of weekend thunderstorms and twisters flattened buildings and killed at least 16 people.

Thermometer readings in the 30's and 40's set three record lows in Missouri, Nebraska and Kansas. Freeze warnings were posted tonight for the Great Lakes and parts of the Northwest.

Parts of eastern Texas were lashed by thunderstorms today that dumped heavy rain and light hail in some areas.

Showers were scattered across the central Gulf Coast, Florida, northern New England, the Middle Atlantic Coast and the Northern Pacific Coast.

China is facing a steady stream of protests from foreign reporters and the U-S government over its treatment of journalists.

The U-S Embassy in Beijing is collecting accounts of serious brutality and detentions of foreigners covering the first anniversary of China's crackdown on the pro-democracy movement.

The president of the Beijing Foreign Correspondents' Club says he is still gathering accounts of mistreatment and plans to file a formal protest.

Some journalists have already filed protests with China's Foreign Ministry. Los Angeles Times reporter Dave Holley says that he and his

wife were beaten by soldiers with automatic rifles outside Beijing University.

The British news agency Reuters sent what it terms a ''nasty note'' to the ministry protesting several instances of mistreatment by police.

A-B-C News filed a strong protest with China's ambassador in Washington after its Beijing bureau chief and his cameraman were detained for several hours.

Also in Washington, the State Department condemned Chinese harassment of journalists, saying the U-S government has protested to Beijing.

#90155u3165 06/04/1990 ~United Press International

(JUNE 4) UPI - Jury selection resumes tomorrow in the Washington, D-C, drug and perjury trial of embattled Mayor Marion Barry.

Today, 250 potential jurors answered in writing 69 questions on such topics as their views on drug legalization and whether they ever politically supported Barry.

Each person will be questioned individually on the second day of the trial by prosecutors and defense attorneys... without the others present in court. The process of narrowing the group down to 12 jurors and six alternates is expected to take at least a week.

U-S District Judge Thomas Jackson says the jury will be sequestered during the trial... expected to last at least a month.

Jackson also says NO one will be excluded from the jury simply because of access to extensive media coverage of the case... as long as they had NOT formed opinions based on the information.

Barry today accused federal prosecutors of leaking a key piece of evidence to a Washington t-v station- a videotape of him allegedly smoking crack cocaine in a downtown hotel room four and a-half months ago.

Barry faces 14 counts of perjury and drug related charges that could result in 26 years in prison and more than one-point-eight-Million dollars in fines.

Candidates in nine states are winding down their campaigns today as voters prepare to head to the polls tomorrow night.

The most closely watched race involves the California governor's contest, where John Van de Kamp is dismissing polls that show him trailing former

San Francisco Mayor Dianne Feinstein.

The state's attorney general says he doubts everyone questioned is being honest when questioned by pollsters. Van de Kamp says he wonders whether women would be willing to admit they plan to vote against a female.

Feinstein held large leads in two newspaper polls released yesterday. However, huge segments remained UNdecided.

Whoever wins the Democratic primary race will battle Republican Senator Pete Wilson in November to succeed two-term Governor George Deukmejian.

In all states where incumbents face opposition, NONE are forecast to be in any danger.

The Justice Department is sending federal observers to counties in Alabama and New Mexico to ensure that blacks and Indians can vote without any trouble.

#90155u3248 06/04/1990 ~United Press International

(JUNE 4) UPI - A senior Palestine Liberation Organization official says his group feels U-S actions in the Middle East are protecting what he calls- quote- ''Israel's terrorism.'' The official says Washington should NOT try to ''blackmail'' the P-L-O into condemning a failed guerrilla attack against Israel last week.

An official overseeing the demobilization of the Nicaraguan Contras says two top rebel leaders handed over their automatic weapons to U-N peace-keeping forces today. It is UNlikely that more than half of the estimated 15-thousand Contras will meet the June 10th deadline to disarm.

Senate Democratic leader George Mitchell today accused President Bush of shunting the issue of Baltic independence to Congress. Mitchell says he views Bush's disregard of Lithuania to mean he expects Congress to pressure Moscow to seek meaningful change.

Egypt's Supreme Constitutional Court today invalidated the north African nation's parliament. The ruling, which was reached last month but announced today, is NOT expected to pose an immediate political crisis for Egypt's ruling National Democratic Party.

The U-S Supreme Court today limited when it is necessary for a police officer to read Miranda rights to a suspect. The high court ruled that an undercover officer posing as a fellow prisoner does NOT have to preface questioning of a jailed suspect with a Miranda warning.

#90155u3315 06/04/1990 ~United Press International
(JUNE 4) UPI - Greyhound officials say the company is seeking federal bankruptcy protection. The bus line and five subsidiaries filed for protection from creditors under Chapter 11 of the U-S Bankruptcy Code today in Brownsville, Texas. Greyhound attorneys asked for an immediate ruling to ensure that the carrier can maintain business-as-usual. Some 93-hundred Geyhound employees have waged a three and a-half-month strike against the Dallas-based company.

Two top Nicaraguan Contra leaders took part in a ceremony today designed to convince anti-Sandinista rebels to give up their weapons. The leaders were among dozens of Contras who surrendered their arms to U-N peace-keeping forces. Officials hope the leaders' action will set an example for more than 10-thousand rebels who have yet to lay down their arms after nine years of civil war. The rebels had agreed to demobilize by June 10th.

The Palestine Liberation Organization says the United States should NOT try to ''blackmail'' it into condemning last week's aborted raid against Israel by a P-L-O faction. A senior P-L-O official says the group canNOT prevent guerrilla acts against the Jewish state. He reversed the tables saying Israel's actions qualify as terrorism while Palestinian guerrilla attacks are NOT.

Soviet leader Mikhail Gorbachev leaves San Francisco shortly to head back to Moscow. On the last day of his six-day U-S trip, Gorbachev once again mingled with crowds that turned out to catch a glimpse of him. Gorbachev's final hand-shaking foray came as he strolled among enthusiastic crowds at Stanford University in Palo Alto. He also toured the high-tech Silicon Valley and met with former President Ronald Reagan.

-30- 1877
#90155u3327 06/04/1990 ~United Press International
(JUNE 4) UPI - Former President Gerald Ford addressed the National Press Club in Washington, D-C, today and lent his support to President Bush on two of his most criticized foreign policy stances. Ford said he agrees with the go-slow approach to Lithuanian independence and the continued warm relationship with China. The former president also called the recent U-S-Soviet summit a ''meaningful success.''

Copenhagen, Denmark, will be the site tomorrow of a meeting of the nations that signed the Helsinki human rights accords. German re-unification and the independence claims of the Soviet Baltic republics are expected to overshadow human rights topics which organizers had expected to discuss when designing the conference two years ago. The meetings will run through

June 29th.

The U-S Surgeon General gives the nation a failing grade when it comes to convincing children NOT to pick up a dangerous habit- smoking. Dr. Antonia Novello says three-thousand adolescents start smoking each day, with underage smokers buying one-BILLION packs of cigarettes each year. Novello's remarks came today at the opening of the 25th annual Public Health Service convention in Anchorage, Alaska.

Soviet flags are now flying on 13 graves at the Fort Richardson Army post in Alaska. The director of the national cemetery placed the flags on the graves in advance of today's arrival of Soviet war veterans who visited the final resting place of their fallen comrades for the first time since World War Two. The 13 Soviet pilots died while ferrying U-S planes to the eastern front in Moscow during the war.

CINCINNATI (JUNE 1) BUSINESS WIRE - Federated Department Stores, Inc. and Allied Stores Corporation today announced that they have taken the final step in the consolidation of department store credit operations into the companies' centralized credit facility located north of Cincinnati in Mason, Ohio.

James J. Amann, president of Federated-Allied Credit Services (FACS), said Bloomingdale's credit operations will be the last of the nine Federated and Allied divisions to join FACS. It will do so effective by September 1 1990. Earlier last month, The Bon Marche, headquartered in Seattle, confirmed it was considering the consolidation of its credit operations into FACS. It now expects to complete this consolidation by mid-July.

With the addition of Bloomingdale's and The Bon Marche, Federated and

Allied are completing a centralized credit consolidation that began with the establishment of FACS in January 1989. FACS was created in order to eliminate costly duplications of credit services within the company, and to make credit card billing and account administration more efficient.

FACS currently employs more than 700 persons. This number will increase to about 850 when FACS begins servicing the credit operation needs of Bloomingdale's and The Bon Marche later this summer. Prior to the consolidation, there were approximately 250 executives and support staff in the internal credit operations of Bloomingdale's and an additional 150 at The Bon Marche. Divisional employees who are not offered positions elsewhere in their divisions will receive severance benefits.

Federated and Allied's Florida-based divisions -- Burdines and Maas Brothers/Jordan Marsh -- will continue independent operations of their credit services as a subsidiary of FACS.

#90156b0006 06/05/1990 ~Business Wire

EVERETT, WA (JUNE 5) BUSINESS WIRE - INTERMEC Corp. (NASDAQ:INTR) manufacturer of automated data collection systems, and certain of its officers have been named as defendants in a class action lawsuit.

The company stated it believes the plaintiff's claims are without merit and intends to defend this case vigorously.

The complaint, which seeks unspecific damages, was filed in the United States District Court for the Western District of Washington at Seattle, and claims that the plaintiff, and others who purchased the company's shares between March 8 and May 22, 1990, were damaged as a result of alleged misstatements by the company relating to its fourth quarter and year-end results. The lawsuit was brought by a shareholder of the company alleging violations of federal securities laws and related claims under Washington state law.

INTERMEC designs, manufactures and markets a comprehensive line of data collection hardware, software, media products, systems and services available for automated data collection worldwide.

#90156b0009 06/05/1990 ~Business Wire

PALO ALTO, CA (JUNE 5) BUSINESS WIRE - Hewlett-Packard Co. Tuesday lowered the entry point into the HP 3000 Precision Architecture-RISC (PA-RISC) product line with the addition of a new system and server.

Each is available now for a U.S. list price of $28,000.

The HP 3000 family, optimized for on-line transaction processing (OLTP), is the industry's broadest family of compatible RISC-based (reduced-instruction-set computing) minicomputers. The models introduced today, the Series 920 and Server 920, are designed for small- to medium-sized businesses, departments of large corporations or branch offices.

HP also announced it is shipping the HP MPE/XL Version 2.1 operating system for the entire HP 3000 Model 900 minicomputer line. Available in this version are 15 new software products, including those that provide additional functionality for networking, client- server computing and systems management. PA-RISC Advantages

The Series 920 and Server 920, like all 25 HP 3000 Model 900 systems and servers, use PA-RISC to provide higher OLTP performance than competing systems of comparable cost. Because of the flexibility of the PA-RISC architecture, HP has been able to reduce the entry price of its Model 900 line just six months after introducing the previous entry-level system, the Series 922LX.

HP makes it possible to upgrade several times to more powerful computers by simply exchanging a processor board. For example, the Series 920 and Server 920 can be upgraded in less than an hour to any of four increasingly more powerful computers -- the Series 922LX, 929RX, 922 and 932. The Series 932 has nearly triple the performance of the Series 920 and supports up to 250 users.

Eventually, an upgrade will require new hardware. However, HP customers can continue using the operating system and application software they had on their previous HP systems.

In contrast, comparable computer platforms from IBM and DEC do not offer the same convenience, low price and full protection of customers' investment in hardware and software. Lower-Priced Backup Solution

The new system and server come preconfigured in compact, deskside units and work in standard office environments.

Each system and server includes a pocket-sized, integrated digital-audio-tape (DAT) cassette drive that can store 1.3 Gbytes of data

in about two hours. Through the use of HP's recently announced data-compression product, the HP TurboSTORE/XL II, up to 4.7 Gbytes of information can be backed up on this drive. In either case, backup can be done without an operator present.

In addition, the Server 920 also includes the HP VPLUS/Windows interface (a graphical user interface for HP 3000 applications), personal-computer (PC) networking software and HP NewWave System Services for centralized management of PC software.

Hewlett-Packard Co. is an international manufacturer of measurement and computation products and systems recognized for excellence in quality and support. The company's products and services are used in industry, business, engineering, science, medicine and education in approximately 100 countries. HP has 93,000 employees and had revenue of $11.9 billion in its 1989 fiscal year.

#90156b0020 06/05/1990 ~Business Wire

TORONTO, Ontario (JUNE 5) BUSINESS WIRE - Enquiries from investment analysts and the media throughout Monday, June 4th, indicate clearly that confusion exists between the announcements made today by Corona, Prime and Stikine and the earlier speculation about the proposed arrangements between the three companies to form a pure gold mining company, now called Corona Gold Corp.

In order to set the record straight, all four companies provide the following comments.

Corona Corp. has acquired approximately 10.2 million shares of Prime Resources Group Inc. (''Prime'') in exchange for a similar number of Class ''A'' subordinate voting shares of Corona, to hold 45 percent of the outstanding shares of Prime. Corona has also negotiated an agreement with the holders of approximately 1.5 million shares of Stikine Resources Ltd. (''Stikine''). These positions provide Corona with control over each of Prime and Stikine. As announced, Corona will accelerate its plan to reorganize its gold assets into a distinct pure gold company to be known as Corona Gold Corporation (''Corona Gold'').

It is intended to combine the gold assets of Corona with the interests in the Eskay Creek orebody of both Stikine and Prime, plus the latter 's 40 percent interest in the Snip deposit, to form a major gold producer, Corona Gold, with more than 12.5 million ounces of gold and gold

equivalent reserves, and projected 1994 production of more than 1.2 million ounces.

Under the plan of arrangement, subject to the exercise of outstanding warrants and options of both Corona and Prime and conversion of preferred shares of Corona, Corona will own initially 50.2 percent of Corona Gold, with the public shareholders of Corona, Prime, and Stikine holding the remaining 49.8 percent. Corona also may elect to acquire additional shares in the further.

Shareholders of Corona will receive one share in Corona Gold for each 2.63 shares of Corona Corp. they own, as well as retain their existing Corona shares, under the terms of the business combination. Prime shareholders will receive one share in Corona Gold for each share they own of Prime, plus a right to a share in a new company,

Prime Equities Inc., which will hold and manage the interests Prime currently has in numerous junior exploration companies. Shareholders of Stikine will receive, for each share of Stikine, two shares of Corona Gold directly and 6.5 shares of Corona Corp., which entitles them to a further 2.5 shares of Corona Gold, under provisions for Corona shareholders noted above.

#90156b0024 06/05/1990 ~Business Wire

LOS ANGELES (JUNE 5) BUSINESS WIRE - Ronald W. Moreland, president of Western Operations of Equicor, has been named president and chief executive officer of Managed Health Network Inc. which provides managed mental health and employee assistance programs (EAP) to 350 companies and government agencies.

The announcement was made Tuesday by John K. Tillotson, M.D., MHN's founder and chairman.

Equicor, with annual revenues of approximately $4 billion, was recently acquired by Cigna. Its Western Operations account for about 25 percent of Equicor's annual volume. The company was founded as a joint venture of The Equitable Life Assurance Co. and Hospital Corporation of America.

Managed Health Network is a privately held, Los Angeles-based company

which provides managed mental health and EAP services to 2.5 million employees and their dependents nationwide. For the six months ended April 30, 1990, MHN had net operating income of $1.5 million on revenues of $15.2 million.

Dr. Tillotson noted that MHN had grown ten-fold over the past three years and that additional senior-level management was required to maintain this pace of growth.

He said, ''Ron Moreland has an outstanding record of accomplishment in managed health and insurance. As MHN's president and chief executive officer, he will move MHN forward to meet the urgent need among employers throughout the country for MHN's managed mental health and Employee Assistance Programs.''

Moreland, 49-years-old, had been president, Western Operations of Equicor since December 1988, when he was given the responsibility of building the company's managed care, indemnity and third-party administrator operations.

Equicor's Western Operations lost $13.2 million in 1988 and under Moreland's leadership earned $19.6 million in 1989--a $33 million turnaround in 12 months.

Prior to joining Equicor, Moreland was executive vice president and chief operating officer of James Benefits, the employee benefits division of Fred S. James.

From March 1983, through September 1987, Moreland was executive vice president of TransAmerica Occidental Life Insurance Co. He built TransAmerica's Group Insurance Operations from a loss to three years of major annual profit increases through 1985, when the Group Operations were sold to Provident Life & Accident.

Moreland began his career in 1964 with Prudential in Chicago and was vice president, Group Sales, when he left to join TransAmerica Occidental Life Insurance in 1983.

He holds a bachelor of science degree in business from Eastern Illinois University and a master of science degree in psychology from the University of Illinois. He received his Chartered Life Underwriter designation in 1971.

Moreland and his wife, Randi Thompson, and their children live in Los Angeles.

#90156b0029 06/05/1990 ~Business Wire

BENICIA, CA (JUNE 5) BUSINESS WIRE - The first shipment of 1,600 of Lincoln-Mercury's new sporty Capris arrived in Benicia Tuesday from Australia.

The new affordable convertible is the result of an international effort having been designed in Italy, engineered in Japan and Australia and assembled in Australia.

The Capri, which will have a suggested list price starting $12,588, features front-wheel drive, 2+2 seating and an optional turbocharged four-valves-per-cylinder engine. It will be introduced at Lincoln-Mercury dealerships on July 19.

On hand to meet the ship were Frank Wiley, general operations manager, Ford Australia Automotive Assembly Operations; William E. Nieporte, Western Regional Sales Manager for Lincoln-Mercury Division; and David C. Rutter, Australian Consul General.

The Capri comes in two series -- standard and the performance-oriented XR2 -- with suggested retail prices starting at $12,588 for the standard model and $15,522 for the XR2. Both series offer advanced functional features such as DOHC 16-valve engines with multi-port electronic fuel injection, power four-wheel disc brakes, four-wheel fully independent suspension with front and rear stabilizer bars and driver air bag supplemental restraint systems. Additional standard equipment includes power steering, power windows and electronic

AM/FM stereo radios. An optional automatic transmission is available on Capri, and a removable hardtop is available as an option on both Capri and XR2.

The nimble XR2 supplements this equipment with a 132-horsepower turbocharged/intercooled engine, performance suspension, fog lamps, rear spoiler and aluminum wheels. It also will have as standard equipment air conditioning, power door locks and cassette player.

Before delivery to Lincoln-Mercury dealerships, the Capris will be processed at Ford's Benicia Pre-Delivery Center, which is located one mile from the Port. Coatings which protected the vehicles during shipping will be removed and all functional systems will be checked.

The Benicia facility, which is operated by the Pre-Delivery Service Corp., a subsidiary of Ford Motor Co., employs 75 people. The facility's principle function is to process imported vehicles such as the Capri and the Korean-built Ford Festiva, and prepare domestic vehicles for shipment

to the Far East. In addition, it provides pre-delivery service on domestic cars for Bay Area Ford and Lincoln-Mercury dealerships. The facility processes approximately 55,000 vehicles annually.

SANTA BARBARA, CA (JUNE 5) BUSINESS WIRE - Reinforcing its commitment to customer care, Advanced Computer Communications (''ACC'') Tuesday announced it has expanded its technical support services.

Effective June 1, 7-day-a-week telephone assistance and on-site support were added to its existing customer service programs.

The new programs reflect ACC's commitment to providing quality customer support, according to Lonnie Hatchell, director of customer services at ACC. ''Many of our customers can't afford to have their networks go down '' says Hatchell. ''So, we're providing a level of support that keeps their network operational.''

''In this very competitive market of ours,'' says Gray Krall, ACC director of marketing, ''customers distinguish between vendors not only on the basis of price and performance but also on after-sale support. In most cases, the prices of our customer service programs are about half what our competition charges for the same level of support.''

24-hour support and on-site services have been added to ACC's after-sale support programs to provide the high-quality, responsive support that is required to insure production networks remain operational.

ACC customer service representatives will support any geographic location, but for those customers residing within a 100-mile radius of 15 major U.S. cities, ACC will dispatch a support person to the location within four hours from the time the problem is determined.

Other ACC technical services include installation support, software support and customer training. For more information on these and other programs, call the ACC customer service department at 805/963-9431.

Since its incorporation in 1975, ACC has been developing and manufacturing quality data communications hardware and software products that focus on customer needs. Its internetworking products were first introduced in 1988. Since that time, ACC has become a market leader in the remote bridge/router and network management arena.

Worldwide, ACC products are providing connectivity to local and wide-area networks in government and commercial industries.

SCOTTSDALE, AZ (JUNE 5) BUSINESS WIRE - The Sharper Image will be one of the initial retailers of the VCR-2, the world's first dual deck video cassette recorder, Go-Video (NASDAQ:GOVO) Chairman and Chief Executive Officer R. Terren Dunlap announced Tuesday.

The Sharper Image, one of the nation's leading retailers of state-of-the-art products, has 68 retail stores nationwide and a catalog circulation of more than 4 million.

The VCR-2 will be featured on the cover of the September issue of The Sharper Image catalog and will debut in stores nationwide by late-July, according to Dan Rothenstein, The Sharper Image senior merchandising manager of electronics.

The VCR-2, designed and engineered by Go-Video, is the first consumer-oriented VHS format dual-deck VCR. The machine can duplicate tapes with unprecedented quality, edit tape to tape, and record two different TV programs simultaneously. Other features include the exclusive HQ Copy circuitry, a 155-channel cable-ready tuner, multi-channel TV sound, an advanced remote control and on-screen programming.

In addition, the VCR-2 is being introduced with a five-year parts and labor buyer protection plan.

Rothenstein said, ''The VCR-2 represents the innovative and unique product that is exemplary of The Sharper Image. Our customers have been demanding this product and we expect the VCR-2 to be well received.''

The retail agreement was negotiated by D & H Distributing who has a distribution agreement with Go-Video for the first 30,000 VCRs. Initial shipments of the VCR-2 are expected by the end of June.

#90156b0055 06/05/1990 ~Business Wire

MOUNTAIN VIEW, CA (JUNE 5) BUSINESS WIRE - Sun Microsystems announced Tuesday that six of its software products and three Sun-based products from independent software vendors have received the latest branding from X/Open.

Sun made its announcement in conjunction with X/Open's introduction of its newest branding program, based on version three of the X/Open Portability Guide (XPG3) specifications. The program assures users that products displaying the X/Open brand conform to published X/Open specifications. XPG3 branding applies to individual system components and operating system software.

One of the major enhancements to XPG3 is the incorporation of POSIX 1003.1 compliance, which Sun supports in SunOS 4.1.

Founded in 1984, X/Open is a worldwide consortium of system vendors, independent software vendors and major end users who have worked to develop the X/Open Portability Guide (XPG), a vendor-independent, open operating environment based on de facto and international standards.

As a member of X/Open, Sun promotes the acceptance of these standards worldwide and is committed to produce CAE-compliant products.

''Sun has been a strong supporter of the X/Open Branding Program since it was announced almost two years ago,'' said Scott McNealy, Sun's president and chief executive officer.

''Customers are demanding open systems because they see the value they bring in terms of application portability and long-term investment protection. XPG3 brings the industry one step closer to a true open systems environment.''

In 1989, SunOS 4.1 was authorized to display the XPG2 brand, which is based on version two of the X/Open Portability Guide. Today's announcement expands branding of Sun products by X/Open to encompass XPG3 brands as well.

Sun Microsystems Inc., headquartered in Mountain View, Calif. is a leading worldwide supplier of network-based distributed computing systems, including professional workstations, servers and UNIX operating system and productivity software.

SCOTTSDALE, AZ (JUNE 5) BUSINESS WIRE - Interactive Media Technologies Inc. (NASDAQ:IMTX) Tuesday announced that it has signed an agreement with the investment firm of R.G. Dickinson & Co. to act as IMT's investment banker, financial advisor and sole agent in a private placement of up to $4 million of IMT securities, according to R. Glenn Williamson, IMT's chairman, chief executive officer and president.

''Under the terms of our agreement, R.G. Dickinson will undertake the sale of a private placement of securities with the proceeds to be used for the initial manufacturing and market penetration of our IMTX 8000 'production studio in a box,''' Williamson said. ''This added capitalization should ensure the successful launch of our product, with initial shipments due to roll off our production lines in July 1990.''

''Industry reception, following the recent Macworld and Didacta trade shows, has caused the company to escalate its manufacturing efforts to meet market demand for the IMTX 8000,'' Williamson said. ''An association with an investment banker like R.G. Dickinson will provide the financial resources and guidance necessary to capitalize on the full market potential of our IMTX 8000,'' Williamson concluded.

Interactive Media Technologies is a full-spectrum communications company, specializing in computer-based interactive video products which include proprietary hardware and software systems.

#90156b0064 06/05/1990 ~Business Wire
PHOENIX (JUNE 5) BUSINESS WIRE - Stratford American Corp. Tuesday announced it has completed the purchase of a 25 percent working interest in the Billings Field in Noble County, Okla.

The transaction, first announced on April 11, was completed for $1,750,000 in a combination of cash and notes.

Three additional wells have been drilled since the April announcement, bringing the fields production to 24 wells. The company believes that the field will ultimately produce at least 1,000 barrels of oil per day and in excess of 2,000 mcf of gas daily.

The three wells drilled since the April announcement are the start of the

12 well drilling program previously announced by Stratford American's President Mel L. Shultz. He said, ''We are aggressively pursuing the completion of our announced drilling program due to the encouraging results achieved from the first three wells.''

Shultz explained that the production from the Billings Field is expected to add in excess of $1 million of revenue to the company's operations in the next 12 months. Shultz reconfirmed the company is continuing to seek additional sources of revenue while selectively disposing of marginally producing assets they currently own.

Stratford American Corp. (NASDAQ/NMS:STRC) also holds working interests in 18 wells in Freestone and Anderson Counties in East Texas and six gas wells in Arkansas, as well as interests in commercial and industrial real estate primarily in Arizona.

SUNNYVALE, CA (JUNE 5) BUSINESS WIRE - DAVID Systems Tuesday announced the signing of a distribution agreement with Trend Communications A/S of Denmark covering the DAVID 10BASE-T Ethernet family of products.

The length of the agreement is for two years and is valued at just under $1 million.

Trend is a major distributor of data-networking products and systems for both local- and wide-area applications within Denmark with an established customer base numbering over 300. With three basic sales approaches -- major accounts, dealers, and catalogues.

Trend is a recognized and important supplier of equipment and solutions for data and telecommunications within the Danish marketplace.

Trend also provides a consulting function as well as a training function in the data area.

During the beginning of this year, Trend was purchased by Jutland Telephone, one of the major telephone companies of Denmark, with over a million subscribers and 5,700 employees.

''The signing of Trend, a significant, respected player in the data market in Denmark and Europe, is a welcome addition to our distributiion network for Europe, which currently includes the United Kingdom, France, Germany, Switzerland, and Italy,'' said Henry R. Nothhaft, president and

chief executive officer of DAVID Systmes.

Claes Thulin, managing director of Trend said, ''We are pleased to be able to represent DAVID and offer their leading-edge products within Denmark.''

The DAVID LAN product family includes the DAVID ExpressNet 10BASE-T Hub, Intelligent Concentrators (48 and 132 port) the DAVID ExpressView network management system, the recently announced VolksNet 10BASE-T Ethernet LAN for small network configurations, and the DAVID Ether-T Adapters for IBM personal computers and compatibles.

Formed to enhance the role of integrated digital communication, DAVID Systems supplied its first EtherNet LAN products in 1985. As a technical leader in its field, DAVID holds six communications patents and is an active participant in the IEEE802.3 10BASE-T Consortium at the University of New Hampshire.

DAVID Systems products emphasize integrated solutions for LANs voice and data which are easy to expand and adapt to changing customer needs.

BEVERLY HILLS, CA (JUNE 5) BUSINESS WIRE - Litton's Houston-based Western Atlas International high-tech oil services subsidiary has awarded a contract valued at approximately $90 million to a Norwegian shipbuilder for construction of three advanced seismic exploration ships.

The project is part of Western Atlas' program to continuously upgrade its technological services capability. The ships will be delivered in the second half of 1991 to the company's Western Geophysical division, the world's largest land and marine seismic exploration contractor.

With more than 30 vessels currently in operation, Western Geophysical has the biggest fleet of seismic exploration ships in the industry.

The three Western Geophysical ships will range from 230 to 305 feet in length and will have on board crews of approximately 40 people who will be regularly rotated ashore as the ships remain at sea for months at a time. In order to optimize the acquisition of offshore seismic measurements from miles under the ocean floor, the ships have been designed specifically to keep ambient noise and vibrations to minimum levels.

The new ships will acquire seismic data through dual, hydrophone-studded cables up to 20,000 feet long towed behind each vessel. The ships' data

acquisition systems are expandable to three or four towed cables.

On board, advanced data recording, precision navigation and quality-control systems will assure the accuracy of both conventional two-dimensional and more complex three-dimensional surveys.

Seismic surveying is accomplished by penetrating the earth's surface or ocean floor with precisely timed sound waves, which are reflected back upward by rock strata, detected on the surface by sensitive receivers, translated electronically into digital signals and recorded on magnetic tape for comprehensive processing, display and evaluation by geophysicists for specific signs of promising areas in which to drill wells.

Western Atlas, a majority-owned Litton subsidiary, is the world's leading single source of integrated reservoir description services.

Litton is a technology-based company providing advanced electronic and defense systems, resource exploration services and industrial automation systems to U.S. and world markets.

KANSAS CITY, MO (JUNE 5) BUSINESS WIRE - The cash tender offer for any and all shares of common stock of DST Systems Inc. (NASDAQ:DSTS) is to be increased from $14 to $15.85 net in cash per share, Kansas City Sosuthern Industries Inc. (NYSE:KSU) announced Tuesday.

The offer, initially made May 23, 1990, is subject to certain conditions, but the conditions do not include a requirement for tender of any minimum number of shares.

Kansas City Southern reported that an agreement and plan of merger had been entered into with DST Systems calling for acquisition of the DST Systems shares, not already owned by Kansas City Southern or its subsidiaries, pursuant to the tender offer and a subsequent merger.

Information about the amended tender offer and the merger agreement will be published and mailed to DST Systems stockholders within a few days, according to Kansas City Southern management, who advised that DST Systems stockholders should not tender their shares until they have received and reviewed such information.

Kansas City Southern currently owns 16,580,000 shares (87.1 percent), and

Kansas City Southern directors and officers own 258,340 shares (1.4 percent), of DST Systems common stock.

DOWNERS GROVE, IL (JUNE 5) BUSINESS WIRE - Rockwell International has announced a new capability for its Galaxy ACD that is expected to dramatically change the way call centers handle large volumes of incoming calls.

''We're calling this new capability IQueue,'' said Rich Beyer, vice president and general manager of Rockwell's Switching Systems, ''and it is going to revolutionize the way our Galaxy customers manage their callers' expectations.''

IQueue, as an important part of Rockwell's Total Transaction Call Processing (TTCP) environment, offers an advanced set of call management application packages. Each has flexible, customer-defined functionality to provide customized service for callers to all types of call centers.

''Initially, IQueue will be available with a choice of three packages,'' said Beyer. ''They are Intelligent Announcements, Intelligent Routing and ACDMail.''

Beyer said three more application packages will be offered in the near future: ACDMail with Automessage Delivery, ACDMail with Agent Controlled Outdial, and ACDMail with System Controlled Outdial.

All six are part of the IQueue capability, a vital link to Total Transaction Call Processing.

Explaining how Intelligent Announcements will reduce abandoned calls by managing customer expectations, Beyer said, ''With this IQueue capability, callers can be told how long the holding time is expected to be. IQueue not only counts the calls in queue, but also calculates the holding time based on a real-time analysis of actual call statistics.''

The second package, Intelligent Routing, gives a caller the option to route his own call. ''Perhaps the caller would like to retrieve information from a database or hear a recorded service announcement,'' Beyer said. ''The caller is offered a menu of choices which he may select via a touch-tone telephone.''

With this application, the number of misdirected calls is reduced, call abandon rates are decreased, and the caller has more control over the call completion process.

ACD Mail offers yet another choice to the caller. After hearing the Intelligent Announcement, the caller may choose to leave a message and receive a return call rather than hold for a representative.

''Calls not of a critical nature can be handled after the representative provides service to those in queue,'' said Beyer.

Rockwell is offering the IQueue capability both on new systems and on installed Galaxy ACDs. Delivery is 90 days ARO.

LOS ANGELES (JUNE 5) BUSINESS WIRE - Home Savings of America, the principal subsidiary of H.F. Ahmanson & Co. (NYSE:AHM), Tuesday announced a $250 million subordinated debt issue, with seven year notes due on June 12, 1997.

The notes are priced at 99.70 percent to yield 10.56 percent.

The issue, which is not callable until 15 months prior to maturity, was priced at a spread of 207 basis points above the current yield on seven-year Treasury Notes.

The debt issue is rated Baa1 by Moody's and BBB+ by Standard and Poors. Moody's and Standard and Poors recently confirmed their ratings of H.F. Ahmanson & Co. and Home Savings of America.

The offering is being underwritten by Merrill Lynch Capital Markets, Goldman Sachs & Co. and The First Boston Corp.

All of the proceeds from the sale qualify as Tier 2 capital under the risk-based capital requirements of the Financial Institutions Reform, Recovery and Enforcement Act (FIRREA) enacted by Congress in 1989.

Based on March 31, 1990, balance sheet data, the proceeds from this note issue, along with the recently completed reduction of the company's recourse liability on its loans sold previously to the Federal National Mortgage Association (Fannie Mae), will bring Home Savings of America's total risk-based capital ratio to 8.31 percent, well above the 6.4 percent

level required on Dec. 7, 1989.

This offering will help Home Savings to achieve its goal of meeting as soon as possible FIRREA's fully phased-in capital requirements that take effect in 1994.

Home Savings of America, with assets of more than $46 billion and deposits of over $33 billion, is the nation's largest savings and loan institution.

ANAHEIM, CA (JUNE 5) BUSINESS WIRE - Printrak Inc., the world's leading supplier of Automated Fingerprint Indentification Systems (AFIS), Tuesday was acquired by its management from the De La Rue Group.

Printrak's management was convinced that an entrepreneurial team dedicated to developing the business would be the best way of enhancing the benefit to De La Rue, Printrak and its customers.

De La Rue was persuaded to accept this approach especially as De La Rue has been concentrating on its core businesses since the sale of Crosfield last year.

De La Rue, through its subsidiary De La Rue Printrak Ltd., will continue to market and distribute Printrak's products and support customers outside North America.

Richard Giles, Printrak president and chief executive officer, said Tuesday: ''The team at Printrak is very excited about the prospects that this acquisition holds for the future of Printrak and our customers. Our order position is healthy; the prospects for the future are bright and we expect to continue to make profits through this year and beyond.''

Printrak further announced that it has obtained acceptances from seven customers on major systems in the last three months and is in various stages of acceptance on a further seven systems.

IRVINE, CA (JUNE 5) BUSINESS WIRE - AST Research Inc. (NASDAQ: ASTA) and the Information Technology Group (ITG) of Texas Instruments (TI) in Austin, Texas, have announced the formation of a worldwide alliance that includes an agreement for TI (NYSE: TXN) to provide service to users of AST's high-performance computer systems.

In addition to providing service domestically, TI will service AST systems in key international markets. This announcement follows an OEM agreement that was signed by both companies in March, under which AST develops custom computer systems for TI.

The new contract calls for TI's ITG Services Division to provide on-site warranty and post-warranty repair services to resellers, distributors and end-users of AST's computers. TI will offer AST resellers and distributors-incentive programs similar to those extended to TI's distribution base.

One such program offers resellers an annual discount on services that are subcontracted to TI; another offers a finder's fee to resellers who sign customers to TI service contracts.

"For AST resellers and distributors that currently provide their own services to end-users, TI's program will act as a complementary offering, " said James T. Schraith, AST vice president of worldwide reseller and customer services.

He continued: "After looking at several companies that could provide this support to our customers, we settled on Texas Instruments for two reasons: the overwhelming satisfaction TI's existing customers have expressed in its services and TI's reputation for technical excellence and innovation." TI's immediate plans include providing service and support for AST systems in England, Canada, and Italy.

"The agreement with AST is a major acknowledgement of TI's strength as a

service provider and is a direct result of the reputation TI Field Service has built over the past 30 years as a provider of maintenance, support, and integrated services," said Bill Martin, vice president of TI.

He continued: "TI's OEM agreement with AST is testimony to our belief in the quality of AST products. The complementary strengths of TI service and AST products should provide a powerful marketing advantage to both companies' resellers."

Texas Instruments is recognized as having one of the leading service organizations in the computer industry, with worldwide service locations and a wide range of service offerings.

PHOENIX (JUNE 5) BUSINESS WIRE - The following is a copy of the letter Mark De Michele, Arizona Public Service Co. president and chief executive officer, Tuesday faxed to David Bolender, PacifiCorp electric operations president:

Mr. David F. Bolender, President
PacifiCorp Electric Operations
700 N.E. Multnomah, Ste. 1600
Portland, Oregon 97232-4116

Dear Mr. Bolender:

Your recent approach to Southern California Edison soliciting their willingness to undertake corporate oversight and responsibility for the Palo Verde Nuclear Generating Station gives me great concern and seriously challenges your desire to enhance nuclear safety.

My organization is in the critical phase of restructuring units 1 and 2 to operational status that requires a great amount of "attention to detail" on the part of each and every employee. Your posturing has negatively impacted morale and heightened the anxiety level of employees.

I realize that you lack the experience necessary to manage and operate a nuclear facility. If you had, you would have realized that your action was precipitious and certainly not in the best interest of nuclear safety, participant utilities, shareholders, customers and Arizonans. Your efforts were solely selfishly motivated and perhaps intended to sabotage our efforts.

On Nov. 8, 1989, at your press conference announcing your initial proposal to merge with APS, I understood that your corporate representatives stated that PacifiCorp had confidence in the Palo Verde management team.

I find it ironic that six months later, after significant accomplishments had been realized at Palo Verde, you now openly discuss in the media replacing the management team at the plant and placing its operations in the hands of another organization. I fail to understand your logic.

Last week, I personally discussed our performance as license holder and operator of Palo Verde with senior management representatives of the participating utilities. Without exception, they concluded that our Palo Verde management team is making considerable progress and they support the direction we have taken at Palo Verde.

In closing, I ask that you carefully consider the potential safety impact of any attempted overt actions you might initiate relative to our nuclear facility. Nuclear safety cannot and must not be compromised for any reason.

Sincerely,
Mark De Michele

DAYTON, OH (JUNE 5) BUSINESS WIRE - Audio/Video Affiliates Inc. (NYSE:AVA) Tuesday reported revenues and net income for the first quarter ended April 30, 1990.

For the quarter the company reported net income of $122,000, or 2 cents per share, compared with a loss of $429,000, or 4 cents per share for the quarter ended April 30, 1989; the quarter ended April 30, 1989 included a non-recurring gain of $343,000, or 4 cents per share as a result of a change in inventory accounting. Revenues for the quarter totaled $28,303,000, compared with $31,720,000 in 1989. The average number of shares outstanding during the first quarter was 6,671,000, compared to 9,942,000 for the same period in the prior year.

Same store sales for the first quarter increased 30.1 percent as compared to the same period in the prior year, and for May, 1990, same store sales increased 35.3 percent as compared to May, 1989. During the first quarter of fiscal 1991 the company had 72 stores, compared to 119 stores in the prior year.

Commenting on the results, Stuart A. Rose, chairman and CEO of Audio/Video Affiliates Inc., said ''The transition experienced during fiscal 1990 is favorably continuing into fiscal 1991.'' Rose attributed the company's performance in the first quarter to the store closings in fiscal 1990, the continued strong controls and monitoring of overhead-related costs and the increase in same store sales experienced during the quarter.

Audio/Video Affiliates Inc. is a leading specialty retailer of consumer electronic products and appliances. The company, headquartered in Dayton, operates stores in 17 midwestern and sunbelt states under the trade names ''Rex'' and ''TV and Stereo Town.''

IRVINE, CA (JUNE 5) BUSINESS WIRE - Americus Funding Corp. (AFC)(OTC Pink Sheets), announced Tuesday that it will effect a 1 for 200 reverse split of its outstanding shares of common stock and a reduction in the number of authorized shares of common stock.

The record date and effective date for the reverse split will be June 15, 1990. These actions will reduce the outstanding shares of common stock to

approximately 2,807,740 and the authorized shares of common stock to 10 million.

On March 28, 1990, AFC's subsidiary, Advanced Immunotherapeutics Inc. (AIT), filed its first patent application pertaining to a new class of pharmaceutical products as well as to specific compounds for the treatment of neurological and immunological diseases, such as Alzheimer's disease, neurological aspects of human immunodeficiency virus (HIV) infection, schizophrenia and neuroimmunological deficiencies in aging.

No assurance can be given as to when or if any patents will be issued. AIT is not proposing that it will develop a ''cure'' for these diseases or any other disease, but is developing compounds intended to treat certain immune and/or neurological defects or deficiencies associated with the targeted diseases.

GREAT NECK, NY (JUNE 5) BUSINESS WIRE - Avnet Inc. (NYSE:AVT) announced Tuesday that it will combine the distribution businesses of its Avnet Technologies subsidiary with those of its Hamilton/Avnet Computer division effective July 1, 1990.

The newly restructured company will be renamed Avnet Computer.

Roy Vallee, president of Hamilton/Avnet Computer since February, 1989, and Avnet Computer Technologies since March, 1990, has been named president of the $350 million combined company by Leon Machiz, Avnet's chairman and chief executive officer.

Machiz stated, ''The two sales teams and all field facilities and warehousing will be combined effective July 1, 1990. The consolidated operation should enhance the division's product offerings, utilize the combined 80 person computer engineering staff and consolidate their services and software alliances.

''The new company will be better able to provide competent technical sales and service to resellers and OEMs and to create a broader based more important presence in the end user configured systems market.''

''The old distinctions between personal computers and larger systems no longer apply,'' noted Roy Vallee. ''Our customers need the combined expertise of both our operations--desktop computers, servers, networks, consulting, configuring, service and support.

''They need the complete solution and with Avnet Computer, we can now give them exactly what they need.''

Avnet Inc. is the world's largest distribution of electronic components and computer products.

BOXBOROUGH, MA (JUNE 5) BUSINESS WIRE - Xyplex Inc. and Vitalink Communications Corp. (NASDAQ:VITA) announced Tuesday that they have completed a strategic marketing and technology transfer agreement, including provisions for a reseller relationship.

Xyplex, the leader in the communications server industry, and Vitalink, a LAN internetworking leader, have joined forces to answer customers' requests for interoperable, multivendor networking over wide area networks.

To meet this demand, Xyplex and Vitalink are sharing technologies to create a powerful new solution: the world's first fully interoperable multivendor remote bridges. Xyplex will design a new line of remote bridges that will interoperate with Vitalink's bridges and bridge/routers, with Vitalink assisting to assure complete compatibility.

Under the new agreement, Xyplex will also resell Vitalink's TransLAN bridges and TransPATH bridge/routers; the two companies will cooperate on sales to key accounts.

The partnership is seen as a solution to a growing problem in the connectivity market: the lack of interoperability between remote bridges from different vendors. Customers are asking for networking and internetworking solutions that address a broad range of performance, applications, and media requirements, and still maintain standards compatibility; these demands are outstripping the abilities of even the largest networking equipment suppliers to internally develop complete solutions.

Xyplex and Vitalink believe that a partnership of industry leaders in complementary market segments can achieve a better solution, allowing each company to focus on their individual market segment while cooperating to ensure interoperability.

To achieve this goal, Xyplex and Vitalink are developing complementary products which provide WAN-link interoperability using the Vitalink Communication Protocol (VCP), which Xyplex has licensed from Vitalink; products will also support the IEEE 802.1D Spanning Tree Protocol and be compatible with Vitalink's network management station, WANmanager. The first of these products, the MAXserver 6510 Remote Bridge Card, was also announced today.

Vitalink Communications Corp., founded in 1980, manufactures and markets a family of LAN internetworking systems including Ethernet and token ring remote bridges, bridge/routers, and a comprehensive network management system.

All products are sold directly by Vitalink and indirectly via a network of distributors. Over 13,000 systems are installed worldwide, reflecting the company's premier position as a supplier of advanced internetworking systems used in large multivendor computer networks. Sales worldwide reached $70 million for the 12 month period ending March 31.

Vitalink manufactures and markets a variety of remote LAN interconnection solutions. Its TransPATH bridge/router gives users the flexibility of a full-featured bridge with a TCP/IP router. Introduced in 1984, the TransLAN bridge is designed to interconnect remote Ethernet local area networks.

TransRING offers remote bridging capabilities to token ring environments, and Vitalink's WANmanager, a powerful, self-learning network management station, allows users to monitor and control their wide area network.

The leading vendor of Ethernet local area network communication servers, Xyplex has become the vendor of choice for providing high-uptime Ethernet solutions for desktop and workstation groups. Xyplex MAXserver family of communications servers provide high-density and support for multiple networking functions and multiple transmission media, all in the same chassis.

Additional functions include: multi-protocol terminal-to-host communication connections, bi-directional LAT to TCP/IP translation, dynamic print sharing between VAX/VMS, VAX/ULTRIX, and UNIX hosts. In addition, the MAXserver family supports industry-standard network management, including SNMP, RCP, and Remote Telnet. Xyplex Inc. is headquartered in Boxborough.

OAKLAND, CA (JUNE 5) BUSINESS WIRE - The Bay Area is the setting for a four-day conference of nearly 1,000 local elected leaders from throughout the nation meeting to discuss common issues of economic, political and racial diversity.

The event is the 24th annual conference of the National Association of

Regional Councils. The conference is being hosted locally by the Association of Bay Area Governments and the Metropolitan Transportation Commission, with the support of dozens of corporate sponsors.

The meeting, running from June 10 through June 13, will be held at the San Francisco Hilton. State Assembly Speaker Willie Brown will welcome delegates to San Francisco and describe his proposal to create seven regional development and infrastructure agencies throughout California.

Conference issues fall under the umbrella of ''managing diversity.'' These include the growing disparity among rich and poor, diversity within regions of the country, and the role of regional planning organizations in growth management, transportation, economic development and response to natural disasters, such as the Loma Prieta earthquake.

''The nine-county Bay Area is a gold mine of information on regional and subregional approaches to problems,'' said ABAG President Warren K. Hopkins, a Rohnert Park city councilmember. ''This convention is a good opportunity to showcase some of the innovative approaches ABAG and MTC have taken to deal with regional problems.''

ABAG is the regional planning agency for the nine-county San Francisco Bay Area and provides planning, demographic, financial, administrative and training services to local governments and businesses.

MTC is the region's transportation planning and financing agency.

LOS ANGELES (JUNE 6) BUSINESS WIRE - Howard K. Lee announced Tuesday that the offer by Edward T. Chan, George H. Lai, Howard K. Lee, Johnny Ma, Kurt Oetiker and Katy C. Shu (collectively the ''Purchasers'') to purchase all, but not less than 385,641, of the outstanding shares of common stock of Grand National Bank, with headquarters in Santa Ana, Calif., has been extended until 5 p.m. PDT, on June 27, 1990.

The withdrawal and termination of the offer announced by the purchasers on June 1, 1990, has been retracted. The offer, as extended, currently remains subject to all of the terms and conditions described in the tender offer materials, dated May 1, 1990, which were distributed to the shareholders of Grand National Bank.

However, the purchasers also announced Tuesday that they are engaged in negotiations with the bank which may result in an amendment to the terms of the offer.

PHOENIX (JUNE 5) BUSINESS WIRE - John W. Teets, chairman, president and chief executive officer of Greyhound Dial Corp. (NYSE:G), responding to the bankruptcy filing of Greyhound Lines of Dallas, said Tuesday, ''The bankruptcy action is a positive, stabilizing move which should help solidify the troubled position of Greyhound Lines and go a long way to ensuring the long-term survival of the bus lines.''

Greyhound Dial sold the bus lines in 1987 for more than $350 million.

The losses in ridership and revenues since the inception of the violence-marred nationwide strike by the Amalgamated Transit Union and the ensuing increased expenses were definitely sapping the vitality of Greyhound Lines. Until the strike, Greyhound Lines had been making its payment on all obligations owed to Greyhound Dial.

Greyhound Dial still retains a 22.5 percent stake in GLI Holding, the parent of Greyhound Lines, as well as holdings of Greyhound Lines preferred stock, a junior subordinated note and other notes and accounts receivable, and has substantial assets leased to the bus lines, and other contractual relationships. With the bankruptcy filing, Greyhound Dial expects to receive payments for lease rentals.

As a results of the bankruptcy, Greyhound Dial is providing a one-time charge attributable to discontinued operations, of $100 million (after tax) equal to $2.50 per share to establish a reserve for the losses related to Greyhound Lines.

The actual dollar amount of the loss will ultimately be determined by future developments including the bankruptcy proceedings and results of the ongoing business operations.

These developments are not expected to materially affect Greyhound Dial's ongoing income from continuing operations, which remain very strong.

Greyhound Dial will work diligently with the bankruptcy court in the coming months in efforts to sustain the viability of the company as a continuing factor in the national transportation picture.

The Greyhound Corp. changed its name to Greyhound Dial in February 1990 and is primarily involved in consumer products, services, transportation manufacturing and financial services.

BEVERLY HILLS, CA (JUNE 5) BUSINESS WIRE - Qintex Entertainment Inc. (''QEI'')(NASDAQ:QNTQE) Tuesday reported that its board of directors has approved the sale of the company's operating assets for over $65 million in cash in two separate transactions.

QEI has reached an agreement with RHI Entertainment to sell its entertainment assets for $42.4 million. Under another agreement, certain assets of HR Broadcasting (''HRBC'') will be sold to ABRY Communications for cash in a transaction which will result in over $40 million of cash available for distribution to HRBC's creditors and shareholders.

QEI expects to receive at least $23 million from the distribution of those proceeds for its interests in HRBC.

The asset sales were arranged by the company in conjunction with QEI's creditors and the company's investment banker, Donaldson, Lufkin & Jenrette. As reported on Oct. 19, 1989, QEI has filed for protection under Chapter 11 of the Federal Bankruptcy Code.

The QEI library, accounts receivable, development projects and other assets will be sold to RHI Entertainment in a cash transaction totalling $42.4 million. The transaction with RHI will be financed by bank debt and a group of equity investors.

HRBC will sell its primary operating assets consisting of television stations WTTO in Birmingham, Ala., and WCGV in Milwaukee. HRBC will retire its bank debt and make a distribution to its creditors and shareholders from which QEI expects to receive at least $23 million.

The transactions are subject to completion of final due diligence, regulatory approvals, execution of definitive documentation and the approval of the U.S. Bankruptcy Court. QEI expects to propose the asset sales to the court within the next two weeks, and final approval would be expected several weeks later. The transactions are being arranged in accordance with Section 363 of the U.S. Bankruptcy Code. Funds from the asset sales will be allocated in accordance with a reorganization plan that will subsequently be proposed through the court.

#90156b0619 06/05/1990 ~Business Wire

SANTA CLARA, CA (JUNE 5) BUSINESS WIRE - RasterOps Corp. (NASDAQ:ROPS), a leader in color display technology for the Macintosh, Tuesday announced the 8L and 24L Display Boards, 24-bit true color display boards for the Macintosh II family that provide flicker-free, multiple-resolution displays for most 13-, 16- and 19-inch monitors.

The boards are also available as system packages with RasterOps' 16-inch and 19-inch monitors.

The boards provide flexible system configurations that support image resolutions of 640 X 480, 800 X 600 or 1024 X 768 pixels at screen refresh rates of 60Hz or 75Hz. The 8L Display Board offers the same features as the 24L but provides an inexpensive, entry-level color solution which can easily be upgraded to 16.7 million colors by adding additional memory with the RasterOps 8L VRAM Expansion Kit.

Both the 8L and 24L Display Boards support Block Mode Transfer, the Apple standard for transferring large amounts of data rapidly across the bus, and the RasterOps Accelerator, a Quick Draw graphics accelerator which significantly boosts overall performance of 24-bit color, graphics-intensive applications.

The boards support display bit modes from monochrome through photorealistic color with true WYSIWYG display resolution (72 dots per inch), which allows users to visualize the actual printed result. Pan/Zoom

capabilities allow two to four times screen enlargement and quick document panning. The Extended Desktop feature creates a bigger desktop window, advantageous when working with large documents.

''With the 8L and 24L boards supporting Block Mode Transfer, the Accelerator can then be used to take advantage of the quicker transfer of data,'' said Scott Brodrick, product manager at RasterOps. ''This will make full-color grahics applications work faster and smoother.''

Price and Availability

The 8L Display Board will have a suggested retail price of $1,995, while the 24L Display Board will be priced at $3,995. The 24L is available immediately; the 8L will begin shipping in June. The RasterOps 8L VRAM Expansion Kit will have a suggested retail price of $1,995. The RasterOps 8L System package, which includes the 8L board and 19-inch monitor, will retail for $6,190; the 8L System 16 includes a 16-inch monitor for $4,990. The RasterOps 24L System includes a 19-inch monitor and lists for $8.190; the 24L System 16 includes a 16-inch monitor at $6,990.

RasterOps, headquartered in Santa Clara, designs, manufactures and markets photorealistic color-imaging products primarily for the graphics arts, printing, publishing and related industries.

#90156b0620 06/05/1990 ~Business Wire

NEW YORK (JUNE 5) BUSINESS WIRE - In a simultaneous transaction, RHI Entertainment Inc. announced that it will purchase the television library, receivables and related assets of Qintex Entertainment Inc. (QEI) (NASDAQ:QNTQE) while New Line Cinema Corp. (ASE:NLN) and Chemical Banking Corp. (NYSE:CHL) will each purchase a significant equity interest in RHI Entertainment Inc.

An additional investment in the equity of RHI will be made by an investment fund.

Chemical Bank is acting as an advisor to RHI Entertainment and has indicated a willingness to provide a bank loan to RHI Entertainment to purchase the assets and provide working capital. Chemical Bank is also the lead banker for New Line Cinema.

Furman Selz Mager Dietz & Birney Inc. is acting as advisor to New Line in connection with its investment in RHI Entertainment.

The QEI library consists of Robert Halmi titles, the Hal Roach Studio library and new HRS (Hal Roach Studio) titles such as ''Lonesome Dove.'' Robert Halmi Inc. and Hal Roach Studios Inc. were each acquired by Qintex Entertainment in 1988.

The purchase price for the Qintex assets is approximately $42.4 million. It is anticipated that the purchase by RHI will be financed substantially by a credit facility to be made available to RHI by Chemical Bank. New Line's equity investment will be approximately $7.5 million. Subject to bankruptcy court approval, the transaction is scheduled to close in early July.

New Line's investment in RHI is consistent with its long-term strategy to expand its presence in television production and distribution. New Line will work closely with RHI chairman Robert Halmi Sr. and president and chief executive officer, Robert Halmi Jr. to position RHI as a leading producer and distributor of television product for the worldwide markets.

RHI Entertainment is a television production company formed by Robert Halmi Sr. and Robert Halmi Jr. RHI recently completed production of ''The Last Elephant,'' starring John Lithgow, Isabella Rossellini and James Earl Jones for Turner Network Television.

Qintex Entertainment in currently in Chapter 11. The board of directors of Qintex and its creditors have approved the transaction and the purchase is subject to the execution of a definitive purchase agreement and approval of the U.S. Bankruptcy Court.

New Line Cinema is a leading independent producer and distributor of theatrical motion pictures.

PLEASANTON, CA (JUNE 5) BUSINESS WIRE - Ronald J. Brown has been appointed senior vice president, national accounts, for ComputerLand Corp. announced William Y. Tauscher, chairman, president and chief executive officer of ComputerLand.

Brown will be responsible for ComputerLand's sales programs with its vendor partners and for the company's national accounts program, which targets Fortune 500 companies.

''Our emphasis increasingly has been to focus more on growing our large corporate business,'' said Tauscher. ''Ron was our logical choice to head up this effort because of his expertise in this area and his enthusiasm for seeing us grow in this direction.''

Brown joins ComputerLand after four years with San Jose-based Businessland Inc., where most recently he served as senior vice president, Businessland services. He joined Businessland in 1986 as senior vice president, marketing and sales.

Brown's career in the electronic and computer industry spans more than 30 years. He has served as a branch marketing manager for IBM, Chicago; senior vice president, marketing and international, Transamerica Computer Co., San Francisco; and president, Brown Marketing Associates Inc., Lafayette.

From 1982 until 1986, Brown held senior management positions at Osborne Computer Corp., Fremont. He joined Osborne, a manufacturer of portable computers, as vice president, international. In 1984, he was named chairman and president of the company and served in that capacity until he left in 1986.

Brown holds a bachelor's degree in psychology from the University of Illinois, Chicago. He resides in Lafayette with his wife, Sara, and two children.

ComputerLand Corp., with headquarters in Pleasanton, is the world's largest multivendor computer reseller network, servicing the corporate customer. ComputerLand reported 1989 retail sales of more than $2.5 billion.

#90156b0625 06/05/1990 ~Business Wire

TORRANCE, CA (JUNE 5) BUSINESS WIRE - Mitsubishi Electronics on Tuesday announced the availability of five new monitors ranging in size from 14 inches to 26 inches that operate over a wide range of popular interlaced and non-interlaced frequencies including VGA, VGA Plus, 8514/A and TARGA interlaced, Macintosh II, CGA, EGA and Super EGA.

The new HC3905 series, FA3435 series and the HC3505SK monitors feature

auto scanning between 15 and 38 kHz (horizontal) and 50 to 87 Hz (vertical) for versatility, and support analog or digital signal inputs without the need for internal manual ajustments. Typical resolution for the new monitors is 640 x 480 and 800 x 600 non-interlaced, and 1,024 x 768 interlaced.

The HC3905 series of 20-inch monitors are intended for the computer user who needs a larger screen size than offered by the typical 14-inch monitor. Applications for the HC3905 monitors include presentations, animation, graphic arts, kiosks, process control and entry-level CAD/CAM requirements.

FCC Class B certified, both versions have reduced emissions for home, office or government applications.

The HC3905ATK is best suited for non-interlaced operation from TTL or analog RGB signal sources from VGA, EGA, CGA, Mac II or 800 x 600 pixel Super VGA with a standard persistence P22 phosphor.

The HC3905L9ATK, designed for interlaced operation, incorporates a long persistence (LP) phosphor that eliminates flicker. This monitor is best suited for users who have selected an interlaced graphics controller, such as 8514/A, TARGA or Super VGA (1,024 x 768 interlace mode). The inherent use of interlaced technology provides a cost-effective solution for 1,024 x 768 resolution.

Suggested retail price of the HC3905ATK is $2,670, and $2,720 for the HC3905L9ATK. HC3505SK

The HC3505SK is a 26-inch monitor that offers a large viewing area for multiperson viewing or industrial applications in presentation systems, kiosks, process control and flight simulation. This monitor features an extremely fine dot pitch of 0.31 mm.

Like the HC3905 series, the HC3505SK includes an industry-standard P22 phosphor for non-interlaced applications. The digital scan mode memory stores custom display settings including size and position for both horizontal and vertical requirements.

Suggested retail price of the HC3505SK is $11,300. FA3435ATK Series

The FA3435ATK and FA3435L9ATK are 14-inch monitors that include all-world, tap selectable power supplies for use from 120 or 240 VAC. Featuring a fine dot pitch of 0.28 mm and 40-MHz video bandwidth, both models offer optimum sharpness and clarity.

These monitors are intended for performance requirements where the fine dot pitch, 14-inch size and 40-MHz bandwidth are needed for ultimate video

imagery. They are particularly important for applications such as Windows, desktop publishing and CAD/CAM that generate one or two pixel width characters or lines.

Suggested retail price of the FA3435ATK is $1,280. The FA3435L9ATK is $1,320. New Anti-Glare Filters Now Available

Optional high-performance anti-glare filters for the 26-inch HC3505 and HJ6505, 33-inch XC3310C and the 37-inch XC3715C display monitors are now available from Mitsubishi.

The new filters incorporate the finest vapor deposition anti-glare coatings on tinted glass panels, housed in high-quality molded plastic frames, and are designed to fit directly over the front of the cabinet. No disassembly of the monitor is required for installation.

The filters enhance the display and make it viewable in most harsh-viewing environments.

Suggested retail price of the 26-inch filter is $360, $505 for the 33-inch and $565 for the 37-inch.

Mitsubishi Electronics America Inc., with headquarters in Torrance, was founded in 1977. The Information Systems division is responsible for U.S. sales, marketing and support of personal and laptop computers, 14-inch to 37-inch color monitors, flexible, rigid and optical disk drives scanners and color thermal printers.

#90156b0627 06/05/1990 ~Business Wire

SUNNYVALE, CA (JUNE 5) BUSINESS WIRE - Cylink Corp. Tuesday announced it was chosen to supply the advanced technology to support a revolutionary new telephone service for consumers.

LiTel Telecommunications Inc., a fiber-optics based, long distance carrier located in Worthington, Ohio, petitioned the FCC last week for permission to conduct the ''first ever'' test of a wireless integrated telephone service using Cylink's advanced spread spectrum technology.

LiTel's ''wireless'' telephone access service holds promise of supplanting the century-old copper wire infrastructure which ties people to their telephone.

LiTel's project has the potential to evolve into the first personal

communications network (PCN) in the United States. PCNs are currently planned for implementation in London in late 1992. By their action, LiTel assures the United States a leading technology role in the world-wide employment of this new method of accessing the telephone network.

The technology, spread spectrum, is being supplied by Cylink Corp., a leader in advanced communications and encryption products. Cylink's chairman, and ex UCLA professor, Dr. Jim Omura, is a world renowned expert in the spread spectrum field.

This new technology's significance lies in the ability of spread spectrum radios to operate interference free in the highly congested frequency bands found in most urban environments.

Wireless access to the network will change the underlying dynamics of the telephone industry and will make major inroads into the copper-wire based local loop ''bottleneck'' which forms the basis of the local telephone company regulated monopoly.

Cylink Corp. was founded in 1983. Today, Cylink is recognized as a world leader in secure communications and systems.

SALT LAKE CITY (JUNE 5) BUSINESS WIRE - Research Industries Corp. Tuesday announced that it has closed a transaction to divest 178 acres of industrial park property in Arizona for $1.9 million in cash.

The property was purchased by Dole Fresh Vegetable Co. Inc., a subsidiary of Castle and Cooke.

Gary L. Crocker, president, said, ''The major benefits derived from this transaction will be to substantially strengthen the company's balance sheet, essentially eliminate all long-term debt, and eliminate the holding costs associated with the property that will benefit ongoing earnings.''

He further indicated that this capital infusion, and its associated interest income, will help fund and accelerate several new product development projects, such as the heparin removal filter device for use in cardiovascular surgery.

Research Industries Corp. reported year-to-date net income through the third quarter ended March 31, 1990 of $1,012,542, or 18 cents per share, a 109 percent increase over the prior year's nine-month period.

Research Industries is a diversified biomedical firm specializing in the development, manufacture and sale of hospital disposable products for open-heart surgery and specialty pharmaceuticals. The company's common stock is traded over the counter, NASDAQ, National Market System, with the symbol REIC.

ATLANTA (JUNE 5) BUSINESS WIRE - Coca-Cola Enterprises (NYSE:CCE) today announced that it has reached an agreement in principle to purchase Coca-Cola Bottling Company of Arkansas (''Arkansas'') from The Coca-Cola Company for an aggregate price of approximately $250 million.

In a separate transaction, CCE also announced that it has reached an agreement in principle to sell its majority interest in Coca-Cola Bottling Company of Ohio (''Ohio'') and its ownership of Portsmouth Coca-Cola Bottling Company Inc. (''Portsmouth'') to Johnston Coca-Cola Bottling Group Inc. Aggregate consideration for equity and debt securities related to these properties is expected to be approximately $120 million.

The proposed sale of these bottling territories is expected to result in a one-time gain of approximately $55 million before tax.

The territory served by the Arkansas bottler includes the cities of Little Rock and Shreveport and encompasses portions of Arkansas, Louisiana and Texas. The territory served by the Ohio and Portsmouth bottlers includes the cities of Columbus, Toledo and Akron and encompasses portions of Ohio and Kentucky.

The proposed transactions are anticipated to close prior to the end of the second quarter. CCE has conditioned the sale of its interest in the Ohio bottler upon its acquisition of Arkansas, and likewise, The Coca-Cola Company has conditioned the sale of Arkansas upon CCE's sale of its interest in the Ohio bottler. Completion of these transactions also is subject to approval by the respective boards of directors and to various regulatory approvals, among other conditions.

Additionally, CCE announced that in response to the financial condition of several highly leveraged customers, it expects to establish in the second quarter incremental reserves of approximately $10 million for potentially uncollectible trade accounts receivable.

CCE also announced that in the quarter it will recognize restructuring charges of approximately $9 million relating primarily to the planned standardization of the Company's information systems operations.

#90156b0654 06/05/1990 ~Business Wire

LOUISVILLE, CO (JUNE 5) BUSINESS WIRE - Storage Technology Corp. (NYSE:STK) Tuesday announced three enhancements that expand the functionality and performance of the 4400 Automated Cartridge System (ACS): a dual Library Management Unit; a new release of the Host Software Component; and a new software product, Expert Library Manager.

The 4400 ACS is a fully automated 18-track cartridge Nearline(R) storage system integrating robotics, software, hardware and microcode into a system that stores and retrieves data cost effectively.

Support for the 4400 ACS has been announced or is available in nine environments -- Bull HN, Control Data Corp., Cray Research, Digital Equipment Corp., Fujitsu, IBM, ICL, Unisys and Unix -- and continues to set industry standards for connectivity, reliability and performance.

The dual Library Management Unit (LMU) provides the capability to configure a hot standby LMU. In the event of an unrecoverable failure in the primary LMU, a switch over to the dual unit will take place automatically, providing customers with improved availability of the 4400

ACS.

The new Host Software Component (HSC) release provides an interface from the operating system to the 4400 ACS. HSC 1.1 supports dual LMU capabilities and operations; facilitates coexistence of the 4400 ACS with manual transports using Improved Data Recording Capability and software support for StorageTek's Improved Cartridge Recording Capability for which hardware will be available in the fourth quarter of 1990; and offers performance improvements, and new utilities and commands.

With the introduction of the new software program, Expert Library Manager (ExLM), StorageTek now provides an additional level of Library Storage Module (LSM) management and flexibility. ExLM further automates the free slot, scratch, cartridge residency and ejection functions of the LSMs in the 4400 ACS. Developed for StorageTek by Clemson University Research Foundation, ExLM provides customers with the platform for automating existing and future ACS management functions.

Storage Technology Corp. manufactures, markets and services, worldwide, information storage and retrieval subsystems for high-performance computers.

EL SEGUNDO, CA (JUNE 5) BUSINESS WIRE - Aura Systems Inc. (NASDAQ:AURA), a world leader in High-Definition Television (HDTV) display systems and filmless projection systems, has received a $1.2 million contract from the U.S. Air Force to research and develop its Unique Modulated Television (UMTV) for use in testing missle seekers, it was announced Tuesday by Harry Kurtzman, president of Aura Systems.

Under the Program Research and Development Activity (PRDA) contract, Aura will apply its UMTV to developing an infrared scene projector with high resolution and heat sensitivity for simulating tests on missile seekers and other reconnaissance systems. Aura's UMTV provides exceptionally bright projection at a potentially low cost while eliminating all harmful radiation.

''This competitive award further establishes Aura as the leader in high definition display systems,'' said Kurtzman. ''Our success in this area should achieve significant results for the U.S. Air Force in testing its defense systems while helping to speed our introduction of UMTV to the commercial and consumer markets.''

Founded in 1987, Aura Systems is a leader in magnetic suspension technology, electro-optic projection systems and advanced computing systems. The company has headquarters in El Segundo.

#90156b0660 06/05/1990 ~Business Wire

IRVINE, CA (JUNE 5) BUSINESS WIRE - Helionetics Inc. (PSE:HLXP)(NASDAQ:HLXC) Tuesday announced that the company has consummated the acquisition of Definicon International Corp., a privately held $20 million manufacturer of 32-bit microprocessor- based accelerators for PCs.

Pursuant to the terms of the acquisition Helionetics exchanged approximately 1.8 million shares of the company's common stock up to 100 percent of the outstanding common shares of Definicon at a rate of one share of Helionetics common stock for each 2.346 shares of Definicon common stock. Common stock issued to Definicon stockholders represents approximately 26 percent of the 7.3 million shares now outstanding.

In addition, and as part of a separate transaction, certain officers, directors, principal shareholders and management of Helionetics have agreed to contribute approximately 4.6 million shares which amounts to approximately 75 percent of their aggregate holdings in Helionetics back to the company for no consideration on or before June 30, 1990.

Dr. Vincent P. Williams, chief executive officer and president of Helionetics, said that operating results for the period ending June 30, 1990, will be the most profitable quarter the company has achieved (on a pro forma basis) within the past two years. Net income on a pro forma basis is projected to exceed $1 million, or 20 cents per share, on revenues of approximately $9 million, said Dr. Williams.

Helionetics is currently considering a change of the company's name to Definicon International. This name change would reflect the broadened scope of the company's operations as a result of the acquisition.

Helionetics designs and manufactures solid-state and rotary power conditioning systems and hi-tech printed wiring boards.

Definicon's product lines are designed around state-of-the-art 32-bit microprocessors and include vector processors, scalar processors, parallel processors and graphic processors which find applications in

computer-aided design (CAD), modeling, simulation and three-dimensional fluid dynamics.

#90156b0663 06/05/1990 ~Business Wire

DAYTON, OH (JUNE 5) BUSINESS WIRE - Philips Industries Inc. and Tomkins PLC Tuesday jointly announced that they have executed an agreement in principle providing for the acquisition by Tomkins of Philips pursuant to a merger in which each outstanding share of Philips' common stock will be converted into $18.50 per share in cash, or a total of approximately $550 million.

The acquisition price represents a premium of approximately 32 percent over the June 4, 1990 closing price of Philips' common shares on the New York Stock Exchange of $14.00 per share.

The acquisition would be structured as a cash merger of Philips with a wholly-owned subsidiary of Tomkins and would not include a tender offer. The agreement in principle, which is not legally binding, is subject to the negotiation and execution of a mutually satisfactory merger agreement and the approval of the respective boards of Philips and Tomkins.

If a merger agreement is executed, the merger will be subject to certain conditions including approval by the shareholders of Philips and approval of the acquisition and certain related matters by the shareholders of Tomkins.

The parties stated that there can be no assurance that the definitive arrangements will be completed or that a definitive merger agreement will be executed. If Philips and Tomkins have not executed a definitive merger agreement by 5:00 pm, New York City time, on June 20, 1990, the agreement in principle will lapse.

Tomkins intends to finance the acquisition through an underwritten offering of new ordinary shares by way of rights to Tomkins' existing shareholders in the United Kingdom. The agreement in principle requires that the offering by way of rights will have been underwritten before execution of a definitive merger agreement.

Philips is a broadly based U.S. manufacturer of components for residential commercial and industrial buildings, manufactured housing, recreational

vehicles and the transportation industry. For the fiscal year ended March 31, 1990, Philips reported sales of $927.5 million and pretax income of $57.0 million (excluding charges of $59.2 million associated with the divestiture of product lines, various organizational restructuring and possible merger-related costs).

Tomkins, listed in the International Stock Exchange in London and with a sponsored ADR program on NASDAQ in the United States, is a broadly based industrial management company which owns and operates manufacturing and distribution businesses located primarily in the United States and the United Kingdom.

Tomkins' principal businesses in the United States are The Murray Ohio Manufacturing Co., a leading manufacturer of power mowers and bicycles, and Smith & Wesson Corp., the internationally known gunsmith. Tomkins' market capitalization (ordinary and convertible preference shares) is approximately $960.0 million and, for the twelve months ended Oct. 28, 1989, Tomkins had sales of approximately $1,100.0 million and pretax income of approximately $117.0 million.

SAN DIEGO (JUNE 5) BUSINESS WIRE - Molecular Biosystems Inc. (NASDAQ/NMS:MOBI) Tuesday announced a $4,158,816, or a 43 cents per share, net income for the fiscal year ended March 31.

This compares with net income of $2,212,063, or 24 cents per share, for fiscal year 1989. Total revenues and interest income in fiscal 1990 also increased to $19,404,649 compared with $10,520,198 the previous year.

MBI's balance sheet at year-end reflected total assets of $47,553,864, including cash and marketable securities of $27,880,333, compared with $38,770,576 and $25,563,719 a year earlier. Long-term debt and other liabilities were $4,619,518 and $9,506,332, respectively, compared with $4,641,875 and $6,899,128 in 1989, while retained earnings increased from $201,136 to $4,359,952 during the year.

Molecular Biosystems Inc. of San Diego is a leading biomedical firm commercializing proprietary products that diagnose human disease. The company is developing Albunex, an injectable contrast agent for use in ultrasound imaging. In addition, Sygene Inc., a consolidated subsidiary of MBI, is a leading developer and manufacturer of direct-labelled, non-radioactive genetic probe products.

VANCOUVER, B.C. (JUNE 5) BUSINESS WIRE - ASIAMERICA EQUITIES, LTD. (NASDAQ/NMS Symbol: ASIAS) Tuesday announced that its Board of Trustees has approved the adoption of a program authorizing the Company to repurchase up to 500,000 shares of the Company's outstanding common shares of beneficial interest in the open market from time to time at prices that the Company's management deems appropriate.

Management stated that it believes its stock is undervalued at current market prices and that this program demonstrates the Company's commitment to maximize shareholder value.

The number of shares to be repurchased, if any, and the price or prices at which such repurchases might be made is not specified by the terms of the program and is left to the business judgment of the Company's management. The Company has not made any estimate or projection of the aggregate amount of Company funds, if any, that might be used for the repurchase of its Common Stock.

ASIAMERICA EQUITIES, LTD. is an international financial management and industrial services group.

LAGUNA HILLS, CA (JUNE 5) BUSINESS WIRE - Hart Industries Inc. Tuesday announced the acquisition of Magnolia Environmental Services, Nevada (MagNev) the owner of proprietary dewatering/toxic waste stabilization cleanup units, which are capable of cleaning refinery and production wastes, heavy metals from liquid manufacturing wastes and tank bottoms.

Hart had previously announced an agreement with South Dakota-based Micro-Ergics for the purchase of mobile thermal remediation units. Hart and Micro-Ergics have mutually agreed to rescind this agreement. The acquisition, which is in the upper six-figure range, was negotiated and financed by Stevenson Abercrombie & Claythorne Co.

Magnolia is capable of providing a wide range of services key to Hart's emergence as an industry leader in waste control/remediation market. Concurrent with this acquisition Hart also expands its access to key personnel in various environmental fields including construction, engineering, permitting, fabrication and geotechnical consulting.

Hart has also negotiated an operations and maintenance agreement with Magnolia Energy and Refining, the Texas-based manufacturer of the toxic treatment equipment acquired by Hart.

Magnolia Energy and Refining (unrelated to MagNev) will provide operational management, qualified operating crews and maintenance services for Hart's new division.

MagNev's first unit will commence operations immediately on a long-term liquid cleanup project. A company spokesperson stated, "This acquisition in conjunction with Hart's recently announced Underground Storage Tank Compliance Program will result in significant revenues for Hart in the second quarter of 1990."

DALLAS (JUNE 5) BUSINESS WIRE - Spectrum Cellular Corp., a subsidiary of Spectrum Information Technologies Inc., (''Spectrum'')(NASDAQ: SPCL), Tuesday announced an important license agreement with Toshiba America Information Systems Inc. for use of Spectrum's newest generation of cellular/landline modem technology.

The announcement was made during COMdex in Atlanta, a computer industry trade show.

Toshiba is the first laptop computer manufacturer to commercially introduce Spectrum's new cellular/landline modem and SmartCable technology.

The Toshiba modem is configured for Toshiba's ''Dedicated Modem'' form factor and will be available for use in most of Toshiba's laptop computers. Toshiba will market the product as the T24D/X modem.

In addition to the Toshiba modem, Spectrum is developing and will manufacture five separate versions of its new SmartCable product for sale by Toshiba. The SmartCables will be designed for use with cellular telephones manufactured by five of the leading cellular phone manufacturers.

Toshiba's first SmartCable is designed to support Audiovox cellular phones. Others will follow this summer. The ultimate for people on the go, a typical package might inlcude any of the new Toshiba notebook or other laptop computers with an internal T24D/X modem, a transportable or handheld cellular phone and a Toshiba SmartCable.

Fully configured, a package could weight as little as 10 pounds and provide power for over two hours of continuous operation.

The product is also ideal for Value Added Networks, like CompuServe and Telenet, or for desktop users interested in connectivity to a variety of modem protocols, including connectivity with field personnel who use or may eventually use the cellular network for data communications.

Spectrum's SPCL Protocol has become a de facto standard for cellular data transmission and is supported by most of the major cellular carriers. Concluded Rule, ''The agreement with Toshiba demonstrates a strong endorsement of Spectrum's SPCL Protocol by the protable computing industry's leader.

BOCA RATON, FL (JUNE 5) BUSINESS WIRE - SK Technologies Corp. (NASDAQ:SKTC) Tuesday announced that the company has entered into an agreement with Gloria Jean's Coffee Bean Corp. whereby Gloria Jean's will test the SK Point-of-Sale computer system, StoreKare.

Upon successful completion of this test, Gloria Jean's will require the purchase of the StoreKare system for all of its newly franchised and company owned stores. It is anticipated that approximately 50 new stores will be opened this year.

Gloria Jean's has also agreed to use its best efforts to market the StoreKare system to its existing stores as well which currently total 79. The test phase is scheduled to start immediately and is expected to be completed within 30 days time.

SK Technologies President, Randy Selman said, ''We are all very pleased about our new relationship with Gloria Jean's which is well-known for its selection of gourmet coffee beans. We feel confident that the test will go smoothly and expect to ship product immediately after this phase is

completed.''

SK Technologies Corp. develops and markets point-of-sale and data communications software specifically designed for fast food, restaurant and retail operations as well as other franchise businesses.

LOS ANGELES (JUNE 5) BUSINESS WIRE - The Kushner-Locke Company Inc. (NASDAQ:KLOC) announced Tuesday that it has entered into an amended agreement with Stuart Hersch relating to his continuing involvement with the company.

As separately announced, Hersch has agreed to take over a new position as president of A-Vision Entertainment, a division of Atlantic Records. However, he will continue to serve Kushner-Locke as a member of its board of directors. As executive consultant, his responsibilities will remain virtually unchanged in the areas of mergers and acquisitions, finance and distribution.

Peter Locke, co-chairman of the board of Kushner-Locke, made the following statement: ''We are very pleased that Stuart Hersch will continue his active involvement on behalf of Kushner-Locke. We wish him the best of success at Atlantic Records and look forward to new opportunities that his new association may present to us.''

Founded in 1983, The Kushner-Locke Company is one of the leading independent television production companies engaged in developing and producing television series, pilots, movies-for-television, mini-series and animated programming.

ENFIELD, CT (JUNE 5) BUSINESS WIRE - Dairy Mart Convenience Stores Inc. (NASDAQ:DMCVA & DMCVB) reports record operating results for the first quarter ended May 5, 1990.

For the first quarter sales were $186,738,000 as compared with $170,900,000 for the first quarter of the previous year. Net income was $234,000 as compared with a net loss of $1,316,000 for the same quarter last year, a turn-around of $1,550,000 (the prior year first quarter included a nonrecurring pretax charge of $800,000).

On a per share basis earnings were 6 cents per share as compared with a loss of 31 cents per share for the first quarter last year.

''These results are very encouraging because the first quarter has historically been our worst and often a losing quarter. They are solid operating earnings without the help of nonrecurring profits and constitute our highest profit first quarter since going public in 1983,'' commented Charles Nirenberg, Dairy Mart chairman.

Dairy Mart is one of the nation's leading convenience store chains with over 1,200 stores located in 11 states with its corporate headquarters in Enfield, Conn.

HOUSTON (JUNE 5) BUSINESS WIRE - Seitel Inc. (ASE: SEI) announced Tuesday that it has, through its wholly owned subsidiary, Seitel Offshore Inc., closed the purchase of approximately 9,500 miles of U.S. on-shore seismic data and 155,000 miles of seismic data offshore of the U.S. East Coast, Alaska and the Gulf of Mexico, through a joint venture involving a wholly owned subsidiary of Digicon Geophysical Corp.

''The acquisition of this asset base by our joint venture, much of which is offshore data, and our ability to work with Digicon through this joint venture, opens the door for Seitel to proceed into the expanding offshore seismic data market while also providing us with additional high-quality

on-shore seismic data further broadening our library,'' commented Paul Frame, Seitel's president.

Seitel is engaged in the development of a proprietary seismic data bank and arranging the creation and marketing of seismic data.

CHATTANOOGA, TN (JUNE 5) BUSINESS WIRE - Chattem, Inc. (NASDAQ: CHTT), a manufacturer of specialty chemicals and consumer products, announced Tuesday that Zan Guerry has been elected chairman, president and chief executive Officer, succeeding his father, Alex Guerry, Jr., who died on May 23.

Zan Guerry, 41, was Chattem's Executive Vice President and Chief Operating Officer, and has been with the company in a variety of positions since 1978.

Separately, Robert E. Bosworth was elected executive vice president and chief financial officer of Chattem. Bosworth, 42, was formerly the company's vice president and chief financial officer and has been with the company since 1980.

Zan Guerry expressed confidence in the future of Chattem, stating that the company will continue its tradition of providing quality products while looking for new avenues to increase Chattem's sales and earnings.

Specifically, sales and earnings for the fiscal year ending November 30, 1990 are expected to increase significantly over the year ended May 31, 1989, Chattem's latest audited fiscal year-end, due to the fundamental strength of our consumer products and chemicals businesses.

ELMSFORD, NY (JUNE 5) BUSINESS WIRE - V Band Corp. (NASDAQ/NML:VBAN), reported Tuesday that sales for the second quarter ended April 30, 1990 were $3.6 million, a decrease of $4.1 million, or 53 percent from the $7.7 million of sales reported for the second quarter fiscal 1989.

Sales totaling $8.7 million for the six month period ended April 30, 1990 were $5 million less than the $13.7 million reported for the first six months of 1989. The sales decline was principally attributable to continuing softness of the worldwide financial services market.

Sales to non-financial (i.e. E-911, airline public utilities, etc.) customers for the six month period reached $1.4 million, or 16 percent of total sales, indicative of V Band's continuing effort to diversify into new markets.

Operating results for the quarter ended April 30, 1990 included a charge of $1.8 million, which relates to the Contel IPC Inc. lawsuit, settled in March 1990. Operating expenses of $6.9 million declined $1.7 million, or 20 percent during the six month period ended April 30, 1990, from the $8.6 million reported for the same period in 1989.

V Band incurred for the three and six months ended April 30, 1990, an operating loss, before the legal settlement and federal income tax benefit of $1.9 million and $3.4 million as compared to an operating loss of $1.8 million and $3.2 million for the same period in 1989.

V Band, for the three months ended April 30, 1990, incurred a net loss of $1.9 million or 28 cents per share as compared to a net loss of $.5 million or 8 cents per share for the same period in 1989.

During the six months ended April 30, 1990, V Band incurred a $2.4 million net loss of 37 cents per share, compared to a net loss of $1.1 million or 17 cents per share for the same period in 1989. The weighted average shares of common stock oustanding were 6,598,000 and 6,735,000 for the six month periods ended April 30, 1990 and 1989, respectively.

In April 1990, V Band received a purchase order for its voice and selectable speaker systems for installation at a new trading floor containing more than 700 terminals. The order is expected to be shipped during the third and fourth quarters of 1990.

V Band Corp. designs, markets, distributes and manufactures electronic key telephone and data distribution systems used by the world's financial industries in the trading and dealing of stocks, bonds, commodities and currencies; and, by airlines, utilities, railroads, emergency services and the military in communications control centers.

#90156b0692 06/05/1990 ~Business Wire

PORTSMOUTH, RI (JUNE 5) BUSINESS WIRE - Quadrax Corp. (NASDAQ:QDRX) Tuesday announced that it will temporarily reduce the exercise price of its outstanding Redeemable Class B Common Stock Purchase Warrants for a period of 30 days from June 4 through July 3, which period may be extended by the company for up to an additional 45 days.

The Class B Warrants are each exercisable to purchase one share of the company's Common Stock.

During the Warrant Reduction Offer Period, holders of Class B Warrants will be able to exercise their Class B Warrants at a reduced warrant exercise price of $3.00. At the conclusion of the Warrant Reduction Offer Period, the warrant exercise price will revert to $4.00 per Class B Warrant through expiration of the warrants on July 7, 1992, or their earlier redemption.

The company has determined to lower the warrant exercise price during the Warrant Reduction Offer Period to encourage exercise of the Class B Warrants. The company believes that the exercise of the Class B Warrants will be in the best interest of the company by providing additional financing for its current and future operations.

Holders that wish to exercise Class B Warrants during the Warrant Reduction Offer Period should complete and execute the subscription form on the back of the Class B Warrant certificate and deliver the same, along with payment of the proper warrant exercise price, by hand or by mail to: American Stock Transfer & Trust Co., 99 Wall St., N.Y. 10005, attention: Herbert Lemmer.

While the method of delivery is at the option and risk of the holder, if delivery is made by mail, it is suggested that it be by registered or certified mail properly insured. Payment of the warrant exercise price may by made, at the holder's option, in the form of cash or certified or official bank check made payable to Quadrax Corp.

In order to obtain the benefits of the reduced warrant exercise price, warrants to be accepted for the exercise must be received in good order by American Stock Transfer & Trust Co. at or before 5 p.m. New York City time on the date the Warrant Reduction Offer Period expires. Unless extended by the company, the Warrant Reduction Offer Period will expire on July 3.

Quadrax Corp., headquartered in Portsmouth is a supplier of advanced composite materials, equipment and services.

DALLAS (JUNE 5) BUSINESS WIRE - Harken Energy Corp. (NYSE:HEC) of Dallas Tuesday announced the addition of Stephen Tisza as vice president and general manager for its wholly-owned subsidiary, Harken Bahrain Oil Co. (''Harken Bahrain'').

In his new position, Tisza will be responsible for the daily operations of Harken Bahrain conducted pursuant to its previously announced Production Sharing Contract with the Bahrain National Oil Co. Tisza has recently transferred from Dallas to Manama, Bahrain where he established Harken Bahrain's initial operating office.

Tisza's background includes extensive geological and management experience relating to international exploration throughout North America, the Far East, South and Central America, the Middle East and Europe. Tisza also served for a period of time as a World Bank exploration consultant.

Educated at the University of Illinois where he earned both Master's and Bachelor's degrees in Geology, Tisza is certified as a Professional Geological Scientist and Petroleum Geologist.

Monte Swetnam, president of Harken Bahrain Oil Co., stated, ''We are pleased and proud to have Stephen as part of our organization. His extensive background in international exploration will be a significant asset to Harken in the coming months as we develop our exploration program in Bahrain.

Harken Energy Corp. (NYSE:HEC) manages and develops energy assets. HEC retails, wholesales and distributes gasoline through its subsidiary, Harken Marketing Co. Through its subsidiary, Tejas Power Corp., HEC constructs, owns and operates natural gas gathering and transmission facilities in Texas and Louisiana and markets third party gas to a variety of end-users.

HEC explores for, develops and produces oil and gas reserves domestically through its subsidiary Harken Exploration Co. and internationally through its subsidiary Harken Bahrain Oil Co.

WHITE PLAINS, NY (JUNE 5) BUSINESS WIRE - IBM Tuesday announced that AIX (a) Version 3 for the RISC System/6000 (a), its operating system for the RISC System/6000 family of workstations and servers, and several languages marketed by IBM for the RISC System/6000 have met specifications of the X/Open (b) Portability Guide Issue 3 (XPG3) and received XPG3 branding certification.

X/Open, a non-profit organization focused on unifying standards issues in open systems environments, today separately announced details of its XPG3 branding program. XPG3, the third release of X/Open's XPG specifications, contains published specifications that define an open systems environment.

This environment assists in the development of portable interoperating applications for use on a wide range of hardware platforms and architectures. Under the branding program, an X/Open trademarked symbol is licensed to companies whose computer operating systems and/or components are tested and verified to meet the XPG3 specifications.

The XPG3 branding program assists software and systems developers by providing them with information on the functions and capabilities that users have identified as their requirements for open systems environments. The program helps to give the user community more confidence that the products they choose conform to these specifications.

IBM's AIX Version 3 for the RISC System/6000 has earned X/Open's XPG3 Base Brand, indicating that it passed the VSX3 Verification Suite, a comprehensive set of tests designed to indicate compliance with major portions of the XPG3 specification. IBM's Ada, COBOL, FORTRAN and Pascal languages for the RISC System/6000 received XPG3 Component Brand certification, demonstrating conformance with X/Open's software component requirements.

X/Open, formed in 1984, is an international non-profit corporation sponsored by many of the world's largest computer manufacturers. IBM joined X/Open in 1988.

FRAMINGHAM and MARLBOROUGH, MA (JUNE 5) BUSINESS WIRE - Liant Software Corp. and Sequoia Systems Inc. Tuesday announced an extension of their marketing agreement.

According to the contract, Language Processors Inc. (LPI), a Liant subsidiary, will make available its FORTRAN programming language for the Sequoia Series 300, a UNIX fault-tolerant system based on Motorola's 68030 processor.

Under a previous agreement signed in October 1989, Sequoia obtained the rights to market and distribute LPI's COBOL, NEW C and CodeWatch language products for the Sequoia Series 300 Computer System. This latest contract amendment adds LPI's FORTRAN to Sequoia's product fold.

Sequoia's computer systems are used in environments characterized by large databases, advanced terminal networks, high transaction volumes, fast response time and high system availability.

LPI's FORTRAN is a full implementation of ANSI FORTRAN 77, is X/Open compliant and conforms to MIL-STD-1753. It aids the software developer by offering detailed error messages, cross-language calling, comprehensive listing options and user-selectabl optimization levels.

Sequoia Systems Inc. designs, manufactures and supports fault-tolerant systems to serve the on-line transaction processing (OLTP) needs of companies. Sequoia's systems have an open architecture adhering to industry standards and a UNIX-based operating system.

With a worldwide sales and support organization and on-line service, Sequoia has set new standards in service and reliability. Major customers include manufacturers, distributors, banks and financial institutions, insurance companies, telecommunications operations and federal agencies.

Liant Software Corp., a privately held company headquartered in Framingham Mass., provides integrated programming systems for constructing and maintaining portable applications.

Liant is the parent company of three operating subsidiaries: Framingham, Mass.-based Language Processors, Inc. (LPI), specializing in scientific and engineering programming systems; Austin, Texas-based Ryan McFarland Corp. (RM), specializing in commercial programming systems; and Template Graphics Software Inc. (TGS), based in San Diego, Calif., which specializes in program development systems for graphic applications.

SAN DIEGO (JUNE 5) BUSINESS WIRE - Gensia Pharmaceuticals Inc. announced Tuesday that it has made an initial public offering of 2.8 million shares of its common stock at $11.00 per share.

The shares will be traded on the NASDAQ National Market System under the symbol GNSA. All of the shares are being sold by the company.

If the Underwriter's over-allotment option to purchase an additional 420,000 shares is exercised, Gensia will have approximately 13,557,000 shares outstanding after the offering.

Alex. Brown & Sons Inc., Montgomery Securities and Smith Barney, Harris Upham & Co. Inc. are co-managers of the offering.

Gensia was founded in 1986 to discover, develop, manufacture and market novel pharmaceutical products, primarily for the treatment and diagnosis of cardivascular disease. The company has two cardiovascular drugs in Phase 2 clinical trials. Gensia is also conducting preclinical research to develop other pharmaceutical products for the treatment of stroke and certain other major diseases, including epilepsy and diabetes. The company focuses its research and development efforts on its two core technologies, which are based on Gensia's extensive knowledge of purine/pyrimidine metabolism and catecholamine analogues.

The company plans to use the net proceeds of the offering to fund research and development and for general corporate purposes and working capital.

Copies of the final prospectus may be obtained from Alex. Brown & Sons Inc., 135 E. Baltimore Street, Baltimore, Md. 21202.

NEW ORLEANS (JUNE 5) BUSINESS WIRE - Robert E. Howson, Chairman of the Board and Chief Executive Officer of McDermott International, Inc., (NYSE:MDR) Tuesday reported that revenues for the fiscal year ended March 31, 1990 were $2,644,690,000 compared with $2,166,806,000 in fiscal 1989.

The net loss for the year was $10,201,000, or $0.27 a share, primary and fully diluted, compared with a net loss of $91,675,000, or $2.46 a share, primary and fully diluted, in fiscal 1989.

For the quarter ended March 31, 1990, revenues were $666,661,000 compared with $676,510,000 for the same period last year. The net loss for the March 1990 quarter was $29,723,000, or $0.79 a share, primary and fully diluted, compared with a net loss of $23,873,000, or $0.64 a share, primary and fully diluted, for the quarter ended March 31, 1989.

Fiscal 1989 results have been restated to reflect the discontinuance of the Bailey Controls operations.

Results for the fourth quarter and fiscal year ended March 31, 1990 include net gains from discontinued operations of $9,136,000 and $90,351,000, respectively.

Results for the fourth quarter and fiscal year ended March 31, 1989 reflect net losses from discontinued operations of $1,144,000 and $21,645,000, respectively.

Revenues from the Power Generation Systems and Equipment segment in fiscal year 1990 increased to $1.747 billion from $1.577 billion in the prior year. The improvement reflects higher revenues from the Power Generation and Defense and Nuclear Power groups. Diamond Power Specialty Company also had higher revenues.

This segment reported operating income of $27.9 million in fiscal 1990 compared with $48.7 million in fiscal 1989. The lower operating income was due principally to a provision of $27.2 million to repair a first-of-a-kind heat pipe heat exchanger which had been installed at certain utility and industrial plants. Operating income was further reduced by higher selling, marketing, and administrative expenses, higher workers' compensation and general liability costs, and higher provisions for environmental clean-up costs.

McDermott International, Inc., is a leading worldwide energy services company. The Company and its subsidiaries manufacture steam-generating equipment, defense products, and tubular products. They also provide engineering and construction services for industrial and utility facilities onshore, and to the oil and gas industry offshore.

MARKHAM, ONTARIO (JUNE 5) BUSINESS WIRE - International Semi-Tech Microelectronics Inc. Tuesday announced the sale of the Singer Europe consumer durables and sewing divisions to its subsidiary, Semi-Tech Microelectronics (Far East) Limited (''STM-FE'').

International Semi-Tech Microelectronics Inc. completed the agreement to purchase Singer Europe from European Home Products, PLC (''EHP'') on March 15, 1990.

At the time of the purchase, International Semi-Tech Microelectronics Inc. had stated that Singer Europe would be acquired for resale to STM-FE, the owner of SSMC Inc. (which operates the worldwide Singer distribution and manufacturing business outside of Europe) as part of SSMC's long term goal to reunite and recreate The Singer company.

In addition, STM-FE announced Tuesday that it has entered into a share subscription agreement with Zoser Limited (''Zoser''), a Hong Kong-based

company owned by Taiwanese financier Spencer R. Kuo and associates, for Zoser to subscribe for a total of 195,000,000 shares of STM-FE at a price of HK$0.83 each.

The subscription is relevant conditional on the approvals of STM-FE shareholders and the relevant regulatory authorities.

The new shares to be issued under this agreement will not qualify for the recommended final dividends for the year ended Jan. 31, 1990, or for the one for ten bonus issue previously announced or the Rights Issue.

The subscription price is HK$0.83 if the rights issue does proceed or HK$1.00 if it does not. The subscription price is comparable to an adjusted trading price of HK$1.01 per share which represents a 21.9 percent premium over the June 4, 1990 closing price of HK$0.82. Zoser also declares its intention to continue to purchase STM-FE shares in the open market.

Further, STM-FE announced that it has commenced discussions with investment banking firms in London, New York and Singapore with a view to listing Singer's worldwide operations now owned by SSMC Inc. and Singer Europe. Preliminary feedback are highly positive.

The management however cautions that while every effort will be made to advance this proposition, there is no assurance that the proposed listing will materialise.

International Semi-Tech Microelectronics Inc. is a Canadian public company whose shares are listed on the Toronto Stock Exchange, trading under symbol ISE. It owns approximately 40 percent of Semi-Tech Microelectronics (Far East) Limited, a public company listed on the Hong Kong Stock Exchange, symbol 448.

NEW YORK (JUNE 5) BUSINESS WIRE - S&P lowers its ratings on PNC Financial Corp.'s subordinated debt and preferred stock to single-'A'-plus from double-'A'.

Also downgraded are the ratings on PNC Funding Corp.'s senior debt to double-'A'-minus from double-'A'-plus, and subordinated debt to single-'A'-plus from double-'A'. PNC International Services Ltd.'s preliminary rating on senior debt filed under a Rule 415 shelf registration is lowered to double-'A'-minus from double-'A'-plus.

The ratings on long-term certificates of deposit and long-term letter of credit-backed issues of units Pittsburgh National Bank, Provident National Bank, Northeastern of Pennsylvania, Marine Bank (Erie), Citizens Fidelity Bank & Trust, and Central Trust Co. N.A. are lowered to double-'A'-minus from double-'A'-plus by S&P.

About $378 million of debt is affected.

All issues are removed from CreditWatch where they were placed on April 16.

The 'A-1'-plus ratings on commercial paper issued by PNC Funding Corp., Central Trust Co. and Citizens Fidelity Corp., which were not on

CreditWatch, are affirmed.

Also, the 'A-1'-plus short-term rating on certificates of deposit and short-term letter of credit-backed issues of Pittsburgh National Bank, Provident National Bank, Northeastern of Pennsylvania, Marine Bank (Erie), Citizens Fidelity Bank & Trust, and Central Trust Co. N.A. are also affirmed.

Over the past several quarters, PNC Financial has posted higher levels of nonperforming assets and, as the result of a regulatory examination, problem loans rose sharply at the end of the first quarter.

Although nonperforming assets are still at an acceptable level, they are likely to rise further as PNC's relatively modest exposure to commercial real estate lending and loans to highly leveraged transactions weakens. S&P expects further increases in problem loans, which will continue to adversely affect PNC's financial performance.

Despite the erosion in its asset quality, PNC remains one of the strongest companies in its industry, with substantial earnings diversification and strength, and moderate loan leverage, S&P said.

BOCA RATON, FL (JUNE 5) BUSINESS WIRE - Arrow Electronics Inc. of Melville, N.Y. and Siemens Information Systems Inc., Tuesday announced the signing of a contract under which Arrow will market personal computer products from Siemens OEM/VAR Personal Computer Division.

Under the terms of the multi-year, multi-million dollar agreement, Arrow will market, nationwide, the Siemens Server PC System Platform as well as the full range of Siemens CPU boards. This includes the 80286-12MHz; the 80386 (SX, 20MHz, 25MHz and 33MHz); and the 80486-25MHz and 33MHz.

Siemens PCs are based on a slot-CPU passive backplane architecture in which the processor, system memory, interfaces, and graphics and disk controllers are on a single plug-in board rather than a motherboard or on several plug-in boards. That means upgrading to a more powerful processor requires only a change of the CPU plug-in board.

Siemens Server Platform is designed for the multi-user, network server or power-user environment and features 10 option slots.

One of the world's largest distributors of electronic components, systems

and related products, Arrow's distribution facilities encompass 66 sales locations, three primary distribution centers and 52 warehouses.

National Sales and Marketing Manager of Siemens PC Division, Mahendra Lamba, said, ''This contract opens an important market for all of our PC products. Now, dealing with Arrow, even a small organization can capitalize on Siemens slot-CPU concept, thereby protecting its investment with easy upgradeability as the business grows.

The OEM/VAR PC Division of Siemens Information Systems Inc. is headquartered in Boca Raton, Fla. Siemens Information Systems is a major supplier of communication and information systems products and peripherals.

It is one of the Siemens U.S. group of companies which had 1989 sales of $3.5 billion, employing approximately 31,000 employees nationwide at over 400 sales and service locations and 50 manufacturing sites.

PHILADELPHIA (JUNE 5) BUSINESS WIRE - Philadelphia Pepsi Cola Bottlers Tuesday announced their involvement in two special sponsorship programs in support of the city's African-American community during the weekend of June 9 and 10.

Beginning on Saturday June 9, Pepsi will serve as lead sponsor of the Black Expo, a two-day celebration of African-American achievement and family life. Scheduled to take place at the Philadelphia Civic Center, the Black Expo, which is sponsored nationally by the Pepsi Cola Co., also is held in Atlanta, New York and Washington, D.C. The event is expected to attract about 30,000 persons during its stay in Philadelphia.

As part of its local Black Expo sponsorship, Pepsi Cola will conduct a special fund-raising contest at its exhibit booth in support of the Black United Fund of Pennsylvania. The Black United Fund, which was established in 1982, provides charitable and business development services to community-based organizations and to black entrepreneurs. Representatives from the Black United Fund will be in attendance at the Pepsi booth, distributing program literature and explaining the Fund's upcoming capital campaign.

In addition to its Black Expo involvement, on Sunday June 10, Pepsi Cola will be a major sponsor of the 15th Annual Odunde African-American Festival, which is held each year at 23rd and South Streets in South Philadelphia. This year's festival, which features South African musician Hugh Masakela, is expected to attract more than 100,000 attendees.

According to Frank Washington, Pepsi Cola's Philadelphia area community relations consultant, the company's involvement includes program book advertisements, the purchase of exhibit space and the sponsorship of special T-shirts for more than 150 Odunde Festival volunteers. Pepsi Cola also is planning to present a special Pepsi Excellence Award to Odunde co-founder and executive director Lois Fernandez, in recognition of the Festival's 15th anniversary.

''Pepsi Cola has enjoyed a long, supportive relationship with

Philadelphia's African-American community,'' said Washington. ''We're always pleased to have special opportunities such as these to reaffirm our company's commitment to the community.''

NEW YORK (JUNE 5) BUSINESS WIRE - Bowne & Co. Inc. (ASE: BNE) Tuesday announced results for the second quarter ended April 30.

Net sales for the quarter totaled $57,492,000, an increase of 18 percent from $48,521,000 for last year. Net income for the quarter was $4,339,000 compared with $2,172,000 a year earlier. On a per share basis, net earnings were 25 cents compared to 12 cents for the second quarter a year ago.

Net sales for the first six months were $100,136,000, an increase of ten percent from $90,752,000 a year ago. Net income was $5,367,000, or 31 cents per share, compared with $2,670,000, or 15 cents per share, last year.

"Operating results continued to improve over the prior year," Richard H. Koontz, president and CEO, stated. "The consolidated within the financial printing industry became more apparent during recent months with the disappearance of two of our major competitors.

"The consolidation, coupled with a modest increase in the demand for our services and the continuing efforts of our employees to increase effeciency, has produced an improved quarter."

HACKENSACK, NJ (JUNE 5) BUSINESS WIRE - As part of the new Ticketron's reorganization, Ben Liss has joined Ticketron in the newly created position of chief operating officer.

The announcement was made by Ticketron's CEO, Peter A. Jablow.

According to Jablow, ''Liss will be overseeing the entire service end of Ticketron. His tremendous business acumen and contacts in the arena business will make Ticketron a superior service organization.''

Liss expects to be ''traveling a great deal, closely interacting with the field offices in serving Ticketron clients.''

As chief operating officer, Liss will be increasing the effectiveness of Ticketron's North American outreach, overseeing the corporation's 19 regional offices with more than 750 remote outlets throughout the United States and Canada.

Liss, an attorney licensed in Virginia and the District of Columbia, was previously executive director of the North American Concert Promoters Association in Washington, D.C., a position he held since the association's establishment in 1988.

Since 1987, Liss has also served as general counsel and comptroller for the Cellar Door Companies, major full-service promoters for popular music events.

He is also a member of the advisory board of directors of Madison National Bank in Washington.

Located in Ticketron's corporate headquarters in Landover, Md., Liss will also be working closely with all of Ticketron's corporate departments to coordinate business development and the delivery of top service and resources to Ticketron clients.

With 19 regional offices, 11 regional Ticketron-Phone-Charge operations and more than 750 Ticketron outlets, Ticketron is America's leading computerized ticketing service for sports and entertainment events throughout the United States and Canada.

#90156b0829 06/05/1990 ~Business Wire
HACKENSACK, NJ (JUNE 5) BUSINESS WIRE - Tom Hipp has joined Ticketron in the newly-created position of senior vice president, sales.

The announcement was made by Ticketron's CEO, Peter A. Jablow.

Jablow described Hipp, who will oversee Ticketron's new sales division, as an ''extremely creative, innovative planner who has an incredible track record of success.''

Hipp joined the new Ticketron from Centre Group Ltd. Partnership in Washington, where he was the first president of Centre Sales. Under Hipp's leadership, advertising revenue climbed between $7 million and $10 million annually.

According to Hipp, ''The new Ticketron will not only be dealing with venues, we'll be working with sponsorships and increasing promotional opportunities. We want our clients to feel we're part of their team, that we pay attention to their needs, strategize with them, and help them develop new business opportunities. We'll be providing that kind of service as part of our overall sales orientation.''

Hipp plans to build on the opportunities made possible with Ticketron's new four-way partnership, comprised of Centre Group, the corporate umbrella that includes the Washington Bullets, the Washington Capitals, and their arena, Capital Centre; the Wembley Group in London, holding company for leisure and entertainment operations worldwide; Ogden Allied Services, an international total services management organization with headquarters in New York, and the Carlyle Group, a private merchant banking group in Washington.

Before joining Centre Group in 1973, Hipp was with IBM. Working in Washington, his clients included the White House and the State Department.

With 19 regional offices, 11 regional Ticketron-Phone-Charge operations and more than 750 Ticketron outlets, Ticketron is America's leading computerized ticketing service for sports and entertainment events throughout the U.S. and Canada.

#90156b0836 06/05/1990 ~Business Wire
VANCOUVER, B.C. (JUNE 5) BUSINESS WIRE - Levtech Medical Technologies

Ltd. (VSE Symbol:LMT) Tuesday announced that it achieved sizable revenues and its first year of profitability during the year ended Dec. 31, 1989.

During 1989 revenues were $35,210,240, and net income reached $2,642,058, or 45 cents per share. (These and all figures herein are stated in Canadian dollars.)

On a fully diluted basis, assuming exercise of all warrants, earnings per share would be approximately 26 cents.

The company further noted that earnings before interest and taxes for the year were $5.6 million and that total assets as of Dec. 31, 1989 stood at more than $58 million.

Because the company was still in the development stage prior to 1989, comparable results for 1988 are not meaningful. During the year ended Dec. 31, 1988, revenues were nil and the company sustained a loss of $614,579, or 11 cents per share. As of Dec. 31, 1988, total assets were less than $2 million.

Commenting on the 1989 results, Harold Fischman, president of Levtech Medical Technologies, stated, ''The favorable results achieved during 1989 were made possible by our completion of the acquisition of two major Italian medical technologies companies in October 1989.

The funds for the acquisition were provided to Levtech and Levtech Italy in the form of bank facilities and bank guarantees provided by H.F. Scientific Industries, an affiliated company which is a major shareholder of Levtech; In Capital International, a Dutch holding company owned by In Holding S.p.A. which is controlled by a major Italian family of financiers; Delta Holding Inc., an investment company controlled by a major Swiss investor; as well as Standard Chartered Finanziari S.p.A., the Italian merchant banking subsidiary of the Standard Chartered Bank.

CONWAY, AR (JUNE 5) BUSINESS WIRE - Acxiom Corp. announces the introduction of a new product called RelationBase. This comprehensive database is tailored for direct marketers, combining the flexibility of a relational system with the power of traditional marketing databases.

RelationBase builds integrated tables of information related to the customer and market. These tables allow the storage of more detailed customer histories and faster updates than is currently available via sequential files.

"RelationBase's versatile structure makes it ideal for marketers whose database requirements evolve over time. The database can be built gradually as new information becomes available and is easily modified to reflect new market trends," according to Don Barrett, vice president sales and marketing.

According to Barrett, "Unlike standard relational database systems, RelationBase can also efficiently process large volumes of data." The database is "optimized" to provide quick turnaround on information requests and selections, regardless of the database size. Barrett continues, "This is essential for direct marketers, who often maintain information on millions of customers and prospects."

RelationBase can be accessed via Acxiom's on-line Network for marketing information and selections. Acxiom's query language has been expanded to include advanced functions such as sums and averages for a comprehensive picture of the market and more precise targeting.

Barrett states, "RelationBase complements Acxiom's established marketing database technologies. We first analyze the marketer's needs, then provide a customized database solution best fitted to their situation."

Acxiom Corp., headquartered in Conway, Ark., provides a complete range of marketing services, software and outsourcing to direct marketing businesses and marketing divisions of companies. Acxiom services include marketing database, list enhancement, list processing, mail preparation, fulfillment, consulting and analysis.

ORLANDO, FL (JUNE 5) BUSINESS WIRE - Stone Golabuk/Chernoff Silver & Associates, Orlando, Fla., has been named the agency of record for First Miami Mortgage Corp., an equity lender in South Florida providing loans to homeowners of all income levels. The agency has also acquired the national Yellow Pages account for Tempaco, a local wholesale electronic and plumbing supply company.

First Miami Mortgage Corp., led by President Orlando Monteagudo, operates in Dade and Broward counties and has plans to rapidly expand throughout Florida. Stone Golabuk/Chernoff Silver & Associates is handling public

relations and advertising for the account, which is expected to bill between $200,000 and $300,000.

The agency will direct First Miami Mortgage's English and Hispanic marketing in the Miami area, including television, radio, print advertisement and collateral materials.

The marketing will be targeted to both consumers and co-brokers. In addition, Stone Golabuk/Chernoff Silver provides marketing support to First Miami Mortgage to strengthen the company's position in the South Florida market and to expand into Central Florida.

"First Miami Mortgage is the kind of account that we're able to service now that we're a part of a major agency's regional network," said Allen Chernoff, president, Stone Golabuk/Chernoff Silver. "We're happy to be working with them now and are looking forward to helping them expand throughout the state," he added.

Stone Golabuk/Chernoff Silver's Yellow Pages subsidiary is handling National Yellow Pages advertising for Tempaco's 21 stores throughout the Southeast. To qualify as a National Account, advertising must appear in a minimum of 20 directories, published by at least two publishers, in a minimum of three states.

Additionally, at least 30 percent of the account's advertising has to be placed outside of the primary state, in this case, Florida. Stone Golabuk/Chernoff Silver is owned by Chernoff/Silver and Associates, a $24 million full-service advertising, sales promotion, and public relations firm based in Columbia, S.C.

The Orlando office represents approximately $6 million in billings. In addition to Columbia and Orlando, Chernoff/Silver has offices in Hilton Head, S.C. and Houston.

#90156b0844 06/05/1990 ~Business Wire

NEW YORK (JUNE 5) BUSINESS WIRE - Shorewood Packaging Corp. (NASDAQ: SHOR) Tuesday announced preliminary financial results for its fiscal year and fourth quarter ended April 28.

The company expects that its net earnings for fiscal year 1990 will be $16,150,000 or $1.23 per share as compared to net earnings of $15 million or $1.15 per share for fiscal year 1989.

Net earnings for the current fourth quarter were $3,615,000 or 28 cents per share as compared to net earnings of $3,868,000 or 30 cents per share for the corresponding quarter of last year.

"Our fiscal fourth quarter financial results continued to be affected in the early part of the quarter by the previously disclosed floor problems in our LaGrange, Georgia facility," stated Paul B. Shore, chairman, president and chief executive officer.

"We have installed a new floor in the effected area and all of the equipment scheduled to be erected in this area is now fully operational. April 1990 was a normal operational month for us in our LaGrange facility and, therefore, we do not anticipate any further problems relating to the floor."

"In addition, net earnings for the current fourth quarter and the fiscal year were affected by the write-off of approximately $400,000 of pre-tax costs resulting from the termination of negotiations with Quincy Packaging Group L.P.," stated Shore.

"Fiscal 1990 contained some unforseen business problems that were quickly and responsibly corrected," said Shore. "Our long range growth strategy is on target. We are anticipating increased revenues and earnings in fiscal 1991."

Shorewood Packaging Corp. and its subsidiaries print and manufacture high quality paperboard packaging for such industries as music, home video, food, tobacco, film, cosmetics and toiletries. The company's executive offices are in New York City, with manufacturing and sales operations in New York, Georgia, Alabama, Virginia, Illinois, California, Canada, and England.

WASHINGTON (JUNE 5) COMTEX - Clinical Technologies Associates Inc. filed a Form 8-K with the NASD announcing on May 16, 1990 it entered into a three-stage agreement with The Upjohn Co.

Pursuant to the agreement, Clinical Technologies granted Upjohn an option to license Clinical Technologies' patented Oral Delivery System for use with a pharmaceutical agent.

During the Stage I evaluation period, Upjohn will pay Clinical Technologies an aggregate of $1 million over a one-year period subject to Upjohn's

right until July 25, 1990 to terminate the agreement and select an alternative compound for development. Stage II contemplates additional payments over an approximately 18-month period and further evaluations and refinements of an oral formulation of such compounds.

If Upjohn exercises its option to enter into an exclusive license for an oral formulation of such compound and enters into Stage III of the agreement, Upjohn will pay Clinical Technologies an option exercise fee.

WASHINGTON (JUNE 5) COMTEX - The 8-K report filed at the SEC shows on May 17, 1990, Resource America Inc. acquired from Langasco Energy Corporation, of Pennsylvania, and several of its affiliates ("Langasco group") oil and gas assets located in Columbian County, Ohio. Resource paid a compensation of $2.1 million in cash from short-term investments to complete the sale.

The assests in question consist of the interest in and operations of approximately 190 oil and gas wells and related undeveloped mineral rights operations and ownership of some 50 miles of gas-gathering pipelines and ownership and lease agreements for certain other oil and gas properties.

On the same date, Resources cancelled its option to purchase the remaining oil and gas assets of the Langasco group.

WASHINGTON (JUNE 5) COMTEX - The 8-K report filed at the SEC shows on May 31, 1990 Empire Savings Bank, SLA, filed an action with the Law Division of the Superior Court of New Jersey to obtain restitution for T.M. 10 Cherrywood Builders #2 Inc.'s ("TM 10"'s) non-payment of its mortgage default. Those charged in the suit include TM 10, Colfax Communities Inc., Robert Tuschak, D.S.l. Associates Inc., Dennis Leonardi, Ned Cohen, United Jersey Bank, T.M.S. 1, Melbrook Investments, Ramesh Malwani and T.M. 8.

The suit stems from TM 10's original indebtedness to Empire on or about March 3, 1988, for the sum of $4.5 million with the execution of a mortgage note to secure that sum. Interest payable was set at prime plus

1.5% per annum. TM 10's evenutual alleged default on the mortgage on Sept. 1, 1990, through its failure to pay an installment of interest due and payable, constitutes the proximate cause in the suit. The suit claims include 14 seperate items of damages against the various named parties.

GROUP LED BY OIA INC OF LAS VEGAS, NV OWNS 1,930,000 SHARES (16.53%) OF VEGAS CHIPS INC (TICKER: VCHP) OF NORTH LAS VEGAS, NV.

ANNOUNCEMENT:

On May 24, 1990, OIA signed a letter of intent with John F. Rothman that gives him the right to acquire up to 40 percent of OIA's restricted common stock from OIA and Cohen in the form of up to 50 million shares and a warrant to purchase up to 68 million shares at $.025 to $.035 each.

If OIA stock should undergo a proposed split and if Rothman acquires 118 million shares, he will then own less than 5 percent of OIA.

The agreement also provides that Rothman and his designees will become OIA directors and that Cohen will remain as a director and be retained as a financial consultant.

If the transactions take place, Rothman intends to put a new plan of operations of OIA into effect.

Rothman may be deemed to be a beneficial owner of OIA's 16.1 percent stake in Vegas Chips Inc. as a result of signing the letter of intent, which contains provisions of the disposition of those shares.

PURPOSE:

Signing of a letter of intent with John F. Rothman.

Two partners, Ian Cumming and Joseph Steinberg, have agreed to vote all common shares owned by them in favor of a mutually acceptable board of directors.

Due to the dissolution, TLC Associates no longer own more than 5 percent of Leucadia National Corp. common stock.

PURPOSE:

Distribution and dissolution of partnership.

-30- 873
#90156c0049 06/05/1990 ~Comtex
WASHINGTON (JUNE 5) COMTEX - The Treasury Department will introduce a bill today which will transfer jurisdiction of stock index futures from the Commodity Futures Trading Commission to the Securities and Exchange Commission, a top SEC official said.

SEC Commissioner Mary L. Schapiro, in remarks before the National Economists Club, said the bill also provides for federal oversight of stock index futures margin levels and amends the Commodity Exchange Act's exclusivity provision.

Stock index futures, traded in Chicago but based on the prices of stocks traded on the New York Stock Exchange, allow investors to bet on the movement of a basket of stocks without buying the actual securities. Program trading allows investors to profit from the differences in the prices of futures contracts on stock indexes and of the corresponding stocks. Those quick shifts between products have been cited as a cause of stock market volatility.

This is a contentious issue on Capitol Hill. The commodity exchanges and most members of congressional agriculture committees are opposed to the switch, arguing jurisdictional changes would disrupt the markets and fail to reduce market volatility.

SEC Chairman Richard C. Breeden and the securities industry believe establishing the SEC as the sole regulator for equity-related products and harmonizing margin policy for these products will help restore investor confidence in the markets and create the best regulatory framework for insuring the integrity of the securities markets.

Schapiro, who says her preferred alternative would be the merger of the two agencies, is not overly optimistic that the bill will clear Congress.

"An informal survey tells me that the chances for passage are perhaps even, although the calendar does not favor such a result," Schapiro said. "Best guesses are that there are 50 days left in this legislative session. That's a woefully short time to effect a change as momentous as this."

Schapiro believes the question of which agency will regulate stock index futures is secondary to the issues of federal oversight of stock index futures margin levels and the exclusivity provision of the Commodity

Exchange Act.

"The most unfortunate outcome for the marketplace and the public would be for this year to pass without resolution of at least the issues of exclusivity and margin oversight," Schapiro said.

Margins are the good-faith money needed to initate trades. For stocks, an investor must put up 50 percent of the purchase price but investors can ante up up less than 5 percent for futures contracts. Critics say this level of disparity can lead to undue speculation in Chicago and result in another stock market crash such as those that occured in October 1987 and October of 1989.

"I share the concern that the significant lowering of margin levels during periods of stability and the resultant need to raise them during periods of volatility introduces unnecessary liquidity pressure on the markets, customers and their lenders during times of adversity," Schapiro said. "I would be pleased to see the Fed take on the responsibility of vetoing levels that it determined were too low."

Schapiro added the Bush administration bill will give the SEC authority to review, approve or disapprove margins for stock index products. Stock margins are presently regulated by the Federal Reserve Board and futures margins fall under the control of the Chicago futures exchanges. The CFTC can only regulate futures margins in specific emergency situations.

The bill will also amend the Commodity Exchange Act's exclusivity provision to allow new products that have both futures and stock characteristics to trade either on futures markets or securities exchanges. Presently, the exclusivity provision provides that a contract which contains elements of futurity must be traded on a futures exchange subject to the exclusive regulatory jurisdiction of the CFTC, and can in fact, be traded nowhere else.

Schapiro says the exclusivity clause discourages competition. "Whatever we can do to make U.S. markets more attractive, more innovative, more efficient and more liquid, we should be doing," she said. "I firmly believe that the exclusivity clause inhibits that process."

#90156c0051 06/05/1990 ~Comtex

WASHINGTON (JUNE 5) COMTEX - The 8-K report filed at the SEC shows on May 2, 1990, Latin Foods International Inc. learned that its former transfer agent, Pacific Transfer, as managed by Patrick MacDonald, may have issued certain common stock certificates without proper authorization. As of this filing, Latin Foods believed that only three such certificates were issued totaling approximately one million shares, to three parties. The parties

include Linda MacDonald (the sister of Patrick MacDonald), Luxor Corp. c/o Patrick MacDonald (controlled by Mr. MacDonald) and Virginia Brown.

Latin Foods International advised it transfer agent in writing on May 11, 1990, to cease transfer of company securities unless they were issued by Mountain States Stock Transfer, the company's previous transfer agent, or could be proven, to the agents satisfaction, to have been properly issued. Latin Foods, as of the 8-K filing, was in the process of examining all stock certificates issued by Pacific Transfer to determine their validity.

The company also ordered the stoppage of transfer of company securities by any of the three above-mentioned parties, or by Patrick MacDonald or Lithco Tech. Latin Foods' current transfer agent has also made this news available to all depository trusts, brokerage houses, clearing agents, and other public traders or holders of the company's securities.

The executive office of Latin Foods International Inc. is located at 3674 Noakes Street, Los Angeles, California 90023, and its telephone number is (213) 780-1722.

#90156c0052 06/05/1990 ~Comtex

WASHINGTON (JUNE 5) COMTEX - The 8-K report filed at the SEC shows Healthtec Inc. dismissed its independent pubic auditors of the firm of Ernst & Young by mail on May 17, 1990.

For the previous two years, audits performed by those former auditors contained no adverse opinion or disclaimer of opinion nor were they modified as to uncertainty, audit scope, or accounting principles, with brief exceptions. For both of those two years, Ernst & Young's statements on the company were modified as to an uncertainty regarding the ability of Healthtek to continue as a going concern.

For the previous two years, there were no disagreements between those former auditors and the company.

The audit committee of Healthtek determined that Ernst & Young could not provide the most reasonable cost for the company's required audit services, thereby recommending the change.

#90156c0053 06/05/1990 ~Comtex

WASHINGTON (JUNE 5) COMTEX - The 8-K report filed at the SEC shows on May 23, 1990, Digital Solutions Inc. dismissed the firm of Laventhol & Horwath as the independent auditors of its fiscal results, and engaged in its stead the auditors of M.R. Weiser & Co. That decision was recommended and

approved by the company's board and audit committee.

For the previous two years, audits performed by those former auditors contained no adverse opinion or disclaimer of opinion nor were they modified as to uncertainty, audit scope, or accounting principles.

For the previous two years, there were no disagreements between those former auditors and the company.

#90156c0054 06/05/1990 ~Comtex

WASHINGTON (JUNE 5) COMTEX - The 8-K report filed at the SEC shows on May 22, 1990, Health Advancement Services Inc. completed its initial public offering of 2.5 million units, each unit consisting of one common share and one common share purchase warrant, at a price of $1.00 per unit. Trading of Health Advancement Services, under the trading symbol of HASI for common stock and HSIU for units, began on the NASDAQ System on May 25, 1990.

As of March 31, 1990, the company had owed Parliament Hill Corp. $357,000. Through a March 31, 1990 agreement with the company, Parliament Hill Corp., a principal shareholder in Health Advancement, reduced that indebtedness by contributing $340,000 of the debt to paid-in capital of the company. Again, when, on April 30, 1990, the company was indebted to Parliament Hill for $109,000, Parliament Hill contributed $95,000 of that debt to the company's paid-in capital.

#90156c0055 06/05/1990 ~Comtex

WASHINGTON (JUNE 5) COMTEX - The 8-K report filed at the SEC shows on May 21, 1990, Cobb Resources's jointly-owned London Mine Venture executed an option agreement with Alma American Mining Corp., of Colorado, for the exploration and development of the properties of the London Mine. Cobb's joint owner of London Mine is American Boulder N.L.

During the agreement's four-month option period, Alma may explore as it considers warranted to augment the existing resources of London Mine. Alma will pay London $10,000 per month until either it exercises the option agreement or the option period expires.

If the option were to be exercised, Alma would earn a 50% interest in the venture, which would be re-named Alma London Joint Venture. Cobb and American Boulder would then each keep a 25% interest in the venture. Alma would be required to add interests in mineral properties adjacent to the London Mine, as well as floating mill facilities.

BONN (JUNE 5) - West German cassette and videotape manufacturer, BASF AG is to take over its main competitor in West Germany, the Agfa-Gevaert AG subsidiary of the pharmaceuticals giant, Bayer.

The price of the deal was not disclosed.

BASF issued a press release Tuesday saying a declaration of intent would be signed between the two companies on Wednesday. The takeover has still to be authorized by West Germany's Cartels Board.

BASF, the fourth largest cassette and videotape maker in the world, said the takeover was necessary to help the company compete in an increasingly concentrated worldwide tape market, dominated by the U.S. 3M company and Japanese cassette manufacturers TDK, Sony, and Maxell.

Until now, both BASF and Agfa have been losing money in the tape market, said BASF. In 1987 the two companies merged their research and development divisions.

Last year, BASF's tape sales were worth 1.6 billion DM (one billion dollars), or about 3.5 percent of its total sales of 47.6 billion DM (30 billion dollars). Agfa had tape sales last year of 450 million DM (280 million dollars).

According to the terms of the acquisition, BASF will take over Agfa's plants in Munich, West Berlin, as well as its Pyral S.A. subsidiary in the north of France. The three plants employ 1,400 people.

BASF will acquire only part of Agfa's Rottenburg plant which has 100 employees.

Johannesburg (JUNE 5) - The deployment of troops in South Africa's eastern Natal province, where a power struggle between black political rivals has claimed some 3,000 lives in three years, has dramatically reduced the level of violence in the region, the army claimed Tuesday.

An army spokesman said clashes between supporters of the Zulu nationalist movement Inkatha and youths loyal to the African National Congress (Anc), had ended ''literally overnight'' when troops from the battle-hardened 32 Battalion were mobilised in the area two months ago.

The number of murders had been reduced from 96 in March to 13 in May and most of the non-combatants who fled the fighting had been returned to their homes, with only 4,000 left in refugee camps.

''The situation can best be described a relatively quiet, under control and with few incidents,'' Colonel Johann Swanepoel told reporters, adding that the Defence Force (Sadf) was now being accepted as a peacemaker by the rival groups.

Natal has for some months been regarded as the remaining obstacle to the scrapping of the four-year-old state of emergency, which empowered the South African government to suppress a violent uprising in black townships in 198687.

A source close to the cabinet said this week the emergency would not be renewed Friday and that existing security legislation would be used to combat the Natal conflict.

GENEVA (JUNE 5) - A meeting of tribal leaders from the disputed Western Sahara, aimed at drawing up electoral lists for a referendum on self-determination, failed to start Tuesday for the second straight day amid recriminations by participants, diplomats said.

Morocco and the Polisario Front objected to the composition of each other's delegations here to attend the U.N.-hosted meeting.

The conference had already been postponed for a day Monday when Polisario, seeking the independence of the Western Sahara from Morocco, protested that some of the tribal leaders sent by Morocco were not representative.

"Morocco is not keeping to the lists that were drawn up and constantly changes the delegates due to take part in the discussions," a member of the Polisario delegation said.

"Some of them...are police", the delegate added.

In a statement Sunday, Polisario alleged that "many plain-clothed Moroccan policemen" had arrived in Geneva and had been "deployed in hotels in the town, auguring badly for the free and serene atmosphere that should be the first guarantee of success".

The meeting here of the U.N. identification commission was called by Secretary-General Javier Perez de Cuellar so that tribal chiefs could offer suggestions for organizing the self-determination referendum.

The commission, which had been due to meet here from Monday through Wednesday, is to include senior U.N. officials and Spanish experts who took part in a 1974 census carried out by Spanish colonial authorities the year before Spain pulled out of the Western Sahara and Morocco occupied the territory.

PARIS (JUNE 5) - The Paris population has remained fixed at just over two million for the past eight years, Mayor Jaques Chirac said on Tuesday.

A March census showed the population to be 2,154,678, a drop of around one percent since 1982, said the former prime minister at a press conference in the French capital.

"This puts the lie to the allegations of some, who were quick to say the Parisian population had fallen below the two million mark", said Mr. Chirac.

The figures exclude the immediate suburbs which in 1982 put the Paris region population at around 10 million.

-30- 773

#90156d0180 06/05/1990 ~French/German News Agency

HARARE (JUNE 5) - Former Rhodesian premier Ian Smith on Tuesday won a long battle with Zimbabwe's legislators which had created a constitutional crisis.

At the centre of the row was a Supreme Court ruling last November that Mr. Smith should be paid the salary he lost while suspended from parliament in 1987 over his perceived support for the white-minority government in neighbouring South Africa.

The then Speaker of parliament, Didymus Mutasa, said parliament would refuse to pay because parliamentary decisions were not subject to court rulings.

The five judges of the country's highest court responded by declaring that a crisis had been created and accusing Mr. Mutasa of "utter disregard for the rule of law."

Parliament, with the tacit backing of President Robert Mugabe, then set up a committee to examine the implications of the court ruling that while it was entitled to suspend Mr. Smith, it was not entitled to stop his salary.

The committee's report, presented Tuesday, said parliamentary powers were

subject to the constitution as interpreted by the courts, and Mr. Smith has now been paid a total of 14,588.33 Zimbabwe dollars (5,835.33 U.S.) in salary, allowances, legal costs and interest.

#90156d0260 06/05/1990 ~French/German News Agency

MONROVIA (JUNE 5) - Six U.S. and British warships lay off the coast of strife-torn Liberia Tuesday amid rumours of successful rebel offensives against the forces of beleaguered President Samuel Doe.

The warships, with a total 2,000 men aboard, were making ready to evacuate Americans and Britons from the troubled West African country, following U.S. rejection of a dramatic plea by Doe for help against rebel forces.

Diplomats in Liberia, meanwhile, denied reports that guerrillas of the Natonal Patriotic Front under Charles Taylor had advanced to the suburbs of Monrovia.

The diplomats told Bbc reporters that the rebels had been unable to take strategic positions near the Monrovia airport 50 kilometres east of the capital despite a night of fighting.

They said government troops apparently had fired on each other, mistaking each other's forces for rebels.

French Radio reported, however that the capital was virtually surrounded and that the guerrillas had seized several strategic localities.

The situation for the embattled president became more critical after the United States rejected Doe's empassioned plea for assistance. Washington said its forces would be used strictly for evacuation of U.S. citizens and their dependents.

#90156d0270 06/05/1990 ~French/German News Agency

GABORONE (JUNE 5) - The African National Congress had the backing of the entire African continent in its opposition to the easing of sanctions against South Africa, ANC deputy president Nelson Mandela said here Tuesday.

Wrapping up a two-day tour of Botswana with a press conference in which he repeated the ANC's demand that there must be no let-up on sanctions, Mr. Mandela accused European leaders of applying double standards on the issue.

He said a number of European countries had indicated that they were considering lifting sanctions following recent reforms introduced by

President Frederik de Klerk, and in the wake of a highly successful tour of Europe last month by the South African leader.

But, Mr. Mandela said, South Africa's ruling National Party had indicated that it would seek some form of protection for minorities in negotiations with credible black organisations -- among them the ANC -- on a new, non-racial constitution.

The European social order was based on the democratic principle of one-person, one-vote, Mr. Mandela said. There was no question of providing protection for minority rights.

"We want to know from Europe why that system isn't good enough for us. Why should we be prepared to base our social order on other principles," he asked.

Mr. Mandela, who was due late Tuesday to jet off for Europe on the second leg of his 13-nation tour, repeated that he aimed to blunt Mr. De Klerk's apparent diplomatic breakthrough.

BRASILIA (JUNE 5) - Paraguay has asked Brazil to extradite Gustavo Adolfo Stroessner Moura, the son of former dictator Alfredo Stroessner, who has lived in Brasilia since his father was toppled in a February 1989 coup, court officials said Tuesday.

The Paraguayan request accused Gustavo Stroessner of several crimes, including obtaining illegal business advantages while his father was in office, according to documents filed with the Brazilian Supreme Court, which must rule on the extradition request.

Gustavo Stroessner sought political asylum in Brazil along with his father, who was ousted after 35 years in power by General Andres Rodriguez.

BUCHANAN, LIBERIA (JUNE 5) - Rebels fighting to unseat Liberian President Samuel Doe have summarily executed hundreds of ethnic rivals near this key iron ore port 90 miles (145 kilometers) from the capital Monrovia, eyewitnesses said.

The witnesses said the victims were primarily members of Mr. Doe's native Krahn tribe and Mandingos, a group of Moslem traders accused of supporting the government.

An Agence France-Presse correspondent saw about 20 bodies in plain clothes near Buchanan where governemnt troops and rebels have been fighting for the past three weeks.

Rebel leaders have put the blame on the government troops.

Buchanan's 100,000-strong population deserted the city after rebels of the National Patriotic Front (NPFL) captured the port on May 19, retaken by troops on May 26, and won back by the insurgents a few days later.

#90156d0530 06/05/1990 ~French/German News Agency
BRUSSELS (JUNE 5) - The European Commission and Belgian counter-espionage have launched a major security inquiry after a top KGB agent in Brussels defected to the United States, concurring sources said Tuesday.

The spy -- identified by one of the sources as Igor Cherpinski, a third secretary at the Soviet Embassy -- said he had contacts with a senior official in the European Economic Community (EEC) executive; an aide to Belgian Interior Minister Louis Tobback; and a member of the Belgian

Defence Ministry, the sources said.

Mr. Cherpinski was a senior official and analyst in the KGB, in charge of a network that focussed on the Belgium capital -- the headquarters of the EEC and the North Atlantic Treaty Organisation (NATO) -- and the northern Belgian region of Flanders, the source said.

He defected to the U.S. Embassy in Brussels in early April and gave details of his contacts, he said.

Among them was a senior French official at the EEC Commission, a diplomat said. The executive, helped by counter-espionage services, has launched an inquiry into the official, he said.

The Commission's spokesman acknowledged that a Commission employee "had been in contact" with the Soviet diplomat "as part of his job."

But he denied a report in the Belgian daily La Libre Belgique that the official was an aide to Mr. Delors or in charge of trade negotiations with eastern Europe.

#90156d0600 06/05/1990 ~French/German News Agency

NEW YORK (JUNE 5) - A Pan American World Airways jumbo jet, en route from Frankfurt to Washington, was allowed Tuesday to leave Scotland's Prestwick airport after being diverted there following a bomb threat, the airline said.

Pan Am spokeswoman Susan Timper said a police search of the aircraft, which had 185 passengers on board at the time of the incident, had found nothing and "we think it was a hoax."

She added that one passenger had been detained by authorities at Prestwick.

A Pan Am Boeing 747 jumbo exploded above Lockerbie, Scotland in December 1988 killing all 259 people on board and 11 others on the ground. British and U.S. authorities have ruled that the Lockerbie disaster was due to a bomb explosion on board.

The captain of the Boeing 747 in Tuesday's incident made the decision to land at Prestwick after he received a report during the flight that there was a bomb aboard the aircraft, a spokeswoman for Britain's Civil Aviation Authority said.

There were unconfirmed reports that one of the passengers had claimed to have a bomb on board.

The incident occurred 18 months after a Pan Am 747 was blown up by a terrorist bomb and crashed in Lockerbie, Scotland, killing all 259 people aboard the plane and 11 others on the ground.

#90156d0630 06/05/1990 ~French/German News Agency

ADDIS ABABA (JUNE 5) - The Ethiopian Government on Tuesday pledged to reactivate the stalled peace talks with the Eritrean People's Liberation Front (EPLF) and to substantially increase the amount of relief food to be delivered to those threatened by famine in the country's war-torn northern regions.

A foreign ministry statement here, reacting to Monday's joint U.S.-Soviet summit declaration in Washington on Ethiopia, said the Ethiopian Government had never objected to the inclusion of the United Nations as an observer in substantive talks on peace in Eritrea.

Rather, the statement said, it was the United Nations that had declined to be an observer in the peace process for its own constitutional and legal reasons.

The statement said that because of its wish to revive the peace process, the government had decided to take measures, outside the procedures originally agreed upon for the conduct of preliminary talks (under chairmanship of former U.S. president Jimmy Carter), to enable the United Nations to serve as an observer in the substantive negotiations and co-chairmen had been duly informed accordingly.

"The Ethiopian Government has decided to accept in principle the use of Massawa as a port of delivery for relief supplies and is ready to discuss modalities of the port's utilization with donors and other concerned parties", the statement said.

#90156d0700 06/05/1990 ~French/German News Agency
NEW DELHI (JUNE 5) - Ten people died in a blaze that swept through a slum on Tuesday and the local administration has ordered an investigation into a number of fires that have occurred here this summer, reports here said.

The national television, Doordarshan, said 10 people including three children were burnt alive in the latest blaze.

Earlier, police said the fire killed seven and razed some some 500 shanty town dwellings

The fire was the third in a Delhi slum in less than two weeks and the latest in a series of devastating blazes that have rendered more than 25,000 slum dwellers homeless in the Indian capital since April.

After April's shanty-town fires, police arrested several of the slum's mafia chieftains on suspicion of trying to cash in on government benefits for fire victims, but no arrests have been made in connection with the most recent fires.

#90156d0820 06/05/1990 ~French/German News Agency
LAGOS (JUNE 5) - Nigeria will not respond to the call of some other developing countries by repudiating its external debts which last December stood at 31.96 billion dollars, Finance and Economic Deveopment Olu Falae, stated here Tuesday.

"No self-respecting nation should repudiate international obligations based on mutual negotiations and agreements," Chief Falae said at a lecture organised by the Finance Correspondents Association of Nigeria (FICAN).

But the developed world should initiate a new deal that would allow for the smooth repayment of debts and ensure the preservation of national economic sovereignity of developing nations, the minister said at the lecture attended by foreigners, bankers, financial and economic experts.

The developed world should begin to see the debt issue from a totally different angle to avoid the complete collapse of the world economy, now increasingly interwoven, he said.

It was disturbing that the external debt of African countries had reached, by last December, 225.6 billion dollars, an amount which represented 17 per cent of the debts of all developing countries, he said.

Nigeria, under its new initiative for debt payment, has called for a rescheduling of all its outstanding foreign debts for a period of 30 years with a grace period of 10 years.

All the nation's external debts should also be denominated in dollars, the currency in which its export earnings are denominated, he added.

The interest rate in the debt stock should be fixed over a period of rescheduling to avoid a situation where the debt stock is double and payment made impossible as a result of flunctuation in interest rate, he also said.

The fluctuation of exchange rates of debts denominated in various currencies, capitalisation (commitment) of interests on loans, trade arrears and the rescheduling of debt stock are the factors responsible for the nation's huge external debts.

The Nigerian Government has embarked on a rescheduling programme predicated on debt service repayments of 6.14 billion dollars over six years (1986-1991) to allow the nation some respite for the period during which only these interests would be paid, he stated.

BANGUI (JUNE 5) - General Andre Kolingba, president of the Central African Republic, carried out a government reshuffle Tuesday and named a senior official of the sole RDC party to replace Foreign Minister Michel Gbezera.

The new foreign minister is Laurent Gomina-Pampali, chief of staff of the executive secretary of the Rassemblement Democratique Centrafricain.

Gen. Kolingba appointed 11 newcomers, dismissed nine and added one new portfolio, expanding the Cabinet to 25.

Official sources said the shuffle was carried out as part of the president's new policy of openness.

The new government is as follows:

Minister in charge of the Cabinet Secretariat Edouard Frank

Minister of Economy, Finance, Planning and

International Cooperation Dieudonne Wazoua

Minister of Defense Christophe Grelombe

Minister of Social Security and

Territorial Administration Thomas Mapouka

Minister of Foreign Affairs Laurent Gomina-Pampali

Minister of Justice and Bearer of the Seals Hugues Dobozendi

Minister of Primary, Secondary and

Technical Education Joseph Mabingui

Minister of Higher Education Jean-Marie Bassia

Minister of Transport and Civil Aviation Pierre Gonifei-Gaibonanou

Minister of Civil Service, Labour, Social Security

and Professional Training Gaston Azibolo

Minister of Public Health and Social Affairs Genevieve Lombilo

Minister of Rural Development Casimir Amakpio

Minister of Posts and Telecommunications Jean Tchombego

Minister of Public Works and Territorial

Development Dieudonne Nana

AUXERRE, FRANCE (JUNE 5) - The driver of a British tour coach which crashed in central France on Sunday, killing 11, was placed under preventive detention in a hospital bed on Tuesday.

Scotsman John Johnson, 52, who was driving when the coach came off the Lyon-Paris autoroute near Joigny, Burgundy, early Sunday, was detained after an eight-hour interview with French police, reliable sources said. A blood-alcohol test proved negative.

Mr. Johnson can be detained no longer than 48 hours, and a judicial inquiry is expected to open on Wednesday.

Seventy five people were on board the coach from Spain when the right front tyre blew, forcing the vehicle off the road into a ditch. On Tuesday legal sources confirmed the coach had been travelling between 110 and 115 kilometres (69 to 72 miles) an hour. The speed limit was 90 kmhour.

The crash is the most serious in France for eight years. Of the 57 injured, nine were in a stable but serious condition on Tuesday. Mr. Johnson suffered moderate injuries.

Experts have yet to establish why the tyre burst, and the coach is currently being held pending an official investigation.

Some hospitalised passengers say the coach had had tyre problems earlier, delaying the journey by several hours. The bus had stopped for 45 minutes late Saturday night, while two drivers poured water on a hot tyre, two of the injured said. Passenger Henry Weir, who suffered slight injuries, said the drivers on board had argued over the best course of action.

Meanwhile in London, British Transport Secretary Cecil Parkinson on Tuesday told an emergency debate in the House of Commons that "in the light of this tagic accident" he would be pressing for compulsory seatbelts in coaches.

"We shall renew our pressure to remove the obstacles to their standard fittings in all out coaches" he said, stressing that Britain had always played "a leading role in Europe in developing high standards in coach safety".

He said the coach had been subject to official controls, and that British experts who had seen it said the tyre was not defective and was correctly inflated.

On Tuesday the European Commission said it was ready to "study the idea" of legislating for compulsory seat belts.

QUITO (JUNE 5) - Ecuadoran indians were occupying a Quito church, holding 30 security men hostage and blocking highways in six provinces Tuesday to press demands ranging from an end to payments on Ecuador's foreign debt to the resolution of land disputes affecting native peoples.

The government said it would meet with the indians, but demanded that they end their protest actions and free the abducted soldiers and policemen.

The Indians, from 70 organizations under the umbrella group called Ecuador's Confederation of Indigenous Nationalities (CONAIE), began their protests by occupying the Santo Domingo church since May 29.

Their key demand is for resolution of disputes involving territorial land rights and the setting aside of additional land for indigenous peoples.

They are also protesting the high cost of living and demanding that petroleum companies pay for damage the indians say they have wreaked on the environment.

"We indians are ready to defend the land that belongs to us with our blood " said a CONAIE leader, Maria Andrade, after highways were blocked in the Andean provinces of Bolivar, Chimborazo, Cotopaxi, Imbabura, Pichincha and Tungurahua.

Secretary for the Presidency Gonzalo Ortiz said the government was prepared to hold talks with the indians once they release control of the Santo Domingo church in Quito and free about 30 policemen and soldiers.

CONAIE director Cristobal Tapuy said the indians would meet with government officials but first demanded that the police cordon be removed from around the church that Mr. Tapuy said the indians would leave Wednesday.

CONAIE did not issue a decision on whether they would free the security forces to open the way for talks.

ACCRA (JUNE 5) - The French aid agency, Caisse Centrale de Cooperation Economique (CCCE), has granted Ghana 72 million French francs (about 12 million dollars) to rehabiliate the state-owned State Gold Mining Corporation, a CCCE statement said here Tuesday.

Ghana's Finance Secretary Kwesi Botchwey and the CCCE's resident manager in Ghana, Joel Daligault signed the accord on Friday.

Other financiers of the SGMC rehabilitation program include the World Bank, the European Investment Bank and the African Development Bank.

Since 1985, the CCCE has loaned Ghana some 768.6 million French francs (about 138.5 million dollars).

The 30-year loans carry a 10-year grace period, a 1.5 percent interest rate for the first 10 years and two percent for the final 30 years.

RAWALPINDI, PAKISTAN (JUNE 5) - Moslems in northwest China's Xinjiang province are living under close scrutiny following Beijing's April crackdown on Moslem separatists, Chinese travellers arriving here said.

Many people were killed when troops stormed the town of Akto, just south of Kashgar in China's far northwest and several thousand Moslem activists fled into the mountains, they said.

Chinese officials in Beijing last month said riots in April by Moslem separatists had shaken the Xinjiang town of Baren, just south of Kashgar, leaving 22 people dead.

The travellers here said Akto was at the centre of the unrest and said a large number of men were rounded up in the wake of the army action.

Late last month, the official Xinjiang Daily denounced "bandits" who "teach separatist thinking to young students with the goal of taking power."

In a series of tough measures, Chinese authorities banned the construction of mosques, religious preaching, the use of loudspeakers at places of worship and Koranic studies, the travellers said.

"We can't even use loudspeakers for the 'azan' (call to prayer)," said a 78-year-old man, a member of a group here on their way to Mecca for a pilgrimage to Islam's holiest shrine.

The travellers refused to give their names for fear of reprisals from Chinese authorities in Xinjiang, the predominantly Moslem region bordering the Soviet Union, Afghanistan and Pakistan.

"Moslems constitute 80 percent of the 15 million inhabitants in the Islamic enclave of communist China," said another old Chinese man who has never been outside China before, like all the other members of the group of pilgrims.

Officially, Beijing puts the population of Xinjiang at 14.3 million, some 60 per cent of whom are Moslems.

SAN FRANCISCO, California (JUNE 5) - South Korean President Roh Tae-Woo left San Francisco for Washington Tuesday to talk with President George Bush and brief him on his "epoch-making" summit here with Soviet leader Mikhail Gorbachev.

The meeting between Mr. Roh and Mr. Bush at the White House Wednesday is expected to include prospects for reducing military forces on both sides of the 38th parallel that divides North and South Korea.

The South Korean and Soviet presidents agreed at a 70-minute meeting Monday to establish full diplomatic relations, Mr. Roh told reporters, describing the summit as "an epoch-making event."

He made it clear he saw the upcoming exchange of ambassadors as a means of putting pressure on Pyongyang -- long supported by the Soviet Union and China -- to open up to the south.

Mr. Gorbachev told reporters the meeting was a natural outgrowth of his attempts to improve Soviet relations in Asia.

"We must improve relations with everybody who lives there, and not do it selectively," the Soviet leader said. "So after some reflection, we decided to go ahead with this meeting."

The South Korean president said he asked Mr. Gorbachev to lean on Pyongyang to "reduce its military posture."

"I stressed my view that we would never seek any military superiority over

North Korea," he said.

MIDDLESBROUGH, ENGLAND (JUNE 5) AFP - East Germany scored their second successive stage win when Uwe Preissler won the eighth stage of the Milk Race from Bridlington to Middlesbrough.

Six tough climbs failed to split the field and Preissler outsprinted a bunch of 66 riders in a time of four hours five minutes 42 seconds for the 102 miles.

Dutchman Robert Van de Vin was second and Darien Rush, from New Zealand, third.

There were no changes to the top overall positions and Australian Shane Sutton retained the overall leader's yellow jersey for the fifth day.

#90156d1190 06/05/1990 ~French/German News Agency
WASHINGTON (JUNE 5) - The United States Tuesday said the historic meeting between Soviet President Mikhail Gorbachev and South Korean President Roh Tae-Woo has improved the prospects for peace on the Korean peninsula.

"The United States is very pleased that the Korean and Soviet presidents have met in San Francisco," said State Department spokesman Richard Boucher of the meeting between the two leaders in California.

"This historic meeting has improved the prospects for peace on the Korean peninsula and eventual reunification," he added.

It was the first face-to-face meeting between the leaders of the two countries, who are ideological and military adversaries, since the division of the Korean peninsula after World War II.

But Mr. Boucher did not raise the issue of the establishment of diplomatic relations between the two countries.

Observers speculated the omission could be intended to let any public comment on the matter come from President George Bush who was to meet Wednesday with the South Korean president.

"The United States strongly supports president Roh's policies aimed at building ties with socialist countries and encouraging North Korea to build ties with South Korea and other free market states," Mr. Boucher said.

But in a response to a reporters' question, he acknowledged there is not "any indication" North Korea wants to move the reunification process forward.

North Korea was angered over the meeting between its longtime foe South Korea and the Soviet Union, its traditional ally.

"Clearly, recognition of the South and the role it has to play by the Soviet Uniion is an important step," Mr. Boucher said.

Mr. Boucher said not all the conflicts on the peninsula had been resolved during the talks. "There are certainly many other things that would have to occur in order to reduce tension significantly."

#90156d1210 06/05/1990 ~French/German News Agency

WASHINGTON (JUNE 5) - The World Wildlife Fund has won its first battle to save African elephants from extinction at the hands of poachers, due to an ivory boycott it negotiated, according to a Fund report released Tuesday.

It said the boycott sharply reduced global demand, especially in the United States.

"We appear to be winning the first, urgent battle to control the international ivory trade," wrote Fund President Kathryn Fuller in the introduction of the report on the effects of the 108-nation ivory trade ban.

"The American people heeded our call to save the elephant and stopped buying ivory ... Imports dropped to near zero and the U.S. market has virtually collapsed," Ms. Fuller said.

According to a Fund investigation of the 15 main traders with the United States, the stocks remain unsold despite sharp price reductions. The U.S. market normally accounts for 20 million dollars, about 10-15 per cent of the world ivory market.

The ivory ban has also reduced imports to Japan, Hong Kong and many other countries, according to the report.

The Fund noted that the ban's effects have contradicted opponents' predictions of skyrocketing prices and continued poaching of African elephants.

The price of raw ivory fell 90 per cent in Africa, from 200 dollars to 300 dollars a kilogram to between two dollars and 20 dollars. Stocks in Africa and Asia remained unsold.

The World Wildlife Fund will invest 2.7 million dollars in 1990 in nine African countries in projects aimed at restoring elephant populations.

For its part, the U.S. Government will provide 2.5 million dollars.

The population of elephants in Africa has shrunk nearly in half, from nearly 1.2 million elephants in 1981 to 610,000 in 1989, the Fund said.

PARIS (JUNE 5) - It will be tomatoes with everything for Parisians Wednesday, when producers give them away to show what a raw deal they are getting.

In a press communique, southern France growers say they are selling tomatoes for less than it costs them to produce. This year, growers get between three and four francs a kilogram (about 0.25 dollar a pound). But they say production costs them 5-12 to six francs (one dollar) a kilogram.

Shoppers can take advantage of the tomato take-away at five sites in the capital. More than 50 tons will be handed over between 11 a.m. and 3 p.m.

#90156d1270 06/05/1990 ~French/German News Agency

CAPE TOWN (JUNE 5) - The government is to set up a commission of inquiry into whether to increase its aid to South Africa's most financially troubled gold mine, Mineral and Energy Affairs Minister Dawie de Villiers said here Tuesday.

In a statement issued here, he said a commission would "urgently and comprehensively" look into whether government should further aid East Rand Proprietary Mines (ERPM), plunged into severe crisis during the past year as the South African gold price tumbled on international markets.

Mr. De Villiers said the panel would report on ERPM's mining activities and management, taking into account the massive loss of jobs, loss of foreign exchange and possible locking up of gold reserves that could result from closing the mine.

Without continued state aid, the mine east of Johannesburg is almost certain to shut down.

Some 10,000 mostly black workers stand to lose their jobs if this happens and the mine cannot be reopened as the shafts will rapidly fill with water.

Until now, the government has loaned the mine 220 million rands (83 million dollars) and rendered a government guarantee for deferred interest payments of up to another 67 million rands (25 million dollars.)

#90156d1290 06/05/1990 ~French/German News Agency

LONDON (JUNE 5) - Ivan Lendl served up a convincing victory at the Beckenham tournament on Tuesday as he put on display a new and powerful racquet as part of his Wimbledon buildup.

Lendl, the world number one, beat Australian left hander Neil Borwick 6-1 6-1 in the second round of the grass court championships but was fortunate to finish the contest.

As the 30-year-old Czech began to serve for the match at 5-1 in the second set it began to rain and within seconds the trickle turned to a torrent.

At Wimbledon the players would have been straight off to protect the court but Lendl and Borwick played eight points in the downpour before Lendl won on his second match point.

The Czech was still content: "Had it not been the last game the referee would have stopped it after a couple of points. But I'm glad I finished the match."

Lendl deliberately missed the French Open to concentrate on grass court play and, now he has passed 30, it could be his last real chance for the Wimbledon crown, the only Grand Slam title he has failed to win.

He has already been practising on grass for seven weeks but this was his first competitive match in that time and he said: "No practice can be better than having the umpire in the chair."

His new racquet, 10 square inches bigger in the head than the type he has used for most of his career, is designed to give him extra power on grass and he is more than satisfied with it.

Today it was just a gentle workout against Borwick, ranked 158 in the world, with Lendl taking the first set in 19 minutes and being a little harder-pressed in the second.

Lendl is quietly confident about Wimbledon.

"In theory Boris Becker, Stefan Edberg or I should win the title but you cannot discount players like Pat Cash and John McEnroe who have won the title before.

"Then there are other dangerous grass court players like Henri Leconte, Tim Mayotte and Kevin Curren who may not win the title but could put out a top player.

"Naturally I would like to win Wimbledon but it will not be the end of the world if I don't do it this year. Whether I win the title or not I can tell you no-one will be trying harder."

The heavy rain held up play for two hours but, though four matches made a brief appearance on the outside courts, the Centre Court clash between Stefan Edberg and Pat Cash, both former Wimbledon champions, was held over until Wednesday.

The biggest surprise of the day came when Indian Zeeshan Ali beat the big-serving Yugoslav Slobodan Zivojinovic, 7-5 6-1, in another first round match.

Zivojinovic reached the Wimbledon semi-finals in 1986 before losing to Lendl in five sets. He has also reached the last eight once and the last 16 twice in the past three years.

MONROVIA (JUNE 5) - Government troops fighting rebels seeking to unseat Liberian President Samuel Doe killed rebel military adviser Elma Glee Johnson, in renewed fighting Monday in Grand Bassa County, the information ministry said late Tuesday.

Mr. Johnson was killed at the Liberian Agriculture Corporation (LAC), several miles (kilometers) from Buchanan, the county's capital, it said.

No other details of the fighting were given.

However an Agence France-Presse reporter in Buchanan said Tuesday he had spoken to a National Patriotic Front (NPFL) rebel military adviser named as Elmer Johnson after Monday's battles.)

In a related development, the ministry told Monrovia residents to ignore anonymous letters written by "criminal-minded" people posing as rebels telling people to leave their homes.

The ministry warned that those writing such letters would be punished.

It also denied reports that rebels had taken over the Firestone plantation company less than one mile (about two kilometers) from Roberts International Airport.

-30- 1238
#90156d1340 06/05/1990 ~French/German News Agency
BEIRUT (JUNE 5) - Two Christian MPs decided Tuesday to accept their seats in the government of Prime Minister Selim al-Hoss, producing a cabinet with an equal number of Christian and Moslem ministers.

Georges Saadeh, leader of the main Christian party, the Kataeb, and Michel Sassin had both declined to take up their seats since the government was formed in November 1989.

Mr. Saadeh, a Maronite, holds the posts and telecommunications ministry, while Mr. Sassin, a Greek Orthodox, takes over as deputy prime minister and minister of labour.

The 14-member government was named as part of an Arab peace plan rejected by the Christian military leader General Michel Aoun because it failed to set a timetable for the withdrawal of Syrian troops from Lebanon.

The two Christian politicians said in January they would not join the cabinet because of its financial sanctions against Gen. Aoun and the Christian region under his control.

The Kataeb, which is close to the Christian militia, the Lebanese Forces (LF), said Tuesday that the original decision was taken to preserve unity among Christian ranks.

This reason no longer applied because the LF and troops under Gen. Aoun have been locked in a bitter conflict since January 31, at the cost of more than 1,000 lives, the Christian party said in a statement.

In contrast to the general, LF chief Samir Geagea has said he recognized President Elias Hrawi's election last November under the Arab plan.

#90156d1350 06/05/1990 ~French/German News Agency
CAMPO GRANDE, BRAZIL (JUNE 5) - Brazil is prepared to set aside parts of its territory as ecological reserves in exchange for debt relief, President Fernando Collor de Mello announced Tuesday in a major policy reversal.

"The idea will be among the proposals we will present to our creditors to renegotiate the debt," Mr. Collor de Mello said in a speech in the southern Amazon state of Mato Grosso do Sul.

Land-for-debt swaps, already in force in Costa Rica and Bolivia, had long been rejected by Brazilian leaders as an infringement on national sovereignty.

Brazil's first democratically elected president in nearly 30 years, Mr. Collor de Mello took office March 15 and immediately launched a radical austerity plan aimed at healing Brazil's inflation-battered economy.

He also set easing the the country's crushing debt load -- around 115 billion dollars, the largest in the developing world -- as one of his priorities.

The government has said talks on renegotiating the debt are due to begin in September.

Under land-for-debt deals, international environmental organizations assume a portion of a country's foreign debt in exchange for that country's setting up ecological reserves.

To dramatize Brazil's change of heart on the issue, Mr. Collor de Mello donned the khaki-green uniform of the country's forest rangers and gave his speech in the wildlife rich Pantanal -- a sprawling plain shared by Brazil, Bolivia and Paraguay.

TOKYO (JUNE 5) - The share of nuclear power in Japan's energy resources will almost double by the year 2010, as will the number of nuclear power stations in the country, an official report said here Tuesday.

The report by the Advisory Committee for Energy of the international trade and industry ministry said nuclear power's share of total energy production would jump from nine percent at the end of 1988 to 16.7 percent in 2010.

This would mean building 40 new nuclear power stations on top of the current 37, the report said. Sixteen of these are already under construction.

The report said Japan's total energy consumption would rise 40 percent in the next 20 years to 444 million tonnes of oil equivalent which would mean producing some 666 million tonnes of oil equivalent to allow for technical depletions.

This increase takes into account an 11 percent drop in demand due to economies of consumption.

In the face of growing environmental problems, the report predicts a drop in the use of oil and other fossil fuels, with oil usage dropping from 57.3 per cent to about 46 percent.

Other types of energy, such as nuclear, solar, hydroelectric and geothermal energy, are meanwhile expected to rise from 15 percent at the end of 1988 to 26.5 percent in 2010.

Japan's nuclear power stations are expected to produce 72.5 million kilowatts of energy in 2010, compared to 30.4 million kilowatts now.

The report also calls on Japanese to conserve energy, to develop clean engines and to research and use new forms of energy.

JOHANNESBURG (JUNE 5) - The president of the Pan Africanist Congress (PAC), Zeph Mothopeng, is to embark on a tour of eight African states on Thursday, PAC spokesman Benny Alexander said here Tuesday.

He said Mr. Mothopeng would visit Zimbabwe, Libya, Ghana, Nigeria, Guinea, Uganda, Madagascar and Tanzania.

Mr. Mothopeng aims to raise funds and brief African officials and PAC supporters on the movement's outlook on recent political changes in South Africa.

The PAC was unbanned together with the African National Congress on Feburary 2 this year after being banned for 30 years. It differs from the ANC in that it sees no role for whites in a future South Africa.

Mr. Mothopeng has been invited to attend Madagascar's 30th independence celebrations on June 25 and 26 and is to be accompanied on his tour by his wife, Urbania, and two members of the PAC's national executive.

His political adversary, ANC deputy president Nelson Mandela, toured Africa last month and left here Monday for a tour of Europe and the U.S.

Meanwhile, the general secretary of the anti-apartheid South African Council of Churches (SACC), the Rev. Frank Chikane, left for Nairobi Tuesday to meet with delegations from the PAC and the ANC to discuss conflicts between the two movements.

An SACC statement said Mr. Chikane had been invited to Nairobi by the All Africa Conference of Churches.

#90156d1550 06/05/1990 ~French/German News Agency

DURBAN, SOUTH AFRICA (JUNE 5) - South African army chief George Meiring announced Tuesday he is to investigate claims of misconduct by the

controversial 32 battalion deployed in battle-scarred Natal Province.

He told reporters that the South African Defence Force (SADF) would not withdraw the soldiers but would take note "of any possible claim" against them.

The hardened soldiers, an insurgency unit which was deployed in the Angola bush war waged against the South West Africa People's Organisation (SWAPO),

have been accused of siding with the Zulu Inkatha in fighting against the African National Congress-aligned United Democratic Front (UDF).

Lt. Gen. Meiring said that the deployment of some 4,000 troops two months ago had led to a drastic decrease in political violence in the province, adding that the troops would stay in Natal's black townships until the violence tailed off.

Last month, residents in two black townships complained that men of 32 battalion allegedly offered money for sex to married women and stole money during house-to-house searches.

More than 3,000 people have been slain in vicious battles between Inkatha and the UDF in the past three years.

#90156d1580 06/05/1990 ~French/German News Agency

PRAGUE (JUNE 6) - President Vaclav Havel on Tuesday appealed for a massive turnout in the country's first free election in decades Friday, saying apathy would show that Czechoslovaks were not ready for democracy.

"Absention would show nostalgia for the old regime and indifference over our future," he said in a final televised speech before the vote.

"We must prove to ourselves that we are adult citizens capable of taking matters into our own hands," he said.

The overwhelmingly popular leader called on Czechoslovaks to back those candidates for parliament "who fought totalitarianism or led an open rebellion" against communist rule.

They were the "best guarantee" for the development of democracy, compared to those candidates who emerged only after the November "Velvet Revolution" forced the communists out of power.

He did not specifically name Civic Forum, the opposition movement he founded and whose representatives hold the majority of posts in the transitional government of national understanding set up to govern the

country until this week's general election.

But he made a clear appeal for Civic Forum when he asked voters to choose those lists of candidates who had fought the former communist regime.

The center-left Civic Forum movement is expected to win the election, the first free vote since 1946. But it faces a challenge from the conservative Christian Democratic Union, which has strong support in Catholic Slovakia.

Czechoslovaks should support the parties which "will be able to carry on the work begun by the government of national understanding and pursue the great task of the rebuilding of our state," Mr. Havel said.

"Try, I beg you, to elect those you know well, whom you know to be truthful and who will not change opinions every week," he said.

Mr. Havel is expected to be re-elected president by the new parliament that will emerge from this week's election.

#90156d6830 06/05/1990 ~French/German News Agency

COLOMBO (JUNE 5) - Doctors in Sri Lanka are battling round the clock to curb a deadly epidemic that has claimed the lives of at least 50 children and affected hundreds of others, officials here said.

Dr. Priyani Soysa, a leading paediatrician, said Tuesday that about 50 children have died from dengue fever carried by the Aedes mosquito while a Health Ministry official said that more than 400 have been affected.

She said that children have been the main victims of the virus and every ward of a children's hospital here has four or five patients suffering from the disease.

The Director of the Medical Research Institute (MRI), Dr. Tissa Vitharana said that dengue fever was nothing new to the country but this outbreak was more severe than usual.

#90156d7260 06/05/1990 ~French/German News Agency

KUALA LUMPUR (JUNE 5) - Yugoslavian President Borisav Jovic and Malaysian Prime Minister Mahathir Mohamad on Tuesday discussed ways to step up bilateral economic cooperation, a Malaysian foreign ministry spokesman said.

Deputy secretary-general Abdul Majid Mohamed quoted Dr. Mahathir as telling Mr. Jovic during talks here that there were opportunities for expanding

economic cooperation.

According to Malaysian statistics, bilateral trade, which is in Malaysia's favour, rose to 214 million dollars (79 million U.S.) last year from 162 million dollars (60 million U.S.) in 1988.

Mr. Majid said that differences in ideologies and social systems should not inhibit such cooperation.

He said that much of Tuesday's meeting was taken up with a briefing by Mr. Jovic on changes within Yugoslavia's economy. "The president is on a hardsell trip to attract us to go into Yugoslavia," he said.

Mr. Majid said the Yugoslavian government offered to undertake a feasibility study for a sewage system on northern Langkawi island while Malaysia sought Yugoslavia's assistance to set up a crystal glass plant on the island.

He said that the Malaysian government would study a Yugoslavian proposal for an agreement to abolish visas for travel between the two countries.

Mr. Jovic, who is here on a three-day official visit after attending a summit of the Group of Fifteen developing nations, leaves for home Wednesday.

#90156d7270 06/05/1990 ~French/German News Agency

LONDON (JUNE 5) - Japanese cars manufactured in the European Economic Community should be excluded from import restrictions after 1992, British Trade and Industry Secretary Nicholas Ridley has said.

Mr. Ridley's comments, made Monday at a ground-breaking ceremony for a new 700 million-pound (1.2 billion-dollar) Toyata factory near the central city of Derby, were expected to intensify a growing conflict within the EEC over Japanese cars manufactured in the Community, according to the Financial Times.

The Financial Times said Tuesday that Britain was under pressure to defend the interests of Japanese carmakers Toyota, Honda and Nissan which together are investing around 1.8 billion pounds (three billion dollars) to develop three plants in Britain.

Mr. Ridley's remarks contrasted with positions taken by France and Italy, two of Europe's largest car manufacturers, who have argued that all Japanese car factories in the EEC should be counted in plans to restrict Japanese imports.

The new Toyota factory is to produce 200,000 cars annually and will create more than 3,000 new jobs, according to Toyota.

#90156d7350 06/05/1990 ~French/German News Agency

KARACHI (JUNE 5) - Pakistan has followed the advice of international financial institutions and experienced solid economic growth despite ethnic and political violence in the south, analysts said Tuesday.

Pakistan recorded a 5.2 percent growth in Gross Domestic Product (GDP) in the year to June by following the prescriptions of the World Bank and the International Monetary Fund (IMF), they said, a day after an official economic review was released.

"Paradoxically the state of the economy is reasonably good," World Bank officials based in Pakistan said.

They said that the World Bank was satisfied with Pakistan's adherence to the policy framework suggested by the IMF and World Bank authorities for correcting the economic aberrations the country had developed over the past decade.

Pakistan succeeded in keeping the overall budget deficit within the IMF prescribed limit of 6.3 percent for the current fiscal year ending in June, they said.

The pre-budget economic review issued by the government on Monday showed that inflation dropped to 5.76 percent from July 1989 to June 1990, but the target of 5.8 percent GDP growth fell short by 0.6 percent.

It was nonetheless higher than last year's 4.8 percent growth.

Agricultural growth declined from 7.1 percent in 1988-89 to only four per cent this year. But this was offset by progress in the large-scale manufacturing sector, which jumped from 4 percent last year to 7.9 percent this year.

#90156d7570 06/05/1990 ~French/German News Agency

CANBERRA, (JUNE 5) - United Airlines is eyeing a slice of Australia's lucrative Japanese tourism market by seeking Australian government approval for daily flights to Tokyo as part of a Sydney-New York route, the U.S. airline announced here Tuesday.

United chairman Stephen Wolf, here for talks with government and tourism industry leaders, said the new service would provide a significant boost

for Australia's tourism.

United already flies non-stop services on the Sydney-Los Angeles route, as well as to Hawaii, and the U.S. West Coast via Auckland.

The Sydney-Tokyo flight would connect with an existing non-stop direct Tokyo-New York City service, Mr. Wolf said.

He said the U.S. government and Australian industry leaders supported the application for a daily Tokyo service.

Qantas and Japan Air Lines (JAL) are the only airlines currently offering daily Sydney-Tokyo services.

Latest official figures released here show Japanese tourists are still flocking to Australia, with numbers up as much as 28 percent for the first two months of 1990 on the same period last year.

#90156d7590 06/05/1990 ~French/German News Agency

LONDON (JUNE 5) - British retailing rivals Boots and W.H. Smith on Tuesday announced the merger of their Do-It-Yourself (DIY) businesses into a fifty-fifty owned joint venture.

The move, which will create Britain's second biggest DIY network with some 230 outlets, is the first sign of rationalisation in this market since the sharp downturn in the domestic housing market began to hit sales in the sector last year.

The deal is structured to allow both companies to replace some debt with investment in their respective balance sheets, and includes a 50 million pound (84 million dollar) payment to Boots to reflect the differing earnings and asset valuations of the two businesses.

W.H. Smith entered the DIY sector with the acquisition of LCP Homecentres in 1979. Its Do It All chain, which now has 116 stores and is to be retained as the name of the newly merged business, saw a drop in interim profits from 8.3 million to 5.1 million pounds (from 14 million to 8.6 million dollars) in second half 1989.

Boots is relatively new to the industry, entering it through its 900 million pound (1.5 billion dollar) takeover of Ward White last year. Boots has sold some Ward White assets but retains its 105 store Payless network along with a smaller high street DIY chain.

Boots has been criticised for paying too much for Ward White, and in particular for overvaluing the Payless business, which analysts say has

seen a sharp drop in profitability over the past year (no separate balance sheet is available).

Charles Allen, stores analyst with County NatWest Woodmac here, said the arrangement "has to make sense."

"It's not a great deal for either of them given the amount of money each has invested in the two chains, but we are looking at two of the weaker players in DIY, which must consolidate if they are to survive in an increasingly mature and competitive industry."

Strong rumours of an immiment deal emerged at the weekend, sending shares in both companies sharply higher Monday. On Tuesday morning after the announcement W.H. Smith climbed a further three pence to 355 and Boots two pence to 312.

#90156d7640 06/05/1990 ~French/German News Agency

HARARE (JUNE 5) - Zimbabwe's cotton industry, the country's third largest foreign currency earner, is on the verge of collapse and cotton farmers are saying that inefficiency by the Cotton Marketing Board (CMB) is largely responsible for the decline.

Frank Wilson, the president of the Commercial Cotton Growers' Association (CCGA), told Agence France-Presse that the industry had suffered "every conceivable setback" during the past two years.

The problem was made worse by the fact that the CMB was "crumbling at the edges," he added.

"The CMB is the cornerstone of the industry and when confidence in that cornerstone is eroded and then violently shaken, is it any wonder that the cotton growers are moving out of the crop," asked Mr. Wilson, whose association represents the country's 850 large-scale commercial cotton producers.

He said recent events which had shaken farmers' confidence in the CMB included the loss of lint marketing expertise, shortages of planting seed, the production and sale of non-viable planting seed, ill-considered producer prices leading to a loss of financial viability in cotton production and a lack of communication between the farmers and the CMB.

The CMB has denied Mr. Wilson's allegations, but refused to make any further comment.

"It's no wonder that the industry has reached the sorry position it now finds itself in and from a record crop of 323,000 tonnes two seasons ago

only 210,000 tonnes of cotton are expected this year," Mr. Wilson said.

Cotton, which is a controlled agricultural commodity in Zimbabwe, earned the country 183 million Zimbabwe dollars (73,2 million U.S. dollars) last year, and is the country's third largest foreign exchange earner after gold and tobacco.

Farmers deliver all seed cotton to the CMB, which pays the producer on the basis of the mass and grade of the seed delivered and is then responsible for the ginning and marketing functions. The main export markets for Zimbabwe's cotton lint are Western Europe and Japan.

TOKYO (JUNE 5) - Japan's Mitsubishi Heavy Industries Ltd. said Tuesday its consolidated net profit rose 8.9 percent in the year to March to 67.5 billion yen (444 million dollars).

Consolidated sales jumped 20.6 percent from the preceding business year to 2.3 trillion yen (15.1 billion dollars), the major industrial machinery maker said in a financial report.

The financial results were based on reports from Mitsubishi and its 40 affiliates, specialising in such diverse operations as shipbuilding, aircraft construction and power plants.

Exports, representing 18 percent of sales - down from 20 percent last year - rose eight percent to 408.3 billion yen (2.6 billion dollars).

-30- 877

#90156d7770 06/05/1990 ~French/German News Agency

LONDON (JUNE 5) - Food and drinks concern the Argyll Group said Tuesday its pre-tax profit rose 27 percent in the year to March to 227.5 million pounds (381 million dollars) from 178.7 million (298 million dollars) the

previous year.

The company said that sales rose by more than 12 percent to 4.14 billion pounds from 3.69 billion pounds.

The profit figure was lower than market expectations of 240 million pounds and Argyll shares lost four pence to 230 pence in early trading.

The final dividend was increased to 4.8 pence from 4.1 pence, making a total of 7.25 pence against 6.2 pence. Profits per share rose to 17.2 pence from 13.8 pence.

AMSTERDAM (JUNE 5) - The port of Amsterdam which leads the world in cocoa traffic, has decided to increase its storage capacity with the construction of six warehouses totalling 72,000 square metres (about 720,000 square feet), the economic daily Financiele Dagblad reported on Tuesday.

Quoting sources at the port authority, the paper said that the development would cost about one million guilder (500,000 dollars) and would be completed in 1991.

Amsterdam municipal authorities would provide seven million florins (3.5 million dollars) for the construction of quays, and railway and road facilities.

The port handles about 500,000 tons of cocoa per year. Officials said that there was constantly rising demand for storage space.

A reseach report by consultants Knapper and McAlley has said that the production of cocoa would continue to grow during the next five to seven years. Excess production would then fade away, but consumption of cocoa and of its derivatives would continue to grow.

Consequently the new units have been designed so that they could be used for the storage of other products if less storage capacity for cocoa were required in seven years' time.

PARIS (JUNE 5) - France and Saudi Arabia on Tuesday signed an investment agreement linked to a wider accord under which Paris is to provide Riyadh with three anti-air attack frigates.

French secretary of state for defence Gerard Renon and Saudi Deputy Defence Minister Prince Fahd Bin Abdallah signed the agreement during a two-day visit here by the Saudi minister.

The agreement signed Tuesday covers an "offset programme" of French investment in Saudi Arabia to counterbalance the purchase of the frigates.

The investment deal forms part of the overall 18 billion franc (3.1 billion dollars) frigate deal agreed in June last year, with the investment due to equal 35 percent of the value of the contract.

The agreement signed Tuesday lays down procedures for proposing and approving French investment projects, which are to be in the form of joint ventures, and how they are to be supervised.

All sectors are involved except oil, French officials said, and the investment will include a high proportion of high technology projects.

It will also help in replacing imported products with local ones and in boosting exports.

The contract signed a year ago provides for the delivery by France of three Lafayette frigates, to be counterbalanced by purchases of Saudi products and by French investment in Saudi Arabia.

The frigates are part of Saudi Arabia's Sawari programme to modernise its navy.

#90156d8240 06/05/1990 ~French/German News Agency

LONDON (JUNE 5) - Brent North Sea crude oil prices fell on the London physical market on Tuesday, slipping to 15.70 dollars a barrel for July delivery at the end of the morning, its lowest level since February 1989.

It had closed at 16.25 dollars a barrel on Monday.

London analysts attributed the fall to market concern over continuing Organisation of Petroleum Exporting Countries (OPEC) overproduction coupled with a marked increase in Western stocks.

Saudi Arabia's announcement that it was reducing the price of its light crude for July delivery by 25 cents a barrel for Middle East clients, and the price of its medium and heavy crudes by 60 to 70 cents a barrel took the market by surprise and aroused fears of a price war with other OPEC producers.

The International Energy Agency's latest figures put Organisation of

Economic Cooperation and Development (OECD) countries' stocks at 100 days at the end of March, up from 96 days at the same time last year.

The American Petroleum Institute said last week that fuel stocks were rising in the United States.

In this climate, OPEC's reduction of output to 23.4 million barrels a day in May against 23.8 million in April was not enough to reassure the market.

By RICHARD JANSSEN

ROME (JUNE 5) - Joao Havelange, the Brazilian head of Fifa, the governing body of world football, is ready at the age of 74 to guide the sport into the 1990s.

Havelange is up for re-election on Thursday for a fifth term as Fifa president, which he has held after succeeding Britain's Sir Stanley Rous on June 12, 1974. Unopposed, the millionaire Brazilian businessmann will likely garner a unanimous vote.

Born October 8, 1915 as the son of a Belgian immigrant, Havelange has presided over a period in which world football entered the age of big business, a process which he influenced at the same time that he opened up the World Cup to more Third World participation.

Havelange is the first South American, as well as the first non-European to head Fifa. It cost him several million dollars of his own money as he travelled to 84 countries around the world drumming up support for his ideas.

Under his direction, the World Cup final round was expanded to 24 teams, from the earlier total of 16, giving more room for teams from developing countries to participate.

Initially, it was above all the Europeans, represented by the two vice presidents, Hermann Neuberger of West Germany and the late Artemio Franchi of Italy, who distrusted Havelange's ideas.

But this has changed over the years. Neuberger, who heads the World Cup organising comittee, accepts the uncompromising Brazilian as the undisputed boss, while Havelange counts on his West German deputy's administrative skills.

Havelange, who owns a bus company and is a supervisory board member of one of Brazil's largest insurance firms, and who has headed the Brazilian

football federation for 30 years, has only suffered one defeat in his career.

That came in 1980, when Havelange sought the presidency of the International Olympic Committee (Ioc), which he has belonged to since 1963. His bid was thwarted by Juan Antonio Samaranch of Spain.

LONDON (JUNE 5) - Cocoa prices turned downward again in London on Tuesday pulled down by an apparent return to calm in Ivory Coast and fears of Soviet sales, analysts said.

Prices gained nine pounds a tonne shortly after the opening but by the end of the morning were down to 834 pounds (1,390 dollars) a ton, 34 pounds (56.6 dollars) below Monday's close.

William Plummer, an analyst with Prudential Bache, said prices could fall as low as 800 or even 750 pounds a ton if they ended the day below the 828 pound level.

Analysts said that reports that Ivory Coast dockworkers, who had been threatening a strike, had agreed to meet with the government on June 20, had ended fears of an immediate stoppage and pulled prices down.

Rumours on the London market that the Soviet Union could resell 80,000 tons of cocoa on the physical market also depressed prices.

Moscow had asked last week for its credits from brokers for cocoa deliveries to be extended, pulling the market down.

Viktor Gerashchenko, president of the Soviet state bank Gosbank, said at the end of the week that Moscow would be increasing sales of commodities to finance its foreign debt.

He did not mention cocoa, but his remarks further weakened the market.

Cocoa prices have fallen by more than 120 pounds a tonne since May 25, when they reached 989 pounds a tonne, their highest level since July 1988.

The fall was largely due to an apparent return to calm in Ivory Coast following the legalisation of several political parties.

Unrest in the country, the world's leading cocoa producer, had raised fears of a disruption of supplies although no such effect has yet been seen.

#90156d8630 06/05/1990 ~French/German News Agency
LEEDS, England (JUNE 5) - Leeds United have signed Gary McAllister, the 25-year-old midfield star heading for duty with Scotland at the World Cup, from Leicester City.

Leeds snapped up McAllister to reinforce their newly promoted squad for the club's return to the English First Division. But the fee will have to be decided by an FA tribunal.

The deal was clinched on Tuesday by managing director Bill Fotherby in the absence of manager Howard Wilkinson who is on World Cup duty with England in Italy.

He would not discuss the kind of fee involved, but Leeds seem to have committed themselves to a second 1 million pound payout following the capture last month of Arsenal goalkeeper John Lukic.

McAllister flies to Italy with the Scottish squad on Wednesday and Leeds were determined to get their man before the finals.

"McAllister is a class player who has been wanted by many big clubs," said Fotherby. "Leeds are going places in the First Division next season and this signing is in keeping with our determination to build up a side to challenge the best."

Leicester manager David Pleat said: "As far as I am aware Gary McAllister is now a Leeds player and we wish him well."

Twice last season, McAllister rejected a move to Nottingham Forest after the clubs had agreed a fee of around 1.2 million pounds.

Meanwhile, Les Sealey - Manchester United's surprise goalkeeper choice for the FA Cup final replay against Crystal Palace - has signed a 12 month contract with the club on a free transfer.

The 31-year-old has made nearly 400 league appearances for Coventry and Luton, and also played in the League Cup final for Luton.

He replaced out-of-form Scots international Jim Leighton at Wembley last month and earned rave reports for his performance in United's 1-0 win over Crystal Palace.

#90156d8670 06/05/1990 ~French/German News Agency

BORDEAUX, FRANCE (JUNE 5) - Some 500 cafe and restaurant owners in the French town of Bordeaux are refusing to sell Coca-Cola because of what they consider unfair competition from a mushrooming of Coke machines in the area.

The hotel and restaurant association for the Gironde region called at the end of March for a boycott of Coke sales because of the spread of Coca-Cola machines in the streets, launderettes and pharmacies of Bordeaux, chosen as a test site in the region by the soft drinks company.

"We had agreed for the machines to be installed in factories and some businesses," said Christian Sauvage, president of the hoteliers' association.

"But the putting them on the street, decided without our agreement, is unfair competition for us."

A can from a machine costs only five francs (87 U.S. cents), while "given our overheads, we have to sell bottles at between 10 and 15 francs."

France's Coca-Cola operation on Tuesday asked to meet with Mr. Sauvage for talks on the problem.

The association has urged members not to re-order Coke once current stocks run out. At the moment, some 500 of the association's 1,600 members are taking part in the boycott, most of them in Bordeaux, but the movement is spreading,
 Mr. Sauvage said.

Paris (JUNE 5) - France is to invest six billion francs (about 1.05 billion dollars) in the oil and technology sectors in Saudi Arabia under a major arms-for-investments deal.

An agreement to this effect was signed in Paris Tuesday by the French secretary of state in the defence ministry, Gerard Renon, and the Saudi Arabian vice minister of defence, Prince Fahd Bin Abdallah.

Under the arms-for-investments deal concluded in June last year, Saudi Arabia purchased three French antiaircraft frigates of the Lafayette type worth 18 billion francs.

The six billion francs investment now announced is designed to make Saudi Arabian industry less dependent on imports, sources said. It was agreed at an earlier stage that France will buy Saudi Arabian goods for the remaining 12 billion francs.

MOSCOW (JUNE 5) - Soviet and American film-makers are shooting a feature film here based on the 1986 nuclear accident at the Chernobyl power plant in the Ukraine, Tass news agency reported Tuesday.

The joint production, by U.S. director Anthony Page, whose working title is

"The Final Warning" is based on a book by U.S. doctor Robert Gayle who was among the first foreign experts to fly to the Soviet Union in the wake of the disaster, sources connected with the film said.

Shooting is currently taking place in Moscow, with more filming to take place in the United States, Kiev and the nuclear power plant at Kursk which is similar to the one at Chernobyl. The Chernobyl plant, part of which still operates, is in a restricted area closed off to the public because of heavy radio-active contamination.

#90156d8850 06/05/1990 ~French/German News Agency

LONDON (JUNE 5) - British Jewish groups on Tuesday angrily denounced the House of Lords' rejection of a government bill which would have allowed the prosecution of suspected Nazi war criminals.

And controversy again flared over the role the unelected parliamentary chamber should play in policymaking.

Monday's 207-74 rejection of the government's War Crimes Bill was "disappointing" and "cannot be regarded as the last word," said Hayim Pinner, secretary-general for the Board of Deputies of British Jews.

Mr. Pinner told Agence France-Presse that the board, the British section of the World Jewish Congress, saw an "overwhelming case in favor" of prosecuting alleged war criminals, adding that British justice "should be done and seen to be done."

Because the War Crimes Bill had not been included on the government's last election manifesto, and therefore was not considered to have been approved already by the electorate, the Lords were given a free vote on the legislation.

The Lords, whose power to influence legislation were sharply curtailed in 1949, rejected the bill on the grounds that it would be nearly impossible to ensure that Nazi war criminal suspects were given a fair trial more than 40 years after the offenses were committed.

But Francesca Weisman, spokeswoman for the World Zionist Organization (WZO), disagreed with that premise, saying the guilt or innocence of war crime suspects should be determined in a trial.

"If there is insufficient evidence for conviction, then the thing is to find them not guilty -- not to cancel the trial beforehand," Ms. Weisman said.

The WZO was "very upset" by the Lord's vote which "in the present political climate amounts to ignoring historical reality and the resurgence of anti-Semitism in Europe," she said.

The vote, which capped a nine-hour impassioned debate in the House of Lords, has also renewed a debate over the peers' role in the formulation of government legislation and policy.

"I don't think it's a serious enough issue" to lead to a constitutional crisis between the government and the House of Lords, said Andrew Marr, political editor with The Economist Magazine.

"The fundamental lack of democracy at the House of Lords is one of the givens at this time ," Mr. Marr said.

Monday's vote, which stood diametrically opposed to the recent 273-60 approval of the bill from the House of Commons, amounted to a political conflict between the two parliamentary chambers.

A spokesman for the Home Office said the government "will wish to reflect carefully on the vote," adding that "it will be taken seriously" in consideration over whether to reintroduce the bill by invoking the Parliament Act.

Such a move would effectively deprive the Lords of any further say in the matter and ensure that the bill becomes law in 1991.

But while the government has made it clear it does not intend to fight a constitutional war with the House of Lords over the pending War Crimes Bill, the rejection of the legislation was seen as a setback and a bureaucratic nuisance and further fuelled calls for abolition or major restructing of the Lords.

"There isn't much appetite for that among Tories but there certainly is on the Labour side," Mr. Marr said, referring to the main opposition party's view that the House of Lords should be replaced with a second elected chamber.

A Labour Party spokesman confirmed that policy and said under a Labour government the second parliamentary chamber would "retain its power of delay of legislation" but would be restricted to only one opportunity for revision.

At present there are understood to be three suspected Nazi war criminals living in Britain who could be prosecuted under the bill as well as another 75 who are currently under investigation.

Debate over the bill was heated, with Lord Jakobovits, the Chief Rabbi, asking: "Shall it be said we care more for mass murderers who were allowed to get old in peace than for their victims whose lives were brutally and innocently cut short?"

Lord Donaldson, one of the leading opponents of the legislation, said "a case turning on identification 45 years after an offence was committed is a wholly preposterous proposition."

#90156d8900 06/05/1990 ~French/German News Agency

JOHANNESBURG (JUNE 5) - South Africa's police and army death squads are a greater threat now than they were before a toothless judicial commission began an inept investigation, anti-apartheid lawyers here have charged.

The saga began back in October when a killer on Pretoria's death row, Butana Almond Nofomela, cheated the gallows at the 11th hour by spilling the beans on a sensational police hit squad operation he said he worked for.

His supposed handler, former police Captain Dirk Coetzee, corroborated the charge, and when President Frederik de Klerk on January 31 appointed Mr. Justice Louis Harms to launch an inquiry the scene looked set for a sensational probe to expose the murkiest underbelly of apartheid.

Centre-stage were the murders of anti-apartheid academic David Webster, gunned down outside his Johannesburg home on May 1, 1989, and leading Namibian left-winger Anton Lubowski, who met the same fate in Windhoek on September 12.

Then there was the butchery of anti-apartheid lawyer Griffiths Mxenge in Durban in 1981, a plot to poison leading anti-apartheid churchman Frank Chikane and a botched attempt to send a baboon's foetus to Anglican Archbishop Desmond Tutu.

But all the inquiry has done, the Independent Board of Inquiry into Informal Repression (IBIIR) said here Monday, is regurgitate names snapped up by the left-leaning Afrikaans weekly Vrye Weekblad last year, like Coetzee, Nofomela, and former Johannesburg detectives Joe Verster, Calla Botha and Chappie Maree.

The files of the army unit at the centre of the allegations, the Civil Co-operation Bureau, have gone missing, and the Harms Commission has found itself powerless to produce them or nail those who got rid of them.

Decrying the "scandalous cover-up" by the CCB, Brian Currin of Lawyers for Human Rights told the IBIIR press conference: "We should ask ourselves

what more do we know about death squads after four tiring and very expensive months.

"Apart from a few names and a few failed projects we know nothing substantial."

The IBIIR, whose pressure helped persuade Mr. De Klerk to set up the Harms probe, pinpointed several shortcomings in the official investigation:

- Evidence is led by the Attorney-General of the Orange Free State Tim McNally, who having co-written the initial internal report into Mr. Nofomela's death squad allegations in November is hardly an independent.

- The Commission's terms of reference exclude murders committed abroad, even if they were planned in South Africa.

- The Commission has not produced crucial files, has allowed witnesses to use pseudonyms, hide behind screens and wear disguises at the hearing, ordered the press not to print their pictures, and has failed to subpoena the man with ultimate responsibility, Defence Minister General Magnus Malan.

Add to that the crass unreliability of the witnesses, who have "psychopathic tendencies" according to Mr. Currin, and the Harms Commission is a damp squib.

The IBIIR's Max Coleman said the CCB was still paying salaries to some 250 members, and there was no sign that its 160-odd projects had been aborted.

As the government moved to the left and the CCB, which always targeted anti-apartheid activists, flaunted its unaccountability, the CCB could become a "major threat to the political process which is underway," Mr. Currin said.

With African National Congress exiles set to return the CCB would switch its focus from abroad to the home front, Mr. Currin warned.

"I believe death squads are more of a threat to democracy, to the rule of law, to political solutions and to peace and prosperity in South Africa now than they were before they were uncovered," Mr. Currin said.

#90156d9000 06/05/1990 ~French/German News Agency

COPENHAGEN (JUNE 5) - The Soviet Union announced new, limited nuclear arms cuts here Tuesday and an assurance that a "compromise is possible" on differences over a united Germany.

Foreign Minister Eduard Shevardnadze said that "to create favourable conditions" for arms reduction talks in Europe, Moscow would by the end of 1990 have cut its nuclear arsenal in central Europe by an additional 60 nuclear missile launchers, more than 250 nuclear artillery units and 1,500 warheads.

A Western diplomat said the cuts were new but "not spectacular" given the Soviet superiority in short range nuclear weapons of about 12 to one.

"Freeing Europe of nuclear weapons will give more latitude to man," Mr. Shevardnadze told a Conference on the Human Dimension under the mandate of the 35-nation Conference on Security and Coooperation in Europe (CSCE).

The first major East-West cooperation talks since the Berlin Wall came down opened here in an atmosphere of widespread optimism.

Mr. Shevardnadze, who was Tuesday night due to met U.S. Secretary of State James Baker, told the conference the superpowers had narrowed the gap in their differences over a united Germany at the Washington summit over the weekend.

"A compromise is possible on the German question," he said.

But this would be found at the Four-plus-Two talks between the Soviet Union, the United States, Britain, France and the two Germanies, "not behind the backs of the Germans or the backs of any Europeans"

West German Foreign Minister Hans-Dietrich Genscher said after meeting the Soviet minister here Tuesday that he was "more convinced that progress was being made along the road to German unity".

The latest weapons cuts were "a positive step on the road to disarmament," he added. The two ministers are to meet again next week.

Danish Foreign Minister Uffe Ellemann-Jensen set the optimistic tone at the CSCE opening Tuesday urging the 35 nations - Canada, United States and all Europe except Albania to rise to "the historic challenge of building a new and more advanced system of security and cooperation in Europe."

-30- 2304

#90156d9050 06/05/1990 ~French/German News Agency

COPENHAGEN (JUNE 5) - French Foreign Minister Roland Dumas on Tuesday suggested December 19 to 21 as dates for the Conference on Security and Cooperation in Europe summit, due to be held in Paris at the end of the year.

Foreign ministers from the 35 member countries of the CSCE, who are meeting

in Copenhagen, were expected on Tuesday to set in motion preparations for the summit of heads of state and government, which will discuss details of the new Germany's military status.

A special committee is to meet on July 10 in Vienna to draw up an agenda for the Paris summit, whose dates have yet to be set.

The United States has said the holding of the summit is contingent on successful completion of talks on the Vienna talks on reduction of conventional arms in Europe. The Soviet Union holds the same view.

Speaking before the other 34 CSCE foreign ministers (from Europe, except Albania, as well as the United States and Canada), Mr. Dumas said the Paris summit could take place at the headquarters of UNESCO.

#90156d9060 06/05/1990 ~French/German News Agency

ROME (JUNE 5) - The Italian Government has decided to continue promoting Venice as a candidate for the staging of the universal exhibition Expo 2000, Prime Minister Giulio Andreotti told parliament on Tuesday.

After an inter-ministerial meeting on the matter, he said: "The government maintains the candidature of Venice for Expo 2000 but intends to do so with the greatest respect for the city and with the support of parliament."

Promoters of the project say that it would give a major boost to the coastal area around Venice where the exhibition would be held.

But the proposal has provoked hostility from many conservationists and Venetians. They hold that most people attending the exhibition would try to visit Venice which is already suffering from heavy tourist traffic and would be damaged by an influx of millions more.

#90156d9120 06/05/1990 ~French/German News Agency

BRUSSELS (JUNE 5) - The European Economic Community's executive on Tuesday said it was prepared to "study" British proposals for an EEC-wide law obliging bus passengers to wear seat belts.

British Transport Secretary Cecil Parkinson unveiled the idea on Monday, a day after a coach accident in France left 11 British holidaymakers dead.

But a spokesman for the European Commission cautioned that the Community was already having problems agreeing on other proposals to harmonise road safety laws, including maximum speed limits for cars and trucks and alcohol levels.

Britain, along with West Germany and Denmark, is among the hardliners that are blocking the legislation, the spokesman said.

But he expressed satisfaction that the British government "is now interested in finding Community solutions."

-30- 1004

#90156d9140 06/05/1990 ~French/German News Agency

HARARE (JUNE 5) - African heavyweight champion Proud "Kilimanjaro" Chinembiri, whose refusal to give details of an AIDS test led to him being banned by Britain, has been barred from fighting in any Commonwealth country.

The 31-year-old Zimbabwean refused to release details of a compulsory test before a fight with former Olympic super-heavyweight champion Lennox Lewis in London in February. The British Boxing Board of Control immediately cancelled the bout.

The vice-secretary of the Zimbabwe National Boxing and Wrestling Control Board (ZBWBC), Oliver Besa, said the the decision to ban Kilimanjaro from fighting or defending his All Africa title in any Commonwealth country was made at a ZBWBC meeting at the weekend.

He said all Commonwealth countries required boxers to produce HIV test results before fights, a condition that the Kilimanjaro had refused to meet.

"After the British episode we conducted our own tests soon after Kili arrived back and have been trying for weeks without success to get him to come and collect his results," said Besa.

Kilimanjaro was stripped of the national title last month after he fought in the Ivory Coast without HIV clearance. Besa said the board could not, however,
stop him from fighting in non-Commonwealth countries.

He said the ZBWBC had decided against recommending to the African Boxing Confederation that Kilimanjaro be stripped of the continental title.

"We decided not to take any action as the ZBWBC does not recognise Kilimanjaro anymore so it makes no difference."

Kilimanjaro has denied that the test he took in Britain showed he was HIV-positive but has resolutely refused to make the results public despite a 15,000 pound offer from the fight promoter.

"It is wrong to say there is any scare regarding AIDS," he said at the time. "I was very sick and my blood count was very low."

In 1988, another Zimbabwean, Lightweight Langton "Schoolboy" Tinago, was forced to cancel his fight aginst Lester Gloster in London, when blood tests revealed he was carrying the HIV virus.

#90156d9320 06/05/1990 ~French/German News Agency

SOFIA (JUNE 5) - Bulgaria's economic crisis is worsening with the approach of the first free elections in 45 years, as production in many places grinds to a halt while people await the outcome.

"It is anarchy in the factories. Everybody is waiting for the result of the elections," said Dimiter Ivanov, an economic expert with the Bulgarian Socialist Party, formerly the communist party.

Productivity is 10 percent down on last year's level, and "the first signs of an improvement will not be seen before the end of this year or the beginning of 1991," Mr. Ivanov said.

The opposition running for the elections June 10 and 17 has strongly criticised the worsening economic climate, but no political party is promising a rapid turnaround.

Inflation is running at between 15 and 20 percent and could well top 30 per- cent after prices are freed on July 1, Bulgaria's foreign debt is close to 11 billion dollars and unemployment, currently at between 32,000 and 35,000 people could be as high at 200,000 at the end of the year, according to Mr. Ivanov.

The opposition Union of Democratic Forces (UDF) says that the three months since the Socialist government of Andrei Lukanov came to power were an economic disaster.

It has strongly criticised the belated decision in April to set a moratorium on repayment of debt, except for interest, and a steep devaluation of the national currency with no back-up measures.

There are also food shortages. It may be possible to find strawberries in Sofia markets, but there is no sugar because of distribution problems and mass buying to stock up larders ahead of the price increases, and only the very early bird is lucky enough to find milk or eggs.

The appearance of private markets has seen the price of consumer goods double in the past year, making it very difficult to meet ends meet in a country where almost 40 percent of the population is living on the poverty

line.

The various parties standing in the elections have put forward similar reform packages, and have confined themselves to fairly general proposals.

All want to see a market economy softened by social concern, and are calling for different degrees of privatisation.

Agrarian reform is seen as a priority, although there is little concrete idea how it would be achieved.

The main difference is how fast the reforms should be implemented.

Mr. Ivanov says "the transition to a market economy must take place gradually and should have begun in three years," while the opposition wants a "radical and immediate" changeover.

#90156d9460 06/05/1990 ~French/German News Agency

BARCELONA, SPAIN (JUNE 5) - The Organizing Committee of the 1992 Olympic Games in Barcelona have started a desperate campaign to avoid a crush of competitors at the event.

The El Mundo Deportivo daily said Tuesday that the COOB 92 had carried out an exercise and were staggered to find that they may have to house 17,000 competitors.

The Olympic village has only been designed to cope with 10,000 athletes and 5,000 officials, press and backup staff.

The organisers are now said to be planning urgent pleas to national Olympic Committees telling them that delegations must not be more than 10 percent bigger than those which went to the Seoul games in 1988.

The Spanish also want the qualification for sports made stricter while still ensuring that each country is represented.

Meanwhile, the International Amateur Athletics Federation President Primo Nebilo said here Tuesday that his organisation would do everything possible to encourage the United States to take part in the Athletics World Cup in Havana in 1993.

The staging of the Cup in Cuba is likely to raise huge political problems for the anti-communist Americans.

But Nebiolo said: "How can you envisage a big international competition without American athletes. We will do everything we can to overcome the

difficulties that U.S. athletes and journalists might meet and we hope they will come."

MADRID (JUNE 5) - Irish prime minister and current president of the EEC Charles Haughey arrived in Madrid Tuesday for a four-hour visit to meet Spanish premier Felipe Gonzalez, in preparation for the next Dublin summit.

According to a Spanish diplomatic source, the summit will address a report on European political union prepared by European Economic Community foreign ministers. Also on the agenda will be proposals to improve the efficiency of the community's institutions.

Mr. Haughey was planning to put forward for debate environmental issues and the fight against drug abuse, the source said.

PARIS (JUNE 5) - Agence France-Presse is introducing a new photo digital transmission network in Europe on the eve of the World Cup in Italy.

It will be the first news agency capable of digital picture transmission throughout its network -- from the photographer on the spot to the client's own personal computer via the agency's processing centres.

The new system will operate first in Europe through the European Photopress Agency (EPA), but will be extended by the beginning of 1991 to AFP clients throughout the world, offering them better quality and greater choice.

The EPA editing centre in Frankfurt, West Germany, is already capable of "regionalising" the photo service for individual countries or clients. Eventually the new distribution network will enable more colour photographs to be handled and a more flexible response to clients' individual demands.

The new service, while using the most up-to-date technical developments, will be compatible with both present day electronic darkrooms and new international standards. It can be received on personal computers.

Clients who do not have equipment for electronic picture processing can still receive AFP's photo service by the analog method.

In parts of the world still not equipped with satellite receivers, the new service will be transmitted to the nearest AFP bureau and distributed locally.

AFP-Photo introduced electronic picture processing in 1986 at its regional centres throughout the world and in 1988 equipped its photographers with portable scanners for digital transmission.

The new service will complete the agency's programme for total digital transmission established when the photo service was begun in 1985.

Moscow (JUNE 5) - The Soviet Republic of Lithuania will switch from a socialist-run economy to a free-market one in the coming years, the republic's Prime Minister Kazimiera-Danute Prunskiene said here Tuesday.

She told the Supreme Soviet that the industry, trade and farming sectors would be systematically privatised and the post-World War Ii soviet nationalisation policy reversed.

''All forms of privatisation'' would be allowed in Lithuania and laws on property ''fundamentally'' changed, Prunskiene said.

Meanwhile, the Soviet economic blockade of the independent-minded republic lead to the closure there of 465 companies and factories on Tuesday, the 47th day of the blockade, official Lithuanian sources said. Losses amounted to about 200 million roubles (360 million dollars).

PARIS (JUNE 5) - Major Western countries and Japan begin two-day talks here Wednesday likely to bring further moves toward easing curbs on high technology exports to Eastern Europe, European officials said.

They will also discuss adjusting Coordinating Committee for Multilateral Export Controls (COCOM) rules to early German reunification.

Following a recent policy shift in the United States, the 17 COCOM members are expected to produce a political endorsement of the principle of "higher fences around fewer products" advocated by the Europeans since the end of 1987.

Since February, Japan has generally drawn closer to the Europeans, who have been pushing for quick liberalization of East-West trade, criticizing the Americans for dragging their feet, European sources said.

Washington eased its position a month ago, notably on the issue of easing curbs in the key areas of machine tools, computers and telecommunications,

but has still not gone as far as some Europeans would like, according to these sources.

The Bush administration still considers the Soviet Union a potential adversary, while the Europeans are seeking a more pragmatic approach that would still preserve Western security, the sources said.

At the practical level, senior officials of the 17 countries - the North Atlantic Treaty Organisation members except Iceland, plus Japan and Australia - are likely to strike off the COCOM embargo list about 30 of the 120 product categories listed.

The list covers products and knowhow of possible dual civilian and military uses whose export to "proscribed" destinations remain controlled because their use by adversaries could threaten Western security.

Secondly, the officials, meeting as usual behind a veil of tight secrecy,

will be responding to the prospect of German economic and monetary union in July by removing curbs on sales to East Germany of most prohibited goods, except "highly sensitive" products, experts said.

KIEL, WEST GERMANY (JUNE 5) EFE - Two Soviet warships docked in the Baltic port of Kiel Tuesday, marking the Soviet Navy's first official visit to West Germany.

The 650 crew members of the frigate "Neukrotimy" and the destroyer "Bystry" were to stay in the port four days and attend an official reception aboard a West German Navy destroyer later Tuesday.

On the eve of the visit, the ecologist group Greenpeace expressed satisfaction at assurances from Moscow that the Soviet ships carried no nuclear weapons on board.

In October, three West German warships made an official visit to Leningrad.

ABIDJAN (JUNE 5) EFE - Liberian rebel forces moved within 16 km of Monrovia Tuesday and were poised to take the capital while President Samuel Doe prepared to flee, according to radio broadcasts picked up in the Ivory Coast.

The radio broadcasts also said that the National Patriotic Front guerrilla

forces, led by former government minister Charles Taylor, had already taken the capital's international airport.

The French ambassador in Liberia, who confirmed that guerrillas were approaching the city, reported that thousands of Liberians, including government ministers, had fled the capital by sea for fear of a bloodbath.

RIO DE JANEIRO (JUNE 5) EFE - A rural union leader who defended peasant squatters in northern Brazil has been killed by a gunman allegedly in the pay of a plantation administrator, newspapers reported Tuesday.

Sebastiao Francisco da Silva, a local leader of the Rural Workers Union, was shot dead Saturday in front of his house in the district of Maraba, located some 654 km from the Para state capital of Belem.

The administrator of the Hacienda Dourada plantation, who had publicly threatened Da Silva, was arrested, the newspapers said.

Da Silva, 51, had spoken in defense of peasant squatters who had occupied subsistence plots on Hacienda Dourada.

The union leader was killed by a man who came to his house asking for a tool to repair his car and then shot Da Silva three times at close range.

Dozens of people have been killed in recent years in disputes over land in Maraba and other regions of northern Brazil.

In December 1988, leading labor activist and ecologist Chico Mendes was murdered allegedly by local landowners.

#90156e0024 06/05/1990 ~Latin America New Agency

0SAN SALVADOR (JUNE 5) EFE - Unidentified gunmen have killed an alternate judge of the Salvadoran Supreme Court in front of his house in the capital the Army said Tuesday.

Judge Jose Armando Pena, 34, was machine-gunned Monday afternoon by three assailants outside his house in a northern district of San Salvador.

No group has claimed responsibility for the killing of Pena, who just last week was sworn in as an alternate magistrate in the Supreme Court's penal law chamber.

Pena previously had been president of the Lawyers' Association.

Earlier Monday, leftist rebels shot and wounded Lieut. Edgar Rivera Barrera, an aide to President Alfredo Cristiani.

Urban guerrillas of the Farabundo Marti National Liberation Front (FMLN) claimed responsibility for the shooting of Rivera, who was wounded in both legs.

On Mar. 16, the FMLN announced the suspension of attacks against civilian officials, but has said it would continue targetting military personnel.

Some 75,000 people have been killed during the decade-old civil war, about half of them civilian victims of Army-backed death squads, according to human rights groups.

BEIJING (JUNE 5) EFE - The Chinese Foreign Ministry Tuesday accused foreign journalists of "illegal press coverage" of the first anniversary of a bloody military crackdown in Beijing's Tiananmen Square.

The accusation came in reply to a letter sent to the Foreign Ministry by Beijing's Foreign Correspondents Club protesting intimidatory attacks by security forces.

Meanwhile, the Chinese authorities reopened Tiananmen Square to the public Tuesday after a four-day closure aimed at stifling commemoratory demonstrations of the 1989 massacre in which hundreds of pro-democracy activists are believed to have died.

"We most strongly object to the unprovoked use of violence and physical abuse of foreign correspondents by paramilitary officers and security police in Beijing," the letter said.

The letter, which was addressed to the head of the ministry's information department, Li Zhaoxing, cited several cases of physical abuse and harrassment of journalists in the past few days.

Most of the attacks took place Sunday and early Monday as students at Beijing University held a commemorative ceremony for colleagues gunned down during last year's June 4 crackdown.

According to the journalists' letter, a correspondent for The Los Angeles Times and his wife were clubbed to the ground early Monday near the university by security force members using their rifle butts.

Security force members Sunday also beat up a photographer for Reuters news

agency and smashed his camera near Tiananmen Square, and seized German and U.S. television crews' equipment in a separate incident.

An inspection of vehicles to be used during the forthcoming Asian Games occupied Beijing's central gathering point Monday where exactly a year before Army tanks thundered down on encamped demonstrators, crushing their fledgling pro-democracy movement.

The square was occupied June 3 by a remembrance day celebration of the 150th anniversary of the 1840-42 Opium War and during the first two days of this month it served as the venue for a series of celebrations for young people.

#90156e0034 06/05/1990 ~Latin America New Agency

Rio de Janeiro (JUNE 5) EFE - The Brazilian government placed the Armed Forces on alert Tuesday to protect refineries and workers who cross picket lines during a oil workers' strike set to begin at midnight.

Some 60,000 petroleum workers are expected to join the indefinite strike, called to press for a 166 per cent pay hike and job security guarantees.

President Fernando Collor de Mello's government plans to sack an unannounced number of oil workers under budget cutbacks and in response to decreased fuel consumption resulting from tough anti-inflation measures.

To offset the loss of domestic refinery production during the strike, the government plans to import fuel.

But a five-day-old strike by dock workers at 43 main ports - who are also calling for a 166 per cent pay hike and the suspension of the planned sacking of 1,150 port workers - is expected to prevent tankers from unloading.

The stoppage has already prevented dozens of ships in port from unloading and has created shortages of some products, such as flour.

Meanwhile, the leftist Central Union Federation (CUT) has called for a general strike on June 12, but the other federations have not joined in the call.

CUT President Jair Meneguelli met Tuesday with the leader of the Metal Workers Union of the city of Sao Paulo, Luiz Antonio Medeiros, to discuss the labor situation and possible negotiations with business and government representatives.

Unions are demanding wage hikes to keep up with inflation, which

registered 84.3 percent in March and 3.29 percent in April.

Transport workers walked off the job last week in Sao Paulo, Salvador de Bahia and Rio de Janeiro.

Bank employees were to meet in assembly Tuesday to consider a strike proposal.

Collor de Mello, whose government inherited the developing world's largest foreign debt, has imposed tough anti-inflation measures since he took office in March, including a radical monetary squeeze and drastic state spending cuts.

The government plans to sack 360,000 state employees by July.

#90156e0036 06/05/1990 ~Latin America New Agency

BUENOS AIRES (JUNE 5) - The Argentine government and international creditor banks have overcome one preliminary obstacle which stood in the way of formal debt renegotiation talks to open this week in New York, a creditor bank representative said Tuesday.

Argentina agreed to make a short-term payment of dlrs 100 million, after an earlier refusal to do so.

The creditor bank committee, which represents 300 financial institutions which have loaned the country money, had insisted on some token payment as a pre-condition for the talks.

The bank representative stressed that dialogue between the groups was very good, while acknowledging that there were still differences over the amount of back interest Argentina would pay.

Argentina has not met debt payments since April 1988, and owes dlrs six billion in interest.

Both sides go into talks to discuss a new repayment plan on Argentina's dlrs 62 billion debt, which the Buenos Aires government hopes to reduce.

The Argentine government also hopes to negotiate waivers from creditor banks to sell state-owned assets tied to foreign loans.

The state wants to earn up to dlrs six billion in foreign-debt certificates by privatizing the EnTel telephone company and the Aerolineas Argentinas airlines, but the project depends on the private banks' approval.

While Buenos Aires has pushed the committee to decide for all banks involved, the committee itself has said that each institution should do its own negotiating.

Discussions center on the value banks will give to the debt bonds, given that on average they are worth 15 percent of their nominal value on the so-called secondary markets, which only creditor banks have access to.

Formal negotiations are to begin Thursday in New York.

#90156e0037 06/05/1990 ~Latin America New Agency

MIAMI(JUNE 5) EFE - The number of Cuban refugees who have abandoned the island's Communist regime so far this year to start a new life in the southern U.S. state of Florida is triple the amount that arrived during the same period in 1989, U.S. officials said Tuesday.

During the first five months of 1990, at least 179 Cubans have arrived in Florida -- home to large numbers of exiles from the Caribbean island -- compared to 57 in the same period in 1989, according to U.S. coastguard officials.

Last year's total of 391 Cuban refugees is expected to be doubled by the end of 1990.

Florida, whose southern-most tip is only 90 km from Cuba, has been the magnet for disaffected Cubans since Fidel Castro swept to power in Cuba in a 1959 revolution.

The upsurge in the number of Cubans arriving in Florida could be linked to Castro's recent clampdown on human rights groups in Cuba.

#90156e0040 06/05/1990 ~Latin America New Agency

TEHRAN (JUNE 5) EFE - A senior Iranian diplomat Tuesday repeated demands for Western help in securing release of four Iranians who Tehran claims are being held by a Christian militia in Lebanon.

Deputy Foreign Minister Murtezha Sarmadi implied that Iran considered fulfilment of the demand as a condition for Iranian intercession on behalf of 16 Western hostages in Lebanon.

"Neither the Americans nor the West in general are making any effort whatsoever to obtain the liberation of their citizens held in Lebanon. Iran has been doing it to a much greater extent."

"But we tell them (Western countries) that the fate of their hostages and ours is intertwined," he said in an interview with EFE.

Sarmadi denied U.S. claims that the four Iranians had been killed by their kidnappers.

The Lebanese Forces militia led, by Samir Geagea, kidnapped the Iranians -- an embassy official, a Revolutionary Guard, a photographer for the Iranian news agency IRNA and their driver -- in 1982.

"Statements that the Iranians are dead only serve to wear out their families' nerves," Sarmadi said.

He said Tehran has "information and proof" that the four are alive, and he cited the Lebanese Forces as a source of this information.

Iranian President Ali Akbar Hashemi Rafsanjani has repeatedly demanded that Western nations assist in securing the release of the four.

Sarmadi charged that the U.S. government wanted U.S. hostages in Lebanon to be killed, "because then it could point its finger accusingly at Iran."

The diplomat also commented on the dispute with Britain over Salman Rushdie's novel The Satanic Verses, which Iran considers blasphemous toward Islam.

Sarmadi said an official apology from Britain +would be sufficient+ to restore diplomatic relations, without the need for for a British condemnation of the novel and expulsion of Rushdie.

Iran's late spiritual leader Ayatollah Ruhollah Khomeini last year ordered Moslems to kill Rushdie for the blashphemy, prompting a dispute with Britain which led to the break in relations.

#90156e0041 06/05/1990 ~Latin America New Agency

DURANGO, MEXICO (JUNE 5) EFE - A helicopter belonging to the Mexican Attorney General's office, which was reported to have crashed 11 days ago, was actually shot down by suspected drug traffickers, police said Tuesday.

Federal police said drug traffickers firing from the mountains in the northern state of Durango downed the helicopter as it flew on a reconnaissance mission on May 25.

The pilot was killed as the aircraft exploded soon after hitting the ground.

Another crew member and a passenger who escaped before the explosion, turned up safe +a few days ago+, and confirmed that the Bell 286 helicopter had been shot down, police said.

Police did not say what kind of weapon was used in the attack.

Meanwhile, in the northern state of Coahuila, five suspected drug traffickers and a policeman were killed during an hour-long shootout on Sunday, police said Tuesday.

Police said they followed a red van, reported to have been involved in several robberies, along the highway between the cities of Mazatlan and Matamoros, a U.S.-Mexican border town.

When the van pulled into a ranch, its occupants and ten other suspected traffickers confronted the police and the shootout began.

Seven of the suspects were arrested following the clash, and police said they confiscated 13 vehicles, 30 rifles, ammunition and an undetermined amount of marijuana.

CARACAS (JUNE 5) EFE - At least three people died and four were injured Tuesday as a fire raged through a Venezuelan prison in the town of San Juan de los Morros, 400 km south of the capital, police said.

They said the cause of the fire, which began early Tuesday morning, was unknown.

But unofficial reports claimed that a prisoner poured gasoline onto the

floor of one of the cell blocks and then lit it while guards and other prisoners slept.

Witnesses said the fire spread to other areas of the prison, causing speculation that there may have been more victims.-EFE

#90156e0061 06/05/1990 ~Latin America New Agency

SAN SALVADOR (JUNE 5) EFE - The Salvadoran Army Tuesday handed the country's largest university back to its civilian authorities, after seven months of military control which began with a major leftist rebel offensive on the capital last November.

The 35,000 students of the University of El Salvador (UES) will resume classes next Monday, officials said.

"This is a moment in which to call for an end to intervention and reprisals against science and culture. We declare our campus an area of peace which should be respected by the Armed Forces," UES Rector Luis Argueta Antillon told a handover ceremony attended by President Alfredo Cristiani, military officials and academics.

"As of today, the university returns into the hands of its authorities, to whom we appeal that they not permit this center of studies to be used for subversion", said Col. Francisco Elena Fuentes.

Elena Fuentes commanded the troops which guarded the university during its closure.

He said that eight leftist rebels of the Farabundo Marti National Liberation Front (FMLN) had been killed inside the UES grounds during last November's big guerrilla offensive on the capital.

Guns and grenades had also been found on the premises, Elena Fuentes said, adding that two of his men had been killed by urban rebels while guarding the campus this year.

Antillon rejected the claims that subversion had been fostered at the university, arguing that weapons and bodies were found everywhere during the offensive, "as occurred at the UES".

Four Salvadoran Army officers and five soldiers are currently facing trial for the killing of six Jesuit priests and two domestic staff at San Salvador's Central American University during the FMLN offensive.

ISLAMABAD (JUNE 5) XINHUA - TWO MAJOR PAKISTANI NEWSPAPERS TODAY URGED THE UNITED STATES AND THE SOVIET UNION TO PAY MORE ATTENTION TO THE KASHMIR AND AFGHAN ISSUES.

"THE MUSLIM" NEWSPAPER, IN AN EDITORIAL ON THE JUST-ENDED U.S.-SOVIET SUMMIT MEETING IN WASHINGTON, SAID BOTH SUPERPOWERS EXPRESSED THEIR WISH TO AVOID A CONFLICT OVER THE KASHMIR ISSUE, BUT "THE MERITS OF THE UPRISING APPARENTLY DID NOT WARRANT DISCUSSION."

ON AFGHANISTAN, THE NEWSPAPER SAID THAT RECENT REPORTS OF AN IMMINENT SUPERPOWER ACCORD HAVE PROVED TO BE FALSE AS MOSCOW'S COMMITMENT TO THE KABUL REGIME APPARENTLY REMAINED A STUMBLING BLOCK TO AGREEMENT.

"ONE HOPES THAT THE SUPERPOWERS WILL BE ABLE TO PAY MORE ATTENTION TO THESE TWO ISSUES AS EITHER HAS THE POTENTIAL OF BECOMING AN INTERNATIONAL DISASTER," IT STRESSED.

MEANWHILE, "THE PAKISTAN TIMES" EDITORIALIZED THAT ON SUCH REGIONAL ISSUES AS KASHMIR, AFGHANISTAN, CAMBODIA AND THE MIDDLE EAST, U.S. PRESIDENT GEORGE BUSH AND SOVIET LEADER MIKHAIL GORBACHEV "APPEARED TO HAVE VAGUELY RECONCILED THEIR BROAD OBJECTIVES WITHOUT MUCH NARROWING THE DIFFERENCES WHERE THEY EXIST."

"IF THEY WERE CONSISTENT IN THEIR PRINCIPLES," IT SAID, "THE SUPERPOWERS COULD ALSO HAVE MADE A CONTRIBUTION IN THEIR SUMMIT TO AN ADVANCE OVER AFGHANISTAN AND KASHMIR."

BEIRUT (JUNE 5) XINHUA - LEBANESE PRESIDENT ELIAS HRAWI AND PRIME MINISTER SALIM HOSS BEGIN A THREE-NATION ARAB TOUR TODAY TO SEEK BOTH POLITICAL AND ECONOMIC HELP.

CAIRO WILL BE THEIR FIRST LEG, AND THE TWO LEADERS WILL ALSO VISIT LIBYA AND TUNISIA. ACCORDING TO A GOVERNMENT STATEMENT, THEY WILL DISCUSS WITH LEADERS OF THE THREE COUNTRIES WAYS OF SUPPORTING THE LEBANESE GOVERNMENT IN ITS EFFORT TO SPREAD ITS AUTHORITY THROUGHOUT THE WAR-SHATTERED COUNTRY.

THE CURRENT GOVERNMENT WAS FORMED IN LINE WITH A NATIONAL RECONCILIATION ACCORD ADOPTED BY PARLIAMENTARIANS IN THE SAUDI TOWN OF TAIF LAST OCTOBER.

BUT GENERAL MICHEL AOUN, WITH AN ESTIMATED 19,000 CHRISTIAN REGULAR TROOPS UNDER HIS COMMAND, REJECTED THE ACCORD WHICH FAILED TO SATISFY HIS DEMAND FOR A QUICK, COMPLETE WITHDRAWAL OF SYRIAN TROOPS.

SYRIA KEEPS ABOUT 35,000 TROOPS IN LEBANON UNDER A 1976 ARAB LEAGUE PEACEKEEPING MANDATE. ALONG WITH THEIR MOSLEM ALLIES, THESE TROOPS FOUGHT WITH AOUN'S FORCES BETWEEN MARCH AND SEPTEMBER LAST YEAR, IN THE FIERCEST ROUND OF FIGHTING IN THE LEBANESE CIVIL WAR NOW IN ITS 16TH YEAR.

IN CAIRO, HRAWI AND HOSS WILL ASK PRESIDENT HOSNI MUBARAK TO USE HIS GOOD OFFICES WITH IRAQI PRESIDENT SADDAM HUSSEIN TO PERSUADE HIM INTO AGREEING NOT TO SUPPLY ARMS TO AOUN, THE MAJOR OBSTACLE TO THE IMPLEMENTATION OF THE TAIF ACCORD.

THEY WILL ALSO ASK MUBARAK TO PRESSURE ISRAEL TO WITHDRAW FROM SOUTH LEBANON.

EGYPT IS THE ONLY ARAB COUNTRY THAT HAS DIPLOMATIC RELATIONS WITH THE JEWISH STATE, WHICH CONTROLS A 10-16 KILOMETER DEEP "SECURITY ZONE" ALLEGEDLY TO PROTECT ITS NORTHERN BORDER AREAS FROM PALESTINIAN AND LEBANESE GUERRILLA ATTACKS.

ACCORDING TO THE LOCAL NEWSPAPER "AS SAFIR," THEHLEBANESE LEADERS PLAN TO ASKE ARAB LEADERS TO SPEED UP THE ESTABLISHMENT OF AN ARAB AND INTERNATIONAL FUND TO HELP LEBANON OVERCOME ITS ECONOMIC PROBLEMS.

MEETING AT A SUMMIT IN BAGHDAD LAST WEEK, ARAB LEADERS AGREED TO ESTABLISH SUCH A FUND WHICH THE LEBANESE GOVERNMENT HOPES WILL ALSO HELP STRENGTHEN THE LOYAL NATIONAL ARMY AS PART OF THE EFFORT TO SPREAD ITS AUTHORITY.

ON MAY 17, HOSS CALLED ON ARAB COUNTRIES TO HELP STRENGTHEN THE ARMY. "HELPING LEBANON IS THE MAIN CONCERN AND THIS CAN BE ACHIEVED THROUGH THE ARMY, BY ORGANIZING THE ARMY AND THE SECURITY FORCES," HE APPEALED.

BEIJING (JUNE 5) XINHUA - CHINA WILL CONCENTRATE ON THE DEVELOPMENT OF THE YANGTZE RIVER BASIN, IN LINE WITH THE OVERALL PLAN OF THE COUNTRY'S ECONOMIC AND NATIONAL LAND DEVELOPMENT IN THE COMING DECADE, STATE COUNCILOR CHEN JUNSHENG SAID TODAY.

ADDRESSING THE CLOSING CEREMONY OF AN EXAMINATION OF THE OVERALL PLAN FOR YANGTZE RIVER BASIN DEVELOPMENT, CHEN SAID, "WE SHOULD BUILD THE TWO BANKS OF THE RIVER INTO A PROSPEROUS ECONOMIC CORRIDOR."

THE STATE COUNCIL HAS JUST DESIGNATED THE PUDONG AREA IN SHANGHAI, ALSO ON THE RIVER, AS A MAJOR ECONOMIC DEVELOPMENT ZONE.

HE SAID THE OVERALL PLAN FOR THE RIVER'S COMPREHENSIVE DEVELOPMENT IS THE BASIC REFERENCE FOR THE EXPOITATION OF WATER RESOURCES AND FLOOD CONTROL. IT WILL EXERT A GREAT INFLUENCE ON THE DEVELOPMENT OF INDUSTRY, AGRICULTURE, ENERGY, COMMUNICATIONS, AND URBAN AND RURAL CONSTRUCTION, AS WELL AS OTHER ECONOMIC FIELDS, HE SAID.

STATISTICS SHOW THAT THE YANGTZE RIVER BASIN HAS ONE THIRD OF THE

COUNTRY'S POPULATION AND OVER HALF OF CHINA'S HYDROPOWER RESOURCES. SHANGHAI, NANJING, WUHAN, CHONGQING AND OTHER IMPORTANT CITIES ARE LOCATED ALONG THE RIVER.

CHINA STARTED TO DRAFT A PLAN FOR THE LONG-TERM DEVELOPMENT OF THE AREA IN 1983 AND SUBMITTED IT TO EXPERTS FROM ACROSS THE COUNTRY FOR EXAMINATION A WEEK AGO.

ACCORDING TO AN OFFICIAL FROM THE MINISTRY OF WATER RESOURCES, EXPERTS HAVE GENERALLY AGREED ON THE PLAN, WHICH WILL BE SUBMITTED TO THE STATE COUNCIL SOON.

HONG KONG (JUNE 5) XINHUA - ZIMBABWEAN PRESIDENT ROBERT GABRIEL MUGABE AND HIS WIFE ARRIVED IN JAKARTA ON TUESDAY FOR A TWO-DAY OFFICIAL VISIT TO INDONESIA AFTER A ONE-DAY PRIVATE VISIT TO BALI, ACCORDING TO AN OANA-ANTARA REPORT FROM JAKARTA.

ON TUESDAY EVENING, THE ZIMBABWEAN PRESIDENTIAL COUPLE WILL BE THE GUESTS OF HONOR AT A STATE BANQUET HOSTED BY PRESIDENT SOEHARTO.

THE TWO PRESIDENTS WILL HAVE A ONE-HOUR DISCUSSION ON BOTH BILATERAL AND INTERNATIONAL MATTERS ON WEDNESDAY MORNING.

THE ZIMBABWEAN PRESIDENT HAD FLOWN INTO BALI ON MONDAY AFTER ATTENDING THE THREE-DAY SUMMIT MEETING OF THE GROUP OF 15 IN KUALA LUMPUR, WHICH ENDED ON SUNDAY.

WHILE IN BALI, THE ZIMBABWEAN LEADER VISITED A TRADITIONAL IRRIGATION SYSTEM.

THE ZIMBABWEAN GUESTS WILL LEAVE FOR HOME ON WEDNESDAY AFTERNOON.

COLOMBO, JUNE 5 (XINHUA) -- SRI LANKAN AUTHORITIES ORGANIZED TREE-PLANTING AND OTHER ACTIVITIES TO OBSERVE THE WORLD ENVIRONMENT DAY TODAY, AND THE MEDIA APPEALED FOR EFFECTIVE NATIONAL PROGRAMS TO TACKLE ENVIRONMENTAL DEGRADATION IN THE ISLAND STATE.

THE THEME OF THIS YEAR'S WORLD ENVIRONMENT DAY IS "CHILDREN AND ENVIRONMENT". THE CENTRAL ENVIRONMENT AUTHORITY ORGANIZED ALL SCHOOLS IN A SPECIAL PROGRAM WITH THE COOPERATION OF THE MINISTRY OF EDUCATION AND THE PRINCIPALS OF SCHOOLS.

ONE ASPECT OF THE PROGRAM IS THE PLANTING OF A TREE -- EITHER A TIMBER TREE OR A FRUIT TREE -- BY EVERY STUDENT IN SCHOOL PREMISES, OR ON ROADSIDES OR IN HOME GARDENS. THE TREE-PLANTING WILL BE CARRIED OUT THROUGH THE WEEK COMMENCING TODAY.

A ONE-WEEK PROGRAM TO "KEEP THE CITY CLEAN" HAS BEEN LAUNCHED IN COLOMBO, CAPITAL OF SRI LANKA, FROM MAY 30 TO JUNE 5 TO MARK THE WORLD ENVIRONMENT DAY.

THE PROGRAM IS CARRIED OUT SIMULTANEOUSLY IN ALL THE 47 WARDS IN COLOMBO WITH ASSISTANCE FROM THE CITY POLICE.

LOCAL DAILY "THE ISLAND" SAID IN ITS EDITORIAL TODAY THAT "ENVIRONMENTAL DEGRADATION IN THIS COUNTRY HAS BEEN A MOOT POINT OF DISCUSSION. ... CONCERNED PEOPLE ARE AGHAST AT THE CONTINUED DEPREDATION OF THE HABITAT. JUNGLES ARE BEING DENUDED, WILD ANIMALS ARE BEING EXTERMINATED, HAPHAZARD USE OF PESTICIDES AND CHEMICALS IN THE ENVIRONMENT POLLUTES THE WATER SYSTEM. ... ."

THE EDITORIAL POINTED OUT THAT THE ENVIRONMENTAL ORGANIZATIONS HAVE TO TAKE OVER THE MAJOR TASK OF FORMULATING NATIONAL PROGRAMS THAT WILL EFFECTIVELY BRING A SOLUTION TO THE ENVIRONMENTAL DEGRADATION.

MONROVIA (JUNE 5) XINHUA - NAVAL SHIPS OF THE UNITED STATES, BRITAIN AND WEST GERMANY HAVE REACHED INTERNATIONAL WATERS OFF THE COAST OF WEST AFRICA TO HELP EVACUATE THEIR CITIZENS FROM LIBERIA, INFORMED SOURCES SAID HERE TODAY.

THE MOVE OF THE WEST GERMAN GOVERNMENT IS NOT CLEAR SINCE IT HAS NOT MADE ANY OFFICIAL STATEMENT ABOUT THE ARRIVAL OF ITS NAVAL SHIPS, BUT THE U.S. AND BRITISH EMBASSIES HERE ISSUED STATEMENTS CONCERNING THE ARRIVAL OF THEIR NAVAL SHIPS.

WASHINGTON SAID THAT SIX U.S. NAVAL SHIPS WITH 2,000 MARINES ABOARD WILL TAKE THEIR POSITION IN INTERNATIONAL WATERS OF WEST AFRICA THIS WEEK TO EVACUATE AMERICAN CITIZENS AND OTHER FOREIGNERS IN LIBERIA, IF THEY ARE NOT ABLE TO LEAVE THE WEST AFRICAN COUNTRY BY COMMERCIAL MEANS.

"WHILE THE PROBABILITY OF SUCH AN EVACUATION IS LOW, THE SHIPS ARE TAKING UP THEIR POSITIONS AS A PRECAUTION," IT SAID IN A STATEMENT.

HOWEVER, IT SAID THAT THE U.S. GOVERNMENT WISHES TO MAKE IT CLEAR THAT ITS MILITARY HAS NO ROLE TO PLAY IN THE LIBERIAN CONFLICT."

SO FAR, NO EVACUATEES HAVE BEEN TAKEN TO THE SHIPS. INFORMED SOURCES SAID

THAT IT IS POSSIBLE THAT BONN COULD TAKE SIMILAR ACTION SINCE THERE ARE MANY GERMAN CITIZENS WORKING IN BONG MINES, A BIG IRON MINES IN LIBERIA.

GOVERNMENT TROOPS AND REBEL FORCES IN LIBERIA ARE ENGAGED IN A FIERCE FIGHTING AND REBELS SAID THAT THEY ARE APPROACHING MONROVIA FROM SEVERAL DIRECTIONS AND MAY LAUNCH ATTACKS ON THE CAPITAL AT ANY TIME.

#90156h0053 06/05/1990 ~Chinese News Agency

HONG KONG (JUNE 5) XINHUA - THE WORLD ENVIRONMENT DAY 1990 IS OBSERVED IN HONG KONG WITH THE LAYING OF A TIME CAPSULE IN THE ZOOLOGICAL AND BOTANIBAL GARDENS THIS MORNING.

THE TIME CAPSULE CONTAINS INFORMATION ON THE WORST POLLUTED SPOTS IN HONG KONG'S 19 DISTRICTS. IT IS HOPED THAT WHEN THE CAPSULE IS UNEARTHED IN 1995, THOSE PROBLEM AREAS WOULD HAVE BEEN ELIMINATED. THE CAPSULE WAS BURIED BY HONG KONG GOVERNOR DAVID WILSON.

PEGGY LAM, CHAIRMAN OF THE LOCAL ENVIRONMENTAL CAMPAIGN COMMITTEE, SAID "FOLLOWING TODAY'S ACTIVITIES, I HOPE ALL CITIZENS OF HONG KONG WOULD TAKE UP THE RESPONSIBILITY OF ENVIRONMENTAL PROTECTION, SO THAT EVERY DAY WILL BE WORLD ENVIRONMENT DAY."

A WORLD ENVIRONMENT DAY DECLARATION WAS MADE AT THE CEREMONY, STRESSING THE ROLE OF EACH INDIVIDUAL IN CARING FOR THE ENVIRONMENT. EACH PERSON MUST LEARN "NOT TO WASTE, POLLUTE OR DESTROY," AS IN THE SLOGAN: "ENVIRONMENTAL PROTECTION STARTS WITH ME."

THE GOVERNOR SAID THAT "IT IS SO IMPORTANT THAT WE SHOULD BE FIRMLY COMMITTED TO A FULL PROGRAM OF ENVIRONMENTAL IMPROVEMENTS. WE NEED PARTICULARLY TO DEAL WITH AIR AND NOISE POLLUTION, AND WITH WASTE, AND TO FIND BETTER WAYS OF HANDLING SEWAGE DISPOSAL."

"WE ALSO NEED TO THINK AHEAD BY MAKING SURE THAT, WHEN WE ARE PLANNING THE DEVELOPMENT OF THE TERRITORY, THE ENVIRONMENTAL IMPLICATIONS ARE TAKEN FULLY INTO ACCOUNT AT AN EARLY STAGE. PREVENTION IS, AFTER ALL, BETTER THAN CURE," HE SAID.

#90156h0055 06/05/1990 ~Chinese News Agency

KUWAIT (JUNE 5) XINHUA - FOREIGN MINISTERS OF THE GULF COOPERATION COUNCIL (GCC) STATES, ENDING A MEETING IN SAUDI ARABIA MONDAY NIGHT, EXPRESSED SATISFACTION WITH THE CURRENT CONTACTS BETWEEN IRAN AND IRAQ, A KUWAITI OFFICIAL SAID TODAY.

DEPUTY PRIME MINISTER AND FOREIGN MINISTER SHEIKH SABAH EL-AHMED AL-JABAH

SAID THAT THE 35TH SESSION OF THE GCC MINISTERIAL COUNCIL IN THE SAUDI TOWN OF TAIF REAFFIRMED SUPPORT OF THE SIX GCC COUNTRIES FOR THE MEDIATION BY U.N. SECRETARY GENERAL JAVIER PEREZ DE CUELLAR BETWEEN IRAN AND IRAQ FOR THE IMPLEMENTATION OF U.N. SECURITY COUNCIL RESOLUTION 598.

THE RESOLUTION, WHICH HALTED AN EIGHT-YEAR WAR BETWEEN THE TWO COUNTRIES IN AUGUST 1988, IS CONSIDERED AS A BROAD BASE FOR RESTORING PEACE. THE SIX GCC COUNTRIES ARE SAUDI ARABIA, KUWAIT, THE UNITED ARAB EMIRATES, OMAN, QATAR AND BAHRAIN.

THE KUWAITI NEWS AGENCY (KUNA) QUOTED JABAH AS SAYING THAT THE FOREIGN MINISTERS EXPRESSED SATISFACTION WITH THE SITUATION IN THE GULF REGIONI AS A WHOLE.

THE GCC MINISTERIAL COUNCIL SESSION EXAMINED THE CONTACTS THAT HAVE BEEN GOING ON FOR THE IMPLEMENTATION OF U.N. RESOLUTION 598 AND IRAQI PRESIDENT SADDAM HUSSEIN'S RECENT PEACE INITIATIVE IN TWO MESSAGES TO HIS IRANIAN COUNTERPART HASHEMI RAFSANJANI.

IN A STATEMENT ISSUED AT THE END OF THEIR SESSION, THE MINISTERS EXPRESSED THE BELIEF THAT IRAN'S RESPONSE TO SADDAM'S MESSAGES WOULD HELP PROVIDE AN ATMOSPHERE POSITIVE TO THE ANTICIPATED START OF DIRECT NEGOTIATIONS BETWEEN THE TWO COUNTRIES.

THE GCC STATES, SAID THE STATEMENT, EXPRESS DEEP REGRET AT THE U.S. VETO ON MARCH 31 OF A U.N. SECURITY COUNCIL RESOLUTION ON SENDING A FACT-FINDING MISSION TO THE ISRAELI- OCCUPIED TERRITORIES. THE RESOLUTION WAS DESIGNED TO PROTECT THE NATIVE PALESTINIANS IN THESE TERRITORIES.

THE STATEMENT REAFFIRMED SUPPORT OF THE GCC STATES FOR THE NATIONAL RIGHTS OF THE PALESTINIAN PEOPLE, INCLUDING THEIR RIGHT TO SELF-DETERMINATION AND TO ESTABLISH AN INDEPENDENT STATE.

ON THE LEBANESE PROBLEM, THE STATEMENT APPEALED TO THE VARIOUS FACTIONS TO BE SELF-RESTRAINED AND END THE INTERNAL FIGHTING, AVOID WHATEVER IS LIKELY TO OBSTRUCT PEACE, ADHERE TO LEGITIMACY AND RESTORE SECURITY AND STABILITY TO LEBANON.

THE STATEMENT SAID THAT IMPLEMENTATION OF THE TAIF ACCORD APPROVED BY LEBANESE PARLIAMENTARIANS LAST OCTOBER WILL CREATE AN ATMOSPHERE CONDUCIVE TO THE INTERESTS OF ALL LEBANESE WITHOUT EXCEPTION.

#90156h0056 06/05/1990 ~Chinese News Agency

YANGON (JUNE 5) XINHUA - ELECTION RETURNS OF 184 CONSTITUENCIES OUT OF A TOTAL OF 485 HAVE BEEN ANNOUNCED BY THE MYANMAR GENERAL ELECTION COMMISSION, WITH THE NATIONAL LEAGUE FOR DEMOCRACY (NLD) TOPPING THE

STANDINGS WITH 166 SEATS.

THE OTHER 18 SEATS WENT TO NINE PARTIES AND AN INDEPENDENT, ACCORDING TO A REPORT BY THE OFFICIAL WORKING PEOPLE'S DAILY HERE TODAY.

MEANWHILE, AN INFORMATION SECTION OFFICER OF THE NLD TOLD XINHUA THIS AFTERNOON THAT THE NLD HAS SO FAR TAKEN 396 SEATS, OR 81.6 PERCENT OF ALL THE 485 CONSTITUENCIES. THE NLD WON A LANDSLIDE VICTORY IN MYANMAR'S FIRST MULTI-PARTY GENERAL ELECTION IN THREE DECADES, WHICH WAS HELD ON MAY 27.

THE OFFICER ADDED, "WE ARE AWAITING FOR THE RESULTS OF THE LAST SEVERAL CONSTITUENCIES FROM OUR OWN SOURCES."

ACCORDING TO THE ELECTION COMMISSION, ALL THE OFFICIAL RESULTS OF THE ELECTION CAN BE ANNOUNCED IN THREE WEEKS.

AMONG THE 184 SEATS ANNOUNCED BY THE ELECTION COMMISSION, THE NATIONAL UNITY PARTY (FORMER RULING BURMA SOCIALIST PROGRAM PARTY) RANKED SECOND WITH ONLY FIVE SEATS.

THE OTHER FOUR PARTIES -- THE UNION PAOH NATIONAL ORGANIZATION, THE PARTY FOR NATIONAL DEMOCRACY, THE MON NATIONAL DEMOCRATIC FRONT AND THE KAYAH STATE NATIONALITIES LEAGUE FOR DEMOCRACY -- TOOK TWO SEATS EACH.

THE REMAINING FIVE SEATS WERE CAPTURED BY THE DEMOCRACY PARTY, THE GRADUATES AND OLD STUDENTS DEMOCRATIC ASSOCIATION, THE SHAN NATIONALITIES LEAGUE FOR DEMOCRACY, THE UNION DANU LEAGUE FOR DEMOCRACY PARTY AND AN INDEPENDENT IN SAGAING DIVISION.

#90156h0058 06/05/1990 ~Chinese News Agency

FUZHOU (JUNE 5) XINHUA - TWO SUSPECTED CRIMINALS WHO HAD ILLEGALLY ENTERED JAPAN AND LATER BEEN DEPORTED TO CHINA WERE ARRESTED TODAY BY THE POLICE IN FUJIAN PROVINCE.

BETWEEN JANUARY 1988 AND FEBRUARY 1989, CHEN DEGUAN AND ZHENG SHOUXIONG, BOTH FROM FUJIAN'S CHANGLE COUNTY, ILLEGALLY OBTAINED AND RESOLD EXIT REGISTRATION CARDS BY BRIBING PUBLIC SERVANTS AND EARNED EXORBITANT PROFITS.

THEY ILLEGALLY ENTERED JAPAN IN AUGUST 1989 DISGUISED AS VIETNAMESE REFUGEES.

ON MAY 10 THIS YEAR THE INTERPOL BUREAU IN CHINA NOTIFIED ITS COUNTERPART IN JAPAN OF THE PAIR AND ASKED FOR THEIR REPATRIATION. CHINA'S EMBASSY IN JAPAN LATER CONVEYED THE SAME REQUEST THROUGH DIPLOMATIC CHANNELS.

THE CASE IS STILL UNDER INVESTIGATION.

#90156h0059 06/05/1990 ~Chinese News Agency

HANGZHOU (JUNE 5) XINHUA - EAST CHINA'S ZHEJIANG PROVINCE HELD HERE TODAY A MEETING MARKING THE 150TH ANNIVERSARY OF THE OPIUM WAR.

AT THE MEETING, TANG YUANBING, VICE-CHAIRMAN OF THE PROVINCIAL COMMITTEE OF THE CHINESE PEOPLE'S POLITICAL CONSULTATIVE CONFERENCE, POINTED OUT THAT THE TWO-YEAR WAR (1840-1842) LAUNCHED BY THE BRITISH EMPIRE AGAINST CHINA TO PROTECT ITS ILLEGAL OPIUM TRADE IN 1840 BROUGHT GREAT SUFFERING TO THE CHINESE PEOPLE.

NOW, CAPITALIST COUNTRIES IN THE WEST ARE AGAIN ATTEMPTING TO SUBVERT CHINA THROUGH "PEACEFUL EVOLUTION" AND POLITICAL AND IDEOLOGICAL INFILTRATION, A PLOT THAT THEY COULD NOT REALIZE THROUGH MILITARY FORCE IN THE PAST, HE SAID.

"IN THIS ACUTE STRUGGLE WE MUST UNITE WITH ALL FORCES THAT CAN BE UNITED TO DEFEAT THEIR CONSPIRACY UNDER THE LEADERSHIP OF THE COMMUNIST PARTY OF CHINA," TANG SAID, ADDING, "MEANWHILE, WE SHOULD ALSO ADHERE TO THE REFORM AND OPEN POLICY WITH ECONOMIC CONSTRUCTION AT THE CORE AND THE FOUR CARDINAL PRINCIPLES AS FUNDAMENTAL GUIDELINES."

DEPUTY SECRETARY OF THE PROVINCIAL COMMUNIST YOUTH LEAGUE SHEN YUEYUE ALSO MADE A SPEECH AT THE GATHERING, EMPHASIZING THE IMPORTANCE OF TEACHING CHINA'S MODERN AND REVOLUTIONARY HISTORY TO YOUNG PEOPLE.

SHEN CALLED ON YOUNG PEOPLE TO RESIST BOURGEOIS IEDOLOGY AND UNSWERVINGLY STICK TO THE SOCIALIST ROAD.

DEPUTY GOVERNOR LI DEBAO AND 100 NOTED FIGURES FROM ALL WALKS OF LIFE ATTENDED THE MEETING.

#90156h0060 06/05/1990 ~Chinese News Agency

BEIJING (JUNE 5) XINHUA - PEOPLE SHOULD SHARE THE RESPONSIBILITY FOR PROTECTING THE ENVIRONMENT IN ORDER TO PROVIDE A HEALTHY AND COMFORTABLE WORLD FOR LATER GENERATIONS.

JIN JIANMING, DEPUTY DIRECTOR OF THE STATE ENVIRONMENTAL PROTECTION BUREAU MADE THIS REMARK TODAY IN A SPEECH TO MARK "WORLD ENVIRONMENT DAY 1990".

HE SAID THAT THIS YEAR THE THEME OF THE ENVIRONMENT DAY IS "CHILDREN AND THE ENVIRONMENT". HE EXPLAINED THAT THIS THEME BRINGS HOME TO EVERYBODY THE FACT THAT THE EARTH BELONGS NOT ONLY TO US BUT ALSO TO FUTURE

GENERATIONS.

HE WARNED THAT THE WORSENING ENVIRONMENT IN SOME AREAS OF THE WORLD IS THREATENING THE LIVES OF MANY OF THE WORLD'S CHILDREN.

ALSO TODAY, SOME 500 CHILDREN IN BEIJING GATHERED HERE TO MARK THE WORLD ENVIRONMENT DAY.

STATE COUNCILLOR SONG JIAN MADE A SPEECH AT THE GATHERING. HE EXPRESSED HIS HOPE THAT CHINESE CHILDREN WOULD LOVE THE MOUNTAINS AND RIVERS OF THE MOTHERLAND, PROTECT FLOWERS, GRASS AND TREES AND TAKE AN ACTIVE PART IN PROTECTING THE ENVIRONMENT.

#90156h0068 06/05/1990 ~Chinese News Agency

MANILA (JUNE 5) XINHUA - PRESIDENT CORAZON AQUINO TODAY ORDERED AN INVESTIGATION INTO NEWS REPORTS THAT TRANSCRIPTS OF CLOSED-DOOR CABINET MEETINGS ARE BEING SOLD HERE AND ABROAD AT UP TO 1,500 U.S. DOLLARS PER PAGE.

THE ALLEGATION WAS MADE BY FORMER AGRARIAN REFORM SECRETARY MIRIAM SANTIGO IN A RADIO INTERVIEW.

"I SHALL DIRECT CABINET SECRETARY ANICETO SOBREPENA TO LOOK INTO THIS ALLEGATION AND SUBMIT A REPORT WITHIN A WEEK," THE PRESIDENT SAID IN A STATEMENT.

IN THE RADIO INTERVIEW THE OTHER DAY, SANTIAGO SAID THE TRANSCRIPTS OF CABINET MEETINGS WERE SOLD TO FOREIGN BUSINESSMEN INTERESTED IN THE GOVERNMENT'S ECONOMIC POLICIES.

HOWEVER, THE FORMER AGRARIAN REFORM SECRETARY REFUSED TO NAME NAMES, SAYING IT WOULD JEOPARDIZE HER SOURCES.

MEANWHILE, PRESS SECRETARY TOMAS GOMAZ SAID THE ALLEGATION WAS A RUMOR, ADDING THAT THERE IS NO NEED TO BUY THE TRANSCRIPTS BECAUSE EVEN DISCUSSIONS AT EXECUTIVE SESSIONS WERE MADE PUBLIC FOR TRANSPARENCY.

#90156h0070 06/05/1990 ~Chinese News Agency

BEIRUT (JUNE 5) XINHUA - A SECURITY DRAGNET BY SYRIAN TROOPS TO CLEAN WEST BEIRUT OF GUNS AND GUNMEN WILL CONTINUE FOR ANOTHER TWO OR THREE MONTHS, SYRIAN SOURCES HERE SAID.

STEEL HELMETED SYRIAN TROOPS ARMED WITH GRENADE LAUNCHERS AND MACHINEGUNS HAVE RAIDED MILITIA OFFICES, MOSTLY IN WEST BEIRUT, SINCE MAY 30 IN AN

ATTEMPT TO END A NEW WAVE OF VIOLENCE IN THE CITY.

HUNDREDS OF SYRIAN SOLDIERS HAVE BEEN SEEN FANNING OUT IN THE MOSLEM HALF OF THE LEBANESE CAPITAL AND ITS SOUTHERN EXITS TO SECURE THE HIGHWAY LEADING TO THE BEIRUT INTERNATIONAL AIRPORT AND THE SOUTH OF THE COUNTRY.

THE MEASURES TO TIGHTEN SECURITY WERE TAKEN AFTER REPEATED STREET GUNBATTLES IN WEST BEIRUT AND ITS SOUTHERN DISTRICT BETWEEN RIVAL SHIITE MOSLEM MILITIAS.

THE PRO-SYRIAN "AMAL" MOVEMENT AND THE IRANIAN-SPONSORED HEZBOLLAH, OR PARTY OF GOD, HAVE BEEN FIGHTING ON-AND-OFF IN EASTERN BEKAA, THE SOUTH AND WEST BEIRUT AND ITS SOUTHERN SUBURBS SINCE MAY 1987 FOR CONTROL OF THE COUNTRY'S 1.2 MILLION SHIITE MOSLEMS. OVER THE PAST TWO MONTHS, THERE HAS BEEN A BREAKDOWN OF LAW AND ORDER IN WEST BEIRUT ALONG WITH ESCALATION OF THE CONFLICT.

THE OPERATION BY SYRIAN TROOPS OF CLEANING WEST BEIRUT OF WEAPONS AND GUNMEN WAS DESIGNED TO PREVENT AN ALL-OUT AMAL-HEZBOLLAH CONFRONTATION.

SYRIA, THE BIGGEST FOREIGN POWER-BROKER IN LEBANON, HAS SOME 35,000 TROOPS STATIONED THERE UNDER A 1976 ARAB-LEAGUE PEACEKEEPING MANDATE.

-30- 1618

#90156h0071 06/05/1990 ~Chinese News Agency

BANGKOK (JUNE 5) XINHUA - SOVIET DEPUTY FOREIGN MINISTER IGOR ROGACHEV SAID HERE TODAY THAT HIS COUNTRY BASICALLY SUPPORTS THE CONCEPT OF SETTING UP AN INTERGOVERNMENTAL FORUM OF ASIAN-PACIFIC ECONOMIC COOPERATION, BUT EMPHASIZED UNIVERSALITY PRINCIPLE SHOULD UNDERLIE ITS ACTIVITIES.

AND ON ITS PART, THE SOVIET UNION TRIES TO MAKE ITS OWN CONTRIBUTION TO FURTHERING THE PROCESS OF NEGOTIATIONS IN THE REGION, HE ADDED.

ADDRESSING THE SECOND-DAY MEETING OF THE 46TH ANNUAL SESSION OF THE U.N. ECONOMIC AND SOCIAL COMMISSION FOR ASIA AND THE PACIFIC (ESCAP) AS THE HEAD OF THE SOVIET DELEGATION, ROGACHEV MADE THIS COMMENT WHEN HE REFERRED TO THE QUESTION OF SOVIET'S COOPERATION WITH REGIONAL ORGANIZATIONS OPERATING IN ASIA AND THE PACIFIC.

HE NOTED "A GROWING GAP BETWEEN THE 'PROSPEROUS' AND UNDERDEVELOPED COUNTRIES IN THE REGION" AND "THE MOST DIFFICULT SITUATION" THE REGION'S LEAST DEVELOPED COUNTRIES (LDC) ARE IN, AND SAID THE SOVIET UNION SUPPORTS "BASIC IDEAS ADVANCED BY THE ESCAP SECRETARIAT WITH REGARD TO DRAWING UP AN INTERNATIONAL PROGRAM FOR THE LDC'S FOR THE '90S, ASSUMING THAT IT SHOULD BE COMPREHENSIVE AND TAKE FULL ACCOUNT OF BOTH INTERNAL AND EXTERNAL FACTORS AFFECTING THE DEVELOPMENT OF THAT GROUP OF COUNTRIES."

"WE FAVOR ESCAP'S ACTIVE INVOLVEMENT IN DRAFTING THE INTERNATIONAL DEVELOPMENT STRATEGY FOR THE '90S AND WILL MAKE EVERY POSSIBLE EFFORT TO FACILITATE THAT TASK," HE SAID.

ON THE QUESTION OF ENVIRONMENTAL PROTECTION, ROGACHEV SAID "MONITORING, ESTABLISHING AND FORECASTING ENVIRONMENTAL THREATS SHOULD FEATURE PROMINENTLY IN DRAWING UP THE REGIONAL STRATEGY FOR ENVIRONMENTAL PROTECTION," AND STRESSED "THE TASKS OF MINIMIZING DEATH TOLL AND MATERIAL LOSSES INFLICTED BY NATURAL DISASTERS, PREVENTING INDUSTRIAL ACCIDENTS AND MITIGATING THEIR CONSEQUENCES ARE DIRECTLY LINKED TO ENSURING ENVIRONMENTAL SECURITY."

THE SOVIET DELEGATION CHIEF ALSO REFERRED TO THE CAMBODIA ISSUE, THE QUESTION OF REDUCTION OF TENSION ON THE KOREAN PENINSULA AND PEACEFUL REUNIFICATION OF KOREA, AND THE DISPUTES BETWEEN INDIA AND PAKISTAN, AND GENERALLY REITERATED HIS COUNTRY'S STANDS ON THESE ISSUES.

IN CONCLUSION, ROGACHEV REITERATED HIS GOVERNMENT'S INTENTION TO HOST ONE OF THE NEXT ESCAP SESSIONS, PRESUMABLY IN 1993 OR 1994, IN THE CAPITAL OF A SOVIET CENTRAL-ASIAN REPUBLIC.

-30- 2525

#90156h0073 06/05/1990 ~Chinese News Agency

BEIJING (JUNE 5) XINHUA - A GROUP OF LEADING CHINESE SCIENTISTS, SOCIOLOGISTS AND ECONOMISTS CALLED FOR DEEPENING AND IMPROVING THE REFORM OF CHINA'S SCIENCE AND TECHNOLOGY, AT AN OPEN DISCUSSION HERE TODAY.

SPEAKING AT THE MEETING, ORGANIZED BY THE NEWSPAPER "CHINESE SCIENCE NEWS" AND THE POLICY BUREAU UNDER THE CHINESE ACADEMY OF SCIENCES, THE TOP CHINESE INTELLECTUALS AGREED THAT CHINA'S SCIENTIFIC AND TECHNOLOGICAL REFORMS, WHICH WERE LAUNCHED 10 YEARS AGO, HAVE BROKEN UP THE TRADITIONAL OSSIFIED AND CLOSED SYSTEM AND HAVE MADE GREAT PROGRESS IN TRANSLATING SCIENTIFIC ACHIEVEMENTS INTO ECONOMIC RESULTS.

BUT THEY ALSO EXPRESSED CONCERN ABOUT A NUMBER OF IMPORTANT PROBLEMS DEMANDING PROMPT SOLUTIONS IN THE PROCESS OF REFORM.

"THE CENTRAL COMMETTEE OF THE CHINESE COMMUNIST PARTY HAS MADE A CORRECT DECISION IN MAKING THE DEVELOPMENT OF SCIENCE, TECHNOLOGY, AND EDUCATION A TOP PRIORITY IN THE NATIONAL ECONOMIC DEVELOPMENT," SAID PROFESSOR SHI CHANGXU, A NOTED SCIENTIST AND MEMBER OF THE CHINESE ACADEMY OF SCIENCES.

"THE KEY POINT, HOWEVER, IS TO MAKE SURE THAT THE POLICY IS IMPLEMENTED." HE SAID. HE BLAMED THE UNREASONABLE SOCIAL DISTRIBUTION OF WEALTH FOR THE WIDESPREAD DEVALUATION OF KNOWLEDGE, STUDENTS' DISINTEREST IN SCHOOL AND THEIR INCREASING INTEREST IN DOING BUSINESS AND SEEKING JOBS WHEN THEY ARE STILL OF SCHOOL AGE.

"SUCH PHENOMENA WILL DO NO GOOD TO THE DEVELOPMENT OF CHINA'S SCIENCE AND TECHNOLOGY AND CONSTITUTE A GRAVE THREAT TO THE IMPROVEMENT OF THE QUALITY OF THE CHINESE NATION AS A WHOLE," HE WARNED.

PROFESSOR HE ZUOXIU, A SOCIOLOGIST AND MEMBER OF THE CHINESE ACADEMY OF SCIENCES, DEPLORED THE PARADOXICAL SITUATION OF A "BRAIN DRAIN" IN CHINA. "ON THE ONE HAND, CHINA IS IN GREAT NEED OF TALENT AND ADVANCED SCIENCE AND TECHNOLOGY. BUT, ON THE OTHER HAND, MANY UNIVERSITIES HAVE ENCOUNTERED NO SMALL PROBLEM IN FINDING JOBS FOR THEIR GRADUATES."

HE SUGGESTED THAT THE CHINESE GOVERNMENT MAKE EVERY EFFORT TO DEVELOP SCIENCE. "IF CHINA'S ECONOMIC DEVELOPMENT GOES ONTO THE RIGHT TRACK OF RELYING ON THE PROGRESS OF SCIENCE AND TECHNOLOGY AS WELL AS RELYING ON RAISING THE QUALITY OF WORKERS THROUGH EDUCATION, MANY OF THE COUNTRY'S CHRONIC PROBLEMS SUCH AS THAT OF THE 'BRAIN DRAIN' CAN BE OVERCOME AND THE MAJORITY OF THE OVERSEAS STUDENTS WILL COME BACK HOME," HE EXPLAINED.

PREFESSOR WANG HUIJIONG, DEPUTY DIRECTOR GENERAL OF THE DEVELOPMENT RESEARCH CENTER UNDER THE STATE COUNCIL, SAID THAT THE REFORM OF THE SCIENTIFIC AND TECHNOLOGICAL STRUCTURE SHOULD SOLVE THE PROBLEM OF GEARING SCIENTIFIC RESEARCH TO ECONOMIC CONSTRUCTION.

"THE DEVELOPMENT OF SCIENCE AND TECHNOLOGY CANNOT BE ISOLATED FROM THE ECONOMIC FOUNDATION. SCIENTISTS LIKE TO ENGAGE IN ADVANCED AND SOPHISTICATED PROJECTS. BUT CHINESE SCIENTISTS SHOULD ALSO DEVOTE SOME EFFORT TO PROMOTING THE APPLICATION OF ORDINARY TECHNOLOGIES WHICH ARE CLOSELY ASSOCIATED WITH THE DAILY LIFE OF THE COUNTRY'S 1.1 BILLION POPULATION. WE SHOULD SPEED UP OUR ECONOMIC DEVELOPMENT IN ABSORBING INTRODUCED TECHNOLOGY AND MAKING OUR OWN CREATIONS," HE REMARKED.

PROFESSOR ZHOU CHUANDIAN, FORMER VICE-MINISTER OF THE METALLURGICAL INDUSTRY, SAID THAT CHINA'S OPENING TO THE OUTSIDE WORLD AND ITS EXCHANGES WITH OTHER COUNTRIES HAVE MADE US REALIZE THE DRAWBACKS OF OUR STRUCTURE. "WE SHOULD STUDY AND DRAW ON THOSE FOREIGN SCIENTIFIC AND TECHNOLOGICAL EXPERIENCES WHICH HAVE BECOME NORMS OF SCIENTIFIC DEVELOPMENT. FOR EXAMPLE PROMOTING THE TIES BETWEEN INDUSTRIES AND SCIENTISTS AND SPEEDING UP THE COMMERCIALIZATION OF SCIENTIFIC FINDINGS."

PROFESSOR YANG ANXIAN, DEPUTY CHIEF OF THE POLICY BUREAU OF THE CHINESE ACADEMY OF SCIENCES, SAID THAT REFORM OF THE SCIENTIFIC AND TECHNOLOGICAL STRUCTURE SHOULD PROCEED ON THE BASIS OF THE NATIONAL CONDITIONS. "AS A BIG COUNTRY WITH A HEAVY POPULATION BURDEN, SERIOUS PER CAPITA SHORTAGES OF NATURAL RESOURCES, AND LOW PER CAPITA INCOMES, WHILE HAVING RICH RESOURCES OF INTELLIGENT PEOPLE, CHINA SHOULD NOT JUST COPY THE SOVIET UNION NOR THE WEST IN HER DEVELOPMENT OF SCIENCE AND TECHNOLOGY," HE SAID.

MOST SCIENTISTS AND SCHOLARS AT THE MEETING EXPRESSED THEIR BELIEF THAT

REFORM IS THE ONLY WAY OUT FOR CHINA, AND IT ACCORDS WITH THE WILL OF THE PEOPLE AND CANNOT BE REVERSED.

"AS LONG AS THE COUNTRY FOLLOWS OBJECTIVE LAWS AND STICKS TO THE POLICIES OF REFORM AND OPENING TO THE OUTSIDE WORLD, CHINA WILL EVENTUALLY OVERCOME THE OBSTACLES ON ITS ROAD FORWARD, AND ESTABLISH A NEW SCIENTIFIC AND TECHNOLOGICAL STRUCTURE WHICH CONFORMS TO CHINA'S NATIONAL CONDITIONS AS WELL AS THE LAWS OF SCIENTIFIC AND TECHNOLOGICAL DEVELOPMENT," ONE SPEAKER REMARKED.

#90156h0077 06/05/1990 ~Chinese News Agency

CHENGDU (JUNE 5) XINHUA - THE PEOPLE OF PINGWU COUNTY AND THE WOLONG NATURE RESERVE IN SICHUAN PROVINCE ARE ADOPTING NEW WAYS TO ACCELERATE THE GROWTH OF THE ARROW BAMBOO, THE STAPLE FOOD FOR THE GIANT PANDA, ONE OF THE WORLD'S RAREST ANIMALS.

ONE OF THE NEW WAYS IS TO CUT THE NUMBER OF BAMBOO PLANTS FROM SEVEN MILLION TO 3.5 MILLION PER HA IN ORDER TO IMPROVE THE INTAKE OF LIGHT, AIR AND FERTILIZER BY THE PLANTS. IN THIS WAY, IT HAS BEEN FOUND, THE PER HA BAMBOO OUTPUT CAN BE DOUBLED.

LOCAL PEOPLE ARE ALSO USING THE TYPES OF FERTILIZER AND THE PROPER AMOUNT PER UNIT RECOMMENDED BY SCIENTISTS SO THAT THE BAMBOO GROWTH CAN INCREASE BY 30 PERCENT.

TRANSPLANTING AND GROWTH HORMONE TECHNIQUES ARE ALSO APPLIED. THE PROVINCE NOW HAS 37 HA OF ARROW BAMBOO CULTIVATED BY THE NEW METHODS.

COLOMBO (JUNE 5) XINHUA - SRI LANKAN MINISTER OF JUSTICE A.C.S. HAMEED, WHO IS ALSO CHAIRMAN OF THE NORTH-EAST PEACE COMMITTEE, MET LEADERS OF THE LIBERATION TIGERS OF TAMIL EELAM (LTTE) IN BATTICALOA, EAST SRI LANKA, THIS MORNING, AND DISCUSSED WITH THEM SOME OF THE PROBLEMS FACED BY THE PEOPLE IN THE AREA.

DURING THEIR THREE-HOUR MEETING, HAMEED AND THE LTTE LEADERS DISCUSSED PROBLEMS FACED BY THE LOCAL PEOPLE IN RESPECT OF ADMINISTRATION, EDUCATION AGRICULTURE AND TRANSPORT, ACCORDING TO A NEWS RELEASE ISSUED BY THE GOVERNMENT THIS AFTERNOON.

THE MINISTER ALSO HAD A JOINT MEETING WITH THE LTTE LEADERS AND THE LAW ENFORCEMENT AUTHORITIES AT BATTICALOA AIRFORCE PREMISES. BOTH PARTIES BROUGHT TO THE NOTICE OF HAMEED WHAT THEY CONSIDERED TO BE CONSTRAINTS TO THE RESTORATION OF NORMALCY AND HOW BEST THEY COULD BE REMOVED, THE

RELEASE SAID.

HAMEED ALSO MET A DELEGATION OF THE MUSLIMS FROM VARIOUS PARTS OF BATTICALOA DISTRICT, WHO BRIEFED HIM OF THE SITUATION IN THE MUSLIM VILLAGES.

THE MUSLIM DELEGATION URGED HAMEED TO ENSURE THAT THE FUTURE POLITICAL ARRANGEMENTS FOR THE NORTH-EAST RESPECT THE CONCERNS AND EXPECTATIONS OF ALL THE COMMUNITIES. THEY STRESSED THAT ALL POSSIBLE MEASURES SHOULD BE TAKEN TO STRENGTHEN THE UNITY AND UNDERSTANDING AMONG THE VARIOUS ETHNIC GROUPS WHO HAVE MADE THE NORTH-EAST THEIR HOME.

HAMEED VISITED BATTICALOA ON MONDAY.

#90156h0079 06/05/1990 ~Chinese News Agency

KATHMANDU (JUNE 5) XINHUA - NEPALESE PRIME MINISTER K.P. BHATTARAI TODAY INITIATED AN AFFORESTATION PROGRAM AT SUNAKOTHI VILLAGE IN LALITPUR, ONE OF THREE KATHMANDU VALLEY TOWNS IN OBSERVANCE OF WORLD ENVIRONMENT DAY.

ABOUT 1,500 CAMPHOR, PINE AND OTHER SAPLINGS WERE PLANTED BY MINISTERS, HIGH-RANKING OFFICIALS AND STUDENTS.

AT A FUNCTION LATER, PRIME MINISTER BHATTARAI STRESSED THE NEED FOR NEIGHBORING COUNTRIES TO WORK TOGETHER IN PREVENTING ENVIRONMENTAL DEGRADATION.

HE SAID THAT TENS OF MILLIONS OF PEOPLE IN INDIA AND BANGLADESH WOULD SUFFER IF THE RIVER GANGES DRIED UP. LARGE RIVERS IN NEPAL ALSO FLOW INTO THE GANGES.

STATING THAT WORLD ENVIRONMENT DAY IS BEING CELEBRATED WITH THE SLOGAN "CHILDREN AND THE ENVIRONMENT," THE PRIME MINISTER SAID THAT POLLUTED WATER IN NEPAL IS THE MAIN CAUSE OF DISEASE AND DEATH OF MANY CHILDREN. POLLUTED ENVIRONMENT DOES GREATER HARM TO CHILDREN THAN ADULTS.

IN AN APPEAL, GENERAL SECRETARY OF THE RULING NEPALI CONGRESS (PARTY) G.P. KOIRALA SAID NEPAL TOO HAS NOT BEEN SPARED THE DANGERS POSED TO THE ENVIRONMENT BY THE UNCALLED FOR DEPLETION OF NATURAL RESOURCES AND INCREASING POPULATION PRESSURES.

THE SITUATION IS EVEN MORE SERIOUS IN NEPAL BECAUSE OF THE MINDLESS DESTRUCTION OF NATURAL RESOURCES IN THE PAST 30 YEARS.

IT WAS REPORTED THAT DEFORESTATION HAS BECOME SERIOUS IN NEPAL WITH A FAST GROWING POPULATION. FOREST AREAS HAVE DROPPED FROM 45 PERCENT TO 27 PERCENT OF THE TOTAL LAND IN THE PAST 20 YEARS. EVEN WITH THE EFFORT OF

REFORESTATION, THE FOREST AREA IS DECLINING BY 2 PERCENT EVERY YEAR.

#90156h0080 06/05/1990 ~Chinese News Agency

MANILA (JUNE 5) XINHUA - THE PHILIPPINE EXECUTIVE-LEGISLATIVE BASES CONVERSION COUNCIL HAS EARMARKED FOR SALE SOME 1,000 HECTARES OF LAND INSIDE MILITARY CAMPS IN METRO MANILA AS PART OF A PLAN TO CONVERT THE U.S. BASES INTO CIVILIAN USE, COUNCIL CHAIRMAN JOSE ABUEVA SAID TODAY.

APPEARING AT A JOINT HEARING OF THE SENATE COMMITTEES ON GOVERNMENT CORPORATIONS AND FOREIGN RELATIONS, ABUEVA SAID THAT THE SALE OF THE LAND COULD PROVIDE THE INITIAL FUNDING FOR THE PROPOSED BASELAND CONVERSION AUTHORITY (BCA).

THE COUNCIL IS A BODY FORMED BY THE PRESIDENT TO STUDY POSSIBLE ALTERNATIVE USE OF THE U.S. MILITARY BASES HERE, WHILE THE BCA IS AN AGENCY WHICH WOULD IMPLEMENT PLANS FOR THE CONVERSION OF THE U.S. BASES INTO CIVILIAN USE.

ABUEVA SAID THAT ABOUT 1,000 HECTARES OF PRIME LAND INSIDE PHILIPPINE MILITARY CAMPS IN METRO MANILA COULD BE SOLD FOR FUNDING OF THE BCA.

HE SAID THAT THE REAL ESTATE PROPERTIES COULD EASILY FETCH 6,000 PESOS (272.7 U.S. DOLLARS) PER SQUARE METER.

THE BCA, A BODY PROPOSED BY SENATOR LETICIA SHAHANI IN A BILL, WOULD NEED AN INITIAL FUNDING OF 50 BILLION PESOS (2.27 BILLION U.S. DOLLARS).

SHAHANI SAID THE CREATION OF THE BCA WOULD SPEED UP PLANS FOR THE CONVERSION OF THE BASES AND COORDINATE EFFORTS TO MAKE USE OF LANDS WHICH HAVE ALREADY BEEN TURNED OVER TO THE PHILIPPINE GOVERNMENT.

SHAHANI SAID THE PHILIPPINE GOVERNMENT SHOULD START IMMEDIATELY IMPLEMENTING PLANS TO CONVERT THE BASES BECAUSE BASED ON THE EXPERIENCE OF OTHER COUNTRIES, CONVERSION OF FOREIGN MILITARY BASES TAKES SO MUCH TIME.

APPROVAL OF THIS BILL WILL DEMONSTRATE, NOT ONLY TO THE AMERICAN GOVERNMENT, BUT TO THE PHILIPPINE PEOPLE, THAT THE PHILIPPINE GOVERNMENT HAS THE POLITICAL WILL TO CONVERT THE BASES INTO VIABLE ECONOMIC USES, SAID SHAHANI.

OTTAWA (JUNE 5) XINHUA - ALTHOUGH THEY ARE "DEEPLY WORRIED" ABOUT THE ENVIRONMENT, MOST OF THE CANADIANS ARE RELUCTANT TO MAKE MAJOR CHANGES IN THEIR LIFESTYLES TO REDRESS ENVIRONMENTAL PROBLEMS, A LATEST PUBLIC OPINION POLL HERE SAYS.

THE SURVEY, CONDUCTED LAST MONTH BY CANADIAN POLLSTER, "THE ANGUS-REID GROUP INC.," INVOLVED TELEPHONE INTERVIEWS WITH 1,505 CANADIANS. AMONG THE HIGHLIGHTS:

-- ABOUT 60 PERCENT OF CANADIANS OPPOSE BANNING PRIVATE CAR USE IN CITIES DURING CERTAIN TIMES OR APPLYING A TAX ON PARKING IN URBAN AREAS,

-- NEARLY THREE-QUARTERS OPPOSE THE APPLICATION OF A SPECIAL FUEL TAX ON ALL CARS IN CITIES,

-- MORE THAN HALF OPPOSE A USER-PAY SYSTEM THAT WOULD CHARGE PEOPLE FOR GARBAGE PICK-UP BASED ON HOW MUCH THEY THROW OUT,

-- MORE THAN HALF OPPOSE A TAX PLACED ON PACKAGING TO REDUCE THE AMOUNT USED,

-- MORE THAN HALF OPPOSE INCREASES IN DOWNTOWN RESIDENTIAL DENSITY AS A WAY TO LIMIT URBAN SPRAWL.

THE SURVEY REVEALED "VERY HIGH" OPPOSITION AMONG YOUNGER CANADIANS TO MEASURES SUCH AS BANNING CARS FROM CONGESTED DOWNTOWN CORES AND LEVYING PARKING TAXES TO COAX DRIVERS TO LEAVE CARS AT HOME.

BUT RESPONDENTS SAID THEY WOULD FAVOR STEPS SUCH AS A REFUNDABLE DEPOSIT ON FOOD CONTAINERS AND PENALITIES FOR DRIVERS WHOSE CARS SPEW POLLUTION.

ACCORDING TO THE POLLSTER, ENVIRONMENTAL CONCERNS BECAME THE TOP CONCERN OF CANADIANS IN 1988, AND REMAIN THE BIGGEST WORRY OF ABOUT ONE-QUARTER OF THE POPULATION.

THE RESULTS CAUSED A STIR WHEN THEY WERE RELEASED MONDAY TO 1,200 CANADIAN CIVIC LEADERS ATTENDING AN ANNUAL MEETING OF THE FEDERATION OF CANADIAN MUNICIPALITIES.

"THE SURVEY SHOWS THAT PEOPLE WANT TO ACT ON THE ENVIRONMENT, BUT ONLY IN

WAYS THAT DON'T DISCOMFORT THEM," SAID RICHARD GILBERT, CHAIRMAN OF THE FEDERATION'S ENVIRONMENTAL COMMITTEE.

CAIRO (JUNE 5) XINHUA - EGYPT AND QATAR TODAY EXPRESSED THEIR CONTINUED SUPPORT FOR THE PALESTINIAN UPRISING IN THE OCCUPIED ARAB LANDS AGAINST ISRAELI OCCUPATION.

IT URGED THE WORLD COMMUNITY TO SUPPORT THE UPRISING AND TO CALL ON ISRAEL TO HALT ITS VIOLENT AND REPRESSIVE ACTS, WHICH VIOLATE HUMAN RIGHTS AND INTERNATIONAL LAW.

A JOINT COMMUNIQUE ISSUED AT THE END OF A THREE-DAY VISIT BY SHEIKH HAMAD BEN KHALIFAH AL-THANI, QATARI CROWN PRINCE AND MINISTER OF DEFENSE, PRAISED THE ARAB SUMMIT, HELD FROM MAY 28 TO 30 IN BAGHDAD, SAYING THAT IT HAS "PUSHED FORWARD THE ARAB SOLIDARITY TO NEW DOMAINS OF COOPERATION."

EGYPT AND QATAR ALSO LAUDED THE RIGHT POLICY PURSUED BY THE PALESTINE LIBERATION ORGANIZATION AND STRESSED THE NEED TO REACH A JUST AND COMPREHENSIVE SETTLEMENT WHICH COULD ENSURE THE LEGITIMATE RIGHT OF THE PALESTINIAN PEOPLE TO SELF-DETERMINATION.

THE COMMUNIQUE CALLED FOR AN EARLY END TO THE DEADLOCK OF THE IRAQ-IRAN PEACE TALK AND SETTING UP A JUST AND PERMANENT PEACE BETWEEN IRAN AND IRAQ.

THE QATARI CROWN PRINCE AND HIS ACCOMPANYING DELEGATION LEFT CAIRO FOR SYRIA EARLIER TODAY.

LIMA (JUNE 5) XINHUA - PERU'S INTERIOR MINISTER AGUSTIN MANTILLA ANNOUNCED MONDAY AUTHORITIES CAPTURED ON SATURDAY 35 SHINING PATH GUERRILLAS AND DESTROYED THEIR GENERAL HEADQUARTERS AND THE CENTRAL COMMITTEE ARCHIVES IN LIMA.

MANTILLA TOLD REPORTERS THAT ACCESS TO THE HEADQUARTERS OF THE SHINING PATH -- OR SENDERO LUMINOSO -- ENABLED AUTHORITIES TO IDENTIFY HUNDREDS OF SHINING PATH GUERRILLAS, TO SEIZE MAPS AND BOTH AUTHENTIC AND FRAUDULENT ELECTORAL CARDS, AND TO LOCATE OTHER RESIDENCES USED BY THE GUERRILLA MOVEMENT.

ACCORDING TO MANTILLA, THE LOCATION OF THE GROUP'S HEADQUARTERS HAS STRUCK A FATAL BLOW TO THE MOVEMENT'S BRAIN CENTER AND SIGNALS THE BEGINNING OF THE FINAL AND COMPLETE DESTRUCTION OF THE SHINING PATH.

IN ADDITION, SAID MANTILLA, AUTHORITIES SUCCEEDED IN CAPTURING MORE THAN 30 OF THE MOVEMENT'S MEMBERS IN DIFFERENT PARTS OF THE CAPITAL. MOST OF THOSE CAPTURED FORMED PART OF THE MOVEMENT'S PRESS AND PROPAGANDA MACHINE.

DURING THE RAID ON THE HEADQUARTERS, POLICE ALSO CONFISCATED MILITARY MAPS AND PLANS INDICATING MILITARY ACTIONS AND THE ASSASSINATION OF POLITICIANS AND AUTHORITIES IN DIFFERENT PARTS OF THE COUNTRY.

#90156h0091 06/05/1990 ~Chinese News Agency

TOKYO (JUNE 5) XINHUA - THE CAMBODIA PEACE CONFERENCE CONCLUDED HERE TODAY WITH A JOINT COMMUNIQUE SIGNED BY SAMDECH NORODOM SIHANOUK AND HUN SEN.

THE SESSION, ADJOURNED 25 MINUTES AFTER IT STARTED YESTERDAY, WAS RESUMED THIS EVENING. ATTENDING TODAY'S SESSION WERE PRESIDENT OF CAMBODIA SAMDECH NORODOM SIHANOUK, SON SANN, PRIME MINISTER OF THE NATIONAL GOVERNMENT OF CAMBODIA AND HUN SEN, PRIME MINISTER OF THE HANOI-INSTALLED PHNOM PENH REGIME.

KHIEU SAMPHAN, CAMBODIA'S VICE PRESIDENT IN CHARGE OF FOREIGN AFFAIRS, DID NOT ATTEND THE TALKS. HE ISSUED A STATEMENT SAYING THAT THE COMMUNIQUE WAS NOT BINDING ON DEMOCRATIC CAMPUCHEA SIDE.

KHIEU SAMPHAN SAID THAT HE DID NOT ATTEND TODAY'S MEETING BECAUSE HE WAS NOTIFIED THAT THE "FIVE-POINT DOCUMENT", WHICH HAD ALREADY BEEN APPROVED BY THE FOUR PARTIES OF CAMBODIA, WAS TO BE REVISED ON SOME POINTS.

HE ADDED THAT ALL THE AGREEMENTS HAD TO BE SIGNED BY THE FOUR PARTIES OF CAMBODIA BOTH AT THE PARIS INTERNATIONAL CONFERENCE ON CAMBODIA AND AT THE JAKARTA INFORMAL MEETING, BUT THIS TIME HE COUND NOT UNDERSTAND WHY THE COMMUNIQUE MUST BE SIGNED BY THE TWO PARTIES AT THE TOKYO PEACE CONFERENCE.

SUCH A WAY OF SOLVING THE CAMBODIAN PROBLEM IS UNFAIR AND UNREASONABLE, HE SAID. ONLY A COMPREHENSIVE POLITICAL SOLUTION WITH THE FOUR PARTIES OF CAMBODIA PARTICIPATING CAN BRING A FAIR AND DURABLE PEACE TO THE COUNTRY.

THE JOINT COMMUNIQUE SIGNED BY SIHANOUK AND HUN SEN MAINLY INCLUDES CEASEFIRE, ESTABLISHMENT OF A SUPREME COUNCIL AND INTERNATIONAL SUPERVISING MECHANISMS.

IN A PRESS CONFERENCE AFTER THE CONCLUSION OF THE MEETING, SIHANOUK SAID THAT HE SIGNED THE DOCUMENT ON BEHALF OF SON SANN AND PRINCE NORODOM RANARITH.

SIHANOUK SAID THAT THE CAMBODIA PEACE TALKS IN TOKYO WERE NOT VERY SUCCESSFUL BECAUSE THERE REMAIN FOREIGN TROOPS ON THE CAMBODIAN SOIL AND

THE COUNTRY ARE STILL SUFFERING THE AGGRESSION OF EXPANSIONISM AND COLONIALISTS.

CAMBODIA WILL NOT ENJOY TRUE SOVEREIGNTY AND NATIONAL UNITY UNLESS THE DEMOCRATIC KAMPUCHEA SIDE TAKES PART IN A SUPREME COUNCIL, HE SAID.

AS HOST OF THE PEACE TALKS, JAPANESE FOREIGN MINISTER TARO NAKAYAMA TOLD REPORTERS AFTER THE MEETING THAT THE JAPANESE GOVERNMENT HELD THAT THE CAMBODIA PEACE CONFERENCE IN TOKYO HAD YIELDED SOME FRUITS AND THAT THE JOINT COMMUNIQUE SIGNED BY SIHANOUK AND HUN SEN ACHIEVED PROGRESS OVER SOME PROBLEMS.

NAKAYAMA AND THAI DEPUTY PRIME MINISTER GEN. CHAVALIT UNCHAIYUDH ATTENDED TODAY'S MEETING.

NEW DELHI (JUNE 5) XINHUA - INDIAN PRIME MINISTER V.P. SINGH TODAY INDICATED HE FAVORED THE IDEA OF A "NATIONAL GOVERNMENT" FORMED ON THE BASIS OF PROGRAMS RATHER THAN PERSONALIZED POLITICS", ACCORDING TO A REPORT BY PRESS TRUST OF INDIA (PTI) TODAY.

ON BOARD HIS SPECIAL AIRCRAFT AND AT HIS AIRPORT PRESS CONFERENCE ON RETURN FROM KUALA LUMPUR, HE TOLD NEWSMEN THAT HE HAS YET TO DISCUSS THE PROPOSAL WITH EITHER THE JANATA DAL COLLEAGUES OR THE PARTIES SUPPORTING THE GOVERNMENT.

"THE IDEA OF A NATIONAL GOVERNMENT IS A WELCOME STEP, A GOOD MOVE FOR THE COUNTRY, IF IT COULD BE FORMED ON THE BASIS OF ISSUES AND PROGRAMS," THE PRIME MINISTER SAID.

"I HAVE ALWAYS ENDEAVORED TO MOVE AWAY FROM PERSONALIZED POLITICS AND TO STRENGTHEN ISSUE-BASED POLITICS," HE SAID.

ASKED WHO WOULD LEAD SUCH A "NATIONAL GOVERNMENT", THE PRIME MINISTER SAID "IT HARDLY MATTERS."

"HEAVENS WILL NOT FALL IF V.P. SINGH GOES," HE SAID. "SO FAR AS I AM CONCERNED, IT IS MY CHERISHED DESIRE THAT THE COUNTRY SHOULD BE TAKEN AWAY FROM PERSONALIZED POLITICS, FROM THE SHACKLES OF A FEW INDIVIDUALS," HE ADDED.

ASKED IF HE WOULD GO IN FOR A FRESH MANDATE AS DOUBTS HAD BEEN RAISED ABOUT HIS GOVERNMENT'S CREDIBILITY AND STABILITY, V.P. SINGH SAID "WE HAVE COME THROUGH STRUGGLE AND WE WILL NOT FIGHT SHY OF GOING TO THE PEOPLE AGAIN."

THE INDIAN NATIONAL FRONT GOVERNMENT CAME TO POWER LAST DECEMBER AFTER A NATIONAL ELECTION. THE FRONT IS IN MINORITY IN PARLIAMENT BUT IS BEING SUPPORTED BY OTHER PARTIES INCLUDING COMMUNIST PARTY OF INDIA AND COMMUNIST PARTY OF INDIA (MARXIST) FROM LEFT, AND BHARATIYA JANATA PARTY (BJP, OR INDIAN PEOPLE'S PARTY) FROM RIGHT.

#90156h0094 06/05/1990 ~Chinese News Agency

UNITED NATIONS (JUNE 5) XINHUA - A U.N. REPORT ON WORLD CHILDREN AND THE ENVIRONMENT TODAY SAYS THE WORLD ENVIRONMENTAL DEGRADATION IS KILLING CHILDREN AND CALLS ON THE INTERNATIONAL COMMUNITY TO PASS ON A BETTER WORLD TO THEIR DESCENDENTS.

THE REPORT, ISSUED JOINTLY BY THE U.N. CHILDREN'S FUND (UNICEF) AND THE U.N. ENVIRONMENT PROGRAM (UNEP), SAYS MILLIONS OF CHILDREN ARE DYING EACH YEAR FROM THE HEALTH AND SOCIAL EFFECTS OF CHEMICAL POISONS, AIR AND WATER POLLUTANTS AND OTHER FORMS OF ENVIRONMENTAL DEGRADATION.

THE REPORT, PART OF THE U.N. ACTIVITIES IN OBSERVANCE OF THE WORLD ENVIRONMENT DAY TODAY, SAYS 14 MILLION CHILDREN UNDER THE AGE OF FIVE DIE EVERY YEAR IN DEVELOPING NATIONS AS A RESULT OF A NUMBER OF ENVIRONMENTAL HAZARDS, SUCH AS POLLUTION, OR PROBLEMS RELATED TO THE ENVIRONMENT, LIKE MALNUTRITION AND DISEASES INCLUDING DIARRHEA AND MEASLES.

THE REPORT ATTRIBUTES "THIS TREMENDOUS ANNUAL CARNAGE" TO SOCIETY'S DETRIMENTAL USE OF THE ENVIRONMENT AND CALLS FOR A NEW ATTITUDE WHICH ACCEPTS THAT FUTURE GENERATIONS HAVE AN EQUAL CLAIM WITH THE CURRENT GENERATION TO INHABIT A LIVABLE EARTH.

ACCORDING TO THE REPORT, EVERY YEAR, AN ESTIMATED 6 MILLION HECTARES OF LAND, AN AREA LARGER THAN EL SALVADOR, ARE IRRETRIEVABLY TURNED INTO DESERT AND ANOTHER 21 MILLION HECTARES ARE SO DEGRADED THAT FARMING BECOMES ALMOST IMPOSSIBLE.

AS A RESULT, THE REPORT SAYS, THE ADVANCE OF DESERTIFICATION HAS LED TO SHARPLY REDUCED FOOD PRODUCTION AND INCREASES IN MALNUTRITION AMONG CHILDREN, WHOSE NEED FOR NOURISHMENT PROPORTIONATELY OUTSTRIPS THAT OF ADULTS.

THE REPORT LISTS A NUMBER OF CASES WHICH SHOWED THE SERIOUSNESS OF EFFECT ON CHILDREN DUE TO THE DEGRADING ENVIRONMENT.

IT SAYS A COMMON ENVIRONMENTAL HAZARD IN MUCH OF THE DEVELOPING WORLD, LACK OF SANITARY FACILITIES AND SAFE DRINKING WATER, IS A MAJOR CAUSE OF DIARRHEA, THE BIGGEST SINGLE KILLER OF CHILDREN. THE DISEASE IS RESPONSIBLE FOR ABOUT 4 MILLION DEATHS OF CHILDREN ANNUALLY UNDER THE AGE OF FIVE.

IT NOTES THAT DURING THE SEVERE INCIDENTS OF SMOG IN LONDON IN 1952, THE DEATH RATE FOR CHILDREN UNDER ONE YEAR OLD DOUBLED WHILE IN A JANUARY 1985 SPELL THAT AFFECTED MUCH OF WESTERN EUROPE, PULMONARY PROBLEMS IN CHILDREN ROSE SHARPLY AND PERSISTED FOR MORE THAN TWO WEEKS AFTER THE AIR CLEARED.

FACING SUCH A THREAT TO THE VERY SURVIVAL OF MANKIND, THE REPORT POINTS OUT, BETTER MANAGEMENT OF THE ENVIRONMENT, ALONG WITH SPECIFIC HEALTH MEASURES, CAN SAVE 10 MILLION OF THE 14 MILLION LIVES OF CHILDREN NOW AT RISK.

IT SAYS THAT IF THE POLITICAL WILL OF THE INTERNATIONAL COMMUNITY IS MARSHALED, SUCH A GOAL IS ACHIEVABLE SINCE THE TECHNOLOGY TO PREVENT THESE DEATHS IS LARGELY IN PLACE.

IT URGES THE INTERNATIONAL COMMUNITY TO KEEP CHILDREN AS THE FOCUS OF THE EFFORTS TO PROTECT THE ENVIRONMENT. "IF THIS GENERATION CANNOT MEET ITS OWN CHILDREN'S NEEDS -- NOT LEAST THE NEED FOR A HEALTHY, NURTURING ENVIRONMENT -- THEN THERE IS LITTLE CHANCE OF OUR TAKING ACTION TO MEET THE NEEDS OF GENERATIONS YET TO COME," IT SAYS.

NEW DELHI (JUNE 5) XINHUA - INDIA IS AWAITING PAKISTAN'S RESPONSE TO ITS INITIATIVE TO DEFUSE TENSION ON THE BORDER, PRIME MINISTER V.P. SINGH SAID TODAY ON BOARD A SPECIAL AIRCRAFT RETURNING FROM MALAYSIA.

SINGH TOLD NEWSMEN THAT PAKISTAN HAD SOUGHT A WEEK TO 10 DAYS' TIME TO RESPOND TO INDIA'S INITIATIVE.

TO NEWSMEN WHO REPEATEDLY ASKED HIM ABOUT THE PROPOSALS PUT FORWARD BY INDIA, V.P. SINGH'S SUGGESTION WAS "WAIT".

ASKED HOW SERIOUS WAS THE THREAT FROM PAKISTAN, SINGH SAID IT WAS FOR PAKISTAN TO MAKE UP ITS MIND.

IT WAS REPORTED EARLIER THAT THE INDIAN GOVERNMENT HAD SENT TO THE PAKISTAN HIGH COMMISSION IN NEW DELHI RECENTLY A LETTER CONTAINING A FEW PROPOSALS TO EASE THE TENSION OVER KASHMIR ISSUE.

ONE OF THE PROPOSALS IS THAT LOCAL COMMANDERS ACROSS THE BORDERS OF THE TWO COUNTRIES SHOULD REMAIN IN TOUCH WITH EACH OTHER TO AVOID ANY CASUAL CLASH.

ANOTHER PROPOSAL IN THE LETTER SAYS THAT TROOPS OF THE TWO COUNTRIES SHOULD GO BACK TO PREVIOUS POSITIONS.

INDIA SAID IT HAS WITHDRAWN UNILATERALLY ONE ARMORED DIVISION FROM PUNJAB BORDER WITH PAKISTAN IN ORDER TO EASE THE TENSION, A PRESS TRUST OF INDIA (PTI) REPORT SAID.

DHAKA (JUNE 5) XINHUA - THE WORLD ENVIRONMENT DAY IS OBSERVED HERE TODAY WITH A CALL FROM PRESIDENT H.M. ERSHAD FOR A GLOBAL CONSENSUS ON CONCERTED EFFORTS OF WHOLE HUMANITY TO DEAL WITH THE PROBLEM OF ENVIRONMENTAL POLLUTION.

IN A MESSAGE ON THE EVE OF THE WORLD ENVIRONMENT DAY, PRESIDENT H.M. ERSHAD SAID THE PROPENSITY OF NATURAL CALAMITIES LIKE DROUGHT, FLOOD, TIDAL BORE, EARTHQUAKE AND CYCLONE IS ALARMINGLY ON THE RISE. MANKIND NOW FACES THE DANGEROUS POSSIBILITY OF LOW-LYING AREAS OF THE WORLD BEING GRADUALLY SUBMERGED BY SWELLING SEAS.

NOTING THAT THE EFFECTS OF THE HOSTILE ENVIRONMENT DO NOT LIMIT ITSELF TO A PARTICULAR GEOGRAPHICAL AREA OR POLITICAL BOUNDARY, THE BANGLADESH PRESIDENT REITERATED THE NEED FOR A GLOBAL CONVENTION ON ENVIRONMENT TO CHART A COORDINATED PROGRAM OF ACTION TO COMBAT THE MENACE OF ENVIRONMENT POLLUTION.

INAUGURATING A PAINTING AND PHOTOGRAPHIC EXHIBITION ORGANIZED IN CONNECTION WITH THE WORLD ENVIRONMENT DAY, THE FIRST LADY BEGUM RAUSHAN ERSHAD CALLED FOR CONSCIOUS AND CONCERTED EFFORTS OF ALL TO MAINTAIN POLLUTION-FREE ENVIRONMENT AND ECOLOGICAL BALANCE.

IN OBSERVANCE OF THE DAY WITH "CHILDREN AND ENVIRONMENT" AS THIS YEAR'S THEME, THE DEPARTMENT OF ENVIRONMENT POLLUTION CONTROL, FORUM OF ENVIRONMENT JOURNALISTS AND UNITED NATIONS INFORMATION CENTER HELD A SEMINAR HERE TODAY.

SPEAKING AT THE SEMINAR, PRIME MINISTER K.Z. AHMED SAID THE PROTECTION OF ENVIRONMENT FROM POLLUTION AND GRADUAL DEGRADATION HAS NOW BECOME A GLOBAL PROBLEM.

ON THE DAY, THE LATEST OF "GLOBAL 500" AWARDS TO INDIVIDUALS AND ORGANIZATIONS FOR THEIR SIGNIFICANT CONTRIBUTIONS TO PRESERVING AND IMPROVING THE ENVIRONMENT AT LOCAL, NATIONAL AND GLOBAL LEVEL WILL BE ANNOUNCED.

PRESIDENT ERSHAD RECEIVED THE AWARD FROM THE UNITED NATIONS ENVIRONMENT PROGRAM EXECUTIVE DIRECTOR M.K. TOLBA DURING HIS RECENT VISIT TO BANGLADESH.

LAGOS (JUNE 5) XINHUA - THE UNITED NATIONS CHILDREN'S FUND (UNICEF) WARNED MONDAY THAT THE DEVELOPING COUNTRIES MAY LOSE UP TO 65 PERCENT OF RAIN-FED LAND AND FACE THE CONSEQUENT WORSENING OF THE FOOD CRISIS BY THE YEAR 2100.

UNICEF REPRESENTATIVE IN NIGERIA REVELIANS TULUHUNGWA GAVE THE WARNING HERE YESTERDAY ON THE EVE OF WORLD ENVIRONMENT DAY.

HE CALLED ON DEVELOPING NATIONS TO TAKE ACTION IMMEDIATELY TO AVERT THE DISASTER.

MR. TULUHUNGWA SAID POOR AND AFFLUENT PEOPLE HAVE CONTRIBUTED TO ENVIRONMENTAL DEGRADATION AS A MATTER OF NECESSITY AND THROUGH GREEDY CONSUMPTION PATTERNS.

POOR PEOPLE POLLUTE THE ENVIRONMENT THROUGH FOREST DESTRUCTION, OVER-GRAZING AND OVER-FARMING AS A MATTER OF NECESSITY, WHILE THE WASTE PRODUCTS OF THE CONSUMPTION STYLE OF THE AFFLUENT LEAD TO ENVIRONMENTAL DEGRADATION, HE SAID.

YANGON (JUNE 5) XINHUA - A CHINESE Y-12 AIRCRAFT WITH AN EIGHT-MEMBER FLIGHT CREW FLEW IN HERE TODAY FOR A THREE-DAY DEMONSTRATION FLIGHT IN MYANMAR.

THE DEMONSTRATION FLIGHT OF Y-12 WILL BE CO-SPONSORED BY MYANMAR'S INSPECTION AND AGENCY SERVICES, THE AIRTRUST PTE LIMITED OF SINGAPORE AND THE CHINA NATIONAL AERO-TECHNOLOGY IMPORT AND EXPORT CORPORATION.

A CHINESE TRADE GROUP LED BY WANG DAWEI, VICE-PRESIDENT OF THE CHINA NATIONAL AERO-TECHNOLOGY IMPORT AND EXPORT CORPORATION, ARRIVED HERE EARLIER. THE GROUP CAME HERE TO PROMOTE SALES OF THIS KIND OF AIRCRAFT.

TODAY, U TIN OHN, DIRECTOR-GENERAL OF MYANMAR'S DIRECTORATE OF CIVIL AVIATION, U CHIT THAN, MANAGING DIRECTOR OF MYANMAR AIRWAYS, AND U TINT WAI AYE, MANAGING DIRECTOR OF MYANMAR'S INSPECTION AND AGENCY SERVICES, MET WITH THE CHINESE TRADE GROUP RESPECTIVELY.

THE DEMONSTRATION FLIGHT WILL BE HELD ON THURSDAY, JUNE 7, AT YANGON INTERNATIONAL AIRPORT. THOSE INVITED TO BE PRESENT WILL INSPECT THE Y-12 AIRCRAFT AND WATCH THE DEMONSTRATION OF ITS TECHNICAL PERFORMANCE IN FLIGHT.

THE DEMONSTRATION FLIGHT BY MYANMAR PILOTS WILL BE HELD IN YANGON ON FRIDAY AND AT PAGAN/NYAUNG U AIRPORT IN MANDALAY DIVISION, UPPER MYANMAR, ON SATURDAY.

#90156h0107 06/05/1990 ~Chinese News Agency

WINDHOEK (JUNE 5) XINHUA - NAMIBIA IS TO HOLD A NATIONAL CONFERENCE ON THE LAND QUESTION, THE MOST BURNING ISSUE FOR THE NEWLY-INDEPENDENT COUNTRY.

PRESS REPORTS HERE TODAY QUOTED MINISTER OF LANDS, RESETTLEMENT AND REHABILITATION MARCO HAUSIKU AS SAYING THAT HIS MINISTRY IS TO ARRANGE THE PROPOSED CONFERENCE.

IN THE DEBATE AT THE NATIONAL ASSEMBLY LAST WEEK, MR. MOSES KATJIUONGUA OF THE NATIONAL PATRIOT FRONT PROPOSED IN A MOTION THAT THE GOVERNMENT CONVENE A NATIONAL CONFERENCE ON THE LAND QUESTION AND LAND REFORM WITHIN THE NEXT THREE MONTHS.

PRIME MINISTER HAGE GEINGOB SAID THAT THE LAND QUESTION IS CENTRAL TO THE STRUGGLE FOR ECONOMIC INDEPENDENCE.

MR. DIRK MUDGE OF THE DEMOCRATIC TURNHALLE ALLIANCE SAID THAT THE IMBALANCE OF THE PAST HAD TO BE CORRECTED.

NAMIBIA ACHIEVED INDEPENDENCE FROM SOUTH AFRICAN RULE LAST MARCH. UNDER THE "BANTUSTAN" SYSTEM CREATED BY SOUTH AFRICA, OVER 85 PERCENT OF THE COUNTRY'S POPULATION WERE FORCED TO SETTLE ON LESS THAN 40 PERCENT OF THE POOREST LAND IN THE 10 ETHNICALLY SEGREGATED HOMELANDS, WHILE THE "WHITE"

AREAS CONTAIN 98 PERCENT OF THE COUNTRY'S ARABLE LAND.

-30- 1305

#90156h0108 06/05/1990 ~Chinese News Agency

NEW DELHI (JUNE 5) XINHUA - INDIAN OFFICIALS AND EXPERTS FEEL THAT POPULATION EXPLOSION IS THE MOST IMPORTANT SINGLE REASON FOR INDIA'S ENVIRONMENTAL PROBLEMS.

SPEAKING AT A MEETING ON THE WORLD ENVIRONMENT DAY HERE TODAY, MRS MANEKA GANDHI, THE UNION MINISTER OF STATE FOR ENVIRONMENT, SAID THAT "ITS A VICIOUS CIRCLE WHERE POPULATION LEADS TO ENVIRONMENTAL WOES, AND ECOLOGICAL HAZARDS CREATE ANOTHER SET OF PROBLEMS."

"YET, THERE IS NO MAGIC FORMULA TO WISH IT AWAY," SAYS MRS GANDHI. MR VOHRA, AN ENERGY EXPERT, SAID AT THE MEETING THAT WITH A HIGH GROWTH RATE OF 2.3 PERCENT, INDIA WOULD BECOME THE WORLD'S MOST POPULOUS AND POOREST COUNTRY WITH 1.7 BILLION MOUTHS TO FEED BY THE MIDDLE OF THE NEXT CENTURY.

HE SAID IN INDIA ONE-THIRD OF THE COUNTRY'S TOTAL LANDMASS IS ON THE VERGE OF BECOMING A DESERT. DESPITE EXTRAORDINARY PRODUCTION CAPACITY, IT IS DIFFICULT TO MEET THE NEED OF THE FAST GROWING POPULATION. ACCORDING TO AN ESTIMATE, FOODGRAINS PRODUCTION MUST GROW FROM 170 MILLION TONS TO OVER 230 MILLION TONS IN NEXT 10 YEARS TO FEED THE FAST-GROWING POPULATION.

ACCORDING TO DR M.K. RANJITSING, ADDITIONAL SECRETARY IN THE MINISTRY OF ENVIRONMENT AND FORESTS, A COMPREHENSIVE PACKAGE OF STEPS AT THE GRASSROOT LEVEL IS NEEDED TO COMBAT THE DISTURBING ENVIRONMENTAL TRENDS.

THE STEPS INCLUDE THE FORMATION OF A CHAIN OF "PEOPLE'S ACTION GROUPS" ALL OVER THE COUNTRY TO ACT AS "VOLUNTARY GUARDIANS" OF THE ENVIRONMENT AND TO EDUCATE PEOPLE ABOUT THE FAR-REACHING CONSEQUENCES OF ENVIRONMENTAL OVER-EXPLOITATION.

#90156h0109 06/05/1990 ~Chinese News Agency

MANILA (JUNE 5) XINHUA - A MOVE IN THE PHILIPPINE SENATE TO BLOCK THE PASSAGE OF A MEASURE INCREASING TAXES ON BEER, LIQUOR AND CIGARETTES WAS DEFEATED TODAY.

THE MOVE, LED BY SENATOR ORLANDO MERCADO, CHAIRMAN OF THE SENATE TRADE AND COMMERCE COMMITTEE, AND OPPOSITION SENATOR JUAN PONCE ENRILE, FAILED TO MUSTER ENOUGH SUPPORT IN THE SENATE.

THE COMMITTEE ON WAYS AND MEANS PUSHED THROUGH WITH ITS PLAN TO PRESENT THE PROPOSED TAX INCREASE ON THE SENATE FLOOR FOR FORMAL DEBATE, WINNING THE FIRST ROUND OVER MERCADO'S RECOMMENDATION FOR THE SENATE TO REJECT THE

PROPOSED TAX MEASURE.

THE TRADE AND COMMERCE COMMITTEE MONDAY INSISTED ON HOLDING A PUBLIC HEARING ON THE PROPOSED MEASURE TO GAUGE ITS EFFECTS ON BUSINESSES AND CONSUMERS.

APPROVAL OF THE MEASURE WAS ENDORSED BY PRESIDENT AQUINO, IN AN AGREEMENT WITH SENATE PRESIDENT JOVITO SALONGA LAST WEEK FOR THE SENATE TO GIVE PRIORITY TO THE TAX INCREASE IN EXCHANGE FOR PRESIDENT AQUINO'S TEMPORARY SHELVING OF HER BID TO HAVE HER EMERGENCY POWERS EXTENDED BEYOND ITS EXPIRATION THIS FRIDAY.

ONLY THREE SENATORS, MERCADO, ENRILE AND JOSEPH ESTRADA, SIGNED A REPORT SUBMITTED BY THE COMMITTEE ON TRADE AND COMMERCE RECOMMENDING THE DISAPPROVAL OF THE PROPOSED TAX MEASURE.

THE TAX MEASURE IS EXPECTED TO GENERATE A TOTAL OF 4.4 BILLION PESOS (200 MILLION U.S. DOLLARS) EVERY YEAR BY INCREASING TAXES ON THE VALUE OF BEER, LIQUOR AND CIGARETS.

THE HOSUE OF REPRESENTATIVES HAS PASSED THE MEASURE. MERCADO SAID, "THIS WILL HAVE A RIPPLE EFFECT ON THE ECONOMY." HE CRITICIZED THE GOVERNMENT FOR PASSING THE BURDEN OF THE BUDGET DEFICIT ON CONSUMERS. HE CALLED FOR REDUCING THE GOVERNMENT EXPENSES.

SENATE MAJORITY FLOOR LEADER TEOTISTO GUINGONA DEFENDED THE MEASURE. "THIS IS NO ORDINARY BILL. THIS HAS BEEN CERTIFIED AS URGENT BY THE PRESIDENT," HE SAID.

#90156h0110 06/05/1990 ~Chinese News Agency

MONROVIA (JUNE 5) XINHUA - THE LIBERIAN GOVERNMENT HAS ASKED CITIZENS AND RESIDENTS IN THE CAPITAL CITY OF MONROVIA TO IGNORE ANONYMOUS LETTERS WHICH IT SAID WERE WRITTEN BY CERTAIN INDIVIDUALS TO CREATE CHAOS.

IN A STATEMENT ISSUED BY THE MINISTRY OF INFORMATION HERE TODAY, THE GOVERNMENT NOTED THAT UNSCRUPULOUS AUTHORS ARE USING THE ANONYMOUS LETTERS AS A CALCULATED MANUEVRE TO MAKE THE CTIZENS AND RESIDENTS FLEE THEIR HOMES SO THAT THEY CAN TAKE ADVANTAGE OF IT TO CONDUCT CRIMINAL ACTS.

THE STATEMENT ADVISED THOSE WHO RECIEVED THE LETTERS NOT TO ABANDON THEIR HOMES AND BECOME VULNERABLE TO THEFTS.

THE STATEMENT STERNLY WARNED THAT THE WRITERS OF SUCH LETTERS WILL FACE THE FULL WEIGHT OF THE LAW, IF THEY ARE CAUGHT IN THIS PRACTICE.

IT IS REPORTED THAT SOME CITIZENS LIVING IN MONROVIA HAVE TO MOVE FROM

PLACE TO PLACE DUE TO HARASSMENT OF UNKNOWN ARMED MEN AND MANY HAVE FLED THE COUNTRY FOR FEAR OF REBEL ATTACKS.

#90156h0114 06/05/1990 ~Chinese News Agency

BRAZILIA (JUNE 5) XINHUA - BRAZIL'S ECONOMY MINISTER, ZELIA CARDOSO DE MELLO, SAID MONDAY THAT AFTER TWO AND A HALF MONTHS THE ECONOMIC STABILIZATION PLAN HAS "FULLY MET ITS MAIN OBJECTIVES."

DURING A PRESS CONFERENCE, CARDOSO PRESENTED GRAPHS AND CHARTS SHOWING AN ABSOLUTE DROP IN INFLATION RATES MEASURED BY ALL INSTITUTES INVOLVED IN RESEARCHING PRICES. BRAZIL'S RUNAWAY INFLATION RATE HAD BEEN LABELED BY PRESIDENT FERNANDO COLLOR DE MELLO AS HIS ADMINISTRATION'S "ENEMY NUMBER ONE."

ACCORDING TO CORDOSO, THE NATIONAL TREASURY REGISTERED FROM MARCH TO MAY A SURPLUS OF 317.3 BILLION CRUZEIROS (88 CRUZEIROS TO THE DOLLAR, ACCORDING TO THE PARALEL EXCHANGE RATE), AGAINST A DEFICIT OF 24.5 BILLION CRUZEIROS REGISTERED IN THE FIRST TWO MONTHS OF THE YEAR. CARDOSO SAID THAT THE NATIONAL TREASURY SURPLUS REGISTERED BETWEEN MARCH AND MAY WAS A DIRECT RESULT OF THE GOVERNMENT'S SUCCESS AT CUTTING COSTS AND COMBATTING INFLATION.

CARDOSO WENT ON TO CITE OTHER FIGURES TO BACK UP HER ASSESSMENT OF THE PLAN'S COMPLETE SUCCESS. THE FINANCIAL MARKET IS CURRENTLY STABLE, INDICATING THE CONFIDENCE OF ECONOMIC AGENTS IN THE STABILIZATION PLAN. THE TRADE BALANCE HAS SURPASSED THE STAGE OF EVER DECREASING SURPLUSES, REGISTERED UPTIL MARCH.

CARDOSO SAID THAT ALL OF THESE ECONOMIC INDICATORS SHOWED THAT THE PLAN WAS SUCCESSFUL AND THAT THE GOVERNMENT HAS THE ECONOMY UNDER CONTROL. ACCORDING TO CARDOSO, THE GOVERNMENT MUST NOW DEDICATE ALL OF ITS EFFORTS TO THE RECOVERY OF ECONOMIC GROWTH IN ORDER TO SOLVE THE NATION'S PROBLEMS OF SOCIAL AND ECONOMIC INEQUALITY.

HAVANA (JUNE 5) XINHUA - THE EIGHTH MEETING OF THE JOINT COMMISSION ON SOUTHWEST AFRICA MONDAY REITERATED ITS COMMITTMENT TO CONTRIBUTING TO PEACE AND SECURITY IN ANGOLA.

IN A PRESS RELEASE ISSUED AFTER THE MEETING ENDED LATE MONDAY, THE COMMISSION SAID THAT DURING DELIBERATIONS "AN EXCHANGE OF CRITERIA AND POINTS OF VIEW WERE MAINTAINED REGARDING THE DECLARATIONS OF THE ANGOLAN DELEGATION ON THE CONTINUATION OF INTERFERENCE IN ITS INTERNAL AFFAIRS."

IN THIS RESPECT, THE RELEASE ADDS, "ALL PARTIES AGREED ON THE UNDERSTANDING THAT PEACE AND SECURITY IN THE PEOPLE'S REPUBLIC OF ANGOLA CONSTITUTE A DESIRE CONTAINED IN THE PRINCIPLES OF THE NEW YORK (ACCORD) AND REITERATED THEIR COMMITTMENT TO CONTRIBUTING TO THIS OBJECTIVE."

DURING THE MEETING, ACCORDING TO THE RELEASE, THE CUBAN DELEGATION REPORTED ON THE PROGRESS OF THE WITHDRAWAL OF ITS TROOPS FROM ANGOLA IN COMPLIANCE WITH A CUBAN-ANGOLAN BILATERAL AGREEMENT. ALSO, THE REPUBLIC OF NAMIBIA'S ADMISSION INTO THE JOINT COMMISSION AS A FULL MEMBER WAS FORMALIZED.

THE JOINT COMMISSION DECIDED MONDAY TO HOLD ITS FOLLOWING ORDINARY SESSION IN SEPTEMBER IN WINDHOEK, CAPITAL OF NAMIBIA.

THE MEETING BROUGHT TOGETHER DELEGATIONS FROM ANGOLA, CUBA AND SOUTH AFRICA -- ALL SIGNATORIES OF THE NEW YORK AGREEMENT SIGNED IN DECEMBER OF 1988 -- AS WELL AS FROM NAMIBIA AND REPRESENTATIVES WITH OBSERVER STATUS FROM THE UNITED STATES AND THE SOVIET UNION.

SINCE ITS INCEPTION ON JANUARY 24, 1989, THE JOINT COMMISSION ON SOUTHWEST AFRICA, WHICH MONDAY WENT FROM BEING A TRIPARTITE GROUP TO A FOUR-MEMBER ORGANIZATION WITH THE INCLUSION OF NAMIBIA, AIMS TO ENSURE COMPLIANCE WITH AGREEMENTS SIGNED BETWEEN ANGOLA, CUBA AND SOUTH AFRICA DECEMBER 22, 1988 AT THE UNITED NATIONS HEADQUARTERS IN NEW YORK.

ON THAT SAME DAY, CUBA AND ANGOLA SIGNED AN AGREEMENT ON THE WITHDRAWAL OF CUBAN TROOPS FROM ANGOLA.

#90156h0116 06/05/1990 ~Chinese News Agency
UNITED NATIONS (JUNE 5) XINHUA - CHINA TODAY TOLD THE UNITED NATIONS THAT ITS SATELLITE APPLICATIONS IN COMMUNICATIONS, METEOROLOGICAL FORCAST AND RESOURCES SURVEY HAVE BEEN VERY SUCCESSFUL AND IT IS NOW DEVELOPING A DISASTER MONITORING SATELLITE SYSTEM DESIGNED TO REDUCE NATURAL DISASTERS.

ADDRESSING THE 33RD SESSION OF THE U.N. COMMITTEE ON THE PEACEFUL USES OF OUTER SPACE, CHINESE REPRESENTATIVE TANG CHENGYUAN SAID THAT CHINA "ATTACHES IMPORTANCE TO THE DEVELOPMENT OF VARIOUS KINDS OF OPERATIONAL SATELLITES" THAT COULD BE USED FOR HUMAN DEVELOPMENT.

HE SAID THAT OVER THE PAST 20 YEARS, CHINA HAS SUCCESSFULLY LAUNCHED 26 SATELLITES, INCLUDING SATELLITES FOR SCIENTIFIC EXPERIMENT, RECOVERABLE REMOTE-SENSING SATELLITES, COMMUNICATIONS SATELLITES AND METEOROLOGICAL SATELLITES.

HE SAID THAT WITH THE GUIDELINE OF PEACEFUL USE OF OUTER SPACE, CHINA HAS BEEN CONTINUOUSLY MAKING HEADWAY IN THIS FIELD.

AMONG A NUMBER OF ACHIEVEMENTS CHINA HAS MADE OVER THE LAST 20 YEARS SINCE THE LAUNCH OF ITS FIRST MAN-MADE EARTH SATELLITE, HE PARTICULARLY MENTIONED CHINS'S SUCCESS IN DEVELOPING COMMUNICATIONS NETWORK THROUGH SATELLITES.

ACCORDING TO THE CHINESE DELEGATE, TODAY CHINA IS FULLY COVERED WITH A SATELLITE COMMUNICATIONS NETWORK MADE OF OPERATIONAL COMMUNCATIONS SATELLITES LAUNCHED BY THE COUNTRY ITSELF.

NEARLY 10,000 SATELLITE GROUND RECEIVING STATIONS HAVE BEEN SET UP AND SMALL-SCALE DATA GROUND STATIONS ARE USED TO IMPROVE THE COMMUNICATIONS AND EDUCATION IN REMOTE AREAS, AS WELL AS TO ENHANCE THE COMMUNICATIONS CAPABILITY TO MEET CONTINGENCY WHEREVER DISASTERS OCCUR.

TANG TOLD THE COMMITTEE, WHICH OPENED ITS ANNUAL MEETING YESTERDAY, THAT NOTABLE SUCCESSES HAVE BEEN REGISTERED IN CHINA IN SATELLITE REMOTE-SENSING APPLICATIONS, INCLUDING SUCH AREAS AS COMPREHENSIVE SURVEY OF SHELTER-FOREST RESOURCES AND ECOLOGICAL EFFECTIVENESS, GENERAL SURVEY OF SOIL EROSION IN LOESS PLATEAU AND SURVEY OF GEOLOGICAL MINERAL RESOURCES.

CHINA ALSO MADE PROGRESS IN ITS METEOROLOGICAL SATELLITE OPERATIONAL SYSTEM, WHICH CAN NOW OBTAIN CLEAR PICTURES OF CLOUDS THROUGH HANDLING THE DATA RECEIVED BY THE FIRST CHINESE METEOROLOGICAL SATELLITE LAUNCHED IN 1988, TANG SAID.

HE SAID THAT IN ANSWER TO THE U.N. GENERAL ASSEMBLY'S CALL TO OBSERVE THE 1990S AS THE INTERNATIONAL DECADE OF NATURAL DISASTER REDUCTION, CHINA IS

NOW CONDUCTING AN ACTIVE RESEARCH IN DEVELOPING A DISASTER MONITORING SATELLITE SYSTEM.

FURTHERMORE, HE SAID, CHINA IS ALSO INTENSIFYING ITS WORK IN DEVELOPING A NEW GENERATION COMMUNICATIONS BROADCASTING SATELLITE WITH A CAPACITY OF 24 TRANSPONDERS, STATIONARY METEOROLOGICAL SATELLITES AND EARTH RESOURCES SATELLITES.

AS PART OF ITS EFFORTS TO PROMOTE PEACEFUL USE OF OUTER SPACE, TANG SAID, CHINA ORGANIZED A WORKSHOP ON THE APPLICATION OF METEOROLOGICAL SATELLITES IN BEIJING LAST MAY AND WILL HOST AN INTERNATIONAL SEMINAR ON CLIMATE CHANGE IN AUGUST AND ANOTHER ON THE APPLICATION OF SPACE TECHNOLOGY IN COMBATTING DISASTERS NEXT YEAR.

MONROVIA (JUNE 5) XINHUA - MORE THAN 2,000 PEOPLE HAVE BECOME JOBLESS AS A RESULT OF THE TEMPORARY ABANDONMENT OF THE EUROPEAN ECONOMIC COMMUNITY'S SOUTHEASTERN LIBERIAN RURAL DEVELOPMENT PROJECT.

A LOCAL PAPER REPORTED TODAY THE DECISION TO ABANDON THE PROJECT WAS TAKEN IN THE WAKE OF THE DETERIORATING SECURITY SITUATION IN THE COUNTRY. THE EEC BOOKER RATE MANAGEMENT TEAM LEFT THE WEST AFRICAN COUNTRY SOMETIME AGO.

THE RURAL DEVELOPMENT PROJECT WAS LAUNCHED IN 1984 TO TEACH LIBERIAN FARMERS CONVENTIONAL FARMING TECHNIQUES.

SINCE THEN FARMERS IN THE REGION, PARTICULARLY IN GRAND DEDEH COUNTY, HAVE BENEFITED FROM SWAMP FARMING, AND CASH AND TREE CROPS PROGRAMS.

EARLIER, THE EUROPEAN ECONOMIC COMMUNITY URGED ALL ITS CITIZENS TO LEAVE LIBERIA AS ANTI-GOVERNMENT FORCES ARE INTENSIFYING THEIR OFFENSIVES AGAINST GOVERNMENT TROOPS OF PRESIDENT SAMUEL DOE.

#90156h0122 06/05/1990 ~Chinese News Agency

CAIRO (JUNE 5) XINHUA - THE REVENUE OF THE SUEZ CANAL IS EXPECTED TO REACH 1.5 BILLION U.S. DOLLARS THIS YEAR, SAID THE EGYPTIAN SUEZ CANAL AUTHORITY CHAIRMAN ENGINEER MOHAMED EZZAT ADEL. THIS FIGURE IS CALCULATED IN ACCORDANCE WITH THE STATISTICS OF THE FIRST FIVE MONTHS OF 1990.

ADEL MADE THIS STATEMENT TO THE MIDDLE EAST NEWS AGENCY TODAY ON THE OCCASION OF THE 15TH ANNIVERSARY OF THE REOPENING OF THE SUEZ CANAL TO NAVIGATION.

THE REVENUE OF THE SUEZ CANAL HAS INCREASED YEAR AFTER YEAR, SINCE THE

BEGINNING OF 1980 DUE TO DEVELOPMENT PROJECTS THAT MADE IT POSSIBLE TO ACCOMMODATE SUPER TANKS.

THE SUEZ CANAL IS AN IMPORTANT SOURCE OF EGYPT'S HARD CURRENOY. AND A PRINCIPAL FINANCIAL SOURCE FOR EGYPTIAN DEVELOPMENT PLANS.

OFFICIAL STATISTICS INDICATE THAT THE ANNUAL SUEZ CANAL REVENUE INCREASED FROM 356 MILLION DOLLARS IN 1976 TO 900 MILLION DOLLARS IN 1981. LAST YEAR IT AMOUNTED TO 1.38 BILLION DOLLARS.

DURING THE FIRST FOUR MONTHS OF THIS YEAR, 5.825 SHIPS WITH CARGOES OF 125 MILLION TONS PASSED THE CANAL, WHICH REPRESENTED AN INCREASE OF 16 MILLION TONS IN CARGO AS COMPARED WITH THE SAME PERIOD OF LAST YEAR.

TRANSIT FEES COLLECTED IN THE FOUR MONTHS AMOUNTED TO 510 MILLION DOLLARS, AN INCREASE OF 55 MILLION AS COMPARED WITH THE SAME PERIOD OF LAST YEAR.

#90156h0123 06/05/1990 ~Chinese News Agency

ADDIS ABABA (JUNE 5) XINHUA - ETHIOPIA TODAY AGREED TO TRANSPORTING RELIEF SUPPLIES TO FAMINE-STRICKEN AREAS IN THE NORTH OF THE COUNTRY VIA REBEL-CONTROLLED RED SEA PORT OF MASSAWA.

THE ETHIOPIAN FOREIGN MINISTRY SAID IN A STATEMENT THAT THE GOVERNMENT IS READY TO DISCUSS THE MODALITIES WITH DONORS AND OTHER PARTIES CONCERNED ON THE USE OF THE PORT.

THE STATEMENT CAME AS A RESPONSE TO THE AGREEMENT REACHED AT THE JUST-ENDED SOVIET-U.S. SUMMIT ON SPEEDING UP THE DELIVERY OF RELIEF FOOD TO NORTHERN ETHIOPIA AND ON REVIVING THE PEACE TALKS BETWEEN THE ETHIOPIAN GOVERNMENT AND REBELS IN ERITREA REGION.

THE GOVERNMENT EARLIER REJECTED THE IDEA OF DONOR COUNTRIES TO USE MASSAWA AS THE ENTRY PORT OF THEIR RELIEF ASSISTANCE. THE PORT WAS CAPTURED BY ERITREAN SECESSIONIST REBELS IN FEBRUARY AND SINCE THEN RELIEF OPERATIONS HAVE BEEN CARRIED OUT ONLY THROUGH THE SOUTHERN LINE FROM THE PORT OF ASSAB TO THE DROUGHT-STRICKEN NORTH.

ON THE PEACE TALKS WHICH HAVE BEEN STALLED SINCE THE END OF LAST YEAR, THE STATEMENT REAFFIRMED THE GOVERNMENT'S "CONTINUED AND UNSWERVING COMMITMENT" TO PEACE AND DETERMINATION TO REVIVE THE PEACE PROCESS.

THE GOVERNMENT AND THE ERITREAN REBELS LAST MET IN NAIROBI IN NOVEMBER LAST YEAR WHEN THEY AGREED ON ALMOST ALL THE PROCEDURAL MATTERS FOR THEIR SUBSTANTIVE TALKS. THE ONLY DIFFERENCE IS THAT THE REBELS INSIST ON THE PARTICIPATION IN THE TALKS BY THE UNITED NATIONS AS AN OBSERVER.

THE STATEMENT HOWEVER SAID THAT THE GOVERNMENT HAS NEVER RAISED ANY OBJECTION TO INVITING THE UNITED NATIONS TO SERVE AS AN OBSERVER.

IT ALSO CLAIMED THAT THE AUTHORITIES HAVE TAKEN ADDITIONAL MEASURES TO ENABLE THE UNITED NATIONS TO SERVE IN THE SUBSTANTIVE NEGOTIATIONS. BUT IT DID NOT ELABORATE.

THE UNITED NATIONS WAS SAID TO HAVE DECLINED TO ATTEND THE PEACE TALKS FOR ITS OWN CONSTITUTIONAL AND LEGAL REASONS. BUT IT IS NOT KNOWN NOW HOW IT WILL RESPONSE TO ETHIOPIA'S INVITATION.

#90156h0125 06/05/1990 ~Chinese News Agency

LAGOS (JUNE 5) XINHUA - NIGERIA AND SIERRA LEONE BEGAN AN INAUGURAL JOINT COMMISSION MEETING HERE TODAY TO DISCUSS HOW TO FOSTER BILATERAL TRADE.

OPENING THE THREE-DAY MEETING, NIGERIAN MINISTER OF STATE FOR EXTERNAL AFFAIRS ITA EYOMA HOPED TO SEE FREER EXCHANGES OF GOODS AND GREATER COLLABORATION BETWEEN THE TWO NATIONS.

"THE LOW VOLUME OF TRADE BETWEEN OUR TWO COUNTRIES IS AN ISSUE THAT CALLS FOR URGENT ACTION," HE SAID.

HE URGED DELEGATES TO THE SESSION TO HELP NEGOTIATE A TRADE AGREEMENT AS SOON AS POSSIBLE.

MR. SHEKA KANU, HEAD OF THE EIGHT-MEMBER SIERRA LEONE DELEGATION AND MINISTER OF DEVELOPMENT AND PLANNING, SAID IT IS IMPERATIVE TO FORMALISE THE BILATERAL TRADE, WHICH HAS BEEN INFORMAL FOR THE PAST FEW YEARS.

THE TWO COUNTRIES HAVE SIGNED FOUR AGREEMENTS ON FISHING RIGHTS, CULTURAL AND EDUCATIONAL EXCHANGE, TECHNICAL AID CORPS AS WELL AS ECONOMIC, SCIENTIFIC AND TECHNICAL CO-OPERATION.

#90156h0128 06/05/1990 ~Chinese News Agency

BAGHDAD (JUNE 5) XINHUA - THE EXECUTIVE COMMITTEE OF THE PALESTINE LIBERATION ORGANIZATION (PLO) MET HERE TODAY TO WORK OUT A STRATEGY TO COPE WITH THE LATEST DEVELOPMENTS OF THE PALESTINIAN ISSUE.

A PRESS SOURCE AT THE PALESTINE EMBASSY IN BAGHDAD TOLD XINHUA THAT THE MEETING AIMED TO WORK OUT A SHORT-TERM POLICY BASED ON THE RESOLUTIONS OF THE RECENT EMERGENCY ARAB SUMMIT IN BAGHDAD ON THE LATEST DEVELOPMENTS IN THE OCCUPIED ARAB TERRITORIES.

THE SOURCE SAID THE COMMITTEE WILL DISCUSS THE CONSEQUENCES OF LAST WEEK'S

U.S. VETO OF A U.N. SECURITY COUNCIL RESOLUTION FOR SENDING A FACT-FINDING MISSION TO THE OCCUPIED ALNDS TO REPORT ON ABUSE OF PALESTINIANS UNDER ISRAELI OCCUPATION.

THE EXECUTIVE COMMITTEE WILL ALSO EXAMINE THE REPRESSIVE ACTS UNDERTAKEN BY THE ISRAELI OCCUPATION FORCES AGAINST THE PALESTINIAN PEOPLE INSIDE THE OCCUPIED TERRITORIES, AND TAKE APPROPRIATE MEASURES AGAINST THE ISRAELI PRACTICES AND IN SUPPORT OF THE PALESTINIAN ANTI-OCCUPATION UPRISING.

OTHER REPORTS ALSO SUGGESTED THAT THE MEETING WOULD DISCUSS THE LATEST DEVELOPMENTS FOLLOWING LAST WEEK'S ABORTIVE ATTACK ON ISRAELI BEACHES BY GUERRILLAS OF THE PALESTINE LIBERATION FRONT LED BY PLO EXECUTIVE COMMITTEE MEMBER ABU ABBAS.

#90156h0129 06/05/1990 ~Chinese News Agency

UNITED NATIONS (JUNE 5) XINHUA - CHINA TODAY CALLED ON THE INTERNATIONAL COMMUNITY TO DEVELOP SPACE TECHNOLOGY APPLICATIONS SO AS TO BRING MORE BENEFITS TO THE DEVELOPING COUNTRIES.

IN A WORKING PAPER PRESENTED TO THE U.N. COMMITTEE ON THE PEACEFUL USES OF OUTER SPACE, CHINA SAID THE UNITED NATIONS SHOULD MAKE EFFORTS TO ENSURE THE DEVELOPING COUNTRIES DERIVE INCREASING BENEFITS FROM SPACE TECHNOLOGY APPLICATIONS AS THE WORLD COMMUNITY PREPARES ACTIVITIES TO OBSERVE THE INTERNATIONAL SPACE YEAR IN 1992.

THE CHINESE PROPOSAL REPRESENTS THE FIRST SUCH CALL EVER MADE SO FAR FROM A COUNTRY OBTAINING ADVANCED SPACE TECHNOLOGY AS THE U.N. COMMITTEE OPENED ITS ANNUAL MEETING YESTERDAY TO DISCUSS ISSUES RELATED TO PEACEFUL USES OF OUTER SPACE, INCLUDING THE PREPARATION FOR THE OBSERVANCE OF THE INTERNATIONAL SPACE YEAR DECLARED BY THE 44TH U.N. GENERAL ASSEMBLY.

"WE HOPE THAT THE ACTIVITIES IN THE INTERNATIONAL SPACE YEAR WILL PROMOTE THE SPACE TECHNOLOGY DEVELOPMENT IN THE DEVELOPING COUNTRIES AND MAKE THE APPLICATIONS OF SPACE TECHNOLOGY AVAILABLE TO THEM," ZHENG LIZHONG, MEMBER OF THE CHINESE DELAGATION TO THE U.N. COMMITTEE'S ANNUAL SESSION, SAID OF HER DELEGATION'S PROPOSAL.

IN THE WORKING PAPER, WHICH WILL PROVIDE A BASIS FOR THE COMMITTEE'S DISCUSSION AT ITS CURRENT SESSION, CHINA ALSO SAID THE ACTIVITIES IN THE INTERNATIONAL SPACE YEAR SHOULD BE CARRIED OUT AT THE INTERNATIONAL, REGIONAL AND NATIONAL LEVELS.

IT PROPOSED THAT MAJOR ACTIVITIES TO OBSERVE THE INTERNATIONAL SPACE YEAR SHOULD BE BASED ON PROJECTS IDENTIFIED BY INDIVIDUAL COUNTRIES AND BE IMPLEMENTED WITH VOLUNTARY CONTRIBUTIONS FROM EACH COUNTRY.

ACCORDING TO THE WORKING PAPER, CHINA ALSO SUGGESTS THAT THE ACTIVITIES AROUND THE INTERNATIONAL SPACE YEAR SHOULD SERVE THE PURPOSE OF PROTECTING AND ENHANCING THE WORLD ENVIRONMNET WHILE ENDEAVORING TO DEVELOP THE EARTH'S NATURAL RESOURCES RATIONALLY AND PROVIDING ASSISTANCE TO THE INTERNATIONAL COMMUNITY.

IT OFFERS TO HOST AN INTERNATIONAL SEMINAR ON GEOSCIENCE IN FEBRUARY OR MARCH OF 1992 TO MARK THE INTERNATIONAL SPACE YEAR.

AS PART OF ITS SUPPORTIVE EFFORTS, CHINA WILL ALSO HOLD A NUMBER OF SEMINARS BEFORE 1992, INCLUDING ONE ON CLIMATE CHANGE IN AUGUST THIS YEAR AND ANOTHER IN SEPTEMBER NEXT YEAR ON THE UTILIZATION OF SPACE TECHNOLOGY IN DEALING WITH DISASTERS.

THE DOCUMENT ALSO LISTED A NUMBER OF SCIENTIFIC AND APPLIED RESEARCH ACTIVITIES CHINA WILL CARRY OUT IN THE COMING YEARS, SUCH AS A STUDY OF THE SOLAR-TERRESTRIAL SYSTEM OVER 22 CYCLES OF SOLAR ACTIVITY, A STUDY OF MATERIAL AND LIFE SCIENCE UNDER CONDITIONS OF MICROGRAVITY IN SPACE AND ONE ON CURRENT MOVEMENTS AND DYNAMICS OF THE EARTH'S CRUST.

AMONG OTHER ACTIVITIES, CHINA ALSO OFFERS TO CONDUCT ECOLOGICAL MONITORING STUDIES AND STUDIES OF GLOBAL POLLUTION FLUXES, LAUNCH MULTI-PURPOSE SATELLITES, UTILIZE SOUNDING ROCKETS AND USE REMOTE SENSING TECHNOLOGY IN SETTING UP A NATIONAL SYSTEM FOR RAPID NATURAL DISASTER ASSESSMENT.

-30- 3197

#90156h0130 06/05/1990 ~Chinese News Agency

WASHINGTON (JUNE 5) XINHUA - A DEFENSE DEPARTMENT ADVISORY PANEL SAID THE U.S. DOES NOT NEED A SUPER ROCKET AND CAN RELY ON ITS FLEET OF EXPENDABLE LAUNCH VEHICLES THROUGH THE END OF THE CENTURY.

INSTEAD OF BUILDING A HEAVY-LIFT BOOSTER, THE MILITARY SHOULD PUSH TWO TECHNICAL APPROACHES THAT HOLD PROMISE FOR BREAKTHROUGHS IN ROCKET TECHNOLOGY: THE AIR-BREATHING PROPULSION BEING DEVELOPED FOR THE NATIONAL AEROSPACE PLANE, AND NUCLEAR ENGINES, SAID THE PANEL'S REPORT RELESASED TODAY.

THE REPORT SAID THE SOVIET UNION HAS ITS UNCHALLENGED IN HEAVY-LIFT CAPACITY. ITS ENERGIA IS THE WORLD'S MOST POWERFUL ROCKET, CAPABLE OF PUTTING A 220,000-POUND CARGO INTO LOW EARTH ORBIT.

THE MOST POWERFUL CARGO CARRIER USED BY THE UNITED STATES IS THE SPACE SHUTTLE, WHICH CAN LIFT 52,000 POUNDS INTO ORBIT. THE BIGGEST EXPENDABLE ROCKET, THE TITAN 4, CAN CARRY A 39,000 POUNDS PAYLOAD.

IN THE APOLLO MOON LANDING PROGRAM OF THE LATE 1960S AND EARLY 1970S, THE UNITED STATES USED SATURN 5 ROCKETS CAPABLE OF LIFTING 310,000 POUNDS OF

CARGO. BUT THE ASSEMBLY LINES WERE SHUT DOWN WHEN THAT PROGRAM ENDED.

RATHER THAN DEVELOPING A MORE POWERFUL BOOSTER OR A NEW FAMILY OF EXPENDABLE ROCKETS, THE REPORT SAID, RESEARCH SHOULD CONCENTRATE ON IMPROVING ROCKET ENGINES.

"IF THE ROCKET ENGINES ARE IN AN ADVANCED STATE OF DEVELOPMENT, A LAUNCH VEHICLE CAN BE DEVELOPED FASTER THAN ANY PAYLOAD IT WOULD BE REQUIRED TO CARRY," THE REPORT SAID.

NASA HAS TALKED OF DEVELOPING A VEHICLE, TO BE CALLED SHUTTLE-C, THAT WOULD SUBSTITUTE A CARGO CANISTER FOR THE SPACE SHUTTLE ORBITER. IT WOULD BE ABLE TO LIFT ABOUT 150,000 POUNDS AND BE USED TO CARRY CONSTRUCTION PARTS FOR SPACE STATION.

#90156h0132 06/05/1990 ~Chinese News Agency

KUWAIT (JUNE 5) XINHUA - KUWAIT TODAY EXPRESSED HOPE THAT A PROPOSED SUMMIT MEETING BETWEEN IRAQI PRESIDENT SADDAM HUSSEIN AND IRANIAN PRESIDENT HASHEMI RAFSANJANI WILL TAKE PLACE AT THE EARLIEST POSSIBLE TIME.

IN AN INTERVIEW CARRIED TODAY BY THE KUWAITI NEWS AGENCY, KUWAITI DEPUTY PREMIER AND FOREIGN MINISTER SHEIKH SABAH AL-AHMED AL-JABAH SAID THE MEETING WOULD RESOLVE ALL THE OUTSTANDING PROBLEMS BETWEEN THE TWO NEIGHBORING COUNTRIES, AND WOULD ENHANCE SECURITY AND STABILITY IN THE GULF REGION.

SHEIKH SABAH ALSO SAID THAT THE MINISTERIAL COUNCIL OF THE GULF COOPERATION COUNCIL (GCC), MEETING IN THE SAUDI CITY OF TAIF MONDAY, ISSUED A STATEMENT EXPRESSING ITS WELCOME AND SUPPORT OF THE NEW INITIATIVE MADE BY THE IRAQI AND IRANIAN LEADERSHIPS.

HE SAID THE COUNCIL ALSO SUPPORTS EFFORTS AND GOOD OFFICIES FOR THE CONVENING OF THE SUMMIT.

LAST MONTH, SADDAM SENT TWO MESSAGES TO RAFSANJANI PROPOSING DIRECT NEGOTIATIONS ON THE OUTSTANDING ISSUES BETWEEN THE TWO COUNTRIES, WHICH HAVE BLOCKED U.N.-SPONSORED PEACE TALKS FOR A FINAL SETTLEMENT FOLLOWING THE AUGUST 1988 CEASEFIRE THAT HALTED THE EIGHT-YEAR GULF WAR. REFSANJANI HAS REPORTEDLY GIVEN A POSITIVE RESPONSE TO SADDAM'S OFFER.

TEHRAN AND BAGHDAD ARE LOCKED IN SHARP DISPUTES OVER THE SHATT AL-ARAB WATERWAY DIVIDING THE TWO COUNTRIES. IRAQ CLAIMS FULL SOVEREIGNTY OVER THE RIVER WHILE IRAN INSISTS ON A BORDER TREATY THAT DIVIDED PART OF THEIR COMMON BORDER BY THE MID-STREAM OF THE RIVER.

REPORTS SAID THAT OMAN AND KUWAIT, AT THE REQUEST OF THE GCC MEMBER STATES

HAVE OVER THE PAST FEW MONTHS TAKEN MEDIATION EFFORTS TO HELP CONVENE A SUMMIT MEETING BETWEEN IRAQ AND IRAN.

THE GCC GROUPS KUWAIT, OMAN, SAUDI ARABIA, BAHRAIN, QATAR AND THE UNITED ARAB EMIRATES.

THE KUWAITI FOREIGN MINISTER ALSO CRITICIZED LAST WEEK'S U.S. VETO OF A U.N. SECURITY COUNCIL DRAFT RESOLUTION FOR SENDING AN INVESTIGATIVE TEAM TO REPORT THE ABUSE OF PALESTINIANS IN THE ISRAELI-OCCUPIED ARAB TERRITORIES.

#90156h0134 06/05/1990 ~Chinese News Agency

ANKARA, JUNE 5 (XINHUA) -- TURKISH PRESIDENT TURGUT OZAL TODAY VISITED THE CHINA PARILION OF THE FOURTH FAIR OF INTERNATIONAL CIVIL WEAPONS BEING HELD IN ANKARA.

THE ONE-WEEK-LONG FAIR OPENED IN THE ATATURK CUTURAL CENTER HALL ON MAY 31.

PRESIDENT OZAL CAME TO THE CHINA PAVILION THIS AFTERNOON. HE PRAISED CHINESE WEAPONS AS "EXCELLENT" WHILE HOLDING AND EXAMINING A CHINESE PUMP-ACTION SHOTGUN.

WHEN TALKING WITH THIS REPORTER, OZAL SAID, "I HOPE TO PAY AN OFFICIAL VISIT TO CHINA PROBABLY NEXT YEAR" AS TURKISH PRESIDENT.

OZAL TOURED CHINA AS TURKISH PRIME MINISTER IN 1985. THAT VISIT "LEFT ME A GOOD IMPRESSION," HE SAID.

ONE HUNDRED AND FORTYFOUR WEAPON AND EQUIPMENT PRODUCING FIRMS AND COMPANIES FROM 16 COUNTRIES INCLUDING TURKEY, CHINA, THE UNITED STATES AND THE SOVIET UNION ARE TAKING PART IN THE FAIR SPONSORED BY TURKEY'S ORGANIZATION OF MARKETING AND TRADE LTD.

ON DISPLAY ARE VARIOUS KINDS OF HUNTING RIFLES WITH OR WITHOUT SCOPE, SPORTING WEAPONS, LIGHT AUTOMATIC WEAPONS, FISHING AND SAFETY EQUIPMENT.

MORE THAN 60,000 TURKISH AND FOREIGN GUESTS VISITED THE FAIR. BERKOK BAYBAS, ORGANIZER OF THE FAIR, SAID, "THE TURKISH GOVERNMENT WILL FORMULATE NEW IMPORT AND EXPORT REGULATIONS AND IMPORT OF ARMS WILL BE COMPLETELY FREE IN THE NEAR FUTURE."

60 Minutes (CBS) June 3, 1990 ''Needle Park'' (in the middle of Zurich is Needle Park, which the city has given over to drug addicts); ''Earth First'' (Earth First believes that the environmental crisis is so dire they must shock the public with their words and actions); ''The 36 Hour Day'' (young doctors in training, interns and residents are on call in hospital for 36 hours at a time). (Transcript #2237)

See also the ''Drugs'', ''Environment'' and ''Medical'' topic lists in the Journal Graphics catalog.

Saturday Night With Connie Chung June 2, 1990 ''Robert Mappelthorpe: Terrible Things'' (Some call it fine art, some call it pornography, but most everyone who knows Robert Mappelthorpe has called his photographs ''shocking''. Last summer, an exhibition of his work was canceled before it even opened in Washington, D.C. And when it went to Cincinnati last month, it prompted obscenity indictments against the museum and its

director); ''Randy Travis and Lib: Nashville's Odd Couple'' (one of the most popular country music stars is Randy Travis. And how did he become so popular? Not just by being the nice shy guy that he is. It was the drive and the ambition of a woman named Lib Hatcher who was backstage from the beginning. And for the last 12 years, they've been making million-dollar music together, onstage and off); ''I Spy a Thief: Cliff's Caper'' (astronomer Cliff Stahl worked at the Lawrence Berkeley Laboratory in California and noticed that somebody was using his computer who wasn't supposed to. What it turned out to be was a spy ring stealing U.S. military secrets). (Transcript #35)

Summit Analysis / AIDS Patient in Remission Cured?: Professor Stephen Cohen brings the perspective of 20 years of visiting Russia, Russian friends and a post as head of Russian Studies at Princeton to his analysis of the summit, what Gorbachev's position actually is at home and how Yeltsin fits into the picture. As he points out, 400 years of despotic politics precedes Russia's current 'fledgling democracy.' He stresses that Bush and Gorbachev are now both deeply committed to partnership and these and future meetings are to work out guidelines and agreements. Mr. King's second guest, Carl Crawford, had AIDS and the cancerous skin lesions that often accompany it. The cancer was treated by heating his blood to 108 degrees and reintroducing it into his body. The cancer vanished, and so, as the doctors discovered, did the AIDS virus. Dr. Kenneth Alonso is Mr. Crawford's personal physician and was involved the process. He agrees with Dr. Sheldon Wolff of the New England Medical Center, who cautions that since there have been spontaneous remissions of cancer and AIDS, only time and more testing will reveal if heating the blood can be used as a cure for AIDS in appropriate cases, one essential quality of the patient being a strong cardiovascular system. (Transcript #57)

Donahue June 1, 1990

Why is America Bashing Quayle?: Why has Vice President Quayle become something of a national joke? Is it entirely the media's fault? Are his good deeds going unreported in the rush to capitalize on his every fumble? Does the media-- and the public-- owe respect to the office itself, regardless of the foibles of the incumbent? (Transcript #2959)

See also: Nightline #1889, 8/18/88, ''Quayle: Hawk or Chicken?''; Nightline #1892, 8/23/88, ''Quayle Under the Gun''; This Week with David

Brinkley #356, 8/21/88, ''Dan Quayle Flap''.

Sally Jessy Raphael June 1, 1990

Mommy Oldest: An obstetrician who treats older women says medicine, through testing and techniques, has eliminated many of the risks to a woman who becomes pregnant in her late 30's or early 40's. (Transcript #455)

See also: Donahue #818, 4/13/82, ''Pregnancy for Women Over Thirty''; Jane Wallace #5, 10/30/89, ''First-Time Mothers Over 40''; Bodywatch #306, 4/2/88, ''Having Babies After 30''.

Geraldo June 1, 1990

Francesco Scavullo and the Face of Beauty: Francesco Scavullo discusses his career as a very well known photographer. He tells of the different sitting and shoots he's done with well known celebrities such as Barbara Streisand, Sophia Loren, Cher, Michael Jackson and many more. Some of his models discuss the feeling Mr. Scavullo gives them when he photographs them. (Transcript #707)

Nightline (ABC) June 1, 1990

The Summit Process/ Barbara Bush at Wellesley: Former Assistant Secretary of Defense Richard Perle, Rep. Les Aspin (D-WI), Chairman of the House Armed Services Committee, and Lithuanian journalist and activist Algis Chekolis discuss how Presidents Gorbachev and Bush have played their hands at the summit, including the Lithuanian question. Highlights of Barbara Bush's commencement address to the graduating class of Wellesley College in Massachusetts. (Transcript #2355)

See also: Washington Week in Review #114, 6/1/90, ''Two First Ladies Speak at Wellesley''; back transcripts available on the Bush-Gorbachev summit.

The Health Show (ABC) June 3, 1990 ''Soviet Medicine'' (the state of medicine and medical equipment; ''Fetal Surgery'' (University of California at San Francisco pediatric surgeons finally achieve success in fetal operation to correct diaphragmatic hernia); ''Dietary Guidelines'' (common sense rules for healthy eating); ''Children and Stress'' (some children may be hypersensitive); ''Brazil: Pitanguy's Cosmetic Surgery Capital'' (Dr. Ivo Pitanguy, Rio de Janeiro plastic surgeon extraordinaire). (Transcript #163)

See also: Health Week #17, 6/2/90 (prenatal operations); Health Show #77, 9/11/88, ''High Tech Stress for Children''; and the ''Nutrition'' and ''Cosmetic Change'' topic lists in the Journal Graphics catalog.

This Week with David Brinkley (ABC) June 3, 1990

The Bush-Gorbachev Summit: There's never been a summit like this and there may never be again: a meeting of the leaders of two enormous countries, one country thriving and growing while the other seems to be falling apart; one superpower and one power less than super. Still, both are so big that what they do and whatever they do affects the entire world. And what they've done now is decide that after 40 years, they are no longer enemies. Roundtable discussion topics include the Soviet Union's economy and U.S. companies doing business there, the implications of Quebec separating from Canada, the anniversary of Tiananmen Square and the impending trial of Washington, D.C. Mayor Marion Barry. (Transcript #449)

Back transcripts available on the Bush-Gorbachev summit.

The Wall Street Journal Report June 2, 1990 ''Wrong Number'' (the Pennsylvania Appeals Court ruled against caller identification service offered by the telephone companies, saying it violated the privacy laws and the state's wiretapping regulations); ''Stocking Up'' (the stock market went wild the day after Memorial Day, with the Dow up 50 points, then up 80 points at the end of the week. Two financial advisers give their views on this phenomenon. While both agree that the market will continue upward in the near term, one feels that this will continue and the other says earnings will be disappointing toward the end of the year); ''Moscow Dreamin''' (on Gorbachev's visit to California, he'll have a look at companies in Silicon Valley that used to keep everyone out for security reasons. Businesses there are eager to set up shop in the U.S.S.R., though some experts warn that to do so is to go in for the long haul, since the ruble is not yet a hard currency); ''Technically Speaking'' (the Consumer Electronics Show in Chicago this week unveiled ''home theater,'' giant television screens and sound to rival that of movie houses. Also shown were digital audiotape and new video games); Updates: Gerald Greenwald, former ''heir apparent'' to Lee Iacocca, leaves Chrysler to work the United Air Lines employees in taking over parent company UAL; Pennsylvania's tough anti-takeover bill persuades would-be raiders to sell their Armstrong stock; the Mortgage Bankers of America surveyed lenders to see if there is a credit crunch-- lenders say no, they're just being more careful in checking applications and are tightening requirements for mortgages. (Transcript #401) Adam Smith's Money World June 1, 1990

Main Street vs. Wall Street: Wall Street vs. Main Street-- that's the way many of the takeover battles of recent years are remembered. The shareholders got rich and so did raiders. And now the Pennsylvania State Legislature has passed an anti-takeover bill. Its backers say now Pennsylvania companies will no longer be at the mercy of Wall Street merchants of greed. Critics say that this bill is the fat cat protection and shareholder ripoff act, that management will now be responsible to no one. The fight brings up some profound questions: Who owns a company

anyway? Does a portfolio manager at a pension fund have more at stake than a long-term employee? What will this do to American industry in its race for competitiveness? (Transcript #629)

See also: Nightline #986, 3/4/85, ''Corporate Takeovers''; and the ''Wall Street'' topic list in the Journal Graphics catalog.

Crossfire (CNN) June 1, 1990

The Summit Agreements: Signed, Sealed, and Delivered: Former Assistant Secretary of Defense Richard Perle, former CIA Director William Colby, and later Yakov Smirnoff discuss the Bush- Gorbachev summit, the agreements that have emerged from it, and the changing face of the Soviet Union. (Transcript #65)

Back transcripts available on the Bush-Gorbachev summit.

Health Week (CNN) June 2, 1990

In separate trials, scientists are looking into the effects, both good and bad of offering Interferon to patients in the early stages of AIDS infection and in combination therapy for the more severely stricken; in Atlanta, two doctors have treated a 33- year-old man with advanced Karposi's Sarcoma by heating his blood and body to 108 degrees. The two-hour fever cleared up the cancerous lesions within days and appears to also have attacked the AIDS infection itself; some babies' lives are threatened before they're even born. Surgeons in San Francisco say they've performed a complex prenatal operation that saved two babies from certain death. (Transcript #17)

See also: Health Show #163, 6/3/90 (prenatal surgery); Larry King Live #57 6/1/90, ''AIDS Patient in Remission Cured?''.

Inside Business (CNN) June 3, 1990

Myron Kandel, filling in for Lou Dobbs, with CNN correspondents Hopkins, Perry and Varney, discusses current issues in business. This week's topics include the Wall Street rally and the summit, the Soviet economy and political situation, the economic ramifications of German reunification, the drop in gold and oil prices, problems in the brokerage industry and the auto industry. (Transcript #22)

Moneyline (CNN) June 1, 1990

The jobless report for last month came in weak; President Bush and President Gorbachev signed a pact on trade and grain sales; warming U.S.-Soviet relations have resulted in a Wall Street chill for defense contractors-- since defense cutbacks were announced last November, defense

stocks have been among the market's worse performers, but now, investors are taking a second look at companies that could win the battle of the budget cuts; A.C. Moore, Director of Research at Argus Research, says the place to invest your money is bonds, not stocks; Dan Dorfman raises the question: ''Who knew what at L.A. Gear?''; the Tokyo business report; a follow-up on an exclusive report on the Navy's use of allegedly defective pumps-- that report raised questions about the safety of equipment onboard many U.S. Navy ships. A member of the Armed Serviced Committee wants the U.S. Navy to stop doing business with a New York contractor, Buffalo Pumps. (Transcript #109)

See also: Moneyline #107, 5/29/90 (defective pumps on Navy ship); back transcripts available on the Bush-Gorbachev summit.

CNN Travel Guide June 3, 1990

Philadelphia celebrates 200 years of Ben Franklin's genius; Red Earth celebration for the American Indians; a look at San Francisco's well-known cable cars; a touch of King Henry VIII and Queen Anne at the Renaissance Festival; the 31st Bath International Festive takes a look at Spain; Sea World and its recent attraction of moray eels and bat rays. (Transcript #17)

Science & Technology Week (CNN) June 3, 1990

Horses do a lot of things well, but seeing isn't one of them-- researchers are finding out more about just what the animals can and can't see; astronomers have discovered an enormous cloud of sodium atoms millions of miles long-- they're sure it's the largest structure visible anywhere in our solar system; vandals and souvenir hunters can cause serious problems at archaeological sites-- now, police and archaeologists are working together to battle the problem; scientists at Columbia University have put together a new way of calculating the age of objects more than 8,000 years old-- called Uranium Thorium Mass Spectronomy, it improves the accuracy of the widely used Carbon 14 dating process; one auto maker is testing a new type of car that's a hybrid of electric and diesel models-- it's called the Volkswagen Golf Elektro-Hybrid and it's being billed as ''environmentally safe''; catalytic converters are designed to remove gasoline engine pollutants before they get in the air, but the auto industry is testing a new kind of converter that could help cars meet tough emissions standards; a new technique for bonding metals at the atomic level-- the Germans invented it in the '80s, the Japanese quickly perfected it. Now, Oregon's Graduate Institute of Science & Technology

McMartin Pre-School Case / Bob Hope: The McMartin Pre-School trial continues, with Ray Buckey now on trial for eight unresolved charges. Meanwhile, the children's parents have hired archaeologists and geologists to dig at the school to search for verification of the children's stories of tunnels beneath the school. Mr. King interviews a former student at the school, his parents, and two investigative reporters connected to the case. Tonight's second guest is Bob Hope, who has just released his 10th book, Don't Shoot, It's Only Me, which tells about his adventures entertaining American troops over the years. (Transcript #58)

TOKYO (JUNE 5) KYODO - BOONE CO., AN INVESTMENT COMPANY OWNED BY U.S. INVESTOR T. BOONE PICKENS, WILL SEND LETTERS TO SOME 4,300 SHAREHOLDERS OF KOITO MFG. CO. ASKING FOR THEIR SUPPORT AT KOITO'S SHAREHOLDERS MEETING SCHEDULED FOR JUNE 28, A LAWYER FOR PICKENS SAID TUESDAY.

THE LETTERS WILL ASK THE SHAREHOLDERS TO GIVE PICKENS THEIR PROXY VOTES AT THE MEETING FOR HIS PLANS TO HAVE FOUR AMERICANS APPOINTED TO KOITO'S BOARD OF DIRECTORS, LAWYER KANJI ISHIZUMI SAID AT A PRESS CONFERENCE.

PICKENS, THE LARGEST SINGLE SHAREHOLDER IN KOITO, AN AUTO LIGHTING EQUIPMENT MAKER AND SUPPLIER OF PARTS TO TOYOTA MOTOR CORP., HAS BEEN SEEKING PARTICIPATION IN THE MANAGEMENT OF KOITO.

BUT KOITO HAS REJECTED HIS DEMAND, SAYING THAT PICKENS HAS ONLY A TEMPORARY INTEREST IN THE COMPANY AND CITING WIDESPREAD SPECULATION THAT HE IS TRYING TO FORCE KOITO TO BUY BACK HIS SHARES AT A HIGH PRICE, A PRACTICE KNOWN AS GREENMAIL.

''WE WANT TO GATHER AS MANY LETTERS OF ATTORNEY AS POSSIBLE FROM SHAREHOLDERS TO MAKE IT CLEAR WHICH SHAREHOLDERS KOITO REGARDS AS IMPORTANT, ONES LIKE TOYOTA, OR INDIVIDUAL ONES,'' ISHIZUMI SAID.

TOYOTA IS THE SECOND-LARGEST SHAREHOLDER IN KOITO AND KOITO'S MAIN CUSTOMER.

NAHA (JUNE 5) KYODO - A U.S. CIVILIAN-OWNED TRAINER FIGHTER LEASED BY THE U.S. AIR FORCE CRASHED OFF OKINAWA ON TUESDAY DURING A TRAINING OPERATION WITH MILITARY AIRCRAFT AND THE PILOT WAS RESCUED, JAPANESE DEFENSE OFFICIALS SAID.

THEY SAID THE PILOT EJECTED FROM THE SINGLE-SEATER F-86F SABRE SHORTLY BEFORE THE CRASH AND WAS LATER RESCUED BY A JAPANESE AIR SELF-DEFENSE FORCE HELICOPTER.

THE ACCIDENT TOOK PLACE AROUND 12:45 P.M. INSIDE AN AIR FORCE TRAINING ZONE OVER THE EAST CHINA SEA ABOUT 137 KILOMETERS NORTH-NORTHWEST OF THE U.S. KADENA AIR FORCE BASE, WHERE THE PLANE WAS BASED.

THE PLANE CRASHED AFTER DEVELOPING ENGINE TROUBLE DURING THE TRAINING OPERATION, SAID LT. COL. R.W. WINKELMANN, CHIEF OF PUBLIC AFFAIRS OF THE OKINAWA-BASED 313RD AIR DIVISION.

DEFENSE SOURCES AID THE AIRCRAFT WAS OWNED BY TRACOR FLIGHT SYSTEM INC., A CIVILIAN COMPANY BASED IN CALIFORNIA, AND LEASED BY THE U.S. AIR FORCE FOR TRAINING PURPOSES.

THE JAPANESE DEFENSE AGENCY HAD EARLIER SAID THAT THE PLANE WAS REGISTERED IN CANADA. THE F86F IS A SINGLE-ENGINED JET WHICH WAS EXTENSIVELY USED DURING THE KOREAN WAR.

TOKYO (JUNE 5) KYODO - THE FINANCE MINISTRY WILL START SAME-DAY ANNOUNCEMENTS OF BOND AUCTION RESULTS STARTING IN JULY, MINISTRY OFFICIALS SAID TUESDAY.

THE DECISION COMES IN STEP WITH THE BANK OF JAPAN'S ONLINE COMPUTER SERVICE FOR SECONDARY-MARKET TRADING IN GOVERNMENT BONDS AND RELATED WORKS BEGUN ON MAY 28, THEY SAID.

THE NEW STEP WILL COVER SHORT- AND MEDIUM-TERM GOVERNMENT BONDS AS WELL AS 20-YEAR ONES, THE OFFICIALS SAID, ADDING THAT THE MINISTRY PLANS TO INCLUDE 10-YEAR BONDS NEXT JANUARY.

AT PRESENT, THE MINISTRY ANNOUNCES RESULTS OF BOND AUCTIONS THE DAY AFTER AN AUCTION IS HELD, WHICH INVOLVES GREATER RISKS FOR BUYERS IN PRICE CHANGES BETWEEN AUCTION DAY AND THE FOLLOWING DAY.

#90156k0063 06/05/1990 ~Japanese News Agency

TOKYO (JUNE 5) KYODO - EGYPT'S STATE MINISTER FOR FOREIGN AFFAIRS BOUTROS BOUTROS GHALI ARRIVES HERE WEDNESDAY FOR TALKS WITH JAPANESE OFFICIALS, THE FOREIGN MINISTRY SAID TUESDAY.

DURING A NINE-DAY STAY IN JAPAN THROUGH JUNE 14, GHALI WILL MEET WITH JAPANESE PRIME MINISTER TOSHIKI KAIFU AND FOREIGN MINISTER TARO NAKAYAMA TO DISCUSS INTERNATIONAL AND BILATERAL AFFAIRS.

GHALI, A FOREIGN MINISTRY GUEST, IS TO DELIVER A SPEECH AT A LECTURE SESSION AT THE FOREIGN MINISTRY ON THURSDAY AND VISIT THE FLOWER EXPOSITION IN OSAKA THIS WEEKEND, OFFICIALS SAID.

HE IS PLANNING TO ATTEND A SYMPOSIUM ON AFRICAN PROBLEMS TO BE ARRANGED BY THE FOREIGN MINISTRY'S ASSISTANCE BODY, THE JAPAN INTERNATIONAL COOPERATION AGENCY, NEXT WEEK.

GHALI PREVIOUSLY VISITED JAPAN IN FEBRUARY 1989 ACCOMPANYING PRESIDENT HOSNI MUBARAK TO ATTEND THE STATE FUNERAL OF EMPEROR HIROHITO, POSTHUMOUSLY CALLED EMPEROR SHOWA.

#90156k0065 06/05/1990 ~Japanese News Agency

TOKYO (JUNE 5) KYODO - JAPAN'S BIGGEST FARMERS' UNION TUESDAY ASKED THE GOVERNMENT NOT TO LOWER THE PRODUCER PRICES OF RICE FOR THE CURRENT FISCAL YEAR FROM THE CURRENT AVERAGE LEVEL OF 17,413 YEN PER 60 KILOGRAMS.

MITSUGU HORIUCHI, CHAIRMAN OF THE CENTRAL UNION OF AGRICULTURAL COOPERATIVES, HANDED A WRITTEN REQUEST TO TOMIO YAMAMOTO, MINISTER OF AGRICULTURE, FORESTRY AND FISHERIES, DEMANDING THE GOVERNMENT TO MAINTAIN THE CURRENT PRICE LEVEL.

THE GOVERNMENT PLANS TO CUT THE PRICES AT WHICH IT BUYS RICE FROM

PRODUCERS BY AROUND 5 PERCENT FOR THIS FISCAL YEAR, WHICH BEGAN APRIL 1, IN AN ATTEMPT TO DEFUSE FOREIGN CALLS TO OPEN THE JAPANESE RICE MARKET AND TO SATISFY CONSUMER DEMAND.

THE GOVERNMENT FAILED TO IMPLEMENT A PLANNED 2.55 PERCENT REDUCTION IN PRODUCER RICE PRICES FOR THE PREVIOUS FISCAL YEAR DUE TO PRESSURE FROM THE LIBERAL DEMOCRATIC PARTY (LDP), WHICH HAS A STRONG BASE IN RURAL AREAS, PRIOR TO NATIONAL ELECTIONS FOR THE HOUSE OF COUNCILLORS.

THIS YEAR, AN ADVISORY BODY TO THE AGRICULTURE MINISTER, THE RICE PRICE COUNCIL, IS EXPECTED TO RECOMMEND THE 5 PERCENT CUT IN RICE PRICES AT A MEETING ON JUNE 4 AND 5.

INDUSTRY OBSERVERS EXPECT TOUGH NEGOTIATIONS ON THE ISSUE AMONG THE GOVERNMENT AND PRODUCERS AND THE LDP.

HONG KONG (JUNE 5) KYODO - CHINA HAS GIVEN THE GREEN LIGHT TO AN INVESTMENT BY A GIANT TAIWAN CONGLOMERATE IN ONE OF ITS SPECIAL INVESTMENT ZONES, IN A MOVE SEEN AS OPENING THE WAY TO GREATLY EXPANDED ECONOMIC TIES BETWEEN THE TWO SIDES OF THE TAIWAN STRAIT, RELIABLE SOURCES SAID HERE TUESDAY.

THE SOURCES SAID THE CHINESE AUTHORITIES AND WANG YUNG-CHING, CHAIRMAN OF TAIWAN PLASTIC CORP., THE BIGGEST BUSINESS GROUP IN TAIWAN, EARLY LAST MONTH SIGNED A SEVEN BILLION DOLLAR PETROCHEMICAL COMPLEX DEAL, THE LARGEST DEAL CHINA HAS EVER CONCLUDED WITH A FOREIGN FIRM.

CHINA'S STRONG MAN DENG XIAOPING HAS ALREADY APPROVED THE PROJECT IN AN INVESTMENT ZONE AIMED EXCLUSIVELY AT TAIWAN-BASED BUSINESSMEN, LOCATED IN HAICANG, XIAMEN OF FUJIAN PROVINCE, THE SOURCES SAID.

THE PLANNED PETROCHEMICAL COMPLEX, TO BE BUILT OVER THE NEXT THREE YEARS, IS EXPECTED TO BE THE WORLD'S LARGEST, PRODUCING 1.27 MILLION TONS OF ETHYLENE ANNUALLY.

IN PREPARATION FOR THE PROJECT, THE CHINESE GOVERNMENT HAS ALREADY INVESTED ABOUT 5 BILLION DOLLARS TO IMPROVE THE INFRASTRUCTURE IN AND AROUND THE INVESTMENT ZONE, THE SOURCES SAID.

THEY SAID THE PLANNED PROJECT IS EXPECTED TO BRING ENORMOUS ECONOMIC BENEFITS TO CHINA AS WELL AS ACCELERATE THE ECONOMIC TIES BETWEEN THE TWO ERSTWHILE CHINESE POLITICAL RIVALS.

AT THE SAME TIME, HOWEVER, THE SOURCES EXPRESSED CONCERN OVER A POSSIBLE DESTRUCTIVE EFFECT OF THE PROJECT ON THE ECOLOGICAL SYSTEM, DAMAGE TO THE

LOCAL PETROCHEMICAL INDUSTRY, AND INFLATIONARY PRESSURE EXPECTED TO BE TRIGGERED BY MASSIVE FOLLOW-UP CAPITAL INVESTMENT BY TAIWAN ENTERPRISES.

#90156k0076 06/05/1990 ~Japanese News Agency

TOKYO (JUNE 5) KYODO - THE COMBINED AVERAGE LENDING RATE CHARGED BY A TOTAL OF 154 JAPANESE COMMERCIAL BANKS JUMPED 0.194 PERCENTAGE POINT IN APRIL TO 6.625 PERCENT, THE BANK OF JAPAN SAID TUESDAY.

THE CENTRAL BANK SAID THE HIKE REPRESENTS THE 12TH CONSECUTIVE MONTHLY GAIN IN THE COMPOSITE RATE, WHICH COVERS ALL CATEGORIES OF LOANS PROVIDED BY PRIVATE BANKS NATIONWIDE.

THE 0.194-POINT RISE REFLECTS A SERIES OF RAISES BY BANKS IN THE LONG-TERM PRIME LENDING RATE AND OTHER RATES USUALLY SEEN AT THE BEGINNING OF A NEW FISCAL YEAR.

THE AVERAGE SHORT-TERM LENDING RATE LEVIED BY THE 12 LARGEST COMMERCIAL BANKS WAS UP 0.274 POINT TO 6.523 PERCENT, THE 12TH STRAIGHT MONTHLY RISE AND THE HIGHEST LEVEL SINCE OCTOBER 1982.

THE AVERAGE LONG-TERM LENDING RATE CHARGED BY THREE LONG-TERM CREDIT BANKS ALSO ROSE 0.150 POINT TO 6.675 PERCENT, THE HIGHEST SINCE DECEMBER 1986.

#90156k0082 06/05/1990 ~Japanese News Agency

TOKYO (JUNE 5) KYODO - JAPAN'S LEADING BANKER SUGGESTED TUESDAY THE REPORTED SANCTIONS BY CHINA'S CENTRAL BANK AGAINST THE BANK OF TOKYO WILL NOT INFLUENCE THE WILLINGNESS OF JAPANESE BANKS TO STRENGTHEN BUSINESS TIES WITH TAIWAN.

DESPITE THE REPORTED PUNISHMENT, "OUR PLANS TO EXPAND BUSINESS THERE HAS NOT CHANGED," TAIZO HASHIDA, CHAIRMAN OF THE FEDERATION OF BANKERS' ASSOCIATIONS OF JAPAN, TOLD REPORTERS.

BUT HASHIDA DID NOT DIRECTLY COMMENT ON THE REPORTED SANCTIONS, SAYING "DETAILS OF THE FACTS HAVE NOT BEEN CLEAR YET." INTERNATIONAL FINANCIAL SOURCES SAID LAST FRIDAY THAT THE PEOPLE'S BANK OF CHINA HAS ORDERED CHINESE FINANCIAL INSTITUTIONS TO STOP DEALING WITH THE BANK OF TOKYO IN PROTEST AT THE JAPANESE BANK'S PLAN TO OPEN A REPRESENTATIVE OFFICE IN TAIWAN.

#90156k0084 06/05/1990 ~Japanese News Agency

OSAKA (JUNE 5) KYODO - SUMITOMO METAL INDUSTRIES LTD. SAID TUESDAY ITS

U.S. SUBSIDIARY HAS STARTED CONSTRUCTING A PLANT IN GEORGETOWN, KENTUCKY, TO PRODUCE CRANKSHAFTS FOR CARS STARTING IN APRIL 1992.

THE NEW FACTORY WILL EMPLOY ABOUT 100 WORKERS AND PLANS ARE FOR IT TO PRODUCE ABOUT 800,000 CRANKSHAFTS ANNUALLY, SUMITOMO METAL OFFICIALS SAID. ANNUAL SALES ARE TARGETED AT ABOUT 4 BILLION YEN.

LAST FEBRUARY, SUMITOMO, A LEADING JAPANESE STEELMAKER, ESTABLISHED THE U.S. SUBSIDIARY, CALLED INTERNATIONAL CRANKSHAFT INC. AND CAPITALIZED AT 17 MILLION DOLLARS, IN DELAWARE.

TOTAL INVESTMENT IN THE PROJECT IS ESTIMATED AT 40 MILLION DOLLARS, INCLUDING THE SUM PROVIDED AS THE SUBSIDIARY'S CAPITAL, THE OFFICIALS SAID.

#90156k0085 06/05/1990 ~Japanese News Agency

OSAKA (JUNE 5) KYODO - KOBE STEEL LTD. HAS ACQUIRED AN 8 PERCENT STAKE IN A U.S. COMPACT HARD DISK DRIVE MAKER, PRARIETEK CORP., BY INVESTING 5 MILLION DOLLARS, KOBE STEEL OFFICIALS SAID TUESDAY.

PRARIETEK, ESTABLISHED 1986 IN LONGMONT, COLORADO, IS A MAKER OF 2.5-INCH HARD DISK DRIVES USED IN LAPTOP COMPUTERS.

KOBE STEEL, ONE OF JAPAN'S LEADING STEELMAKERS, IS AIMING TO STEP UP BUSINESS-USE COMPUTER PARTS, THE OFFICIALS SAID.

-30- 588

#90156k0088 06/05/1990 ~Japanese News Agency

MANILA (JUNE 5) KYODO - PHILIPPINE EXTERNAL DEBT STOOD AT 26.34 BILLION U.S. DOLLARS AS OF MARCH, DOWN BY 4.6 PERCENT FROM 27.61 BILLION DOLLARS IN DECEMBER, THE PHILIPPINE CENTRAL BANK ANNOUNCED TUESDAY.

THE DEPRECIATION OF CURRENCIES OF MANILA'S CREDITOR COUNTRIES, NOTABLY THE JAPANESE YEN, WAS THE MAIN REASON FOR THE DECLINE IN THE DEBT BURDEN. THE FOREIGN EXCHANGE VALUATION, OR CHANGE IN CURRENCY VALUES, CONTRIBUTED 323 MILLION U.S. DOLLARS TO THE REDUCTION.

ANOTHER 39 MILLION U.S. DOLLARS OF THE SHRINKAGE IS ATTRIBUTABLE TO VARIOUS DEBT REDUCTION SCHEMES SUCH AS THE DEBT-TO-EQUITY CONVERSION PROGRAM AND THE DEBT-FOR-ASSET SWAP SCHEME.

THE CENTRAL BANK SAID THAT OF THE REMAINING 26.34 BILLION U.S. DOLLARS IN DEBT, 43.8 PERCENT OR 11.52 BILLION U.S. DOLLARS WAS OWED TO COMMERCIAL BANKS AND OTHER FINANCIAL INSTITUTIONS, 24.5 PERCENT OR 6.44 BILLION U.S. DOLLARS TO SINGLE-NATION INSTITUTIONS, AND 21.7 PERCENT OR 5.70 BILLION U.S. DOLLARS TO MULTINATIONAL FINANCIAL INSTITUTIONS.

THE PUBLIC SECTOR, NAMELY THE GOVERNMENT, GOVERNMENTAL FINANCIAL INSTITUTIONS, AND THE PUBLIC CORPORATE SECTOR, REMAINS THE COUNTRY'S BIGGEST BORROWER, RESPONSIBLE FOR 16.01 BILLION DOLLARS OF THE DEBT. THE PRIVATE SECTOR OWES 5.60 BILLION DOLLARS, AND THE CENTRAL BANK HAS FOREIGN DEBTS WORTH 4.71 BILLION DOLLARS.

THE BULK OF THE DEBT, ABOUT 83.8 PERCENT OR 22.08 BILLION U.S. DOLLARS, IS IN THE FORM OF MEDIUM AND LONG-TERM OBLIGATIONS, WHILE SHORT-TERM DEBT ACCOUNTS FOR 16.2 PERCENT OR 4.25 BILLION U.S. DOLLARS.

#90156k0092 06/05/1990 ~Japanese News Agency

BACOLOD, PHILIPPINES (JUNE 5) KYODO - SOME 2,000 TROOPS AND VILLAGERS TUESDAY LAUNCHED MASSIVE SEARCH AND RESCUE OPERATIONS FOR JAPANESE AID WORKER FUMIO MIZUNO, WHO WAS KIDNAPPED BY SUSPECTED COMMUNIST REBELS IN NEGROS ISLAND A WEEK AGO.

BRIG. GEN. ROMEO ZULUETA, CHIEF OF THE VISAYAS COMMAND TO WHICH NEGROS BELONGS, SAID AIRCRAFT WILL BE FLOWN IN FROM NEARBY CEBU PROVINCE TO SUPPORT GROUND TROOPS IN THE SEARCH.

MEANWHILE, RESIDENTS OF MURCIA BENEFITING FROM MIZUNO'S AID PROJECTS ALSO PREPARED TO FOLLOW THE ROUTE THEY BELIEVE WAS TAKEN BY THE JAPANESE WORKER'S ABDUCTORS, THE GOVERNMENT NEWS AGENCY REPORTED.

LYDIA TOGLE, A COMMUNITY LEADER, SAID VILLAGERS DECIDED TO UNDERTAKE THE SEARCH AFTER AN EMISSARY SENT TO THE MOUNTAINS TO DELIVER A LETTER APPEALING FOR THE RELEASE OF MIZUNO FAILED TO RETURN, THE PHILIPPINE NEWS AGENCY (PNA) REPORTED.

"WE ARE A BIT SCARED TO DO IT OUR OWN WAY, BUT MIZUNO HAD DONE A LOT OF GOOD THINGS FOR EVERYONE HERE THAT WE CANNOT JUST STAND BY AND WAIT," PNA QUOTED TOGLE AS SAYING.

RESIDENTS OF MURCIA BELIEVE THAT MIZUNO WAS BEING KEPT SOMEWHERE IN THE VILLAGES OF MARIKATO AND MAGTAHOS, WHICH TOGLE DESCRIBED AS A THICKLY-WOODED AREA FREQUENTED BY REBELS, THE NEWS AGENCY SAID.

GOVERNMENT AND MILITARY OFFICIALS TOLD A NEWS CONFERENCE HERE THAT THEY BELIEVE THE MAIN REASON FOR THE KIDNAPPING WAS RANSOM, ALTHOUGH THERE HAS BEEN NO WORD FROM THE REBELS ON THE INCIDENT.

"THEY WILL DO ANYTHING TO RAISE FUNDS," SAID ZULUETA, WHO ARRIVED TUESDAY TO ASSIST LOCAL MILITARY OFFICIALS.

BRIG. GEN. RAYMUNDO JARQUE, NEGROS ISLAND COMMANDER, SAID CIVILIAN SOURCES

HAD IDENTIFIED THE FOUR-MAN REBEL TEAM WHICH ABDUCTED MIZUNO LAST WEEK.

MIZUNO WAS KIDNAPPED IN MINOYAN VILLAGE, 40 KILOMETERS SOUTHEAST OF BACOLOD, WHILE HE WAS VISITING A SERICULTURE PROJECT FUNDED BY HIS AGENCY, THE ORGANIZATION FOR INDUSTRIAL, SPIRITUAL, AND CULTURAL ADVANCEMENT (OISCA), WHERE HE IS TRAINING DIRECTOR.

ZULUETA SAID THERE IS A "GOOD CHANCE" THAT GOVERNMENT SOLDIERS WILL BE ABLE TO RESCUE MIZUNO ALIVE.

"BASED ON PAST KIDNAPPING INCIDENTS, THE REBELS ALWAYS RELEASE THEIR CAPTIVES," HE SAID.

THE REBEL NEW PEOPLE'S ARMY HAS ABDUCTED SCORES OF SOLDIERS IN THE PAST AND RELEASED THEM LATER IN EXCHANGE FOR POLITICAL DEMANDS, BUT MIZUNO'S KIDNAPPING IS THE FIRST REPORTED CASE INVOLVING A FOREIGNER.

SEVERAL MONTHS AGO, THE REBELS HAD WARNED THAT THEY WOULD ATTACK JAPANESE AND OTHER FOREIGN-ASSISTED AID PROJECTS IF THESE WERE FOUND TO BE SUPPORTING THE GOVERNMENT'S ANTI-INSURGENCY CAMPAIGN.

JARQUE SAID THE REBELS APPARENTLY BELIEVE OISCA IS PART OF A CAMPAIGN TO WEAKEN COMMUNIST INFLUENCE IN HINTERLAND VILLAGES THROUGH SOCIO-ECONOMIC PROJECTS SUCH AS THE ONE MIZUNO WAS VISITING WHEN HE WAS ABDUCTED.

TOKYO (JUNE 5) KYODO - TWELVE MAJOR JAPANESE COMMERCIAL BANKS MAY SIMULTANEOUSLY START OPERATION OF CASH DISPENSERS (CDS) AND AUTOMATIC TELLER MACHINES (ATMS) ON SUNDAYS AND OTHER HOLIDAYS IN THE FIRST QUARTER OF 1991, A TOP BANKER SAID TUESDAY.

TAIZO HASHIDA, PRESIDENT OF THE FEDERATION OF BANKERS' ASSOCIATIONS OF JAPAN, SAID IN A PRESS CONFERENCE THAT THE POSSIBILITY IS NOW UNDER STUDY.

HASHIDA, WHO IS ALSO PRESIDENT OF FUJI BANK, SAID IT WOULD BE BEST FOR THE 12 BANKS TO START SUNDAY OPERATION BY MEANS OF THEIR ON-LINE SYSTEM, BANCS.

HE SAID THE ADDITIONAL COSTS INVOLVED SHOULD BE PAID BY USERS.

-30- 778

#90156k0109 06/05/1990 ~Japanese News Agency

TOKYO (JUNE 5) KYODO - AUSTRALIAN MINISTER OF FOREIGN AFFAIRS AND TRADE GARETH EVANS WILL PAY A FOUR-DAY VISIT TO JAPAN JUNE 7-10 AT THE INVITATION OF THE JAPANESE FOREIGN MINISTRY, MINISTRY OFFICIALS SAID TUESDAY.

OFFICIALS SAID THAT EVANS WILL LIKELY MEET WITH GOVERNMENT LEADERS SUCH AS FOREIGN MINISTER TARO NAKAYAMA AND PRIME MINISTER TOSHIKI KAIFU, AS WELL AS MEMBERS OF THE DIET, TO EXCHANGE VIEWS ON BILATERAL AND INTERNATIONAL TOPICS.

NAKAYAMA IS LIKELY TO BRIEF EVANS ON THE OUTCOME OF THE TOKYO MEETING ON CAMBODIA, HELD JUNE 4-5 BETWEEN PREMIER HUN SEN OF THE HANOI-INSTALLED PHNOM PENH GOVERNMENT AND RESISTANCE ALLIANCE LEADER PRINCE NORODOM SIHANOUK MONDAY AND TUESDAY, OFFICIALS SAID.

EVANS HAS BEEN ACTIVE IN THE CAMBODIAN PEACE PROCESS, HAVING FIELDED A PLAN CALLING FOR THE ESTABLISHMENT OF A UNITED NATIONS AUTHORITY IN CAMBODIA AND THE VACATING OF THE COUNTRY'S U.N. SEAT, PRESENTLY HELD BY SIHANOUK'S RESISTANCE COALITION, PENDING INTERNATIONALLY SUPERVISED ELECTIONS AND THE FORMATION OF A NEW GOVERNMENT.

ON ECONOMIC MATTERS, EVANS IS EXPECTED TO CALL ON JAPAN TO INVEST NOT ONLY IN REAL ESTATE, BUT IN MANUFACTURING AS WELL, AND TO IMPORT MORE AUSTRALIAN PRIMARY PRODUCTS.

-30- 1400

#90156m0001 06/05/1990 ~Market Consensus Surveys

FALLS CHURCH, VA (JUNE 5) MCS -- A SAMPLING OF TODAY'S COMMENTARY COMPILED BY MARKET CONSENSUS SURVEYS, INC. IN TWO SECTIONS (1) STOCKS (2)MONEY & ECONOMY.

IN THE NEWS:

GREYHOUND LINES INC. files for protection from its creditors under Chapter 11 bankruptcy. The move comes three months after drivers went on strike. The company says there will be no interruption of service. ... ROBERT

CAMPEAU was granted an extension in his bid to regain majority control of CAMPEAU CORP. ... AMERICAN EXPRESS quietly stops giving free car-rental insurance to its corporate card holders at big firms. ... CITICORP is ending its underwriting and trading of municipal securities.

WHAT'S AHEAD:

The ECONOMIC STRATEGY INSTITUTE opens in Washington today. ... The SENATE ANTI-TRUST, MONOPOLIES AND BUSINESS RIGHTS SUBCOMMITTEE holds hearings today on the adverse effects of some insurance industry pratices on small businesses.

FROM THE BULLS:

So far this is a "quiet bull market," says GEORGE FROLEY III, a managing director of FROLEY REVY INVESTMENT CO., of Los Angeles. "It has featured no big excesses. Any stock that's frothy comes back down. But the big stocks keep chugging up. When the Dow gets to 3000, people are going to say: 'Why am I not in it?'" (WSJ, 6/5)

"It looks like the market wants to go higher before it corrects," says JACK SOLOMON of BEAR STEARNS & CO. "There is a lot of cash on the sidelines and there was a lot of skepticism when the rally started. I don't feel the stock market is afraid of inflation, because the economy is sluggish enough that there is no reason for the Federal Reserve to tighten monetary policy," says Solomon. He believes that the correction will be relatively minor, and will fuel a push farther ahead. "The most I would expect on the downside is 2850 and at that point I think buyers would step up. I am looking for a Dow of 3300 this year." ("Investor's Daily", 6/5)

FROM THE BEARS:

Veteran surveyor of household opinion, ALBERT SINDLINGER of Wallingford, Pa. says small investors are merely "putting their money where their hopes are." His firm, which surveys 800 households a week, finds that their short-term plans to buy stock have increased to 9% of those questioned on May 28 from only 3% a month earlier. "A bunch of foolish people are convinced that interest rates will decline with no recession and inflation under control," Mr. Sindlinger warns. But in his opinion "this can't happen. We've got too many debts." He views the current rally as "a bear-trap for suckers" -- a brief upsurge preceding a sharp decline. (WSJ 6/5)

STOCK MARKET:

"The magnet of 3000 in the Dow industrials is proving irresistible," says RONALD SLOAN, executive vice president of SIEBEL CAPITAL MANAGEMENT INC. "It's like a flame and the moths are drawn to it. I don't know what

happens when we get there, but obviously we are getting there." However, Mr. Sloan worries that the stock market may be overvalued relative to bonds. "Earnings have to build the story from here, and I have been disappointed by earnings so far." (WSJ, 6/5)

"What's really coming into play now seems to be a shift out of bonds and into equities," says DALE TILLS, manager of institutional equity trading at CHARLES SCHWAB & CO. in San Francisco. He says this is a sign that lower interest rates are expected and that bonds are not seen as such stiff competition for stocks any more. He also notes that more and more money is coming in to stock mutual funds which is feeding the market's momentum. With Monday's close, the Dow industrials are within striking distance of the 3000 century mark. "The momentum could boost us to 3000 pretty quickly, but we're getting pretty overbought after today's move," says Tills. "We could see a correction in the next day or two before moving higher." (UPI, 6/4)

"Large investors over the past couple of weeks have been putting money back into the stock market," says PETER VANDENBERG, a senior vice president and block trader at SHEARSON LEHMAN HUTTON INC. "Interest rates are falling, making stocks more attractive, and there is a better feeling about corporate profits." He adds that whenever stock prices slide a bit, big institutions are ready to step in and buy. DEAN WITTER's PHILIP ROTH explains that "performance pressures are forcing the pros to buy stocks" even though many of them have been bearish for a long time. Mr. Roth adds that polls of investment advisers, futures players and investor organizations indicate "bullishness, but none of them show excessive bullishness." Analysts see the caution among small investors as a good sign, because it prevents a crowd psychology that lifts stock prices beyond their true worth. (WSJ, 6/5)

"This market is strong and getting stronger," says JON GROVEMAN, president and chief trader at LADENBURG, THALMANN. ("The Washington Post", 6/5)

"It sounds trite, but there's just a lack of selling," says JOHN BURNETT, senior vice-president and head trader at DONALDSON, LUFKIN & JENRETTE SECURITIES CORP. "The buyers are still there. It seems like every morning another portfolio manager wakes up and says, 'I've gotta be in this market.'" Mr. Burnette notes that Monday's rise was aided by strength in the financial issues. (UPI, 6/4)

MICHAEL METZ of OPPENHEIMER & CO. reports that a hope for lower interest rates drove yesterday's market to a new high. "I think there's a growing conviction that interest rates are going down, inflation is no longer a problem, and that the economy is going to slow down, but we don't have a recession ahead of us. In that environment stocks and bonds are very attractive. More people are realizing this, and anxious to hop aboard." (CNN "Moneyline", 6/4)

The market is in a "silly season" when it is ignoring all the news except the good news, says ROBERT STOVALL of STOVALL/TWENTY-FIRST ADVISERS. "The market leadership has broadened out a great deal." Mr. Stovall also says that the GENERAL MOTORS bellwether is forecasting a "summer rally of sorts." He thinks we could have a correction, but no serious pullbacks for the next four months. "I think the trend is up." (FNN "Marketwrap", 6/4)

Activity among individual or small investors "is up, but they are still skeptical," says ROBERT FARRELL, the chief technical analyst at MERRILL LYNCH & CO. "So far, they are doing more selling of individual stocks than buying." (WSJ, 6/5)

CHARLES CLOUGH of MERRILL LYNCH reports the small investor has jumped into this rally with both feet. "What we've done is started to move the individual investor out of certificates of deposit, which is something we thought would happen for quite a while. We thought, however, that he would be more yield sensitive and look to the bond market first, but he's moved directly to stocks." (CNBC "World Business View", 6/4)

"We may be in the zone now where the market may start to pause," says BILL WOLMAN, chief economist for CNBC. "I think if the S&P goes much above 7% or 9%, I would start getting concerned." (CNBC "Market Wrap-Up", 6/4)

"We had such narrow leadership," says HUGH JOHNSON of FIRST ALBANY. "It's been a fairly limited bull market for the first three or four weeks of this recent surge. There is not much value left in the stocks that led us up in the first part of the rally." Johnson feels that the rest of the market is starting to keep pace. "We are starting to see a broadening in this rally." (FNN "Business Tonight", 6/4)

STOCK TIPS:

CIRCUS CIRCUS ENTERPRISES' new casino EXCALIBUR, "will be profitable on the very first day of operation," says WILLARD BROWN of DEAN WITTER REYNOLDS. He points out that "their last six were profitable on the very first day. They are, by any measure, the class act in the casino industry in the United States." Circus Circus closed at 62 3/4, up 1 5/8. (FNN "Marketwrap", 6/4)

For a strong turnaround stock and a European play, JON WORONOFF of the INTERNATIONAL FUND MONITOR recommends ALSUISSE, a Swiss manufacturer with interests in aluminum, chemicals and plastics. (FNN "World Business Update", 6/5)

MARIO GABELLI of GABELLI & CO. says that Monday's rally was a Gorbachev/Bush rally, but he adds that traditional forms of measurement

seem to show that the "market has very little room on the upside, however, when you start looking at pockets, there are still great opportunities to make a lot of money over the next several years, risk adjusted." He says this is particularly true in the small cap stocks that dominate an area of activity. He says, "All roads lead to Hollywood," and therefore, he recommends MCA, DISNEY and PARAMOUNT which he says are well poised to capitalize on the global changes of the 90s. As an infrastructure play he likes BOEING and SPS TECHNOLOGIES. He also likes certain environmental stocks such as PITTWAY, which makes a non-fluorocarbon spray can. As a group, Mr. Gabelli likes undervalued telephone companies. Overall he say, "I would be 100% invested in small, beautiful companies like the telephone industry." (FNN "Marketwrap", 6/4)

The Pros win in May in "The Wall Street Journal's" monthly contest which pits the pros against the dart board. In June's contest the pros choose the following: LAWRENCE CISNEROS of SAN JUAN ASSET MANAGEMENT INC. recommends a specialty-chemical company, DEXTER 3 CORP., because he likes the way they pick their niches. JONATHAN STEINBERG, publisher of "Individual Investor" magazine, picks the FINANCIAL NEWS NETWORK INC. which he says appears "to have been beaten back" by rival CNBC, but they are upgrading their programming and "will be one of the leading disseminators of business information into the next century." ALAN BOND, equity portfolio manager at W.R. LAZARD & CO. in New York recommends SYNTEX CORP. for its diversification in the drug industry. Finally, HEIKO THIEME picks CITICORP because "nobody wants" it because of banking industry problems. The dartboard portfolio consists of CALLAHAN MINING CORP., KNOGO CORP., PINNACLE WEST CAPITAL CORP. and SONAT INC. (WSJ, 6/4)

ALLEN SLOAN, a columnist for "Newsday" in New York says that URCARCO, a company which sells used cars, is one of Wall Street's latest "concept stocks." He says investors are buying the stock with less skepticism than one would have in buying a used car. The concept among investor's is that "Urcarco will be to used cars what Toys 'R' Us is to toys -- a company that will become the dominate factor in a fragmented business." This may happen someday, but until it does the company's cash deficit makes the company vulnerable. Mr. Sloan's advice, "If you want to buy this stock -- or any "concept" stock -- for more than a short-term trade, you had better go out and kick some tires." ("The Washington Post", 6/5)

"My judgement is that where we find the best values are in the cyclicals: chemicals, textiles, steel, some of the metal stocks," says HUGH JOHNSON of FIRST ALBANY. "My guess is that they will be the next to move up." (FNN "Business Tonight", 6/4)

#90156m0002 06/05/1990 ~Market Consensus Surveys

FALLS CHURCH, VA (JUNE 5) MCS -- A SAMPLING OF TODAY'S COMMENTARY

COMPILED BY MARKET CONSENSUS SURVEYS, INC. IN TWO SECTIONS (1) STOCKS (2) MONEY & ECONOMY.

MONEY & CREDIT:

BOB MORRISSEY, senior currency trader at the BANK of BOSTON, echoed the dollar's blase day yesterday with an equally blase statement: "For the most part it was a very quiet, a dull day with the dollar stuck in a narrow range." ("Investor's Daily", 6/5)

The dollar closed mixed, falling against the mark on profit-taking yesterday, but ALBERT SORIA of KANSALLIS-OSAKE-PANKKI says, "The trend is still up." (Reuters, 6/4)

"The dollar and lower commodity prices have helped out [in the bond market], but we're pretty much biding time until next week's [economic] data," says KEVIN FLANAGAN, a money market economist at DEAN WITTER REYNOLDS INC. (WSJ, 6/5)

"I think the Fed will ease in June, after the May producer price and consumer price figures come out," says WARD McCARTHY, managing director at STONE & McCARTHY RESEARCH ASSOCIATES. "That easing, which will push the funds rate to 8% from its current level of 8 1/4%, will be nicely timed in advance of ALAN GREENSPAN's Humphrey- Hawkins testimony in Congress in July, and will take some political heat off of him." (NYT, 6/5)

DAVID HORNER of MERRILL LYNCH thinks that the next move in interest rates will be down. "I think rates will come down a little bit more. I think the inflation picture, for now, is looking a little bit better." He believes that the change will come soon, "maybe even before the July [FOMC] meeting. I think we will get an easing, maybe two." (FNN "Marketwrap", 6/4)

"The economy is weak and is virtually certain to remain so for an extended period," says PHILIP BRAVERMAN of DKB SECURITIES CORP. He feels that interest rates will eventually fall below 8%. He believes that the weak economy, "ensures waning inflation" and "Federal Reserve easing." That easing is likely to take place this summer, "probably following the early July meeting of its (policy-setting) Open Market Committee." ("Investor's Daily", 6/5)

U.S. debt futures rallied on short covering and technical buying late in the session but gave up some of the gains when long positions evaporated. "It was a positive day, with sentiment good after Friday's strong movement " says CARMEN KNOEPPFLER of SHEARSON LEHMAN HUTTON's bond futures division. Knoeppfler called the pullback "modest" and says that "technical factors for the near term point to the possibility of higher moves before [any] significant correction." (Reuters, 6/4)

"The [bond] market is digesting Friday's very large gains and waiting for more news on economic growth and inflation," says LYNN REASER, a vice president and senior economist at FIRST INTERSTATE BANK LTD. "The fact that the market has been able to retain the gains from Friday is positive. There's been very little profit taking." (WSJ, 6/5)

THE ECONOMY:

"There's really been no radical change in the external world," says MICHAEL METZ of OPPENHEIMER & CO. "But it looks like we are having a slowdown without a recession. And if the Fed is going to change it will be toward easing interest rates." (NYT, 6/5)

Revised figures on productivity showed a 2.7% drop in the first three months of this year which was far steeper than the government initially reported. "I thought it was a dismal report," says ALLEN SINAI, chief economist at BOSTON CO. in New York. "Just as the manufacturing sector is starting to show signs of life, the services side of the economy is looking worse. The implied productivity growth in services is so bad and the hike in unit labor costs is so high, that it looks like services will have to do what manufacturing did -- they're going to have to clean house." Sinai also pointed to the jump in unit labor costs, from 5.5% in the fourth quarter of 1989 to 7% for this year's first quarter, as a source of inflationary problems. "Unit labor costs call the tune on inflation," stated Sinai. ("Investor's Daily" and WSJ, 6/5)

"The rise in productivity in manufacturing is quite positive because the U.S. will be depending on manufacturing for exports to keep the economy going throughout this year and possibly the next," says FEDERAL HOME LOAN BANK of NEW YORK senior economist RAE ROSEN. "Rising productivity gives U.S. manufacturers some more leeway in pricing, which is quite heartening." ("Investor's Daily", 6/5)

"The good news is that manufacturing productivity remained strong," says DAVID WYSS, chief financial economist at DRI/McGRAW HILL. "Productivity in the rest of the economy was dreadful." ("Investor's Daily", 6/5)

"When push comes to shove, I think that [the Fed] would rather push the funds rate down another 25 basis points than shove the economy into recession," says CAROLINE BAUM of TELERATE. "This Fed has shown us that they move very slowly and gradually. We're as far as we can go unless we get that scent of ease in the air. It's there now, but the breeze isn't going to blow until summer." (FNN "Marketwrap", 6/4)

"It's been an erosion--a Chinese water torture type decline--we've seen,"

says WILLIAM O'NEIL of ELDERS FUTURES regarding the drop in gold. PETER REDLING of GEORGETOWN FUTURES says the downside should be around the $330 to $340 level. "We think fundamentals will grab hold there and that supply will lessen and firm the price up." ("Nightly Business Report", 6/4)

IN WASHINGTON:

Congress is debating whether savings incentives actually raise the level of savings, or merely shift savings from one form to another, and the debate seems likely to rage on, without a solution. "It's the $64,000 question," says the director of the CONGRESSIONAL BUDGET OFFICE, ROBERT REISCHAUER. "It's not clear we have an answer." ("Investor's Daily", 6/5)

The new Chilean government will attempt to institute new market incentives into its economy, the Chilean Ambassador to the United States, PATRICIO SILVA ECHENIQUE, told a news conference yesterday. "Prices will be absolutely free, and the main economic decisions are going to be taken by the market," said Echenique. The Ambassador added that these measures were the only way to ensure that "resources will go to the private sector." ("Investor's Daily", 6/5)

#90156p5092 06/05/1990 ~PR Newswire

ALBUQUERQUE, NM (JUNE 5) PR NEWSWIRE - Neal Elliott, president and chairman of the board of Horizon Healthcare Corp. (NYSE: HHC), today announced that on June 1, 1990 Horizon completed the previously announced refinancing of approximately $21 million of its existing mortgage and working capital debt. Through this transaction Horizon replaced its principal lender, lowered its interest expense and increased its borrowing capacity by approximately $6 million. Horizon's new credit facility includes both mortgage and working capital financing and is provided by HomeFed Bank of San Diego, Calif. and Sunwest Bank of Albuquerque.

In commenting on the new loan, Elliott stated, "We are very pleased that we were able to complete this loan transaction. It was a critical element of the strategic plan which we outlined last year at this time for the future fiscal health of the company. We look forward to working with our new lenders."

Horizon was incorporated in July, 1986 and began trading on the New York Stock Exchange on May 7, 1987; as of May 31, 1990 the company operated in 10 states a total of 48 long term care facilities with 5,199 beds, three retirement housing facilities with 139 apartments and one assisted living facility with 167 units.

#90156p5110 06/05/1990 ~PR Newswire
BEVERLY HILLS, CA (JUNE 5) PR NEWSWIRE - Qintex Entertainment Inc. (QEI) (NASDAQ: QNTXE) today reported that its board of directors has approved the sale of the company's operating assets for over $65 million in cash in two separate transactions.

QEI has reached an agreement with RHI Entertainment to sell its entertainment assets for $42.4 million. Under another agreement, certain assets of HR Broadcasting (HRBC) will be sold to ABRY Communications for cash in a transaction which will result in over $40 million of cash available for distribution to HRBC's creditors and shareholders. QEI expects to receive at least $23 million from the distribution of those proceeds for its interests in HRBC.

The asset sales were arranged by the company in conjunction with QEI's creditors and the company's investment banker, Donaldson, Lufkin & Jenrette. As reported on Oct. 19, 1989, QEI has filed for protection

under Chapter 11 of the Federal Bankruptcy Code.

The QEI library, accounts receivable, development projects, and other assets will be sold to RHI Entertainment in a cash transactions totalling $42.4 million. The transaction with RHI will be financed by bank debt and a group of equity investors.

HRBC will sell its primary operating assets consisting of television stations WTTO in Birmingham, Ala., and WCGV in Milwaukee, Wis. HRBV will retire its bank debt and make a distribution to its creditors and shareholders from which QEI expects to receive at least $23 million.

The transactions are subject to completion of final due diligence, regulatory approvals, execution of definitive documentation and the approval of the U.S. Bankruptcy Court. QEI expects to propose the asset sales to the court within the next two weeks, and final approval would be expected several weeks later. The transactions are being arranged in accordance with Section 363 of the U.S. Bankruptcy Code. Funds from the assets sales will be allocated in accordance with a reorganization plan that will subsequently be proposed through the court.

#90156p5116 06/05/1990 ~PR Newswire

TOKYO (JUNE 5) PR NEWSWIRE - Kubota Corporation, Japan's leading manufacturer of farm equipment, industrial pipe, machinery and housing materials, today issued its consolidated statements of earnings for the year ended March 31, reporting an increase in sales and a decline in net profit from the comparable period of last year.

According to the statements, the company's sales for fiscal 1990 totaled 821,881 million yen (US$5,202 million), an increase of 13.9 percent over the previous fiscal year, comprising 690,155 million yen ($4,368 million) at home, up 11.3 percent, and 131,726 million yen ($834 million) overseas, up 29,8 percent. The ratio of export sales to total net sales was 16 percent, up 1.9 percentage points over the previous fiscal year.

Operating income decreased 14.7 percent to 36,306 million yen ($230 million), and net income declined 58.8 percent to 7,599 million yen ($48 million).

Net income per ADS decreased by 154 yen to 108 yen ($0.68). Commenting on the fiscal 1990 performance, Kubota President Shigekazu Mino said that buoyed by strong demand, Kubota boosted sales of electronic equipped machinery, home utilities and prefabricated houses on the domestic market.

Despite difficult market conditions, Mino said, sales of farm equipment also increased, owing to intensified sales efforts and the marketing of new products.

In overseas markets, he noted, sales of electronic equipped machinery, engines, machinery for green-maintenance purpose, and casting materials continued to grow.

The president attributed the decrease in operating income to higher costs of materials and increasing depreciation costs caused by the expansion of production facilities.

The decrease in net income resulted from higher interest rates, exchange

losses and increasing costs for the development of computers and other new businesses, Mino added.

#90156p5118 06/05/1990 ~PR Newswire

SYRACUSE, NY (JUNE 5) PR NEWSWIRE - Niagara Mohawk Power Corporation (NYSE: NMK) today reported earnings of $101 million or 74 cents per share for the four months ended April 30, 1990. Earnings for the same period one year ago were $80 million or 59 cents per share.

For the 12 months ended April 30, 1990, earnings were $126 million or 93 cents per share. For the 12-month period one year ago, earnings were $112 million or 84 cents per share.

Earnings for both 1990 reporting periods were higher due to the impact of an August 1989 regulatory agreement that provides certain expense deferrals and recovery of replacement power costs incurred because of the Nine Mile Unit One outage. Included in earnings for the first four months of 1990 are $23 million or $.11 per share of expense deferrals provided by the agreement. Earnings for the 12 months ended April 30, 1990 include $37 million or $.18 per share of deferrals.

Total electric sales increased 1.6 percent for the four-month period, including a 58.5 percent increase in sales to other electric systems. Sales to ultimate customers was relatively unchanged compared to the prior

period. For the 12 months ended April 30, total electric sales increased 2.1 percent. Electric sales to ultimate customers increased 1.7 percent during this period.

Electric revenues for the four-month period increased 12.8 perce nt from $845.6 million to $953.7 million. For the 12 months ended April 30, 1990 electric revenues were $2,526.8 million, a 5.9 percent increase over the previous 12-month period.

Total gas delivered decreased 1.7 percent for the four months ended April 30, 1990. For the 12-month8eriod, total gas delivered increased 3.9 percent.

Gas revenues for the four-month period were $280.0 million, increasing 5.9 percent from $264.4 million for the same period in 1988. For the 12-month period, gas revenues increased 6.8 percent from $470.9 million to $502.9 million.

#90156p5119 06/05/1990 ~PR Newswire

WASHINGTON (JUNE 5) PR NEWSWIRE - Cel-Sci Corporation (NASDAQ: CELI) of Alexandria, Va., and Alpha 1 Biomedicals, Inc. (NASDAQ: ALBMC) of Washington, announced that the first U.S. patent covering exclusive production, use and sale of HGP-30, the active component of a potential AIDS subunit vaccine, has been allowed for their jointly owned and privately held subsidiary, Viral Technologies, Inc.

The final patent will be issued later this summer. Cel-Sci President Maximillian de Clara called the notification of patent allowance "extremely significant because it is after all possible for a company to be excluded from the marketplace no matter how much good work it has done in the lab and clinic, if it does not have the right set of patents." The approved patent claims specifically cover a 30 amino acid peptide "highly conserved" region of the p17 "core" protein of HIV termed HGP-30, as well as related synthetic peptide analogs from 18 to 38 amino acids in length. All are synthetic analogs of a highly conserved region of the non-mutating AIDS virus "core" protein called p17.

Vincent F. Simmon, Ph.D., president of Alpha 1 Biomedicals and the VTI joint venture, emphasized that notification by the U.S. Patent and Trademark Office closely follows "encouraging early results" from HGP-30 human clinical trials in Britain and "the recent decision by the state of California to allow the first human tests of HGP-30 in the United States at San Francisco General Hospital and the University of California Medical

Center at Los Angeles."

Further results of HGP-30 tests in healthy volunteers conducted at St. Stephen's Hospital in London will be announced at the Sixth International AIDS Conference in San Francisco, June 20-24, by Dr. Allan Goldstein, Ph.D., of the George Washington University Medical Center in Washington. Dr. Goldstein heads the research team that discovered HGP- 30.

In a preliminary communication, Dr. Goldstein reported that 18 volunteers in London have completed immunization at zero, six, and 14 weeks, and to date, no toxicities have been observed.

Early immunological studies indicate that several of the volunteers are making targeted antibody responses to the p17 structural protein and are eliciting significant T-cell responses, including cytotoxic "killer T-cells" which are thought to be vital in the development of a protective AIDS vaccine.

Because p17 is common to all strains of the virus and does not mutate, Dr. Goldstein said, immunization with HGP-30 "may be effective in protecting an individual from all the various strains of the AIDS virus." He also emphasized that, because HGP-30 is a "totally synthetic molecule," there is "no chance" that administration of HGP-30 could cause an AIDS infection.

CONTACT: Geert Kersten, vice president, Cel-Sci Corporation, 703-549-5293; or Vincent F. Simmon, president, Alpha 1 Biomedicals, Inc., 202-628-9898.

#90156p5128 06/05/1990 ~PR Newswire

NAPLES, FL (JUNE 5) PR NEWSWIRE - BancFlorida, a Federal Savings Bank (the "bank"), which is the principal subsidiary of BancFlorida Financial Corporation (NYSE: BFL), today announced a one-year extension, until May 30, 1991, on $22.1 million of first mortgage and installment receivable loans to PGI Incorporated (AMEX: PGA) ("PGI"), a major real estate developer based in Charlotte County, Fla. The terms of the extension provide for the bank to release cash flow from certain PGI operations and up to 50 percent of cash flow from real estate collateral sales fo fund working capital requirements of PGI for the term of the extension. The annual interest rate on the loans, which remains unchanged, is 10 percent, payable monthly with interest only due until maturity.

The collateral value as calculated by the bank exceeds the loan balances after giving effect to the cash flow releases. During the past year the borrower met the terms and conditions of the extension agreement dated May 30, 1989, and all interest due was paid.

Of the $22.1 million of loans, $19.8 million represents a first mortgage loan which has been classified substandard since 1986 because of the financial difficulties experienced by the borrower. Due to uncertainty regarding the borrower's continued ability to pay interest, the bank will change the method for recognizing interest on the loans from the accrual to the cash receipts method. Under the cash receipts method, the bank will recognize interest as received as long as collateral value exceeds the loan amounts.

BancFlorida Financial Corporation has total assets of $1.7 billion and a book value per common share of $14.91 at March 31, 1990. The company has 3,414,021 shares of common stock and 1,138,000 shares of cumulative convertible preferred stock outstanding.

CONTACT: J. Michael Holmes or Carol E. Girardin, both of BancFlorida Financial Corporation, 813-597-1611.

#90156p5130 06/05/1990 ~PR Newswire

ST. PETERSBURG, FL (JUNE 5) PR NEWSWIRE - Security Tag Systems, Inc. (NASDAQ: STAG) today announced that operating results for fiscal year 1990 ended March 31, showed an 83 percent increase in revenues, and was coupled with an equally significant turnaround to profitability from last year's loss. Total revenues for fiscal year 1990 were $14,141,865 vs $7,721,936 last year, with a net income this year of over $575,000 vs last year's loss of more than $1.9 million.

Carter W. Clarke, Jr., president and chief executive officer of Security Tag Systems, stated, "The investment we made over the last two years in our own national sales force is beginning to pay dividends. Sales by this group grew by 285 percent over the previous year. In addition, sales to our international distributor increased by 79 percent. The basic reason for these impressive growth rates is worldwide recognition of the superiority of our varied product lines. We are the performance leader in our industry, and are now converting this advantage into increasing market share.

"An example of our creative ability to meet changing market needs is the recent introduction of the INKTAG(TM) which has received considerable national media attention. This new concept to thwart shoplifting has been quickly embraced by a large number of major U.S. retailers. We expect sales of this product to increase significantly this year, domestically and in Europe. This is but one indication of our dedication to developing unique products for our broadening customer base."

Security Tag Systems, Inc develops, manufactures and markets electronic detection systems for retail, business, industrial and military markets.

PHILADELPHIA (JUNE 5) PR NEWSWIRE - International Mobile Machines Corp. (NASDAQ: IMMC) today announced the results of the temporary reduction in the price of its $2.50 Cumulative Convertible Preferred Stock.

During the conversion period, 878,438 out of a total of 1 million preferred shares were converted into approximately 2.4 million shares of common stock. At present, 121,562 shares of IMM's $2.50 Cumulative Convertible Preferred Stock remain outstanding.

"We consider this conversion to be very successful," stated Sidney D. Rosenblatt, IMM's senior vice president and chief financial officer. "It exceeded our estimate of the number of shares we expected to be converted, and as a result it will save IMM approximately $2 million annually in dividend requirements."

For the 22-day conversion period, the company reduced the conversion price of its Preferred Stock from $12 to $8.93, and accordingly during that time each preferred share could have been converted into 2.80 shares of common stock, instead of 2.083 shares. At the close of business on June 1, 1990, the conversion reverted back to the original terms.

IMM is a world leader in wireless digital access technologies. The company is engaged primarily in the production, sale and installation of Ultraphone, a digital radiotelephone system. Ultraphone systems are currently operated by telephone companies in the United States, Canada and

Mexico.

BRANCHBURG, NJ (JUNE 5) PR NEWSWIRE - Air & Water Technnologies Corporation (AMEX: AWT) announced today that it is offering to purchase all of its outstanding 12-7/8 percent Senior Extendible Notes Due April 15 2000 at a price of $1,040 for each $1,000 principal amount thereof, together with accrued and unpaid interest up to the date of repurchase. In connection with the offer to repurchase, the company is soliciting consents from the holders of the Notes to amend the Indenture governing the Notes to remove substantially all financial covenants applicable to the Notes and to subordinate the payment of principal of and interest on the Notes to the prior payment in full of all Senior Indebtedness.

The company will not be obligated to make the offer to puchase the Notes unless a majority of the Notes is tendered and consents to the amendments are obtained. The company's offer to purchase expires at midnight, New York City time on July 2, 1990, unless extended.

Air & Water Technologies Corporation, through its operating units, Research-Cottrell, Inc., Metcalf & Eddy Companies Inc. (NASDAQ: METC), and Residuals Management Group, provides a broad range of environmental services in the areas of air pollution control, water resource management, and waste by-product disposal and reuse.

COSTA MESA, CA (JUNE 5) PR NEWSWIRE - Parker Automotive Corp. (OTC) has appointed Charles C. Chang and Stanley K. Sugasawara to be regional vice presidents of Asian Sales for their CarbonClean products. Chang will be liaison to Parker's Chinese-speaking Asian market, while Sugasawara's commission is to represent Parker to the large Japanese marketplace.

Prior to this appointment, Chang was employed by W.R Grace & Co. as managing director of Grace China, headquartered in Beijing, China. Grace specializes in the sale of catalysts and sealant products to the automotive and petroleum industries. In this position, Chang directed the development of business and investments for Grace both domestically and abroad, and, in fact, led the Chinese government to award the company the prestigious "Technologically Advanced Certificate," which entitled them to certain benefits never before granted to a wholly owned foreign company.

Chang holds a Ph.D. in catalysis and physical chemistry from the John Hopkins University, a master's degree from the University of Wisconsin and a bachelor's of science from the National Taiwan Normal University; both in physical chemistry.

Sugasawara has an equally impressive record in the area of international marketing. Most recently, Sugasawara was marketing manager for both the Far East and domestic markets of Centaure Vision Inc. of Irvine, Calif. Centaure is a software company specializing in computer-aided manufacturing and management programs for the printed circuit board industry.

Sugasawara was formerly marketing engineer for Gerber Scientific Industries of Tustin, Calif. There, he was responsible for product introductions of Laser Direct Imaging systems to the printed circuit board industries in both domestic and foreign markets.

Parker Automotive is a public company (OTC) headquartered in Costa Mesa. Parker's CarbonClean family of products is manufactured in Fountain Valley Calif, and regional sales offices are maintained worldwide. Currently, CarbonClean products are distributed in over 50 countries. Domestically, the product is approved, and in some cases marketed, by Exxon, Chevron, Arco, Gulf, Sunoco, Snap-on Tools, Nissan, Toyota, Hyundai and numerous other prominent firms.

TWINSBURG, OH (JUNE 5) PR NEWSWIRE - Revco D.S., Inc., today announced it has reached an agreement to sell 220 of its retail drug stores in Texas, Florida, Mississippi, Louisiana and Oklahoma to a company operated by Jack Eckerd Corp., of Clearwater, Fla., a privately held 1,575-drugstore chain. The purchase price was not disclosed.

Revco is currently operating under provisions of Chapter 11 of the U.S. Bankruptcy Code. The sale of stores to Eckerd is subject to approval by the U.S. Bankruptcy Court.

Boake A. Sells, Revco chairman and chief executive officer, said, "We are pleased at the progress of our divestiture program, and anticipate a smooth completion of this sales agreement with Eckerd."

Added Sells, "Once again, I want to thank the people of Revco for their strength and patience during a period of change."

Today's announcement represents a further implementation step in Revco's plan, announced Jan. 26, to divest 712 of its stores in 17 states.

At that time, the company said it will focus growth, build market share and enhance competitive position by reducing its store base to 1,100-plus drugstores in 10 contiguous eastern states accounting for 64 percent of chain sales.

Revco will concentrate future growth in these 10 states where its stores provide the greatest return on assets: Georgia, Maryland, New York, North Carolina, Ohio, Pennsylvania, South Carolina, eastern Tennessee (metropolitan Chattanooga and east), West Virginia, and Virginia.

Revco, one of the nation's foremost drugstore chains, fills more than 66 million prescriptions annually. Based in Twinsburg, Ohio, the company has annual sales in excess of $2.7 billion.

AKRON, OH (JUNE 5) PR NEWSWIRE - BFGoodrich (NYSE: GR) announced today that John N. Lauer has been elected to succeed Leigh Carter as chief operating officer and that he will also become president of the company when Carter retires from that position on September 1.

Lauer, a BFG executive vice president, will assume Carter's responsibilities as chief operating officer effective immediately.

Carter began his career in 1949 with Tremco, a company headquartered in Cleveland that now manufactures and markets specialty chemical products and associated services worldwide.

After progressing through a number of marketing and management positions, Carter in 1973 became president and chief executive officer of Tremco. He was named chairman in 1980.

Goodrich acquired Tremco in 1979 and now operates this business as a wholly owned subsidiary.

In 1982, Carter became an executive vice president of BFGoodrich and president of the Engineered Products Group. In 1984 he was elected vice chairman and operating officer and a member of the board of directors. He was elected president and chief operating officer in 1986.

He serves on the board of directors of Centerior Energy Corp., The

Sherwin-Williams Co., National City Corp., First Union Real Estate Investments and Adams Express Co. He is active in community organizations in the Cleveland area.

Carter is a graduate of Washington and Lee University. Lauer joined Goodrich on January 1, 1989 from Hoechst Celanese, where he was vice president and director, with responsibility for the company's Engineering Plastics Group. He also was a member of the operating board for the Worldwide Plastics and Waxes Group of Hoechst A. G., the parent company of Hoechst Celanese.

He was elected a member of BFG's board of directors in September 1989. Lauer is a member of the American Institute of Chemical Engineers and is a registered professional engineer in the state of Texas. He sits on the board of directors of the Chemical Industry Institute of Toxicology, DTM Corp., the Cleveland Opera Association and the Visiting Nurses Association of Cleveland and is a member of the Leadership Cleveland class of 1989.

Lauer is a chemical engineering graduate of the University of Maryland. He also holds a master's degree in business from Texas A&I University.

BFGoodrich produces vinyl resins and compounds, specialty chemicals and provides aerospace components and services.

LUND, SWEDEN (JUNE 5) PR NEWSWIRE - Gambro AB (NASDAQ: GAMBY) announced today that the expiration date of the $37 per share all cash tender offer by Gambro's subsidiary, Polo Acquisition Corporation, for all outstanding shares of COBE Laboratories, Inc. (NASDAQ: COBE) has been extended until 5:00 p.m., New York City time, on Monday, June 11, 1990.

As previously announced, the Federal Trade Commission requested more information and documentary material concerning the transaction under the Hart-Scott-Rodino Antitrust Improvements Act of 1976. Gambro expects to comply with this request on Tuesday, June 5, 1990. The waiting period required by the Hart-Scott-Rodino Act with respect to the tender offer will expire at 11:59 p.m., New York City time, on the tenth calendar day after the date of substantial compliance with the request, unless the waiting period is terminated earlier by the FTC and the Antitrust Division of the Department of Justice.

As of close of business on June 4, 1990, approximately 5,988,878 shares of common stock of COBE Laboratories, representing approximately 91 percent

of the shares outstanding, were tendered in the tender offer, including approximately 1,130,079 shares tendered by guaranteed delivery.

CONTACT: Mats Wahlstron, CFO, in Lund, Sweden: 011-46-46-169268, or Inger Larsson, in Lund: 011-46-46-169167, both of Gambro AB, or Jennifer R. Wall or Ken Donenfeld of D. F. King & Co., 212-269-5550, for Gambro.

#90156p5143 06/05/1990 ~PR Newswire

WILMINGTON, DE (JUNE 5) PR NEWSWIRE - Du Pont (NYSE: DD) today reported development of two potential alternatives to Halon fire extinguishants (FE) 1301 and 1211, which have been linked to depletion of the stratospheric ozone layer.

FE-25, targeted to replace Halon 1301, has no ozone depletion potential (ODP). The calculated ODP of FE-232 is less than one hundredth that of Halon 1211.

The ODP of the Halons is three to 10 times more than that of fully halogenated chlorofluorocarbons (CFCs), which are being phased down under the international Montreal Protocol. Provisions of the protocol call for a production freeze of Halons in 1992, although parties to it are expected to require a near total phaseout of both compounds around the year 2000.

Halon 1301 is used as a total flooding agent for fire protection in critical areas such as airplanes, ships, computer rooms, museums, hospitals and oil production facilities. Halon 1211 is used primarily in portable fire extinguishers.

FE-232 is HCFC-123, a hydrochlorofluorocarbon that will be produced commercially at Du Pont Canada's Maitland, Ontario, facility. FE-25 is HFC-125, hydrofluorocarbon that will be produced in small quantities at a pilot facility in Deepwater, N.J.

"Our Halon substitutes show favorable results in preliminary testing and will be ready soon for extensive industry evaluation and approval prior to broad scale use," said Alfred P. Dougherty Jr., Du Pont's sales manager for Halons.

"These are the best candidates to date that perform similarly to the Halons," Dougherty said. "But there are trade-offs. Although the new compounds offer improved environmental characteristics, they will undoubtedly cost more to produce and require more product for comparable effectiveness in use."

The global production of Halons was estimated at about 40 million pounds in 1989. About 60 percent of global production is for Halon 1211.

DETROIT (JUNE 5) PR NEWSWIRE - Production of GM's electric car, the Impact, will begin in 1993, reports Automotive Industries magazine in its June issue. Initial reports indicate that 2,000 Impact models will be built in 1993 as 1994 models. They will be sold exclusively to California utility companies and service industries. Assembly of the first Impacts may be outsourced.

1995 models are expected to be assembled in-house, but still in limited quantities - estimates run as high as 10,000 units. From there on out the car will be built in quantities of 50,000-100,000 per year.

Initially, battery technology is expected to be the current lead-acid recombinant design. But in 1995 a new type of battery will be used. To allay durability fears, GM plans to include replacement batteries - up to a specified mileage - as part of the warranty.

Automotive Industries magazine is published by the Chilton Co., a division of Capital Cities/ABC, Inc.

WORCESTER, MA (JUNE 5) PR NEWSWIRE - Transgenic Sciences, Inc. (NASDAQ: TSIN) announced today that it had acquired all of the stock of Laboratory Animal Services, Inc. of Springfield, Va., in exchange for 142,618 shares of TSI common stock. LAS is a preclinial testing facility serving the Washington, D.C. area. It services a number of pharmaceutical and government clients, including the National Cancer Institute of the National Institutes of Health (NIH).

"The acquisition of LAS will increase TSI revenues by approximately 10 percent and TSI profits by more than 25 percent. It represents dilution to our existing shareholders of less than 2 percent," said James P. Sherblom, chairman and CEO of TSI. "More importantly, it positions TSI in the attractive Washington drug testing market, plus provides an established relationship with the NIH. With TSI's support, LAS will be able to expand rapidly in this important market."

TSI is a life sciences company developing advanced toxicology tests and disease models based on genetic engineering and transgenic techniques to improve the efficiency of the pharmaceutical/chemical development process. TSI is also developing animal strains capable of producing commercially valuable pharmaceutical proteins, as well as strains with desirable growth and genetic characteristics.

#90156p5154 06/05/1990 ~PR Newswire

TROY, MI (JUNE 5) PR NEWSWIRE - Inacomp Computer Centers, Inc. (NASDAQ: INAC) ended third quarter 1990 on April 28 with revenues up 45 percent, at

$134,841,000 vs. $93,278,000 for the comparable quarter of 1989. Net income also increased to $1,827,000, up from $1,762,000 for third quarter fiscal 1989. Earnings per share rose to $.25 for third quarter fiscal 1990, compared to $.24 for the third quarter 1989.

The company's performance represented the 17th consecutive quarter of year-to-year improvements in both revenues and profitability.

Revenues for the three quarters of 1990 were positive, up 46 percent at $366,663,000 vs. $251,747,000 for the same period last year. Net income for the nine months running was up 11 percent, at $5,474,000 compared to $4,938,000 for the same period last year. Earnings per share for the nine-month period improved to $.75 this year from $.68 for the same period last year.

Rick Inatome, chairman of the board, president and chief executive officer stated, "I'm extremely pleased with our third-quarter results. Third-quarter net income and earnings per share were reduced due to costs totaling approximately $275,000. These expenses were incurred while evaluating a possible business combination that would have resulted in significant revenue increases for the company. In addition, Inacomp recently announced a new cost-up franchising program called 'TeamWorks,' which allows our franchises the opportunity to become more competitive. In anticipation of the roll-out of this program, the third quarter marked the first full quarter reflecting a reduction in charges to our franchises which resulted in additional costs of nearly $250,000. Taking these expenses into consideration, I think our results are very impressive."

"The company is also proud of third-quarter revenues. Our overall market growth, especially in new markets, as well as sales through our IBM industry remarketer affiliates has far exceeded industry growth," Inatome continued.

Inacomp Computer Centers, Inc. markets microcomputer systems and related products and services through over 200 company-owned, dealer and affiliate locations across the country. The company provides system consultation, installation, classroom training, system maintenance and repair to its customers. Inacomp also provides for short-term rental and long-term leasing of microcomputer systems. Corporate offices are in Troy.

#90156p5155 06/05/1990 ~PR Newswire

MINNEAPOLIS (JUNE 5) PR NEWSWIRE - Medtronic, Inc. (NYSE: MDT), today reported record net earnings of $108.7 million, or $4.03 a share, on

record revenues of $836.6 million for the fiscal year ended April 30, 1990.

Medtronic reported its best fourth quarter ever, with revenues of $236.7 million, 19.6 percent over the $197.9 million of the same period a year ago. Net earnings for the quarter were $31.1 million, an increase of 21.9 percent over the $25.5 million of a year earlier. Quarterly results were led by the strongest U.S. pacing unit sales in the company's history and record revenues in cardiovascular and neurological businesses.

For the full year, earnings increased 11.6 percent and earnings per share increased 10.4 percent compared with fiscal 1989 when Medtronic earned $97.4 million, or $3.65 a share, on revenues of $741.7 million.

Excluding nonrecurring items recognized in fiscal 1989, annual earnings increased 16.4 percent and earnings per share increased 15.1 percent compared with fiscal 1989 when Medtronic earned $93.4 million, or $3.50 a share. Fiscal 1989 results included recognition of $24.0 million related to a patent litigation settlement with Intermedics, Inc., partially offset by nonrecurring charges of $17.6 million.

The company's fiscal 1990 financial performance was accomplished despite an unfavorable foreign exchange impact and the restructuring of the company's Latin American operations last July.

Winston R. Wallin, chairman and chief executive officer, noted that the year's results reflected sales increases for all product lines.

Revenue from coronary catheters doubled from fiscal 1989 levels, the cardiopulmonary business continued its growth led by strong demand for the Maxima(R) blood oxygenator, and bioprosthetic heart valve sales made good gains.

Neurological businesses reported record sales, with the Itrel(R) II spinal cord stimulation system receiving excellent acceptance by the worldwide medical community since its introduction in October.

Wallin attributed strong U.S. pacemaker sales to products introduced in fiscal 1990, primarily the Legend(TM) single chamber rate responsive pacemaker and the Synergyst(TM) II dual chamber rate responsive pacemaker. Both were commercially introduced in August.

The company anticipates developments soon in resolving legal issues. A decision by the Supreme Court of the United States in patent litigation with Eli Lilly and Co. on an implantable device for the treatment of tachyarrhythmia (too-rapid heartbeat) is expected this month.

Medtronic, Inc., headquartered in Minneapolis, is a leading developer and manufacturer of biomedical devices for improving cardiovascular and

neurological health.

NEW YORK (JUNE 5) PR NEWSWIRE - Citibank Private Bank said today that David E. Cripps has joined its investment division as head of Offshore Investment Management. The investment division is the asset management arm of Citibank Private Bank, the largest private bank in the United States.

Cripps joins Citibank from Manufacturers Hanover Trust Company, where he was vice president, manager of Manufacturers Global investment management department. Prior to that he had been manager of Manufacturers Far East investment offices.

In this newly created position, Cripps has responsibility for building Citibank's U.S. equity and fixed income portfolios tailored to the investment needs of non-Americans who seek to have their portfolios managed in the U.S.

"Mr. Cripps is an extremely talented portfolio manager with extensive international investment expertise," said Stewart B. Clifford, division executive of the investment division. "We are confident that he will be a major asset to our non-U.S. clients who request to have their assets managed in the U.S."

Cripps will report to James R. Hocking who joined Citibank Private Bank as chief investment officer of its U.S. investment division in mid-May.

Citibank, with worldwide assets of $233 billion, is the largest bank in the U.S. with 3,300 locations in 43 states and 90 countries. The investment division of the Private Bank provides both tailored portfolio management services and funds to individuals, including liquidity, fixed income, equity and balanced management, as well as trust and estate planning, custody, and international investor services.

SAN DIEGO (JUNE 5) PR NEWSWIRE - Mycogen Corp. (NASDAQ: MYCO) today announced the public offering of 2,500,000 shares of common stock at a

price of $17.75 per share. The company will have approximately 11,228,655 shares of common stock outstanding after the offering. Morgan Stanley & Co. Inc. and Montgomery Securities are co-managing the offering.

The company expects to use the net proceeds of the offering to support research, development, manufacturing and worldwide commercialization of biopesticide products and for capital expenditures and general corporate purposes.

Mycogen develops, manufactures and markets biopesticides as alternatives to chemical pesticides for the control of a variety of insects, weeds and other pests. Mycogen's biopesticide products are based on natural agents such as microorganisms, fatty acid compounds and highly refined paraffinic oils, which are more environmentally compatible than chemical pesticides. The company uses biotechnology and genetic engineering techniques, including its patented CellCap(TM) encapsulation system, to develop highly effective microbial biopesticides. The company is currently marketing five biopesticides and has several products under development.

Copies of the prospectus can be obtained from the office of Morgan Stanley & Co. Inc., 1251 Avenue of the Americas, New York, NY 10020, or Montgomery Securities, 600 Montgomery St., San Francisco CA 94111.

WESTBORO, MA (JUNE 5) PR NEWSWIRE - Alden Electronics (NASDAQ: ADNEA) announced the receipt of a contract from United Airlines for installation of the Alden C5020 Color Weather Graphics Dissemination System in the United's new Operations Control Center at the Elk Grove Township, Ill., Corporate Headquarters.

This modern Control Center will house United's flight dispatch and system control personnel who will use state-of-the-art display and communications equipment to monitor and control the airline's world wide operations.

The Alden C5020 system will acquire and store real time weather graphics received from the U.S. National Weather Service and from Alden's national radar access network. The weather maps, satellite and radar pictures will be used by United's staff of meteorologists to support flight operations including disseminating these and custom created weather graphics to C5020 color display workstations in the Operations Control Center. The system contract over 5 years is expected to have a value of $430,000.

Captain Hart Langer, vice president-Flight Operations, states, "that the

new Center with its modern computer equipment provided United's dispatch and systems operations personnel with finger-tip access of pertinent information. The new Alden C5020 System graphically displays ares of turbulence and significant weather throughout the United's route structure from the United States to Europe and the Far East."

United and Alden have entered discussions to additionally provide satellite dissemination of the C5020 weather graphics to approximately 150 United Airport Flight Crew ready rooms via Alden's subsidiary, Zephyr Weather Information Services, Inc.

#90156p5169 06/05/1990 ~PR Newswire

JACKSON, MI (JUNE 5) PR NEWSWIRE - Consumers Power Company has signed its first contract to purchase electricity produced from a sanitary landfill under Michigan Public Act 2 of 1989, which encourages development of waste-to-energy projects.

The facility is Granger Renewable Resources Landfill Gas Unit No. 2, located northwest of Lansing in Watertown Township, Clinton County. The 2,000-kilowatt facility will be capable of serving a community of almost 1,500 people. Initial operation of the facility is expected later this year.

"Consumers Power supports the development of waste-to-energy facilities in Michigan," said Paul A. Elbert, the utility's vice president of marketing, rates and wholesale power transactions. "Electricity from this facility and other sites in Michigan can play an important role in meeting our customers' increasing demand for power and reducing landfill use," Elbert said.

The facility is powered by methane gas produced at the landfill through the decomposition of organic materials, primarily garbage, grass and leaves, according to Granger Renewable Resources President Kurt J. Guter. The gas is funneled through a collection system and burned to produce electricity in any of three internal combustion engines, each connected to 800-kilowatt generators.

In addition to this facility, Consumers Power has filed with the Michigan Public Service Commission to purchase electricity from seven additional waste-to-energy projects proposed in its electric service area. These include: an additional Granger Renewable Resources Landfill Gas plant in Clinton County and one in Shiawassee County, totaling 2.5 megawatts; Something of Value, Inc., Sturgis, 13 megawatts; Granger Renewable Resources Waste to Energy, Lansing, 20 megawatts; Southwest Michigan

Resource Recovery, Battle Creek, 15 megawatts; American Power and Waste Management Inc., Traverse City, 5 megawatts; and Primary Power, Inc., Montrose, 35 megawatts.

Consumers Power Company, the principal subsidiary of CMS Energy Corporation (NYSE: CMS), is Michigan's largest utility serving almost 6 million of the state's 9 million residents in 67 of the 68 Lower Peninsula counties.

#90156p5170 06/05/1990 ~PR Newswire

NEW YORK (JUNE 5) PR NEWSWIRE - The Allen Group Inc. (NYSE: ALN) and Handy & Harman (NYSE: HNH) today announced the combination of their aftermarket heat transfer businesses into a 50-50 partnership joint venture effective June 1.

The joint venture brings together aftermarket heat transfer operations of Allen's G&O and Mangum divisions and Handy & Harman's Automotive Aftermarket Group, consisting of Daniel Radiator, Jackson Industries, Lexington Tube Co. and U.S. Auto Radiator.

The combined business, which has been named GO/DAN Industries, is engaged primarily in manufacturing, importing and selling radiators and other heat transfer products for the automotive aftermarket.

The Allen Group retained the OEM portion of its heat transfer business which manufactures and sells principally heavy duty truck radiators and specialty heat exchangers to manufacturers of trucks, industrial and off-highway equipment. Joseph M. O'Donnell, group vice president of Handy & Harman, becomes the chief executive officer of GO/DAN Industries.

The Allen Group Inc. is a manufacturer and marketer of automotive products, including automotive test equipment, automated manufacturing equipment, truck components, and mobile communications antennas and accessories.

Handy & Harman, a leading fabricator, processor, and refiner of precious metals, also produces a variety of specialty metal products for industrial uses through over thirty subsidiaries here and abroad. Founded in 1867, Handy & Harman is headquartered in New York.

#90156p5171 06/05/1990 ~PR Newswire

LANSDALE, PA (JUNE 5) PR NEWSWIRE - Central Sprinkler Corp. (NASDAQ: CNSP) reported today its sales and earnings for the second quarter ended April 30, 1990.

Sales for the quarter increased 5.4 percent to $18,116,000 from the $17,192,000 reported in the comparable fiscal 1989 quarter. Net income of $1,260,000 for the quarter was less than the $1,451,000 reported in the second quarter of fiscal 1989. Earnings per share for the second quarter of fiscal 1990 were $.24 compared to $.28 for the second quarter of fiscal 1989. All earnings per share and average share data reported have been restated to reflect a 5-for-4 stock split to all holders of record as of March 31, 1990.

For the six months ended April 30, 1990, sales of $35,151,000 were 6.9 percent greater than the $32,870,000 reported in the comparable 1989 period. Net income was $2,546,000 compared to the $2,626,000 reported in the fiscal 1989 period. Earnings per share for the first six months of fiscal 1990 was $.49 compared to the $.51 recorded in the comparable 1989 period.

The overall quarterly sales growth of 5.4 percent was weaker than expected due primarily to strong price competition on several major product lines and weak sales in several regions. While sales in most regions of the United States met expectations, sales declined from the same period a year ago in the foreign market as well as the Northeastern portion of the United States. The reduction in quarterly net income from the year ago period resulted from a decline in the overall gross profit margin on sales as well as an increased level of operating expenses. Increased spending on research and development and new sales promotion and market development costs were the primary reason for the increased operating expenses.

Central Sprinkler Corp. is a manufacturer and distributor of components used in automatic fire sprinkler systems.

PHILADELPHIA (JUNE 5) PR NEWSWIRE - Bell Atlantic Corp. (NYSE: BEL) has completed its purchase of the mid-Atlantic regional PBX operations of Northern Telecom's (NYSE: NT) Meridian Business Systems Group.

Effective June 4, 1990, Bell Atlantic acquired an installed base of approximately 500,000 PBX communications ports serving 1,800 customers. About 560 Northern Telecom employees in sales, service, and support functions have become employees of Bell Atlanticom Systems, Inc.

The purchase includes Northern Telecom's installed base of Meridian SL-1 and SL-100 PBX systems in the region, the associated equipment, inventory, and fixed assets as a part of Bell Atlanticom.

In addition, Bell Atlanticom has become an authorized nationwide distributor of Northern Telecom's Meridian SL-1 and SL-100 PBX systems.

Bell Atlanticom is a subsidiary of Bell Atlantic that sells, installs, and maintains communications systems and equipment to business and government customers.

Headquartered in Princeton, N.J., Bell Atlanticom serves its customers from 12 sales and service locations within the Bell Atlantic region and from offices in Boston, Chicago, New Orleans, and Huntsville, Ala.

Bell Atlantic, based in Philadelphia, is the parent company of New Jersey Bell, Bell of Pennsylvania, Diamond State Telephone (Delaware), and the Chesapeake and Potomac Telephone Companies of Maryland, Virginia, West Virginia, and Washington, D.C.

In addition to Bell Atlanticom, Bell Atlantic also owns businesses that provide mobile communications in the mid-Atlantic region as well as computer maintenance and financial services in national and international markets.

Northern Telecom is the leading global supplier of fully digital telecommunications switching systems. The company provides products and services to the telecommunications industry, businesses, universities, governments, and other institutions worldwide. Northern Telecom, Inc., headquartered in Nashville, Tenn., employs more than 22,000 people across the United States.

HYANNIS, MA (JUNE 5) PR NEWSWIRE - Software 2000, a leading developer and marketer of financial, human resources and environmental management software for the IBM System/38 and AS/400 midrange computers, today announced the appointment of R. Douglas MacIntyre as president and chief operating officer, effective June 6, 1990.

As president and chief operating officer, MacIntyre succeeds Robert A. Pemberton, one of the founders of the company. Pemberton will continue as chief executive officer and chairman of the board.

MacIntyre, named by Business Week as one of the nation's Top 50 Fast Track Executives, is credited with much of the success at Management Science America (MSA). His responsibilities at MSA included the management of sales, marketing, product development and professional services. He served on the company's executive committee from 1985 through 1989.

Software 2000, founded in 1981, was recently named to the Inc. 500 as one of America's fastest-growing companies. Fiscal year ending August 1990 is projected to close with revenues in excess of $30 million. The company credits its success to the acceptance of IBM's AS/400 series of computers along with the trends toward decentralization within large organizations.

MacIntyre holds a bachelor of science from the U.S. Military Academy at West Point and a master of science in business administration with honors from Boston University. He has also completed the Stanford Executive Program as well as advanced management programs at the Wharton and Harvard Business Schools.

Software 2000, founded in 1981, offers a complete range of financial, human resources and environmental management software designed exclusively for the IBM System/38 and AS/400 midrange computers. Software 2000 has over 500 clients worldwide representing a wide variety of industries including manufacturing, banking, insurance, hospitality, healthcare and government. Headquartered in Hyannis, Mass., the firm has regional offices in Atlanta, Boston, Chicago and Los Angeles; international offices are located in London, England and Limerick, Ireland. According to Inc. Magazine, Software 2000 is one of the 500 fastest-growing companies in America.

MORRIS TOWNSHIP, NJ (JUNE 5) PR NEWSWIRE - Allied-Signal Inc. (NYSE: ALD) today announced an agreement with Ahlstrom Machinery Group of Finland to market a new process for recycling wastes produced during pulp and paper manufacturing.

Invented and developed by the Aquatech Systems unit of Allied- Signal, the process separates sodium sulfate, a by-product of paper manufacturing, into its component acid and base chemicals. The chemicals, caustic soda and sulfuric acid, can then be reused by paper manufacturers.

"Our technology provides enormous environmental benefits to society and equally important economic benefits to the industry," said James D. Molzon general manager of Aquatech Systems, headquartered in Warren, N.J.

The agreement enables Ahlstrom Machinery to market and construct Aquatech recovery systems worldwide, with exclusive rights in Europe.

"There is a potential application for our process in virtually every paper and pulp mill in the world, but it is especially important in Europe," said Martti Pokkinen, business development manager for Chemrec Processes, the unit of Ahlstrom Machinery designing the pulp mill chemical recovery units.

New environmental standards in Finland and Scandinavia, Europe's largest paper-producing region, require industry to treat sodium sulfate waste or find ways to eliminate it. Meanwhile, greater demand for paper products has increased the need for caustic soda and sulfuric acid, used to process wood pulp.

Ahlstrom has installed an Aquatech system on an industrial-scale at a pilot plant in Finland to demonstrate economic and technical feasibility and to establish design parameters for other mills. The pilot plant can convert 130 tons of sodium sulfate a year.

Ahlstrom Corporation, a private company with 1990 sales estimated at $2.5 billion, is one of the largest industrial enterprises in Finland. It produces specialty papers, packaging, glassfiber and various types of building materials.

Allied-Signal Inc., an advanced technology company with businesses in aerospace, automotive products and engineered materials, had sales of $12 billion in 1989.

LOWELL, MA (JUNE 5) PR NEWSWIRE - Wang Laboratories Inc. (AMEX: WAN) today unveiled a new release of the Freestyle(tm) personal computing system that extends Freestyle communications and information management to additional industry-standard environments.

The Wang Freestyle system is an innovative office application that allows users to manage and communicate information in the form of handwritten notes, spoken comments, computer data, scanned images, and facsimile through a single tool - a personal computer.

The new release allows Freestyle users running Microsoft(R) Windows Release 2.10 to use their Freestyle pencil instead of a mouse as a pointing device in the Windows environment.

It also makes Freestyle handwriting annotation, electronic mail, and graphical desktop management available to users of Micro Channel Architecture (MCA)-based PCs. In addition, Freestyle Release 1.21 offers new FAX communications features for Freestyle users on IBM PC/AT-compatible systems.

Available immediately, the new release updates both the Freestyle/Light software package and the standard Freestyle system, a hardware/software combination that includes the electronic tablet and pencil with the Freestyle icon-based PC software. Component pricing remains unchanged under the new release.

"The Freestyle system adds value to industry-standard PC computing environments by helping users manage information better and communicate more effectively," said Pat Hennigan, Freestyle program manager at Wang. "In keeping with Wang's Innovation on Standards strategy, this announcement marks another step in bringing Freestyle communications power and ease of use to an expanding range of industry-standard platforms."

NOTE: Freestyle is a trademark of Wang Laboratories Inc. Microsoft is a registered trademark of Microsoft Corporation.

GOLDEN, CO (JUNE 5) PR NEWSWIRE - Coors Brewing Company announced today that it has signed an agreement in principle with The Stroh Brewery Company of Detroit for the purchase of its Memphis brewery. Subject to the satisfaction of certain conditions, Coors and Stroh expect to close the sale on or about July 3.

"This purchase is part of our overall strategy to position Coors Brewing Company for future growth," said Peter H. Coors, president, Coors Brewing Company. "It will provide the additional capacity we need to respond to rising consumer demand for our products. The plant is strategically located, and it has a solid infrastructure and skilled work force in place. That makes it an excellent fit for us," he said.

Coors added that specific plans for the Memphis brewery are being formulated and will be announced shortly after the closing of the sale.

Currently, all Coors beers are brewed at the Golden brewery, which last year produced 17.7 million barrels. To meet consumer demand, Coors has been shipping some of its brewed beer to its satellite packaging facility in Elkton, Va., which has a packaging capacity of 2.5 million barrels. The Memphis brewery would add additional packaging and brewing capacity of approximately 5.5 million barrels.

Coors' product line comprises Coors, Coors Light, Coors Extra Gold, George Killian's Irish Red, Keystone, Keystone Light and Winterfest. In 1989, Coors achieved its fifth consecutive year of record sales. For the first quarter of 1990, Coors reported record beer sales, up 29.9 percent over the 1989 first quarter.

#90156p5191 06/05/1990 ~PR Newswire

NEW YORK (JUNE 5) PR NEWSWIRE - The Cooper Companies, Inc. (NYSE: COO) today reported its third successive quarterly profit. Net come applicable to common stock was $401,000 or $.02 per share on sales of $13.2 million for the second quarter ended April 30, 1990, compared with a net loss applicable to common stock of $36.9 million or $1.57 per share in the same period a year ago.

For the six months ended April 30, 1990, net sales were $23.4 million compared with $29.9 million for the year-ago period. The company reported net income applicable to common stock of $1.9 million or $.08 per share compared with a net loss applicable to common stock of $43.9 million or $1.88 per share in the same period a year ago.

The company's financial results for the second quarter and first six months of fiscal 1989 have been restated, as a result of the sale of Cooper Technicon, Inc. in June 1989, to reflect Cooper Technicon as a discontinued operation.

Financial results for the second quarters and first six months of fiscal 1990 and 1989 are not directly comparable primarily due to the dispositions of the company's Aquaflex(R) soft contact lens business in the United States and Japan in the first quarter of 1989 and its international contact lens business in May of 1989. The disposition of the Aquaflex business generated a gain of $13.0 million in the first quarter of 1989. Additionally, in the second quarter of 1990, the company decreased certain tax liabilities due to favorable negotiations related to off-shore subsidiaries, in the amount of $1.2 million, the benefit of which appears in income from continuing operations. Also, in the second quarter and first half of fiscal 1990, the company generated gains on the purchases of its 10-5/8 percent convertible subordinated reset debentures due 2005 of $1.2 million or $.05 per share and $7.4 million or $.30 per share, respectively.

Arthur C. Bass, president and chief executive officer, in commenting on the results, stated "We are pleased that we continue to generate positive results for the common shareholders. It is also important to note that we

continue to see growth in the revenue and profitability of the retained CooperVision businesses."

The Cooper Companies develops, manufactures and markets optometric and ophthalmic products.

NEW YORK (JUNE 5) PR NEWSWIRE - Bomar Resources, Inc. announced that late yesterday it filed a complaint in the Federal District Court in Manhattan seeking to recover $50 million in damages from Sierra Rutile Limited, a wholly owned subsidiary of Nord Resources Corporation (NYSE: NRD).

The complaint alleges that the defendants conspired to drive Bomar out of the business of selling rutile, a mineral sand used largely in the manufacture of paint.

The complaint, also filed against officers and directors of Nord, alleges that the defendants disseminated false and disparaging statements about Bomar's business practices, interfered with Bomar's existing business relationships, and stole confidential documents in an attempt to destroy Bomar's business.

In addition to allegations of unfair, dishonest and wrongful conduct, Bomar alleges that the defendants' intentions were, in part, to enable Sierra and Nord to acquire Bomar's business without compensation.

The complaint also cites Sierra's law firm, Spitzer & Feldman, and one of its partners, for allegedly submitting a false affidavit in connection with documents they brought before the court.

Bomar, whose principal place of business is in Fort Lee, N.J., was recently acquired by Rivson International, Inc. Nord is located in Dayton, Ohio.

PHILADELPHIA (JUNE 5) PR NEWSWIRE - Cedar Group Inc. (NASDAQ: CDRG) common stock will be listed on NASDAQ's National Market System (NMS) on June 19, 1990, it was announced by Stephen S. Simyak, president of the Philadelphia-based importer and distributor of industrial fasteners.

Simyak said that Cedar Group's entry into the NMS provides investors with the continuous transaction data of the exchanges while maintaining the competition among multiple market markers that is the hallmark of NASDAQ.

Cedar Group, which has operations in Houston and Chicago in addition to Philadelphia, had sales in excess of $12 million during its last fiscal year. When listed on NMS beginning June 19, stockbrokers will be able to provide last-sale prices and up-to-the-second volume information on the

company's common stock.

Simyak added that NMS listing will provide automatic blue-skying in several states where Cedar Group shares are not currently traded and immediate marginability of the company's shares.

MINNEAPOLIS/ST. PAUL (JUNE 5) PR NEWSWIRE - As of June 1, Angeion Corporation (NASDAQ: ANGN) began trading publicly on the Boston Stock Exchange, but will continue to appear, as well, on the NASDAQ over-the-counter listings.

The only practical difference for those trading in Angeion stock will be that listing on the Boston Exchange, as on other regional and national stock exchanges, allows securities to be purchased on margin. That feature isn't currently available for Angeion through its NASDAQ listing.

"Listing on the Boston Exchange will provide wider distribution of our stock, and allow our stock to be purchased on margin," said Wendell L. King, chairman, president and CEO. "We think that will yield greater activity in our stock, which will ultimately be a benefit to all our shareholders."

Angeion Corporation securities first began trading in the NASDAQ market July 7, 1988, under the symbol ANGN.

Minneapolis-based Angeion Corporation in engaged in research, development, sales and marketing of medical devices for cardiovascular use. Operating profits from its original-equipment-manufacturer (OEM) and proprietary products businesses are used to finance internal R&D programs.

PLYMOUTH MEETING, PA (JUNE 5) PR NEWSWIRE - Charter Power Systems Inc. (AMEX: CHP) today announced its best quarterly performance ever for the quarter ended April 30, 1990, including record sales and earnings.

Sales for the quarter ended April 30, 1990, rose to $40,578,000 from $39,497,000 in the 1989 quarter.

The 1990 quarterly earnings were $1,342,000, 106 percent above the $651,000 earned in the 1989 first quarter. Earnings per share increased to 24 cents from 12 cents earned for the prior year's quarter, exceeding the prior record of 23 cents in the fourth quarter of 1989.

Net cash flows provided by operating activities for the first quarter increased 187 percent to $5,021,000 vs. $1,748,000 generated in the same quarter a year ago.

The significant cash flows of the company enable it to reduce total long-term debt as of the end of the quarter by $4,177,000 to its lowest level in history, while continuing capital expenditures at the highest level in the company's history.

BUFFALO, N.Y. (JUNE 5) PR NEWSWIRE - Net revenues for Ecology and Environment, Inc.'s (AMEX: EEI) third quarter ending April 28, 1990, reached a record high $18.7 million, up 31 percent from the third quarter of last year. Net income rose 126 percent to $1.1 million, or 28 cents per share.

Ronald L. Frank, executive vice president and chief financial officer, announced these third quarter performance records for the company today. Fiscal year-to-date performance reached new highs, with nine-month net

income of $3,369,000, or 86 cents per share, up 90 percent from the prior year. Net revenues reached $52.3 million, up 26 percent over fiscal year 1989.

Frank attributes the increase in net revenues and earnings to the company's continuing growth and diversification of its customer base. The company is experiencing significant growth in business with certain federal and state agencies, as well as other domestic and international clients. Several multimillion-dollar projects with various state and federal agencies have been announced by the company during the third quarter. It is anticipated that the company's recent increase in marketing activities overseas will help contribute to the growth trend.

Ecology and Environment, Inc. is a firm of international specialists in the environment, founded in 1970, and headquartered in Lancaster, N.Y., a suburb of Buffalo. It has offices in 22 cities throughout the United States, and is represented in more than 20 countries around the world. It currently has more than 1,100 employees.

HAUPPAGE, NY (JUNE 5) PR NEWSWIRE - United-Guardian, Inc. (AMEX: UG) today announced that Diversey Ltd., a subsidiary of the Molson Companies, Ltd. has now received the license (Number 4019) from the Veterinary Medicines Directorate of the British government which enables Diversey to commence marketing Clorpactin WCS-90 in the United Kingdom for the treatment of cows with infected udders (mastitis).

This drug is manufactured exclusively by United-Guardian and United has granted Diversey world-wide rights to market the drug to replace mixtures of antibiotics in the treatment of mastitis in cows, because Clorpactin does not leave harmful residues in the milk.

"Tests over many years have shown that Clorpactin solution injected into

the udders of cows is more effective in many cases than a mixture of streptomycin and penicillin," says Dr. Alfred R. Globus, CEO of United-Guardian, Inc., "and while the antibiotics require discarding six to eight milkings, Clorpactin requires that only one be discarded.

"After destroying the ineffective organisms, Clorpactin largely disappears by itself, unlike the antibiotics, so that contamination of the milk supplies does not take place."

United Guardian expects that the adoption of Clorpactin by the major dairy countries could result in sales to Diversey of more than $100 million. United presently sells Clorpactin for human medicine in special conditions involving resistant infections.

DALLAS (JUNE 5) PR NEWSWIRE - Harken Energy Corporation (NYSE: HEC) of Dallas today announced the addition of Stephen Tisza as vice president and general manager for its wholly owned subsidiary, Harken Bahrain Oil Company. In his new position, Tisza will be responsible for the daily operations of Harken Bahrain conducted pursuant to its previously announced production sharing contract with the Bahrain National Oil Company. Tisza has recently transferred from Dallas to Manama, Bahrain, where he established Harken Bahrain's initial operating office.

Tisza's background includes extensive geological and management experience relating to international exploration throughout North America, the Far East, South and Central America, the Middle East and Europe. Tisza also served for a period of time as a World Bank exploration consultant.

Educated at the University of Illinois where he earned both master's and bachelor's degrees in geology, Tisza is certified as a professional geological scientist and petroleum geologist.

Monte Swetnam, president of Harken Bahrain Oil Company, stated, "We are pleased and proud to have Stephen as part of our organization. His extensive background in international exploration will be a significant asset to Harken in the coming months as we develop our exploration program in Bahrain.

"In particular, Stephen's past successes in developing exploration and development projects have been amply demonstrated. We look forward to his positive contribution to our efforts in Bahrain."

Harken Energy Corporation manages and develops energy assets. HEC retails

wholesales and distributes gasoline through its subsidiary, Harken Marketing Company. Through its subsidiary, Tejas Power Corporation, HEC constructs, owns and operates natural gas gathering and transmission facilities in Texas and Louisiana and markets third party gas to a variety of end-users. HEC explores for, develops and produces oil and gas reserves domestically through its subsidiary Harken Exploration Company and internationally through its subsidiary Harken Bahrain Oil Company.

#90156p5213 06/05/1990 ~PR Newswire

CHICAGO (JUNE 5) PR NEWSWIRE - Capitalizing on the overwhelming success of feature films most popular with teens and "tweens," LJN Ltd. is unveiling "Back to the Future: II & III" (tm) for the Nintendo Entertainment System (NES), here at the Summer Consumer Electronics show.

"The first two 'Back to the Future' movies have been received with great enthusiasm in theaters and also on the home video market, and in its opening weekend, 'Back to the Future III' achieved box office sales of more than $25 million," says Sam Goldberg, vice president of marketing.

"Bringing an already successful license to the NES creates the excitement we feel the core Nintendo audience is looking for and has grown up to expect from us." "Back to the Future: Part II & III" Brings Time Travel to Gamers.

LJN's new 'Back to the Future: Part II & III' is a blockbuster sci/fi film-turned-video game for the NES that for the first time ever combines the excitement of the two movies in one NES title, offering game players some very tricky time-traveling options.

As Marty McFly, players embark on a wild adventure through three time dimensions - ranging from the 1800s to the year 2000 - that feature a jumbled "space/time continuum" in which objects have been misplaced. Using the super-charged time machine/sports car, players must collect keys and unscramble anagrams in order to return objects to their proper places in time.

In an exciting simul-release that adds further visibility to LJN's video game introduction, last weekend "Back to the Future III" was released to packed movie theaters nationwide, while at the same time "Back to the Future II" was released into the video cassette market.

As a movie, "Back to the Future II" grossed more than $115 million at the box office in 1989, while its sequel has been supported by a multi-million

dollar advertising, marketing and promotional awareness campaign.

LJN's "Back to the Future: Part II & III" video game will be part of a major fourth quarter cross-promotion and will receive extensive television and print advertising support, including a new commercial that captures the futuristic excitement of the hit movie - with elements such as the sports car/time machine - and the time-traveling action of the video game.

Available this fall, LJN's "Back to the Future: Part II & III" is expected to retail for $44.95. LJN Ltd. is a subsidiary of Acclaim Entertainment Inc. (NASDAQ: AKLM), a leading publisher, marketer and distributor of home entertainment product. These include Nintendo Entertainment System software, Nintendo (R) Game Boy (TM) compact video system software, wireless remote controllers and hand-held electronic video games.

#90156p5214 06/05/1990 ~PR Newswire

JACKSON CENTER, OH (JUNE 5) PR NEWSWIRE - Thor Industries, Inc. (NYSE: THO) announced today sales and earnings results for the quarter and nine months ended April 30, 1990.

Sales for the nine months were a record $120,366,000, up 2 percent from $117,900,000 last year. Net income for the nine months was $2,366,000 or 49 cents per share versus $2,455,000 or 49 cents per share last year.

Sales for the quarter were $42,858,000 compared with $43,957,000 last year. Net income for the quarter was $857,000 or 18 cents per share compared with $1,167,000 or 23 cents per share last year.

Wade F. B. Thompson, Thor chairman and president, commented: "Given the continuing slump in the RV market (wholesale shipments were down 6 percent in the United States and 26 percent in Canada in the first quarter of 1990), these results are quite satisfactory. Net income in the quarter was positively affected by a return to profitability of Establishment, our west coast motor home manufacturer and improved performance of Airstream and Eldorado Bus. Canadian sales and net income in the quarter were negatively impacted by high labor costs, a strong Canadian dollar, a declining market and high interest rates."

A quarterly cash dividend of 3 cents per share is payable on July 5, 1990 to shareholders of record on June 21, 1990.

Thor Industries, Inc. is a leading manufacturer of recreational vehicles in the U.S. and Canada and the largest builder of small and midsize

transit buses.

HOUSTON (JUNE 5) PR NEWSWIRE - NaTec Resources, Inc. (NASDAQ: NATC) announced the election to its board of directors of Ben R. Stuart, vice president-operations of Dresser Industries, Inc. (NYSE: DI).

Stuart joined Dresser, a major worldwide supplier of highly engineered products and services used primarily in energy-related activities, in 1957. Prior to assuming his present corporate position in 1988, he had served as president or general manager of various Dresser subsidiaries.

Socrates, S. Christopher, chairman and chief executive officer of NaTec, noted, "We are pleased to have Ben Stuart join the board of NaTec. His years of experience in the energy field should greatly benefit NaTec in achieving its goals."

NaTec Resources is committed to the control of pollutants commonly associated with acid rain. The company provides consulting engineering, injection system installation, operations and maintenance services, and processed sorbent supply. Primary markets are utility, industrial power generation, pulp and paper, refining and municipal solid waste.

NEW YORK (JUNE 5) PR NEWSWIRE - William F. Reilly, chairman and CEO of K-III Holdings, L.P. announced today that its Intertec Publishing Corp. of Overland Park, Kan., has acquired the assets of Ward's Communications from a subsidiary of The Thomson Corporation. Ward's Communications consists of two trade magazines, Ward's Auto World and Ward's Auto Dealer, three newsletters, Ward's Automotive Reports, Ward's Engine Update and Ward's Automotive International, as well as related products and services. Terms of the transaction were not disclosed.

Charles G. McCurdy, president of K-III Holdings, said: "Ward's Communications is the premier information source for the automotive industry. Ward's is another excellent addition to Intertec's expanding list of publications and advances our strategy of building the K-III group of companies."

The K-III group of companies, affiliated with Kohlberg Kravis Roberts & Co., includes Intertec Publishing Corporation, a publisher of trade magazines and technical books, Newbridge Communications, Inc. (formerly Macmillan Book Clubs, Inc.) which operates professional book clubs and continuity programs, and K-III Press, Inc. which publishes information for the transportation industry.

ALBUQUERQUE, NM (JUNE 5) PR NEWSWIRE - Summa Medical Corp. (NASDAQ: SUMA) announced today that its subsidiary, Quality Communications Products Inc. has entered into an agreement with ICMX of Washington to jointly pursue programs related to the ruggedization of mini super computers and related products.

The first project under this agreement which Quality Communications Products will accomplish for their customer ICMX will be to modify a minimum of 24 super computers for special government applications.

The estimated value of this initial project over the next 24 months is $5.8 million, with an option for an additional 80 units or $16 million over 48 months. Revenues are expected to come on stream in the third quarter of this calendar year.

In addition, Summa has been informed that it has officially been awarded a judgment in the sum of $1.5 million in the Texas Courts, relating to a banking investment lost through illegal activities by third parties.

Finally, the company has been notified by an investment group that a $3 million credit facility has been placed, should the company require additional short term funding for any of its ongoing projects.

BASKING RIDGE, NJ (JUNE 5) PR NEWSWIRE - NYCOR, Inc. (NASDAQ: NYCO) today announced the appointment of Robert E. Logan, Jr. as vice president - finance and chief financial officer. In addition to responsibility for all finance functions, Logan will head the company's acquisition program, which is currently NYCOR's primary business activity. NYCOR has $75 million in cash and no debt and is seeking underperforming manufacturing assets.

Logan was manager of corporate development for Emerson Electric Co. in St. Louis from 1984 to 1987. During that time, he managed acquisition and divestiture transactions totaling $1.5 billion in value. From 1981 to 1984 he was with Northwest Industries of Chicago where, as corporate development consultant, he had planning responsibility for three of Northwest's industrial businesses and evaluated acquisition and divestiture opportunities in those business areas. He joined Northwest as financial analyst, capital expenditures.

Most recently, Logan has been a partner and vice president of Bard Associates, Inc., a private venture capital and money management firm in Chicago.

He received a master of business administration degree from the University of Chicago and a bachelor of science degree in chemical engineering from Lehigh University. He and his wife Lynn have three children.

BLUE BELL, PA. (JUNE 5) PR NEWSWIRE - U.S. Healthcare Inc., (NASDAQ: USHC), one of the nation's leading providers of managed health care services, today announced a 20 percent increase in its regular cash dividend.

The quarterly dividend on common stock was increased from $.075 to $.09 per share and on Class B stock from $.0675 to $.081 per share. The first quarterly cash dividends under the new rates will be paid on June 26, 1990 to shareholders of record as of June 13.

This is the fourth increase in dividends announced by U.S. Healthcare during the past 15 months. The company increased its quarterly cash dividend 25 percent in March 1989, 15 percent in September of the same year, and again 30 percent in March 1990.

Leonard Abramson, president of U.S. Healthcare, said that the increase in cash dividends reflects the belief by management and the board of directors that increased profitability merits higher dividends to shareholders.

U.S. Healthcare owns and operates health maintenance organizations in Pennsylvania, New Jersey, New York, Delaware, Connecticut and Massachusetts. The company also provides comprehensive managed health care services to self-insured and other employers. In addition, the company has an agreement with Blue Cross and Blue Shield of Missouri under which

it developed and now provides operational and administrative services to an HMO in St. Louis and has a similar arrangement with HMO of Northeastern Pennsylvania Inc.

WOODLAND HILLS, CA (JUNE 5) PR NEWSWIRE - Brajdas Corp. (NASDAQ: BRJS) today reported a net loss of $2,243,918, or $.78 per share for its fiscal year ended Feb. 28, 1990. In the prior year, Brajdas had net income of $2,034,194, or $.69 per share. Sales for fiscal 1990 were $58,521,374 compared with $62,862,698 a year ago.

For the fiscal 1990 fourth quarter, Brajdas' net loss totaled $1,460,572 or $.51 per share on sales of $12,235,667. This contrasts with net income of $80,899 or $.03 per share on sales of $14,448,769 in the corresponding prior year period.

"Brajdas' results for the year are reflective of an industry-wide sales decline for electronics," said Allan Klein, corporate vice president operations and administration.

"In Brajdas' fourth quarter, in particular, sales declined substantially when compared with last year. The quarter also was affected by one-time costs due to staff cutbacks, the discontinuance of all but one of our semiconductor sales offices, and a complete reorganization of our value added facilities."

Klein said that staff reductions have reduced Brajdas' total employee count by 30 percent in the last year, and selling, general and administrative expenses have been cut by 25 percent. This reduction of overhead has begun to favorably affect the first quarter of the new fiscal year despite continued sales weakness.

"We will continue to place our priorities on improving gross profit margins and carefully exploring growth opportunities in promising market areas," Klein said, noting the company's opening in the third quarter of a sales branch in Huntsville, Ala., which has shown evidence of stronger market conditions.

Brajdas Corp. is primarily engaged in the wholesale distribution of electronic components through its principal division, Cypress Electronics, which is based in Santa Clara, Calif. The company maintains regional sales offices and warehouse facilities in 14 cities throughout the United States.

CONTACT: Allan Klein of Brajdas Corp., (818) 710-7730; or Cecilia A. Wilkinson of Rifkind Pondel & Parsons, (213) 207-9300, for Brajdas.

#90156p5253 06/05/1990 ~PR Newswire

MINNEAPOLIS (JUNE 5) PR NEWSWIRE - TSI Inc. (NASDAQ: TSII), Shoreview, Minn., today reported record net sales of $35,916,000 on continuing operations for the fiscal year ended March 31, 1990, an increase of six percent from $33,733,000 in fiscal 1989.

Net earnings from continuing operations totaled $2,295,000 or $0.91 per share, up 19 percent from $1,927,000 or $0.77 per share a year ago. With discontinued operations included, TSI's net earnings were $2,072,000 or $0.82 per share in fiscal 1990, up from $1,872,000 or $0.75 per share a year ago.

The assets of the medical products group were sold on March 30, 1990, to Vasamedics, a newly formed company. The net loss from discontinued operations attributable to this group was $223,000 or $0.09 per share in

fiscal 1990, compared to a loss of $55,000 or $0.02 per share in fiscal 1989. The company's results of operations in fiscal 1990 and prior years have been restated to reflect this transaction.

Leroy M. Fingerson, TSI's president and chief executive officer, attributed the improved fiscal 1990 results to higher sales of newer industrial products, reflecting TSI's expansion into these newer markets.

He said TSI's sales and earnings growth was restrained by lower than expected U.S. sales and a temporary dip in fourth quarter order bookings. Fingerson said stronger international sales offset this domestic weakness. Order bookings for the year were $36,683,000, providing for a backlog increase of 14 percent from a year ago.

For the fourth quarter ended March 31, 1990, results based on continuing operations show net sales of $10,609,000 this year compared to $10,268,000 last year and net earnings of $996,000 or $0.40 per share this year compared to $910,000 or $0.36 per share for the fourth quarter of fiscal 1989.

Discontinued operations recorded a net loss of $33,000 or $0.01 per share for the fiscal 1990 quarter versus $29,000 or $0.01 per share a year ago. After discontinued operations, net earnings for the fourth quarter were $963,000 or $0.39 per share for fiscal 1990 and $881,000 or $0.35 per share for fiscal 1989.

TSI is a leading designer and manufacturer of measurement systems for environmental monitoring and control, industrial process control, and global research. The company's common stock is traded on the National Market System under the NASDAQ symbol TSII.

#90156p5266 06/05/1990 ~PR Newswire
HUNT VALLEY, MD (JUNE 5) PR NEWSWIRE - Integrated Health Services, Inc. (IHS), announced today that it has completed the acquisition of major components of Affiliates Group, Inc. (AGI), an operator of retirement housing, assisted living and long-term care facilities based in Nashville, Tenn. The acquisitions provide IHS with its first west coast operations and also positions IHS as one of the nation's largest active senior community management companies.

The acquisition of major components of AGI and related transactions were valued at $12.35 million, making it the four-year-old company's largest acquisition to date.

The purchase includes an AGI subsidiary, Professional Community Management Inc. (PCM) of El Toro, Calif. PCM manages approximately 38,000 housing units in California, including the prestigious 12,736- unit Leisure World of Laguna Hills, Calif. Approximately 20,000 of the units managed by PCM are in active senior adult communities.

"Professional Community Management, Inc. fulfills IHS's plan to provide a full spectrum of housing and healthcare services," said Robert Elkins, M.D., chairman and co-founder of IHS.

In addition to PCM, IHS acquired 697 retirement, assisted living units, and long-term care beds as part of the AGI package, expanding the company

by nearly 25 percent. IHS now operates 4,026 beds/units in 15 states.

As part of the transaction IHS will assume the management of two retirement/assisted living centers with a total of 327 units, in Fresno, Calif., and Memphis, Tenn. Both retirement communities will continue to be owned by Liberty Real Estate Corporation of Boston.

IHS also acquired a long-term lease on 210-bed Ballard Convalescence Center in Seattle, and the 160-bed West Cliff Manor in Amarillo, Texas, which was managed by an AGI subsidiary but was purchased by IHS through Sovran Bank.

FREMONT, CA (JUNE 5) PR NEWSWIRE - GRiD Systems Corp. today introduced the TEMPEST GRiDCASE 1537, the world's first laptop TEMPEST computer based on a 386 microprocessor.

The 16-pound computer utilizes the Intel 80386SX microprocessor running at 16 MHz and is tested to meet the U.S. Government's NACSIM 5100(A)/AMSG 720B TEMPEST control specifications.

In 1983, GRiD introduced the first laptop computer that met NACSIM 5100(A)/AMSG 720B test limits and was TEMPEST accredited on the U.S. Government's Preferred Products List (PPL). GRiD's rugged, lightweight laptop computers are used by many Department of Defense (DOD) agencies, the armed forces and select civil U.S. Government organizations.

The TEMPEST GRiDCASE 1537 can be configured with an optional Intel 80387SX arithmetic co-processor. Standard memory configuration is 4MB of RAM, which can be upgraded to 8MB. MS-DOS, XENIX and UNIX System V/386 operating systems are supported.

The TEMPEST GRiDCASE 1537 is powered by either an attachable battery pack or an external AC/DC converter provided by GRiD. The broad power range of the product facilitates the use of a variety of commercial and military standard power sources.

A removable 40MB hard drive provides additional data security following work sessions. It can be locked in a safe or other secure area and re-inserted for subsequent use. Average disk access time is 25ms. One 3.5", 1.44MB floppy drive is also standard.

"The TEMPEST GRiDCASE 1537 creates a new threshold for portable performance in the TEMPEST marketplace," said D. Bruce Walter, GRiD's senior vice president of sales and marketing. "Our Federal customers require this capability as the volume of data and processing requirements increases."

The 10-inch electroluminescent screen features grey scaling and 640 X 400 pixel resolution. CGA and EGA are supported, as well as VGA analog for an external monitor.

GRiD manufactures and markets a comprehensive range of battery- powered laptop computers, industry-standard desktop computers, operating systems, software development tools, portable peripherals and electronic mail/networking systems. GRiD, with installed systems in more than one third of Fortune 500 companies, has a worldwide direct sales and support organization. The company also demonstrates products at more than 50 GRiD Systems Centers and sells products through application-specific value added resellers.

GRiD is a wholly-owned subsidiary of Tandy Corporation (NYSE: TAN) Fort Worth, Texas. Tandy is a leading manufacturer and distributor of consumer electronics and computers. A New York Stock Exchange company, Tandy has sales in excess of $4 billion annually.

#90156p5274 06/05/1990 ~PR Newswire

MINNEAPOLIS (JUNE 5) PR NEWSWIRE - Diversified Energies Inc. (NYSE: DEI) said today that Long Island Lighting Co. (LILCO), a $2.1 billion investor-owned combination gas and electric utility, has purchased an evaluation package of the patented AccuRead(R) automated meter reading system for testing on its gas and electric meters. Financial terms were not disclosed.

LILCO provides electric service to nearly one million customers and

natural gas service to more than 400,000 customers on Long Island, N.Y. Its service area includes Nassau and Suffolk Counties and the Rockaway Peninsula of Queens County. LILCO officials said they will evaluate the AccuRead system on 500 electric meters and 500 gas meters.

The AccuRead system was designed, developed and is being marketed in the United States and internationally to natural gas, electric and water utilities by Minneapolis-based EnScan Inc. - the energy measurement unit of DEI.

The AccuRead system enables utilities to read their customers' meters simply by driving by their homes at normal traffic speeds. The system operates through advanced radio frequency technologies and computer software applications that are proprietary to EnScan.

With meters automated by the AccuRead(R) system - and with just one utility vehicle equipped with AccuRead system components - a utility can read as many as 24,000 meters in an eight-hour period, compared to 300-400 meters that can typically be read via the traditional way of walking a route and manually recording readings.

LILCO joins 18 other investor-owned and public utilities who are either doing large-scale installations of the AccuRead system or who are testing the system on their gas, electric or water meters. Of those companies, Boston Gas Co., Atlanta Gas Light Co., Brooklyn Union Gas Co., Washington Gas Light Co. and Minnegasco Inc., have large-scale meter automation programs underway.

In addition to LILCO, utilities testing the system include London, England-based British Gas plc - the largest investor-owned gas utility in the world with 17 million customers - The Peoples Gas Light and Coke Co., Wisconsin Gas Co., Commonwealth Gas Co., Columbia Gas of Ohio, Consolidated Edison Co. of New York, Louisiana Power and Light Co., the City of New York, and Northern States Power Co. (NSP).

Diversified Energies Inc. is a Minneapolis-based energy services, products and communications corporation that is traded on the New York Stock Exchange under the symbol: DEI.

NEW YORK (JUNE 5) PR NEWSWIRE - Dr. Vartan Gregorian, president of Brown University, has been elected to McGraw-Hill's board of directors, it was announced today.

Dr. Gregorian, 56, joined Brown University, located in Providence, R.I., in 1989. In addition to his post of president, Dr. Gregorian is a professor of history at Brown. He had been president and chief executive officer of the New York Public Library from 1981 to 1989. Dr. Gregorian has taught at San Francisco State College, the University of Texas at Austin, the University of Pennsylvania, University of California, New York University and the New School for Social Research, and has held administrative posts in Texas and Pennsylvania where he was First Dean of Faculty Arts and Sciences from 1974 to 1978 and provost from 1978 to 1980.

Dr. Gregorian serves on the boards of directors for the Institute for Advanced Study, the J. Paul Getty Trust, the Aaron Diamond Foundation, the New York Public Library, the International Research and Exchanges Board, the Institute for International Studies, the International League for Human Rights, and the Fund for Free Expression. In the past he has served on numerous boards of national and New York- based organizations. He is a member of the American Philosophical Society and a fellow of the American Academy of Arts and Letters.

Born in Tabriz, Iran, Dr. Gregorian received his B.A. and Ph.D. degrees from Stanford University in history and the humanities. He has been the recipient of numerous fellowships and honorary degrees, and has been decorated by the French, Italian and Austrian governments.

The total number of directors on McGraw-Hill's board is now 16. McGraw-Hill, Inc. (NYSE: MHP), headquartered in New York City, is one of the world's leading publishing and information services companies. The company, which celebrated its 100th anniversary in 1988, provides information in print, on line, and over the air. Sales for 1989 were $1.8 billion.

HOUSTON (JUNE 5) PR NEWSWIRE - St. George Minerals Inc. (SGG.V) announced that, at its annual meeting in Vancouver B.C., on Thursday, May 31, its shareholders, voted overwhelmingly to consolidate with St. George Metals, Inc., its U.S. subsidiary, and to liquidate Minerals.

Shareholders also voted to re-elect Minerals present directors to serve through liquidation and to reaffirm Metals stock option plan as approved last year.

Under the consolidation plan, current Metals shares will be split 17,721 for one. Minerals shareholders will then receive one share of new Metals

stock for each Minerals share held.

Then each Minerals and Metals shareholder will own the exact same pro rata portion of the combined company's assets and the same number of shares as they did prior to consolidation. All transactions should be completed, upon receipt of governmental approvals, by the end of August 1990.

The Vancouver Stock Exchange has conditionally approved the substitutional listing of the (new) shares of common stock of St. George Metals, Inc., subject to fulfilling all of the requirements of the stock exchange.

St. George Minerals directors, Frank Barry, James McInnes, W. Timothy Meyer, Ralph Rooney and Gerald Runolfson, were re-elected to serve until liquidation of Minerals is completed. Barry, Meyer and Rooney also serve on Metals' board.

In response to questions following the formal shareholders meeting, Neal O. Wade Jr., chairman, president and chief executive officer of St. George Metals, Inc., commented that the company had made considerable progress during the past year, including the identification of three separate geological resources.

Field and drilling data, previously gathered by St. George and others on several properties has been consolidated and mapped. This enhanced data base will enable the company to upgrade its selection process for drilling targets. He indicated drilling, during the coming season, will be directed toward "proving up" the known geological resources and continuing the assessment of the company's other holdings.

Wade thanked shareholders for their strong support and concluded by saying management believes the new corporate structure will prove beneficial for shareholders.

St. George Metals currently controls or owns some 33,000 acres in the Battle Mountain and Carlin trends in northern Nevada. The company is actively exploring this acreage for its own account and through several joint ventures with its partners, Reynolds Metals Co. of Richmond, Virginia, and Billiton Minerals U.S.A., a division of Shell Oil Company.

DALLAS (JUNE 5) PR NEWSWIRE - Royal International Optical Corp. (NYSE: RIO) stockholders in connection with Royal's previously announced proposed merger transaction with U.S. Vision Inc. will be held on June 28, 1990 at 9 a.m., Dallas time, at The Hotel Crescent Court, Meeting Room Crescent II

400 Crescent Court, Dallas, TX 75201. A Joint Proxy Statement - Prospectus in connection with the special meeting has been sent to Royal's stockholders.

At the special meeting, Royal's stockholders will be asked to consider and approve a proposed transaction in which Royal and U.S. Vision will become wholly owned subsidiaries of New Royal International Optical Corp.

If the proposed transaction is consummated, then holders of up to 80 percent of Royal common stock who so elect will receive $12.50 in cash for each share of Royal common stock that they hold and Royal stockholders who do not elect cash will likely receive one share of common stock of New Royal International Optical Corp. for each of their shares of Royal common stock.

If holders of more than 80 percent of Royal common stock elect to receive cash, then all shares subject to cash elections will be exchanged for a pro rata combination of cash and New Royal International Optical Corp. common stock.

Royal operates 657 retail optical stores in 36 states and also manufactures, imports, and distributes optical frames. U.S. Vision, an optical retailer based in Glendora, New Jersey, operates 222 retail optical centers in 30 states.

CONTACT: Gene Schanbaum, chairman of the board of Royal International Optical Corp., (214) 638-1397.

NEW YORK (JUNE 5) PR NEWSWIRE - Stephen Berger was named president and chief executive officer of Financial Guaranty Insurance Company and FGIC Corporation, as announced today by Gerald L. Friedman, until now FGIC's chairman, president and CEO. With Berger's appointment, Friedman will relinquish his responsibilities as president and CEO, but will retain his position as chairman of the board.

"FGIC is indeed fortunate to have attracted an executive of the experience and stature of Stephen Berger. His leadership of the New York Port Authority has provided him with immense public finance knowledge which, when coupled with his previous investment banking experience, will enable him to lead FGIC to new heights of success in the 1990's," said Friedman.

Berger has had a remarkable career in both the public and private sectors. As executive director of the Port Authority of New York and New Jersey, he was instrumental in streamlining the Port Authority and introducing important business planning and budgeting procedures.

Further, he initiated and began execution of the $6 billion capital program to improve and expand a number of major facilities, including the airports, the Port and rail systems. He has also been a major force in encouraging trade into New York and in improving the marketing of the Port internationally.

Prior to joining the Port Authority, Berger spend several years working with Oppenheimer and Company and Odyssey Partners. At Oppenheimer, he served as director of corporate development and worked on major infrastructure transactions.

When Oppenheimer was sold to a London merchant bank, Berger joined Oppenheimer's management in forming Odyssey Partners, an extremely successful leveraged buy-out/principal transaction firm on Wall Street. At Odyssey, Berger directed investments and served on the board of Odyssey-affiliated companies in the area of energy and new technology.

Berger has had a variety of public service positions as well. He was appointed chairman of the United States Railroad Association by President Carter and was involved (from 1980-1987) in extricating Conrail from bankruptcy. He was chairman of the Finance Committee of the New York Metropolitan Transportation Authority from 1979-1985.

During the New York City financial crisis in 1976-1977, he served as executive director of the New York State Emergency Financial Control Board for the City of New York.

CONTACT: L. Harrison Thayer, (212) 607-3029, or David Caouette, (212) 607-3009, both of FGIC, or Judy Brennan of Adams & Rinehart, (212) 557-0100, for FGIC.

EDWARDS, CO (JUNE 5) PR NEWSWIRE - Bill Clinkenbeard, managing partner of Cordillera, the intimate mountaintop retreat located in the Vail Valley, recently announced the appointment of Coastal Hotel Group as its management company.

"We are delighted to have the expertise and operations experience of the Coastal Hotel Group on board at Cordillera and we are looking forward to a satisfying partnership," said Clinkenbeard. Coastal Hotel Group specializes in the operation of small, luxury properties in popular resort areas acclaimed for their pristine settings.

Set among the Colorado Rockies overlooking the New York Mountain Range, Cordillera is a 28-room resort situated on 3,000 private acres. The stone

and stucco chateau is reminiscent of a French manor home and combines European-style service and amenities. The award-winning Restaurant Picasso features a sophisticated menu with a Belgian flare. Highlights of the well-appointed spa include personal services, a 25-meter lap pool and therapeutic massage and hydrotherapy. Cordillera opened in January 1989.

Coastal's responsibilities will include saless and marketing as well as daily operations. Other hotels under Coastal's management include: the Inn at Laguna Beach, Calif.; the Hotel Jerome in Aspen, Colo.; the Highlands Inn in Carmel, Calif; and the Cheeca Lodge in the Florida Keys.

For further information on Cordillera, contact the hotel toll-free at 800-548-2721, or in Colorado at 303-926-2200. Or write P.O. Box 1110, Edwards, Colo., 81632.

HOUSTON (JUNE 5) PR NEWSWIRE - Noble Drilling Corp. (NASDAQ: NDCO) announced today that its subsidiary, Noble Bawden Drilling (West Africa) Ltd., has entered into a contract with Shell Petroleum Development Co. of Nigeria Ltd. (Shell Nigeria) for the company's posted barge "Chuck Syring." Noble anticipates mobilization of this unit, located in the Gulf of Mexico at present, to commence early in the fourth quarter of 1990.

The contract for the rig is for a two-year term with an option for Shell Nigeria to extend annually. This contract, together with the previously reported contracts for two posted barges and a shallow-water jackup rig, which is 50 percent owned by the company, brings the number of offshore drilling units the company will put to work for Shell Nigeria to four.

Noble Drilling Corp. is a major drilling contractor providing offshore and onshore contract drilling services worldwide, with operations in the United States, Canada, the United Kingdom, Africa, and the Far East. The company's common stock is traded on the NASDAQ national market system under the symbol NDCO.

Jan. 1-May 31	1,461,931	1,596,644	- 9.2		

Note: Percentage changes are based on daily selling rates.

Comments: The following may be attributed to Robert L. Rewey, vice president - Sales Operations, Ford North American Automotive Operations:

"We are delighted with the way our new Ford Explorer is gathering momentum as availability increases. Year-to-year comparisons of Explorer/Bronco II sales were up 68 percent in May, following a 43 percent gain in April."

"The continuing strength of our luxury cars is extremely gratifying. Paced by Town Car sales, which for the first five months of the year were up 38 percent from a year ago, our total Lincoln volume increased 24 percent."

"Today's market conditions are very favorable from the consumer perspective. For several years now, the intensifying competition for market share has caused vehicle price increases to lag behind the Consumer Price Index. Incentives are especially attractive with finance rates as an alternative. All in all, it's a fine time to be buying a new car or truck."

BENTON HARBOR, MI (JUNE 5) PR NEWSWIRE - Whirlpool Corporation (NYSE: WHR) and Matsushita Electric Industrial Co., Ltd., of Osaka, Japan, today announced that they have signed an agreement in principle to form a joint venture to produce vacuum cleaners for the North American market.

The joint venture will own and operate the Whirlpool vacuum cleaner manufacturing plant in Danville, Ky. Whirlpool will assist the joint venture in maintaining and expanding its floor care product business relationship with Sears, Roebuck and Co. The plant in Danville produces a full line of canister, upright and central vacuum cleaners for Sears

under the Kenmore brand name, as well as for other customers.

Under the joint venture, Whirlpool will have continued management involvement to assure continuity in marketing and manufacturing, and the company will also have representation on the board of directors. Whirlpool will report an after-tax gain on the sale of an interest in the joint venture at the time of closing.

Matsushita currently imports Panasonic brand vacuum cleaners to the United States and is expected to use the Kentucky facility to expand its manufacturing and marketing base in North America.

In making the announcement, David R. Whitwam, chairman, chief executive officer and president, said, "We are delighted to be working with Matsushita. They have been an excellent supplier of compressors for refrigerators and air conditioners, and other products, for many years, and we see this joint venture as another step in cooperative global efforts."

Matsushita is the world's leading manufacturer of consumer and industrial electronics products, with annual sales of nearly $38 billion, production facilities and sales offices in 38 countries and 198,000 employees worldwide. The company markets 14,000 different electronic products under the Panasonic, Technics, Quasar and National brand names.

Whirlpool Corporation is the world's leading manufacturer and marketer of major home appliances. Headquartered in Benton Harbor, the company manufactures in ten countries and markets products under nine major brand names in more than 45 countries.

#90156p5316 06/05/1990 ~PR Newswire

STOCKHOLM, SWEDEN (JUNE 5) PR NEWSWIRE - Manville Forest Products (MFP) announced today that it has completed the acquisition of all of the stock of Fiskeby Board AB, a leading European supplier of recycled and coated boxboard products from Kooporativa Forbundet (KFI). The purchase was approved last week by the Manville Corp. (NYSE: MVL) board of directors, MFP's parent company. Terms of the agreement were not disclosed.

Fiskeby, which had total sales of approximately $65 million (U.S.) in 1989 is a wholly-owned subsidiary of Kooporativa Forbundet (KFI), the central organization for Swedish consumer cooperatives. The purchase includes a paper mill located in Norrkoping, a Baltic port city in Sweden.

"The large, well-positioned Fiskeby mill will greatly enhance our strategy

to move aggressively into a stronger position in the European packaging markets," said Tom Johnson, MFP president. "It is an excellent fit with our recent acquisition in England and our North American operations."

"Fiskeby's recycled production knowledge and expertise are especially important to our future business direction," Johnson added. "We are looking forward to developing new and expanded business opportunities with the current Fiskeby management team and workforce."

"Since we now have an owner whose main interest is the forestry industry, we are guaranteed the possibility of continuing to develop our markets and products," said Ulf Holm, managing director, Fiskeby Board. "We now have the chance to cooperate technically with one of the world's leading manufacturers of paperboard in both process and production development."

Fiskeby produces approximately 100,000 tons of high quality packaging paperboard from first generation recycled paper. The quality of fiber, together with modern paperboard machinery, means that Fiskeby's multiboard-virgin has a quality which can compete with paperboard made from virgin pulp, Holm said.

"By being able to plastic coat and laminate paper and paperboard products, Fiskeby has a great opportunity for expansion in the growing market for products with the need for Barrier properties," he added.

Fiskeby board's paperboard production is non-harmful to the environment, Johnson said, and makes use of recycled fibers so that virgin fibers don't need to be used; uses 40 percent less energy than paperboard from virgin fibers; uses a manufacturing process resulting in low discharge to air and water; and does not use bleaching chemicals.

Fiskeby has 385 employees and exports nearly 60 percent of its current production, mostly to Scandinavian countries and the U.K. It will continue to operate as an independent business unit of MFP.

MFP is a wholly-owned subsidiary of Manville Corp. and is headquartered in West Monroe, La. The company is a diversified manufacturing company with major business segments in paperboard, packaging and wood products.

PITTSBURGH (JUNE 5) PR NEWSWIRE - Howard M. Love, chairman and chief executive officer of National Intergroup Inc. (NII) (NYSE: NII), said,

"The board of directors of NII, at a meeting today, authorized management to aggressively pursue the final steps of NII's restructuring program. Principal elements of the program, which should be completed not later than the fiscal year ending March 31, 1991, include:

-- the sale of Ben Franklin Stores Inc., a chain of franchised, general merchandise stores;

-- the completion of the pending tender offer for Permian Partners, L.P. preference units and the subsequent sale, spin-off or formation of a joint venture with another company, of Permian Partners, L.P., and its general partner, The Permian Corp.;

-- the payment of a special dividend or buy back of stock after completion of asset dispositions in order to achieve capitalization ratios appropriate for the ongoing pharmaceutical distribution business, while ensuring a strong financial platform for FoxMeyer's continued expansion;

-- the closing of the corporate headquarters in Pittsburgh and the transfer of a limited number of corporate functions to FoxMeyer's headquarters in Dallas; and

-- submitting to stockholders at the forthcoming annual meeting a proposal to adopt FoxMeyer Corp. as the company's new name, reflecting its transformation into a wholesale drug distribution business."

Love also stated that with the migration of the corporate office to Dallas and the completion of the restructuring, it is his intention to step down as chairman and chief executive officer of NII, and he will recommend to the board of directors that Robert L. King, currently president and chief executive officer of FoxMeyer Drug Co., continue in that capacity as chief executive officer of FoxMeyer Corp., the remaining business entity.

ATLANTA (JUNE 5) PR NEWSWIRE - Academy Insurance Group Inc. (NASDAQ: ACIG) announced today that it is postponing its annual meeting of shareholders scheduled for June 25.

On May 31, Academy announced that its management is exploring a "going private" transaction pursuant to which the stock of all public shareholders would be acquired for approximately book value. Because shareholder approval will be sought in connection with this proposed transaction, rather than incurring the expense of conducting one shareholders' meeting to elect directors and another to consider the proposed transaction, the board has decided to postpone the annual meeting until it becomes clear whether or not the "going private" transaction will proceed.

Academy Insurance Group Inc. is an insurance and financial services company that provides life, health and property/casualty products to specialty or "niche" markets. The company's primary market is noncommissioned and petty officers and their families. Academy's products are endorsed by the Non Commissioned Officers Association (NCOA).

TORRANCE, CA (JUNE 5) PR NEWSWIRE - The Lexus ES 250 set a new sales

record in May and combined sales of the ES 250 and LS 400 topped 5,000 for the second consecutive month, according to sales figures released today by the luxury division of Toyota Motor Sales U.S.A.

Sales of 1,860 ES 250s were up 14 percent from April, its best previous month. Sales of the LS 400, limited by less than a 20-day supply, were 3,242. Lexus has now sold 39,688 cars since being introduced in September 1989 and 23,386 in 1990.

"The ES 250 is really starting to come on," noted Dave Illingworth, Lexus vice president and general manager. "Buyers are discovering the ES 250 is an outstanding automobile in its own right."

Despite the limited availability of the LS 400, it continued to outsell its primary competition, including the Mercedes Benz 300- series and S-class, BMW 5- and 7-series (combined), Jaguar, Audi and Infiniti Q45. The ES 250 topped the Mercedes Benz 190-series, BMW 3- series four-door lineup and Infiniti M30.

TULSA, OK (JUNE 5) PR NEWSWIRE - Kinark Corporation (AMEX: KIN) announced today the completion of the feasibility determination necessary for the closing of the sale of its Camelot Hotels for $12 million.

Paul R. Chastain, deputy chief executive officer of Kinark, said, "We have received formal notification from the buyer advising that they have completed their feasibility determination to their satisfaction." In accordance with the terms of the contract, a $50,000 deposit in escrow now becomes non-refundable. By agreement between the parties the additional $50,000 deposit required will be paid by June 15, 1990.

"We are pleased with the buyer's decision to go forward," said Chastain, "and expect closing and the transfer of funds will occur on schedule next month." On April 6, Kinark announced a contract had been executed for sale of the hotels to private interests, now identified as Wilmae, Inc., a corporation headquartered in Santa Rosa, Calif.

"Redeployment of these real estate assets will achieve a stated growth objective and will enable the company to pay off essentially all of its bank debt," Chastain said.

Kinark Corporation, with corporate headquarters in Tulsa, operates chemical facilities in Chicago and Montgomery, Ala., and supports industrial/commercial construction and metals corrosion protection with

galvanizing plants in Denver; Louisville, Ky.; Nashville, Tenn.; St. Louis; Houston and Hurst, Texas.

DOWNERS GROVE, IL (JUNE 5) PR NEWSWIRE - Rockwell International (NYSE: ROK) has announced a new capability for its Galaxy ACD that is expected to dramatically change the way call centers handle large volumes of incoming calls.

"We're calling this new capability IQueue," said Rich Beyer, vice president and general manager of Rockwell's Switching Systems, "and it is going to revolutionize the way our Galaxy customers manage their callers' expectations."

IQueue, as an important part of Rockwell's Total Transaction Call Processing (TTCP) environment, offers an advanced set of call management application packages. Each has flexible, customer-defined functionality to provide customized service for callers to all types of call centers.

"Initially, IQueue will be available with a choice of three packages," said Beyer. "They are Intelligent Announcements, Intelligent Routing and ACDMail."

Beyer said three more application packages will be offered in the near future: ACDMail with Automessage Delivery, ACDMail with Agent Controlled Outdial, and ACDMail with System Controlled Outdial.

All six are part of the IQueue capability, a vital link to Total Transaction Call Processing.

Explaining how Intelligent Announcements will reduce abandoned calls by managing customer expectations, Beyer said, "With this IQueue capability, callers can be told how long the holding time is expected to be. IQueue not only counts the calls in queue, but also calculates the holding time based on a real-time analysis of actual call statistics."

The second package, Intelligent Routing, gives a caller the option to route his own call. "Perhaps the caller would like to retrieve information from a database or hear a recorded service announcement," Beyer said. "The caller is offered a menu of choices which he may select via a touch-tone telephone."

With this application, the number of misdirected calls is reduced, call abandon rates are decreased, and the caller has more control over the call completion process.

ACD Mail offers yet another choice to the caller. After hearing the Intelligent Announcement, the caller may choose to leave a message and receive a return call rather than hold for a representative.

The Phase II IQueue announcements provide even more functionality to ACDMail.

Automessage Delivery puts the ACDMail message in queue for automatic delivery to the representative, just exactly like live calls are handled.

The other Phase II capabilities, Agent Controlled Outdial and System Controlled Outdial, will speed the return call process by incorporating number identification. Either the agent will outdial with a single keystroke, or the system will outdial the number automatically, depending on customer preference.

IRVINE, CA (JUNE 5) PR NEWSWIRE - Corollary Inc. today announced the signing of a technology agreement with Digital Equipment Corp. (NYSE: DEC) (Maynard, Mass.) for the joint development of multiprocessor hardware and software systems based on Intel's 386 and i486 microprocessors.

Corollary's multiprocessing technology, the 386/smp and 486/smp, extends the power of industry standard systems running SCO UNIX V/386 by providing support for multiple processors.

According to Corollary President George White, this latest agreement with Digital confirms the mutually beneficial relationship the two companies plan to share in the future. "We are delighted with our relationship with the second largest computer manufacturer in the world. Corollary's strength is in providing the finest in multiprocessing software and hardware to systems manufacturers such as Digital, which possesses the marketing and sales expertise to reach the end user."

Gary Eichhorn, vice president of Digital's General Systems Business Group, said this agreement with Corollary marks the beginning of a long-term strategic relationship and supports Digital's recently announced small business initiative. "In focus groups we conducted across the country and around the world, we asked small businesses what is important to them in information systems. They responded resoundingly in favor of systems that provide investment protection, combined with comprehensive service and support.

"Small businesses are equally concerned about high quality and readily available applications with which they can run their businesses today. Our recently announced DECsystem family is based on the popular SCO UNIX V/386 operating system and the Intel 386 processor family and provides more than 3,000 small business applications which complement our extensive Microvax portfolio. We are interested in pursuing with Corollary how its technology might provide us with additional functionality in our commitment to SCO-based applications."

Digital Equipment Corp., headquartered in Maynard, is the leading worldwide supplier of networked computer systems and services. Digital offers a full range of computing solutions and systems for the integration of the entire enterprise -- from desktop to data center.

Corollary Inc., develops, manufactures and markets proprietary high-performance hardware and software products that extend the power of 386- and 486-based PCs running the UNIX operating system by providing support for multiple users and by increasing processing capacity via multiprocessor technology.

NEW YORK, JUNE 5 PR NEWSWIRE - The board of directors of Rockefeller Center Properties, Inc. (RCPI) (NYSE: RCP) declared today a regular dividend of 47 cents per share of common stock for the quarter ended June 30, 1990, payable on July 30, 1990, to stockholders of record at the close of business on July 9, 1990.

The company said that it intends to make distributions to its stockholders on the last Monday of April, July, October and December of each year in aggregate amount equal to substantially all cash flow from operations in that year.

RCPI, which commenced operations on Sept. 19, 1985, was formed to permit public investment in Rockefeller Center. RCPI's principal asset is a $1.3 billion participating mortgage loan to the owners of Rockefeller Center with an option, exercisable on Dec. 31, 2000, to convert the loan into a 71.5 percent ownership interest in Rockefeller Center.

The company's common stock is listed on the New York Stock Exchange. As of June 4, there are 37,510,000 shares of common stock outstanding.

PORTLAND, OR (JUNE 5) PR NEWSWIRE - Ann Sacks Tile and Stone, the dynamic Pacific Northwest manufacturing and import firm, opened the first of three planned California showrooms on June 1 in Los Angeles.

The company, known for its creative product lines and progressive design concepts, has chosen a corner location at 103 South Robertson Boulevard in the city's central design district for its Southern California debut. A San Francisco showroom will open in July, and another California showroom will open later this year.

Ann Sacks, president and founder of the nine-year-old company based in Portland, said the Los Angeles showroom will offer a complex mix of materials, styles, colors, and customer services.

Ann Sacks Tile and Stone has built a reputation for innovative tile design

and placement, and for recreating tiling techniques lost for hundreds of years. "Some of our exterior uses for tile haven't been used since the time of Antonio Gaudi and Julia Morgan," commented Sacks. "Now we are giving these installation concepts new life with daring new products."

The Los Angeles showroom will display more than 700 sample boards, representing thousands of different tiles, along with multiple floor grids of tile and stone products from the firm's own two plants in the Pacific Northwest, as well as the finest potteries and quarries around the world. The company imports puoducts from more than 100 vendors in ten countries.

"In addition to our extensive offerings of customized colors, reliefs, and patterns, we will feature culturally historic California tiles, textured mosaic murals, and stone and terrazzo installations," said Sacks. The products will have applications in traditional and contemporary, residential and commercial settings.

The company's "Stone Program," which offers full granite, marble and limestone fabrication, will also be available through the Los Angeles showroom.

The Los Angeles showroom manager is Sheri Hirschfeld, a Southern California design consultant, with extensive background in the tile industry. Hirschfeld comes to Ann Sacks Tile and Stone from a management position with Country Floors tile company. Senior sales consultant for the new Los Angeles showroom is Mark Lowry, a specialist in French limestone and marble, formerly with La France Imports. Architect for the new showroom is Kristin Jacobsen of the Buffalo Design Group in Seattle.

Ann Sacks Tile and Stone currently operates showrooms in Portland, Seattle and Vancouver, British Columbia. The firm began as a "cottage industry" in Portland in 1981 and has recently become a subsidiary of Kohler Co., the nation's leading manufacturer of plumbing and specialty products.

NEW YORK (JUNE 5) PR NEWSWIRE - Aviation Educational Systems, Inc. (AES) and the Harriman School at SUNY Stony Brook plan a joint venture to develop Management Education for Air Traffic Controllers, it was announced today. The Aviation Training Institute, the academic training division of AES, offers non-credit courses now and will develop credit courses in the future with the Harriman School for a specialization in the Harriman B.S. business management degree.

"The quality of this joint venture will be clear to regulators and

students," according to Dr. James E. Turner, president of Aviation Education Systems, Inc.

"We welcome the opportunity to joint venture with AES to develop this needed management training here on Long Island for students," said Dean Gerrit Wolf of Harriman School.

The SUNY/AES joint venture is viewed by industry leaders as a landmark step for the aviation industry. It is the first in a series of regional centers planned by AES. These centers will expand student interest in air traffic control while reducing the cost to government for recruitment, selection and training of air traffic controllers.

PITTSBURGH (JUNE 5) PR NEWSWIRE - Equitable Resources (NYSE: EQT) president Donald I. Moritz told security analysts in Pittsburgh today that "there are some very positive things on the near horizon that will benefit results for the balance of this year and provide a substantial plus for earnings in 1991 and beyond."

Moritz said that he foresaw the company's new Equitrans pipeline subsidiary leading Equitable's Utility Service segment to further gains in throughput and an increasing share of the interstate market.

In its first full year of operations in 1989, Equitrans generated more than 5 billion cubic feet of additional throughput and increased the company's off-system volumes by 33 percent. Since that time, Moritz said, Equitrans has successfully negotiated new storage service and end-user contracts that "will be an important source of incremental volumes and future earnings."

Equitable officials predicted that, overall, throughput on the company's system would be 7.2 billion cubic feet higher in 1991 than 1989, continuing the growth of recent years. From 1987 to 1989, throughput -- the combination of gas sales and transportation service -- has risen some 23 billion cubic feet, or 30 percent.

They noted, also, that three pending rate cases, two wholesale and one retail, could be decided in time to have a meaningful impact on the utility segment's profitability in 1990.

Improved results are also expected from the company's Energy Resource segment. Moritz predicted that the segment's production revenues would

rise from $120 million in 1989 to $141 million in 1990 and $159 million in 1991 based on projected increases in wellhead sales and prices. Gas production is expected to rise by approximately 2.3 and 2.5 billion cubic feet in 1990 and 1991 respectively; oil by about 220,000 and 100,000 barrels; and natural gas liquids by 19 million and 5.4 million gallons over the two year period.

Contributing to the higher production will be the company's largest ever drilling program of 260 net wells in 1990. While the focus will be in Appalachia, significant contributions are also expected from Equitable's new Gulf of Mexico offshore venture. The Gulf program has already proved up three of the six tracts tested since drilling began in late 1989. Initial flows from these discoveries will be reflected in company production beginning in 1991.

HIGHLAND PARK, MI (JUNE 5) PR NEWSWIRE - Chrysler Corporation (NYSE: C) reported improving sales during the month of May, regaining market penetration largely on the strength of its mid-size sedans and compact car models.

"Our total market penetration for the final period of May hit double digits at 10.5 percent," said Tom Pappert, vice president - Sales for Chrysler.

"That's the third consecutive 10-day period we've improved our market penetration. We've improved our share in that time by 1.4 points in a very tough market. Our 'Advantage: Chrysler' campaign is bringing buyers into dealer showrooms to see what we have to offer. They came, they saw and they're buying."

The company's best-selling cars, the Plymouth Acclaim, up 5 percent, and Dodge Spirit, up 12 percent, plus the new Chrysler LeBaron sedan accounted for more than 10,000 sales in the period. The Dodge Shadow registered a 27-percent gain with sales of 3,730 while the Plymouth Sundance was up 12 percent on sales of 3,429.

Sales for the final 10 days of May, the month and year to date are as follows:

DAYTON, OH (JUNE 5) PR NEWSWIRE - Nord Resources Corporation (NYSE: NRD), announced today that on Feb. 21, 1990 the United States District Court for the Southern District of New York entered an order against Bomar Resources Inc., compelling it to arbitrate the substantial claims asserted by Sierra Rutile Limited against Bomar in connection with Bomar's numerous acts and breaches of the terminated exclusive sales agency agreement between the parties. Sierra Rutile Limited v. Bomar Resources, Inc. U.S.D.Ct. S.D.N.Y., 90 Civ. 0835(JFK). Sierra Rutile's damage claim in arbitration is in excess of $10,000,000 with the demand that it be trebled in accordance with the provisions of the Racketeer Influenced and Corrupt Organization Act.

Nord Resources Corporation and Sierra Rutile Limited view Bomar's belatedly instituted lawsuit as a distraction not worthy of serious response and calculated only to circumvent the court order compelling arbitration and obscure the fact that Bomar is a defendant in a substantial damage claim asserted by Sierra Rutile Limited.

DALLAS (JUNE 5) PR NEWSWIRE - ENSERCH Corp. (NYSE: ENS) announced today the completion of its Mississippi Canyon Block 441 No. 4 (Sidetrack-1) well in the Gulf of Mexico. Drilled to a total depth of 10,750 feet, the successful completion confirmed a 1986 discovery.

Porosities ranging from 31 percent to 37 percent with permeabilities ranging from 650 to over 6,000 millidarcies were revealed from conventional core analyses. Perforated from 8,417 to 8,563 feet, the well flowed at a sustained rate of nearly 18 million cubic feet of gas per day on an effective choke size of 36/64", with 2,055 pounds per square inch of flowing tubing pressure.

Operator Enserch Exploration Partners Ltd. (EP) has a 37.50 percent working interest in the block. EP is ENSERCH's oil and gas limited partnership in which ENSERCH owns more than a 99 percent interest. Other co-owners in the block include Petrofina Delaware Inc., with 30.50 percent working interest and Agip Petroleum Co. Inc., part of the ENI Group, with 32 percent working interest.

EP plans to develop Mississippi Canyon Block 441 by subsea completions connected to a production platform to be located in adjacent Ewing Bank Block 482 in 380 feet of water. The Mississippi Canyon 441 well lies in 1,427 feet of water.

In addition to leasehold interests in Block 441, EP and the other co-owners hold leases in Ewing Bank Block 482 and Mississippi Canyon Block 485.

Purchased in 1982 for slightly more than $4 million, Mississippi Canyon Block 441 is located 55 miles south of New Orleans.

Enserch Exploration Partners Ltd. conducts most of the domestic oil and gas operations of ENSERCH Corp. Dallas-based ENSERCH Corp. is a diversified energy, engineering and construction company.

NOTE: Correct styles are ENSERCH Corp. and Enserch Exploration Partners Ltd.

CONTACT: Benjamin A. Brown (analyst contact), 214-670-2204, or Crystal C. Bell (media contact), 214-670-2528, both of ENSERCH Corp.

CHICAGO (JUNE 5) PR NEWSWIRE - FMC Gold Co. (NYSE: FGL) today announced that it has completed earning a 50 percent interest in the Rossi Gold property in Nevada. In 1987, FMC Gold entered into a joint- venture agreement with Baroid Drilling Fluids, Inc., to develop the 12-square-mile property located on the Carlin Gold Trend in Nevada.

Under terms of the agreement, FMC Gold was eligible to earn a 50 percent interest in this property by spending $1 million in exploration funds. FMC Gold has completed this requirement.

FMC Gold has drilled 52 exploration holes at the Rossi property and encountered gold mineralization in 24 of these holes. In 1990, deep exploration drilling will begin on targets identified by geological and geophysical studies. Exploration spending for the joint venture in 1990 is expected to be approximately $500,000.

FMC Gold Co., formed in 1987 through a combination of FMC Corporation's North American precious metals interests, ranks among the largest gold producers in the United States. In 1990, FMC Gold acquired Meridian Gold Co., with estimated proven and probable reserves of 1.2 to 1.4 million ounces of gold. FMC Gold reported 1989 production of 329,000 ounces of gold and 5.2 million ounces silver.

CONTACT: Pat Brozowski, 312-861-6104, or Chris Peterson, 312-861-5765, for FMC Gold.

DALLAS (JUNE 5) PR NEWSWIRE - Shareholders of Energy Service Co. Inc. ("ENSCO") (AMEX: ESV) voted today at the company's annual meeting, held in Dallas, to elect the board of directors of the company and to approve other agenda items proposed by the board in the company's proxy statement.

Re-elected to the board were Carl F. Thorne, chairman and CEO of ENSCO; Gerald W. Haddock, a director in the law firm of Kelly, Hart & Hallman in Fort Worth, Texas; Morton H. Meyerson, a private investor and former vice chairman and president of Electronic Data Systems; Dillard S. Hammett, vice president-technical and marketing of ENSCO; and Thomas L. Kelley II, a private investor. Also elected to the board was Richard A. Wilson, senior vice president-operations of ENSCO.

The other agenda items approved by the shareholders were:

- Amendments to the company's certificate of incorporation to increase the authorized shares of common stock from 125 million to 250 million and to authorize 15 million shares of a new class of serial preferred stock;
- Amendments to the company's 1988 employee incentive plan and an

incentive stock bonus for the chief executive officer of the company;
-- Appointment of Deloitte & Touche as the company's independent public accountants for the year 1990. In his address following the formal business meeting, Chairman Thorne stated:

"ENSCO's investment in Penrod, one of the world's largest drilling companies, represents a major step forward for ENSCO. The Penrod investment will greatly enhance ENSCO's leverage to the eventual recovery of the energy service industry. Of equal importance are the steady improvements made over the last year in each of ENSCO's existing business segments."

ENSCO is currently headquartered in Houston, but will be relocating its corporate headquarters to Dallas during the third quarter of 1990. ENSCO provides contract drilling and related energy services to the international petroleum industry. ENSCO's common and preferred stocks trade on the American Stock Exchange (ESV).

SEATTLE (JUNE 5) PR NEWSWIRE - A group of Boeing employees has been honored for creating one of the best U.S. Savings Bonds campaigns in the

nation.

Catalina V. Villalpando, U.S. Treasurer, presented awards in Washington D.C. last week to eight Boeing employees for their work on the 1989 U.S. Savings Bonds campaign. The awards were part of the 21st Annual Communicators' Competition sponsored by the Treasury Department's U.S. Savings Bonds Division.

Four of the employees were cited for the country's Best Sustained Promotion. They designed a bond campaign around a comic book character named Captain Aerospace for the Aerospace & Electronics Division of the Boeing Defense & Space Group.

The other four were honored for a special publication and campaign kit cover. A dozen savings bonds campaign winners around the country were honored in various categories from among 200 entries.

"I deeply appreciate the great and continuing commitment your employers have made in time and money to support the U.S. Savings Bonds program over and over," Villalpando said in presenting the awards.

Don Scogings and Elliot Pulham from Boeing Defense & Space Group, and John Laughlin and Rick Kumasaka of Boeing Support Services were given the Best Sustained Promotion award.

Dave Andrus, Rick Gill, Lynn Griffes and Don Anderson, all of Boeing Support Services, won first place awards in the special issue and campaign kit cover categories.

CYPRESS, CA (JUNE 5) PR NEWSWIRE - Mitsubishi Motor Sales of America Inc. posted a 67 percent increase in total vehicle sales for the month of May, with 18,386 units, marking the company's second highest monthly sales to date.

"We've provided our dealers with an encouraging 3-month incentive program, which has in turn proven beneficial to consumers," said Rick Lepley, vice president of sales.

The incentive program will last through June and has already enhanced sales of Mitsubishi's core products such as the Galant, Eclipse and Mirage. The Galant, named "Import Car of the Year" upon its 1989 U.S. introduction, posted a record month for Mitsubishi with sales of 4,865 units.

Lepley anticipates increased sales and consumer awareness with the introduction of the 1991 model line later this fall. All-new product such as the 3000GT and Galant VR-4 will showcase the height of Mitsubishi technology offering consumers the benefits of all-wheel drive, four-wheel steering, four-wheel independent suspension and four-wheel anti-lock brakes in one integrated package.

Passenger car sales for the month of May reached 15,406 units, representing a 30 percent increase over the same period last year. Year-to-date passenger car sales were up 86 percent, reaching 78,804 units from 42,284 a year earlier. Total truck sales for the month reached 2,980 units.

Mitsubishi Motor Sales of America Inc., Cypress, was established in 1982 by Mitsubishi Motors Corp., Tokyo, and markets a full line of subconpacts, compacts, sport coupes, luxury cars, vans, light trucks and sport/utility vehicles.

NEW YORK (JUNE 5) PR NEWSWIRE - Bio-Technology General Corp. (NASDAQ: BTGC) announced today that it has filed for approval from Israel's Ministry of Health for its hyaluronic acid-based product for ophthalmic indications.

Named OphtHA(TM), the product is a high molecular weight, ultra pure sodium hyaluronate. Ministry approval is being sought for cataract extraction, intra-ocular lens implantation, corneal transplant and glaucoma surgery applications.

The use of sodium hayluronate in these indications is intended to prevent mechanical damage and denudation of tissue surfaces, minimize endothelial damage, reduce surgical complications and facilitate the performance of different surgical manipulations.

As was previously announced, independent of Bio-Technology General Corp.'s own clinical activities, a comprehensive development and clinical program has been undertaken by JCR Pharmaceuticals Co., Ltd., the company's exclusive licensee for the commercialization of ophthalmic, orthopedic and other hyaluronic acid-based pharmaceutical agents in Japan.

OphtHA is produced by Bio-Technology General Corp.'s proprietary patented bacterial fermentation technique and will be marketed in a "ready to use" sterile syringe presentation.

Bio-Technology General Corp. is engaged in the research, development and manufacture of genetically engineered products for human and animal health care.

TROY, MI (JUNE 5) PR NEWSWIRE - Richard A. Smith, president and chief operating officer of Newcor, Inc. (AMEX: NEW), announced the following results for the second quarter and six months ended April 30, 1990:

Sales and Earnings:

	Second Quarter		Six Months	
	1990	1989	1990	1989

Sales	$20,369,000	$31,110,000	$31,899,000	$43,583,000
Net income (loss)	955,000	719,000	(1,435,000)	751,000
Income (loss) per share	$.29	$.22	($.44)	$.23

Per-share results are adjusted for a 10-percent stock dividend to shareholders of record on April 20, 1990.

Second-quarter earnings of $955,000, or $.29 per share, represent a 33-percent increase over the same period in 1989, despite 35 percent lower sales. Both Newcor segments -- special machines and precision parts -- contributed to the improved profitability.

Consolidated sales are below 1989 due to reduced shipments of special machines. The 1989 sales for these periods represented new records for the company as a result of major orders for the engine assembly systems then being completed. Sales of precision parts for the second quarter and six months increased over 1989.

The 1990 year-to-date loss stems principally from costs recognized in the first quarter for the close down of Newcor Canada Limited in Windsor, Ontario. Welding and assembly equipment previously manufactured in Canada will now be produced at Newcor's other special machine operations located in Michigan.

New orders rose sharply to a record $64.9 million in the second quarter, bringing new orders for the first half to $78.4 million, double the order intake for the same period in 1989. The new order bookings include four major orders for welding and assembly systems announced by the company on March 5, 1990. Newcor's backlog at April 30, 1990, of $86 million is also a new record, with approximately $47 million scheduled for completion in fiscal 1991.

Newcor, headquartered in Troy, designs and manufactures custom machines and manufacturing systems as well as special precision machined parts. Newcor is listed on the American Stock Exchange.

WASHINGTON (JUNE 5) PR NEWSWIRE - Host International, a division of Marriott Corporation (NYSE: MHS), said today that it had retained Airline Economics, Inc. (AEI) of Washington, to provide consulting and other services on an exclusive basis over the next three years. Terms were not disclosed.

Under the agreement, Airline Economics will assist Host and other Marriott divisions, including Marriott Hotels and Resorts, with strategic planning, help in the preparation of bids and proposals and provide key market and industry data.

"We believe this relationship with Airline Economics will allow us to serve the industry better," said Robert M. Dorfman, executive vice president and general manager of Host. "Their knowledge of both airlines and airports should be invaluable as we plan for the future."

Harold "Hap" Pareti, president and chief operating officer of Airline Economics, called the agreement "a unique partnership." He said, "Host is already the leader in airport terminal concessions. In joining forces, we believe we can help them identify and act on new opportunities that will benefit both their current and potential clients."

AEI serves marketing and financial executives of major U.S., foreign flag, and regional airlines as well as suppliers and financing partners for the industry. Its services include airline business plan development, airline and airport forecasting, seminars highlighting current industry trends, marketing services, and legal and regulatory support. AEI also produces four trade publications including Blue Chip Airline Financial Indicators and The Airline Quarterly.

Acquired by Marriott in 1982, Host International has been serving the traveling public since 1897. It has food, beverage and/or merchandise operations in 52 U.S. and foreign airports.

Headquartered in Washington, Marriott Corporation is a diversified hospitality company with primary interest in lodging and contract services. Sales for 1989 exceeded $7.5 billion.

TORRANCE, CA (JUNE 5) PR NEWSWIRE - Toyota Motor Sales (TMS) U.S.A. Inc., announced today that it established a new vehicle sales record for May, totaling 99,193 units, up 24.8 percent over last year.

"Toyota set a sales record for the fourth consecutive month," said Robert B. McCurry, TMS executive vice president. "Consumer response to the 1991 Previa van, MR2 sports car, Land Cruiser as well as the new Celica continues to be outstanding."

Combined sales of these four products were up 141 percent compared to last year. More specifically, Celica sales increased 64.6 percent during May compared to May, 1989. Lexus ES 250 also established a best-ever, one-month record with sales of 1,860, up 14 percent from April. Lexus sales for May totaled 5,102.

McCurry also noted that "with more vehicles available, we're able to sell more. The increase in production of Camrys from Toyota Motor Manufacturing (TMM) in Georgetown, Ky., and Corollas produced at New United Motor Manufacturing Inc. (NUMMI) in Fremont, Calif., and Toyota Motor Manufacturing Canada (TMMC) in Cambridge, Ontario, have proven a positive factor in our sales success."

May domestic car sales, including Corolla and Camry totaled 37,889 versus 14,964 for the same period last year. Domestic car sales for the last 10 days of May were 19,951 compared to 7,768 a year ago.

THOMASTON, GA (JUNE 5) PR NEWSWIRE - Neil H. Hightower, president and chief executive officer of Thomaston Mills Inc. (NASDAQ: TMSTA TMSTB), announced today that the board of directors elected Anne H. Plowden as a member of the board.

Plowden will replace her late husband, Will Best C. Plowden, who had distinguished service as a member of the board since 1963.

Plowden, the daughter of the late Julian T. Hightower and past chairman of the board of Thomaston Mills Inc., is a graduate of Maderia School in Virginia and Agnes Scott College. She brings a wealth of understanding of the company and industry to the board and an inherent sensitivity towards the many facets of the business.

Hightower also announced organizational changes which were as follows: -- Harry W. Ormand Jr., vice president-Finishing, will retire July 1 with over 40 years of service.

-- Jonathan O. Huff was elected vice president-Finishing to replace Ormand.

Ormand joined the company on June 6, 1948, and held various management positions at Thomaston Mills. He was elected to his present position of vice president-Finishing on Sept. 6, 1973.

Hightower stated: "Mr. Ormand has provided dedicated and loyal service to the company for more than 40 years. He was responsible for many gains in productivity, quality, and cost effectiveness during his years of service and we wish him well upon his retirement."

Huff joined the company on Aug. 1, 1974, as area superintendent at the finishing division. Subsequent positions held by him included area

manager, assistant plant manager, and his current position of plant manager.

Hightower stated these changes were made to effectively handle the affairs of the company.

BUFFALO, NY (JUNE 5) PR NEWSWIRE - LTV Missiles and Electronics Group announced today that its Sierra Research Division was selected by the U.S. Air Force to produce stationkeeping components.

Valued at $7.1 million, the contract was awarded by Warner Robins Air Logistic Center, Ga. The ultimate user will be the Military Airlift Command (MAC) headquartered at Scott Air Force Base, Ill.

The contract calls for the production of coder/decoders, flight command indicators and receiver/transmitters for Sierra's stationkeeping equipment and TPN-27 zone marker. Production of the components will be done at Sierra's suburban Cheektowaga facility. The work is expected to be completed within 19 months.

Stationkeeping equipment, also known as SKE, is a unique airborne electronic system developed and manufactured by Sierra Research. It enables transport aircraft to locate and identify each other and maintain relative positions in formation, regardless of visibility conditions. It also enables communication of flight-command information without voice transmission and provides precision guidance for airdrop operations.

Sierra Research is a prime developer, integrator and producer of electronic systems and products for worldwide military and commercial use. It is one of three divisions of LTV Missiles and Electronics Group which also produces missiles, rockets, space systems and military vehicles.

DARIEN, CT (JUNE 5) PR NEWSWIRE - Transact International Inc. (NASDAQ: TACT) today announced a net profit for the fiscal year ended April 30, 1990.

Sales from continuing operations were $11,000,065 for fiscal 1990 compared with $11,519,261 for fiscal 1989. Despite slightly lower sales, income from continuing operations improved significantly in fiscal 1990 to $272,446 or 4 cents per share, as compared with a loss of $178,816 or 3 cents per share reported for fiscal 1989. Net income for fiscal 1990 was $273,554 or 4 cents per share, which includes $1,108 of income from discontinued operations. Discontinued operations reported a loss of $1,465,430 in fiscal 1989 equal to 24 cents per share, resulting in a net loss for the company in fiscal 1989 of $1,644,246, equal to 27 cents per share.

The Telecommunications Division, sold in July 1989, and the Contract Services Division, sold in October 1989, are treated as discontinued operations.

"Our decision to dispose of two of our divisions and concentrate on our basic operations, the Air Cargo Handling Equipment Division, has proven successful in fiscal 1990 as Transact again is operating profitably," stated Frank B. Carder, president.

As of April 30, 1990, Transact's backlog was approximately $5.3 million compared with $6.0 million as of April 30, 1989. "The steady level of backlog augurs well for the future," said Carder. "Requests for bids have increased substantially in recent months."

Transact International designs and manufactures customized materials handling systems and equipment at its facilities in Memphis, Tenn., and markets and designs computerized robotic parking systems through Transpark Inc., based at its corporate headquarters in Darien, Conn.

NEW YORK (JUNE 5) PR NEWSWIRE - The following letter was sent today to Macy investors:

Enclosed is the 10Q report for the quarter ended April 28, 1990 as filed today with the Securities and Exchange Commission.

There were no surprises versus our expectations as expressed in our May 1st letter. Sales were flat, margins improved, expenses controlled, yielding a modest improvement in bottom line performance. Earnings before interest, taxes and depreciation (EBIT-D) were $160.2 million for the quarter versus $154.0 million for the comparable quarter in 1989.

You may have read or heard of the concern in the factoring community regarding Macy's. The rumors and misinformation peaked about ten days ago causing concern on the part of factors whose role it is to extend credit to many of our suppliers. We understand their anxiety given their recent experience with Campeau and Ames -- both highly leveraged companies but completely different from our company.

We have had individual meetings with the twelve largest factors. We have shared detailed financial information about the company and gave them an updated spring and fall cash flow forecast. We feel that this information was appreciated by the factors. We are pleased with the response and sense of responsibility exhibited by them after our meetings.

We expect the results in the upcoming July quarter to be somewhat improved over last July's quarter.

It is no secret that we had a down Christmas quarter last year. But the steps we have taken to lower inventory levels, tighten expenses and reduce our promotional activity are having their intended effect. Our game plan is working and it should yield significant improvement in cash flow and a return to historical levels of profitability for our November through January quarter.

We have been actively examining opportunities to reduce or refinance our debt. We will continue to explore these alternatives in the hope of benefiting from current market conditions and opportunities.

#90156p5437 06/05/1990 ~PR Newswire
MIAMI (JUNE 5) PR NEWSWIRE - Eastern Airlines has reached an agreement in principle to acquire Bar Harbor Airways to develop a Florida route network

geared to the needs of business travelers across the state.

Eastern currently owns 41 percent of Bar Harbor and most of the remainder is owned by Continental Airlines. Under the proposed agreement, Eastern would acquire Continental's interest in Bar Harbor and the New York-New England division of the commuter would be spun off to Continental.

In addition, Continental would forgive all debt owed to it by Bar Harbor and pay Eastern approximately $3 million.

Bar Harbor will become a commuter subsidiary of Eastern, operating throughout Florida and the Bahamas exclusively as "Eastern Express."

Eastern will maintain Bar Harbor's current 47 daily departures from Miami to 11 destinations. All 300 Bar Harbor employees in Florida and the Bahamas will be retained as part of Eastern Express.

Martin Shugrue, Eastern's recently-appointed chief executive, said today's transaction is part of his strategy to strengthen Eastern by expanding operations "to preserve our long-term Florida presence."

Eastern said it will nearly double the commuter's operations and route network by late summer, increasing to over 70 daily departures and 16 destinations.

The expansion creates a second hub in Tampa providing nonstop service to Naples, Key West, Fort Lauderdale, Jacksonville, West Palm Beach, Fort Myers and Tallahassee. New nonstop flights from Key West to Fort Myers and Naples will be added and Miami service will be increased.

Eastern Express will operate six 35-seat Saab 340s, six 15-seat Beechcraft C-99s and 10 pressurized 19-seat Beechcraft 1900 aircraft.

The commuter currently provides nonstop service from Miami to Fort Myers, Key West, Marathon, Naples, Orlando, Sarasota/Bradenton, Tampa, Freeport, Governor's Harbor, Rock Sound and Treasure Cay.

Eastern said Bar Harbor will continue its normal level of operations while the acquisition receives necessary approvals.

The proposed change of ownership is subject to approval by the bankruptcy court and the U.S. Department of Transportation. Eastern has been in Chapter 11 protection since early last year.

UNIVERSAL CITY, CA (JUNE 5) PR NEWSWIRE - Nikki Rocco has been promoted to the newly created position of senior vice president distribution/marketing liaison for Universal Pictures, effective immediately. The joint announcement was made by Fred Mound, president of Universal Pictures Distribution, and Si Kornblit, executive vice president of worldwide marketing for Universal Pictures.

Rocco most recently was vice president of Universal Pictures Distribution. In her new position, she will assume the added responsibility of serving as the liaison between the distribution and marketing departments. She will report jointly to Mound and Kornblit.

"In today's highly competitive market environment, it's imperative that information vital to the company's success be communicated in an effective and timely manner," said Mound. "We're extremely fortunate to have someone with Nikki's background and expertise to fill this important position." Kornblit added, "By interfacing between the distribution and marketing departments, she will play a key role in Universal's efforts to maintain its leadership position in the motion picture industry."

Rocco joined the Universal sales department in New York in 1967. She was promoted to assistant to the general sales manager in 1981 before being named vice president of distribution in 1984.

CINCINNATI (JUNE 5) PR NEWSWIRE - Comair Holdings, Inc. (NASDAQ: COMR), the parent company of Comair, Inc., the Cincinnati based "Delta Connection" airline, announced today that the company has signed a purchase option to be a launch customer for a 45-passenger regional jet to be manufactured by Embraer -- Empresa Brasileira de Aeronautica S.A. of Brasil. A purchase option for up to 60 EMB-145 aircraft (with a value of over $700 million) will be subject to signing a formal purchase agreement which is scheduled for 1991/1992. The new-generation regional jet will complement Comair's family of aircraft which already includes the 15-passenger Embraer Bandeirante and the 30-passenger Embraer Brasilia. Comair's EMB-145 aircraft will be scheduled for delivery from fiscal 1993 to fiscal 2000.

HOUSTON (JUNE 5) PR NEWSWIRE - Mark A. Sullivan has joined Criterion Investment Management Co. in Houston as vice president, marketing and client services, it was announced today by Terence Ellis, president. Sullivan's reponsibilities will involve marketing of the organization's investment management services to public retirement funds and Taft-Hartley plans.

In addition to marketing and business development, he will assume client servicing reponsibilities for certain accounts.

Criterion Investment Management Co. is a subsidiary of Transamerica Criterion Group which manages over $10 billion in fixed income and equity assets. The addition of Sullivan to the firm's marketing department

reflects the continuing growth of Criterion.

Prior to joining Criterion Investment Management Co., Sullivan was assistant vice president at Bankers Trust in the Taft-Hartley/Public Funds Group with marketing reponsibilities for master custody and investment management products. He started his business career at Prudential Asset Management Co. in Chicago.

Sullivan received his B.S. in Languages and Linguistics from Georgetown University and attended Oxford University and the United States Military Academy at West Point.

MOUNTAIN VIEW, CA (JUNE 5) PR NEWSWIRE - Genus Inc. (NASDAQ: GGNS) said today that, as previously announced, it expects its second quarter results will be lower than those for the first quarter of 1990. The company anticipates revenues for the period will be between $9 million and $11 million, and that there will be a net loss per share of between 35 cents and 45 cents.

William W.R. Elder, genus chairman and CEO, stated, "The second quarter reflects continued competitiveness of the blanket tungsten marketplace and the lack of shipments of ion implantation systems during the quarter.

In addition," he continued, "and despite the current market environment, bookings for CVD tungsten systems have improved over first quarter, but are less than the run rates of 1989. The compnay continues to invest heavily in the areas of research and development, customer service, quality excellence programs and our Japanese subsidiary, Genus KK during this second quarter of 1990."

Company management has made reductions in spending during the quarter that will alleviate some of the impact on the financial results. Genus continues to view its long term business prospects as extremely sound, but expects current business conditions to persist through the remainder of 1990.

Genus Inc. is the industry leader in the manufacture of front end production equipment for tungsten CVD and high energy ion implantation. Genus' products are used in the fabrication of advanced semiconductor integrated circuits by major semiconductor manufacturers around the world.

IRVING, TX (JUNE 5) PR NEWSWIRE - NCH Corp. (NYSE: NCH) has reported sales and earnings for the fiscal year and fourth quarter ended April 30, 1990.

Net sales for the year were $628,430,000 compared with the $565,075,000 reported in 1989.

Net income for the year amounted to $39,809,000 ($4.69 per share) compared with $36,345,000 ($4.06 per share) in 1989.

Net sales for the quarter ended April 30, 1990, were $160,059,000 compared with the $150,780,000 reported last year. Net income for the quarter was $8,906,000 ($1.06 per share) compared with $9,247,000 ($1.04 per share) last year.

Fourth quarter operating income and other expenses, as well as the operating income for the 12 months, were adversely affected by economic conditions, currency devaluations and restrictions which affected the company's major Latin American operations.

LONG BEACH, CA (JUNE 5) PR NEWSWIRE - The fourth of five McDonnell Douglas (NYSE: MD) MD-11 tri-jets in the new aircraft's flight test and certification program has joined the first three MD- 11s at the company's flight test center in Yuma, Ariz. As of June 1, McDonnell Douglas had received 371 MD-11 orders and other commitments from 31 customers in 24

countries.

The newest MD-11 is powered by three General Electric CF6-80C2 engines. It joins two others with GE engines. A fourth MD-11 in flight test is powered by Pratt & Whitney PW4460 engines. Together, the MD-11s have accumulated more than 550 hours in the flight test program. The other available power plant for the MD-11 is the Rolls-Royce Trent 650.

McDonnell Douglas began flight testing of the MD-11 at its facilities in Yuma when the first aircraft made its maiden flight on January 10. The fifth aircraft is expected to enter the flight test program in September.

NEW YORK (JUNE 5) PR NEWSWIRE - David C. Batten is joining the Blackstone Group effective July 1, it was announced today.

Batten, 45, had been a managing director of First Boston Corporation since 1978 where he had played a major role in building the firm's capital markets business.

At the Blackstone Group, Batten's responsibility will include financial advisory services for the firm's clients and management of Blackstone Group funds.

Batten, who joined First Boston in 1968, has most recently been head of the equity capital markets department. From late 1986 to the end of 1988 he served as an executive director and co-head of capital markets for Credit Suisse-First Boston Ltd. in London. He started his career in sales and trading on both the debt and equity sides of First Boston's business.

Batten received a B.A. from Williams College and an M.B.A. from Stanford.

The Blackstone Group has grown from a staff of five in 1985 to more than 60 professionals and has completed more than $23 billion in transactions, including 21 transactions in 1989 alone. In addition to its financial advisory services, Blackstone Capital Partners has the capacity to commit more than $800 million in equity for friendly investments and has access to a pool of debt capital from such limited partners as Nikko, Prudential, GECC and Metropolitan Life. Blackstone Financial Management has more than $3 billion of discretionary assets under management and 15 government and private sector advisory clients.

Other general partners include Roger C. Altman, James R. Birle, Jonathan E. Colby, Lawrence D. Fink, Michael B. Hoffman, James J. Mossman, Henry R.

Silverman, David A. Stockman, Jerome S. Traum and Steven Winograd.
Richard Ravitch was named a general partner last week.

HOUSTON (JUNE 5) PR NEWSWIRE - NL Industries, Inc. (NYSE: NL) has announced the signing of a term loan agreement on May 30, 1990, by Kronos International, Inc., an indirect, wholly owned subsidiary headquartered in Leverkusen, West Germany, for a Deutsche Mark Euromarket syndicated loan in the amount of DM 1.6 billion (approximately U.S.$940 million).

The bank syndicate was led by Hypobank International S.A., as agent, with Banque Paribas as co-agent. The participants are European, Japanese, Arab and Canadian banks: Hypobank International S.A.; Banque Paribas; Fuji Bank Ltd.; Arab Banking Corp.; Christiania Bank; The Bank of Nova Scotia; Bank of Scotland; National Westminster Bank, Plc., and Union Bank of Switzerland.

J. Landis Martin, president and chief executive officer of NL Industries, said today, "We are very pleased to have entered into what we believe is the largest Deutsche Mark financing to date by a subsidiary of a U.S. company."

Martin continued, "The fact that we have nine prestigious bank underwriters from nine different countries is a reflection of the international nature of our business and the globalization of the financial markets."

Borrowings under the term loan will bear interest at DM LIBOR plus 1-3/8 percent. The loan will have a final maturity of June 1997.

When drawn, the proceeds of the loan will be used primarily to prepay existing indebtedness and for general corporate purposes.

NL Industries is a worldwide supplier of titanium dioxide pigments and specialty chemicals.

#90156p5484 06/05/1990 ~PR Newswire

CHICAGO (JUNE 5) PR NEWSWIRE - The board of directors of Telephone and Data Systems Inc. (AMEX: TDS) has declared a second quarter dividend of $.07 per share on outstanding Common and Series A Common shares. This dividend is an increase of 7.7 percent over the second quarter 1989 dividend. The dividend is payable June 30, 1990 to shareholders of record on June 15, 1990.

TDS's telephone subsidiary, TDS Telecommunications Corp. (TDS TELECOM), is increasing its customer base through acquisitions as well as internal growth. Earlier this year, TDS entered into an agreement to purchase the KMP Telephone Co. in Kerkhoven, Minn., serving 1,400 access lines and closed the purchase of the New Castle Telephone Exchange property serving 1,700 access lines in New Castle, Va.

As of March 31, 1990 TDS Telecom operated 76 telephone companies serving approximately 268,000 access lines in 27 states. An additional 13,000 access lines from previously announced acquisitions will increase TDS Telecom's total access lines served to 281,000.

United States Cellular Corp. (AMEX: USM), the company's 81.5-percent-owned cellular subsidiary is rapidly expanding its customer base and the markets it serves. TDS and USM own or have the right to own approximately 11.5 million population equivalents in 76 metropolitan statistical area and 66 rural service area markets. Cellular systems managed by USM served over 48,000 cellular telephones at March 31, 1990.

American Paging Inc. (API) TDS's wholly owned subsidiary, is the fifth largest non-Bell affiliated paging company in the United States. API operates 30 paging systems in 17 states and the District of Columbia. As

of March 31, 1990, these systems served approximately 169,000 pagers.

TDS is a diversified Chicago-based communications service company with established local telephone operations and developing cellular telephone and radio paging operations. TDS builds value for its shareholders by providing excellent communications services in attractive, closely related segments of the telecommunications industry.

#90156p5486 06/05/1990 ~PR Newswire

HOUSTON (JUNE 5) PR NEWSWIRE - Texas Eastern Transmission Corp. (TETCO), a unit of Panhandle Eastern Corporation (PEC), has requested Federal Energy Regulatory Commission (FERC) authority to implement new rates effective July 1, 1990. The filing seeks an annual revenue increase of $197 million based on increased costs and changes in service for both system sales and transportation.

George Mazanec, group vice president, said the new rates reflect the company's investments in three major projects to restore and expand delivery capabilities to the Northeast, as well as increased levels of operating expenses experienced since the last general rate increase in 1988.

"We have committed more than $600 million in capital expenditures for Phases I and II of Texas Eastern's Capacity Restoration Program, the CD-1 Adjustment Program and the Niagara Import Point Project. These projects restore approximately 555 million cubic feet per day (mmcf/d) of existing certificated capacity in Pennsylvania and provide approximately 435 mmcf/d of additional pipeline capacity for new incremental services," Mazanec said.

"This filing also reflects the implementation of a settlement agreement with respect to the DCQ Contract Adjustment Program. Several years ago we agreed to file a new rate case to 'roll-in' the cost of certain facilities within a three-year period which expires December 1990."

TETCO requested that the proposed rates become effective July 1, 1990, but if FERC follows its customary practice of suspending the effective date for five months, the new rates would be effective Dec. 1, 1990, subject to refund.

Panhandle Eastern Corp. operates one of the nation's largest interstate natural gas pipeline systems, providing natural gas to the Midwest and Northeast markets.

WASHINGTON (JUNE 5) PR NEWSWIRE - Giant Food, Inc. (AMEX: GFS.A), a Washington-based food-drug chain of 150 units, today announced unaudited sales and earnings for the 12-week period ended May 19, 1990, compared with the same period ended May 20, 1989.

For the 12 weeks ended May 19, 1990: -- Sales were $769,264,000, compared with $724,479,000, an increase of 6.2 percent.

-- Pre-tax income was $46,288,000, 6.02 percent of sales, compared with pre-tax income of $43,129,000, 5.95 percent of sales.

-- Net income was $28,467,000, 3.7 percent of sales, compared with a net income of $26,525,000, 3.66 percent of sales.

-- Earnings per share were 48 cents, compared with earnings per share of 44 cents.

The company reported an earnings increase of 7.3 percent on a sales increase of 6.2 percent for the first 12 weeks of its fiscal year. The first reporting period of the prior fiscal year resulted in excellent sales and earnings. Management stated it was very pleased to have exceeded that performance.

During the 12 weeks, Giant opened a new 58,000-square-foot food-drug store in the Mapledale Plaza Shopping Center in Dale City. There are now 150 supermarkets, 100 of which are food-drug stores, and two freestanding drug stores. This compares with 146 supermarkets, 96 food- drug stores, and one freestanding drug store in the prior year.

HUNTINGTON BEACH, CA (JUNE 5) PR NEWSWIRE - The fourth commercial launch aboard a McDonnell Douglas Space Systems Co.'s Delta expendable launch vehicle will take place June 12 from launch complex 17B at Cape Canaveral Air Force Station, Fla. The launch window opens at 1:52 a.m. (EDT) and extends for two hours.

A Delta 4925 rocket will carry INSAT-1D, a multi-purpose operational satellite for the government of India, into a geostationary transfer orbit. The flight path is on a launch azimuth of 95 degrees, for an orbital inclination of 27.17 degrees.

INSAT-1D, designed and built by Ford Aerospace Co., is intended to replace INSAT-1B and ensure continued telecommunications, direct broadcast television and weather forecasting capabilities for India.

The Delta 4925 is a three-stage launch vehicle with a Rocketdyne MB-3 main engine for the first stage. The second stage is powered by an Aerojet AJ10-118K and the third stage, the Payload Assist Module, uses a Morton Thiokol Star-48B solid rocket motor.

The Indian National Satellite System (INSAT) is a joint venture of India's Department of Space, Department of Telecommunications, Meteorological Department, All India Radio and Doordarshan.

McDonnell Douglas Commercial Delta Inc., a wholly owned subsidiary of McDonnell Douglas Space Systems, has contracts for seven more commercial launches.

OKLAHOMA CITY (JUNE 5) PR NEWSWIRE - Red Eagle Resources Corp. (NASDAQ: REDX) today announced that it has acquired French Petroleum Corp. from its sole shareholder L.R. "Robin" French, III. Certain limited partnerships, of which Red Eagle serves as general partner, also acquired additional oil and gas properties and related equipment from French Petroleum's affiliates. French Petroleum was an Oklahoma City based independent until 1988 when its corporate headquaters were moved to Houston. Most of the properties of French Petroleum, and those being acquired from French affiliates, are located in Oklahoma.

The properties being acquired by the Red Eagle group include interests in 372 wells, approximately 200 of which are operated by French. The daily production of the wells operated by French Petroleum Corp. totals 23

million cubic feet of gas and 425 barrels of oil.

French Production Inc. and its other affiliated companies are not part of this transaction and will continue their oil and gas operations from the Houston headquarters.

No details, other than the fact that it will be a cash purchase, were disclosed.

CALGARY, ALBERTA (JUNE 5) PR NEWSWIRE - Encor today announced that, effective June 1, 1990, a Joint Operating and Services Agreement and other coincident agreements were established with Amoco Canada which transfer certain operating and administration responsibilities to Encor for its interests in jointly held properties in western Canada.

As a result of signing these agreements, Encor will immediately assume more responsibility and control for marketing, exploration and development expenditures, and accounting matters, as they relate to major interest joint lands.

The agreements provide for the total transition to Encor, over time, of all operating and administrative matters while in the near term recognize the efficiency to both parties of continuing to have certain services on minor interest properties administered and managed by Amoco.

C.W. Fischer, president of Encor, stated that, ''These agreements represent a positive step in establishing the framework within which Encor and Amoco will pursue their joint objective of rationalizing their interests in common properties.''

#90156p5539 06/05/1990 ~PR Newswire
SAN FRANCISCO (JUNE 5) PR NEWSWIRE - Chevron U.S.A. Inc. announced a decrease in the posted prices it will pay for all grades of crude oil in its Eastern Region (U.S. areas outside of California and Alaska).

The decrease of $0.50 per barrel was effective today at 7:00 a.m. Chevron will now pay:

$16.25 for West Texas Intermediate $14.25 for West Texas Sour $16.25 for South Louisiana Sweet (Onshore) New prices for all grades other than those from California and Alaska are reflected in Chevron's Eastern Region Crude Oil Price Bulletin 90-E27. Bulletins are issued periodically reflecting price increases or decreases as market conditions change.

CONTACT: Bonnie Chaikind, 415-894-1200, or Mike Libbey, 415-894-4440, both of Chevron U.S.A.

#90156u0144 06/05/1990 ~United Press International
CAPE CANAVERAL, Fla. (JUNE 5) UPI - With the shuttle Columbia grounded by a fuel leak, NASA engineers scrambled to determine whether a hangar accident caused any damage to one of the shuttle Discovery's fragile payload bay doors.

Forrest McCartney, director of the Kennedy Space Center, said Monday he ordered engineers to report to him Tuesday with a preliminary explanation of how the Discovery accident happened and what damage, if any, may have resulted.

''I'm not a happy camper about it, obviously,'' he said. ''They tell me there is no visible damage, but that's not good enough. We're going to have to get in there and re-create what happened ... and try to respond.''

The incident happened when an overhead crane in Discovery's hangar was accidentally moved, pulling on cables that were attached to the shuttle's cargo bay doors. As a result, the right-side door was pulled upward 10 to 12 inches. Once the tension was released, the door returned to its original shape.

As for Columbia, technicians are pressing ahead with plans to pump frigid liquid hydrogen back into the ship's external fuel tank early Wednesday in a last-ditch effort to pinpoint a leak that has indefinitely delayed the shuttle's launch on a 10-day astronomy mission.

The leak apparently only shows up in the presence of supercold liquid hydrogen, chilled to minus 423 degrees Fahrenheit.

Given the failure of a battery of room-temperature tests, engineers strongly suspect the leak is located in the area where the shuttle's primary 17-inch-wide fuel line butts up against the belly of the orbiter.

A critical seal in the 17-inch ''quick disconnect'' fitting is one likely culprit, although the problem could involve internal mechanisms.

The trouble for NASA is that engineers cannot fix the quick disconnect fitting without first unhooking Columbia from its external tank. And that can only be done using a giant overhead crane in the Vehicle Assembly Building 3 1/2 miles from the launch pad.

Such a move would delay the shuttle's launch until at least the first week in July. Depending on the nature of the problem, the ship could be grounded until early August, after a July military flight by the shuttle Atlantis, according to internal NASA planning schedules.

Engineers said the fueling test Wednesday should pinpoint the leak and that a rollback to the VAB is virtually certain.

The Discovery incident occurred about 8:30 a.m. EDT Monday in Discovery's hangar, where the spaceplane is being prepared for blastoff Oct. 5 on a high-priority mission to ferry the European-built Ulysses solar probe into space.

Engineers were getting ready to close Discovery's clamshell-like payload bay doors when an overhead bridge crane was accidentally moved. Cables attached the crane were hooked onto special fixtures used to close the doors and when the crane moved, one end of the right-side door was pulled upward 10 to 12 inches.

The doors were designed to open and close in the weightless environment of space. To shut the doors in Earth's gravity, an overhead crane and an elaborate counterbalance system is used to minimize the forces acting on the fragile panels.

The overhead crane also is equipped with telescoping work platforms that can be lowered into the shuttle's cargo bay to give engineers access to payloads or other systems. By moving the crane along its tracks, the platforms can be positioned anywhere in the shuttle's cargo hold.

Officials said Monday's incident occurred when a worker mistakenly moved the overhead crane to reposition a work ''bucket.'' That, in turn, put tension on the payload bay door support cables, causing one end of the

right-side door to pull up.

Other officials said a ''popping'' noise was heard but that the door returned to its proper shape after the incident occurred.

The Ulysses probe was built to fly over the north and south poles of the sun. To reach such an orbit, Ulysses first must be fired to Jupiter so it can utilize the giant planet's gravity for a slingshot assist up and out of the plane of the solar system and back toward the sun.

Because of the positions of Earth and Jupiter, NASA has only 18 days to launch Ulysses, starting Oct. 5, or the flight will have to be delayed for 13 months while the planets return to favorable positions.

#90156u0158 06/05/1990 ~United Press International

(JUNE 5) UPI - Soviet President Gorbachev concluded his six-day U-S trip and headed back to Moscow Monday night after a warm send-off from San Franciscians. He returns to Moscow to face the political realities of Baltic independence and consumer complaints about economic shortages.

Gorbachev spent the final day of his summit visit racing about the bay area at a break-neck pace. Gorbachev squeezed in a chat with the former President Reagan, met former Secretary of State George Schultz, addressed faculty and students at Stanford University and also dined at the San Francisco Chamber of Commerce.

The construction manager of Donald Trump's Taj Mahal Casino in Atlantic City says the real estate magnate has fallen behind on more than 50-Million dollars in contractor's bills. A construction company spokesman refused to disclose the last time Trump made a payment to his sub-contractors. The sub-contractors, in turn, have cut off benefit payments to union workers.

The State Department says it has contacted the Liberian government and rebel commanders in an attempt to negotiate an end to the Western African nation's bloody civil war. But spokeswoman Margaret Tutwiler said it appears a negotiated end to the conflict is UNlikely. Guerrillas are reported to be moving toward President Samuel Doe's last stronghold.

#90156u0216 06/05/1990 ~United Press International

AUSTIN, TX (JUNE 5) UPI - Kenneth Sims of the New England Patriots, who has had previous drug problems, was arraigned Monday on a felony charge of cocaine possession and released from jail.

Sims, 30, was arrested on the drug charge after he was stopped for speeding on Interstate 35 Sunday at 10:18 p.m., said Gail Phillips, spokeswoman for the Austin Police Department.

The former University of Texas star, who said following the Patriots' 1986 Super Bowl loss to the Chicago Bears that he had overcome a marijuana problem, was released from jail under a $5,000 bond.

If convicted of the second-degree felony, Sims faces a prison sentence of two to 20 years and a fine of up to $10,000.

Sims, a defensive end with the Patriots, was not immediately available for comment.

In Boston, Patrick Sullivan, the Patriots' general manager, said, ''We have yet to determine all of the details involved, and therefore, it would be of no benefit to comment at this time.''

But reports published Tuesday in Boston said Sims might not be invited to the New England training camp this year and may be finished as a Patriot.

A police report said a patrol car pursued Sims' southbound 1990 black Mercedes at speeds up to 85 mph along I-35, the city's main freeway, before he pulled over.

While retrieving his driver's license and proof of insurance for police, Phillips said Sims dropped a small package of paper that was later determined to contain cocaine.

''As Sims went into his wallet to produce those items, a wrapped piece of paper fell out of his wallet and onto the ground,'' she said.

Phillips said Sims tried to conceal the package from police by putting his foot on it and picking it up, but he later relinquished it when a backup police unit arrived.

''Actually, he didn't want to turn it over at first,'' she said. ''He moved his hand toward his mouth.''

Phillips said she did not know how much cocaine was confiscated by police, but she described the package as only a half-inch square.

Sims, an all-America defensive tackle at Texas and the first pick overall in 1982 NFL draft, won the Lombardi Trophy as the nation's top lineman and was runner-up for the Heisman Trophy as a senior.

Sims tested positive for cocaine at the United Scouting Combine's Testing Camp in January 1982, but his agent attributed the test results to the use of prescription drugs for a broken leg.

Sims was one of several Patriots linked to a drug investigation following their Super Bowl loss.

He admitted on Jan. 30, 1986 he ''had a problem with the recreational use of marijuana.''

''This problem does not exist now with the help of (then) head coach Raymond Berry and appointed, appropriate people,'' he said in a statement. ''I have been declared clean for several months prior to the present allegations.''

Sims suffered a ruptured Achilles tendon and missed all but one game during the 1988 season.

MEXICO CITY (JUNE 5) UPI - Mexico, home to the world's most polluted capital, arranged the planting of more than 1 million trees nationwide Tuesday as it hosts this year's World Environment Day.

International leaders, scientists, businessmen, artists, academicians and entertainers were in Mexico for celebrations across the country, chosen by the United Nations as the site for the event.

President Carlos Salinas de Gortari was scheduled to inaugurate the celebrations with an address at Mexico City's Fine Arts Palace.

Events for this year's World Environment Day, which carries the theme ''A Better Planet for Children,'' included an annual state of the environment report and numerous seminars and workshops, the organizing committee announced.

Officials anticipated more than 1 million trees would be planted in Mexico by day's end, and tree planting ceremonies also were planned at Mexican embassies across the world.

Salinas, who welcomed the choice of Mexico as recognition of ''the important role Latin America will play in improving the global environment '' has said his government's reforestation program will see the planting of more than 32 million trees.

The extensive participation of youth groups in expeditions to four regions of Mexico is seen as a way of creating an ecological awareness among future generations.

Groups of children led by environmentalists and scientists have visited Lake Pazcuaro in the western state of Michoacan, the Sian Ka'an reserve in the southeastern jungles of Quintana Roo, the coastal regions of the Pacific and the Sea of Cortes and the central volcanic region.

A stone ''time capsule,'' containing messages from world leaders, ecological reports from scientists and other environment-related gems such as satellite photographs of rainforests, was prepared for placement

Tuesday at the Plaza of the Three Cultures and will remain sealed until June 5, 2000.

Mexico City is known as the world's most polluted metropolitan area, with 2.5 million vehicles producing an estimated 80 percent of the smog that darkens city skies most days.

Recent efforts by Mexico to counter the problems of air pollution include vehicle emissions controls and a program requiring motorists to keep their cars off the road one day a week.

Some environmentalists have praised the programs, although others charge they have failed to reduce pollution and should be scrapped and replaced with programs to improve the quality of gasoline and to implement stricter controls on industry.

Mexico also recently banned the killing and trading of sea turtles and their shells. Six of the world's seven species of sea turtles breed along Mexico's Pacific and Gulf coasts, and environmental groups worldwide had been calling for action to halt the depletion of the species.

#90156u0311 06/05/1990 ~United Press International

(JUNE 5) UPI - El Salvador's Supreme Court revealed testimony Monday that incriminates a senior officer in covering up the November slaying of six Jesuit priests by members of the military. According to court papers, Lieutenant Colonel Carlos Camilo Hernandez ordered the director of the archives at the military academy responsible for the massacre to destroy all the academy's entrance and exit logs in 1989.

Ministers from the 35 nations that signed the Helsinki human rights accords meet Tuesday in Copenhagen. Although the talks were originally slated to focus on human rights, the winds of change in Eastern Europe have shifted the focus to reducing tensions in Europe. The chief concerns expected to be dealt with include impending German re-unification and the moves toward independence in the Baltic republics.

WASHINGTON (JUNE 5) UPI - More Americans are watching how much fat they eat and arebuckling their seat belts, but fewer are obeying speed limits or cutting back on sugary foods, according to a health and safety ''report card.''

Prevention magazine's seventh annual survey of U.S. health behaviors was released Monday and found 58 percent of the 1,250 adults questioned ''try a lot'' to avoid eating too much fat, up 4 percentage points from the 1989 poll.

In addition, 50 percent of respondents said they were reducing their intake of high-cholesterol foods such as fatty meats and eggs, up 2 percentage points from 1989 and 8 percentage points from 1984.

''Even though the increases in this year's index are small in several areas, its figures represent millions more Americans who are paying attention to their health,'' said Sanford Beldon, publisher of Prevention, which is based in Emmaus, Pa.

The overall Prevention index score, based on Americans' adherence to 21 ''health-promoting behaviors,'' was 66.2 out of a possible 100 points in 1990. That compares with 65.4 in 1989 and 61.5 in 1984.

''It (the index score) hasn't increased as fast we would have liked, but in seven years we have made a lot of progress,'' Beldon said.

The number of adults limiting the amount of sugar in their diets in 1990 was 46 percent, 1 percentage point lower than in 1989 and 5 percentage points below the 1984 level.

Healthy diets were not necessarily paired with good exercise habits. Only half of Americans who say they exercise strenuously practice good eating patterns.

Only 24 percent of Americans surveyed were in their proper weight range, while 61 percent were overweight and 15 percent weighed too little.

Another problem area turned up by the latest poll was a decline in the number of women who regularly examine their breasts for signs of cancer.

About 44 percent of women surveyed for the 1990 index said they checked their breasts at least once a month, down 7 percentage points from the previous year. But the 1990 level of breast examination was still substantially better than in 1983, when only 37 percent of women said they did self-examinations.

About 63 percent of Americans polled said they always wear seat belts, up 3 percent from 1989 and 44 percent from 1984 survey. However, for the first time, less than half of Americans - 49 percent - said they do not exceed the legal speed limit when they are driving, down from 56 percent in 1984.

In another safety area, 85 percent of 1990's respondents said they had a smoke detector in their home, up 4 percentage points from 1989 and 18 percentage points from 1984.

The index was based on a nationwide telephone poll of randomly selected people over age 18 conducted by Lou Harris and Associates. The margin of error was plus or minus 3 percentage points.

#90156u0409 06/05/1990 ~United Press International

(JUNE 5) UPI - California's Democratic gubernatorial race - a surprising and sometimes nasty battle that could provide the Golden State with its first woman nominee for governor - topped primary lineups in nine states.

Incumbent governors and senators seeking re-election generally looked forward to an easy day Tuesday as they appeared to face little serious opposition.

The premier contests were ones that did not involve current office holders and were led by the gubernatorial battle in California, where state Attorney General John Van de Kamp ended his campaign Monday doubting polls

and frantically trying to close in on Dianne Feinstein.

In probably the closest-watched battle in the country, Van de Kamp and Feinstein, a former San Francisco mayor, fought for the right to meet Sen. Pete Wilson, R-Calif., in the general election next fall. Wilson faced only token opposition in his effort to win the GOP nomination.

The winner of the California gubernatorial race will succeed two-term Republican Gov. George Deukmejian, who decided he would not seek a third term.

Early in the primary race, Van de Kamp was considered a heavy favorite, but a media push by Feinstein propelled her to the lead in most surveys.

Going into the last weeks of the campaign, polls showed Feinstein and Van de Kamp running neck and neck. However, two surveys released Sunday - by The Los Angeles Times and the Field Institute - gave Feinstein a double-digit lead.

Still, huge segments of the electorate remained undecided in both surveys.

Van de Kamp went Monday to San Diego, Los Angeles and Sacramento and tried hard to downplay the polls, going so far as to suggest that voters, especially women, have misled pollsters.

He likened the situation to the state's 1982 election, when Los Angeles Mayor Tom Bradley led Deukmejian in the polls but lost - a fact political scientists attributed at least partially to Democrats not being truthful about whether they would vote for a black candidate.

''A lot of people said one thing to the pollsters, then voted the other way (in 1982),'' Van de Kamp said. ''I think there's some of that in this campaign.''

The closing days of the campaign were marked by an increase in negative commercials from both camps and Feinstein, campaigning in Los Angeles, Stockton and San Francisco, defended her tactics.

''Toward the end of the campaign we made overtures: 'Let's keep this campaign on the high road.' Again I got hit. I just couldn't afford to do what (Massachusetts Gov. Michael) Dukakis did, which is not punch back.''

''Sometimes if you are punched and punched and punched, you just become a punching bag and you can hit the canvas,'' she said.

Strategists from both parties have theorized that if Feinstein wins, there will be a clear choice for voters in November.

But because Van de Kamp's outlook is similar to Wilson's, the attorney general could be hurt in a head-to-head battle with the two-term senator and former San Diego mayor.

Voting in nine states Tuesday made it the most crowded primary day of the year thus far.

In Washington, the Justice Department said federal observers would be sent to two counties in Alabama and two in New Mexico to assure that blacks and Indians are allowed to vote without interference.

In addition to California, one of the best races was a Democratic Senate runoff in North Carolina for the right to face conservative Republican Jesse Helms in November.

Harvey Gantt, a former mayor of Charlotte, and attorney Michael Easley finished first and second in a six-candidate primary May 8. Gantt, 47, is trying to become the first black in North Carolina to win a major runoff election.

One of several ballot questions in California also could signal the end of a tax revolt in the Golden State. The proposal would allow a doubling - from 9 cents to 18 cents - of the state gasoline tax, with the money going to new highways.

Highlights of other states holding primaries Tuesday included:

-Alabama: Republican incumbent Gov. Guy Hunt had only token opposition, while there was a five-person Democratic race for the right to challenge him. Sen. Howell Heflin, a Democrat, had little opposition and Republican Bill Cabiniss was unopposed. Polls close at 8 p.m. EDT.

-Iowa: Republican incumbent Gov. Terry Branstad was unopposed, but there was a close three-way Democratic primary for the right to face him in November. In the state's hot Senate race, neither incumbent Democrat Tom Harkin nor GOP challenger Tom Tauke had any primary opposition. Polls close at 10 p.m. EDT.

-Mississippi: Republican incumbent Sen. Thad Cochran had no opposition. There is no Democratic candidate.

-Montana: incumbent Sen. Max Baucus, a Democrat, had only minor opposition. Four Republicans fought for the right to challenge him. Polls close at 10 p.m. EDT.

-New Jersey: there was nothing but token opposition for Sen. Bill Bradley, a Democrat seeking his third term. Polls close at 8 p.m. EDT.

-New Mexico: Republican incumbent Sen. Pete Domenici and his Democratic challenger, Tom Benavides, had no opposition. However, both parties had primaries for the gubernatorial post being vacated by Republican Garrey Carruthers. Polls close at 9 p.m. EDT.

-South Dakota: there was no opposition for any of the major candidates: Republican Sen. Larry Pressler, his Democratic challenger, Ted Muenster, Republican Gov. George Mickelson or Democrat Bob Samuelson.

(JUNE 5) UPI - Around the world... around the clock... the latest news from U-P-I.

Soviet President Gorbachev left San Francisco last night after meeting with South Korean President Roh. They stopped short of announcing they'll open diplomatic relations but agreed to increase cultural, scientific and technical exchanges between the Soviet Union and South Korea.

President Bush plans to brief congressional leaders today on his summit meetings with Mikhail Gorbachev. At the opening of a Cabinet meeting yesterday, Bush said he is pleased with the results of the summit, which produced major accords on trade and arms control.

Word from New Zealand today is that the father of a seven-year-old American girl will quit contesting his ex-wife's custody of the child. Elizabeth Morgan spent more than two years in jail, hiding the child. A published report says Erich Foretich decided he can't win the fight.

The racketeering trial of former Philippine first lady Imelda Marcos won't resume until June 12th. A federal judge in New York is delaying the trial while Mrs. Marcos recuperates from a stomach inflammation that sent her to a hospital last week. The trial had been scheduled to resume today.

Actor Corey Feldman has pleaded innocent to cocaine and heroin charges. The 18-year-old who lives in Beverly Hills was arraigned in Los Angeles yesterday. Feldman has appeared in such movies as ''Stand by Me'' and ''The Lost Boys.'' He is free on five-thousand-dollars bail.

A memorial service is scheduled in Los Angeles today for veteran actor Thomas Brown. He died Sunday at 73. A child actor who went on to appear in more than 140 films and television programs... Brown was a regular on ''Gunsmoke,'' ''General Hospital'' and ''Days Of Our Lives.''

#90156u0487 06/05/1990 ~United Press International

(JUNE 5) UPI - Baltimore Manager Frank Robinson found out that practice makes perfect.

Robinson, who was suspended for three games following a run-in with an umpire, used his free time to figure out how to get the most out of his bullpen.

Upon his return Monday night, Robinson benefited from 4 2-3 innings of scoreless relief from the Baltimore bullpen to hold on to a 6-4 victory over the Milwaukee Brewers.

With the win, Baltimore improved to 7-3 on its current 13-game road trip.

''I had a lot of practice over the last three days, sitting there second guessing the manager, figuring out what I would have done after the fact '' said Robinson. ''I came out and tried it today and it worked.''

Joe Price, 1-2, hurled 2 2-3 innings of one-hit relief for his first victory since Aug. 27 when he was with Boston.

Price has allowed just two earned runs in his last 21 2-3 innings.

''We certainly look for Joe (Price) to give us some innings and get some left-handers out, and some right-handers,'' said Robinson.

''He's started to do that. It certainly makes the bullpen better. Now you don't have to rely on some of the other guys for those added innings,'' said Robinson.

Mark Williamson pitched the eighth and Gregg Olson worked the ninth for his 12th save in as many opportunities.

Olson has allowed just one earned run in his last 58 2-3 innings in 40 appearances dating back to July 31.

Milwaukee reliever Bill Krueger, 2-2, absorbed the loss, allowing an unearned run and two hits over 4 2-3 innings.

Cal Ripkin's sacrifice fly in the sixth inning snapped a 4-4 tie and the Orioles tacked on an insurance run in the eighth on Phil Bradley's RBI-single.

Milwaukee threatened in the eighth when they had runners on first and second with two out but failed to score when Dave Parker was thrown out stealing to end the inning.

Elsewhere in the American League, Boston tripped New York 5-3 and Texas shutout California 1-0.

In the NL, it was: Pittsburgh 6, Chicago 2; Montreal 5, New York 3; St. Louis 3, Philadelphia 2 in 11 innings; San Francisco 10, Cincinnati 1; San Diego 10, Houston 2 and Los Angeles 6, Atlanta 0.

Red Sox 5, Yankees 3

At Boston, Tom Brunansky's RBI-double broke a 3-3 tie in the eighth inning to lift Boston. Brunasky, who drove in four runs, went 2-for-2 with a two-run homer and a sacrifice fly. Jeff Reardon, 2-1, the third Boston pitcher, picked up the win, working two scoreless innings. Jeff Robinson, 0-4, absorbed the loss for New York, which owns the worst record in the majors at 18-30.

Rangers 1, Angels 0

At Arlington, Kevin Brown and Kenny Rogers combined on a six-hit shutout to guide Texas to just their sixth victory in 21 games. It was the first win for Brown, 6-4, since May 5. Rogers earned his first save. Kirk McCaskill, 3-3, took the loss despite allowing just four hits over seven innings.

#90156u0491 06/05/1990 ~United Press International
BROWNSVILLE, TX (JUNE 5) UPI - Strike-beset Greyhound Lines, the nation's largest intercity bus service, filed for Chapter 11 bankruptcy protection to save its assets, maintain profitable routes and stave off creditors until it can repay its mounting debts, company officials said.

Filing for Chapter 11 protection Monday in U.S. Bankruptcy Court in Brownsville, the Dallas-based company and five subsidiaries and affiliates also asked for an immediate ruling so customers holding advance-purchased tickets could use Greyhound services.

''We have taken this action to enable Greyhound Lines to continue operation of its total system with its full team of employees,'' said J. Michael Doyle, Greyhound's senior vice president and chief financial officer.

''Greyhound's value to its customers, employees and capital providers is maximized by a full-system operation, that is to say, by serving the maximum number of towns with optimum frequency.

''We asked creditors for patience so that we could devote all available resources to running maximum service during the peak summer travel season

'' Doyle said.

The five other companies that would be affected by the ruling are Eagle Bus Manufacturing Company, based in Brownsville; GLI Bus Operations Holding Company; BusLease Inc.; Trailways Commuter Transit Inc. and GLI Food Services.

Greyhound has been struggling on a reduced schedule since March 2, when about 9,300 employees - including some 6,000 drivers represented by the Amalgamated Council of Greyhound Local Unions of the Amalgamated Transit Union - went on strike.

The dispute has been marred by violence, including the death of one picket and numerous shootings involving Greyhound buses. Company officials estimate the strike has cost at least $75 million in lost revenues and increased costs, such as training replacement drivers and increased terminal security.

Greyhound and its employee unions have not negotiated since May 5, when the company called for a four-year wage freeze and the elimination of about 4,500 union jobs.

Michael Holden, vice president of ATU Local 1205, representing striking drivers in New England, said Monday the organization's leadership is ''really pretty excited'' about the bankruptcy filing.

''What it says is what we've been saying all along: The man's been lying '' Holden said, referring to Greyhound Chairman Fred Curry. ''He's been lying about his ability to restore service. He's been lying about the capability of the scabs (non-union workers) to perform the job well enough.''

''And it really proves that it's the long-time employees, the union men who are on strike, who are the heart and soul of this company, and without us the company cannot survive.''

The National Labor Relations Board last Friday issued a complaint accusing Greyhound of unfair labor practices by refusing to bargain in good faith. The complaint stems from the hiring of about 4,000 replacement workers.

If the NLRB complaint is upheld, the company would have to fire most of the replacement workers and may have to pay up to $10 million a month in back pay to the strikers.

Sources close to the contract negotiations have said the unions have hired Brian Freeman, an expert in employee takeovers, to develop a proposal for Greyhound's workers to buy 100 percent of the bus line.

On May 22, Greyhound tried to avoid bankruptcy proceedings by offering to buy back $225 million in junk bond debts.

The company offered to buy up to 85 percent of its 13 percent senior notes which are due in 1995, for a price of 54 percent of their principal amount of $150 million.

Greyhound also offered to buy up to 85 percent of its 12.5 percent senior subordinated notes, due in 1997, for 27.5 percent of their principal amount of $75 million.

The carrier also said it needed to borrow another $35 million to boost operating cash and keep the firm afloat while rebuilding from the strike.

Doyle and other company spokesmen Monday did not say how long they thought the company would be under Chapter 11 protection.

#90156u0516 06/05/1990 ~United Press International

SAN FRANCISCO (JUNE 5) UPI - Soviet President Mikhail Gorbachev blended an eloquent assessment of thawing East-West tensions with a hard pitch for American investment to bolster his country's troubled economy.

Gorbachev wrapped up his six-day summit visit on Monday with a tour of San Francisco and the Silicon Valley. He spoke at Stanford University and to a group of American business leaders and met with Ronald Reagan.

Just before leaving for Moscow, Gorbachev sat down with South Korean President Roh Tae-woo, who indicated hope that both countries are moving toward normal diplomatic relations.

In a speech to 250 business executives at the Fairmont Hotel, Gorbachev said, ''The winds are now blowing, filling the sails of the process that places us on a path of cooperation, and without any regret we are saying farewell to the Cold War and I think and hope we have entered a long period of peace.''

He mixed those words with confidence about perestroika, his program to reform the Soviet economy during a time of tremendous political and ethnic upheaval that has challenged his leadership at home.

''American business should look for ways to enter our market so once the (U.S.-Soviet trade agreement) is ratified, we will be able to use all the potential inherent in that agreement,'' he said referring to the trade package he received from President Bush during their four-day summit in Washington that ended Sunday.

Gorbachev said industry leaders who hesitate to invest in the Soviet Union will face being left out in the cold in years to come when the economic picture may be improved.

''We are watching those who risk something to cooperate now and those who stand on the sidelines. Those who stand on the sidelines will stand there in years to come. That is only fair,'' Gorbachev said.

John Sculley, chairman and president of Apple Computer, said many business leaders will heed Gorbachev's warning about investment delay.

''Apple has been involved in the Soviet Union for several years... we are very interested in some projects there,'' Sculley said, calling Gorbachev's speech ''a real turning point.''

Gorbachev suggested even if his own leadership is seen as shaky, the market reforms sweeping his country are inevitable.

During his talk, some 2,000 demonstrators gathered outside the hotel demanding freedom for Lithuania, waving Armenian flags and chanting ''Free

The Baltics.'' Inside, the American business leaders wore a lapel emblem of crossed American and Soviet flags.

Anger over Moscow's crackdown on Lithuania's bid for independence could hamper final approval of the trade agreement by a reluctant Congress.

The agreement is seen as a precursor to most-favored-nation trading status for the Soviet Union, which would be a major boost to a Soviet economy that has failed to meet the basic needs of its citizens.

In an address at Stanford University earlier, the Soviet leader declared, ''The Cold War is now behind us, and let us not wrangle over who won it. ... There can be no winners in a cold war, just like in a nuclear war.''

Echoing the theme of Gorbachev's twin messages of glasnost and perestroika South Korea's Roh said improved relations with North Korea, hopefully with Soviet help, would end the Cold War forever.

''Right now the Korean peninsula is the last remnant of the Cold War,'' said Roh, making it clear that he sought reunification with the north. ''As a result of today's meeting the Cold War ice on the Korean peninsula has begun to crack.''

Roh told reporters the two leaders agreed to have aides step up cultural, scientific and technical exchanges but he stopped short of announcing the establishment of full diplomatic relations, saying that Gorbachev agreed to work toward that goal.

Gorbachev, speaking with reporters before his departure for Moscow, declined to give specifics of the Roh meeting. ''We must improve our relations with everyone and not do it selectively. That is why we met,'' he said. ''When the fruit is ripe, we'll eat it.''

The Reagans met with the Gorbachevs at the Soviet consul general's residence in a posh neighborhood overlooking San Francisco Bay.

Speaking briefly to reporters after the meeting, Reagan said he and the Kremlin leader ''talked about the same things we have been talking about for the past five years, some of the things we started.''

#90156u0535 06/05/1990 ~United Press International

(JUNE 5) UPI - For some pitchers, it takes 18 years of success to be mentioned in the same breath as the legendary Sandy Koufax. But for Ramon Martinez, it took 18 strikeouts.

Although still young and mostly unproven, Martinez joined the company of

the Dodger star and Hall-of-Famer by recording 18 strikeouts Monday night in Los Angeles' 6-0 victory over the Atlanta Braves.

With the stellar performance, Martinez tied a club record established twice by Koufax and fell just one strikeout short of the National League record of 19 held by three pitchers.

''Tonight was the best feeling I've ever had in the game,'' said the beaming 22 year-old. ''It feels great to be in the record book with a star like Sandy Koufax.''

Koufax struck out 18 on in 1959 against the Giants and in 1962 against the Cubs. Tom Seaver, Steve Carlton and Charles Sweeney share the National League record with 19 strikeouts.

Martinez, who in his first full season with the Dodgers, recorded the most strikeouts in the major league this season and became baseball's strikeout leader with a total of 87, 15 more than Dwight Gooden of the New York Mets.

The formidible pitching display left the opposition completely awed.

''I know what kind of stuff Sandy Koufax had, and when you tie his record you have to pitch a great game,'' said Atlanta manager Russ Nixon. ''I'll tell you one thing: that SOB can really throw.''

Don Drysdale, a Hall of Famer, teammate of Koufax, and now a Dodger broadcaster, said, ''Anytime a pitcher has 18 strikeouts, he has to be overwhelming.''

Martinez, 6-3, had struck out 18 through eight innings and had the opportunity to eclipse the major-league record of 20 set by Roger Clemens in 1986. Despite having two strikes on three of the five batters he faced in the ninth, Martinez was unable to better his performance.

''I didn't know I was one strikeout away from the National League record in the ninth inning, but I felt good and I'm glad I got the shutout, 18 strikeouts and the complete game,'' he said.

By coincidence, Commissioner Fay Vincent was in the crowd to witness the event. He paid a visit to Los Angeles Manager Tom Lasorda's office to offer his congratulations.

''You made it very special for us tonight,'' the commissioner told Martinez.

Martinez, a native of the Dominican Republic, scattered three hits and walked one batter in pitching his fourth complete game and second shutout of the season.

Elsewhere in the National League, Montreal topped New York 5-3, Pittsburgh downed Chicago 6-2, St. Louis edged Philadelphia 3-2 in 11 innings, San Diego slammed Houston 10-2 and San Francisco crunched Cincinnati 10-1.

In the AL, it was: Boston 5, New York 3; Texas 1, California 0 and Baltimore 6, Milwaukee 4.

-- AROUND THE NL --

Expos 5, Mets 3

At New York, pinch-hitter Nelson Santovenia capped a four-run seventh inning with a two-run single to pace Montreal. Bill Sampen, 4-0, who relieved starter Mark Gardner, picked up the victory and Dave Schmidt earned his second save. David Cone, 1-4, lasted 6 1-3 innings all five runs and allowing eleven hits.

Pirates 6, Cubs 2

At Pittsburgh, Bob Patterson, making his second start of the season, scattered five hits over seven innings and Barry Bonds delivered a two-run triple to lead Pittsburgh. Patterson, 4-1, got relief help from Bill Landrum, who notched his eighth save. Shawn Boskie, 1-3, took the loss.

Cardinals 3, Phillies 2, 11 innings

At St. Louis, Terry Pendleton singled home Vince Coleman from third base with one out in the 11th inning to lift St. Louis. Marvin Freeman, 0-1, took the loss. Frank DiPino, 2-0, the fifth Cardinals' pitcher, worked a scoreless 11th inning for the victory.

Padres 10, Astros 2

At San Diego, Andy Benes scattered four hits over 7 1-3 innings and the Padres sent 12 men to the plate in an eight-run eighth. Benes, 6-4, picked up his third win in a row and Craig Lefferts pitched 1 2-3 innings to earn his ninth save. Jim Clancy, 1-5, suffered the loss.

Giants 10, Reds 1

At San Francisco, Terry Kennedy and Robby Thompson collected two RBI each San Francisco used a five-run first inning and a 16-hit attack to notch its fourth straight win. Rookie John Burkett, 5-1, scattered seven hits in his first complete game of his career. Ron Robinson, 2-2, was rocked for eight runs and ten hits in just 3 2-3 innings.

#90156u0604 06/05/1990 ~United Press International
(JUNE 5) UPI - President Bush sums up the summit for congressional leaders today... President Gorbachev asks America to invest in the Soviet Union... Greyhound files for Chapter 11 bankruptcy... those stories and more next, from U-P-I.

President Bush will brief bipartisan congressional leaders at the White House today on his summit with Soviet President Gorbachev ... a meeting that may make Bush wish the Soviet leader was still in Washington.

Both Democrats and Republics have taken Bush to task for signing a trade agreement with Moscow without Gorbachev's making any concessions on his dealing with the Baltic republics or easing Soviet emigration.

Bush and Gorbachev signed a trade agreement that could lead to most-favored-trading status for the Soviets. Such a status is important to Moscow as it tries to boost its economic reform program.

The trade agreement requires congressional approval.

Senate Democratic leader George Mitchell charged that Bush abandoned Lithuania by NOT using bilateral trade as leverage to ease Soviet pressure on the Baltic state.

Bush and Gorbachev also admitted that differences remain on such issues as a unified Germany and the emigration of Soviet Jews to Israel.

Tomorrow, Bush will meet with South Korean President Roh, who met with Gorbachev in San Francisco.

Soviet President Gorbachev headed home to the Soviet Union last night after his six-day visit to the United States.

Gorbachev left San Francisco after a hectic day that included a meeting with American capitalists and meetings with former President Reagan and South Korean President Roh.

Gorbachev toured California's Silicon Valley, the heart of the American computer industry... urging American businessmen to hurry and invest in the Soviet Union's emerging market-driven economy.

Gorbachev met for an hour with Roh, who told reporters the two leaders agreed to have aides step up cultural, scientific and technical exchanges. Roh stopped short of announcing the establishment of full diplomatic relations... but said he and Gorbachev agreed to work toward that goal.

Gorbachev also held a nostalgic reunion yesterday with his old Cold War

nemesis, Ronald Reagan. The two leaders helped thaw the Cold War in the last half of the 1980's. Reagan and his wife, Nancy, arrived at the Soviet consul general's posh Pacific Heights home and exchanged friendly farewells with the Gorbachevs after meeting for 30 minutes.

#90156u0605 06/05/1990 ~United Press International

(JUNE 5) UPI - Icy winds blowing over the Ohio Valley early Tuesday toppled cold-temperature records in three states, while thunderstorms blasted the upper Midwest with driving rains and gusty winds, and clear skies covered the South.

The National Weather Service said temperatures in Akron, Ohio, slipped to a record-cold 36 degrees overnight, breaking the old mark of 38 set in 1945. The mercury also dropped to record levels in the 30s and low 40s overnight in Cleveland, Dayton and Columbus, Ohio, and in Albany, N.Y., and Pittsburgh.

The most unsettled conditions Tuesday were reported in the upper Midwest, where an intense band of thunderstorms brought heavy rain and high winds from South Dakota into southwestern Iowa, the weather service said.

Wind gusts to 59 mph were reported at Sioux City, Iowa, and wind damage was reported in southern Union County in southeast South Dakota. Heavy rain fell from central South Dakota through Iowa, into Minnesota and Nebraska.

Ahead of the storm, skies were clear to partly cloudy in Illinois and Wisconsin, with temperatures in the upper 40s and low 50s.

Pennsylvanians awoke to frost early Tuesday as a cold front chilled much of the mid-Atlantic region. Temperatures ranged from the upper 30s in the mountains of West Virginia to the 50s in southern Maryland.

A cold front accompanied by scattered showers and thunderstorms brought unseasonably chilly weather to New England. Temperatures early Tuesday were in the 40s as sunshine and cool weather pushed back into the region.

The South was generally clear, except for south Georgia and south Florida which had diminishing scattered thundershowers. Jacksonville, Fla. was 74 early Tuesday; Charleston, S.C. was 75. Atlanta was 68.

Most of the Southern Plains states had fair weather overnight, with some middle and high clouds drifting over northern Colorado, south Texas and northern Oklahoma.

Temperatures were hot Monday in Southern California, and nearly cloudless

skies covered the northern and central portions of the state. Some cloudiness was expected along the coast near the Oregon border.

A weather disturbance reached northwest Oregon late Monday and rain continued Tuesday as cooler air pushed into Washington state.

#90156u0615 06/05/1990 ~United Press International

(JUNE 5) UPI - Greyhound has filed for bankruptcy.

Officials of the country's largest inter-city bus line filed for reorganization and protection from creditors under Chapter 11 of the U-S Bankruptcy Code. Greyhound asked the court in Brownsville, Texas, yesterday for an immediate ruling so bus service wouldn't be affected.

The filing comes three months after 93-hundred bus drivers and other employees went on strike.

The senior vice president and chief financial officer... J. Michael Doyle... says the action was taken so Greyhound can protect its assets while operating on a business-as-usual basis.

Doyle says Greyhound will continue to operate to all points previously served. He says buses are now serving locations that provided 98 percent of the company's revenue last year.

Greyhound estimates the strike has cost at least 75-Million dollars in lost revenues and increased costs... such as training replacement drivers and increased security at Greyhound terminals.

One striking union leader says the bankruptcy filing proves it's the long-time employees who are the heart and soul of the company.

A second shuttle is in figurative sick bay at Cape Canaveral.

NASA engineers are trying to find out whether one of Discovery's payload bay doors was damaged yesterday in a hangar accident. And the Columbia is still being searched for a fuel leak.

An overhead crane in Discovery's hangar was accidentally moved, pulling on cables that were attached to the shuttle's cargo bay doors. As a result, one door was pulled upward 10 to 12 inches. Once the tension was released, the door returned to its original shape.

The director of the Kennedy Space Center, Forrest McCartney, says he ordered engineers to report to him today with a preliminary explanation of how the Discovery accident occurred... and what damage, if any, may have

resulted.

McCartney says there's NO visible damage... but he says that's NOT good enough.

As for Columbia, technicians plan to pump frigid liquid hydrogen back into the ship's external fuel tank tomorrow in another effort to pinpoint a leak. The fuel leak has delayed the shuttle's launch indefinitely.

#90156u0627 06/05/1990 ~United Press International
(JUNE 5) UPI - The chances of Quebec trying to secede from Canada have increased.

That's because of an impasse in talks over a constitutional amendment giving Quebec special powers to promote its French language and culture.

Prime Minister Mulroney met with provincial leaders for 10 hours yesterday and plans to meet with them for a third day in a row today. Mulroney told reporters after yesterday's negotiations- in his words- ''We have a long way to go.''

The constitutional negotiations go to the heart of hostilities between Quebec and the rest of Canada. The French-speaking province has threatened to secede if the amendment is altered in any way.

The amendment would recognize Quebec as a distinct society and give it special powers to promote and preserve its language and culture.

Three of Canada's provinces- New Brunswick, Manitoba and Newfoundland- oppose the amendment.

Life can be tough even when you're one of the richest men in the world.

The construction manager of Donald Trump's Taj Mahal Casino in Atlantic City says the New York BILLIONAIRE is in arrears on more than 50-Million dollars in contractors' bills.

Spokesman Craig Miner of the Perini Corporation says the last time Trump paid anything to his construction manager was in March. The manager is still owed one-point-six-Million dollars.

Miner would NOT disclose how long it's been since Trump paid subcontractors, who represent the bulk of the delinquent debt.

A union officials involved with the project says workers have been pulled off the job... and some workers are in danger of losing medical insurance

coverage because of Trump's failure to pay his bills.

Although it opened in April, construction at the Taj Mahal is continuing... including work on a theater, a health club and several restaurants.

Trump acknowledged yesterday that he's been meeting with major bank creditors, but he refused to discuss a report that he's facing a major cash crunch.

#90156u0678 06/05/1990 ~United Press International

SAN FRANCISCO (JUNE 5) UPI - While Mikhail Gorbachev pitched the economic potential of the Soviet Union to 250 of America's top business leaders, others described a few U.S.-Soviet deals nearing completion.

Before Gorbachev began his speech Monday at the Fairmont Hotel, executives from Chevron Oil Co. and IBM and international golf course architect Robert Trent Jones Jr. discussed their ventures.

Jones said he received a $400,000 to design the first golf course in the Soviet Union. The Nhabino course, which is near Moscow, is due to open this fall or in the spring of 1991. Jones said he has been working on the project since 1974.

Chevron announced last weekend that it signed a letter of intent to develop a major oil field near the Caspian Sea. The field has estimated reserves of 25 billion barrels of oil, according to J. Dennis Bonney, Chevron vice chairman.

IBM and the USSR Committee for Education and Information announced last week that the high-tech giant will supply more than 13,000 computers for use in Soviet schools beginning next fall.

Gorbachev warned industry leaders of missing out on Soviet investment opportunities. "We are watching those who risk something to cooperate now and those who stand on the sidelines. Those who stand on the sidelines will stand there in years to come. That is only fair," Gorbachev said. Gorvachev suggested that even if his own leadership is seen as shaky, the market reforms sweeping his country are inevitable.

John Sculley, chairman and president of Apple Computer, predicted that many business leaders will heed Gorbachev's pitch. "Apple has been involved in the Soviet Union for several years... we are very interested in some projects there," Sculley said.

Roger Baccigaluppi, President of Blue Diamond Growers, the seventh-largest

exporter to the Soviet Union, said in the short term the Soviets must find a way to solve the monetary exchange problem and establish a value for the ruble.

Blue Diamond has been exporting almonds to the Soviets since 1967 and last year did $25 million in business with them. "We have been paid in U.S. dollars and in some cases bartered with almonds going in and rugs coming out," he said.

Other business leaders expressed concerns about the ability to do business in the Soviet Union without adequate hotel space, airlines, and dependable telephone lines.

Sculley said Gorbachev cannot take ten or 20 years to develop telephone, plane, and hotel space. He must move quickly. Gorbachev hopes the trade agreement he signed with President Bush during his weekend summit will solve some of those staging concerns.

#90156u0721 06/05/1990 ~United Press International

(JUNE 5) UPI - President Bush says the United States soon will be able to mark ''paid'' on its United Nations bill for dues. Bush told U-N Secretary-General Perez de Cuellar yesterday the U-S will soon release 62-and-a-half-Million dollars to pay off this year's dues. Bush wants Congress to provide funds to catch up on the money owed the United Nations. Congress has withheld 400-Million dollars from the U-N for five years... to protest some U-N activities and just to save money.

The Soviet Union reports ethnic clashes in yet another republic today... western Kirghizia. The news agency Tass says fighting over land allocation prompted authorities to declare a state of emergency. Tass says there are casualties... but did NOT say how many. The fighting is between Uzbeks and native Kirghizians . Kirghizia is the last of the Soviet Union's five Central Asian republics in the mainly Moslem ''southern crescent'' to be struck by ethnic unrest in the past year.

A Chinese student has disappeared. He spoke bravely at a rally at Beijing University marking the first anniversary of the government crackdown on the reform movement. Today, teachers and classmates say the student has dropped from sight. One teacher says authorities took away the economics undergraduate before dawn yesterday. He returned later... and then disappeared. Tiananmen Square was reopened today after being closed for four days.

Animal rights activists failed in a legal bid to stop the U-S Surgical Corporation from using live dogs in developing surgical staples and training doctors in their use. The Connecticut Appellate Court yesterday

upheld a judge's dismissal of a lawsuit filed by two groups... the Fund for Animals and Friends of Animals.

An animal rights activist was convicted yesterday of stealing two brain-damaged albino rats from a research lab at the University of Pennsylvania. He was ordered to pay 60 dollars... or 30 per rat... as restitution and to do 100 hours of community service. The judge said the activist could NOT serve the time with an animal rights group.

#90156u0820 06/05/1990 ~United Press International

MANILA, Philippines (JUNE 5) UPI - The Philippine Supreme Court dismissed Tuesday dismissed the charge of rebellion with murder against opposition Sen. Juan Ponce Enrile, a major setback to President Corazon Aquino's campaign to quell a rightwing insurgency.

The decision forces prosecutors to decide whether to return to a civilian criminal court and file a simple case of rebellion against Enrile, who was ordered freed on $4,500 bail March 6 after a week in detention pending a review of the validity of the charges.

The 15-member court, voting 11-2, upheld a 1956 decision that the crime of rebellion cannot be combined with other criminal offenses. Two members were abroad and did not vote.

''In the view of the majority, the (1956) ruling remains good law, its substantive and logical bases have withstood all subsequent challenges and no new ones are presented here persuasive enough to warrant a complete reversal,'' said the 18-page majority decision written by Associate Justice Andres Narvasa.

''It may be that in the light of contemporary events, the act of rebellion has lost that quintessentially quixotic quality,'' the decision said. ''Nothing so underscores this aberration as the rash of seemingly senseless killings, bombings, kidnappings and assorted mayhem.''

Chief Justice Marcelo Fernan told reporters the decision applies to 23 people led by Enrile charged with ''rebellion with murder and frustrated murder'' in the coup attempt last Dec. 1-9.

At least 119 people were killed and more than 500 wounded in the uprising, the sixth Aquino has crushed since taking power in a civilian-backed military revolt that ousted 20-year dictator Ferdinand Marcos in February 1986.

The decision directed prosecutors to return to a civilian criminal court

and file a case of ''simple rebellion'' against Enrile and his co-accused.

Rebellion is punishable by six to 12 years imprisonment and bail is allowed. In rebellion with murder, state prosecutors claim the higher penalty of life imprisonment imposed on murder stands and carries no bail.

''It is a triumph of justice,'' said Enrile, 66, a defense minister under Marcos who helped install Aquino and later was fired.

Presidential spokesman Adolph Azcuna said state lawyers would probably file a motion for reconsideration of the courts decision. Whatever the final decision, he said Aquino ''would abide by the ruling.''

The decision was regarded as a major blow to Aquino's efforts to quell a right-wing insurgency because it would allow arrested plotters to be freed on bail. It came amid repeated threats by mutineers at large to mount a new coup.

Last week the acting Armed Forces chief, Maj. Gen. Rodolfo Biazon, said intelligence reports showed rebel soldiers are planning another rebellion, possibly to coincide with Independence Day, June 12.

Congressman Bonifacio Gillego said the House of Representatives passed a law making rebellion a ''heinous offense'' punishable by death and bail will not be allowed. The law goes to the Senate but will not be retroactive.

On March 4, Brig. Gen. Oscar Florendo was killed in the northern city of Tuguegarao when he tried to serve an arrest warrant on a rebellion with murder charge against Gov. Rodolfo Aguinaldo.

On April 7, mutineers stormed the city jail and freed a retired constabulary colonel, Billy Bibit, one of Enrile's co-accused.

Also facing the same charge is dismissed army Col. Gregorio Honasan, leader of the December uprising who carries a $227,200 prize for his capture.

Several captured leaders of the 19,000-member communist New Peoples Army, which is waging a 21-year-old insurgency, also face the rebellion with murder charge.

In suburban Marikina town Tuesday, suspected communist gunmen shot and killed ret. army Col. Laudemer Kahulugan as he drove to his office where he is security chief.

More than 60 soldiers, policemen and civilians have been killed this year in the capital region by communist guerrillas.

#90156u0874 06/05/1990 ~United Press International

MOSCOW (JUNE 5) UPI - The Soviet Parliament, after enacting a key law to benefit private enterprises, was forced Tuesday to extend its session for at least a week past Wednesday's scheduled adjournment to finish work on proposals for more economic reforms.

The Supreme Soviet, the nation's Parliament, resumed debate Tuesday on a law to set uniform tax rates for businesses.

On first reading last month, the government's draft plan for a 55 percent tax on profits drew strong opposition from deputies who argued it would limit incentive. An alternative 35 percent tax was also proposed.

Discussions of reforms leading from the centralized economy to a modified market system, including an unpopular proposal that included steep price hikes, have taken up much of the Supreme Soviet's time in the past several weeks.

The Parliament session was extended for a week Tuesday to give deputies time for resumed debate and a possible vote on the government's plan for steep price hikes. Amendments to a law on cooperatives are also still on the agenda.

On Monday the legislature passed a key law giving private businesses the same legal status as state-owned enterprises.

The law on enterprises that passed Monday equalizes the legal status of state-run firms, worker's collectives, cooperatives and individual businesses.

''The law provides equal conditions for economic activities of enterprises of various types,'' the official news agency Tass said.

Cooperatives and other forms of private business were legalized in the early years of President Mikhail Gorbachev's perestroika reforms, and state-owned businesses were previously granted a certain amount of autonomy.

''This legal act aims to broaden substantially the independence of enterprises,'' Tass said of the law passed Monday.

But the status of many businesses is unlikely to change much under the new law. State-owned businesses are still likely to rely heavily on government orders and supplies, and private businesses face bureaucratic obstacles as well as popular discontent over their high prices and profits.

Gorbachev's chief economic reform adviser struggled to defend unpopular planned price increases that are another part of the perestroika reforms.

Deputy Premier Leonid Abalkin acknowledged Monday in an interview with the official Communist Party newspaper Pravda that Soviets' living standards will likely decline next year but dared anyone who thinks they have a better economic plan to ''come into the open with it for the public to judge.''

Abalkin accused critics of the government's strategy to overhaul the battered Soviet economy of trying to incite crisis for political gain.

He said the proposal to increase prices is a ''thankless, dirty job'' necessary for moving the country toward free enterprise.

''Yes, real volume of consumption will not increase all at once,'' Abalkin said in defending the economic program Premier Nikolai Ryzhkov introduced to Parliament May 24. ''Starting from Jan. 1, 1991, the standard of living will not rise and may even decrease.''

Under the strategy to create a ''modified market economy,'' which must be approved by the legislature, the price of bread and other grain products would triple July 1, with other prices rising Jan. 1.

The announcement of the program set off a wave of panic buying across the Soviet Union, forcing authorities in Moscow and other cities to introduce a passport system limiting purchases to local residents.

Radical lawmakers have sharply criticized the economic reform strategy, saying it is too cautious and has few concrete provisions beyond burdensome price increases.

''There remain forces interested in the worsening of the economic situation because any improvement would lead to an increase of confidence in the government and mean the collapse of their political ambitions,'' Abalkin said in an uncharacteristically bitter counterattack.

Important regions of the vast country have indicated they may implement their own economic plans regardless of what the central government does.

Renegade communist Boris Yeltsin, the popular newly elected president of Russia, said that republic should pursue a separate strategy. Parliaments in the Ukraine and Byelorussia, two of the Soviet Union's most productive republics, have formally rejected the central plan.

Moscow's city government Saturday established the country's first commodities exchange in a bid to lure people from the black market and

provide badly needed goods.

#90156u0883 06/05/1990 ~United Press International
MANILA (JUNE 5) UPI - The Asian Development Bank Tuesday approved a loan of $48.8 million to Thailand for an energy project and a technical assistance grant of $598,000 for an environmental conservation program.

The Manila-based bank also agreed to provide a grant of $585,000 to Laos for restructuring of its monetary and banking system.

An ADB statement said the first loan to Thailand will be used to build transmission power lines from two 300-megawatt lignite-fired units under construction in the north of the country to central Thailand.

The loan, the ADB indicated, also will be used to expand a substation and generate additional 600 megawatts of lignite-fired electricity by mid-1992. It will finance part of the foreign exchange of the project cost of $210 million and is repayable over 20 years with a four-year grace period.

The technical assistance grant to Bangkok will help fund a program intended to educate rural communities about natural resource and environment conservation program.

ADB said the grant to Laos, to be drawn from the Japan Special Fund, will be used to help financial institutions become more viable by establishing accounting systems for the banking sector, upgrading equipment and reviewing management, research and training systems.

#90156u0991 06/05/1990 ~United Press International

(JUNE 5) UPI - Stock prices on the Tokyo Stock Exchange received an early boost Tuesday from the new record high posted on Wall Street but leveled off later in the day and closed slightly lower.

The blue-chip Nikkei Stock Average of 225 selected issues, which gained 34.25 points Monday, eased 3.75 points to 32,921.62.

The broader-based Tokyo Stock Price Index slipped 2.31 points to 2,424.93.

An estimated 600 million shares changed hands, compared with 634 million shares on Monday.

Declines outpaced advances 544 to 394, while 1893 issues remained unchanged.

Analysts said the rise on Wall Street, where the Dow Jones Industrial Average climbed to 2,935.19, and expectations U.S. interest rates may fall gave the Tokyo market a bullish outlook during early trading.

Late in the session, domestic concerns, including the stagnation of the Japanese yen and prospects of stock price declines due to futures trading, took hold and the market began to lose its steam, analysts said.

On the Tokyo Foreign Exchange, the U.S. dollar inched up 0.01 yen at 152.43 yen, according to the Bank of Japan.

Brokers were reluctant to buy stocks because they expect prices may fall in advance of the Friday deadline for June futures contracts, an analyst with Nomura Securities said.

The analyst said some dealers have overbought June futures and may have to unload them before the end of the week.

On the trading floor, large steel issues, including Sumitomo Metal and Kobe Steel, ended lower.

Shipbuildings, including Mitsubishi Heavy and IHI, and non-ferrous metals alos lost ground.

Electricals, including Sony and Pioneer, were up along with some housing issues.

Elsewhere in Asia, stock prices closed slightly higher in volatile trading on the Hong Kong Stock Exchange as overseas buyers snapped up blue-chip issues amid bouts of profit-taking.

The closely-watched Hang Seng Index, which eased 5.95 points Monday, gained 5.84 points to 3,159.06.

Among the narrower indexes, utilities lost 11.34 points, financials shed 5.56, industrials gained 30.64 and properties dropped 13.27 points.

An estimated 1.76 billion shares chnaged hands, down from the 2.13 billion shares on Monday.

''There was very strong buying of blue chips from overseas investors,'' an analyst with Citicorp Scrimgeour Vickers Ltd. said. ''But the market was up and down and up and down all day.''

Stocks opened strongly, following the strong performance on Wall Street, but eased late i session amid profit-taking.

In Singapore, stock prices closed slightly lower in light trading on the Singapore Stock Exchange.

The blue-chip Straits Times Industrial Index, which eased 3.36 points Monday, slipped 1.74 points to 1,550.71. The narrower All Singapore Index eased 0.19 points to 433.51.

An estimated 50.4 million shares chnaged hands, compared with 44.4 million shares on Monday.

Analysts said prices opened higher but the initial upsurge could not be sustained on the softer close in Tokyo.

Profit-taking shortly before the close eroded the gains, analysts said.

Market watchers said they expect the current sideways movement of the market to continue for the next few days.

On the trading floor, Overseas Chinese Banking Corp. (foreign) shares paced the declining issues followed by Singapore Press (foreign) shares, Overseas Chinese Banking Corp. rights and Singapore Investments.

GB Holdings led the advancing issues followed by Singapore Airlines, Singapore Airlines (foreign) shares, National Iron, Great Eastern Life and Kings Hotel.

In Manila, stock prices closed lower for the third successive session on the Manila Stock Exchange, following short-lived rally last week.

The closely-watched Manila Composite Stock Index of 25 selected blue-chip issues fell 3.36 percent or 26.94 points to 773.50.

Analysts said the market was looking for a good excuse to move lower, because support levels have been broken and buyers sense growing political and economic instability.

In Seoul, stocks on the Korea Stock Exchange closed lower, after six sessions of gains in the wake of the Summit between President Tae-Woo and Soviet leader Mikhail Gorbachev.

The key Korea Composite Stock Index fell 6.43 points to 807.97 in active trading.

Declines hammered advances 533 to 132, while 140 issues remained unchanged.

Analysts said stock declined from around midday as investors took profits in a reaction to the rallies which pushed the closely watched Korea Composite Index up about 5 percent during the last six sessions.

In Australia, stocks closed higher in robust trading on the Sydney Sharemarket boosted in part Monday's strong perforemance on Wall Street.

The closely-watched All Ordinaries Index, which gained 11.2 points Monday, extended its wining streak to to eight sessions, gaining 3.9 points to 1,528.8.

An estimated 144.5 million shares changed hands, well above the 98.4 million shares on Monday.

A weaker gold price on global markets took some of the rise out the market late in the session as sellers took control of the resource sector.

On the trading floor, CSR lost 4 cents to $5.28, Email rose 7 cents to $3.25, News Corp. rose 5 cents to $10.20, Brambles gained 5 cents to $13.95, James Hardie added 2 cents to $2.57 and Pacific Dunlop gained 6 cents to $4.99.

#90156u1040 06/05/1990 ~United Press International

BONN, WEST GERMANY (JUNE 5) UPI - Chancellor Helmut Kohl left Tuesday for Washington for talks with President Bush that are expected to focus on finding a common strategy for the four-power negotiations on German unification.

The two leaders are widely expected to discuss continued Soviet objections to Western plans for a united Germany to be a member of NATO, the Western military alliance.

The disagreement was evident during the four-day superpower summit concluded in Washington Sunday.

Bush is due to meet with Kohl Friday, a few days before talking with East German Prime Minister Lothar de Maiziere, whose June 9-12 trip will be the first official visit to the United States by an East German head of government.

Kohl previously met Bush in mid-May to discuss plans for an economic union between East and West Germany by July 1 and other issues related to the German unification process.

It is expected that the two will seek to establish a common strategy for the second round of German unification negotiations - known as two-plus-four - scheduled in East Berlin later this month.

The question of Germany's military allegiance remains the main hurdle in the unification talks, which involve the two Germanys and World War II victors, the United States, Soviet Union, Britain and France.

Valentin Falin, an advisor to the Soviet president, said because of the rights the four powers retained over Germany, it was not up to a united Germany to decide whether it wanted to belong to a military alliance.

In an interview with the West German Stern magazine, the Politburo official in charge of German affairs said the allies would retain their rights as long as Germany did not sign a peace treaty - as none was signed after World War II.

Kohl has said Germany would not sign such a document because it would open the floodgates to claims for billions of dollars in war reparations.

Falin said in the interview Tuesday in advance of publication that the Soviet Parliament would not ratify a treaty which entailed a NATO membership of Germany.

Foreign Minister Hans-Dietrich Genscher is expected to discuss the issue with his U.S. and Soviet counterparts James Baker and Eduard Shevardnadze in the Danish capital of Copenhagen, where the ministers are attending a meeting of the Conference on Security and Cooperation in Europe.

Kohl is likely to outline his view of the unification process when he addresses the American Council on Germany in New York Tuesday night and a Harvard University graduation ceremony in Boston later in the week.

He is due to leave the United States for Bonn Friday night.

#90156u1052 06/05/1990 ~United Press International

MADRID, SPAIN (JUNE 5) UPI - The family of a Spanish news photographer killed during the U.S. invasion of Panama last December has sued the U.S. government for $1 million, their lawyer said Tuesday.

The photographer, Juantxu Rodriguez, was shot while photographing action in front of the Marriott Hotel in Panama City on Dec. 21. He was on assignment from the Madrid newspaper El Pais.

The parents of Rodriguez claimed U.S. soldiers shot their son and the Spanish government asked Washington for an explanation of the circumstances at the time of killing.

In January, the U.S. government replied that fighting between American troops and defending Panamanian forces was heavy in the area where Rodriguez was shot. But officials Washington said it could not be determined whether an American soldier or a Panamanian soldier had fired the fatal shot.

The U.S. government did say, however, that it was willing to ''accept the possibility'' that the bullet came from the American side.

No ballistics evidence was available. Rodriguez's body was turned over to the Spanish Embassy in Panama and returned to Spain. No autopsy was performed.

The lawyer for the Rodriguez family, Antonio Bernal, said Tuesday that the family has filed a $1 million damage suit against the U.S. government. But he said he could see no reason why the United States should not pay damages directly, without having the case go to court.

A ''precedent'' for such payment was established, Bernal said, when the United States paid damages to the families of victims of an Iranian passenger plane inadvertantly shot down by the U.S. Navy in the Persian Gulf.

#90156u1067 06/05/1990 ~United Press International

FORT LAUDERDALE, FL (JUNE 5) UPI - A congressional mandate to restore the original water flow in Everglades National Park could sacrifice one endangered species of bird in order to save another, wildlife officials say.

The federal government must choose whether to save the Everglades kite, named for the sawgrass marsh, or the wood stork, North America's only truly native stork. The water restoration plan has been placed on hold while two federal agencies search desperately for a way to save both, the Fort Lauderdale Sun-Sentinel reported Tuesday.

''It's a ridiculous controversy,'' said Chuck Hunter of the U.S. Fish and Wildlife Service. ''We're playing a very dangerous game of chicken.''

The wood stork's population has dropped to one-fifth of its 1930 level and continues to plummet. In recent years, the stork has started deserting the disfigured Everglades, a sign that the marsh is in severe decline, scientists said.

The Everglades kite is a hawk-like bird, also known as a snail kite because its diet consists almost exclusively of apple snails. State officials counted only 464 in January, making the kite much rarer than the bald eagle.

Restoring the water flow would help the wood stork at the expense of the kite.

''What's best for kites is not what's best for storks, and vice versa,'' said John Ogden, a senior researcher at the park.

The battle pits the Park Service, which is bound by law to preserve ecosystems, against the Fish and Wildlife Service, which is bound by law to preserve endangered species. In this case, the endangered species lives in the endangered ecosystem.

The Everglades is a broad, shallow and slow-moving ''river of grass'' that once meandered form Lake Okeechobee to the southern tip of the Florida peninsula. Before it was ditched and diked, there was almost always a standing body of water, a plus for the Everglades kite because it ensured a supply of apple snails.

Today, the river has been largely pushed onto its western bank to prevent flooding in urban areaas.

That has helped the kite by creating an unnatural pool of water year-round in a conservation area just north of the park. The water serves as home to the apple snails, providing a safety net for the kites.

The Park Service wants to reroute the water so that it spreads over more of its original path. That is key if the Everglades are to be restored and the wood storks' decline stopped, park scientists said.

But rerouting the water could eliminate the kites' food supply, jeopardizing the continued existence of the Everglades kite and violating the Endangered Species Act.

Until the controversy is resolved, the U.S. Army Corps of Engineers will not reroute the water. The corps does not want to ask Congress for money to restore the Everglades if that means killing off an endangerd species.

Congress wants the water flow restored and passed a bill last year authorizing expansion of the national park to accommodate the change. But Congress also has passed the Endangered Species Act, which protects both the kite and the stork.

''We're at this impasse,'' Hunter said. ''It's very ironic. We're butting heads and may lose the whole shooting match.''

#90156u1082 06/05/1990 ~United Press International

COLUMBUS, Ohio (JUNE 5) UPI - James ''Buster'' Douglas has formally begun training for the first defense of his heavyweight boxing championship, although the date and opponent have yet to be decided.

Douglas, admittedly heavier than he was when he knocked out former undisputed champ Mike Tyson Feb. 10 in Tokyo, said Monday night has he began training that it will take him about two weeks go get back in the groove.

''It's a matter of my body getting acclimated back to the training regimen '' said Douglas, who hopes to fight No. 1 challenger Evander Holyfield in Las Vegas sometime in September. ''After the first two weeks, it will be non-stop.''

Douglas will move his camp to Las Vegas Friday where he will take part in a Goodwill Games benefit and remain for the heavyweight double-header next week featuring Tyson and former champ George Foreman.

''I don't foresee any problems with that,'' said Douglas. ''Even there, training is going to be the No. 1 thing.''

Douglas has done little since winning the title except relax, travel and make personal appearances.

''We've got work to do, no question,'' said J.D. McCauley, Douglas' trainer and uncle. ''But that's the way it should be when you open camp. He needed that vacation - he deserved it.''

Douglas currently is in a legal battle with promoter Don King over his contract with Douglas. The suit is scheduled to go to court in New York on June 26 if a settlement isn't reached.

#90156u1090 06/05/1990 ~United Press International

COPENHAGEN, DENMARK (JUNE 5) UPI - The European family of nations became complete Tuesday when Albania applied and was unanimously accepted as an observer to the Conference on Security and Cooperation in Europe.

Albania's decision to end its self-imposed isolation brought all 34 countries of the European continent together for the first time since the political divisions of World War II.

The development came on the opening day of the Conference on the Human Dimension, which is part of the Conference on Security and Cooperation in Europe provided for under the 1975 Helsinki Final Act, attended by European naitons, the United States and Canada.

The Copenhagen meetings, scheduled to run through June 29, are intended to review and reach agreement on human rights in Europe and pave the way for a European summit this year. But the issue of German unification has largely overshadowed the official agenda.

Soviet Foreign Minister Eduard Shevardnadze, fresh from a four-day superpower summit in Washington, told the conference the meeting between presidents Bush and Mikhail Gorbachev was ''unprecedented in its human content.''

''Previous summits have been held during and marked by crises and efforts to resolve them. This time the summit participants worked as designers of a blueprint for coexistence,'' Shevardnadze said.

Shevardnadze said the summit created a basis for European populations to gain freedom from the fear of restrictions emanating from overly large military expenditures, from poverty and deprivation.

He said Europe's transitional period should be closely watched and monitored so that ''one tyranny should not be replaced by another.''

Announcing a further reduction in Soviet nuclear weapons, Shevardnadze said the Soviet Union is to remove 60 nuclear launchers, 250 nuclear-capable artillery pieces and 1,500 warheads from the central European region.

It was not immdiately clear if the announced removal was part of an agreement reached during the Washington summit.

Addressing the issue of German unification, Shevardnadze said he was ''concerned that the fragments of the (Berlin) Wall should not prevent the process of (German) unification.''

He reiterated that the Soviet Union is able to prevent German unification if it wished to.

''If we want to prevent it, we can do so. But we do not want to prevent it. What is necessary is that the security requirements of all parties, and not least the wishes of the Germans themselves, are taken into account '' Shevardnadze said.

Shevardnadze and Secretary of State James Baker were to meet privately Tuesday and Wednesday on U.S.-Soviet differences over the German question. Despite extensive talks in Washington, both countries remain at odds over the future security status of a unified Germany.

The United States and the North Atlantic Treaty Organization maintain that a united Germany should remain within the Western alliance. The Soviet Union says such an alliance would create a security imbalance in Europe.

The transition of most of Eastern Europe from hard-line communist regimes to democracy-seeking governments also seemed likely to change the emphasis of the Copenhagen conference to broader aspects of guaranteeing European populations freedom of movement and speech, human rights and the protection of minorities.

The conference is also expected to attempt to lay down the principles of a

constitutional state, and the protection of the individuals rights in relation to the state.

#90156u1137 06/05/1990 ~United Press International

PLEASANT RIDGE, Mich. (JUNE 5) UPI - Gov. James Blanchard, saying the "fight for Michigan's future is not over," announced his candidacy Tuesday for a third term of office.

Addressing about 200 supporters near his suburban Detroit home, Blanchard emphasized his administration's efforts to improve the environment and education, fight crime and unsnarl state finances.

Blanchard, who is unopposed in the Democratic primary, noted that when he first ran for govenor eight years ago, cynical bumper stickers proclaimed: "Will the last person to leave Michigan please turn out the lights?"

"Together we turned the lights back on, and kept them on," Blanchard told the crowd. Without listing names, the governor accused his critics of wanting to return Michigan to the "old ways of doing business."

Blanchard's likely opponent in the November general election is State Sen. John Engler, who faces only token opposition in the Republican primary.

Blanchard has been in the race for a third term since May 15, the state's deadline for filing for office. He held off on making a formal announcement, however, to keep the level of political rhetoric down as state legislators try to finish work before the summer recess.

#90156u1158 06/05/1990 ~United Press International

NEW DELHI, INDIA (JUNE 5) UPI - Fire swept through a shantytown Tuesday, destroying about 500 makeshift homes and killing at least seven people, including two children, a fire department official said.

The official said the blaze erupted shortly after noon in an illegal squatter community in the eastern part of the Indian capital.

Summer winds helped spread the flames and about 500 makeshift homes, most built with pieces of discarded wood and metal, were destroyed, the official said.

Firefighters battled the blaze for two hours before bringing it under control, the official said.

At least seven people, including two children, died and 10 others were

injured in the blaze, he said.

Cause of the fire had not been determined.

''Every summer such slum fires are frequent,'' said the official.

Tens of thousands of impoverished Indians, most of them migrants from the countryside seeking employment, reside in illegal colonies of makeshift huts built on vacant lots or government land around New Delhi.

In April, fires destroyed more than 1,500 huts and left at least 11 people dead.

-30- 1293

#90156u1169 06/05/1990 ~United Press International

(JUNE 5) UPI - Russian President Boris Yeltsin's choice was finally elected as first deputy chairman of Parliament after the Congress of People's Deputies rejected his candidates three times. But Yeltsin withdrew another nominee for a Cabinet position as his fledgling administration struggled to get off the ground. His difficulties in gaining approval for Cabinet members raised questions about his mandate to lead the republic in radical changes.

The Soviet Interior Ministry reports that at least 10 people were killed and hundreds more wounded when thousands of members of rival ethnic groups clashed in a land dispute in the Soviet Central Asian republic of Kirghizia. Authorities declared a state of emergency and imposed a curfew in the republic and took the unusual step of appointing the interior minister the region's military commander.

In the Philippines, the Supreme Court today handed President Aquino major setback in her campaign to quell a right-wing insurgency. The 15-member high court dismissed a charge of rebellion with murder against opposition Senator Juan Ponce Enrile. The decision forces prosecutors to decide whether to return to a civilian criminal court and file a simple case of rebellion against Enrile, who led a bloody coup attempt against Aquino last December.

President Bush is meeting this morning with congressional leaders from both parties to brief them on his summit with Soviet President Mikhail Gorbachev . Some lawmakers have criticised Bush for being too soft on Gorbachev for NOT pressuring him more on the Soviet crackdown on Lithuania. The Soviet leader returned home yesterday with a landmark agreement to increase U-S business involvement in the Soviet Union.

#90156u1171 06/05/1990 ~United Press International
HOUSTON (JUNE 5) UPI - About 450 Sakowitz Inc. employees have been notified they could lose their jobs if the retail chain is not sold during a bankruptcy court auction.

LJ Hooker Corp., owner of the six-store Sakowitz chain, sent the notification letters to employees late last month. Companies with 100 or more employees are required by federal law to give workers 60 days notice before closing a business.

''This is a precautionary move,'' Hooker spokesman David McAdam said Monday. ''We are making every effort to sell the chain as a going concern.''

Hooker bought a majority interest in Sakowitz in 1987 to help the Houston-based retail chain emerge from Chapter 11 bankruptcy. But Hooker since has fallen on hard financial times, and is seeking to rid itself of Sakowitz.

Bidders will vie for all or portions of the Sakowitz chain at a federal bankruptcy court hearing Wednesday in New York. If no acceptable bids are offered, Hooker is expected to liquidate Sakowitz, which now has four stores in Houston, one in Dallas and one in Cincinnati.

It is not known if former Sakowitz Chairman Robert Sakowitz will be among the bidders for the upscale stores once owned by his family. The exclusive Sakowitz stores - which once numbered 18 in three states - boomed with the oil industry, but fell on hard times as the industry declined.

The chain was forced to file for Chapter 11 bankruptcy a second time last month.

Sakowitz Acquisition Partners, the only group to make a bid for the chain, withdrew its $4.5 million offer in late May, in favor of pursuing all or some of the stores at the bankruptcy court auction.

If Sakowitz is not purchased, Hooker has said it will keep open only the Cincinnati store, which is in a mall owned by the Australian conglomerate.

#90156u1176 06/05/1990 ~United Press International
(JUNE 5) UPI - Jury selection resumes in the drug and perjury trial of Washington, D-C, Mayor Marion Barry this morning. Screening of jurors began yesterday, four and one-half months after Barry was arrested for allegedly smoking crack cocaine during a sting conducted by the F-B-I and city police. Jury selection is expected to last a week.

The inventor of a so-called ''suicide machine'' says a Portland, Oregon, woman suffering from Alzheimer's disease used the device yesterday to take her own life. Dr. Jack Kevorkian, a retired Michigan pathologist, says he assisted 54-year-old Janet Adkins by hooking her up to the machine. He says she pressed a button and the the device automatically injected her with a lethal dose of potassium chloride.

PAWTUCKET, R.I. (JUNE 5) UPI - The Peerless Co. department store chain, a Rhode Island apparel retailer for more than 50 years, will close soon because of the sagging regional economy and a snag in reorganization plans the company'spresident said Tuesday.

The eight-store chain has already slashed prices to sell off inventory and will continue to do so until it ceases operations, President Edward Mufson said.

''It's going to take a number of weeks,'' Mufson said. ''A lot will depend on the pace of liquidation.''

The chain has been operating under court supervision since the spring of last year, when its owner, New York-based Goldring Inc., filed for protection from creditors under Chapter 11 of the U.S. Bankruptcy Code.

Since then, retailing chains such as Ames of Rocky Hill, Conn.; Massachusetts-based Jordan Marsh; and The Narragansett clothing company based in Tiverton, R.I., have gone into bankruptcy.

The Peerless chain has operated for 53 years in Rhode Island and employs 200 people. The company has stores in Providence, Pawtucket, Warwick, Narragansett Lincoln, North Dartmouth, Mass., and Norwood, Mass.

''We told (employees) we would work with them and help them,'' Mufson said. ''I'm sure a great many of them are committed to staying with us until the end. At least half the staff has five or more years here and some have 20 to 30 years. They are all very loyal.''

''Some people are hoping someone will come along and buy some of the stores,'' he said. ''There is a possible scenario for that.''

Mufson said Goldring Inc. lost financial support from a major lender during its reorganization. The slumping economy also forced it to liquidate, he said. Goldring Chairman Ivan Friedman could not be reached for comment.

Peerless began as a women's clothing shop in Troy, N.Y., and expanded to

Rhode Island in 1937. Goldring bought it in 1969.

Two years ago, Peerless posted a record $1.3 million profit. The sagging new England economy has since eroded sales, but Mufson said Peerless has ''been making a substantial contribution to the parent company.''

He declined comment on specific sales figures or whether Peerless would have survived if it were independent of Goldring.

NEW YORK (JUNE 5) UPI - Latest metal market prices as quoted Tuesday by the American Metal Market, authoritative metals publication:

Aluminum, New York Merchants, 99.7 percent pure ingots 72.50-73.50 c-lb.

Antimony, domestic, refined in alloy, $1.25-$1.40 lb.

Copper, electrolytic wirebars, delivered U.S. (Warrenton Refining Co.) 126.20 c-lb.

Lead, common, U.S. primary producers 45.00 c-lb.; U.S. non-primary (secondary) producers 49.00-52.00 c-lb.

Magnesium, 99.8 percent, ingot 163.00 c-lb.

Manganese, 99.9 percent, boxed regular 91.00-95.00 c-lb.

Mercury, $280.00-$290.00 76-lb. flask.

Nickel, briquettes delivered to customers, merchant, N.Y., $4.14-$4.40 per pound.

Palladium, N.Y. Am. Met. Mkt. dealer $119.00-123.00 per troy ounce.

Platinum, soft, 99.5 fine, producer - $480.00-$483.00; dealer-approx., $491.00-$503.00 per troy ounce.

Steel, No. 1 heavy melt scrap - Pittsburgh $104.00-$105.00 per gross ton (consumer buying price); Am. Met. Mkt. composite scrap price $110.71 per ton.

Tin, N.Y. Am. Met. Mkt. ex-dock - 296.00 c lb.

Titanium, aircraft quality, 8 1/8 inch round rotating billet, f.o.b. shipping point $7.80-9.59 lbs., domestic sponge 99.3 percent, domestic and imported duty-paid $5.00-5.50 lb.

Tungsten powder (H-Red), 99.9 percent minimum pure $10.00 per lb.

Zinc, prime western, U.S. 87.00-87.75 c-lb.

#90156u1190 06/05/1990 ~United Press International

PHILADELPHIA (JUNE 5) UPI - Russ Farwell, general manager of the Seattle Thunderbirds of the Western Hockey League, was chosen Tuesday for that position with the Philadelphia Flyers.

Flyers President Jay Snider selected Farwell to replace Bob Clarke, who was fired in April. A Flyers source said the two men met Tuesday to discuss contract terms. The announcement of Farwell's hiring was expected

to come late Tuesday or Wednesday.

Farwell and Bryan Murray, former Washington Capitals coach, were the finalists for the position. Murray said he was told by Snider the Flyers had decided to hire Farwell.

''Jay said we were two fine candidates, but he had just decided on Russ Farwell,'' Murray said.

Farwell, who traveled to Philadelphia Monday night, could not be reached for comment. He is the first NHL general manager to come from junior hockey since 1967. The last general manager of a junior club to go directly to the NHL as a general manager was Wren Blair, hired by Minnesota from Oshawa in 1967.

Upon his arrival in Philadelphia Monday, Farwell told the Philadelphia Inquirer ''For me, it's a great opportunity at this point in my career and it's probably time for me to do something.''

''They are getting the best there is,'' Thunderbirds President Russ Williams said of Farwell. ''Total class and absolute competence.''

Farwell, 34, has no previous NHL experience. He did scout for Flyers executive vice president Keith Allen, former general manager of the old Seattle Totems.

Farwell was general manager for Medicine Hat of the WHL for six years, where his teams won three Eastern Division titles and two Memorial Cup championships.

He joined Seattle in April 1988. The Thunderbirds were 33-35-4 in his first season and 52-17-3 last season, advancing to the Western Division finals.

Farwell was named executive of the year of the WHL and the Canadian Hockey League, an organization comprising three junior leagues.

Clarke, who led the Flyers to two Stanley Cups during his playing career, was fired after Philadelphia failed to make the playoffs for the first time in 18 years. Snider said he and Clarke had fundamental disagreements over the future of the franchise.

One of Farwell's first responsibilities will be to decide the fate of Flyers Coach Paul Holmgren, who completed his second season with a 30-39-11 record, the most losses in the Flyers' history.

Snider has said he would like Holmgren to remain as coach but added that the decision would be left up to the new general manager.

Farwell will also participate in the June 16 NHL draft, in which the Flyers have seven of the first 47 selections.

Farwell and Murray were the only candidates to have second interviews with Snider.

Other candidates who had initial interviews were WHL President Ed Chynoweth, player agent Bill Watters and Vancouver Canucks assistant general manager Brian Burke.

#90156u1203 06/05/1990 ~United Press International

CAIRO, EGYPT (JUNE 5) UPI - Two senior PLO officials warned Tuesday that Israel might launch a retaliatory military operation against Libya or Jordan in the aftermath of an aborted seaborne attack on an Israeli beach last week.

In a statement to the Bahraini newspaper Al Ayam carried by the Manama-based Gulf News Agency, the No. 2 man in the Palestine Liberation Organization, Salah Khalef, said Israel is ''waiting for an American move in reaction to the raid, such as suspending U.S. dialogue with the PLO.''

Khalef, in charge of the PLO's intelligence, known as Abu Iyad, said that if the United States suspends dialogue in Tunis with the PLO, such a move would ''satisfy the Israelis.''

''But if the United States does not take the initiative in suspending the dialogue with the PLO, they (Israelis) will launch a retaliatory military operation. It is expected that the Israelis will strike Palestinian leaders, or Palestinian establishments in Amman and Libya.''

Hani El Hassan, PLO leader Yasser Arafat's political adviser, also said in an interview published Tuesday in the Kuwaiti daily Al Qabbas that Israel will try to ''cross into Jordan now, and will not be satisfied unless it strikes at both Iraq and Syria.''

But Farouk Kaddoumi, the PLO's foreign minister, said in an interview in another Kuwaiti newspaper, Al Anbaa, the PLO wants talks with the United States to continue ''even though so far they have proved futile.''

Israel said the failed May 30 attack on the Tel Aviv coast was organized in Libya. There were no Israeli casualties but Israel said four of the heavily armed Arab guerillas were killed and 12 were captured.

Libyan leader Moammar Gadhafi denied any involvement when he stopped in Cairo on his return home from the Arab summit in the Iraqi capital of

Baghdad last week.

Cairo-based Western diplomats said Gadhafi went home via Sanaa, Yemen and Cairo to avoid possible interception by Israeli jets after last week's coastal raid.

Abul Abbas, the leader of the Baghdad-based Palestinian Liberation Front and a member of the PLO's Executive Committee, claimed responsibility for the raid in a statement delivered to United Press International in the Persian Gulf state of Kuwait. Abbas is the convicted mastermind of the 1985 hijacking of the Italian cruise ship Achille Lauro.

Abbas's host in Baghdad, Iraqi leader Saddam Hussein, recently repeated his threat to use poison gas against Israel if the Jewish state attacks an Arab state such as Libya or Jordan.

In a separate development, Jordanian Premier Mudar Badran said in Amman that Jordan's King Hussein would visit the Libyan capital Tripoli shortly at the invitation of Gadhafi.

Relations between Jordan and Libya remain suspended since the mid-1980's after Jordan accused Gadhafi of plotting to assassinate King Hussein.

#90156u1218 06/05/1990 ~United Press International

JOHANNESBURG, SOUTH AFRICA (JUNE 5) UPI - Political violence flared overnight in black townships, killing five people only days before the government was expected to lift a nationwide state of emergency imposed four years ago to crush anti-apartheid rioting.

An official report said Tuesday three blacks died in strife-torn Natal province, including one man shot by an off-duty policeman and two others set alight in factional fighting. Two men were killed in the Cape Province when mobs placed burning tires around their necks, it said.

Former President Pieter W. Botha imposed the state of emergency on June 12 1986 after two years of widespread township uprisings that left some 3,500 dead. He extended it annually, citing unacceptably high levels of unrest and a ''revolutionary climate.''

The emergency gave police sweeping powers and largely quashed the township revolt against the authorities, but it failed to eradicate the violence and has become a major obstacle to President Frederik de Klerk's plans to bring the black majority to the negotiating table for power-sharing talks.

Government sources quoted by local newspapers since the weekend have said de Klerk plans to repeal the emergency at midnight Friday on its fourth

anniversary to bolster his reform initiatives and fulfill a pledge to scrap the regulations ''as soon as possible.''

The emergency regulations have also severely restricted the media, blocking television or print coverage of anything police deemed to be unrest and ensuring that the world - particularly South Africans - remained ignorant of township fighting.

Until Feb. 2, when de Klerk launched his first major reforms, the sketchy daily police statements on the unrest had been the only official source of information about political turmoil.

Western governments struck back against the white minority government by implementing tough trade sanctions in September and October 1986, throwing the economy into its most serious crisis.

The rand quickly halved in value against most major currencies, and panicked white South Africans began emigrating at the estimated rate of more than 10,000 a year.

De Klerk was rewarded for chipping away at white minority rule and legalizing black opposition movements with official receptions last month in nine European capitals, where he pushed for an end to trade sanctions.

He received guarded responses from every leader except British Prime Minister Margaret Thatcher, who favors an immediate lifting of punitive measures.

But black leader Nelson Mandela, who left Monday for a 45-day tour of 14 nations in Africa, Europe and North America, believes de Klerk has not gone far enough in his reforms and has said this will be his main message to the world.

''If sanctions are now ended then this would be tantamount to stabbing the liberation struggle in the back,'' he told a crowd of some 15,000 Monday in the Botswana capital of Gaborone.

The ANC insists that the emergency be lifted, prisoners held for politically motivated crimes freed, and political exiles allowed to return before it begins debate with the government over a post-apartheid constituion.

Mandela and other anti-apartheid figures insist the state of emergency has exacerbated rather than halted violence.

-30- 3521
#90156u1246 06/05/1990 ~United Press International

NEW YORK (JUNE 5) UPI - Stock prices were narrowly mixed in heavy trading early Tuesday as profit-taking after Monday's record highs offset buying sparked by gains in the bond market.

The Dow Jones industrial average, which jumped 34.22 Monday to an all-time high of 2935.19, was down 0.24 to 2934.95 at 11 a.m. EDT.

Advances led declines 704-579 among the 1,800 issues crossing the New York Stock Exchange tape.

Volume amounted to about 77,000,000 shares at 11 a.m., compared with 49,520,000 in the same period Monday.

Stocks opened mixed and turned higher shortly after the opening. While most stocks remained higher, however, in the wake of Monday's surge to an all-time high in the Dow industrials, the blue chip index began to lose some of its gains after about a half hour of trading and then eased into the minus column. It then recouped most of its losses and drifted around Monday's closing level.

Analysts said profit-taking in the Dow industrials after the rally Monday offset buying fueled by early strength in Treasury bonds. In morning trading, the 30-year bond was up 14/32 at 103 30/32, yielding about 8.39 percent.

Falling oil prices, an indicator of lower inflation, bolstered Treasuries early Tuesday. The drop in oil prices was sparked by reports that Saudi Arabia has cut the price formula for some July deliveries of crude oil to destinations in Europe and the United States.

On the trading floor, Citicorp was the most active issue, up 1/2 to 25 1/8 as financial issues continued to benefit from the improved interest rate outlook. BankAmerica was also active, up 3/4 to 33 3/8.

Philip Morris followed, up 3/8 to 44 7/8. Philips Industries was third, surging 3 3/8 to 17 3/8 after Tompkins PLC of Britain reportedly agreed to buy the company for $18.50 a share or $550 million.

Among the other blue chips, AT&T was down 1/4 to 43 3/8, IBM was up 1 1/2 to 121 7/8 in active trading after reportedly reducing prices up to 10 percent on some Personal System-2 models, Woolworth was up 3/4 to 33 3/4 and McDonald's was down 3/8 to 36.

Prices were higher in moderate trading on the American Stock Exchange.

Wang Labs Class B led the Amex issues, down 1/8 to 4 1/2.

#90156u1261 06/05/1990 ~United Press International
WASHINGTON (JUNE 5) UPI - The Federal Reserve Board said Tuesday it has approved an expansion into foreign exchange, investment and advisory services by the Bank of Tokyo's securities subsidiary in New York.

The bank ''contends that, as Japan's sole specialized foreign exchange bank, its special resources, experience, and expertise ... will make (it) particularly well-suited to engage in the proposed activity,'' the Fed said.

Japanese banks own and operate a number of American subsidiaries.

In its order, the Fed said that BOT Securities Inc., of New York, which already underwrites and deals in government securities, will also be permitted to:

-Provide brokerage services as well as investment advisory services to institutional customers.

-Furnish general economic information, advice, statistical forecasting, industry studies and research on foreign exchange markets to institutional customers.

-Trade in its own account if foreign exchange transactions, including spot futures and options.

-Provide advice on domestic and international transactions, including loans syndications and other transactions to financial and non-financial institutions.

-Provide advice to the Japanese government as well as municipal governments and agencies in the country on the issuance of their securities in U.S. markets.

The Bank of Tokyo, the 18th largest bank in the world, has consolidated assets estimated at $171.4 billion, and owns a bank in New York and a bank in California, the Fed said.

The bank also operates offices and branches in New York, Miami, San Francisco, Los Angeles, Honolulu, Portland, Seattle, Chicago, Washington, Houston and Atlanta, the Fed said.

The annoucement follows word Monday that the Fed cleared the way for the Nippon Credit Bank Ltd., of Tokyo, the world's 32nd largest bank, to operate as a U.S. bank holding company.

The Fed said it approved the bank's application to acquire 100 percent of

the outstanding voting shares of Nippon Credit Trust Co., of New York, and offer wholesale banking and trust services in the New York region.

As in the case of the Credit Bank expansion, Fed governor Martha Seger cast a dissenting vote on the Bank of Tokyo application, charging American banks ''are still far from being afforded the full opportunity to compete in Japan.''

Seger also raised concern about the bank's capital requirements.

#90156u1286 06/05/1990 ~United Press International

SRINAGAR, INDIA (JUNE 5) UPI - Five hundred lawyers declared a week-long strike in the Kashmir Valley Tuesday, charging that Indian security forces were conducting illegal searches, torturing suspected Kashmiri militants and detaining people without trial.

''The atrocities committed on innocent Kashmiri people by the Indian paramilitary forces are unprecedented,'' senior attorney Syed Tasadduq Hussein told a lawyers rally at the courthouse in Srinagar, the summer capital of Jammu and Kashmir state.

Hussain appealed for the International Court of Justice, Amnesty International and the European Association of Lawyers to ''strive for the restoration of civil liberties in Kashmir.''

Announcement of the strike came amid reports that a contingent of border troops entered several houses Tuesday in Baramulla, 30 miles west of Srinagar. Witnesses charged the troops ransacked six of the homes and beat up several residents.

Police sources said the alleged action by border troops came after militants fired at security forces, wounding one soldier. The sources said about 20 people were arrested and soldiers were continuing the search of the town.

Security forces have been repeatedly accused of human rights abuses since mid-January when a 2-year-old separatist movement erupted into a popular uprising against Indian rule.

Since then, more than 400 people have died in separatist violence in the Kashmir Valley, home to most of the region's 4 million Moslems.

Kashmiris believe separation from India is necessary because of a perception that their interests have been consistently ignored by successive Hindu-dominated New Delhi administrations.

Tuesday, Kashmiri militants killed a 16-year-old Srinagar woman in front of a handicraft workshop in the central part of the city, authorities said. The woman, identified only as Masooda, had been kidnapped Sunday and

accused of being a police informant, authorities said.

The body of another Kashmiri Moslem, Dilawar Mir, was discovered Tuesday in the Jehlum River, about 12 miles north of Srinagar. Authorities said the victim was apparently slain by militants who believed he was a police informant.

Also, an estimated 4,000 auto rickshaw operators went on strike Tuesday after 20 of the drivers were accused of being police informants by militants of the Jammu and Kashmir Liberation Front.

PARIS (JUNE 5) UPI - Oil production of the Organization of Petroleum Exporting Countries fell by 400,000 barrels a day in May compared with April, far less than the 1.4 million barrels a day cut the cartel agreed to last month in an effort to raise prices, the International Energy Agency said Tuesday.

The apparent inability of the 13 OPEC nations, which account for about one-third of the world's total oil output, to significantly reduce production led to another price decline for basic crudes in May, according to the report.

''Prices initially declined following the OPEC meeting at the beginning of May, but started to rise during the second and third week of the month, partly due to the anticipation of a reduced output from the Gulf and fear of production and labor problems in the North Sea,'' the IEA monthly oil market report said.

''However, by the fourth week, prices weakened again when it became apparent that May crude oil prices reaching the market were ample.''

All key spot crude oil prices were lower at the end of May than a month earlier, with West Texas Intermediate falling 60 cents a barrel, Brent down $1.10, and Dubai oil dropping 40 cents a barrel from their end of April levels, the IEA said.

The Paris-based IEA has been established by the 24 industrialized nations of the Organization for Economic Cooperation and Development to monitor world oil trade. It issues monthly reports.

Saudi Arabia reduced production by about 400,000 barrels a day in May to 5.3 million barrels a day, IEA said, close to the 430,000 barrels a day it promised to cut in Geneva.

But the United Arab Emirates reduced production only marginally, with

daily oil output remaining at just over 2 million barrels.

The UAE, which reluctantly agreed in the early May emergency meeting to lower production by 200,000 barrels a day, refused to accept a quota at OPEC's last regular semiannual conference in November. Its prior June quota was 1.09 million barrels a day.

Kuwait's output was estimated to have continued at the April rate of 1.7 million barrels a day, indicating it had not kept it promise to reduce production by 400,000 barrels a day.

Crude oil exports by Iran and Iraq were reported to have risen slightly from their April levels to 3.1 million barrels a day each, the report said.

Iran and Iraq each agreed to cut oil production by 20,000 barrels a day at the May, Geneva meeting as part of an overall cut of 1.445 million barrels a day.

Other OPEC countries, including Nigeria, Libya, Venezuela and Indonesia each reported reducing production by less than 50,000 barrels a day, the IEA said.

Production outside OPEC also declined, with U.S. crude oil output dropping 4.1 percent to 7.47 million barrels a day during this year's first quarter compared to the 1989 first quarter.

Soviet production fell to 11.8 million barrels a day during the first quarter compared to 12.35 million barrels a day during the comparable 1989 period, the IEA said.

The agency said the Soviet Union substantially increased exports to OECD countries in February because of declining domestic consumption resulting from a slowdown in economic activity, a mild winter, and reduced exports to Eastern Europe and Cuba.

Oil consumption during the first quarter by OECD nations was 38.5 million barrels a day, the same level as during the 1989 first quarter.

A five percent increase in the OECD Pacific region and a two percent increase in European consumption were offset by a 2.5 percent decline in North America consumption.

''Much of the North American market weakness so far this year is largely due to persistent declines in heavy fuel oil consumption as a result of mild weather and price induced fuel switching to natural gas,'' the report said.

OECD oil consumption during the second quarter is expected to increase 1.5

percent over the second quarter last year to 36.5 million barrels a day, the International Energy Agency said.

It said oil consumption in the Pacific OECD region is expected to increase 2 percent over the second quarter last year to 5.4 million barrels a day while European consumption should grow 1.5 percent to 12.2 million barrels a day.

North American petroleum consumption should rise one percent compared to the 1989 second quarter to 18.9 million barrels a day, the IEA report said.

#90156u1315 06/05/1990 ~United Press International

TEHRAN, IRAN (JUNE 5) UPI - Iranian spiritual leader Ayatollah Ali Khamenei reiterated Tuesday that a religious death warrant against British author Salman Rushdie is irrevocable and ''must be carried out.''

There had been reports Iran was relaxing its stance on the death sentence, issued by the late spiritual leader Ayatollah Ruhollah Khomeini before his own death last year, in order to improve relations with Europe.

The warrant stems from Rushdie's latest book, ''The Satanic Versus,'' which Moslems consider blasphemous.

Khamenei said in address to clerics in Tehran that the death edict is based on ''divine messages and is equally solid and irrevocable.''

''Salman Rushdie is a criminal and the divine sentence on him must be carried out,'' the Iranian leader said.

Sunday, Iranian Foreign Ministry official Hussein Musavian categorically denied a report in a London newspaper, The Sunday Times, quoting him as saying the death warrant might be revoked.

Musavian told the official Islamic Republic News Agency that remarks attributed to him in The Sunday Times were a distortion.

But Iran's state radio Sunday quoted Musavian as saying: ''The Iranian government has not formally insisted on the murder of Salman Rushdie.

''If Britain condemns the insults to Iran and demonstrates its respect to Islam, this could help in improving relations and be effective in the release of British hostages in Lebanon,'' he was quoted as saying.

British Prime Minister Margaret Thatcher told the British Broadcasting Corp. in a phone-in question program that Great Britain has the ''greatest respect for Islam. But obviously we cannot do anything to hinder freedom

of speech in this country.''

Khamenei's statement Tuesday came a day after the official first anniversary of Khomeini's death and amid a public controversy among Iran's ruling clergy on what constituted ''the imam's line.''

President Akbar Hashemi-Rafsanjani, in a moderate stance last Thursday, said individuals may differ with the late Khomeini's stands, but the son of the late ayatollah suggested the armed forces would counter anyone who deviated from the iman's hard-line philosophy.

Hard-line cleric Mohammed Khoeyniha, the mentor of the young radicals who seized the U.S. Embassy in 1979, warned Monday that ''those who are in awe of the West and want to pave the way for capitalists'' should not be allowed to hold sensitive government posts.

Iranian analysts said his remarks appeared to be directed against officials who wish to normalize relations with the West.

Iran broke diplomatic relations with Britain in March 1989 after Khomeini issued the religious decree calling for Rushdie to be killed.

Britain and other members of the European Community pulled their most senior diplomats out of Iran in protest. The Community diplomats later returned to Tehran but relations with Britain remained severed.

HOLLY, MI (JUNE 5) UPI - A woman suffering from Alzheimer's disease killed herself by pushing a button on a retired pathologist's "suicide machine" and the device's inventor said he had done nothing illegal.

Dr. Jack Kevorkian, 62, of Royal Oak hooked Janet Adkins, 54, of Portland, Ore., to the device Monday afternoon in his van at a park about 50 miles northwest of Detroit.

Adkins died five or six minutes after she pressed a button on the "suicide machine" that released a dose of potassium chloride into her veins, similar to the procedure used in some capital punishment cases. "I feel I haven't broken any laws," Kevorkian said Tuesday. "I'm prepared for any charge they want to bring. I'll follow what the law says."

Oakland County Prosecutor Richard Thompson said he was aware of Adkins's death but declined to comment further pending the outcome of "an ongoing investigation."

Gerald Poisson, the county's assistant prosecutor, said the suicide device

is not illegal but someone who provided it could be charged with homicide, depending on the facts in the case. "Emotions will dictate what they will do, not law," Kevorkian said.

Kevorkian, a retired pathologist, said Adkins was the first patient to use the device, which he invented last September. He said Adkins learned of the device through publicity in the news media. Medical journals have refused to publicize the device, he said.

After Adkins was dead, Kevorkian immediately called Michigan State Police and the Oakland County Prosecutor's office. When police arrived at the Groveland Oaks County Park east of Holly, they confiscated the van and the suicide device.

Kevorkian said he chose the park as the site for Adkins' suicide because he was unable to find any other facility - such as a hospital, clinic, nursing home, church, or funeral home - that would accommodate them. "She was very, very desirous of the option," Kevorkian said. "She was the calmest person... She was just aching to get this done."

Kevorkian said Adkins, her husband, Ron, and a family friend flew to Michigan over the weekend because providing the means to commit suicide is a felony in Oregon.

"The last thing Janet Adkins said was, 'You just make my case known,"' he said. "Her three sons also knew she was coming here to commit suicide and they agreed with her decision but they didn't want to come along," he said.

Kevorkian described Adkins as "a remarkable woman" who did not want to live with the ravages of Alzheimer's disease. "She was a housewife who traveled extensively. She taught English part time. She played the piano. But the disease took away her ability to read music. She couldn't even spell any more," he said.

"She told me she wanted to take her life while she was still clear in her mind and knew what she was doing. She said she wanted to do it before she slipped into a vegetative state."

Kevorkian said Adkins contacted him last October when she learned about his suicide machine. He said he urged her to try an experimental drug treatment in Seattle in an attempt to put the disease into remission.

"At first, I was not going to let her use the device," Kevorkian said. "But the Seattle treatment didn't work. She told me she had pills and she was going to do it (commit suicide) anyway. She just wanted to be sure and, medically, my device is much better than putting a sack over your head or trying to drown yourself. "I consider this a doctor-assisted suicide."

Kevorkian said neither the husband nor the family friend wanted to be around when Adkins committed suicide so they flew back to Oregon on Monday. "Once she pushed the button, she was unconscious in 25 seconds," he said. "After she lost consciousness, she was dead in five or six minutes." He said family members requested her body be cremated so they could scatter her ashes in the Pacific Ocean.

(JUNE 5) UPI - West German Chancellor Helmut Kohl left for Washington today for talks with President Bush. The two leaders are expected to discuss continued Soviet objections to Western plans for a united Germany to be a member of NATO. Bush is due to meet with Kohl on Friday, a few days before talking with East German Prime Minister Lothar de Maiziere .

Work continues at Cape Canaveral today to find a leak aboard the space shuttle Columbia in hopes of averting a long launch delay. Today, engineers plan to pump rocket fuel aboard the Columbia. Others are to check out one of the shuttle Discovery's cargo bay doors to see if it was damaged in a hangar accident yesterday.

The Soviet parliament has tentatively approved a compromise 45 percent uniform business tax. The plan drew strong opposition from deputies who argued that it would limit incentive and slow the move to a market economy. The compromise must still pass at a second reading scheduled for June 13th.

The strongest rebel faction in Cambodia is refusing to back a cease-fire agreement that would end 11 years of civil war. The Khmer Rouge will NOT go along with the plan signed by the Vietnamese-backed government of Cambodia and a rebel alliance. The agreement would end the fighting by July 31st.

An earthquake measuring five-point-three on the Richter scale rattled Tokyo today, but police report NO injuries or damage. Buildings swayed and objects rattled for about 20 seconds when the tremor struck at 10:43 p-m, Tokyo time. The quake was centered just south of Tokyo.

#90156u1373 06/05/1990 ~United Press International

NEW YORK (JUNE 5) UPI - The stock market was narrowly mixed at midday Tuesday in heavy trading as profit-taking after Monday's rally to all-time highs kept the Dow industrials in the minus column.

The Dow Jones industrial average, which jumped 34.22 Monday to an all-time high of 2935.19, was off 1.70 to 2933.49 at noon EDT.

Advances led declines 730-659 among the 1,904 issues crossing the New York Stock Exchange tape.

Volume amounted to about 110,000,000 shares at noon, compared with 69,980,000 in the same period Monday.

Stocks opened mixed and turned higher shortly after the opening. While most stocks remained higher, however, in the wake of Monday's surge to an all-time high in the Dow industrials, the blue chip index began to lose some of its gains after about a half hour of trading and then eased into the minus column.

Analysts said profit-taking in the Dow industrials after the rally Monday offset buying fueled by early strength in Treasury bonds. But by late morning Treasury notes and bonds were little changed.

Falling oil prices, an indicator of lower inflation, bolstered Treasuries early Tuesday. The drop in oil prices was sparked by reports that Saudi Arabia has cut the price formula for some July deliveries of crude oil to destinations in Europe and the United States.

On the trading floor, Citicorp was the most active issue, up 1/4 to 24 7/8 as financial issues continued to benefit from the improved interest rate outlook. BankAmerica was also active, up 5/8 to 33 1/4.

Philip Morris followed, up 1/4 to 44 3/4. Philips Industries was third, surging 3 3/8 to 17 3/8 after Tompkins PLC of Britain reportedly agreed to buy the company for $18.50 a share, or $550 million.

Among the other blue chips, AT&T was down 1/2 to 43 1/8, IBM was up 1 3/8 to 121 3/4 in active trading after reportedly cutting prices up to 10 percent on some Personal System-2 models, Woolworth was up 5/8 to 33 5/8 and Coca-Cola was down 7/8 to 45 5/8.

Prices were slightly higher in moderate trading on the American Stock Exchange.

Wang Labs Class B led the Amex issues, down 1/4 to 4 3/8.

#90156u1382 06/05/1990 ~United Press International

HOLLYWOOD (JUNE 5) UPI - Arnold Schwarzenegger muscled aside Michael J. Fox at North America's movie houses with ''Total Recall'' taking in $25.5 million, the year's biggest three-day opening.

The out-of-this-world sci-fi drama brushed aside Fox's Marty McFly in ''Back to the Future Part III,'' which plummeted 56 percent and landed in the No. 2 spot.

''Total Recall,'' showing on 2,060 screens in its opening week, drew the highest grossing three-day opening of any film thus far in 1990, edging ''Teenage Mutant Ninja Turtles,'' which posted $25.3 million when it opened in March.

But ''Total Recall'' will have to break a lot more box-office records before it goes into the black, thanks to an estimated $70 million budget.

''Back to the Future Part III'' picked up $10.3 million in 2,025 theaters. In two weeks it has compiled $38 million, as computed by Entertainment Data Inc.

No. 3 was ''Bird on a Wire,'' the Mel Gibson-Goldie Hawn romance-adventure with a gross of $6.3 million, a drop of 50 percent from the previous week

in 1,963 theaters. Its three-week total is $42.2 million.

The most profitable picture currently showing is ''Pretty Woman,'' starring Richard Gere and Julia Roberts, with an 11-week gross of $126.7 million.

Still showing on 1,791 screens, the story of romance between a hot-shot tycoon and a Hollywood hooker tipped the tills for $4.7 million and the fourth spot.

Rounding out the top five was ''Cadillac Man,'' starring Robin Williams. Playing in 1,878 situations, the mindless comedy has yet to get out of second gear. It grossed $2.8 million last week and only $19.5 million in three weeks.

Last week's $111.9 million gross at North America's 23,000 theaters failed to match the 1989 total of $125.3 million for the equivalent week. The total so far for 1990 is $1.76 billion, still out in front of record setting 1989's $1.65 billion.

The top 10, last week's gross, total gross, weeks in release:

1. ''Total Recall,'' $25.5 million, 1 week.
2. ''Back to the Future Part III,'' $10.3 million, $38 million, 2 weeks.
3. ''Bird on a Wire,'' $6.3 million, $42.2 million, 3 weeks.
4. ''Pretty Woman,'' $4.7 million, $126.7 million, 11 weeks.
5. ''Cadillac Man,'' $2.8 million, $19.5 million, 3 weeks.
6. ''Fire Birds,'' $2.6 million, $10.1 million, 2 weeks.
7. ''Teenage Mutant Ninja Turtles,'' $1.9 million, $121 million, 10 weeks.
8. ''The Hunt for Red October,'' $1 million, $112.2 million, 14 weeks.
9. ''Tales from the Darkside,'' $560,556, $15.4 million, 5 weeks.
10. ''Joe Versus the Volcano,'' $413,166, $38.1 million, 13 weeks.

#90156u1388 06/05/1990 ~United Press International

SAVANNAH, GA (JUNE 5) UPI - Gulfstream Aerospace Corp. is developing an engine noise reduction device that will make older jet aircraft quieter and more fuel-efficient, company Chairman Allen Paulson said Tuesday.

Paulson said he has applied for a patent on the device, and production could begin in 1 1/2 to 2 years.

The device is being designed not only for Gulfstream's older G-II and G-III corporate jet aircraft but also for commercial jets, including Boeing 707s and727s and McDonnell-Douglas DC-9s, said Paulson.

''It could be bigger than anything we've ever done,'' he said.

Paulson said the device will give airlines a cost-effective answer to environmental pressures to reduce engine noise emissions. He said airports in Van Nuys and Long Beach, Calif., have tightened jet engine noise emission standards, and he expects others to follow.

''The pressure is really getting heavy,'' he said. ''If people can't fly into these airports, they don't need an airplane.''

Paulson said the device, which will be attached to the rear of the aircraft, reduces engine noise by slowing velocity from the tailpipe.

''We literally will be bolting it on the tailpipe section. It can be done at a much lower cost (than installing a new engine),'' he said. ''Right now, you'd have to say it's theory, but it's proven theory and it will work. I have the utmost faith in it.''

An additional benefit is an expected 20 percent increase in engine thrust that will enable the aircraft to burn fuel more efficiently, Paulson said.

''The extra thrust doesn't give you more air speed. It means better fuel efficiency for the same air speed, which increases the aircraft's range, cuts costs and extends the life of the engine,'' Paulson said.

He said the noise reduction device is expected to increase the value of the G-II, which was introduced in 1966, and the G-III, which first rolled off the assembly line in the late 1970s.

#90156u1393 06/05/1990 ~United Press International

BEIJING (JUNE 5) UPI - Police enforcing tight security to avert renewed political unrest have cracked down on the latest threat to public order: a foreigners' jogging club.

Members of the Beijing jogging club said Tuesday that police forced them to cancel two of their weekly runs after conducting a daylong interrogation of an American runner, bringing in the U.S. Embassy and confiscating the group's T-shirts.

The crackdown on the runners began Sunday as authorities imposed heavy security in the Chinese capital at the anniversary of the crushing last year on the pro-democracy movement, hoping to avert any renewed unrest.

''It's all rather stupid,'' said a disgusted British club member.

The club, the Hash House Harriers, has held weekly runs in Beijing since 1982. Most of its approximately 50 members are foreigners residing in Beijing.

Club members said the American runner was summoned by the Beijing Public Security Bureau after he ordered T-shirts marking the club's 365th run, coincidentally scheduled for Monday, June 4, the anniversary of last year's crackdown. The shirtmaker notified police.

Police confiscated the shirts and briefly lifted the American's passport during the daylong questioning, then called him late Sunday night to demand the Monday run be canceled. Members said another run scheduled for next Sunday also has been scrubbed.

U.S. Embassy spokesman Sheridan Bell said the Chinese Foreign Ministry went as far as to summons a U.S. diplomat to ask the club, some of whose members are embassy employees, to cancel the run.

''We checked on it and found it had already been postponed,'' Bell said.

Police told the club members that their runs might be considered a ''gathering'' for which they would need to seek an official permit, the British club member said.

#90156u1401 06/05/1990 ~United Press International

TOKYO (JUNE 5) UPI - The Vietnamese-backed government of Cambodia and a rebel alliance signed a cease-fire agreement Tuesday to end 11 years of civil war, but the strongest rebel faction, the Khmer Rouge, was absent from the peace table.

Cambodian Prime Minister Hun Sen and Prince Norodom Sihanouk, the leader of a loose three-party rebel coalition fighting Hun Sen's government, signed a joint communique calling on all parties to stop fighting by July 31 through ''voluntary self-restraint.''

But the absence of the Khmer Rouge, militarily the strongest of the three rebel factions, at the signing of the agreement cast serious doubt on its ultimate effectiveness.

''The Khmer Rouge is not obliged to implement this communique,'' Sihanouk said. ''During a few months at least, there will be fighting, the continuation of the war, unfortunately.''

Cambodian peace talks began in December 1987 but have made little headway due to sharp differences over the role the Khmer Rouge should play in a new government.

At least 1 million Cambodians died when the communist Khmer Rouge held power from 1975 to 1979 and forced the people into primative agrarian communes.

Vietnam invaded Cambodia on Christmas Day 1978 and drove the Khmer Rouge from power the next month. The Vietnamese announced last fall the pullout of their troops but say many advisers remain.

The three resistance factions, based mostly along Cambodia's western border with Thailand, have been fighting to oust the Vietnamese-installed government of Hun Sen.

Hun Sen has been willing to discuss peace but is opposed to any role for the Khmer Rouge in an interim government. He argues opening the door to the Khmer Rouge could lead to a return of their reign of terror.

A Khmer Rouge delegation headed by Khieu Samphan came to Tokyo but refused to participate in the talks because it was not given an independent role in the process.

Unlike previous multilateral meetings on Cambodia, the Tokyo talks were structured as two-party talks, headed by Sihanouk, representing the rebels and Hun Sen, representing the government.

''The (Khmer Rouge) wonders ... why the text is to be signed by two parties or two sides while the (peace talks) elsewhere have accepted that there are four Cambodian parties,'' the Khmer Rouge statement said.

The decision to go ahead with the signing of the cease-fire accord without the Khmer Rouge could be interpreted as an attempt to deny them a leading role in the peace process.

The Khmer Rouge is opposed by the United States and other Western nations but backed by China. Sihanouk contends the Khmer Rouge must be dealt with if the war is ever to end.

''Our relations with the Khmer Rouge will remain the same,'' Sihanouk said after signing the cease-fire. ''That means we that are not hostile to the Khmer Rouge but we are not operating with the Khmer Rouge.''

The Khmer Rouge said they are ready to participate in peace talks in Paris in July if they are given the same status as Hun Sen, Sihanouk and Son Sann, leader of the conservative Khmer People's National Liberation Front, the third rebel group.

Hun Sen and Sihanouk agreed a cease-fire is to begin the day an interim administration holds its first meeting. They agreed that the interim administration, known as the Supreme National Council, should convene no later than July 31.

''It is hereby declared that voluntary self-restraint use of force shall be implemented by all Cambodian parties on the day when the first meeting of a Supreme National Council is convened,'' the joint communique said.

The communique also called for the reconvening of the multinational Paris International Conference on Cambodia as soon as possible to aid the process.

Hun Sen called on all factions to help make this agreement a success.

''We should not allow what we have signed today to become an empty paper '' Hun Sen said.

Meanwhile in Cambodia, the Khmer Rouge reported Tuesday they had captured another town, killing 30 government troops, according to reports from Bangkok.

At the same time Phnom Penh radio said troops of the Vietnamese-installed government killed 79 Khmer Rouge troops in fighting west of the country' s second-largest city, Battambang.

Diplomatic sources say Khmer Rouge battle reports are frequently exaggerated for their propaganda effects.

#90156u1405 06/05/1990 ~United Press International

MANILA, PHILIPPINES (JUNE 5) UPI - The Philippines has refused asylum to 101 Vietnamese refugees plucked from two boats in the South China Sea last month by a U.S. Navy ship unless Washington gives its assurance they will be resettled in the United States, officials said Tuesday.

''We are not prepared to accept asylum-seekers or open-ended cases without

any commitment when and how they will be resettled,'' said Philippine Ambassador Romualdo Ong, who is in charge of the government's refugee program.

''Active discussions have been going on,'' said U.S. embassy spokeswoman Victoria Middleton, who declined further comment.

''The Philipines is prepared to admit the refugees provided the United States gives a firm guarantee they will be resettled in the United States within a certain period of time,'' Ong said.

''The Philippines has not abandoned its humanitarian position. We are just making sure this does not become a residual problem for us.''

The salvage ship U.S. Beaufort rescued 24 Vietnamese on May 24, 120 nautical miles off Vietnam, and picked up another 77 Vietnamese as it approached the Philippines two days later.

However, the Vietnamese - 44 men, 29 women and 28 children - were refused permission to disembark on arrival at the U.S. Subic Bay Naval Base, 50 miles north of Manila, the navy said.

Last Thursday, the refugees were transferred to the supply ship USS White Plains, a larger vessel, while U.S. authorities attempted to seek clearance for temporary asylum in the Philippines.

Previously, clearance was granted immediately for temporary shelter in Philippine refugee camps of boat people plucked from the South China Sea by the 7th fleet.

But this time, the Philippine government balked.

The government action followed a resolution by Hong Kong and members of the Association of Southeast Asian Nations (ASEAN) during a workshop sponsored by the U.N. High Commissioner for Refugees (UNHCR) last month calling for the immediate resettlement of more than 100,000 refugees in nine Asian countries.

ASEAN, which is made up of the Philippines, Indonesia, Singapore, Malaysia Thailand and Brunei, said the continued presence of the refugees was becoming a ''strain'' in the economies of first asylum countries.

The resolution also demanded swift implementation of a plan for the mandatory repatriation to Vietnam of the so-called economic refugees.

Vietnam and the United States have opposed the program for the forcible return of the refugees on humanitarian grounds.

CAIRO, EGYPT (JUNE 5) UPI - Lebanese President Elias Hrawi arrived in Cairo Tuesday on an official visit as part of a regional tour to win support for his government's efforts to control the war-ravaged country, Cairo radio reported.

The three-day visit to the Egyptian capital is part of a three-nation tour of the Middle East, which also includes Libya and Tunisia.

The Maronite Christian president, accompanied by Moslem Prime Minister Selim al Hoss, will hold talks Wednesday with Egyptian President Hosni Mubarak.

They will focus on Egypt's role in ending the 14-year civil war in Lebanon by putting pressure on Israel to abide by a U.N. resolution calling for the withdrawal of Israeli troops from southern Lebanon, Cairo Radio said.

Israel invaded Lebanon in 1982, ostensibly to crush units of the Palestine Liberation Organization in the country.

''Egypt has a very important role in this, because of its world position, and because it can intervene with Israel to force it to withdraw from South Lebanon ...'' the government supervised newspaper Al Akhbar quoted the Lebanese president as saying in an interview published Monday.

''This will make it easier for the Lebanese army to perform its security tasks in the area, and to remove obstacles in the way of it performing its national role.''

Hrawi emphasized the constructive role that Egypt has played and can continue to play in solving the Lebanese crisis.

The Lebanese government is also seeking Arab support to bolster its army.

''Lebanon, in spite of all the difficulties it is facing is trying to form a national army capable of protecting the boundaries and to enforce the Lebanese-Israeli truce while we wait for ... a just and lasting solution to the situation in the Middle East,'' Hrawi said.

Hrawi's visit, his first official trip to the Egyptian capital since he was elected president of Lebanon last November, was made possible by the restoration of relations betweeen Syria and Cairo late last year.

Syria broke off ties with Cairo in 1977 when late Egyptian President Anwar Sadat signed the Arab world's first peace treaty with Israel.

WASHINGTON (JUNE 5) UPI - Political realities kept the future of a U.S.-Soviet trade agreement tacitly linked to Soviet actions toward Lithuania as President Bush won congressional support Tuesday for his summit with Mikhail Gorbachev.

By and large, Democratic and Republican leaders who met with Bush at the White House to hear him review the summit outcome backed his decision to not hold the trade pact hostage to Soviet concessions on Lithuania.

But in admonitions that served to reinforce the private warnings Bush delivered to Gorbachev before and during the summit, they indicated Congress might hold up the accord without a de-escalation of the crisis over Lithuania.

Senate Republican leader Robert Dole said Congress would be looking for ''some signal from Lithuania - from the leadership - that they're negotiating and they're satisfied they may resolve it'' before considering the trade pact.

After signing the trade agreement Friday, Bush said it would not be submitted to Congress, which could block its implementation, until the Soviets enact more liberal emigration laws. He denied any formal linkage to Lithuania.

The White House and Congress both appeared to welcome a Soviet delay of action on the emigration laws, reportedly until September, as a move that buys time to resolve that issue and ease the conflict over Lithuanian independence.

''That may not be bad,'' said White House press secretary Marlin Fitzwater.

Senate Democratic leader George Mitchell of Maine said the Soviets now have ''ample time to take the steps necessary to permit us to go forward on the trade agreements in moderating their policy with respect to Lithuania.''

Mitchell, who charged Monday that Bush ''effectively abandoned the Lithuanians'' by pressing ahead with the trade pact in the face of tension over Lithuania, said he heard nothing in Tuesday's meeting to change his mind.

Mitchell, however, was in the apparent minority. ''It's better for us to have the trade agreement than to have not had the trade agreement and not had any progress on Lithuania, either,'' said House Speaker Tom Foley, D-Wash.

The agreement signed during the summit could lead to most-favored-nation trade benefits for Moscow and provide a long-term boon to Gorbachev's monumental struggle to restructure the discredited Soviet economy.

Despite repeated denials by Bush and Secretary of State James Baker of any formal linkage between the trade pact and the Soviet coercion of Lithuania both had implied such a political connection before the summit.

Fitzwater acknowledged that Bush went into the summit wanting to ''raise the question of Lithuania in very strong terms'' and make clear that

Lithuania could make congressional approval of the trade pact ''extremely difficult.''

While receiving no assurances that the Soviet economic blockade of Lithuania would be lifted or negotiations opened, Bush decided at the last minute to sign the agreement after becoming convinced that Gorbachev ''wants to resolve the issue,'' Fitzwater said.

To bolster that belief, Fitzwater cited Gorbachev's remarks Sunday at a joint news conference with Bush that the Soviets were working to establish the legal mechanism for ''divorce proceedings'' by Lithuania or other republics.

Bush continued a round of post-summit contacts with allied leaders in telephone calls to Japanese Prime Minister Toshiki Kaifu and French President Francois Mitterrand. He also awoke Tuesday morning to find a farewell from Gorbachev, who left the United States hours earlier after post-summit visits to Minneapolis and San Francisco.

Fitzwater said that Gorbachev, in a message radioed to the White House as his Aeroflot jetlines was leaving American airspace at 1:39 a.m. EDT, expressed ''deep satisfaction'' with the results of their talks.

''The work we have done together during these days will bear fruit,'' Gorbachev said. ''I would like to express to you and to all Americans my sincere gratitude for the respect shown to the Soviet people and for your hospitality and warm reception.''

BOSTON (JUNE 5) UPI - A new test that detects a substance in brain tissue linked to Alzheimer's disease may help doctors more accurately determine who has been stricken by the devastating disorder, scientists said Tuesday.

The test may help prevent patients suffering from other neurological diseases from being misdiagnosed as having Alzheimer's, which can result in their failing to receive helpful treatment, doctors said.

An estimated one-third percent of those currently diagnosed with Alzheimer's disease may actually have other forms of brain impairment that could be effectively treated with drugs, experts say.

''If you can prevent about one-third of those suffering from dementia from being misdiagnosed, and thus given the wrong treatment, that's a step forward,'' said Hossein Ghanbari, a researcher at Abbott Laboratories in Illinois who is developing the test.

Alzheimer's disease is a degenerative condition that progressively impairs mental ability, leaving victims unable to care for themselves. Primarily a disorder of the elderly, it has no known cause or cure. It is estimated to affect between 2.5 million and 4 million Americans.

Alzheimer's is difficult to diagnose because many of the disorder's symptoms resemble those of other brain and mental diseases. Currently, the only way to conclusively diagnose a patient is by examining the brain after death.

The new test uses tailor-made proteins known as monoclonal antibodies which act like biochemical signposts, recognizing and marking specific proteins - in this case, the so-called ''Alzheimer's disease-associated protein'' or ADAP.

In a study published in the Journal of the American Medical Assocation, Ghanbari and his colleagues used the new test on tissue taken from 111 human brains.

The test detected the protein in 86 percent of 56 tissue samples from Alzheimer's victims' brains, and not in tissue from 27 normal brains and 28 brains of people who suffered from other neurological disorders such as Parkinson's disease and Huntington's disease, he said.

In a telephone interview, Ghanbari said his goal is to refine the new test so it can be used to determine the presence or absence of Alzheimer's disease in living people suffering from an impairment of brain function known as dementia.

Ghanbari said he and colleagues hope to refine the test sufficiently within two years so it can determine whether the protein is present in the spinal fluid of dementia patients.

#90156u1463 06/05/1990 ~United Press International

BEIRUT, Lebanon (JUNE 5) UPI - The U.N. International Children's Fund in Lebanon said Tuesday more than 40,000 children have been killed in 15 years of civil war and an entire generation has grown up ''with fear in their hearts and panic in their minds.''

''Leave them in peace, give them a chance that might be the last chance of the country,'' UNICEF representative Andre Roberfroid told a news conference at the U.N. Information Center in Beirut.

''To all who have any responsibility, I ask them consider that children are no part in this conflict. They have nothing to do with the causes nor the objectives of this conflict,'' Roberfroid said on the ''International

Day of Children: Victims of Aggression.''

He said in any conflict, basic needs of the children and their fundamental rights must constitute a minimum common understanding among all parties.

''It is possible to agree that at least we will protect the child and will secure his health, education and physical security,'' the U.N. official said. ''Wherever they are, whoever their parents are, the children need health protection, schooling, safe home, playgrounds and loving families.''

Roberfroid noted that an entire generation of Lebanese children was born and lived all its childhood in a climate of war and aggression. He said that during 15 years of war the children have witnessed violence and aggression ''as normal organization of human society.''

''Thousands of children have been subjected to stress and fear, of guns and bullets, of shells and bombs,'' he said. ''They have learned to hide and live underground with fear in their hearts and panic in their minds.''

The values of solidarity and tolerance as well as the wish to know and meet each other have almost disappeared, he added.

''Is this not enough? Will the Lebanese society, will the world tolerate that a second generation be soon hit and destroyed in the same way?'' he asked. ''Can we accept that there is no other way than aggressing children to resolve our adults conflicts and differences?''

Roberfroid said the situation must be denounced as unacceptable, unbearable and inhuman. He said children were the prime and most severely affected victims and they bear no responsibility.

He said according to most reliable records, more than 40,000 children have been killed in Lebanon over the past 15 years by direct military aggression. Many more have been wounded, crippled or handicapped.

There are no official statistics on the civil war casualties except those gathered by the media and humanitarian organizations.

''Physical aggression can be repaired in hospital but a child who has lost his home, it will require years of cure to go over that aggression,'' the UNICEF official said.

He said thousands of children have lost their parents, more lost their homes or were forced to leave their homes and live as refugees.

''Thousands of children away from their homes and families have lost roots and identity, leaving for them only violence as a way of living,'' Roberfroid said.

''There is no example. What is being seen is that any conflict or any problem is resolved through violence,'' he said, adding that ''psychological, cultural, moral and social aggression is as serious and even more damaging than physical aggression.''

The official said the impact of the war ''will probably still be visible years and years even after the end of the current situation.''

PHILADELPHIA (JUNE 5) UPI - General Electric Co. and the federal government have reached a tentative settlement over GE's recent $8 million contract-fraud conviction, federal prosecutors said Tuesday.

GE agreed not to appeal the conviction in return for the government's settling six other cases involving dubious accounting by GE on defense contracts, officials said.

GE and Management and Technical Services Co., its King of Prussia aerospace subsidiary, were convicted on Feb. 2 after a 14-week trial of defrauding the government of up to $8 million on a contract to supply mobile combat computer systems for the U.S. Army.

The government had charged GE with failing to report cost savings it achieved on the $244.9 million contract. Two GE employees were also convicted in the case.

GE, Matsco and the two employees were scheduled to be sentenced Tuesday in the case, but those sentencings have been postponed until July 26, to give GE and the government time to iron out the settlement, prosecutors said.

Assistant U.S. Attorney Nicholas Harbist, who prosecuted the case, said Tuesday that the settlements would not affect the final sentencing of the two GE employees.

Gerald Leo, 52, of Norristown, Montgomery County, an officer of Matsco, was convicted of mail fraud and covering up the fraud.

James Badolato, 43, of Springfield, Delaware County, also a Matsco manager was acquitted of fraud charges but was convicted of participating in the cover-up.

Under the proposal reached Monday before U.S. District Judge Lowell A. Reed Jr., GE and the government would recommend a fine for the fraud conviction as well as a settlement of a related civil lawsuit filed by the federal government that seeks $23 million in damages.

Prosecutors did not elaborate on the other six cases to be settled, but said they involved defense contracts dating back to the 1970s and all involved GE's King of Prussia aerospace division.

Assistant U.S. Attorney David Howard told the Philadelphia Inquirer that the settlement of the six cases could result in fines of between $20 million and $40 million.

In 1985, while the recent fraud was being committed, GE was fined $1 million after pleading guilty to unrelated fraud charges involving Air Force contracts. In that case, GE admitted its employees had overcharged the Air Force by $800,000 on a contract involving the Minuteman nuclear missile system.

Under the February conviction, GE can still be barred from accepting government contracts for up to three years.

GE could be fined as much as $50 million in the case.

Harbist said any settlements would have to be approved by Reed.

#90156u1476 06/05/1990 ~United Press International

OTTAWA (JUNE 5) UPI - The two most explosive issues at the heart of Canada's constitutional negotiations this week involve Quebec's relationship with English-speaking Canada and reform of an ineffective Senate, the same problems that have frustrated politicians for more than a century.

The constitutional amendment, called the Meech Lake Accord, was negotiated three years ago by Prime Minister Brian Mulroney and the 10 premiers in an attempt to win Quebec's signature on the 1982 Constitution. The amendment contains a ''distinct society clause'' recognizing Quebec's French-speaking population and giving the province special powers to promote and preserve its French language and culture.

The distinct society clause was kept deliberately vague by negotiators, but was intended to be considered by the courts when they ruled on cases involving the Charter of Rights and Freedoms. The three provinces that oppose the accord, New Brunswick, Manitoba and Newfoundland, want guarantees added to the amendment to ensure the supremacy of the Charter, a measure they say will protect the English-speaking and other ethnic minorities in Quebec and the French minority in other provinces.

Quebec refuses to consider any changes to the distinct society clause. The province has already passed laws that violate the rights of its English

minority, including a requirement that all commercial signs be written in French only. When the law was struck down by the Supreme Court last year, Quebec passed another law requiring that outdoor commercial signs be written in French.

Quebec's deliberate ignoring of the Supreme Court ruling angered the majority of Canadians and heightened the sense that Quebec believed itself to be so distinct it was already a separate country.

The impasse over Senate reform is equally difficult. Most provinces view reform of the Senate, whose members are appointed to serve until age 75, is crucial to keeping the country together.

Most provinces are willing to implement the Meech Lake amendment now without guarantees that the Senate will be reformed at a later date.

But Manitoba and Newfoundland say they will not approve the accord unless it contains a legally binding commitment from all provinces that the Senate will be modified to better accommodate the interests of smaller provinces. They also want to change a provision in the Meech Lake accord that requires unanimous consent of all provinces for changes to the Senate.

The concept of an elected Senate is supported by the majority of Canadians and elected politicians and most of the 104 senators who occupy the Upper Chamber of Parliament.

There are some provinces, including Quebec, that feel the Senate should simply be abolished. But others, among them the smaller western and east coast provinces, believe an elected Senate with equal representation would help address the imbalance in the elected House of Commons where representation is based on population.

So far, negotiators have failed to make any progress on the two issues. On Monday, political leaders viewed a framework proposal drafted by the federal government and immediately rejected by Manitoba and Newfoundland that called for dissenting provinces to first approve the Meech Lake Accord without changes, as Quebec has demanded.

In a second stage of negotiations, according to the proposal, the provinces would deal with minor concerns, including recognizing New Brunswick's minority French population in the constitution and offering a reduced timetable for approval of future constitutional changes.

Only in a third stage of negotiations, perhaps years away, would the premiers address the key problems over the distinct society clause and Senate reform.

(JUNE 5) UPI - 11 people are dead and at least 63 others injured in a train collision in a southern Indian state. Officials say a passenger train headed for Bombay collided with a freight train last night about 30

miles west of the state capital of Hyderabad. The Press Trust of India quotes one passenger as saying that many people tumbled from their sleeping berths when the trains collided.

International leaders, scientists, businessmen, artists, educators and entertainers are in Mexico today for nation-wide celebrations marking World Environment day. Mexico was chosen by the United Nations as the site for the event, even though it's has the world's most polluted capital. Scheduled events include an annual state of the environment report and numerous seminars and workshops. Officials anticipate that more than one-Million trees will be planted in Mexico by the end of the day.

#90156u1492 06/05/1990 ~United Press International

WASHINGTON (JUNE 5) UPI - Most members of a group of corporate and academic leaders, which issued a report on minority life, would be open to the idea of a tax hike to achieve economic equality for minorities, a member said Tuesday.

The tax increase statement was made at a news conference but does not appear in the group's official report.

The Business-Higher Education Forum - made up of nearly 100 corporate executives and academic leaders - issued broad recommendations for government, universities and colleges and corporations to help bring America's blacks and Hispanics into society's mainstream.

''Clearly these recommendations are expensive,'' said forum member Clifton Wharton Jr., chairman of the nation's largest private pension fund. He said a majority of forum members ''would be prepared to support a tax increase ... if it was the only way we can assure an economic future'' for minorities.

However, he said no votes were taken on the tax hike subject so he did not know how individual corporate members felt about a willingness to pay higher taxes to improve the minorities' economic quality of life.

The report said minorities do not fit into one neat category, and therefore, a variety of solutions are needed. It said 40 percent of minorites are ''making it'' as members of the middle class, 25-30 percent are the working poor who are barely make ends meet and 30 percent are the underclass who are acutely poor.

''So, monolithic generalizations just won't work anymore, if they ever did either to describe the problems or find solutions,'' Wharton said.

Some of the group's recommendations:

-Invest funds in education, training and employment programs.

-Re-examiine and redesign the nation's public assistance programs. No specifics were offered.

-Launch state and local efforts to discourage teenage pregnancies.

-Enact federal legislation to attack education problems in low-income areas.

-Provide higher education grants, instead of loans, during first two years of college.

-Universities should augment minority enrollment, create hospitable environments for minorities and adopt a philosophy of affirmative action in their non-academic, community efforts.

-Corporations should expand recruitment of minorities, re-examine ways to increase minority-owned franchises and develop strategies to bring businesses back to the inner city.

#90156u1497 06/05/1990 ~United Press International

TIRRENIA, ITALY (JUNE 5) UPI - U.S. players at the World Cup liken their training camp to an Army base and complain they are so isolated they have no sense of the excitement building toward the start of world's premier tournament.

''We really can't pick up on any type of atmosphere being in this complex '' defender Desmond Armstrong said Tuesday. ''We can step outside and walk to the main part of the city, but again, not much atmosphere.

''I could be in the United States right now. We're in what resembles an Army base, bunk beds and so forth. What type of atmosphere can we draw from that? What kind of energy can we draw from that?''

One U.S. State Department official said the U.S. training complex was most heavily guarded of the 24 World Cup teams. The monthlong tournament opens Friday in Milan, and the Americans play their first game Sunday in Florence against Czechoslovakia.

''We and the Italian authorities decided almost a year ago that if there was going to be an incident, it most likely would involve the United States,'' said David Haas, one of three State Department officials staying at the facility. ''We're the bad guys to a lot of people.''

The American team is based at Italy's national Olympic training complex in Tirrenia, a small coastal community south of Pisa. The facility is surrounded by a barbed wire fence and is heavily guarded by Italian security forces, many carrying machine guns.

One reporter left his bag near the field where the U.S. team practiced and authorities brought out trained dogs to inspect the bag before picking it up.

''Unil we get to Rome, I don't see myself really become too hyped up in terms of the magnitude of the tournament,'' Henderson said. ''We're in a country that is very passionate about this sport, yet we don't have the luxury of being around the community to pick up on that overzealous feeling towards the sport.''

The American team initially announced it was going to train and stay in Florence, site of two of the team's first-round games. The third game will be in Rome.

But Italy then announced it would train in Florence rather than Rome, forcing the U.S. team to find another site. Italy eventually decided to practice in Rome, but by then the United States made arrangements in Tirrenia.

Security is not as tight for two other teams in the area. There were no guards posted around the hotel in Montecatini, between Pisa and Florence, where the Czechoslovak team is staying. At the Austrian camp outside Florence, there were several guards, but none armed with machine guns.

The U.S. team previously faced tight in qualifying games in Central America and in Trinidad and Tobago last November when the Americans earned their World Cup berth.

''We probably all thought there would be a more festive atmosphere over here,'' forward Bruce Murray said. ''We're in a small town and the first game is still a few days away, so I'm sure once the tournament starts, the excitment will be there.

''We are kind of isolated out here, but maybe it's good. We don't have too many distractions.''

Defender Brian Bliss said the rooms at the complex remind him of a college dormitory.

''This is the World Cup and you expect first-class facilities,'' he said. ''It was a little disappointing when we got here. The guys complained for a few days, but they've stopped.''

Bliss said the team was pleased with its first extended workouts in Italy.

''We got a lot of work done,'' he said. ''Everyone was a little jumpy early (Monday), but by the time we finished our evening practice, we felt good. We know we have to be ready for what's ahead of us, and the guys aren't losing sight of that.''

#90156u1526 06/05/1990 ~United Press International

NEW YORK (JUNE 5) UPI - ''The Simpsons'' became the first Fox Broadcasting show to make the Nielsen top 10, tying for fourth place, and Fox had two other shows in the top 20 last week, it was reported Tuesday.

NBC won for the week, but Fox was the big gainer. Bart and the other Simpsons acted as lead-in for ''Married...With Children,'' which finished 11th. The innovative ''In Living Color'' was 19th.

Fox was quick to point out that ''The Simpsons'' did better in the ratings than ''The Cosby Show,'' which tied for 8th. Fox has scheduled The Simpson family to move in on Thursday nights next fall to take on the Cosby clan in the lead-off time period. Thursday is a new night for Fox.

Not everything came up roses for Fox last week, however. Its special Rolling Stones Steel Wheels concert ranked 77th.

The good news for NBC was the strong reception given ''Seinfeld,'' as most of the folks who watched No. 1 ''Cheers'' stuck around to make amiable Jerry Seinfeld No. 3.

There really was only one Sunday movie in the usual time period - NBC's ''Revealing Evidence,'' which took the time period in 13th place. ABC's repeat of its Sammy Davis tribute came in 29th and the CBS airing of the Tony Awards was in a three-way tie for 61st.

The poor showing for the Tonys did not stop CBS from winning on Sunday night, the most-watched night on television, thanks to ''60 Minutes'' in sixth place - the only CBS show in the top 10 - and ''Murder, She Wrote'' in 17th.

That was CBS's only night - NBC took Wednesday, Thursday and Saturday and ABC had Monday, Tuesday and Friday.

NBC won the week ending June 3 with a 10.9 rating and a 20 share. ABC was second with a 10.2 rating and a 19 share, while CBS had an 8.9 rating and a 16 share.

The official 30-week prime time season ended Sunday, April 15, but working

on a 52-week season, as of the week ending June 3 NBC had a year-to-date rating of 14.0 and a 24 share. ABC was second with a 12.6 rating and a 21 share and CBS third, with an 11.9 rating and a 20 share.

In the evening news race, ABC's ''World News Tonight'' with Peter Jennings was well in front with a 9.5 rating and a 20 share. ''NBC Nightly News'' with Tom Brokaw tied ''CBS Evening News'' with Dan Rather for the second spot, each with a 7.5 rating and a 17 share.

Each ratings point represents about 921,000 households and a share is the percentage of TV sets tuned to a particular show.

The top 10 programs for the week ending Sunday, June 3, according to the A.C. Nielsen Co., were:

1. Cheers (NBC)
2. Roseanne (ABC)
3. Seinfeld (NBC)
4. (tie) America's Funniest Home Videos (ABC)
   The Simpsons (Fox)
6. 60 Minutes (CBS)
7. The Wonder Years (ABC)
8. (three-way tie) The Cosby Show (NBC)
   A Different World (NBC)
   Unsolved Mysteries (NBC)

#90156u1539 06/05/1990 ~United Press International

MANILA, PHILIPPINES (JUNE 5) UPI - A detained rebel leader warned Tuesday that communist guerrillas will intensify attacks against Americans if President Corazon Aquino agrees to extend U.S. basing rights in the Philippines.

Satur Ocampo, reputed chief of the National Democratic Front, told reporters before his arraignment on kidnapping charges that Aquino lost a ''historic opportunity'' to settle the 21-year-old insurgency when she decided not to terminate U.S. basing rights expiring in 1991.

He said the guerrillas would have declared a ''unilateral cease-fire'' if Aquino had rejected negotiations for extending a 1947 treaty covering the giant U.S. Clark Air Base, Subic Bay Naval station and four smaller facilities.

Manila and Washington decided after a week of exploratory talks last month to negotiate a new agreement for continued U.S. military presence.

''If the Aquino government signs a new bases agreement with the Americans,

there will be an intensification of anti-American operations. That's for sure,'' said Ocampo, who was brought to court amid tight security.

''Will the Americans retaliate in kind? That is the big question.''

Ocampo predicted that world opinion would prevent the United States from sending more U.S. troops, but that Washington would send more arms to Aquino's government to battle the insurgency.

''We don't want a direct military intervention,'' he said. ''It will cost more lives.''

The NDF is the political wing of the communist New People's Army, which is engaged in a 21-year-old insurgency against the government. Ocampo was one of the rebel negotiators in short-lived peace talks in December 1986.

Ocampo, his wife, Carolina Malay, and 15 other guerrillas are charged with the October 1988 kidnapping of army Capt. Eduardo Borromeo in Quezon province, a rebel stronghold south of Manila. Only the Ocampos, who were arrested last year, are in custody.

The arraignment was deferred to June 27 after defense lawyers argued that the defendants should have been accused of the political crime of rebellion and not the ordinary crime of kidnapping. They also face murder and illegal arms charges in other courts.

Communist guerrillas have been blamed for killing 11 U.S. soldiers and civilians in the past three years.

The latest killings last month of two airmen outside Clark, 50 miles north of Manila, and continuing rebel threats have forced U.S. authorities to impose tight travel restrictions for servicemen and their dependents.

#90156u1547 06/05/1990 ~United Press International

SALT LAKE CITY (JUNE 5) UPI - A pair of minor earthquakes rumbled through rural southeast Idaho early Tuesday, University of Utah Seismograph Stations officials said.

''Neither of these earthquakes was reported felt'' and did no known damage seismologist Sue Nava said.

The first quake measured 3.7 on the Richter scale, Nava said. It occurred at 3:03 a.m. about 13 miles southeast of Soda Springs and 8 miles north of Georgetown.

The area known to be seismically active is about 240 miles southeast of

Boise and 130 miles north of Salt Lake City.

The second temblor, with a magnitude of 3.3, occurred at 6:19 a.m. in the same area, Nava said.

WASHINGTON (JUNE 5) UPI - The White House said Tuesday President Bush will not make a decision on whether to permit new oil drilling off the coasts of California and Florida until at least next week and maybe later.

And it dismissed as unfounded speculation reports that Bush may delay, as recommended by a presidential task force, any new drilling in the sensitive waters pending further environmental studies.

''It's up for the president to decide and no one knows what he is going to do,'' deputy White House press secretary Steve Hart said. ''There's no deadline. It's up to him to decide.''

Three weeks ago Bush said he would make a decision within days. But Hart said the president has yet to receive final papers from staff spelling out all his options.

White House press secretary Marlin Fitzwater said Bush would not make a decision this week, and Hart declined to predict when the president would do so. ''I'm out of the guessing business,'' he said.

Bush, a former Texas oilman who announced during his presidential campaign that he was an environmentalist, has kept people guessing about his position on offshore oil drilling.

The president has indicated he may put the most environmentally sensitive areas off limits to drilling. But he has also repeatedly stated his concern for the nation's growing dependence on foreign oil.

A Cabinet-level task force urged Bush in January to indefinitely postpone deciding whether to proceed with the sale of drilling rights to three vast tracts of the sea floor - two off California and one off Florida - until further studies are performed.

According to copies of the panel's confidential report recently obtained by Rep. Barbara Boxer, D-Calif., and made available to reporters, the task force recommended delays of up to seven years for California tracts and up to 12 years for Florida.

The New York Times and The Wall Street Journal quoted unidentified administration officials Tuesday as saying Bush can be expected to delay

any drilling pending new studies.

#90156u1550 06/05/1990 ~United Press International
MOSCOW (JUNE 5) UPI - Rival ethnic groups fought a second day of pitched battles Tuesday in a dispute over land allocation in the central Asian republic of Kirghizia, the Interior Ministry said. At least 11 people died and hundreds were wounded.

Authorities declared a state of emergency and imposed a nightly curfew in the region, about 2,000 miles southeast of Moscow along the China border, and took the unusual step of appointing the republic's interior minister the area's military commander.

The violence was reported as President Mikhail Gorbachev returned from the United States after a superpower summit and followed an outbreak of renewed violence in the Transcaucasian republics of Armenia and Azerbaijan.

The Kirghiz rioting began Monday night in Osh, Kirghizia's second-largest city. An Interior Ministry spokesman reported the violence continued Tuesday evening, with scattered battles involving several hundred people.

''The situation continues to be extremely tense'' despite the emergency measures, Interior Ministry spokesman Yuri Makarov said.

Kirghizia is the last of the Soviet Union's five Central Asian republics in the mainly Moslem ''southern crescent'' to be struck by ethnic unrest during the past year.

Some of the rioters were believed to be armed with hunting rifles, and there were unofficial reports of bands of men on horseback terrorizing parts of the city, the Interior Ministry said.

Preliminary figures from the Interior Ministry indicated 11 people were killed in the two days of clashes, including one member of the security forces that tried to restore order. A total of 111 were hospitalized and another 100 were treated for minor injuries.

The Interior Ministry said the clashes first erupted after an estimated 10,000 ethnic Uzbeks and several thousand Kirghizians gathered Monday night on a collective cotton farm near Osh.

The official news agency Tass said a group of Kirghizians had seized farm land in the area to build homes because of a housing shortage in the republic. A group of Uzbeks claimed the same land.

''The violence was sparked by a dispute between the two communities over

plots of land near the city, to which both sides laid claims,'' Tass said.

Despite the presence of Interior Ministry troops, the crowd grew violent when another large group of Kirghizians approached the collective farm, Tass said. Rioters broke through police lines and rushed into the center of the city, where they went on a rampage and fought pitched battles.

At least seven houses and eight automobiles were burned and several shops were looted, Tass said. Fifty-one people were arrested.

About half Kirghizia's population of 4.2 million is Kirghizian and 12 percent are Uzbeks. Osh is near the border between Kirghizia and the republic of Uzbekistan and has large communities of both ethnic groups.

The Uzbek rioters demanded that the Osh region, one of three main areas of Kirghizia, be annexed to neighboring Uzbekistan and that the local leadership resign, the Krasnaya Zvezda newspaper said.

Kirghizia borders China to the east, Uzbekistan to the west, Kazakhstan to the north and Tadzhikistan to the south.

Last summer Uzbeks went on rampages against Turks in Uzbekistan and Turkmenia, and a month later ethnic riots erupted in neighboring Kazakhstan. Tadzhiks waged pogroms against Armenians in Tadzhikistan four months ago.

Kirghizian Interior Minister Maj. Gen. Viktor Goncharov was appointed military commander of the region around Osh, Tass said.

Assignment of chief military responsibilities to the local Interior Ministry was an unusual move that indicated the gravity of the situation in Kirghizia.

#90156u1552 06/05/1990 ~United Press International

WASHINGTON (JUNE 5) UPI - Worried that Congress will seek to regulate private funding of public programs for the elderly, directors of regional agencies asked a House subcommittee Tuesday not to discourage much-needed non-government money with needless regulation.

This urging came as Congress looks ahead to the 1991 reauthorization of the Older Americans Act, the 25-year-old program that has served as the main social service provider for the nation's elderly population.

Appropriations for programs under the act have been at a virtual standstill for a decade, leading many of the regional agencies financed under the act to look for support from private groups such as corporations

and labor unions. This outside financing helps pay for programs such as senior centers, elderly employment projects and ''meals-on-wheels,'' under which meals are delivered to homebound senior citizens.

Officials of the bodies that adminster the act's programs on a regional and local level testified before the House Select Committee on Aging's Subcommittee on Human Services that additional federal regulation to such private involvement as part of the act's reauthorization could scare off companies interested in financing programs for the elderly.

''We believe that the benefits of public-private partnerships far outweigh the potential risks,'' Prima Mathai-Davis, commissioner of the New York City Department for the Aging, told the subcommittee. ''Regulation would be a significant barrier to business participation.''

John O'Neill, director of a Somerville, Mass., elderly services program, said local agencies would become ''hamstrung'' in soliciting the involvement of business with added government red tape that could wipe out the ''tangible benefits'' derived from private participation.

''We cannot rely on the federal, state and local governments to continue to meet the diversity of needs of the ever-growing aging population and their care-givers,'' added Cheryll Schramm, chief of the aging division of the Atlanta Regional Commission. ''We must look to other means to expand the aging services system.''

''It would be stupid for us to, in any way, limit this corporate and private involvement,'' said the subcommittee's chairman, Rep. Thomas Downey, D-N.Y., although he added ''there's reason to be concerned'' about possible future regulations.

Private funding for government programs to the elderly is a recent development - and not one always encouraged by the federal Adminstration on Aging. Among the major sources of private money for such programs are IBM, AT&T, American Express, tobacco giant Philip Morris, Travelers Insurance and Aetna Insurance.

#90156u1582 06/05/1990 ~United Press International

DALLAS (JUNE 5) UPI - It is unlikely Greyhound Lines Inc. can emerge from Chapter 11 bankruptcy as the nation's premier bus line, a prospect that will especially be severe on some small towns that depend on its service, an analyst said Tuesday.

''This may not be the last nail on the coffin but it certainly puts it closer to the grave,'' said Philip Baggaley, an analyst at Standard & Poor's Corp. in New York. ''When this is over, you will still have some

sort of a bus line but it will be much smaller and some of the small towns may lose their bus service.''

Hit by a 3-month-long drivers' strike and facing huge debts, the Dallas-based bus company, taken private in a $350 million leveraged buyout in 1987 by an investor group led by Chairman Fred Currey, Monday sought protection under Chapter 11 of the federal bankruptcy code in Brownsville, Texas.

The filing came after the company had missed some $16 million of interest, lease and principal payments. Last month, the company offered to buy back some $225 million of its debt at deep discounts.

The bankruptcy filing was apparently precipitated by the possibility that some of Greyhound's lessors might seize its buses and terminals.

Charles Mancuso of Moody's Investor Service Inc. in New York said the filing would at least buy the comany some time to come up with an orderly plan of reorganization while continuing to operate.

''From that standpoint, it was a smart move,'' Mancuso said.

But the union representing the striking workers was not so sympathetic to the bankruptcy filing.

Harold Mendlowitz, president of Amalgamated Transit Union local 1202 in New York, called the filing an attempt to prevent creditors from seizing the facilities and a ploy to avoid negotiating with the union.

''The facts are that Greyhound forced this strike through its unfair labor practices and refusal to bargain in good faith with the union. The strike is still on. We are calling on the public to continue its support for the bus boycott,'' he said.

A complaint from the National Labor Relations Board has charged Greyhound with unfair labor practices. A hearing is set for Sept. 17 in Milwaukee.

If the complaint is upheld, it would force the company to fire most of the 4,000 replacement workers it has hired since the strike began on March 2 and could obligate the company to pay as much as $10 million a month in back pay to returning strikrs.

Other analysts said the company apparently had not been able to secure agreement from its bondholders on the restructuring plan.

S&P has already downgraded about $150 million of the bonds to its the lowest grade of ''D.''

Mancuso said Moody's was further downgrading the securities to ''Ca'' from ''Caa.'' The new rating would make the bonds ''speculative in a high degree,'' mening such issues are often in default or have marked shortcomings, he said.

Elizabeth Dunn, a spokeswoman for Greyhound in Dallas, said the buyback offer would remain in effect until June 18.

She said the bankruptcy filing would have no effect on the operations.

''It is business as usual. We have no changes in service and no changes in employment,'' she said.

Company executives were not immediately available to discuss Greyhound's current cash position. In the first quarter of this year, the company lost $55.7 million.

Last year, the company paid about $50 million in interest payments and another $80 million in rental fee on buses and facilities.

''I don't think this was a case of a healthy company being brought down. It was a company that was in a difficult situation to begin with,'' S&P's Baggaley said.

He indicated the deregulation of the airline industry and the advent of low air fares had virtually sealed the fate of bus companies and it was in this environment that Greyhound was trying survive.

''Even in 1987 (when Grehyound was taken private), there was no one beating down on the doors of Greyhound Dial to acquire the company,'' Baggaley said.

#90156u1592 06/05/1990 ~United Press International

CAPE CANAVERAL, FL (JUNE 5) UPI - With NASA's launch schedule in disarray, engineers Tuesday prepared to pump rocket fuel aboard the shuttle Columbia Wednesday in a last-ditch bid to pinpoint a leak that threatens to ground the ship until August.

A few miles away, technicians in the shuttle Discovery's hangar inspected the ship's right-hand payload bay door to find out if the fragile panel was damaged during an accident Monday. One edge of the 60-foot-long door was pulled up more than 10 inches when an overhead crane was accidentally moved.

But the door returned to its original shape once the tension was released and ''looking at it, it doesn't appear to be damaged,'' a NASA spokesman

said Tuesday. ''What's concerning some people is hidden damage under the (heat insulation) blankets.''

The Discovery accident was the latest in a series of problems that has thrown NASA's ambitious, around-the-clock launch processing schedule into disarray.

With Columbia facing a roll back to the hangar and a months-long delay - from late May to at least July and possibly early August - the space agency can ill afford problems with Discovery, scheduled for launch Oct. 5 on a key flight to lift the Ulysses solar probe into space.

To reach an orbit around the poles of the sun, the European-built Ulysses must first use Jupiter's titanic gravity for a slingshot boost out of the plane of the solar system and back toward the sun.

NASA only has 18 days to get Discovery off the launch pad or Ulysses will be grounded for 13 months while Earth and Jupiter return to favorable launch positions. If the shuttle's payload bay door was, in fact, damaged Monday, NASA could face problems getting the ship ready for launch.

A more immediate concern was Columbia, originally scheduled for launch May 30 but grounded the night before when sensors detected hydrogen gas spewing into the ship's engine compartment.

NASA managers are expected to order Columbia hauled back to the Vehicle Assembly Building for major repairs, a move that would delay launch on a 10-day astronomy mission until at least early July.

Despite extensive tests, engineers have been unable to locate the leak, which apparently only shows up in the presence of supercold liquid hydrogen, chilled to minus 423 degrees Fahrenheit.

Engineers made final preparations Tuesday to pump liquid hydrogen back into the shuttle's external tank early Wednesday to duplicate the conditions present when the leak first showed up. NASA wants to pinpoint the leak before moving the ship off the launch pad to resolve the issue once and for all.

NASA officials strongly suspect the leak is located in the area where the shuttle's primary 17-inch-wide fuel line butts up against the belly of the orbiter. A critical seal in the 17-inch ''quick disconnect'' fitting is one likely culprit, although the problem could involve internal mechanisms.

But engineers cannot fix the quick disconnect fitting without first unhooking Columbia from its external tank. And that can only be done using a giant overhead crane in the Vehicle Assembly Building 3 1/2 miles from the launch pad.

With a roll back to the VAB considered a virtual certainty, NASA managers are debating two launch schedule options. In one, Columbia is launched in July. In the other, the flight slips to early August.

If Columbia can be fixed in the VAB, the shuttle could be hauled back to the pad and launched sometime between July 1 and July 8. The shuttle Atlantis, currently scheduled for launch on a secret military mission the morning of July 11, would be delayed to July 30.

But if Columbia must be hauled back to its hangar for more extensive repairs, Atlantis would be first off the pad, taking off around July 11 as currently planned. Under that scenario, Columbia would follow suit Aug. 9. In both cases, Discovery is scheduled for launch Oct. 5 to ferry Ulysses into space.

#90156u1600 06/05/1990 ~United Press International

BOGOTA, Colombia (JUNE 5) UPI - A former army captain and a national police lieutenant were sentenced to five years in prison for their role in a failed assassination attempt against the head of the secret police.

The Defense Ministry also confirmed Tuesday that a captain in the Colombian air force was detained in Nicaragua in possession of a plane loaded with 440 pounds of cocaine.

Luis Wanumen, an army captain retired for disciplinary reasons, and national police Lt. Cesar Cortes were sentenced to prison Monday by a Bogota judge, newspapers reported.

The two and another man, Joaquin Rivera, were found to have participated in planning the May 30, 1989, car bomb attack against secret police chief, Gen. Miguel Maza. Maza survived the attack but six other people died when the bomb exploded next to a busy Bogota street.

Found in Wanumen's possession at the time of his arrest were documents from the top levels of the military and the administration of President Virgilio Barco, officials said.

The Defense Ministry confirmed that air force Capt. Leonardo Arango had been detained in Nicaragua and had been flying a plane containing the cocaine, Nicaraguan officials said.

Colombian police and military officials acknowledge that the cocaine cartels have been able to use their fabulous wealth to penetrate the government and military.

Police in the cocaine center of Medellin, 160 miles northwest of Bogota, also reported three officers and a retired policemen were shot to death Monday by gunmen.

More than 100 officers have been killed this year in or near Medellin. The Medellin Cartel of cocaine traffickers has offered gunmen $4,000 for each policeman killed.

The shootings are part of the war between the government and the cartel unleashed in August of 1989. Officials also have said the killings are part of the efforts of Medellin cartel kingpin Pablo Escobar to avoid capture.

The justice police, an investigative force, also were set to launch a new publicity campaign aimed at capturing top drug figures, a spokesman said Tuesday.

Part of the campaign is to distribute posters with pictures of those wanted by authorities.

The government has offered a reward of $200,000 for the capture of Escobar who has been accused by police in a series of murders dating back to the 1970s. He is blamed for the assassinations of three presidential candidates during the campaign that ended May 27.

#90156u1609 06/05/1990 ~United Press International

PORTLAND, OR (JUNE 5) UPI - The president of Sprouse-Reitz Stores Inc. told stockholders a special committee has been authorized to begin discussions with parties interested in acquiring all or part of the 80-year-old retail chain.

However, Robert Sprouse II said Monday at the annual shareholders' meeting there is ''no assurance'' the talks will lead to a deal.

In April, Robert Bisno, chairman of TransAction Financial Corp. of Oakland Calif., made an unsolicited bid of $17 a share, or $24 million, to buy the retail chain.

Sprouse did not say who else might be interested in acquiring the company, which has suffered declining earnings in the past five years and cumulative losses of more than $2.5 million in the last two years. Bisno said after the meeting he was unaware of any competing offers.

Voting shareholders also overwhelmingly rejected Bisno's motion to grant equal voting rights to holders of the company's non-voting common stock. Robert Sprouse II controls almost 80 percent of the company's voting

shares.

Sprouse, who also is chief executive officer of Sprouse-Reitz, admitted the company's performance in 1989 was disappointing but said it plans to go on the offensive and regain profitability in 1990.

Instead of trying to be ''all things to all people,'' Sprouse said the chain will focus on six specific areas: toys, housewares, crafts, home furnishings, family apparel and greeting cards, wrapping paper and other paper products. He said it will try to carve a new marketing niche that will make it more competitive with miss discounters.

''We can't have business as usual,'' Sprouse said.

He also said the company plans to close 20 more marginal or unprofitable stores while opening three new stores during the year. Some existing stores will be remodeled following an experimental new format that will highlight the six merchandise groups.

The chain operates 287 stores in 10 Western states, including Oregon and Washington, down from 321 stores in 1986.

#90156u1621 06/05/1990 ~United Press International

QUEBEC (JUNE 5) UPI - The Quebec Nordiques, attempting to improve a team that has finished last in the NHL the past two seasons, Tuesday hired former Minnesota assistant Dave Chambers to coach the team.

Chambers, 50, replaces Michel Bergeron, who was fired as coach last week by new general manager Pierre Page, now reunited with Chambers. Page left Minnesota's coaching job to take the Quebec general manager position in May. Chambers was Page's assistant coach last year.

The hiring of Chambers completes the front office changeover for the Nordiques, who compiled the worst record in the NHL last season - 12-61-7 for 31 points, 33 fewer than any other team. Quebec finished with a 27-46-7 record (61 points) after the 1988-89 season.

The Nordiques, despite their poor performances, have assembled a promising number of youngsters for the future.

''It will be a challenge to make the team successful, because of all the young players,'' Chambers said. ''We're looking to have a team with speed and character.''

Prior to the announcement, which had been rumored for weeks, Page had been criticized for selecting an English-speaking coach for the team which

plays in a city which is 97 percent french speaking.

Chambers pledged to take a summer course in French and addressed reporters in French from a prepared text at the beginning of the press conference.

''We wanted someone who could spread the word how good it is to work in Quebec, and how you have to be able to adjust yourself to new conditions to be successful,'' Page said.

Chambers spent eight season coaching at Toronto's York University and also coached the Canadian Junior national team and the Italian national team before joining the North Stars last season.

''Because of my experience in international hockey, I'm accustomed to adjusting to new environments and new cultures,'' said Chambers, who added that he expects to name his assistant coaches within the next week.

Bergeron, who signed a five-year contract prior to last season, has been assigned by the club to radio, television and promotional work.

#90156u1644 06/05/1990 ~United Press International

DURBAN, SOUTH AFRICA (JUNE 5) UPI - President Frederik de Klerk's ruling party, threatened by a right-wing backlash over its racial reforms, faces a crucial test of white support Wednesday in a parliamentary by-election.

De Klerk faced further troubles Tuesday as political violence flared overnight in black townships, killing five people only days before the government was expected to lift a nationwide state of emergency imposed four years ago to crush anti-apartheid rioting.

In the first barometer of white opinion since de Klerk launched his major reforms in February, Wednesday's election pits the National Party against the right-wing Conservative Party and the liberal Democratic Party among 20,333 voters in the Indian Ocean port city of Durban's Umlazi district.

A mixture of middle class and blue collar neighborhoods, Umlazi has elected a National Party candidate to Parliament since 1977 but right-wing gains in September's election that brought de Klerk to power eroded ruling party support in the area.

Although de Klerk's party is expected to retain the seat, a loss to the Conservatives would be a major blow and lend credence to right-wing claims de Klerk is rapidly losing support among whites as he moves to strike a deal with the black majority.

The Conservative Party, the official opposition, contends de Klerk's party which has ruled the country since 1948, would lose majority control in Parliament if national elections were held today.

At present, the National Party holds 102 of Parliament's 178 seats, down from 130 before last September's elections in which the Conservative Party made strong gains. The Conservatives control 41 seats and the Democrats 34.

''Our task has been to show the voters that the road of negotiating and reconciliation will give us real security and a peaceful and prosperous future in this country,'' said ruling party candidate Piet Matthee.

Ruling party placards declare the Conservative Party ''equals conflict,'' while right-wing slogans urge the voters: ''Keep South Africa White.''

''The major phenomenon is the uncertainty and confusion over the policy of Mr. de Klerk,'' said Conservative Party candidate Francis Hitchcock. ''Whites feel betrayed. De Klerk is not taking the white people with him.''

The Democratic Party, foundering as the second largest opposition party, is viewed as a threat to the National Party's margin of victory.

Wednesday's by-election was forced by the resignation of Member of Parliament Con Botha, who was recently appointed Natal provincial administrator.

An official report said Tuesday three blacks died in strife-torn Natal, including one man shot by an off-duty policeman and two others set afire in factional fighting. Two men were killed in the Cape Province when mobs placed burning tires around their necks, it said.

Former President Pieter W. Botha imposed the state of emergency June 12, 1986, after two years of widespread township uprisings that left 3,500 dead. Black national leaders insist the measure be lifted before they join power-sharing talks.

Government sources quoted by local newspapers since the weekend have said

de Klerk plans to repeal the emergency at midnight Friday on its fourth anniversary to bolster his reform initiatives and fulfill a pledge to scrap the regulations ''as soon as possible.''

But black leader Nelson Mandela, who left Monday for a 45-day tour of 14 nations in Africa, Europe and North America, believes de Klerk has not done enough in his reforms and has said he will urge the nations to retain economic sanctions against South Africa.

''If sanctions are now ended then this would be tantamount to stabbing the liberation struggle in the back,'' he told about 15,000 people Monday in the Botswana capital of Gaborone.

The ANC insists that the emergency be lifted, prisoners held for politically motivated crimes freed, and political exiles allowed to return before it begins debate with the government over a post-apartheid constituion.

Mandela and other anti-apartheid figures insist the state of emergency has exacerbated rather than halted violence.

#90156u1648 06/05/1990 ~United Press International

NEW YORK (JUNE 5) UPI - Broadway's annual audience has hit a plateau of about eight million people but its gross ticket sales of 1989-90 were up eight percent, reflecting a rise in box office prices of up to $60 a ticket, the League of American Theaters and Producers said Tuesday.

The league's report on the season, which ended last Sunday, noted that gross ticket sales had set a record for the third consecutive year and were at an all-time high at $283 million. Ticket sales for the 1988-89 season were $262 million. The news from the road was even better.

Box office receipts for Broadway shows touring the United States and Canada soared to a new record of $367 million, a 43 percent increase from $256 million last season. The national audience was 12.9 million according to the number of tickets sold, up 33 percent from 9.7 million last season. Road companies of Broadway shows had a total of 944 playing weeks, an increase of nine percent over last season.

Broadway's gross ticket sales increase of eight percent was realized despite fewer playing weeks, 1,061, for all 35 productions on Broadway, compared to last season's 1,116 weeks, and could only be ascribed to higher ticket prices.

The season saw orchestra seats for a musical - "Jerome Robbins Broadway" - hit $60 for the first time, up $5 from the $55 ticket price for such hits

as "Les Miserables," "Phantom of the Opera," "City of Angels," and "Grand Hotel." Musicals accounted for 75 percent of gross receipts and 67 percent of attendance.

The top price for straight plays was $50 with some charging $40 and $45. Plays represented only 24 percent of gross receipts and 32 percent of attendance. The league said the average theater-goer paid $35.25 cents for a ticket, up seven percent over last season.

Attendance totaled 8.03 million tickets sold, slightly up from last season's 7.97 million but down from 8.14 million for 1987-88, an all-time high.

The 1989-90 season saw 15 new plays, six play revivals, eight new musicals four musical revivals, and two special attractions open on Broadway, a much better showing than last season's 12 new plays, nine play revivals, six new musicals and one musical revival.

New shows produced the vast majority of business - 84 percent of gross receipts and attendance and 83 percent of the playing weeks. Revivals accounted for only 16 percent of gross receipts and attendance and 17 percent of playing weeks.

During the season, two of the longest runing shows in Broadway history ended their runs. "A Chorus Line" closed with 6,137 performances and the revival of "Oh! Calcutta!" closed with 5,959.

#90156u1671 06/05/1990 ~United Press International

(JUNE 5) UPI - The death toll from ethnic fighting in the central Asian republic of Kirghizia has risen to 11. Hundreds more are reported wounded. The official Tass news agency says the violence was sparked by a dispute between two communities over plots of land that each side claims as its own. Authorities declared a state of emergency and imposed a nightly curfew.

A newspaper in Brussels says a Soviet K-G-B officer recently defected to the United States and revealed his contacts in Brussels. The newspaper did NOT identify the officer but said his contacts included several people in high places. The newspaper said the K-G-B officer sought refuge in the U-S Embassy in Brussels a few weeks ago and was immediately transferred to the United States.

The New Jersey Supreme Court today struck down a state law allowing property taxes to be used to pay for public schools. The court ruled that under the state's Public School Education Act, children in poor urban districts are denied the quality education provided in wealthier suburban

districts. The court ordered the state Legislature to find a way to correct the imbalance.

Iran's spiritual leader is again calling for the death sentence to be carried out against British author Salman Rushdie. Ayatollah Ali Khamenei told clerics in Tehran today that the death warrant is ''irrevocable.'' The death edict was issued by the late Ayatollah Khomeini over Rushdie's book ''The Satanic Versus,'' which Moslems consider blasphemous. Yesterday was the official first anniversary of Khomeini's death.

#90156u1677 06/05/1990 ~United Press International

WASHINGTON (JUNE 5) UPI - A former U.S. ambassador to Hungary proposed Tuesday bringing thousands of young Eastern Europeans to America each year so they can learn Western ways of doing business firsthand on farms and in industries.

Mark Palmer told a House subcommittee his plan would cost the U.S. government about $10 million a year - which he called a ''relatively modest'' expense for a program that would supply Eastern Europe with the talent it needs for economic development while establishing future business contacts for the United States.

Palmer, who was ambassador to Hungary from 1986 until this year and now heads the Central European Development Corp., offered his proposal at a hearing of House Foreign Affairs Committee's subcommitee on Europe and the Middle East.

Palmer and other experts testified that the process of building market economies in Eastern Europe will be arduous and that the United States has been slow in providing necessary assistance.

''The honeymoon is over in east-central Europe,'' Palmer said. ''The American challenge is to recognize that the stakes are enormous, that our work has only just begun and that much more massive private and public sector engagement is required.''

To train young entrepreneurs, he called for bringing to America each year 10,000 Eastern Europeans, including Soviets, to live and work on farms, and another 2,000 young managers to be trained at U.S. companies.

Palmer suggested focusing on young people because - unlike their elders trained to work in state-run enterprises - they ''are still capable of acquiring a normal Western way of thinking about a farm or a business.''

The only cost to the U.S. government would be transportation and administration, Palmer said, with businesses and farms paying salaries for

the Eastern Europeans as they would other workers.

Palmer said in an interview that he has discussed his plan with State Department officials. He said the officials have not responded yet, but added, ''They've got a lot of things on their platter.''

Palmer said U.S. farmers he has spoken with would welcome the opportunity to hire Eastern Europeans and that his business and others would back such a plan in hopes of broadening their contacts.

TOPEKA, KA (JUNE 5) UPI - Federal agents seized two 20 mm cannon that were inadvertently left in a surplus jet fighter acquired by the Combat Air Museum from an Air Force base in New Mexico, museum operators confirmed Tuesday.

Agents of the Bureau of Alcohol, Tobacco and Firearms were tight-lipped.

''The matter's under investigation. That's all I can tell you,'' Assistant U.S. Attorney Rich Hathaway in Topeka said Tuesday.

Roger Miller, museum executive director, said ATF agents served a warrant May 25 and took two 20mm cannon from the nose of a surplus F3-D ''Skynight'' fighter.

James Jimerson, resident agent in charge of the ATF's Overland Park office said the military is supposed to remove weapons before selling off surplus planes.

He hinted that the guns were not working but that the main bodies of the weapons were inadvertently left in the plane.

How often does the military let scrap airplanes go without removing the guns?

''Let's put it this way,'' Jimerson said. ''These two 20mm cannons, you normally don't go into a gun store and buy.''

Miller said the 14-year-old Combat Air Museum paid a $1,000 transfer fee and picked up the plane in March from Holloman Air Force Base near Alamogordo, N.M.

The plane, which no longer has an engine in it, was damaged years ago in a crash landing, Miller said. It will never fly again but it is cosmetically sound and will be restored to join the 30 other fighter planes the museum has restored, Miller said.

David Harris, spokesman for the Army Missle Command at Red Stone Arsenal in Huntsville, Ala., said the plane was ruled surplus before the New Mexica base obtained it about 20 years ago.

He said he had no records showing if the guns still work. After the F3-Ds - flown by the Marine Corps in the 1950s - were declared surplus in 1969, the guns were left on so the planes would be properly balanced for flight, Harris said.

''I think the biggest concern of the firearms people is how the guns were left on the airplane by the Army for so long,'' Miller told United Press International.

The Topeka Capital-Journal Tuesday quoted CAM Wing Commander George Pisani as saying museum officials believed the cannon were not working.

Pisani said the museum was hoping to sell the inoperable guns for $2,000 or $3,000 apiece to collectors for use as mock-up displays, the newspaper reported.

#90156u1691 06/05/1990 ~United Press International

NAIROBI, KENYA (JUNE 5) UPI - British Prime Minister Margaret Thatcher, a Brazilian tribal chief from the Amazon rain forest and a West German city council were among 72 individuals or groups named Tuesday to receive major environmental awards.

Marking the fourth World Environment Day with ''Global 500'' Roll of Honor awards, the Nairobi-based United Nations Environment Program called on the world to take responsibility for the children of the future.

It also used the occasion to publish a joint report with UNICEF on ''Children and the Environment.''

Thatcher received her award, UNEP said, because she had made environmental issues prominent in the domestic and international agenda of the British government.

''In major policy speeches in 1988, she strongly advocated increased international attention to, and action against, the threat of climatic change caused by the global warming effect of the atmospheric build up of greenhouse gases,'' it said.

Chief Paulinho Paiakan, who for years has caught the international imagination with his simple appeals for an end to destruction of the Amazon rain forest, was also honored in the awards. Paiakan and his fellow

elders of Brazil's Kayapo tribe campaign in particular against the building of hydro-electric dams in the forest.

Rainforests, with their millions of square miles of carbon dioxide-absorbing trees, are seen by ecologists as vital counterbalances to global warming.

Erlangen, a town of 35,000 people in West Germany, was held up by UNEP as ''a model for community environmental management.'' The city council has cut its energy consumption by 40 percent since 1978, turned 43 percent of the town into a nature reserve, upped public transport usage by 50 percent and passed extensive by-laws to promote waste recycling and energy saving.

UNEP also gave the prestigious Sasakawa International Environment Prize posthumously to Francisco ''Chico'' Mendes Filho for his fight to preserve the Amazon rainforest.

Mendes, secretary of a rubber-tappers union in Brazil, fought from 1975 until his assassination by his opponents in 1987, to stop government-backed ranchers cutting down or burning the forest. He was honored at a special ceremony in Mexico Tuesday.

President Hossain Mohammad Ershad of Bangladesh also received an award for his environmental leadership in declaring 1990 the ''Year of Environment'' in Bangladesh and 1990-99 the ''Decade of Environment.''

Journalists, ecologists, environmentalist clubs, a theater company and Australia's Alcoa mining group were among others honored.

One of the toughest challenges facing the late 20th century, the report said, was acceptance of responsibility for future generations through environmentally sound and sustainable development.

''We living now must represent our descendants'' interests for them,'' it said.

Noting that more children will be born during the 1990s than in any previous decade in history, the report said, ''We owe them a planet fit to live on and capable of sustaining the future.''

It said there were more than 1.7 billion children under the age of 15 in the world - 32 percent of the planet's population. Eighty-two percent of these lived in the developing world, it noted, and these were already at risk from the destruction of the environment.

''Environmental degradation is killing children. It kills the poorest of the poor, children in developing countries already on the edge of existence,'' the report said.

The global warming theory, now widely accepted, holds that man-made increases in the proportion of gases such as carbon dioxide and methane in the atmosphere could lead in the next century to much higher temperatures worldwide.

Greenhouse gases are so called because they trap the sun''s heat beneath a layer of gas in the upper atmosphere much as a greenhouse traps heat under glass.

Global warming would be ecologically disastrous, raising sea levels and destroying crop patterns, many scientists say.

MAYNARD, MA (JUNE 5) UPI - Digital Equipment Corp., under pressure to reduce employment levels, said Tuesday up to 2,600 workers will have left voluntarily by June 30 - and the company may seek more cuts later.

The country's second-largest computer maker, facing slumping sales in the United States and withering profits, said it has offered a severance package to about 5,000 workers across the country since October. Digital had predicted only between 30 and 50 percent would accept.

Meanwhile, any new severance program likely will be different from the generous offer on the table now, said a Digital spokesman, Jeffry Gibson.

''It might just be different terms, different time, different amounts of financial support,'' Gibson said.

''The current program ends at the end of this fiscal year (June 30), at which point we will evaluate the program and determine what if any kind of program there will be next year. And if there is any program, it's likely to be different,'' he said.

Meanwhile, through normal attrition as well as the voluntary severance program, Digital had cut its Massachusetts workforce by 2,530 to 31,770 in just the first four months of the year, a company spokeswoman, Nikki Richardson, said.

During the same period, its New Hampshire employment was down 800 to 7,700 Richardson said.

Gibson said the company does not project employment levels. However, securities analysts who have been briefed by the company estimate it will seek to eliminate 5,000 jobs from its workforce, which currently stands at about 125,700.

#90156u1708 06/05/1990 ~United Press International
CONCORD, NH (JUNE 5) UPI - Three families filed a class action suit Tuesday against their home town, charging that officials are trying to intimidate welfare applicants by subjecting them to unannounced police questioning.

The suit, filed in U.S. District Court, charges that selectment in Allenstown drastically cut the town's welfare budget last March, took control of the welfare department and require welfare applicants to undergo a police investigation in their homes as a condition of receiving aid.

An attorney for the town declined immediate comment on the suit.

''Allenstown selectmen have ... embarked on an unlawful campaign to reduce the welfare rolls through tactics of imtimidation, harassment and arbitrary treatment,'' said Alex Feldvebel, a staff attorney for New Hampshire Legal Assistance.

Feldvebel said the three families applied for welfare and were subjected to unscheduled police investigations.

''The investigations intimidated, embarrassed and humiliated the parents and frightened and upset their children,'' he said. ''The parents had to reassure their children that neither they nor the children were in trouble or in danger of being arrested.''

Before March, Feldvebel said, welfare investigations were handled by the town's welfare director.

Joyce Merrill, 25, the single mother of a 5-month-old son, said a uniformed police officer arrived unannounced at her boyfriend's apartment a few weeks ago and questioned her about her welfare application. She said it was intimidating.

''I don't like it because he has no right coming into my home,'' Merrill said. ''Once he's in there he can do what he wants. It's embarrassing when your neighbors are looking.''

Feldvebel said the town's welfare policies violated the families' constitutional rights to privacy, freedom from unreasonable police searches and due process.

He said the suit was filed as a last resort after town officials refused to respond to earlier efforts to stop the investigations.

The suit is asking for a court injunction against the policy and $10,000 in damages for two of the families and $12,000 for the third.

Town attorney Richard Molan said he just received a copy of the suit and could not comment on it.

''We have planned a meeting next week with town officials,'' he said. ''We'll have to review it and then proceed from there.''

#90156u1715 06/05/1990 ~United Press International

NEW YORK (JUNE 5) UPI - Jurors in the racketeering trial of ailing Imelda Marcos were told by the judge Tuesday they don't have to come back for a week while she recuperates.

The 60-year-old former first lady of the Philippines collapsed in the courtroom Thursday, bleeding from the mouth, and was rushed to New York Hospital where doctors said she had an inflammation of the stomach.

Marcos is being tried on charges that she and her late husband, former Philippine president Ferdinand Marcos, conspired to buy New York real estate, art and jewelry with $222 million stolen from their homeland.

''Mrs. Marcos is feeling a lot better, but not well enough to continue with the trial,'' said Judge John Keenan in U.S. District Court in Manhattan. ''We will continue next Tuesday at 11 a.m.''

''I want to be sure you understand that nobody is responsible for the interruption,'' he told the jury. ''By their nature trials are very stressful.

''There is every good reason to continue next Tuesday, the 12th at 11 a.m. '' said the judge, who admonished jurors not to discuss the case and then bade them, ''Have a good week.''

Keenan set Wednesday for legal arguments by the attorneys, without Marcos or her codefendant, Saudi Arabian businessman Adnan Khashoggi who was charged with helping her hide the allegedly stolen assets.

Marcos was diagnosed as having a stomach condition that is not life-threatening, said a spokeswoman for New York Hospital-Cornell University Medical Center.

The condition, in which the stomach lining erodes, required intravenous medication to suppress production of acid.

Marcos's condition had stabilized by Sunday and she was released into the care of her personal physician.

''I feel much better,'' she whispered as she sat in the back seat of a black Mercedes Benz Sunday and was driven from the hospital.

She was resting in her East Side apartment, according to her attorney, Gerry Spence.

It was the third courtroom medical areent for Marcos, who suffers from high blood pressure, since trial arguments began April 3. It was the first time she collapsed.

(JUNE 5) UPI - Primary elections are under way in nine states today in the busiest voting day so far this year. The hottest contests are in California, where Democrat Dianne Feinstein is battling to be the state's first woman gubernatorial nominee... and in North Carolina, where Democrat Harvey Gantt is hoping to win a chance at being the state's first black senator. It's generally an easy day, however, for incumbent senators and governors who face little serious opposition.

Police in Beijing apparently consider joggers to be a threat to public order. Members of the Beijing jogging club say police forced them to cancel two of their weekly runs after conducting a day-long interrogation of an American runner and briefly revoking his passport. The group's T-Shirts also were confiscated. Most of the club's approximately 50 members are foreigners living in Beijing.

#90156u1745 06/05/1990 ~United Press International

CAMBRIDGE, MA (JUNE 5) UPI - Action for Children's Televison honored more than 20 television, cable and video programs for youngsters Tuesday, but deplored a dearth of diverse, quality offerings.

"That's the wonderful side of what's happening - there are people who care. There are those who support this kind of programming. The bad news is that they are like a very few stars lighting up a very dark sky," said ACT President Peggy Charren. "It's never been worse," she said.

ACT, a national nonprofit organization that has worked for 22 years to promote diversity and limit commercial angles in children's television, planned to present the awards at a ceremony Wednesday. The event was dedicated to the memory of Muppets creator Jim Henson, who died last month of bacterial pneumonia.

"It's hard to think of children's television these days without remembering him," Charren said. "The world's children will continue to be educated by his material."

Among those programs cited by the group were Cable News Network's "CNN Newsroom," HBO's "Babar," Nickelodeon's quiz show "Make the Grade," and Pittsburgh public television station WQED's "Wonderworks." The office of Michael Cowper, wife of Alaska Gov. Steve Cowper, was also cited for "Look to a Book," a statewide campaign promoting reading.

For the first time in the 18-year history of the awards, no commercial television network series was honored, Charren said. However, the group gave a special award to CBS for an episode of "Murphy Brown" entitled "I Want My FYI."

The episode, in which miniature versions of Murphy and her co-anchors produce a news show for kids, pointed to youngsters' need to receive news, Charren said. "That was ACT's way of thanking the program for focusing on a very important issue when even the news side hasn't said that often enough," she said.

The group issues the awards to help parents find worthwhile programming, Charren said. "These are to help parents and anybody else who cares about children find them. Very often these programs are not highly promoted," as they are broadcast on cable or public television, she said.

Charren said the group's major criticism of children's television is not the presence of violence, but rather the lack of diversity. "Service to kids should be as diverse as a library," she said. "When you think of Saturday morning as the network affiliates' service to kids, then you know why we are the laughingstock of countries that care about their kids. It's embarrassing."

#90156u1751 06/05/1990 ~United Press International

WASHINGTON (JUNE 5) UPI - Passengers had fewer complaints about air travel in April as the nation's airlines posted improvements in on-time performance and baggage handling, the Department of Transportation said Tuesday.

The department received 826 passenger complaints during April, down 34 percent from 1,240 complaints received the month before.

The department's monthly air travel consumer report also showed the 12 largest domestic air carriers reported that 82.2 percent of their flights operated on time, an improvement from 76.5 percent the month before.

April's on-time performance rating was the best since April 1989, the department said.

Baggage problems declined to an average of 5.85 complaints for every 1,000 passengers, down from 7.69 complaints per 1,000 passengers in March and the lowest since September 1988.

Airlines also bumped fewer passengers due to overbooking. Passengers were bumped at a rate of 2.02 per 10,000 during the first quarter, compared with a rate of 3.08 per 10,000 in the year-earlier quarter.

America West had the month's best on-time performance with 90 percent of its flights arriving on time. Northwest followed with 87.3 percent; Eastern, 86.5 percent; Alaska, 86.1 percent; Pan American, 85.7 percent; Southwest, 83.6 percent; USAir, 83.3 percent; TWA, 83.2 percent; American, 83.2 percent; Delta, 80.7 percent; United, 79.6 percent and Continental, 76.4 percent.

Southwest led all competitors with the fewest complaints about mishandled baggage with 3.75 complaints for every 1,000 passengers. Pan Am followed with 5.21 complaints per 1,000 passengers; Northwest, 5.32; United, 5.40; Continental, 5.40; TWA, 5.46; American, 5.77; Alaska, 6.05; Delta, 6.18; America West, 6.29; USAir, 6.55 and Eastern, 7.85.

American reported fewer bumped passengers than other airlines during the first quarter. Passengers are bumped when they hold confirmed reservations and are denied boarding from a flight because of overbooking.

American reported 0.12 involuntary bumpings per 10,000 passengers, followed by United with 0.47; Delta, 0.71; Norhtwest, 1.22; Eastern, 1.33; Continental, 1.70; USAir, 2.34; TWA, 2.93; Pan Am, 3.12; Southwest, 7.19 and America West 12.69.

Delta reported the fewest number of overall complaints per 100,000 passengers with 0.70 followed by Southwest, 0.71; American, 1.04; America West, 1.11; USAir, 1.22; United, 1.23; Northwest, 1.46; Eastern, 2.36; Continental, 2.54; Pan Am, 4.04 and TWA 4.14.

#90156u1755 06/05/1990 ~United Press International

DENVER (JUNE 5) UPI - Hurricane forecaster William Gray said Tuesday the southeastern United States should prepare for an active tropical storm season this year and warned it might usher in a renewed cycle of stronger hurricanes.

Gray, a professor of atmospheric science at Colorado State University, has

issued hurricane predictions annually since 1984. His predictions had been very close every year until last year, when his forecast was wide of the mark.

Last year, Gray predicted four hurricanes, three short of the actual number. He also failed to predict anything of the magnitude of Hugo, the most destructive hurricane in the nation's history.

A missing factor in his old forecasting equation caused the 1989 prediction to fail, Gray told a news conference, and that has been corrected.

The 1990 forecast, which Gray will revise on Aug. 3 before the start of the most active part of the season, predicts seven hurricanes, 11 named storms of at least tropical-storm intensity, 30 hurricane days and a slightly above-average hurricane destruction potential.

Three of the predicted hurricanes will be major events of a category 3, 4 or 5 in the Saffir/Simpson intensity scale, he said. A category 3 hurricane is nine times as destructive as a category 1 storm, and a category 5 hurricane is 25 times as strong. Hugo was category 4 in intensity.

Gray also went a little bit further, saying he believed the Southeast might be faced with a renewed cycle of potentially-destructive storms similar to the late 1940s, 1950s and 1960s.

Gray's predictions are based on a number of meteorological factors, including the presence of any El Nino warm-water events in the South Pacific, the direction of the prevailing winds and sea level pressures in the Caribbean, and wind characteristics in the upper atmosphere.

New to his formula this year - and the missing factor in last year's failure - is the amount of rainfall in western Africa's sub-Saharan Sahel region. The Sahel suffered through a severe drought that lasted 18 years, but the drought might be breaking, Gray said.

Computer models show that as rainfall increases in West Africa, so do the number of hurricanes that form in the Atlantic. Rainfall in the Sahel has been near average the last two years.

The relatively high number of hurricanes to strike the United States in the late 1940s, 1950s and 1960s occurred during rainy years in the Sahel, he said.

Gray said two of the meteorological factors are favorable to increased hurricane activity this year, while none of the factors works against tropical storms.

Factors increasing the likelihood of hurricanes this year are near-normal West African rainfall and westerly equatorial stratospheric winds, he said. An El Nino event, which tends to suppress hurricanes, is not expected.

The scientist said an increase in storms tied to abundant West African rainfall also seems to produce hurricanes that strike Florida and the Atlantic Coast more frequently than Gulf Coast states.

''Florida is kind of a sitting duck in the West African shooting gallery '' Gray said. ''The big question is are we coming out of one of the drought periods.''

''Florida has had so few storms in the last 25 years. You can't attribute it all to the West African drought; you have to attribute it partly to luck.''

Gray said computer models indicated that increased rainfall in the Sahel region the last two years is a trend. If the trend continues, he said it could mean a vast increase in tropical storms striking the Southeast and some could be more destructive than Hugo.

BUDAPEST, HUNGARY (JUNE 5) UPI - Former communists criticized the government Tuesday over proposed constitutional amendments they claimed would stunt the growth of the new democracy in Hungary.

The Hungarian Socialist Party, successor to the Communist Party that ruled Hungary for more than 40 years, objected strongly to proposals that would prevent direct presidential elections and drop the two-thirds majority requirement for passage of certain types of legislation.

In a speech to Parliament, legislator and former communist state minister Imre Pozsgay said the proposed amendments were ''hasty and stilted.''

''We regard the issue of the two-thirds majority vote a risk to democracy '' he said. He said the current center-right coalition government would be able to ram its program through Parliament unchecked.

Zoltan Kiraly, a former communist and independent member of parliament, called for a referendum to decide whether the president of Hungary should be elected by the people or by Parliament.

''The present draft ... serves party policy, and we must make sure the former one-party dictatorship is not replaced by the dictates'' of the coalition government, Kiraly said.

The newly elected Parliament is considering 51 pages of proposed changes to the Hungarian Constitution, which was modeled after the Soviet Union's 1936 constitution and adopted in 1949.

The last major constitutional reform came last Oct. 18 when the communist-controlled Parliament declared Hungary a republic and renounced the party's guaranteed leading role in government.

The current government, led by the center-right Democratic Forum, came to power following multiparty elections in March and April, the country's first democratic balloting in more than 40 years.

CHICAGO (JUNE 5) UPI - Corn futures rallied to session highs late Tuesday on the Chicago Board of Trade, boosted by reports that corn planting remains behind normal for this time of year.

The rally in corn spilled over to the rest of the floor. Grain futures and new-crop soybeans were at or near session highs at the final bell. Nearby soybeans were fractionally lower on the possibility that some of the acreage intended for corn may be planted to soybeans.

The weekly crop reports from the Agriculture Department showed 88 percent of the corn and 48 percent of the soybeans had been planted at the end of last week. Both figures were below the five-year average.

Widespread buying was evident in corn, but there was a lack of selling interest throughout the session.

Trading in soybeans was rather choppy. Prices fell from their highs on profit-taking and on reports of higher production estimates for soybeans in Argentina and steady export activity from Brazil.

Wheat was moderately higher, mostly on spillover from corn.

At the close, corn was up 3 to 5 1/2, soybeans off 1/2 to up 1 1/2, wheat up 1 1/2 to down 1 and oats up 3 1/2 to 5 1/2.

KHARTOUM, SUDAN (JUNE 5) UPI - Sudan unexpectedly rejected a U.S. peace proposal aimed at ending seven years of civil war Tuesday, saying the plan was an attempt to internationalize conflict in the south of the country.

The rejection came without warning and followed two months of positive responses from Khartoum about the plan, conceived by U.S. Assistant Secretary of State for African Affairs Herman Cohen.

Col. Mohamed al Amin Khalifa, the member of Sudan's ruling 15-man military junta responsible for peace talks with the rebels, denounced the plan in a newspaper interview, calling it ''this strange proposal calling for withdrawal of the Sudanese government forces from its own territories.''

Rejecting the Cohen plan, Khalifa accused the United States of double standards because of its recent veto of a U.N. Security Council resolution on the formation of a commission to monitor Israeli treatment of Palestinians in the Israeli-occupied territories.

Khalifa, who described the plan as ''commendable'' on March 27, did not say specifically why he had changed his mind about it or whether the undisclosed plan had changed since then.

Successive Khartoum governments have fought a bloody civil war against rebels of the Sudanese People's Liberation Army in southern Sudan since 1983. Half a million people have died as a result of fighting and war-related famine since 1986 alone, according to Western relief agencies.

The rebel army made up of mainly Christian and animist black Africans opposes centralized rule by the north and has expressed particular antagonism towards the strong Islamic government, which seized power in a bloodless coup last June 30.

Two sets of peace talks in 1989 between the Sudanese People's Liberation Army and the government broke down without progress, and the rebel force has consistently accused Khartoum of insincerity in its professed desire

for peace.

Cohen put his ceasefire plan to the rebels as recently as May 18 in Nairobi, Kenya, and was understood to be preparing a draft ''joint declaration'' for the Khartoum government this month.

A copy of the draft declaration obtained in Kenya by United Press International, with amendments made by the rebel force, states variously that:

- ''The present conflict will be demilitarized with a disengagement of forces under the supervision of international monitors.''

- ''All government forces will be pulled back into defensive garrisons in the south.''

- ''There will be a call for an appropriate African observer force.''

At the time of Cohen's talks with rebel leader John Garang in Nairobi it was thought that Khalifa had objections to the idea of a U.N.-style observer force but would accept the African observer force referred to in the draft declaration.

Khalifa expressed hope, however, that the United States would continue its search for an acceptable peace formula.

PARIS (JUNE 5) UPI - Jennifer Capriati, displaying the poise and purpose of a woman twice her age, set yet another milestone Tuesday when she gained the semifinals of the French Open.

The 14-year-old phenom, a pro of only two months, crushed fellow Floridian Mary Joe Fernandez 6-2, 6-4, to set up a teen dream semifinal date with 16-year-old Monica Seles.

Not only is Capriati the youngest person to gain the semifinals of a Grand Slam championship, she could become the first player since Maureen ''Little Mo'' Connolly, at the 1951 U.S. Nationals, to win a Grand Slam in an initial attempt.

''I'm very happy to be in the semifinals of my first Grand Slam,'' said Capriati, whose provisional world ranking has improved to No. 13. ''This is my biggest accomplishment, and it's a great thing for me to do. I'm very happy and I'll keep going.''

Earlier, third seed Andre Agassi eliminated defending men's champion Michael Chang 6-2, 6-1, 4-6, 6-2, to earn a berth in the semifinals against unseeded Jonas Svensson. Chang, then 17, was the youngest man to win the French.

Steffi Graf, the top women's seed, enjoyed an easy 6-1, 6-3 victory over Conchita Martinez, and Seles, the second seed, fought back from a 4-1 deficit in the final set to overcome Manuela Maleeva 3-6, 6-1, 7-5, extending her winning streak to 30 matches.

A year ago, Seles made her Grand Slam debut in the French, and she too reached the semifinals, where she lost to Graf.

''Monica Seles is very tough,'' Capriati said, ''but I'm going in thinking I can win.''

Capriati, who has won 22 of 26 matches, took three games in a row to open the match, and after allowing Fernandez to close to within 3-2, she captured six straight games to go up 3-0 in the second set.

''I thought I played really well although I made a few errors,'' she said later.

Fernandez, seeded seventh, fought back to 4-4 before Capriati held at 30 and then broke her 18-year-old rival at 15 to end the match.

''She's a really happy child,'' Fernandez said. ''She likes it (the attention she receives), doesn't get uptight, and is always smiling. Her strategy is just to hit the ball as hard as she can.''

Agassi, who has failed to win a Grand Slam semifinal in three previous chances, expressed confidence in his ability to succeed this time.

''Two guys stand in my way, but as the tournament goes on the better I feel, so that gives me a lot of confidence,'' he said.

''This is the only time I have got to the semis and I felt like I want

more. In the past I have been satisfied about it. I am by no means satisfied with this performance. I am physically capable and I want more.''

Svensson, ranked 24th in the world, earned his berth opposite Agassi with a 3-6, 7-5, 6-3, 6-4 victory over Henri Leconte.

Graf's semifinal opponent will be No. 11 Jana Novotna, a 4-6, 6-2, 6-4 winner over No. 8 Katerina Maleeva.

LOS ANGELES (JUNE 5) UPI - A judge Tuesday rejected a defense motion to acquit Raymond Buckey, the sole defendant remaining in the McMartin Pre-School molestation case, of five of the eight charges on which he is being retried.

Defense attorneys Danny Davis and John J. Wagner argued that prosecutors, who abruptly ended their case Friday, failed to present sufficient evidence to prove the charges beyond a reasonable doubt.

But Superior Court Judge Stanley Weisberg disagreed, ruling that prosecutors had indeed presented enough evidence for the case to be presented to jurors.

Weisberg said that in order to have granted the defense motion, the evidence would have to be insufficient to sustain a conviction on appeal. That is not the case in Buckey's retrial, he ruled.

Davis had asked the judge to acquit Buckey, 32, of five charges stemming from the alleged molestation of two of three girls who attended the preschool.

Although Weisberg refused to do so, he did agree with another defense bid to amend the language in two of the counts to say that the third alleged victim was penetrated by a finger instead of a foreign object.

Davis sought the amendment so that it would not be suggested to jurors that Buckey penetrated the girl with his penis. Davis said the girl eliminated that possibility during her testimony.

All three girls testified that Buckey molested them, but when pressed by Davis for details, they frequently responded, ''I don't remember.''

Some of their testimony also contradicted their testimony at Buckey's first trial and at a preliminary hearing.

In seeking the partial acquittal, Davis argued that one of the girls alleged Buckey molested her in a different position than the one she testified to at his first trial.

If Buckey is being retried on new allegations, Davis argued, then the proceeding is not a retrial but a ''distinct trial proceeding'' that violates Buckey's constitutional rights to due process.

But the judge disagreed, saying, ''the minor describes the underlying physical acts, the touching of her body by the defendant.''

''Whether the child was standing or sitting, playing a game or not, is not an element of the charge,'' the judge said. ''The defense is overlooking the bottom line - that in each charge, the defendant is charged with touching in an unlawful manner.''

Davis was also unsuccessful in arguing that Buckey should be acquitted of two charges involving the second alleged victim because she denied the charges under cross-examination when she testified that Buckey never penetrated her.

Buckey, a former teacher at the now-defunct Virginia McMartin Pre-School in Manhattan Beach, is being retried on eight molestation charges for allegedly sexually abusing the three girls at the nursery from 1979 until 1983.

Buckey and his mother, Peggy McMartin Buckey, 63, were acquitted in January of 52 other molestation counts at the first trial in the case. Jurors deadlocked on the eight counts on which Buckey is being retried.

The first trial, which involved the alleged molestations of 11 children, lasted nearly three years and cost more than $13 million, making it the longest, costliest criminal trial in U.S. history.

The retrial, now in its second month, is expected to last about six months at the most.

When first filed in 1984, the case was the largest sex abuse case in U.S. history. However, scores of charges and five co-defendants were dismissed prior to the first trial for insufficient evidence.

NEW YORK (JUNE 5) UPI - Donald Trump's financial woes Tuesday sparked a renewed surge of interest in his private life, prompting seasoned observers of the real estate mogul to ask if his well-publicized marital dispute has affected his financial holdings.

The answer, a Trump spokesman said, was a definite ''no.''

But divorce lawyers who have handled high-powered cases said a messy separation like the one between Donald and Ivana Trump - which touched off a media frenzy when it first came to light in February - may distract a person from his professional affairs.

Moreover, the lawyers said, revelations aired during a marital dispute may undermine bankers' confidence in a businessman, particularly one who depends on a sterling reputation to obtain financing for his wheeling and dealing.

''Everyone has something to conceal,'' said divorce lawyer Raoul Felder, who has represented a number of celebrities in well-publicized divorce cases.

''An awful lot of stuff comes out in the daylight,'' Felder said. ''The (separation) drew attention to (Trump), and the banks had to respond appropriately. The banks are saying is he such a stable, reliable guy?''

Trump acknowledged Monday he has been meeting with major bank creditors but refused to discuss a report saying that he is facing a major cash crunch.

He did not deny that he may be forced to give up chunks of his business empire that includes three Atlantic City casinos, prime Manhattan real estate and the Trump Shuttle airline linking Boston, New York and Washington.

Bankers owed some $2 billion by Trump are reportedly pressing for the sale of some assets, for management changes at Trump's principal holding company and for a much more conservative operating style.

The construction manager of Trump's Taj Mahal Casino in Atlantic City said Trump is in arrears on more than $50 million in contractors' bills.

Dan Klores, a Trump spokesman, denied that the marital spat involving the Trumps and Marla Maples, the alleged ''other woman,'' influenced the

mogul's business dealings.

''It has not had any effect on his finances,'' Klores said, refusing to comment further.

Chuck Jones, a spokesman for Maples, said the 26-year-old model-actress had not affected Trump's financial situation.

''I don't believe she has had any role in the marital problems or in his current dilemma with the media over his business empire,'' Jones said.

A spokesman for Mrs. Trump could not be reached for comment.

The publicity blitz surrounding the separation may have forced Trump to divert his attention from his businesses, divorce lawyers said.

''Anybody who is getting a divorce gets distracted,'' said Eleanor Alter, the head of the matrimonial department at the New York law firm of Rosenman and Colin.

''Most people who are getting a divorce don't function at their best in other areas of life. You have to be pretty hard-hearted to not let it affect you,'' said Alter, who has taught family law at the University of Chicago law school.

The separation may have also damaged Trump's credibility with bankers, said Felder, who predicted that Trump might run into trouble with his finances in a March column for Newsweek magazine.

''I think that if it hadn't been for the separation, the music would have continued,'' Felder said. ''Nobody would have looked at him closely, the banks would have gone on with their commitments. But he suddenly had feet of clay. The magic was gone. The untouchable quality was gone.''

Trump's financial difficulties may help stock analyst Marvin Roffman, who questioned Trump's wisdom in opening the Taj Mahal and paid for it with his job.

Roffman was fired in March by the Philadelphia brokerage company Janney Montgomery Scott Inc. after he predicted trouble for the Taj Mahal in a Wall Street Journal article about the much-hyped casino's prospects.

But Trump's cash-flow crunch confirms Roffman's views and strengthens a lawsuit the veteran gaming industry analyst is pursuing against Trump, said James Schwartzman, Roffman's attorney.

#90156u1854 06/05/1990 ~United Press International

JERUSALEM (JUNE 5) UPI - Israeli soldiers shot and killed two boys in the West Bank Tuesday as Palestinians in the occupied territories observed a general strike protesting the anniversary of the war that led to Israeli occupation 23 years ago.

Throughout the occupied West Bank and Gaza Strip shops were shuttered as Palestinians marked the start of the Six Day War in 1967. The victory over Egyptian, Jordanian and Syrian armies put more than 28,000 square miles of territory and about 1 million Arab residents under Israeli control.

The two Palestinians killed Tuesday were the latest fatalities in the 30-month-old Palestinian uprising against the continued Israeli occupation of the West Bank and Gaza Strip.

In the West Bank, Ahmed Salama, 10, was killed when soldiers fired rubber bullets to disperse stone-throwers in the Askar refugee camp, the army spokesman said.

In the Casbah market area of Nablus, soldiers opened fire on a group of masked youths, killing Rami Quamhieh, 14, and wounding three others, Palestinian and military sources said.

Soldiers fired at the fleeing youths, some armed with axes, who had been preparing for a paramilitary march. Palestinian sources said the youths, who had a megaphone, were supporters of Hamas, an outlawed Islamic fundamentalist group.

All of Nablus and a nearby refugee camp were placed under curfew after the clashes, both of which were being investigated by the military commander of the Nablus region.

Since the start of the 30-month-old Arab uprising against Israeli rule, at least 677 Palestinians have been killed by Israeli civilians or soldiers.

Five other Arabs were wounded in clashes near the West Bank village of Jenin, Palestinian sources said, and Tulkarm refugee camp in the West Bank also remained under curfew Tuesday.

In Gaza City, a curfew remained in effect in the central business district for the seventh day. Residents in the area said they have been confined to their homes almost continuously since May 20, when seven Gaza Strip Arabs were killed by an Israeli civilian at the Israeli town of Rishon Le Zion near Tel Aviv.

The clandestine Unified Leadership of the Uprising called Tuesday's strike to protest the 23rd anniversary of the Six Day War, a date that passed largely unnoticed by Israelis.

On the morning of June 5, 1967, Israeli fighter planes attacked Egypt's Sinai Peninsula, igniting the war. Air and ground fighting broke out shortly afterward on the Syrian and Jordanian borders.

Within a week Israel had seized the Sinai and Gaza Strip from Egypt, the West Bank and all of Jerusalem, including the Old City, from Jordan, and the Golan Heights from Syria.

The Sinai was returned to Egypt in 1982 after the countries concluded a peace treaty, but Israel retained the densely populated Gaza Strip, where about 650,000 Palestinians live.

#90156u1856 06/05/1990 ~United Press International

(JUNE 5) UPI - The United Nations internatinal children's fund is urging all factions involved to leave children out of Lebanon's civil war, saying more than 40-thousand children have been killed in the past 15 years. UNICEF says an entire generation of Lebanese children has been raised in a climate of violence and aggression.

The Soviet Interior Ministry says rival ethnic groups are fighting for a second day in a dispute over land allocation in the central Asian republic of Kirghizia. At least 11 people were killed and hundreds wounded in the region along the China border. Authorities imposed a state of emergency and a nightly curfew.

Space agency engineers continued efforts today to determine the cause of a fuel leak that has indefinitely postponed the shuttle Columbia's blast-off from Cape Canaveral. They also have voiced concern over possible damage to one of the shuttle Discovery cargo bay doors when an overhead crane was mistakenly moved yesterday.

The Russian republic's new president is struggling to get his administration off the ground, finally gaining approval for his candidate as first deputy chairman of Parliament. The Congress of People's Deputies vote today came after the deputies had rejected Boris Yeltsin's candidates three times.

The Soviet Parliament gave its tentative approval today to a compromise 45 percent uniform business tax, despite arguments that the tax may fuel inflation by leaving business more money for wage hikes. Lawmakers in Moscow also are extending their session by at least one week to finish work on economic reforms.

#90156u1875 06/05/1990 ~United Press International

WASHINGTON (JUNE 5) UPI - The Senate refused Tuesday to cut off debate and force a final vote on a a tough anti-crime package, threatening passage of an expanded federal death penalty, swifter execution of death row inmates and a ban on military style assault weapons.

The Senate voted 54-37 to limit debate, six short of the 60 required to impose so-called cloture.

The vote left the Senate, which began considering the bill May 21, facing a determined stalling campaign by opponents of the ban on assault weapons and a staggering backlog of nearly 300 amendments.

The party breakdown showed that 44 Democrats and 10 Republicans vote to impose cloture and six Democrats and 31 Republicans voted no. There were nineabsentees, many of them in their homes states for primaries.

Senate Democratic leader George Mitchell did not immediately announce his next move but Sen. Joseph Biden, D-Del., chairman of the Senate Judiciary Committee, said before the vote, ''a vote against cloture is a vote against the bill.''

''This vote will determine the fate of the crime bill,'' Biden said. ''If cloture is invoked, we will get a crime bill. If cloture is not invoked, we will not get a a crime bill.''

Attempts to work out a compromise before the week-long Memorial Day recess collapsed, forcing Tuesday's attempt to cut debate to 30 hours and winnow out any amendments which do no deal with provisions in the bill.

In the week before the recess, the Senate reached a consensus, by vote and compromise, on three major prvisions of the bill:

-An expanded federal death penalty covering 30 crimes and provisions to meet the Supreme Court's 1972 objections which invalidated federal and state death sentences. The Senate voted to prohibit the execution of mentally retarded persons and set 17 the minimum age for the ultimate penalty.

-A limit on the number of appeals to federal court a death rown inmate can make and a fixed timetable for disposing of the petitions for a review. The sponsors said this part of the bill would assure that almost all those who are sentenced to death would be executed within a year of the time state Supreme Courts approved a conviction.

-A ban for three years on the importation of five foreign and the manufacture of four U.S. semi-automatic weapons, rapidly becoming the weapon of choice among criminals and drug dealers.

Still under consideration are sections of the bill putting into law a Supreme Court ruling allowing evidence to be introduced if it was obtained in ''good faith'' searches by police; requring the Treasury Department to report money laundering transactions; and creating an Orrganized Crime and Dangerous Drug division in the Justice Department.

Biden, a liberal, and Sen. Strom Thurmond, R-S.C., a conservative teamed to plead with the Senate to vote for the cloture motion.

Thurmond said the vote was ''critical'' for passage of anti-crime legislation and said changes made the measure a ''much tougher bill'' than the one first introduced by Biden.

Warning the Senate could lose its chance for an anti-crime bill, Thurmond said ''The American people demand action. A vote for cloture ... is a vote for law enforcement.''

''We're not here to say the bill has all the answers,'' Biden said. ''The question is not will this bill by itself make America safe. The question is will this bill make America safer.''

Biden said at a news conference hours before the vote that the Senate has the chance to approve a ''very significant anti-crime bill'' but acknowledged there were difficulties.

Asked to outline the obstacles, Biden replied, ''First, the NRA (National Rifle Association) and second, thos who feel very strongly about not voting for the death penalty. It is not an unusual coalition.''

The NRA mounted a major campaign against the ban on assault weapons and President Bush also voiced his opposition to the prohibition, although, he by executive order, banned the importation of foreign-made weapons.

NEW YORK (JUNE 5) UPI - Donald Trump's financial woes sparked a renewed surge of interest Tuesday in his private life, raising the question: Did his well-publicized marital dispute do him in?

The answer, a Trump spokesman said, is no.

''It has not had any effect on his finances,'' Trump spokesman Dan Klores said of the spat involving Trump, his wife, and Marla Maples, the alleged ''other woman.''

Klores declined to comment further.

But divorce lawyers who have handled high-powered cases said a messy separation like the one between Donald and Ivana Trump - which touched off a media frenzy when it first came to light in February - can distract a person from his professional affairs.

Moreover, the lawyers said, revelations aired during a marital dispute may undermine bankers' confidence in a businessman, particularly one who depends on a sterling reputation to obtain financing for his wheeling and dealing.

''An awful lot of stuff comes out in the daylight,'' said divorce lawyer Raoul Felder, who has represented a number of celebrities in well-publicized divorce cases.

''The (separation) drew attention to (Trump), and the banks had to respond appropriately. The banks are saying, 'Is he such a stable, reliable guy?''' Felder said.

''I think that if it hadn't been for the separation, the music would have continued,'' Felder said. ''Nobody would have looked at him closely. The banks would have gone on with their commitments. But he suddenly had feet of clay. The magic was gone. The untouchable quality was gone.''

Trump acknowledged Monday he has been meeting with major bank creditors, but refused to discuss a published report that he is facing a major cash crunch.

He did not deny that he may be forced to give up chunks of his business empire, which includes three Atlantic City casinos, prime Manhattan real estate and the Trump Shuttle airline linking Boston, New York and Washington.

Bankers owed some $2 billion by Trump are reportedly pressing for the sale of some assets, for management changes at Trump's principal holding company and for a much more conservative operating style.

The construction manager of Trump's Taj Mahal Casino in Atlantic City said Trump is in arrears on more than $50 million in contractors' bills.

Chuck Jones, a spokesman for Maples, said the 26-year-old model and actress had not affected Trump's financial situation.

''I don't believe she has had any role in the marital problems or in his current dilemma with the media over his business empire,'' Jones said.

A spokesman for Ivana Trump could not be reached for comment.

The publicity blitz surrounding the separation may have forced Donald Trump to divert his attention from his businesses, divorce lawyers said.

''Anybody who is getting a divorce gets distracted,'' said Eleanor Alter, the head of the matrimonial department at the New York law firm of Rosenman and Colin.

''Most people who are getting a divorce don't function at their best in other areas of life. You have to be pretty hard-hearted to not let it affect you,'' said Alter, who has taught family law at the University of Chicago.

Trump's financial difficulties may help stock analyst Marvin Roffman, who questioned Trump's wisdom in opening the Taj Mahal and paid for it with his job, Roffman's lawyer said.

Roffman was fired in March by the Philadelphia brokerage Janney Montgomery Scott Inc. after Trump objected to a Wall Street Journal story in which Roffman was quoted as predicting trouble for the Taj Mahal.

Trump's cash-flow crunch confirms Roffman's views and strengthens a lawsuit the veteran gaming industry analyst is pursuing against Trump, said James Schwartzman, Roffman's attorney.

#90156u1895 06/05/1990 ~United Press International

NEW YORK (JUNE 5) UPI - The stock market turned lower late Tuesday in heavy trading, depressed by profit taking after Monday's rally to all-time highs in the Dow industrials and other major market indexes.

The Dow Jones industrial average, which rose 34.22 Monday to a record high of 2935.19, was down 11.65 to 2923.54 at 3 p.m. EDT.

Declines pulled ahead of advances 777-737 among the 1,998 issues crossing the New York Stock Exchange tape. Volume at 3 p.m. amounted to about 170,250,000 shares, compared with 134,830,000 in the same period Monday.

Prices were lower in moderate trading on the American Stock Exchange.

Stocks opened mixed and turned higher shortly after the opening. Then, while most stocks remained higher in the wake of Monday's surge to an all-time high in the Dow industrials, the blue chip index began to lose some of its gains after about a half hour of trading and eased into the minus column.

Prices remained narrowly mixed through mid-afternoon, when further profit taking and weakness in Treasury bonds, also the result of profit taking after the recent surge, pushed stocks down.

By early afternoon Treasury notes and bonds were unchanged to 1/8 point lower. Bonds had been up about 1/2 point in early trading.

Falling oil prices, an indicator of lower inflation, bolstered Treasuries early Tuesday. The drop in oil prices was sparked by reports that Saudi Arabia has cut the price formula for some July deliveries of crude oil to destinations in Europe and the United States.

On the trading floor as of 3 p.m. EDT, Philip Morris was the most active issue, unchanged.

Citicorp followed, up slightly as financial issues continued to benefit

from the improved interest rate outlook. BankAmerica was also higher in active trading.

AMR was third, sharply higher. Philips Industries was fourth, surging after Tompkins PLC of Britain agreed to buy the company for $18.50 a share or $550 million.

Among the other blue chips, AT&T was down, IBM was up in active trading after reportedly cutting prices up to 10 percent on some Personal System-2 models, Woolworth was up but Coca-Cola lost ground.

Wang Labs Class B led the Amex issues, down sharply.

#90156u1904 06/05/1990 ~United Press International

NEW YORK (JUNE 5) UPI - Nielsen Media Research will expand its collecting and reporting of data to provide the advertising and television industries with a better picture of minority television audiences, it was announced Tuesday.

The news came after Nielsen, the leading provider of television audience measurement services, held a series of discussions with Tribute Entertainment and two ad agencies, Burrell and Uniworld, as well as other Nielsen customers in the black community.

Earlier this year, some members of the black community complained that Nielsen avoided areas that were predominantly black in its audience measurement. Nielsen denied this.

Starting in 1991, Nielsen will expand its monthly National Audience Demographic Report to include black households and about 20 black demographic categories.

Nielsen also will provide marketing information, such as what percentage of a local market is black or Hispanic in its local market reports.

Nielsen proposes a National Black ''Pocketpiece,'' similar to the one produced for the broadcast and cable networks and television syndicators.

The ''Pocketpiece'' is the weekly report of television performance used by buyers, sellers and programmers of television time. A National Black ''Pocketpiece,'' if it receives enough client support to justify its startup, would provide ratings, share, household and demographic information on television viewing among black people.

William G. Jacobi, executive vice president, Nielsen Media Research, said in announcing the plans:

''These improvements are part of an on-going process by Nielsen to provide advertisers, their agencies and television programmers with the most accurate, reliable information about viewership among Afro-Americans, Hispanics and other ethnic minorities.''

#90156u1912 06/05/1990 ~United Press International

WASHINGTON (JUNE 5) UPI - The House, voting to expand consumer rights for students, passed a bill Tuesday requiring colleges to reveal graduation rates for student athletes, the money involved in athletic programs and the extent of campus crime.

The Student Athlete Right-to-Know Act was passed on a voice vote and sent to the Senate.

The sports provision of the bill would require colleges and universities to make annual reports to the Department of Education stating the number of students who receive athletic scholarships and the graduation rates for those students. The information would have to be broken down by race and sex.

To put the figures in perspective, the schools also would have to report the total number of students attending and the graduation rates for all students, also broken down by race and sex.

The bill would require the information be provided to prospective students their parents or their coaches and guidance counselors when those students are offered athletic scholarships.

Rep. Thomas McMillen, D-Md., a former professional basketball player, said the bill would help protect students who dream of entering professional sports through college athletic programs, something he said is achieved by only a small number of students.

''The dream is in fact the impossible dream for most,'' McMillen said, explaining that college athletes need to know of their prospects for graduating and entering non-sporting careers.

Rep. Paul Henry, D-Mich., said the bill would let the public see how athletic programs fit into a college's financial picture. He said most of the top athletic programs are money-losers for their schools.

The ''crime awareness'' section of the bill would require schools to certify that they have established a campus security policy, and to tell students of the policies as well as provide them with statistics on crimes that occurred on campus during the previouss two years.

Supporters said the information provided under the bill would help students and their parents decide which schools to consider for application.

In view of the huge financial investment involved in a college education, ''parents and students are asking ever more questions'' before picking a college or university, said Rep. Pat Williams, D-Mont.

''This is a consumer rights bill for students,'' said Rep. William Goodling, R-Pa. The crime reporting requirements will give prospective students ''the information needed to protect themselves against becoming crime victims.''

#90156u1915 06/05/1990 ~United Press International

STRATFORD, CT (JUNE 5) UPI - Sikorsky Aircraft unveiled on Tuesday an unmanned air vehicle that resembles a miniature flying saucer - which could someday be used in the war on crime.

Sikorsky executives said the Cypher vehicle is being submitted for competition in the Defense Department's unmanned air vehicle program to meet U.S. military needs.

Although designed for specific military surveillance, communications and similar missions, the vehicle has great non-defense potential, said James P. Cycon, chief engineer and program manager for the project at Sikorsky, a major helicopter manufacturer.

Civilian uses could include the forestry and utility industries as well as law enforcement work, including efforts to counter illegal drugs and assisting in search-and-rescue missions.

The vehicle could be a boon to law enforcement agencies as a safe and simple way to crack down on border drug smuggling as well as aiding police surveillance in high-crime areas, said Cycon.

Just six feet in diameter, the Cypher is a rotary-wing system with a circular shroud that gives it the appearance of a flying saucer.

The Cypher will carry a payload of 130 pounds, have a 65-horsepower engine and be able to cruise at 80 knots with an endurance of four hours and a ceiling of 8,000 feet.

Cypher is designed to operate as a reconnaissance platform that can operate up to 18.6 statute miles from the forward line of troops on land. At sea, the vertical takeoff and landing vehicle requires only 52 square

feet for launch and recovery.

Control and sensor information is transmitted via datalink from control stations aboard ship or land or in the air.

Cycon said the initial proof-of-concept vehicle was first flown in July 1988 by Sikorsky, a subsidiary of United Technologies Corp.; however, information was not allowed to be released until just two months ago.

''The efficiency of the vehicle is demonstrated by the ducted airstream and the favorable attributes of a rotor system surrounded by a shroud that provides very high life and hover efficiency,'' said Cycon.

He said because of the shroud, the Cypher is safer than exposed rotor systems and minimizes the potential hazard to ground personnel.

Whether used in military or civilian service, the Cypher ''will provide a valuable service in hazardous conditions at no risk to human life,'' Cycon said.

#90156u1922 06/05/1990 ~United Press International

WASHINGTON (JUNE 5) UPI - Senate Agriculture Committee leaders tried Tuesday to untangle a bitter dispute over the new farm policy law, but influential Sen. Richard Lugar, R-Ind., warned he would try to defeat any high-priced farm bill.

''At a time when people may be asked to pay more in taxes, for a farm program to be asking for more money is not a common sense strategy,'' Lugar said in a lengthy criticism of a Democratic proposal that included higher crop subsidy rates.

''That is the decision Democrats have to make: whether they have an (election-year) issue or a bill,'' he said.

Also during a breakfast with reporters, Lugar, the Republican leader on the Agriculture Committee, offered modest criticism of the low-profile role taken by the administration in the farm bill debate. The administration has refused to suggest crop target price levels or how much the new five-year farm law should cost.

Meanwhile, the House Agriculture Committee announced a five-day postponement in what was intended to be its final meeting before sending its farm bill to the House floor. The delay was caused by disagreements over environmental safeguards. A subcommittee has voted to weaken the ''swampbuster'' program, created in 1985 to protect wetlands.

For three weeks, Lugar has stoutly refused to accept any farm bill proposals that would raise target prices, increase loan rates, require farmers to idle more land or use bookkeeping tricks to conceal the cost of the farm program.

Each of those objections was aimed at a part of a package proposed by the committee's 10-member Democratic majority. Democrats have argued the government should spend more on agriculture because the administration would let market prices fall to ruinous levels.

Their plan called for higher target prices and loan rates, slightly larger land setasides and marketing loans for wheat, feed grains and soybeans. The administration has estimated it would add up to $6.5 billion to the cost of the farm program over five years.

''If really the Democrats are serious and want to galvanize their 10 votes ... I do not plan to support that idea and I will work actively ... to defeat that bill,'' Lugar told reporters.

As part of that opposition, Lugar said, he is willing to propose lengthy floor debate on provisions such as federal support to wool, mohair and peanut producers.

Lugar is a member of a six-member task force that has met three times, including Tuesday, to try to resolve the dispute. The panel reportedly has agreed to extend the current sugar program, create a no-cost soybean marketing loan and give farmers freedom to change some of their mix of crops without losing eligibility for crop subsidies.

Senate Republican leader Robert Dole of Kansas also has expressed dissatisfaction with a lack of leadership from the administration on the farm bill.

''Absolutely incorrect,'' responded Kelly Shipp, press aide to Agriculture Secretary Clayton Yeutter. ''We have told the Hill we would be as specific as we should be at the appropriate time. ... It's just a hollow complaint.''

(JUNE 5) UPI - South Korean President Roh Tae-Woo will meet with President Bush at the White House tomorrow as a follow-up to talks Roh held with Soviet President Gorbachev in San Francisco yesterday. Indications are that Roh will stress the need for a continued American troop presence in his Asian nation.

Two rebel factions involved in the Cambodian civil war signed an accord in Tokyo today aimed at ending the 11-year-old conflict. But the absence of a Khmer Rouge delegate at the signing cast some doubt on whether hostilities will cease. That communist faction has spearheaded the war effort.

At least five people were reported killed in a new flare-up of violence in black townships in South Africa. The clashes came amid indications that the Pretoria government is considering lifting a nation-wide state of emergency imposed four years ago to crush anti-apartheid rioting.

A cargo door fell from a twin-engine plane as it took off from the Salem, Oregon, airport last night and narrowly missed a boy. Fifth-grader Brian Lingar says the door fell two feet from him when it landed in a bastketball court where he was waiting to shoot.

#90156u1934 06/05/1990 ~United Press International

NEW YORK (JUNE 5) UPI - A stock analyst who dared to question Donald Trump's wisdom in opening the opulent Taj Mahal casino and paid for it with his job may benefit from the very woes he predicted, his lawyer said Tuesday.

Trump is now negotiating with his bankers to restructure his assets and could be forced to give up big chunks of his real estate and casino empire to ease a critical cash shortage.

Among his biggest problems, analysts say, is Atlantic City's extravagant Taj Mahal, which opened April 1 to much fanfare but is failing to generate enough cash to allay lenders' fears about Trump's ability to meet his long-term obligations.

Analyst Marvin Roffman was fired in March by the Philadelphia brokerage firm Janney Montgomery Scott Inc. after Trump objected to a Wall Street Journal story in which Roffman was quoted as predicting trouble for the much-hyped casino.

Trump's cash-flow crunch confirms Roffman's position and strengthens a lawsuit the veteran gaming industry analyst is pursuing against Trump, said James Schwartzman, Roffman's attorney.

Trump's spokesman did not immediately return a phone call seeking comment.

What raised Trump's ire was this Roffman quote:

''When this property opens, (Trump) will have had so much free publicity he will break every record in the books in April, June and July. But once the cold winds blow from October to February, it won't make it. The market just isn't there.''

Trump, Roffman said, pressed for Roffman's firing after he refused to withdraw his comments.

''It looks to me like the cold winds have arrived a little earlier than October,'' said Lee Isgur, a securities analyst for PaineWebber Group Inc.

Schwartzman said he will seek compensatory and punitive damages for Roffman from Trump and Janney Montgomery Scott, where Roffman worked for 16 years before his dismissal.

While Trump's tenuous financial position is bad news for the banks, bondholders and employees that have helped him build an empire that includes three casinos, trophy New York real estate and the Trump Shuttle airline, it proves that ''Marvin's statements were accurate and will help our case,'' Schwartzman said.

''Everyone is disappointed about the situation because of the hardships it will cause many people,'' he said. ''I only hope that Mr. Trump will have money left when we get our judgment against him.''

Many securities analysts who follow the gaming industry have been reluctant to comment on the record since Roffman's firing.

But, privately, they say the Taj, which took in $34.4 million in its first month of operation, is hurting Trump by siphoning off business from his two other Atlantic City casinos, Trump Castle and Trump Plaza, in an already shrinking market.

In April, the most recent months in which figures are available, the Castle's revenues were off 11 percent to $18.5 million from a year earlier

while the Plaza's receipts shrunk 23 percent to $20.3 million.

Trump has laid off about 450 employees at the Taj and some analysts are expecting further job cuts.

The construction manager of the Taj has said Trump is in arrears on more than $50 million in contractors' bills.

News of Trump's financial woes - which also extend to his highly leveraged airline and a soft real estate market that has limited the resale value of many of his properties - sent the three Trump casino junk bond issues into a tailspin.

Trump has outstanding loans of some $2 billion, and bond investors are concerned that Trump's bankers would press the developer to skip bond payments due this month unless they can be assured of interest and principal payments due them.

While a hailstorm has swirled this week over Trump's financial condition, the man who has everything from buildings to board games named after him has been uncharacteristically quiet.

In a terse statement issued Monday by his public relations firm, Trump called his assets ''among the best in America.''

''They are unique, well-positioned and they have great long-term value,'' said the statement from the Trump Organization.

''We are confident we will arrive at a mutually beneficial solution.''

WASHINGTON (JUNE 5) UPI - Stephen Pistner, the 30-year veteran of the retail industry hired by Ames Department Stores to reorganize the bankrupt retailer, could receive as much as $4.5 million in bonuses if he succeeds, a filing with the Securities and Exchange Commission said Tuesday.

Pistner, who joined Ames in April, will receive a base salary of $1.5 million annually, the amended quarterly report filed May 29 with the SEC indicated.

His salary will be almost double that of Peter B. Hollis, the Ames president and chief executive officer whom Pistner replaced. Hollis received an annual salary of $889,053 in fiscal 1989, according to an Ames spokeswoman.

In addition to his base salary, Pistner will get a bonus of $3.5 million if Ames is successfully reoganized before Oct. 27, 1991.

If the Ames reorganization plan is accepted ''by all classes of claims and interests,'' Pistner is entitled to another payment of $1 million, which brings the full bonua to $4.5 million.

The size of the bonus, however, would decline if the reorganization takes longer.

Pistner will receive $3 million if the reorganization takes place after Oct. 27, 1991, and before April 27, 1992, and only $2 million if the reorganization takes place after April 27, 1992 but before July 27, 1993.

In addition, he also has been granted a nonqualified option to acquire 2 million shares of common stock of Ames for $1.375 a share in three equal annual installments commencing on the first anniversary of the approval of his employment contract by the federal bankruptcy court.

There also are fringe benefits and an allowance of $7,500 a month that

Pistner will receive to cover the costs of renting a residence in the Hartford, Conn., area.

Ames Department Stores, based in Rocky Hill, Conn., filed for protection in April under Chapter 11 of the U.S. Bankruptcy Code.

Pistner's reputation for revamping troubled retail chains was developed when he successfully reorganized the Dayton Hudson Corporation's Target chain of discount stores.

#90156u1952 06/05/1990 ~United Press International

HYDERABAD, INDIA (JUNE 5) UPI - A passenger train and a freight train collided in the southern Indian state of Andhra Pradesh, killing at least 13 people and injuring 85 others, officials said Tuesday.

They said a Bombay-bound passenger train collided at 10:45 p.m. Monday with a freight train between Shankerpalli and Gullagudu in the Secunderabad-Wadi section of the South-Central Railway, about 30 miles west of the state capital of Hyderabad.

At least 13 people were killed and 85 others injured in the crash, officials said.

Authorities attributed the accident to human error and said an investigation was being undertaken.

One of the passengers, Sunil Padture, told the Press Trust of India news agency most of the passengers in his car were tossed from their sleeping berths when the collision occurred.

He said he escaped from the car and helped free other passengers still trapped in the wreckage.

Some passengers complained that rescue workers did not arrive at the scene until several hours after the accident.

''No help came till (4:45 a.m. Tuesday) although one of the passengers rushed to Vikarabad (10 miles away) in a lorry to inform the station master there,'' said another of the passengers.

Later, rescue workers used welding machines to open smashed cars to search for survivors, Press Trust said.

The injured were taken to hospitals in Secunderabad, officials said.

#90156u1968 06/05/1990 ~United Press International

WASHINGTON (JUNE 5) UPI - A study of 3,500 Chinese and Chinese-Americans supports the suspicion that dietary fat and lack of exercise may boost the risk of colorectal cancer, researchers said Tuesday.

Colorectal cancer is the second leading cause of cancer death in the United States, killing more than 60,000 Americans annually.

''Because colorectal cancer is such a high-impact disease and because therapy has resulted in limited success, more attention needs to be directed toward identifying its (causes),'' said the University of Hawaii's Abraham Nomura in an editorial accompanying the study published in the Journal of the National Cancer Institute.

Nomura called the sweeping look at diet, physical activity and colorectal cancer rates among Chinese living in North America and China ''a timely and signficiant contribution towards this goal.''

Statistics show colorectal cancer is four to seven times greater among Chinese living in the United States than for Chinese living in the People's Republic of China - suggesting the typical American lifestyle may increase the chance of developing such cancer, researchers said.

To find out what elements of ''Western living'' may boost the risk of colorectal cancer, an international research team examined past life-style behaviors of about 1,700 residents of the People's Republic of China and about 1,800 Chinese immigrants living in the Los Angeles, San Francisco and Vancouver, Canada, areas. About 900 of the people studied had colorectal cancer, and the remaining subjects were healthy. The risk for colorectal cancer increased with the proportion of saturated fat in the diet for both sexes in China and North America, and the risk also rose along with the amount of time spent sitting.

Both associations were stronger in Chinese-Americans than in China residents, and among Chinese-Americans, the links appeared stronger in men than in women, said Stanford University's Alice Whittemore and her colleagues.

''Further, the association between colorectal cancer risk and saturated fat was stronger among the sedentary than among the active,'' the researchers said.

Inactive Chinese-Americans with high fat intake had four times the risk of colorectal cancer than those with low-fat diets. Active Chinese-American women had about the same cancer risk no matter how much fat they ate, while active men with high-fat diets had three times the cancer risk of those with low-fat diets.

In addition, the study found the longer an immigrant Chinese had lived in the United States and Canada, the greater his or her risk of developing colorectal cancer.

If the apparent risk factors turned up by the study do prove to cause cancer, researchers estimated saturated fat intakes greater than 10 grams per day, especially when combined with physical inactivity, could account for 60 percent of colorectal cancer cases among Chinese-American men and 40 percent among Chinese-American women.

In his editorial, Nomura cautioned that some past studies, including one that compared Polynesians to neighboring Caucasians and one comparing Mormons to non-Mormons, have failed to show a link between colon cancer and fat intake.

Unlike some past research, the latest study found no consistent or strong association between colorectal cancer and consumption of alcoholic beverages. The study also showed conflicting evidence for the protective effects of crude fiber, calcium and beta carotene on colorectal cancer risk.

In addition to Stanford, other study participants were from the University of Southern California School of Medicine, the Cancer Control Agency of British Columbia and China's Zhejiang Medical University.

PRAGUE, CZECHOSLOVAKIA (JUNE 5) UPI - Police closed part of the famed Charles Bridge, the symbol of Prague, Tuesday following another spate of bomb threats three days before Czechoslovakia's first free election in 44 years.

The closure of the bridge, normally filled with hundreds of tourists, was due to one of several telephoned bomb threats within the capital, including one to the office of Prime Minister Marian Calfa.

Police even turned back Deputy Prime Minister Valtr Komarek, who was taking an afternoon stroll on the bridge, witnesses said.

Tension has been high in the country since a bomb exploded Saturday in Old Town Square, wounding 19 people.

It was the first outbreak of violence since the November 17, 1989, attack by communist-controlled police on a crowd that touched off the ''Velvet Revolution,'' toppling the communists from power.

Czechoslovakia called parliamentary elections for Friday and Saturday, the first free elections since 1946. Projections were expected immediately after polls close at noon Saturday, with official results issued Sunday or Monday.

In Washington, a State Department spokesman said, ''Indications thus far are that the parliamentary elections will be fair and free. Healthy political debate has characterized the campaigning with participation from a broad political spectrum.''

Authorities had reported five anonymous bomb threats previous to Tuesday.

Interior Ministry police blocked access to part of the priceless 14th century Charles Bridge, a walkway that links the center of the city across the Vltava River, to check for possible explosives.

With the help of photographs and other evidence, police have conducted security checks on 1,218 people about Saturday's bomb attack, whose victims included a group of schoolchildren, the Czechoslovak news agency CTK said.

Interior Minister Richard Sacher Tuesday visited the only person still hospitalized as a result of the bombing, Barabara Stoll, 44, a tourist from Darmstadt, West Germany.

She underwent an eye operation during which a piece of shrapnel that penetrated close to her brain was removed, CTK said.

In another incident, a young man wielding a dagger tried to attack the chairman of the Czechoslovak People's Party, Josef Bartoncik, during a youth rally in South Moravia this weekend.

The People's Party newspaper Lidova Demokracia said the man tried to climb onto a stage where Bartoncik was speaking, but was wrestled away by security guards.

#90156u1994 06/05/1990 ~United Press International

ROME (JUNE 5) UPI - The early World Cup scoreboard reads: Italian police 4, English hooligans 0.

The Italian police scored a big victory Tuesday when it arrested Paul Scarrot, the self-styled king of the English hooligans, for entering the country with a false passport. The government deported Scarrot that night and placed him on flight to London accompanied by an Interpol agent and a member of Rome's mobile police.

The expulsion of Scarrot came one day after a Sardinian judge sentenced three young English fans to 20 days in jail for stealing bed sheets and trashing a hotel room in Cagliari.

The Italian government and police have been concentrating on containing soccer's notoriously rowdy fans during the monthlong World Cup, which opens Friday in Milan with defending champion Argentina playing Cameroon.

Scarrot, 34, with a long arrest record for soccer-related violence, was on a list of 100 Britons whose passports had been confiscated for the World Cup by Scotland Yard.

Scarrot was dressed in black shorts with a British flag draped over his back. Police also said he was visibily drunk, carrying a five-liter jug of wine that was three-quarters empty.

Scarrot, who has the name of Nottingham Forest, his favorite soccer club, tattooed on his lower lip, was pictured this week in a London tabloid posing in front of the Colosseum and predicting a violent street battle in Rome.

Scarrot told the newspaper: ''I'm the biggest hooligan in the world. We want a fight with the Dutch and plan to give them a good kicking in front of Rome's central railway station.''

''I have a feeling he made himself out to be bigger than he is,'' Umberto Improta, Rome's chief constable, said of Scarrot.

While the Italian police have their hands full with the hooligans, the rest of Italy is bracing for World Cup strikes. Railroad workers, trolley conductors, doctors and museum workers are all planning strikes leading to the World Cup.

About 50,000 train workers from various sectors have scheduled a series of one-day strikes until Friday. Mechanics and station masters are also planning another one-day strike June 13.

Museum workers in Milan and Florence took action Tuesday and their counterparts in other World Cup cities may follow. Milan's Pinacoteca di Brera musuem was closed Tuesday because of a strike and the Uffizi Gallery in Florence went on slowdown.

In other World Cup developments:

-A U.S. State Department official says the American team is the most heavily guarded of any in Italy. ''We and the Italian authorities decided almost a year ago that if there was going to be an incident, it most likely would involve the United States,'' David Haas said. ''We're the bad

guys to a lot of people.''

-Argentina, plagued with minor injuries and a flu bug, called off practice three days before it opens the tournament. Midfield great Diego Maradona is among no less than six players reported running high temperatures. Maradona also has a blistered toe.

-West German star defender Juergen Kohler has a pulled hamstring and ruled himself out of his team's Group D opener Sunday against Yugoslavia.

-Italian striker Gianluca Vialli is suffering from a leg injury and cannot train at full strength. He expects to play Saturday against Austria.

-FIFA, soccer's governing body, says players will be fined if they are suspended during the World Cup - $3,500 for two yellow cards in the opening round and $7,000 for a red card. The fines will double for the second round and double again for the third.

-Czechoslovakia, which this week holds its first free elections in 40 years, sent its team to Italy for final preparations. Czechoslovakia opens against the United States Sunday in Florence.

#90156u2011 06/05/1990 ~United Press International

WASHINGTON (JUNE 5) UPI - The United States has achieved only ''mixed'' success in cleaning up the environment since 1970, but the improvements came during two decades of strong economic growth, a White House report said Tuesday.

In its 20th annual report on the state of the environment, the White House Council on Environmental Quality said its review of pollution trends since 1970 showed the nation was learning how to maintain economic prosperity while preserving clean air, water and land.

In particular, it cited substantial decreases over the past two decades in air pollutants such as lead, sulfur dioxide and soot even though the nation's economy has grown by about 70 percent in real terms.

''Over the past two decades the presumed linkage between economic growth and environmental degradation has been broken,'' said Michael Deland, chairman of the council, in his introduction to the 494-page report. ''We now know that a growing economy and a clean environment can go hand-in-hand.''

Echoing President Bush's philosophy, Deland said the key to continued progress is giving industry strong economic incentives for preventing discharges of harmful pollution.

For example, he cited Bush's plan to reward utilities that sharply reduce acid rain emissions with pollution ''permits'' that they could sell at a profit to dirtier utilities.

Deland said such marketplace forces were the key to ''the continuing shift from the 'command and control' approach that regulates pollutants at the end of the pipe to a newer focus on preventing pollution in the first place.''

Environmentalists generally have endorsed pollution prevention as the best way to protect the environment, but say they have doubts whether Bush has the political will to strongly penalize companies that fail to take such

steps.

Past annual reports by the council have examined year-to-year environmental changes, but Deland told reporters a longer-term perspective was merited this year because it was the 20th anniversary of Earth Day.

He noted that Earth Day, the mass environmental ''teach-in'' of 1970, triggered the first major government efforts to reduce pollution, starting with the creation of the Environmental Protection Agency and congressional passage of the Clean Air Act. Over the next 20 years, Congress passed more than two dozen other major environmental protection laws.

''We felt it important that on the 20th anniversary of Earth Day we take a look back and see what has happened,'' Deland said.

In its report, the council said the nation's environmental progress was hard to measure, but still clearly limited in scope.

''The nation's environmental success at fulfilling the promise of 1970, as measured by environmental trends data, has been mixed,'' it said.

''After two decades of unprecedented environmental activism, some facets of the environment show remarkable improvement, while the quality of others has deteriorated sharply.''

The council said there have been significant reductions in some air pollutants since 1970, most notably a 96 percent decrease in total annual lead emissions because of the phaseout of leaded gasoline.

At the same time, however, it noted more than 100 U.S. cities still exceeded federal health standards for ozone smog in 1989.

Similarly, the report said water quality in the Great Lakes has improved markedly since 1970, with lower levels of toxic contamination in fish and birds.

But it said ocean coastal pollution is worse, as evidenced by the increased area of U.S. shellfish beds declared off-limits to harvesting because of sewage or other discharges.

#90156u2024 06/05/1990 ~United Press International

MOSCOW (JUNE 5) UPI - Russian President Boris Yeltsin gained approval Tuesday for his candidate as first deputy chairman of Parliament, shoring up his political position hours before Mikhail Gorbachev's return from the United States.

After rejecting Yeltsin's candidates three times, the Russian Congress of People's Deputies finally voted 604-378 Tuesday to approve economist Ruslan Khasbulatov as Yeltsin's chief deputy.

Lawmakers said the victory bolstered Yeltsin's position before the return of Gorbachev, who tried to block the election of his main critic before leaving for the U.S. summit last week.

''Boris Nikolaevich (Yeltsin) won a big victory today when his chief deputy was elected,'' said Oleg Rumyantsev, a leader of the Democratic

Russia bloc which supports Yeltsin. ''Mikhail Sergeevich (Gorbachev) will not find Yeltsin crucified when he arrives.''

Khasbulatov's election came after a compromise in which Yeltsin postponed voting on the controversial candidacy of legal scholar Sergei Shakhrai.

Many deputies had criticized Yeltsin's strong-arm effort to push Shakhrai's candidacy through despite repeat rejections, saying it violated the conciliatory image the populist leader used to sway moderates during his presidential bid.

Yeltsin, who won leadership of the Parliament and Russia's effective presidency last week by only four votes over a required majority, has now filled three posts in the four-member Cabinet.

Soviet President Gorbachev, who returned Tuesday evening from his summit meeting with President Bush, warned last week from Canada that ''if (Yeltsin) is playing political games, we may be in for difficult times.''

Yeltsin has called for increased Russian autonomy and a looser federation with the Soviet Union's other republics as part of a program that would render Gorbachev's central government virtually irrelevant.

He has also declared his intention to challenge the government's economic plan, which set off a wave of panic buying when price rise provisions were announced two weeks ago.

Khasbulatov, an economics professor, Monday criticized the government plan as a simple price hike that brings the country no closer to a market economy.

The 48-year-old Khasbulatov is a Chechen, part of a small Asiatic ethnic group from the northern Caucasus near Georgia, and is expected to defend the interests of Russia's many minorities.

As a child, Khasbulatov was exiled to Central Asia after World War II when Stalin accused the Chechens of collaborating with invading Nazi armies.

In Yeltsin's absence, Khasbulatov will serve as chairman of the Congress and the smaller standing Parliament to be selected from its ranks this week.

#90156u2065 06/05/1990 ~United Press International

NEW YORK (JUNE 5) UPI - Prices were lower at the close of the New York Stock Exchange Tuesday in heavy trading, pressured by profit taking after Monday's broad-based rally to record highs.

The Dow Jones industrial average, which jumped 34.22 to a record high of 2935.19, lost 10.19 to 2925.00, according to an unofficial tally.

Declines led advances 802-754 among the 2,029 issues crossing the NYSE tape at 4 p.m. EDT. Volume amounted to about 202,000,000 shares, compared with 175,520,000 traded Monday.

Prices were lower in moderately active trading of American Stock Exchange issues.

Stocks opened mixed and turned higher shortly after the opening. Then, while most stocks remained higher in the wake of Monday's surge to an all-time high in the Dow industrials, the blue chip index began to lose some of its gains after about a half hour of trading and eased into the minus column.

Prices remained narrowly mixed through mid-afternoon, when further profit taking and weakness in Treasury bonds, also the result of profit taking after the recent surge, pushed stocks down.

By early afternoon Treasury notes and bonds were unchanged to 1/8 point lower. Bonds had been up about 1/2 point in early trading.

Falling oil prices, an indicator of lower inflation, bolstered Treasuries early Tuesday. The drop in oil prices was sparked by reports that Saudi Arabia has cut the price formula for some July deliveries of crude oil to destinations in Europe and the United States.

On the trading floor as of 3 p.m. EDT, Philip Morris was the most active issue, unchanged.

Citicorp followed, up slightly as financial issues continued to benefit from the improved interest rate outlook. BankAmerica was also higher in active trading.

AMR was third, sharply higher. Philips Industries was fourth, surging after Tompkins PLC of Britain agreed to buy the company for $18.50 a share or $550 million.

Among the other blue chips, AT&T was down, IBM was up in active trading after reportedly cutting prices up to 10 percent on some Personal System-2 models, Woolworth was up but Coca-Cola lost ground.

Wang Labs Class B led the Amex issues, down sharply.

(JUNE 5) UPI - Lithuania may hold up approval of a U-S Soviet trade agreement... two space shuttles have problems... Canadian unity is threatened... and ethnic fighting continues in a Soviet republic. Those stories and more, next from U-P-I.

Democratic and Republican leaders appear to be supporting President Bush's decision to NOT link a trade pact to Soviet concessions on Lithuania.

Congressional leaders who met with Bush at the White House today basically are expressing support for Bush's summit with Mikhail Gorbachev.

But lawmakers also are indicating they may hold up in approving the trade agreement until they get some sign of improvement from Lithuania.

Senate G-O-P leader Robert Dole says Congress will be looking for ''some signal'' from Lithuania's leaders that negotiations with Moscow are under way.

After signing the agreement on Friday, Bush said it would NOT be submitted for congressional approval until the Soviets enacted more liberal immigration laws. But Bush denied any formal link between the move and Lithuanian independence.

The White House and Congress are both welcoming reports that the Kremlin will delay action on the immigration laws... saying it leaves time to resolve that issue and Lithuanian independence.

Canada's political leaders are embroiled in a third day of negotiations in Ottawa, desperately trying to resolve a threat to the nation's unity.

Prime Minister Brian Mulroney isn't mincing words about the importance of his talks with the leaders of Canada's 10 provinces. He told reporters before entering today's meeting that Canada's future is at stake.

The negotiations involve a constitutional amendment that would grant Quebec special powers to promote its French language and culture.

Newfoundland Premier Clyde Wells, an opponent of the amendment, says the proposals being discussed could affect Canadians for centuries.

The negotiations involve a heated and emotional issue, bringing to the surface the hostilities between the French-speaking province and the rest of Canada.

But as far as Quebec is concerned, there is NO room for negotiations. The province has said it will secede if the measure is changed in any way.

Canada's 10 provincial premiers must O-K the measure by June 23rd or it becomes void.

WASHINGTON (JUNE 5) UPI - Exporters sold 150,000 metric tons of hard red winter wheat for delivery to Jordan at subsidized prices, the Agriculture Department said Tuesday.

The grain was worth about $18.3 million based on Chicago prices. There are 36.7 bushels in a metric ton of 2,204.6 pounds, so the sale called for delivery of 5.5 million bushels between July 1 and Sept. 30.

The wheat was sold through the Export Enhancement Program, which gives bonus amounts of government-owned commodities to exporters who lower their prices to make a sale to a targeted country. The subsidy on the sale to Jordan was worth $6.97 a ton, or 19 cents a bushel.

In addition, the department reported the sale of 14,000 tons of malt barley, the equivalent of 642,600 bushels, under the export program to the Philippines.

WASHINGTON (JUNE 5) UPI - The House Tuesday authorized creation of a $100 million fund to compensate cancer victims exposed to fallout from above-ground nuclear weapons tests and miners who dug the uranium ore that went into the bombs.

The legislation, authored by Rep. Wayne Owens, D-Utah, was approved on a voice vote and now goes to the Senate, where the Labor and Human Resources committee has endorsed a similar measure. No money could be paid until a companion appropriations bill is approved.

The administration opposes the bill.

''Downwinders'' as those who lived in the path of the fallout call themselves, could get individual payments of up to $50,000, and miners could get as much as $100,000 each. Survivors of the victims also would be eligible for compensation.

''Today the House of Representatives restores our national honor by holding the American government responsible for Cold War abuses which stained our collective consciences by causing death and injuries to its own people,'' said Owens.

''I remember as a child watching the sky light up with various colors from the nuclear explosions at the Nevada test site just a hundred crow-flying miles away. It was like going out to view fireworks on the Fourth of July. The only difference was that instead of celebrating our independence years later we were mourning the death of our friends from the epidemic of leukemia and other cancers in southern Utah,'' said Owens.

Congress already has taken steps to compensate members of the armed forces who were exposed to radiation from the atmospheric tests.

The bill is aimed at an estimated 600 to 800 people from Nevada, Utah and the northwestern corner of Arizona who developed cancer as a result of radioactive fallout from 223 above-ground nuclear explosions conducted at the Nevada Test Site in the 1950s and early 1960s.

Also covered are an estimated 250 to 450 miners who contracted cancer from radiation from working in the underground uranium mines of Utah, Arizona, Colorado and New Mexico to extract ore for federal nuclear weapons from 1947 until 1971. Many of the uranium miners of that era were Navajo Indians. Floor debate indicated that miners from Wyoming may eventually be included in the program.

''Downwinders'' have claimed that the government negligently failed to warn them of any dangers from exposure to radiation. While the government initially was found to be negligent in a suit brought by about 1,200 ''downwinders'' and their survivors, a subsequent appeals court ruling found that the government could not be held liable. In cases involving miners, courts reached a similar conclusion but suggested they seek relief from Congress.

The legislation sets up the Radiation Exposure Trust Fund and authorizes

$100 million for the account. The fund is to terminate when all authorized money is spent, or 10 years after enactment of the bill.

WASHINGTON (JUNE 5) UPI - President Bush and outgoing Colombian President Virgilio Barco had a farewell meeting at the White House Tuesday where they reviewed their mixed success in the war against South American cocaine cartels.

Barco, who escalated the battle last year with the backing of the United States, also again urged Bush to help Colombia bolster its trade so that it will be in a better financial position to carry on the costly struggle.

''We talked about the cooperation that Colombia needs,'' Barco, who leaves office Aug. 7, said following an Oval Office meeting with the president.

A chief goal of Barco is to obtain a new international coffee agreement, as well as more favorable trade conditions. Last year's collapse of world coffee prices has already cost the Colombian economy more than $500 million.

Barco said his successor, President-elect Cesar Gaviria Trujillo, ''will continue the fight,'' and expressed confidence that the new leader would ''receive the backing of the U.S.A.''

By law, Barco could run for a second consecutive four-year term. Gaviria, a one-time economist and a product of Colombia's coffee-rich area, was elected president May 27.

Gaviria has proposed no concessions in his nation's war with drug traffickers, which took the lives of three other presidential candidates. Like Barco, he supports the extradition to the United States of drug suspects.

Bush and Barco examined the state of the drug war in Colombia. On the law enforcement side, law enforcement authorites in May confiscated record amounts of cocaine and chemicals used to manufacture the drug.

But violence raged on with numerous drug-related assassinations. And dozens of ranches and estates seized last fall from traffickers have been returned due to Colombian judges finding no legal reason to hold them.

U.S. financial aid to Colombia, $89 million in 1990, is expected to increase next year. But efforts by the administration to assist Colombia's trade have stumbled.

Rep. Charles Rangel, D-N.Y., chairman of the House Select Committee on Narcotics Abuse and Control, said in a statement issued Tuesday: ''If we want to see this battle continue and ultimately won, we will have to give more than moral support for courage.''

Rangel said, ''We will have to address the specific requests of the elected Colombian leaders,'' which include a ban on the export of American-made semiautomatics guns to South America, as well as the improved trade.

Virtually all of the world's cocaine is grown and produced in South America, and the United States is the biggest consumer. Barco has said that a key to winning the battle is reducing U.S. consumption.

The Colombian president's final visit to Washington coincided with the second day of jury selection in the federal trial of the city's mayor, Marion Barry, on cocaine and perjury charges.

#90156u2145 06/05/1990 ~United Press International

(JUNE 5) UPI - Violence flared again today in the Soviet Union's central Asian republic of Kirghizia.

Interior Ministry officials say that at least 11 people were killed and hundreds of others were wounded in clashes between rival ethnic groups. The trouble erupted as a follow-up to initial battling last night.

After that outbreak, authorities imposed a nightly curfew in the region, about two-thousand miles southeast of Moscow. The republic's interior minister was named military commander and is attempting to restore order.

A ministry spokesman says- ''The situation continues to be extremely tense.'' Some of those engaged in the fighting are said to be armed with hunting rifles... and there are unofficial reports of bands of men on horseback staging attacks.

The nation could have two more political firsts as a result of ballots being cast in primaries in nine states today.

In California, Democrat Dianne Feinstein is battling to be the state's first woman gubernatorial nominee.

In North Carolina, Democrat Harvey Gantt is hoping to win a chance to become the state's first black senator.

Incumbent senators and governors generally are looking at an easy day,

facing little serious opposition in any of the states where they are challenged.

The more interesting races are ones that do NOT involve any re-election bids... with California and North Carolina leading the pack.

In North Carolina, former Charlotte mayor Harvey Gantt faces attorney Michael Easley for the right to face Republican Senator Jesse Helms in November.

But the race getting the most attention is in California. Former San Francisco mayor Dianne Feinstein is hoping to hold on to a lead against state Attorney General John Van de Kamp. Both are trying for the chance to succeed Republican Governor George Deukmejian , who is NOT running for a third term.

#90156u2154 06/05/1990 ~United Press International

WASHINGTON (JUNE 5) UPI - Marilyn Quayle complained Tuesday that the 1988 campaign that often focused on her husband's qualifications to be vice president was an ''ugly chapter in journalism and an ugly chapter in my life.''

''1988 was a baptism of fire for the the Quayles,'' she told a National Press Club luncheon. ''Before it was over, I felt at least a little singed. It hurt reading stories or seeing reports about a man bearing almost no resemblance to the one I love deeply.

''At times,'' she said in prepared remarks, ''I felt misunderstood, misrepresented, very angry and terribly vulnerable.''

But the wife of Vice President Dan Quayle told reporters she did not want to dwell on the past. She said she chose to make the Press Club speech in response to the many questions on the subject she gets while making appearances across the country.

Defending her sometimes chilly relationship with the media, Mrs. Quayle said: Chalk it up to inexperience and protectiveness.

''I was worried about my children - a natural enough reaction for any mother, let alone one plunged overnight into the national spotlight,'' she explained. ''So I put on my armor to do battle for my family, and in the process I froze some of you (reporters) out. I regret that.''

In a question-and-answer session after her speech, Mrs. Quayle said her toughest times were after her husband, a conservative senator from Indiana was selected by George Bush to be his running mate. The surprise choice was met with ridicule and derision in some quarters.

''I don't want to dwell on what I think was an ugly chapter in journalism or an ugly chapter in my life,'' she said. But she added ''I always pick

bones with people who pick the personal track.''

Since her ordeal she said that she and her husband had ''learned a lot'' and appealed to the media: ''Let's meet halfway. I only ask for fairness and accuracy. In my book, that's not much. There's an old saying that when you're through changing - you're through.''

She said one of her heroines is Eleanor Roosevelt. ''Not for her politics, to be sure, but for her independent spirit and willingness to blaze new trails.''

She said Mrs. Roosevelt had an unhappy childhood and ''identified with society's outcast.'' Along the way, she said Mrs. Roosevelt had to overcome her formidable mother-in-law, and she bore six children in 10 years.

On other subjects, Mrs. Quayle said:

-''There is no excuse in this day and age for people to have unwanted children.''

''We really have to reassess our values. ... You are responsible for your actions. If we went back to basic values, we wouldn't have problems.''

-As for her husband running again in 1992, she said that it's up to the president and ''he has made his announcement.'' Bush announced a year ago that Quayle would be on the GOP ticket next time around.

-She personally opposes the Equal Rights Amendment because ''I think it's a redundancy in our Constitution.''

-Someday there will be a woman president and she will be a Republican.

-30- 3287

#90156u2181 06/05/1990 ~United Press International

(JUNE 5) UPI - There is NO word yet on whether the inventor of a so-called ''suicide machine'' will face charges in the death of a woman who used it to take her own life.

Oakland, Michigan, County Prosecutor Richard Thompson declined comment, saying the case is still under investigation. However, Thompson has scheduled a news conference this afternoon to discuss the case.

Dr. Jack Kevorkian says he is prepared for any charges that might be brought against him... but adds he does NOT feel he has broken any laws.

The retired pathologist hooked Janet Adkins to the device yesterday

afternoon in his van at a park about 50 miles northwest of Detroit.

The 54-year-old Portland, Oregon, woman died five or six minutes after pressing a button that released potassium chloride into her veins.

Kevorkian immediately called Michigan State Police and the Oakland County Prosecutor's office. Officers arrived and confiscated both his van and machine.

Kevorkian describes Adkins as a ''remarkable woman'' who did NOT want to live with the ravages of Alzheimer's disease.

Kevorkian says Adkins heard about his suicide machine through news reports... and was- in his words- ''very desirous of the option.'' The retired physician says the woman's last words to him were- ''you just make my case known.''

#90156u2198 06/05/1990 ~United Press International

(JUNE 5) UPI - The Senate refused today to cut off debate and force a final vote on a tough anti-crime package. The vote threatens passage of an expanded federal death penalty, swifter execution of death row inmates and a ban on military style assault weapons.

The Senate voted 54-37 to limit debate. The number was six short of the 60 required to impose the so-called ''cloture.''

The vote left the Senate facing a determined stalling campaign by opponents of the ban on assault weapons and a staggering backlog of nearly 300 amendments. The package has been under consideration since May 21st.

Senate Democratic leader George Mitchell did NOT immediately announce his next move. However, Delaware Democratic Senator Joseph Biden, the chairman of the Senate Judiciary Committee, said before the vote that ''a vote against cloture is a vote against the bill.''

A hurricane forecaster is alerting residents of the southeasteren United States to brace themeslves for stormy weather ahead.

William Grey is predicting an active tropical storm season this year. He says the activity may be coupled with a renewed cycle of stronger hurricanes.

Grey... a professor of atmospheric science at Colorado State University... has issued hurricane predictions since 1984. He has been very close to correct in his forecasts over the years but was off the mark last year.

He predicted four hurricanes in 1989, three short of the actual number. He also failed to predict anything like the magnitude of Hurricane Hugo, the most destructive hurricane in the nation's history.

This year, he is predicting seven hurricanes, 11 storms of at least tropical-storm intensity and 30 hurricane days.

Grey says he will issue a revised forecast for this year on August 3rd, before the start of the most active part of the hurricane season.

#90156u2209 06/05/1990 ~United Press International

(JUNE 5) UPI - NASA engineers are engaged in a last-ditch effort to trace the source of a leak in the shuttle Columbia.

Their efforts will involve pumping rocket fuel into the spacecraft tomorrow.

Another potential problem is possible damage caused to one of the shuttle Discovery's two bay doors.

The problem occurred yesterday when an overhead crane at Cape Canaveral was accidentally moved. Officals are hoping that that NO major damage was caused by the mishap.

The Discovery accident was the latest in a series of problems that has thrown NASA's around-the-clock launch processing schedule into disarray.

Discovery is scheduled for launch on October 5th. Columbia was set for

blast-off in late May, but the mysterious leak has postponed that flight for a still-undetermined period.

The song says ''There's NO business like show business.''

That may be subject to debate. But there's NO disputing figures released today by the League of American Theaters and Producers in New York.

The group's report says Broadway's yearly audience has reached a plateau of about eight-Million people. It says gross ticket sales for the 1989-90 season were up eight percent over the previous theater year.

Some of that upward rise is attributed to an increase in box office prices to a 60-dollar maximum. Gross ticket sales for the season that ended on Sunday set a record for the third straight year.

Ticket sales for the 12-month period soared to an all-time high of 283-Million dollars. That compares with sales for the 1988-89 year of 262-Million dollars.

Box-office receipts for Broadway shows touring the United States and Canada also set a record of 367-Million dollars. That's a 43 percent increase from 256-Million dollars last season.

#90156u2244 06/05/1990 ~United Press International
TIRRENIA, ITALY (JUNE 5) UPI - Chris Henderson wants to be more than just a footnote at this year's World Cup.

Henderson is the youngest player in the tournament, which features 24 teams and 528 players. He is one of several 19-year-olds, but his December birthdate makes him the youngest.

''It is kind of exciting,'' said Henderson, a midfielder from Everett, Wash. ''I'm in the World Cup, something I've always dreamed of doing, and now I'm getting all this attention because I'm the youngest player in the tournament.

''But I don't feel like the youngest player. I'm playing with a lot of confidence right now and I'm not afraid of taking anyone on. Being the youngest in age doesn't have anything to do with what I do on the field. Just look at Pele.''

Pele, the Brazilian great, holds the record for being the youngest player on a World Cup champion - age 17 in 1958.

The chances of Henderson becoming a World Cup champion are virtually non-existent since the United States, making its first tournament appearance since 1950, is likely to exit after the first round.

The Americans play Czechoslovakia in their opening game Sunday an are also paired with Italy and Austria.

Henderson is indicative of the U.S. team - young and dedicated but lacking international experience.

''Soccer is just not the sport in the U.S. that it is everywhere else in the world,'' Henderson said. ''Things are changing. You see a lot of young kids playing the game and our qualifying should boost the interest. Then since we're hosting the '94 World Cup, the interest should stay up ... hopefully.''

U.S. Coach Bob Gansler agreed.

''There are very few folks here who know what is really going on in U.S. soccer,'' Gansler said. ''There are 15 million kids playing the game. How well is the question, but there is an awareness. People are thinking about the game. Those kids, their parents who take them to practice and watch

them play. Our qualifying for the tournament has drawn a lot of interest in the media. We need to keep it going.''

Gansler pointed to Henderson as one of the young Americans with the potential to develop into a solid international player.

Henderson joined the national program in 1988 and made the Under-20 national team. Last year, the team, coached by Gansler, reached the semifinals of the Under-20 World Championships in Saudi Arabia, losing to Nigeria. The Americans had defeated East Germany and Iraq and the success in the tournament was considered monumental for the U.S. program.

Henderson, instrumental in the U.S. success, played at UCLA last year and scored four goals as a freshman.

The American team qualified for the World Cup in November and Gansler invited Henderson to camp when the team returned to training in January.

''It was a matter of whether he was ready to play physically,'' Gansler said. ''He played well on either flank and his defense was as good as his offense. I felt he was ready to stay with the team. He hasn't gotten too many minutes, but he is gaining experience by being with us.

''He may be just 19, but he plays much older and he has the enthusiasm of someone younger.''

Henderson, whose father Dick played semi-professional baseball in Tacoma, Wash., took up soccer by following his older brother, Pat, who now plays for San Diego of the Western Soccer League.

''I was always practicing with my brother and his teams,'' Henderson said. ''It really helped because when I went back, I was way ahead of guys my age.''

He eventually was his state's Player of the Year and later played for Seattle of the WSL where he was named an All-Star and the league's top newcomer.

He does not have outstanding size (5-foot-8, 140 pounds), but is quick, has excellent speed and good ball movement.

''I want to play this game for a long time,'' said Henderson, who has made three appearances with the team this year. ''I'm fortunate I've been able to develop my skills. Opponents always test me early and I try to be aggressive. I don't want them to look at me as a young kids and think they can take advantge of me. I want respect from them and I go after them.''

#90156u2274 06/05/1990 ~United Press International

JERUSALEM (JUNE 5) UPI - A Palestinian guerrilla who was part of an unsuccessful sea attack on Israeli beaches last week said in a television interview Tuesday he was trained in Libya and ordered to indiscriminately kill civilians.

''The aim of the operation was to murder civilians,'' said the guerrilla, who identified himself as Ahmed Mohammed Yusuf, 28, a Syrian-born Palestinian refugee who is a member of the Palestine Liberation Front.

''As for the Tel Aviv hotel district, we were supposed to bombard it with 23mm and 14.5mm shells, murder civilians, cleanse the hotel and murder anyone we encountered,'' Yusuf told Israel Television.

On May 30, Israeli forces thwarted the attack by two speedboats at two Tel Aviv area beaches, killing four guerrillas and capturing 12 with no loss of Israeli life.

The attack was apparently planned by Mohammed Abbas, better known as Abul Abbas, the reported mastermind of the Achille Lauro cruise ship hijacking in 1986 and head of the Front, an offshoot of the Palestine Liberation Organization.

The incident has threatened to disrupt the 18-month-old dialogue between the United States and the PLO, with Israeli officials claiming the foiled assault proved the PLO had not renounced terrorism and had violated the terms of the dialogue.

Yusuf, sporting a mustache and appearing fit in a military-style shirt, spoke calmly to a reporter during the 10-minute interview on Israel Television's Arabic service.

''They asked me to enter the Sheraton Hotel, to kill everyone inside,'' he said. ''They gave us maps and picture of the beach. The targets of the operation were civilian and not military.

''We were asked not to have mercy on anyone and to kill any person we encountered.''

Yusuf said Libyans supervised the training of the guerrillas at a site in Libya, where they learned how to swim and navigate small boats. A Libyan lieutenant colonel, known only as Ali, taught them nautical navigation and naval tactics, he said.

Libyans supervised the operation, but did not participate, he said.

''There was joint military coordination between us and the Libyans,'' he

said, according to an English transcript of the interview provided by the Government Press Office.

He said Libyan security personnel accompanied the guerrillas from their training area to the beach where they boarded a frigate. The ship carried six speedboats to the Israeli coast but four of the boats developed mechanical problems or ran out of fuel after they were launched near the shore.

Before boarding the frigate, the guerrillas met with Abbas, leader of the Baghdad-based Front, Yusuf said. The captive guerrilla said that aboard the ship was Lt. Col. Zuheir from the Libyan navy and Abu Al Az, the Front's deputy commander.

The United States has asked the PLO to condemn Abbas and expel him from the organization, where he sits on the executive committee.

In a report conflicting with Yusuf's remarks, the English service of Israel Radio said that the army believes the guerrillas intended to attack the U.S. Embassy in Tel Aviv, which is a few hundred yards from the beach. The report also said the guerrilla's were aiming for Israeli military targets, but not civilians.

Israel Radio said the army came to that conclusion in part because the guerrillas did not fire at civilians on the beach when they were in range.

In an interview last week with a Kuwaiti newspaper, Abbas said the target of the operation was military and primarily centered on a coastal swimming resort for senior army officers.

Israel Radio said Yusuf was part of a Palestinian family from the village of Duwara, in what is now northern Israel.

At age 15, he joined Fatah, the main branch of the PLO, and served with the Palestine Liberation Army unit for Syria in the Lebanon war. In October 1988, he left Fatah and joined the Palestine Liberation Front, the radio said.

#90156u2288 06/05/1990 ~United Press International

NEW YORK (JUNE 5) UPI - The dollar moved slightly lower with little direction against major currencies in trading Tuesday in New York, where speculators were fairly active trading marks and yen, analysts said.

In late New York trading, the dollar was changing hands at 1.6850 marks, off from 1.6880 late Monday. The dollar was quoted at 152.40 yen, off from 152.50 late Monday.

Other dollar rates: 1.4275 Swiss francs, off from 1.4320; 5.6805 French francs, off from 5.7000; and 1,240 Italian lire, off from 1,240.5.

The British pound rose to $1.6870 against $1.6790.

Analysts said a lack of economic news kept the dollar in a narrow trading range, while speculators engaged in so-called cross trading, the buying and selling of monetary units other than the dollar. Speculators were buying marks and selling yen, analysts said.

''That helped push the dollar lower against the mark and, against the yen, the dollar stayed steady to somewhat firm,'' said David Gilmore, a foreign exchange analyst with McCarthy, Crisanti & Maffei Inc.

''Typically, on a day when the dollar doesn't have any direction or significant data to drive it, traders switch to trade crosses and speculators, like some central banks, are active,'' he said.

Bank Negara, the central bank of Malaysia, was one of those rumored to be involved in the day's speculative trading, traders said.

No influential U.S. economic data is expected until the Producer Price Index and Consumer Price Index are released next week, analysts said.

Those figures should provide information on the inflation rate, which in turn should indicate whether the Federal Reserve will ease monetary policy.

Continued uncertainty over whether West Germany should join NATO or whether the German monetary union will be inflationary kept downward pressure on the mark, traders said.

In Europe, the dollar closed mixed Tuesday against the major currencies as traders returned from the Whitsun holiday in most markets. Gold also was mixed.

Dealers said the currency markets had hardly moved all day, with the dollar barely changed from the previous day's close.

''Without any statistics today and little tomorrow and Europe still getting over yesterday's holiday, there's nothing to go for,'' said one bank dealer.

In Frankfurt, as dealers returned after the holiday weekend, the dollar fell to 1.6930 deutsche marks from 1.6945 at the close Friday.

The dollar advanced in Paris to 5.7230 francs against 5.7175 and in Brussels to 34.91 Belgian francs from 34.68 Friday.

The dollar was down in London and Milan, both of which were open Monday.

In London, despite fading hopes of Britain entering the European Monetary System before the end of the year, the pound closed higher at $1.6840 compared to $1.6760 Monday.

The dollar closed lower in Milan at 1,247.40 lire from 1,251.20 at the previous night's close.

Earlier in Tokyo, a lack of incentives left the dollar almost unchanged after a day of light trading.

The dollar closed at 152.43 yen, up 0.01 yen from Monday's close of 152.42 yen.

Gold was down in Zurich at $358 an ounce from $364 an ounce at the close Friday but moved up in London to $358.75 an ounce from $356.25 Monday.

The metal was still being pressured by concerns of possible Soviet sales whenever the market rallies, said one gold analyst.

Republic National Bank in New York closed cash gold at $359.25 an ounce, up from $358 Monday. The New York Commodity Exchange settled June spot contract gold at $359.80 an ounce, up from $358.60.

Silver closed unchanged from Friday's price in Zurich at $5.10 an ounce but was higher in London at $5.09 an ounce, compared to $5.06 Monday.

Republic closed cash silver at $5.075 an ounce, from $5.07. Comex June spot silver ended at $5.065 an ounce, up from $5.049.

#90156u2327 06/05/1990 ~United Press International

WASHINGTON (JUNE 5) UPI - Communications lawyer Thomas Root, who survived a bizarre 1,000-mile flight down the East Coast last summer that ended with a crash into the Atlantic, pleaded guilty Tuesday to five felony counts of defrauding clients and the federal government.

The other 28 charges filed against him in a federal indictment in March were dropped as part of a plea agreement, in which Root pledged to cooperate in any related investigations.

Root, 37, of Alexandria, Va., pleaded guilty to two counts of falsifying federal documents and three counts of wire fraud through telefax.

He faces up to 35 years in prison and $1.25 million in fines.

He was released on his own recognizance. Sentencing was scheduled for Aug. 6.

The plea bargain was announced just one day after Root was named along with three other people and two companies in a 2,695-count indictment filed in Nash County, N.C. He was charged there with 455 counts of state securities fraud and conspiracy charges.

Root's attorney, Eugene Propper, said Root was innocent of all charges filed in the massive North Carolina indictment.

''The government had a substantial amount of evidence ... and we would have been able to prove all of the charges,'' U.S. Attorney Jay Stephens said of the charges in Washington.

Root, dressed in a dark gray suit, looked somber as charges were read to him. He admitted without hesitation to U.S. District Court Judge John Penn that he willfully forged Federal Aviation Administration approval of towers for five prospective radio stations seeking licenses from the Federal Communications Commission.

The plea agreement dismissed a charge that Root tried to obstruct a federal probe of his Washington law firm, Thomas L. Root, P.C.

The North Carolina charges grew out of claims made to investors by Sonrise Management Services of Columbus, Ga., that the company would provide them with radio licenses. Out of 1,600 investors, only a few received licenses.

Root was employed by Sonrise to obtain the licenses. Sonrise was one of two companies named in the North Carolina indictment.

Propper called Root a ''victim of being connected with Sonrise.'' Root would not comment.

Root, a husband with three children, drew international attention July 13 when he left Washington National Airport alone aboard his Cessna 210 on a flight sceduled for Rocky Mount, N.C.

Shortly after takeoff, Root put his plane on automatic pilot and told a radio controller he was experiencing chest pains.

His small plane was intercepted by military planes, who saw Root slumped over the controls. The plane ran out of fuel five hours later and spiraled

into the Atlantic about 14 miles off the Bahamas.

Root climbed from the plane and swam to rescuers and was later found to have suffered a gunshot wound to the stomach. He said the plane's impact forced a handgun he kept on board to fire, a scenario gun experts questioned.

Authorities in Florida are investigating, but Root has not been charged with any crime involving the flight.

''I think it's fair to say (Root) feels he's getting a lot of attention because of the flight,'' Propper said.

#90156u2350 06/05/1990 ~United Press International

BUCHANAN, LIBERIA (UPI) - Liberian rebels were in full control Tuesday of Buchanan, Liberia's second-largest port, after two weeks of fighting in which many citizens as well as soldiers died and large parts of the city were reduced to rubble.

A fresh attack Sunday, ending early Monday morning, enabled rebel leader Charles Taylor's forces to rout government troops. Taylor's rebels, estimated at about 4,000 men, claim the government of President Samuel Doe is corrupt and brutal and has ruined the country's economy. Doe himself seized power in a 1980 coup.

Taylor's troops were poised to move on the capital, Monrovia, from positions near the Robertsfield Airport, which serves the capital.

In Washington, the State Department said Tuesday that attempts to negotiate a solution to the conflict have failed.

Four U.S. ships were anchored off the Liberian coast to rescue U.S. nationals if they are unable to get out by air. The State Department Monday urged Americans to leave before the situation deteriorates further.

Between 1,100 and 1,200 American business people, missionaries, and their families live in Liberia.

Only one airline, Air Guinea, was still flying into Liberia at Spriggs Payne airport, about 5 miles from downtown Monrovia. The Robertsfield Airport has been closed to air traffic. The State Department said the road to Sierra Leone from Monrovia remains open.

Part of Bridgestone/Firestone's rubber plantation, the largest in the world, was partially occupied be rebel forces Tuesday, company spokesman Trevor Hoskins said. The rebels told Firestone they would not harm the U.S. company's operations, and as of late Tuesday the plantation continued functioning normally, he said. The plantation is located near Robertsfield Airport.

A former official of a pre-Doe government said Taylor's attempt to unseat Doe has wide support among the country's many tribes. After years of attacks by the government against many of the tribes, almost all tribes now are opposed to Doe, said Ellen Johnson Sirleaf, finance minister to President William R. Tolbert in the the late 1970s, interviewed by telephone in Kampala, Uganda.

The wider base of support makes this coup attempt far more likely to succeed than one mounted by a small group against Doe in 1980.

''Unless there is some external intervention, Taylor will pull it off,'' Sirleaf said.

The National Patriotic Forces of Liberia, as the rebel force is known, claims it killed 50 soldiers in the city, although there was little evidence that the army death toll was so high. Most of the victims were civilians, as has been the case in most of the battles during this uprising, launched last Dec. 26.

In Buchanan, the stench of death was everywhere.

Bodies littered the roads. Dogs roamed among the shattered glass and melted tin roofs. Rebel troops wandered through the city, looting shops of beer and Coca-Cola. The main streets were awash with bodies, broken bottles and the rubble of burned-out buildings.

''It's ours! The town is ours!'' the victorious fighters called out. ''We are the rebels! We're doing all right!''

The port, which is the outlet for Liberia's vast iron ore deposits, is 80 miles from the Monrovia. Liberia is a little larger than the state of Illinois, and its people are made up of many tribes as well as former American slaves who resettled in Africa.

For days rebel forces have been poised to move into the capital. A major offensive against government troops at the capital's airport in Robertsfield is expected in the next few days.

#90156u2369 06/05/1990 ~United Press International

ROME (JUNE 5) UPI - When Italian cooks received a list of breakfast foods the U.S. soccer team requested for its stay in Tirrenia, they didn't know what to do.

Among the foods on the list were pancakes, french toast, hash browns and muffins. The typical Italian breakfast consists of juice, coffee and rolls so the Italian cooks sought help from nearby Camp Darby, a U.S. Army facility with 3,000 Americans.

''They called us and asked, 'What's a pancake,?''' said Staff Sgt. Jeff Fry, the base's public information officer. ''Their cooks came out to the base one day and saw how we prepared breakfast for our people.''

Then, Staff Sgt. Ramon Duverge-Mejia, dining facility manager at the camp, gave the Italians a cooking lesson.

''They've been practicing,'' he said. ''They tried muffins the other day

and they came out pretty good. They're going to try pancakes and we'll be here to help them.''

Fry said some items, such as maple syrup, are not available in Italy and will be provided by the base.

''Our community is very excited about the American team being here,'' Fry said. ''We're just doing our part to help them on.''

Genoa's police says he is ready, but there have been no sightings of the 5,000 English fans police believe will arrive in this seaport for the ferry to Sardinia.

''There has not been many bookings at all from abroad,'' Genoa's chief of police, Vito Mattera, told UPI. ''It's about 1,000 seats booked totally on the ferries and each day we have three regular tours, two extra and a special emergency ferry ready to take off any time if many fans would arrive at the same time. We expect some 5,000 English fans, not all of them hooligans though.''

On the expected peak days, June 8-10, there were still 3,000 seats left, the police chief said adding there had had no problems at all yet. Mattera was confident all the measures had been taken to avoid trouble.

He has 3,000 policemen available in the city and 700 are stationed as a special task force on a boat in the harbor.

The strategy is to identify the potential hooligans at the city limit and escort them straight to the boats, keeping English and Dutch fans apart.

''Hooligans never go alone,'' Mattera said. ''They are always in a group and easily identified, Mattera said.

Argentina canceled practice three days before opening its World Cup defense against Cameroon in Milan.

No less than six of the South American squad, including star midfielder Diego Maradona, have reported sick with high temperatures. Maradona also has a sore toe. After he complained of a frever, Coach Carlos Bilardo called off practice at Trigoria and the Argentines stayed at their Naples base.

Underlining the importance of Maradona, Bilardo said it was not worth practicing without him.

The Argentines are scheduled to head north to Milan Thursday.

Cameroon inspected the Milan stadium where it will play the World Cup

opener and where workmen are struggling with last touches.

Dressed in smart red and gold track suits, the West African team had a short workout in the wooded grounds set above Varese, a stucco resort town 30 miles northwest of Milan.

Cameroon's Soviet coach Valeri Nepomniaschi gave his team had a clean bill of health and said he will not announce his lineup before Friday.

The players then boarded a bus for the 45-minute journey to the Meazza Stadium in Milan's west suburbs.

West Germany's star defender Juergen Kohler ruled himself out of his team's opening World Cup Group D game against Yugoslavia Sunday. He broke the news to Manager Franz Beckenbauer after pulling a hamstring in practice.

Kohler, who last year was transferred from Cologne to Bayern Munich of the West German League for $1 million, is considered West Germany's strongest defender.

#90156u2391 06/05/1990 ~United Press International

NEW YORK (JUNE 5) UPI - The stock market closed lower Tuesday in heavy trading, dragged down by profit taking after the Dow industrials and other major indexes rallied to all-time highs Monday.

The Dow Jones industrial average, which jumped 34.22 Monday to a record 2935.19, fell 10.19 to close at 2925.00.

Among broader market gauges, the New York Stock Exchange composite index lost 0.28 to 199.93 and Standard & Poor's 500-stock index fell 0.76 to 366.64. The price of an average share fell 5 cents.

Declines led advances 811-755 among the 2,037 issues crossing the NYSE tape. Trading was heavy, with Big Board volume totaling 199,720,000 shares compared with 175,520,000 shares traded Monday.

After opening mixed and turning higher shortly thereafter, prices gradually weakened for the rest of the session. The Dow industrials lost early gains by mid-morning and, by mid-afternoon, the broad market followed suit.

Analysts said profit taking after Monday's broad-based rally undercut the early bid for an advance.

''The market was just tired today,'' said Jay Goldinger of Capital

Insights Inc., an institutional brokerage based in Beverly Hills, Calif.

''We've gone up so far so fast, I think we just had a breather today more than anything else,'' he said.

Early strength in the bond market tied to falling oil prices supported stocks in the early going. Oil prices fell on the belief that Saudi Arabia would cut prices to hang on to its share of OPEC's output.

But the gains in bonds were lost to profit taking by afternoon. Goldinger did not assign much importance to the slight pullback in Treasuries, however.

''Bonds were down just a little after a major advance,'' he said. ''I think stocks may rest for a few days but then continue higher.''

Goldinger said the dearth of economic news scheduled for this week may provide a good excuse for a pause. He did point out that trading was heavy Tuesday but said that was to be expected since ''volume tends to lag price and prices went up yesterday so the volume came in today.''

On the trading floor, Philip Morris was the most active issue, unchanged at 44 1/2.

Philips Industries followed, surging 3 1/4 to 17 1/4 after Tompkins PLC of Britain agreed in principle to buy the company for $18.50 a share, or $550 million.

IBM was third, up 3/8 to 120 3/4 after reportedly cutting prices up to 10 percent on some Personal System-2 models.

Citicorp was fourth, up 3/8 to 25 as financial issues continued to benefit from the improved interest rate outlook. BankAmerica rose 1/2 to 33 1/8, also in active trading.

Among the other blue chips, AT&T lost 3/8 to 43 1/4, IBM , Woolworth rose 5/8 to 33 5/8 but McDonald's fell 5/8 to 35 3/4.

Elsewhere, Kellogg surged 3 3/4 to 72. A Goldman Sachs analyst reportedly added the stock to her ''buy'' list Monday.

Campbell Soup jumped 3 3/8 to 60. Three dissident members of the founding Dorrance family, who hold about 17 percent of the company's stock, formed a voting trust. They reaffirmed their belief that a sale of the company would be the best course for shareholders.

Tribune was up 1 to 44 7/8 amid reports that company officials were considering selling the New York Daily News despite continuing snags in

union contract negotiations.

National Intergroup jumped 2 1/2 to 17 3/8 after saying it would close its Pittsburgh headquarters and sell the Ben Franklin Stores chain as part of a restructuring plan. The action comes as dissident stockholder group Centaur Partners vies for control of the board.

Volume of NYSE-listed issues, including trades in stocks on regional exchanges and in the over-the-counter market, totaled 241,395,950 shares, compared with 211,486,090 shares traded in the previous session.

Prices closed lower in moderately active trading on the American Stock Exchange.

The Amex Market Value index lost 0.57 to close at 363.83. Declines led advances 332-277 among the 842 issues traded. The price of an average share lost 2 cents. Composite volume totaled 15,792,150 shares, compared with 15,111,300 shares traded Monday.

Western Digital led the Amex issues, up 1/8 to 13.

The National Association of Securities Dealers composite index fell 1.00 to 464.61.

#90156u2468 06/05/1990 ~United Press International

NEW YORK (JUNE 5) UPI - R.H. Macy & Co. issued Tuesday third-quarter financial results showing a $63.1 million loss, a slight improvement over the same period a year ago.

Cash flow, or earnings before interest, taxes and depreciation, increased in the quarter ended April 28 to $160.2 million from $154 million, the company said.

Cash flow is critical to a company that has undergone a leveraged buyout, such as Macy's did in 1986 and is now weighted down with more than $5 billion of debt, for the payment of interest expenses.

The quarterly net loss compared with a loss of $64.1 million a year ago, the company said in a report filed with the Securities and Exchange Commission.

Net retail sales were $1.49 billion, up from $1.48 billion in the third quarter of last year, the company said.

''Sales were flat, margins improved, expenses controlled, yielding a modest improvement in bottom-line performance,'' Macy's wrote in a letter to its investors.

''It is no secret that we had a down Christmas quarter last year,'' Macy's said. ''But the steps we have taken to lower inventory levels, tighten expenses and reduce our promotional activity are having their intended effect.''

Macy's said it has met with its 12 largest factoring firms, which buy the accounts receivable of clothing manufacturers. Suppliers and factors are still smarting over unpaid bills due to the Chapter 11 bankruptcy filings this year of Campeau Corp.'s U.S. subsidiaries, Federated Department Stores Inc. and Allied Stores Corp., and of Ames Department Stores Inc.

''We understand their anxiety given their recent experience with Campeau and Ames - both highly leveraged companies but completely different from our company,'' Macy's said.

Macy's said it provided the factors with detailed financial information and updated forecasts and was plased with their responses.

Analysts said suppliers and factors were uneasy after Macy's abysmal

second-quarter performance, which includes the all-important Christmas selling season.

Macy's second-quarter losses amounted to $39 million, compared with earnings of $73 million registered a year earlier.

For the nine months ended April 28, Macy's reported a loss of $135 million compared with a loss of $10.5 million a year earlier. Net retail sales for the nine-month period were $5.6 billion, compared with $5.4 billion a year ago.

''This year's nine-month results reflect the effects of the well-publicized turmoil in the retail industry, especially during the important Christmas holiday season,'' Macy's said in the SEC filing.

Several competitors, facing cash flow problems, cut their prices, and Macy's determined ''it would be important to be highly competitive,'' the company said.

''The promotional activity and the substantial markdowns taken in that regard had a significant adverse effect on the results of operations for the nine-month period,'' Macy's said.

Macy's operates a total of 149 stores, a spokesman said.

#90156u2472 06/05/1990 ~United Press International

PORT ARTHUR, TX (JUNE 5) UPI - Star Enterprise officials gave the go-ahead Tuesday for construction of a residuum upgrading facility at Star Enterprise's Port Arthur refinery that will create about 2,000 construction jobs at peak employment.

''Construction will begin in the fall, and is expected to last 24-30 months,'' said Fred Palmer, Star Enterprise spokesman.

The announcement comes after the completion of the economic feasibility study and in consideration of tax abatement commitments made by local taxing entities.

The project will enable the refinery to extract more gasoline, diesel fuel and other light products from heavier grades of crude oil, thus increasing the yield of higher-value products, Palmer said, adding that the investment will make the refinery one of the most competitive in the industry.

The new investment is in addition to other major improvements recently completed as part of an ongoing program to maximize the efficiency and

competitiveness of the plant. The facilities will require 20-40 full-time workers, officials said.

Lee Townsend, area manager for Star Enterprise, said, ''It's a refinery worker's dream to have a unit like this built. It brings job security, new jobs to the area, and helps position the refinery for future projects of this sort. It's an exciting day for all of us,'' said Townsend.

Townsend said the Port Arthur plant makes an ''abnormal amount of fuel oil '' because it does not have a unit that can convert. Residuum is the main component of fuel oil.

''This new unit will take the fuel oil component and convert it to what we need. The project has actually been under study since 1982, but was placed on hold in 1984 because of the economic downturn,'' Townsend said.

The Port Arthur refinery is Star Enterprise's largest facility. It began operations in 1903 as part of the Texas Co., which later became Texaco. Star Enterprise began operations Jan. 1, 1989.

The company also operates refineries in Convent, La., and Delaware City, Del.

#90156u2476 06/05/1990 ~United Press International

MANAGUA, NICARAGUA (JUNE 5) UPI - The government agreed Tuesday to review the cases of hundreds of Sandinista workers who have been fired since President Violeta Chamorro took office, allegedly because of their political affiliations.

''The Labor Ministry is calling for all those workers fired after April 25 in violation of the work codes, to apply for review to their respective departments, after which their individual situations will be dealt with according to the law,'' a ministry statement said Tuesday.

The statement said the government was calling on public officials at all levels to work with government committees reviewing labor codes that were rushed into law between the Feb. 25 elections, which the Sandinistas lost after 10 years in power, and Chamorro's April 25 inauguration.

The new codes, which favor Sandinista workers, were in addition to a civil service law passed last December.

Assistant Labor Minister Antonio Ybarra-Rojas, who announced the new review policy, did not reveal details of how individual cases would be handled.

Hundreds, perhaps even thousands, of Sandinista workers have been fired since Chamorro took office, and many were replaced by people who support Chamorro's National Opposition Union, or UNO.

A source at Chamorro's press office said nine Sandinistas had been fired there since April 25.

The Sandinista-led public employees union has blamed many of the firings on the new UNO appointees whom Chamorro has given ministerial positions and key posts in government-run industries, such as the banking system.

Health Minister Ernesto Salmeron told United Press International he had not dismissed any Sandinistas.

''I have not fired a single Sandinista worker ... but there appears to have been a large number of firings in the Construction and Transport Ministry,'' he said.

Protection of public workers under the labor code was at issue during last month's strike, when public workers stayed off the job five days, demanding a tripling of wages and the reinstatement of the law that Chamorro had suspended.

The strike was settled with a 100 percent wage increase and a promise by the government to leave the civil service law in effect until it could be reviewed in the National Assembly.

Labor disputes have been further fueled by the tripling of prices increases on basic products, brought on by a 65 percent devaluation of the cordoba since Chamorro took office.

The supply of Soviet gasoline is expected to run out later this month, and huge lines started to form at the pumps Monday afternoon as stations began rationing gas.

Many stations had no gas, and some were allowing only 2 gallons per customer.

#90156u2486 06/05/1990 ~United Press International

WASHINGTON (JUNE 5) UPI - U.S. machine tool exports jumped in the first quarter while imports dropped, slashing the trade deficit for this key sector by 30 percent, a trade group reported Tuesday.

The Association for Manufacturing Technology said the first quarter U.S. machine tool trade deficit of $249 million represents a 30 percent improvement from the same period in 1989. At this pace, the industry trade

deficit for 1990 is at its lowest level since 1984.

First-quarter U.S. machine tool exports were up a strong 25.5 percent to $289.5 million from the year-earlier period, while U.S. imports were down 8.2 percent to $538.5 million.

The association, which represents U.S. makers of machine tools, noted that imports account for one-half of U.S. machine tool consumption.

In March, U.S. machine tool exports exceeded $100 million for the second time in three months. Prior to this year, exports had not exceeded this level since 1981, the NMTBA said.

First-quarter U.S. exports of ''numerically controlled'' machine tools - those controlled by computers - grew 71.2 percent to $100 million from the same period of 1989. U.S. imports fell 1.8 percent to $293.8 million.

U.S. metal cutting machine tool exports jumped 52.5 percent in the first quarter to $173.2 million from the first quarter of 1989. U.S. metal cutting imports dropped 3.4 percent to $425.7 million.

First-quarter U.S. metal forming machine tool exports slipped 0.6 percent to $116.3 million from the first quarter of 1989. U.S. metal forming imports fell 22.9 percent to $112.7 million.

First-quarter U.S. exports of ''other manufacturing technology'' - machine tool parts and accesories, machines and parts for plastics and rubber working and other products not included in the machine tool total - were $450 million, while U.S. imports were $506.9 million, the association said.

The NMTBA does not have 1989 data for the ''other manufacturing technology'' group.

#90156u2490 06/05/1990 ~United Press International

WASHINGTON (JUNE 5) UPI - The government is launching an investigation to determine if Mexico and Japan are violating international treaties by slaughtering endangered sea turtles, the Commerce Department announced Tuesday.

If such violations are found, either country could be subject to economic sanctions by the United States.

Commerce Department spokesman Roddy Moscoso said the agency would conduct a ''joint investigation'' with the Interior Department to ''look into certification of Mexico and Japan'' for violation of international treaties signed by both countries aimed at protecting endangered or

threatened wildlife.

The investigation stems from an April petition filed with Commerce Secretary Robert Mosbacher and Interior Secretary Manuel Lujan by the National Wildlife Federation and other conservation groups seeking the certification.

The petition cited Mexico, which has the largest population of sea turtle species in the Western Hemisphere, for failing to enforce laws aimed at protecting endangered species. In 1989 some 75,000 endangered olive ridley sea turtles were killed legally and illegally in the Mexican state of Oaxaca alone, according to the Wildlife Federation.

The environmental groups' petition also blamed Japan ''for fueling international trade'' in illegal turtle products.

Wildlife Federation attorney Robert Irvin said Japan is a signer of the Convention on International Trade and Endangered Species Treaty, which prohibits or restricts members from importing products of the endangered olive ridley and hawksbill species of sea turtle.

Yet in 1989, he said, Japan imported over 25,000 kilos of the hawksbill shell product known as bekko for use in making decorative objects such as combs and jewelry.

Moscoso said the joint investigation would initially center on gathering ''data'' to determine if either country has violated protective treaties. Under the Pelly Amendment to the Fishermans Protective Act of 1967, if such violations are certified President Bush would have 60 days to either impose sanctions against the violators or inform Congress why he has chosen not to do so.

Irvin said the Wildlife Federation is pleased at the announcement of the investigation, but ''I'd be a lot happier if they got it done. It's been over a month now (since the petition filing) and the time is past when they should have launched an investigation.''

Last week Mexican President Carlos Salinas de Gortari signed an executive order outlawing the killing or trade of sea turtles in Mexico.

Irvin called that move ''a positive step but we want to see if it's going to be enforced.''

#90156u2501 06/05/1990 ~United Press International

(JUNE 5) UPI - One of Soviet President Gorbachev's sharpest critics scored another victory today. The candidate backed by Russian republic

president Boris Yeltsin for first deputy chairman of the Russian Parliament won election to that office. His selection makes him the number two man in parliament after Yeltsin. The victory came just hours before Gorbachev arrived home from his summit talks with President Bush.

A symbol of Prague, Czechoslovakia, was closed today following another rash of bomb threats. Police closed part of the famed Charles Bridge after telephoned warnings were made within the capital. The threats come three days before the nation holds its first free election in 44 years. Tension has been high in Czechoslovakia since a bombing on Saturday that wounded 19 people.

The White House says the nation has had only mixed success since 1970 in cleaning up the environment. The report also says that during the same period, America experienced strong economic growth. Also cited were gains in fighting air pollutants such as lead, sulfur dioxide and soot during the past two decades. Economic growth during the period rose about 70 percent in real terms.

Shops in the occupied West Bank and Gaza Strip are shut down today as Palestinians observe a general strike to mark the start of the Six Day War in 1967. Israeli military sources say soldiers shot and killed two Arab boys in the West Bank today... the latest fatalities in the 30-month-old Palestinian uprising.

Michael Jackson is spending a second day hospitalized in Santa Monica, California, awaiting the results of tests to determine what caused the singer to experience chest pain. A spokesman for the pop star's production company says he expects to have further details on Jackson's condition later today.

-30- 1974

#90156u2515 06/05/1990 ~United Press International

WASHINGTON (JUNE 5) UPI - The Securities and Exchange Commission charged a former A&P grocery chain executive Tuesday with passing inside information on company tender offers to five friends and business associates.

Alan Goulding, former chief operating officer and senior executive vice president for the Great Atlantic and Pacific Tea Co., agreed to pay a $635,000 civil penalty to settle the case.

Goulding, charged with providing confidential information on A&P acquisition plans and financial results in 1986 and 1987, neither admitted nor denied the allegations in agreeing to pay the fine.

The business associates who received the information and subsequently used

it to buy stock in the A&P acquisition targets were also named as defendants in the case.

While neither confirming nor denying the charges, they agreed to surrender nearly $514,000 in profits made from the information, pay $189,879 in interest charges and hand over civil fines equal to the sum of their profits.

Those charged with receiving information from Goulding included Robert Foley, a Redwood, Calif., food marketing consultant, and Murray Verlin, a resident of Miami who formerly served as chairman of the board for a food distribution company called Pure Maid Inc.

Charges were also lodged against: Kurt Goldman, a Boca Raton, Fla., resident who earlier ran Johanna Farms Dairy of New Jersey; Peter Goldman, the company's vice president; and Joel Lopate, a Miami resident.

Goulding was charged with revealing to the other defendants A&P plans to acquire three grocery chains: Shopwell Inc. and Waldbaum Inc., both based in New York, and Delchamps Inc., headquartered in Mobile, Ala.

All three acquisitions were formally announced between May and November 1986.

According to the SEC, Verlin was told beforehand of all three deals, but the other defendants only received inside information on some of the transactions.

Goulding was also charged with telling Verlin, prior to an official announcement, that A&P's 1986 fourth-quarter earnings would be substantially higher than they were in 1985.

#90156u2522 06/05/1990 ~United Press International

NEW YORK (JUNE 6) UPI - U.S. gasoline supplies rose for the second week in row last week at a time of year they normally decline while crude oil stocks, already straining some storage tanks, rose even more, the American Petroleum Institute said Tuesday.

The API said its weekly survey for the week ended June 1, showed gasoline supplies increased to 216.5 million barrels from 214.2 million barrels in the prior week but stayed below year-ago levels of 221.0 million barrels.

Last Wednesday, the oil-industry group reported gasoline inventories had risen for the first time in 11 weeks even though the warm-weather driving season had arrived. The report triggered a 3 cent drop Thursday in the wholesale price of gasoline on the New York Mercantile Exchange.

In its current report, the API said crude oil inventories rose to 384.4 million barrels from 381.8 million barrels in the prior week and remained well above year-ago levels of 344.8 million barrels.

Supplies have been running considerably above the high end of the crude inventory range of recent years - 370 million barrels.

Stocks of unleaded gasoline, which accounts for 90 percent of the domestic market, increased to 165.7 million barrels from 164.3 million barrels a week earlier and remained significantly higher than year-ago levels of 155.1 million barrels.

Gasoline production slipped to 6.7 million barrels daily, from 6.9 million barrels a day in the previous week and less than year-ago output of 7.1 million barrels daily.

Gasoline imports increased substantially to 702,000 barrels daily from 559,000 barrels daily in the previous week and were more than triple year-ago imports of 215,000 barrels daily.

U.S. refineries operated at 88.2 percent of capacity last week, compared with 88.4 percent a week earlier and 90.1 percent a year ago.

Imports of all refined products were steady at 2.5 million barrels daily, the same level as the preceding week but higher than year-ago imports of 1.9 million barrels daily.

Crude oil imports declined markedly to 6.1 million barrels a day from 6.8 million barrels a day in the previous week and were less than year-ago imports of 6.2 million barrels a day.

Inventories of distillate - used for home-heating oil and diesel fuel - rose to 104.0 million barrels from 100.0 million barrels a week earlier and remained above year-ago levels of 99.3 million barrels.

Distillate production edged up to 3.0 million barrels daily from 2.8 million barrels daily in the preceding week and was higher than year-ago output of 2.8 million barrels daily.

Distillate imports rose to 249,000 barrels a day from 127,000 barrels a day in the previous week but were below year-ago imports of 284,000 barrels a day.

#90156u2525 06/05/1990 ~United Press International

LOS ANGELES (JUNE 5) UPI - The U.S. Justice Department has decided

against joining a $150 million whistle-blower suit brought by a Hughes Aircraft Co. contracts manager against the company, Hughes said Tuesday.

In a suit filed in federal court under provisions of the federal False Claims Act, William J. Schumer accused Hughes of overcharging the government $50 million by sharing the development costs on four radar programs. The initial suit was filed in January 1989 in Los Angeles, then expanded in September.

Hughes, a unit of General Motors Corp., has denied the allegations.

The claims on this type of lawsuit are automatically trebled. Under the act, the government can join the suit, decline to do so or ask that the case be dismissed.

Schumer, a former division contracts manager for the company's Radar Systems Group, was not immediately available for comment. Schumer currently is employed as an assistant division contracts manger with the company's Missile Systems Group.

The Justice Department has declined to join two other whistle-blower suits against Hughes in recent months. In March, the government said it would not join a suit brought by Michael C. Denlinger, a former Hughes engineer, in which the company was accused of trying to cover up defects in more than $3 billion of integrated circuit parts sold to the government for various defense systems.

In May, the Justice Department declined to join in a $360 million suit filed by Patrick M. Kelly, a retired contracting officer at its Ground Systems Group, over how the company recovered costs from damaged material. Kelly has withdrawn the suit, according to Hughes spokesman Richard Dore.

-30- 1890

#90156u2581 06/05/1990 ~United Press International

PHOENIX, AZ (JUNE 5) UPI - Greyhound Dial Corp., which retains a 22.5 percent stake in the parent of Greyhound Lines Inc., said Tuesday it will reserve $100 million after tax in the second quarter to cover losses from the bus company's bankruptcy filing.

Greyhound Dial said it will take a one-time charge for discontinued operations of $100 million, or $2.50 a share, ''to establish a reserve for the losses related to the Greyhound Lines.''

In a telephone conversation, John W. Teets, chairman of Greyhound Dial, said the reserve was being set up ''because of the exposure we would have in Greyhound in a worse-case situation.''

''If they were to have a complete default, we want to have enough reserves to protect our ongoing operations,'' he said. ''Greyhound Dial is in a record year and we are up 5 to 10 percent this year. But with the overhang of Greyhound, we wanted to establish this reserve.''

Greyhound Lines, which was acquired from Greyhound Dial by an investor group for $350 million in 1987, filed for protection under Chapter 11 of the federal bankrupty code on Monday in Brownsville, Texas.

The bus line, a subsidiary of GLI Holding Co., has been roiled by a bitter labor dispute with its 9,000 union employees, who have been on strike since March 2.

In the 1987 leveraged buyout, Greyhound Dial received $175 million in cash plus preferred and common stock and notes for a total of about $90.6 million.

Greyhound Dial also leases 16 terminals and about 2,000 buses to Greyhound Lines.

Carol Neves, analyst at Merrill Lynch Capital Markets in New York, said she did not think the one-time reserve would have a major impact on the company given its size.

''It is really not pertinent compared to the size of the company. The charge would impact the balance sheet but not the cash flow or earnings. The charge is more than adequate and the company may be able to recapture some of that at a later date,'' she said.

In a prepared statement, Teets termed the bankruptcy filing a ''positive stabilizing move'' which will help ensure the long-term survival of the bus line. He said until the strike, Greyhound Lines had been making its payments on all obligations owed to his company.

Even after the bankruptcy filing, the company said it expects to receive payments for the leases.

''These developments are not expected to materially affect Greyhound Dial's ongoing income from continuing operations which remain very strong '' the company said.

Last year, Greyhound Dial earned $108.7 million, or $2.75 a share, on revenues of $3.5 billion. In the first quarter of this year, it earned $16.9 million, or 42 cents a share, on revenues of $865 million.

Greyhound Dial was known as Greyhound Corp. prior to February of this year. The company's subsidiaries include Dial Corp., Dobbs International, Dobbs Houses Inc., Travellers Express, Premier Cruise Lines and Greyhound

Financial Corp.

-30- 3173
#90156u2586 06/05/1990 ~United Press International
DEARBORN, Mich. (JUNE 6) UPI - Ford Motor Co. will require dealers to perform warranty work on the models they sell, even if the particular vehicle involved was purchased elsewhere, it was reported Tuesday.

The No. 2 automaker is acting on an issue which has sparked concern among some state governments.

Under the policy, which takes effect Sept. 1, Ford dealers reportedly will be required to do the warranty work on all Ford-brand cars and trucks, while Lincoln-Mercury dealers will do the work on any Lincoln or Mercury models.

Anne Doyle-Farrell of Ford told the Oakland Press of Pontiac, Mich., the change reflects the new realities of the car market since consumers often travel considerable distances to shop for a car or truck.

Complaints about dealers refusing to perform repairs on cars they had not sold prompted attorneys general from a number of states to request changes in Ford's existing policy.

Doyle-Farrell denied that Ford faced pressure from these states.

However, Robert Abrams, attorney general in New York State, said Ford agreed to change its policy following negotiations with his office.

''Car buyers will be able to shop around for the best purchase price, while still being able to use their auto warranty at a convenient location '' Abrams said. He said his office found dealers frequently turned down warranty work unless they had sold the vehicle.

A spokesman for General Motors Corp. said the company's existing franchise agreement with dealers states that customers have a right to expect all dealers to fix vehicles regardless of where they were purchased.

Customers are encouraged to return to the GM dealership that sold the vehicle, however.

Chrysler Corp. dealers are encouraged to work on all cars, but have the option of sending customers elsewhere if the car or truck was bought at another retail outlet less than 50 miles away, a Chrysler spokesman said.

Ford officials could not be reached by UPI for comment.

#90156u2616 06/05/1990 ~United Press International
DETROIT (JUNE 5) UPI - Sales of domestically produced cars fell 9.6 percent in May, with the Big Three automakers all suffering double-digit declines, although the drop in the final 10 days of the month was a less drastic 5.9 percent, the industry reported Tuesday.

Sales of domestic light trucks dropped about 4.5 percent for the month and 1.7 percent for the May 21-31 period from year-earlier levels.

The closely watched annual sales rate for domestic cars was 7.5 million units for the 10-day period, down sharply from 8.2 million last year, and 6.8 million for the month as a whole, compared with 7.3 percent in May 1989.

Industry leader General Motors Corp. saw domestic car sales fall 13.3 percent in May, but Ford Motor Co. took the biggest tumble at 19.8 percent. Chyrsler Corp. sales were off 16.5 percent.

Sales of imported cars dropped 11.3 percent to an estimated 230,800 cars in May, compared with 260,100 a year earlier.

For the first five months of 1990, domestic car sales were off 5.2 percent from 1989 and light truck sales were down 1.8 percent.

The latest results reflected a continuation of the industry slowdown that began in mid-Decemberlast year, said Arvid Jouppi of Keane Securities in Detroit.

Jouppi predicted slow sales will continue through June with a slight pickup in July and August. Comparative figures should be up in the fourth quarter, in significant part because ''we had such dismal sales in the fourth quarter of last year,'' he said.

Jouppi also said he anticipated an upturn in demand for cars as the existing fleet of motor vehicles ages.

Buyer incentives likely will continue through the rest of the model year and any vehicles left over at that time will be sold at a discount ''because the companies are promising the dealers that any cars left over they will provide dealers with incentives to get them sold,'' Jouppi said.

Tom Webb, chief economist for the National Automobile Dealers Association, said the sales pace picked up sharply in late May from what he described as mid-May's ''disaster level.''

''On the domestic side, the only units that are really moving are the

totally redesigned models and the niche markets such as sport-utilities and luxury cars,'' he said.

Sales of domestically produced cars totaled 642,304 units for May and 295,620 for the latest 10-day period, compared with 710,478 and 279,228, respectively, last year. Domestic light truck sales totaled 376,945 units for the month, down from 394,611, and 163,489 for the May 21-31 period, up from 142,906.

For the year to date, domestic car sales totaled 2,942,552 units, down from 3,080,162, and truck sales came to 1,744,984, down from 1,764,086.

GM's car sales were down 9.1 percent for the May 21-31 reporting period and off 6.8 percent for the year through May. GM light truck sales gained 3.2 percent for the last 10 days of the month, were off 2.6 percent for the month as a whole and advanced 2.3 percent for the year to date.

Ford car sales dipped 13.7 percent for the final 10 days of the month and were off 12.4 percent for the January-May period, while light truck sales were off 4.9 percent for the month, despite a 1.4 percent gain registered in the May 21-31 period. Ford's domestic light truck sales were off 3.1 percent in the first five months of the year.

Chrysler domestic car sales slid 10.1 percent for the most recent reporting period and were down 18.1 percent on the year. Chrysler light truck sales were off 6.4 percent for the May 21-31 period, 12.4 percent for the month as a whole and 7.6 percent for the year to date.

The nine domestic carmakers are GM, Ford, Chrysler, American Honda Motor Co., Nissan Motor Manufacturing U.S.A., Toyota Motor Sales U.S.A., Mazda Motor Manufacturing (USA) Corp., Mitsubishi Motor Sales of America Inc. and Subaru-Isuzu Automotive Inc.

#90156u2644 06/05/1990 ~United Press International

NEW YORK (JUNE 5) UPI - Bond holders in two casinos owned by real estate mogul Donald Trump filed suit in federal court Tuesday, charging him with breach of contract, fraud and violation of Securities and Exchange Commission regulations.

The class action suit was filed by Peter Stuyvesant Ltd., described in court papers only as ''a corporation'' which purchased bonds in Trump limited partnerships that own the Trump Castle and Trump Plaza hotels and casinos in Atlantic City.

The lawsuit, assigned to Judge Leonard Sand in U.S. District Court in Manhattan, sought ''compensatory'' damages but did not name a specific

dollar figure.

Named as defendants were Donald Trump, his brother, Robert, 14 Trump associates, and the Trump corporations and partnerships that own the two casinos.

The lawsuit blamed breach of contract for ''loss of confidence and proprietary business information and business opportunities.''

The suit cited news media reports that two Stuyvesant interests violated bondholders' covenants by giving without compensation ''confidential'' lists of high rollers to the newly opened Trump Taj Mahal in Atlantic City.

The suit said the action was in violation of SEC regulations.

''Since Donald opened Resorts International in 1987, he has been obsessed with opening and operating the largest casino resort in the world (and) he has ignored all those who criticized the plan'' in a breach of financial responsibility, the suit alleges.

#90156u2670 06/05/1990 ~United Press International

MOSCOW (JUNE 5) UPI - President Mikhail Gorbachev left adoring crowds in the United States and returned home Tuesday to face open challenges to his authority and a country beset by new ethnic violence and a crumbling economy.

Gorbachev was smiling when he and his wife, Raisa, stepped off their plane Tuesday night at the Moscow airport and were greeted by about a dozen members of the Politburo and the Presidential Council.

The smiles may fade quickly. While Gorbachev was meeting President Bush and thrilling admiring crowds during his travels around the United States and Canada, the officials left behind were fighting myriad battles in the Soviet Union.

At the top of the list of problems are the economy and growing nationalist tensions.

The government's plan for a move toward a market economy that would include price hikes - officially announced just days before Gorbachev left for the summit - faces grave opposition that may doom it.

In the days after Gorbachev and Prime Minister Nikolai Ryzhkov spoke of a national referendum on the plan, it was given a resounding ''no'' vote by Parliaments in two of the country's largest republics - the Ukraine and Byelorussia.

The huge Russian republic has indicated it may follow suit and refuse to accept the price hikes.

In Russia Gorbachev also must come face-to-face with the election of populist Boris Yeltsin as the effective president of the republic despite the fierce public opposition of the Soviet president.

Yeltsin, who was kicked out of his high Communist Party posts for criticizing what he called the slow pace of Gorbachev's reforms but made a remarkable political comeback based on popular support, says he is willing to work with Gorbachev now but it must be on good terms.

After his election as chairman of the Russian Parliament, Yeltsin outlined a plan for increased autonomy for the republic that may make the central government largely irrelevant.

And although Yeltsin's difficulties in pushing through candidates for his top deputies raised questions about his mandate for change, the Parliament relented Tuesday and elected his choice for first deputy chairman.

''Mikhail Sergeevich (Gorbachev) will not find Yeltsin crucified when he arrives,'' said Oleg Rumyantsev, a leader of the Democratic Russia bloc that supports Yeltsin.

Gorbachev publicly opposed Yeltsin's election. After Yeltsin was elected, the Soviet president warned the new Russian leader that he should avoid ''political games.''

The playing field for any such games will not be limited to the Russian Parliament. Yeltsin also is a leader of the so-called inter-regional group of deputies in the Supreme Soviet, the national parliament where Gorbachev is to appear next week to report on the summit and push for his economic plan.

And next month Yeltsin is expected to play a key role in the Communist Party Congress that many expect will see a split in the party, with radical members including Yeltsin walking away.

Yeltsin also now figures in the crisis over Baltic independence - albeit in a minor role as a possible trading partner for Lithuania.

Lithuanian leaders complained Tuesday that the issue of their republic's independence was not given enough attention at the summit, but the crisis is likely to hold up U.S. congressional approval of a badly needed Soviet-U.S. trade bill.

Besides the long-term problems of the economy and nationalism, Gorbachev

faces an immediate crisis with ethnic violence in the central Asian republic of Kirghizia, where at least 11 people died and hundreds were wounded in clashes Monday and Tuesday between Kirghizians and minority Uzbeks.

A state of emergency was imposed in the region about 2,000 miles southeast of Moscow near China, but the violence continued Tuesday despite a curfew and other measures.

The violence in Kirghizia came on the heels of an upsurge of ethnic tension in other troubled regions, most notably Azerbaijan and Armenia, where nationalist sentiments and the dispute over Nagorno-Karabakh region flared last week into attacks on Soviet troops. Two soldiers and 23 Armenians died.

Despite the problems, Gorbachev sounded optimistic in an interview with USA Today before leaving the United States for home.

''The Soviet Union will never give up on the path to perestroika,'' he told the newspaper in an interview also carried by the official Soviet news agency Tass.

#90156u2673 06/05/1990 ~United Press International

PHILADELPHIA (JUNE 6) UPI - The Boeing Co. plans to tout its troubled V-22 Osprey tilt-rotor aircraft at a coming transportation seminar, but the future of the aircraft still depends on Congress rather than private customers.

Boeing, which is building the Osprey with Bell Helicopters of Fort Worth, Texas, said Tuesday the seminar will bring government and industry experts together June 15 and 16 to discuss the possible use of vertical lift aircraft to lessen traffic problems in cities.

Boeing spokesman Tom Tripp said it is an ''overstatement'' to say that the seminar is intended to help plead the case for the Osprey, which is still in development and has been targeted for extinction by Pentagon budget-cutters.

''I think what this is is an attempt to examine what we consider the future requirements, the need for vertiports ... to take advantage of vertical takeoff aircraft, including tilt rotors, but by no means only tilt rotors,'' Tripp said.

The Osprey, which resembles an ordinary airplane, takes off vertically like a helicopter and the rotors then tilt forward to propel the craft like an airplane. Each military version of the Osprey is expected to cost

about $20 million, Tripp said.

The craft will be displayed during the seminar at the Philadelphia International Airport, and it may perform a flyby.

Boeing and Philadelphia-area politicians have been trying to convince Congress to maintain funding for the Osprey, being developed for the military.

''The whole issue of civil tilt rotor really depends on the success of the military program,'' said Tripp. ''If the military tilt rotor comes ahead, I think there's a real possibility we'll see civil tilt rotors.''

Defense Secretary Dick Cheney attempted to eliminate the Osprey last year in his fiscal 1990 budget proposal, but Congress kept the program partially alive, appropriating $255 million to continue research and development.

Cheney, who has again eliminated all money for the V-22 in his budget plan for fiscal 1991, has argued the Osprey's mission would be much the same as a helicopter and that it would be too expensive in a era of defense budget constraints.

The Pentagon has invested $2.5 billion in the program and has six aircraft built or under construction. The plane has made early test flights, and the Pentagon had planned to buy 602 Ospreys at a cost of $27 billion.

#90156u2675 06/05/1990 ~United Press International

HOUSTON (JUNE 6) UPI - First City Bancorporation of Texas refuses to be ''a passive participant'' in future loans to large corporations, Chairman A. Robert Abboud told First City's annual meeting Tuesday.

The bank participated along with others in making loans to Federated Department Stores, Drexel Burnham Lambert and Circle K - all of which filed for federal bankruptcy protection within months of each other, sparking concern among analysts that First City's non-performing loans were growing fast.

Although generally upbeat in his address, Abboud told shareholders First City will avoid making large national credits unless it is guaranteed an active role in management of those loans.

''We are not prepared to be a passive participant,'' Abboud said of First City's loan portfolio. ''We must maintain an active, an aggressive loan posture.However, we're not going to do it if it doesn't make sense to do that.''

He told reporters that this policy decision stemmed from what happened with Federated and Circle K.

''We believe we are good at workouts, but if we are merely a participant we cannot bring our workout skills to bear.

''Therefore, we will no longer be a participant in large national credits where we are not the agent bank, where we are not privy to the senior management or where we cannot have a significant role in the administration of the credits in which we participate,'' he said.

Although First City is among Federated's smallest creditors, First City was included in a five-member workout committee, a sign, according to Abboud, that the bank can make contributions in resolving Federated's problems.

He and Robert D. Richley, First City president, both commented on how the nature of bankruptcy has changed while they have been working for financial institutions.

''It used to be a mark that you avoided. Now it's being used as a technique to force a negotiation,'' Abboud said. ''I really think the banking industry ought not to succumb to that and we ought not be concerned about that.''

In April, First City reported a $90 million profit for the first quarter. When First City releases second-quarter numbers this summer, analysts are expected to closely monitor what the international bank holding company's level of non-performing assets is.

In other announcements Tuesday, First City unveiled two new financial products: Global Banking and a 24-hour answer line.

Global Banking provides retail banking services to Americans living and working overseas, initially to those in the Middle East.

The answer line is a free automated telephone service that enables customers to access information about their accounts. The service will be available to customers in Houston and Dallas starting June 11 and subsequently extended to all First City banks across Texas.

On April 19, 1988, First City completed a federally assisted bailout financed with $500 million of private capital, a $970 million note from the Federal Deposit Insurance Corp. and a $108 million loan from a group of banks.

In 1989, the FDIC eliminated its entire interest in First City.

#90156u2694 06/05/1990 ~United Press International
TRENTON, NJ (JUNE 5) UPI - The state Supreme Court Tuesday struck down New Jersey's property tax-dependent system of paying for public schools, ruling that children in poor urban districts are denied the quality education provided in wealthier suburban districts.

The court, ruling unanimously, found that the state's 1975 Public School Education Act, adopted after a similar court challenge, violates New Jersey's constitutional guarantee of a ''thorough and efficient'' education. It ordered the Legislature to find some means to redress the imbalance between ''property-rich'' suburban districts and poor urban ones.

''This record proves what all suspect: that if the children of poorer districts went to school today in richer ones, educationally they would be a lot better off,'' the court said in the conclusion to a 156-page opinion. ''Everything in this record confirms what we know: they need that advantage much more than the other children.''

The New Jersey court ruled in Abbott vs. Burke, a suit filed almost a decade ago on behalf of 20 children from New Jersey's hard-pressed inner cities. Raymond Abbott, the named plaintiff, was a Camden schoolboy at the time and is now a prison inmate.

The ruling was the third by a state Supreme Court in the past year that rejected over-reliance on property taxes for education spending. The high courts in Texas and Kentucky ordered revampings of school aid last year.

Marilyn Morheuser, who argued the suit for the Education Law Center in Newark, said the New Jersey court went further than others in recognizing the problems of urban districts that have lost political clout as well as industry. The New Jersey ruling requires that state aid be used to bring spending in the poorest districts to the level of the richest ones.

''This decision will really fuel the discussion of what states should be doing,'' Morheuser said.

In Illinois, where a similar challenge to school funding is being drafted, lawyers welcomed the New Jersey ruling.

''It makes it three in a row,'' said Larry Frank, an Illinois State University professor who heads the group of Illinois school districts planning to sue the state by year's end. ''Clearly the Supreme Courts know what each other is doing, and it gives us greater hope.''

In New Jersey, state aid to education has been the driving force behind a

vast increase in the size of the state government. The Legislature adopted an income tax for the first time in 1976 in response to the earlier suit.

An administrative law judge who heard the case recommended changes in the aid formula in August 1988, but his findings were rejected by Education Commissioner Saul Cooperman and former Gov. Thomas Kean, who argued that there was no link between spending and education quality.

The court strongly disagreed with Kean's argument that urban children are victims of poor management, not lack of money for education, and with educators who argue that what the poor need is training in basic skills.

In the opinion written by Chief Justice Robert Wilentz, the court described suburban districts where children begin computer training in kindergarten, have the chance to try gymnastics and lacrosse and access to greenhouses and metal-working shops.

They compared those to the Camden schools where less than 4 percent of the students have access to computers, a Jersey City school where a portable science setup is wheeled between classrooms and another where the track team practices in a hallway.

''We note, however, that these poorer districts offer curricula denuded not only of advanced academic courses but of virtually every subject that ties a child, particularly a child with academic problems, to school - of art, music, drama, athletics, even, to a very substantial degree, of science and social studies,'' the opinion said.

The seven justices left a specific formula up to the Legislature, which is already considering Gov. Jim Florio's $1 billion proposal to increase the state income tax and revise school aid. Florio's plan was designed partly to anticipate a court ruling.

Florio called the court's opinion ''a fairly good route through the minefield'' of school funding.

''We've got the court's sanction for doing what we thought was appropriate '' he added.

Florio's proposal would pump an extra $1 billion into school aid beginning in the 1991-1992 school year, bringing the total to about $4.5 billion, and would establish a new formula for distributing the money.

The plan would set a minimum amount that school districts would be required to spend per student - $6,835 in elementary school, $7,519 in middle school and $9,091 in high school - and the state would make up the difference for districts unable to afford the amount.

#90156u2711 06/05/1990 ~United Press International

CLAYTON, MO (JUNE 5) UPI - Tuberculosis has striken 27 children from the same elementary school in one of the worst outbreaks of the respiratory disease in Missouri in 20 years, health officials said Tuesday.

The infected children, all from Robinwood Elementary School in the St. Louis suburb of Florissant, caught the contagious disease from an unidentified school staff member, said Dr. Linda Fisher, chief medical officer for St. Louis County.

The 27 confirmed cases are the most in the state that Dr. Denny Donnell, state epidemologist for the Missouri Department of Health, can remember in his 20 years in that post, Fisher said.

''We are really talking about a tuberculosis outbreak, and we know that 100 percent for sure,'' she said.

So far, 161 students out of 342 students at Robinwood, or 47 percent, have tested positive in skin tests for the disease.

Fisher said when the positive test results were first announced on May 22 that not all those who tested positive had the disease, but the confirmed cases means the first results were not a fluke.

''What this means is that this whole thing was not some sort of mistake,'' she said.

The outbreak first surfaced May 10, she said, when a member of the school's staff coughed up blood, a TB symptom. The abnormally high number of skin tests were reported to the school the same day.

''The people who have (tuberculosis) were all exposed to an adult who had cavitary tuberculosis - it means he's got a cavity in his lung where the TB germs are located,'' Fisher said. ''It's like tuberculosis gets in your lung and it rots it. This adult ... coughed on all the children and exposed them to the TB germ.''

Some childred had fluid in their lungs, others swollen lymph glands and another had infiltrates in the lungs, she said.

Health officials began treating the students who had positive skin tests last month. They will begin treating those who tested negative now that the outbreak has been determined, Fisher said.

Vic Tomlinson, a staff member of the Missouri Department of Health, said the outbreak was consistent with an increase in tuberculosis nationally

since 1986.

''A lot of the people are under the impression that TB is dead,'' Tomlinson said. ''It's not.''

Tuberculosis is caused by the tubercle bacillus and is characterized by the formation of nodule-like growths in the lungs. Most people who become carriers stave off the disease but carry the germ for years afterward in their lungs, until their health weakens and an outbreak occurs.

Fisher said the outbreak in Florissant was comparable to a case at a South Carolina high school in 1981, in which 486 people were tested and 40 percent had positive skin tests for the disease.

There were 44 cases of tuberculosis reported in St. Louis County in 1989, Fisher said.

#90156u2736 06/05/1990 ~United Press International

NEW YORK (JUNE 5) UPI - Jailhouse author Jack Henry Abbott told a judge at the start of his wrongful death trial Tuesday that the actor he stabbed in the heart was ''partially responsible'' for his own demise.

The wiry, soft-spoken Abbott, 46, who was released from prison with the help of author Norman Mailer and killed Richard Adan six weeks later, has been held liable for damages in the lawsuit.

Appearing as his own attorney at an inquest in state Supreme Court in Manhattan, Abbott picked five jurors who will determine just how much he must pay in damages. Justice Carol Arber ordered him returned to court at 10 a.m. Wednesday to pick a sixth juror and two alternates and make an opening statement.

Before the start of jury selection Tuesday, Abbott scanned the small, packed courtroom and noticed retired New York City Detective William Majeski, who had arrested him in Lousiana two months after the fatal stabbing. Abbott stared at Majeski, made an obscene gesture and then spun around in his seat to face the judge.

Earlier in the day, Abbott told Judge Arber that Adan was ''partially responsible for the injury.''

Adan's widow, Ricci Adan, a dance teacher who was married just six months before her husband was killed, burst into tears from her seat at the back of the courtroom.

She is slated as the first witness to testify during the inquest.

Abbott, who is serving a 15-year to life sentence for manslaughter in Adan's death, failed to win a last-minute delay and told the judge he wanted to appeal her ruling that the proceedings move forward.

''Judge, appeals stop people from being executed,'' snapped Abbott, wearing a tweed jacket, blue shirt and gold wire-rimmed glasses.

''Mr. Abbott, you are not going to be executed. You are in civil court, not criminal court. Your judgement may be executed,'' the judge replied.

Mrs. Adan, 31, is seeking $5 million for her husband's wrongful death and $5 million for his pain and suffering.

However, the state Crime Victims Board has only $15,000 in escrow from a movie option on Abbott's book, ''In the Belly of the Beast,'' rights from an Off-Broadway production of the same name, and an advance on a second book titled ''My Return,'' which he wrote with his wife of two years, Naomi Zack.

In addition, the New York County Sheriff's office has seized $100,000 of Abbott's earnings.

On July 18, 1981, Abbott fatally stabbed Adan, a 22-year-old actor working as a waiter to support himself and his new bride. The killing took place outside the Bini-Bon restaurant in the East Village after an altercation over the use of a lavatory.

Abbott, who spent years in confinement for a variety of crimes including the slaying of a fellow prison inmate before Mailer helped him get out, was convicted of manslaughter and was sentenced to 15 years to life behind bars.

Testimony also was expected from an eyewitness to the stabbing, Lawrence Berds, who may bolster claims of pain and suffering.

Berds has previously testified Adan's last words were ''It hurts - God it hurts!''

#90156u2743 06/05/1990 ~United Press International

COPENHAGEN, DENMARK (JUNE 5) UPI - Secretary of State James Baker and Soviet Foreign Minister Eduard Shevardnadze discussed disarmament and German unification during a meeting Tuesday, and Baker said the talks were encouraging.

''I think we did (make progress),'' said Baker at an impromptu briefing

following the 90-minute talks at the Soviet Embassy residence in Copenhagen.

Baker and Shevardnadze are attending a 35-nation gathering of the foreign ministers of the Conference on Security and Cooperation in Europe.

CSCE, made up of those nations that signed the Helsinki Agreement in 1975, has gained new importance as a forum for dealing with the swiftly changing situation in Central Europe, including the forthcoming unification of Germany.

At their Washington summit last week, President Bush and Soviet President Mikhail Gorbachev were unable to agree on a compromise formula on the military future of Germany, and so they turned it over to their foreign ministers, asking them to come up with possibilities to bridge the Soviet and American positions.

The United States insists on a unified Germany remaining a full member of NATO, while the Soviet government insists that is not acceptable to a country like the Soviet Union, which suffered devastating losses in two German aggressions in this century.

Although unwilling to disclose the status of Soviet-American disagreement over the security status of a unified Germany, Baker said he welcomed a Soviet disarmament move made by the Soviet foreign minister during a Tuesday speech to the CSCE meeting on human rights.

Shevardnadze said the Soviet Union would undertake cuts in its tactical nuclear forces in Central Europe in order to give impetus to superpower disarmament talks.

''We will unilaterally cut 60 tactical rocket launchers, more than 250 nuclear artillery pieces and withdraw 1,500 nuclear warheads from Central Europe. By the end of 1990, the Soviet Union will have cut 140 missile launchers and 3,200 nuclear artillery pieces,'' Shevardnadze said.

His announcement took the conference by surprise and delegations were at a loss to determine whether the cuts were new or whether they had been discussed during the recent Washington summit.

But following Tuesday evening's Baker-Shevardnadze talks, the Soviet foreign minister assured reporters the initiative was a new one.

''These are new figures and I think they are very impressive,'' Shevardnadze said.

He would not say whether the removed weapons were to be destroyed. ''We will decide this later,'' Shevardnadze said.

He held separate meetings with both East and West German foreign ministers Tuesday. West Germany's delegation to the conference said formal talks between Shevardnadze and Foreign Minister Hans-Dietrich Genscher on the issue of German unification were to be held next week. No venue or precise date was given.

Baker is to speak at the conference Wednesday.

LONDON (JUNE 6) UPI - World Business Tonight, a half-hour prime-time business program focusing on European business news events of the day, was launched this week by Cable News Network and Financial Times Television.

The program, produced by FTTV's London studios, is transmitted twice a night.

''Covering the latest developments from the major financial, commodity and equity markets of Europe and the world, takeovers and acquisitions, corporate performance and the introduction of new products, the program provides timely and relevant information for European business people,'' a statement said.

CNN International is seen in more than 530 hotels and nearly 6 million households in Europe, Middle East and North Africa.

FTTV's programs are viewed in more than 40 coutnries.

PHILADELPHIA (JUNE 5) UPI - A Philadelphia woman who took over her murdered son's cocaine ring was convicted on drug charges in federal court Tuesday following testimony against her by another son.

Myrna Suren, 41, was convicted under the drug kingpin statute for helping to manage and then taking over the so-called ''Gray Tape Gang'' which sold cocaine around the clock from street corners in the city's Hunting Park section.

Suren, who will be sentenced in September, faces a minimum of 20 years in prison without a chance for parole.

Suren's son, Luis ''Sexo'' Ortiz, founded the cocaine ring but was murdered at the age of 20 in 1998 in a crime not related to the drug operation.

During the two-week trial, Suren's other son, Moses Ortiz, 24, testified that his mother helped manage the gang before Luis Oritz' death and then took over its operation, said Assistant U.S. Attorney Robert Reed.

Moses Ortiz, a co-defendant in the trial, pleaded guilty and testifed against his mother in hopes of getting a more lenient sentence. Seven other gang associates corroborated Moses' testimony, Reed said.

Suren maintained her innocence throughout.

The ''Gray Tape Gang,'' named for the color of the tape placed on the packages of cocaine it sold, peddled 260 pounds of the drug between 1987 and June 1989, when 35 gang members were indicted, Reed said.

Thirty-two of those indicted have pleaded guilty and two others are awaiting disposition.

Sentencing for Suren was set for September by U.S. District Judge Hubert Hutton.

#90156u2773 06/05/1990 ~United Press International

LOS ANGELES (JUNE 6) UPI - Cineplex Odeon Corp. and its Los Angeles-based subsidiaries have been sued by a director and two entertainment executives who allege Cineplex backed out of a deal to produce 25 films.

The suit was brought by two executives of New Vision Entertainment Corp., co-chairman Samuel Schulman and chief executive Irvine Levin, and director Angelo Drossos. The trio claims they loaned about $11 million to finance the deal.

Cineplex's alleged actions caused Carolco, a publicly held movie producer and distributor, to back out of negotiations with the plaintiffs to produce the movies - an agreement that would have brought the plaintiffs about $11 million, the suit said.

The case seeks unstated damages plus punitives because Cineplex allegedly interfered with New Vision's deal with Carolco.

A spokeswoman for Cineplex, a theater operator and entertainment company based in Toronto, Canada, said Tuesday that she had ''no information'' about the suit filed Monday in U.S. District Court in Los Angeles.

The suit states Cineplex entered into a joint venture with New Vision Entertainment Corp. to produce 25 movies over five years, with international distribution rights granted to Cineplex Odeon Films

International Inc.

In June 1989, Cineplex announced it would not participate in the deal after the first five pictures, the suit says. At that point, New Vision and the plaintiffs began negotiating with Carolco to complete the transaction ''in lieu of the agreement which Cineplex had breached,'' the suit states.

In turn, Cineplex, which is traded on the New York Stock Exchange, ultimately stopped funding any of the movies. Since late 1989, the joint venture has been funded almost entirely by New Vision - which, in turn, is funded largely by the plaintiffs, the suit said.

Meanwhile, before negotiations for the deal with Carolco could be completed, Cineplex International ''purported to license to foreign independent subdistributors the rights to the very pictures Cineplex wrongfully refused to finance,'' the suit said.

Cineplex's alleged actions caused Carolco to back out of the deal. But had the deal been completed with Carolco, the suit said, the plaintiffs' loans to New Vision would have been collectable.

WASHINGTON (JUNE 6) UPI - Major shareholders controlling over 17 percent of Campbell Soup Co.'s stock formed a voting trust to ''act together as to matters which may arise affecting the company's business,'' according to a report filed Tuesday with the Securities and Exchange Commission.

But the trust does not include the holdings of the three children of John Dorrance Jr., chairman of Campbell Soup until his death last year. Together, the children own some 30 percent of the company's outstanding stock.

Apparently spurred by the SEC filing, the price of Campbell Soup stock rose by $3.375 to $60 a share in trading Tuesday on the New York Stock Exchange.

Establishment of the trust, undertaken by three other members of the Dorrance family, follows a series of operational changes instituted by David Johnson, who took over as Campbell Soup's president and chief executive officer last January.

One operational change put into effect by Johnson occurred in May, when he moved to improve Campbell Soup's productivity and profits by selling several of the company's weaker overseas holdings, including part of Freshbake Foods Group PLC in the United Kingdom and D. Lazzaroni & Co., an

Italian cookie business.

The new voting trust will control 22.5 million shares, or 17.4 percent, of Campbell Soup's outstanding capital stock.

Forming the trust ''does not reflect dissatisfaction with David Johnson,'' the SEC filing said.

''On the whole, (trust members) support ... Mr. Johnson's efforts to improve the company's profitability, but they continue to believe that the best interests of the shareholders would be served by the sale of the company.''

Any notion of selling the company, however, would probably conflict with the plans of the Dorrance children, who collectively own about 40 million shares of Campbell Soup stock.

While the children, who each own approximately 13 million shares, do not hold their stock together, they have indicated that they all want to keep control of the company.

Bennett Dorrance, one of the three children, said in an SEC filing made lastDecember that all three want to retain ''their respective equity interests in the company for the long term and (further) a common objective of promoting the long-term growth of the company.''

Belonging to the newly created trust are Samuel and Dorrance Hamilton, John and Hope van Beuren, and Charles and Diana Norris.

Under the terms of the trust, voting decisions must be unanimous.

Campbell, based in Camden, N.J., has annual revenues of about $4.87 billion.

(JUNE 5) UPI - A proposed tough new anti-crime package became even more bogged down in the Senate today. A vote to cut off debate and force a final vote on the anti-crime legislation fell six short of the number needed to impose cloture. The crime measure would expand the federal death penalty and ban military-style assault weapons. But in its present form, the bill contains almost 300 amendments.

President Bush met today with Colombian President Virgilio Barco two months before Barco leaves office. Barco says his successor, President-elect Cesar Gaviria, ''will continue the fight'' against drugs. He also said he's confident that his successor will ''receive the backing

of the U-S-A.'' Barco leaves office August 7th.

Marilyn Quayle told the National Press Club today that the 1988 campaign that often focused on her husband's qualifications to be vice president was an ''ugly chapter in journalism and an ugly chapter'' in her life. But the wife of Vice President Quayle told reporters she does NOT want to dwell on the past. Mrs. Quayle predicts there will someday be a woman Republican president.

Members of the House today approved creation of a 100-Million-dollar fund to compensate cancer victims exposed to fallout from above-ground nuclear weapons tests. Compensation would also go to miners who dug the uranium ore that went into the bombs. The legislation now goes to the Senate, where the Labor and Human Resources committee has endorsed a similar measure. The Bush administration opposes the bill.

NEWARK, NJ (JUNE 6) UPI - A New Jersey businessman charged with using a baseball bat against potential rivals to his retail candy companies must remain behind bars to await trial, a judge said Tuesday.

U.S. District Judge Maryanne Trump Barry agreed with federal prosecutors who argued that Gerald Winters poses a threat to witnesses if he is released.

Defense attorney Bruce Cutler argued that house arrest would be most appropriate for his client, but Barry said the only way she could ensure the public safety would be to place Winters under house arrest and turn his Norwood home into ''an armed fortress.''

Winters and nine subordinates and associates were arrested two months ago after a long federal investigation into his network of companies. Prosecutors described him as a ''corporate terrorist'' and said he had used beatings, arson and threats against competitors and disloyal employees for 20 years.

Bruce Cutler, a New York lawyer best known for his successful defense of reputed Gambino crime family boss John Gotti, said that if federal agents could follow Gotti for years, they could spare a few people to check up on Winters at his house.

''We're not dealing with a dangerous animal,'' Cutler said.

Winters and the other defendants are charged under the Racketeer Influenced and Corrupt Organizations Act. An indictment unsealed at the time of Winters' arrest listed specific acts of violence in California,

Texas, Florida and other states that he allegedly ordered or carried out himself.

Barry set an October trial date.

While Winters remains in a federal lockup in Manhattan, his co-defendants were released on bail soon after the arrests.

Defense lawyers argue that Winters is a successful businessman who has been set up by competitors.

At a bail hearing before a federal magistrate shortly after his arrest, witnesses described acts of charity like donating free candy to the local Little League and said Winters had been named a New Jersey businessman of the year and had seen his company listed as one of the best for employees.

Winters owns candy manufacturing plants. His companies use an army of teenagers to peddle his products door-to-door in 30 states.

He was also a pioneer in the liquor-filled candy business, lobbying in New Jersey and other states to change laws barring such candies from being sold.

NIAGARA FALLS, ONTARIO (JUNE 5) UPI - A 28-year-old man rafted by kayak Tuesday over Niagara Falls in a stunt that took a decade to plan and apparently killed him, authorities said.

Onlookers watched in horror as the Tennessee man ''white-water rafted over the falls,'' Niagara Parks Police Constable Steve Kelly said.

Kelly said the man's name and hometown were not being released until his family could be notified.

The man went over the Horseshoe Falls, also known as the Canadian Falls, which is 160 feet high, about 1:45 p.m., and hours later there was no trace of the man, although debris from his kayak was recovered. The officer said the man was presumed drowned.

Kelly said investigation revealed ''it was a stunt the man had been planning for 10 years.''

Kelly said it was the first time someone had gone over the falls in a kayak.

Last September, Peter DeBernardi and Jeffrey Petkovich became the first

two-man team to attempt and survive a trip over the falls. The Niagara Falls men used a 1,500-pound steel and styrofoam container to perform their stunt.

The first person to survive the trip was Annie Edson Taylor, a Bay City, Mich., schoolteacher who went over in a barrel in 1901.

#90156u2868 06/05/1990 ~United Press International

(JUNE 5) UPI - North Carolina Democrat Harvey Gantt easily won his battle to become the Tarheel state's first black Senate nominee Tuesday, while Democrat Dianne Feinstein fought to be the first woman gubernatorial choice of a major party in California.

The two races were among the premier contests of the busiest voting day of the year thus far, as primaries were held in nine states.

Incumbent senators and governors generally looked forward to an easy day, facing little serious opposition in any of the states where they were challenged.

In North Carolina, Gantt, 47, a former mayor of Charlotte, easily defeated attorney Michael Easley and won the right to face conservative Republican Sen. Jesse Helms in November.

With 11 percent of precincts counted, Gantt had 34,342 votes, or 60.2 percent, to 22,699 votes, or 39.8 percent, for Easley.

Gantt and Easley finished first and second in a six-candidate primary May 8.

By winning the Democratic nomination, Gantt became the first black to win nomination to a major post in North Carolina history.

But the most-watched race was in California, where Feinstein, a former San Francisco mayor, tried to hold a lead against state Attorney General John Van de Kamp and become the first woman gubernatorial nominee in the Golden State.

On the Republican side there was no serious primary contest as Sen. Pete Wilson faced only token opposition.

The general election winner will succeed two-term Republican Gov. George Deukmejian, who decided not to run for a third term.

Early in the campaign, Van de Kamp was considered a heavy favorite, but a media push by Feinstein propelled her to the lead in most surveys.

Going into the last weeks of the race, polls showed Feinstein and Van de Kamp running neck and neck. But two surveys released last weekend - by the Los Angeles Times and the Field Institute - gave Feinstein a double-digit lead, although huge segments of the electorate remained undecided.

As he ended his campaign, Van de Kamp tried hard to downplay the polls, going so far as to suggest that voters, especially women, have misled pollsters.

The closing days of the campaign were also marked by an increase in negative commercials from both camps, leading to some speculation that Democrats might hurt themselves far in advance of the fall campaign against the GOP.

The voting in nine states Tuesday made it the most crowded primary day of the year thus far.

In Washington, the Justice Department sent federal observers to two counties in Alabama and two in New Mexico to assure that blacks and Indians are allowed to vote without interference.

Highlights of other states holding primaries Tuesday included:

-Alabama: Republican Gov. Guy Hunt had only token opposition, while there was a five-person Democratic race for the right to challenge him. Sen. Howell Heflin, D-Ala., had little opposition and Republican Bill Cabiniss was unopposed.

-Iowa: Republican Gov. Terry Branstad was unopposed, but there was a close three-way Democratic primary for the right to face him in November and abortion was a key issue. In the state's hot Senate race, neither incumbent Democrat Tom Harkin nor GOP challenger Tom Tauke had any primary opposition.

-Mississippi: Republican Sen. Thad Cochran had no opposition. There is no Democratic candidate.

-Montana: Sen. Max Baucus, a Democrat, had only minor opposition. Four Republicans fought for the right to challenge him.

-New Jersey: There was nothing but token opposition for Sen. Bill Bradley, a Democrat seeking his third term.

-New Mexico: Republican Sen. Pete Domenici and his Democratic challenger, Tom Benavides, had no opposition. However, both parties had primaries for the gubernatorial post being vacated by Republican Garrey Carruthers.

-South Dakota: There was no opposition for any of the major candidates: Republican Sen. Larry Pressler, his Democratic challenger, Ted Muenster, Republican Gov. George Mickelson or Democrat Bob Samuelson.

#90156u2885 06/05/1990 ~United Press International

BOSTON (JUNE 5) UPI - The American League suspended Boston Red Sox Manager Joe Morgan for three games Tuesday after the frank-speaking skipper said his team agreed to ''get even'' for a close pitch against the Cleveland Indians.

On Sunday, the two teams engaged in a bench-clearing brawl after Boston starter Roger Clemens hit Stan Jefferson with the second pitch of the game.

After the melee, Morgan made no attempt to disguise his team's intentions to retaliate for a pitch Cleveland reliever Doug Jones threw near the head of Tony Pena the night before.

''We got even, didn't we?'' Morgan said after the game. ''We voted 34-0 that it would be such. I loved it.''

However, American League President Dr. Bobby Brown didn't.

''Major League Baseball does not take place in the drawing room,'' Brown said upon handing down the suspension. ''The fact that pitchers throw close to hitters and sometimes deliberately hit them is a known fact. Nevertheless, it behooves the American League office to eliminate premeditated and announced violence.

''This cannot be condoned and increasing suspensions and fines will be imposed if the practice continues.''

The suspension was to begin Wednesday night, barring an appeal by Morgan. Third-base coach Rac Slider was expected to manage the team in Morgan's absence.

After Pena was knocked to the ground by Jones on Saturday night, he vowed that ''somebody's going down'' the next day.

Clemens made good on the threat the next day, causing both benches to empty and several scuffles to break out. Pena, who had not started, and Cleveland's Chris James were ejected.

Jefferson had to leave the game for X-rays - which were negative - and still was unable to swing a bat Tuesday.

After the game, the Red Sox celebrated the stand taken by their ace,

prompting Cleveland to send videotapes to the American League office asking for suspensions.

''There were some inflamatory quotes coming out of that clubhouse,'' Cleveland Manager John McNamara said.

The two teams are scheduled to meet in Boston this weekend. McNamara believes that the incident is ''over and done with.''

Brown announced the punishment just prior to Tuesday's game against the New York Yankees. He appeared to leave the door open for the suspension of players.

''Discipline of other players has not been finalized, as the videotape and umpire's report are still to be evaluated,'' Brown said. ''In a situation such as occurred between the Boston Red Sox and Cleveland Indians, however the managers are held responsible for the actions of their teams.''

The suspension was the second handed down by Brown this season. Baltimore Manager Frank Robinson was suspended last month for three games for bumping an umpire.

#90156u2996 06/05/1990 ~United Press International

(JUNE 5) UPI - The Senate today refused to limit debate on a tough new anti-crime package under consideration. The failure to impose so-called cloture threatens passage of the legislation, which calls for an expanded federal death penalty, expedited executions of death row inmates and a ban on military-style assault weapons. The bid to invoke cloture and force an immediate vote fell six short of the 60 needed. Delaware Democrat Joe Biden predicts there'll be enough votes to end debate on Thursday.

NO progress is reported in Canada's constitutional impasse. Political leaders from Canada's 10 provinces are meeting for the third straight day to try to resolve difficulties stemming from the so-called Meech Lake Accord. The accord calls for preferential treatment for Quebec to preserve its French heritage. But opponents of the measure argue its passage could lead to discrimination by Quebec against NON-French speakers.

Liberian rebels have taken full control of Buchanan, the nation's second-largest port. Many citizens and soliders have died in two weeks of fighting that reduced large parts of the city to rubble. A new attack that began Sunday and ended early yesterday morning enabled rebel leader Charles Taylor's forces to chase government troops from the city.

Michigan authorities say they will seek an injuction to bar the use of what they refer to as a ''suicide machine.'' The device was created by

retired pathologist Dr. Jack Kevorkian and voluntarily used yesterday by a 54-year-old woman suffering from Alzheimer's Disease. Kevorkian says he did NOTHING illegal, but he adds he's ready for any charge which authorities may wish to file. Authorities are withholding charges pending an investigation.

#90156u3012 06/05/1990 ~United Press International
(JUNE 6) UPI - DIGEST:

Basketball

Bob Bass, who reshaped the San Antonio Spurs into the most-improved team in NBA history, was named the league's Executive of the Year by The Sporting News. Bass made sweeping changes that resulted in 10 new players this season, including trades for Terry Cummings, David Wingate and Rod Strickland. ... LA Clippers trainer Bernie La Reau was relieved of his duties Monday by General Manager Elgin Baylor. La Reau was with the team for three seasons. No replacement was immediately named.

Boxing

The contract dispute between heavyweight champion James ''Buster'' Douglas and promoter Don King will go to trial June 26 in Manhattan. Douglas and his manager, John Johnson, sued King in an attempt to break the promoter's multi-fight contract with the champion. The suit was filed 11 days after Douglas scored a startling 10th-round knockout of Mike Tyson in Tokyo to win the title. King has filed a countersuit to hold Douglas to his contract. ...

Douglas has formally begun training for the first defense of his title, though the date and opponent have yet to be decided. Douglas said it will take him about two weeks go get back in shape.

Cycling

Gianni Bugno of Italy virtually assured his victory in the Tour of Italy by dominating the next-to-last stage. Bugno completed the 39-kilometer individual time trial from Gallarate to Sacro Monte in 58:04 - 80 seconds ahead of his nearest competition. Bugno stretched his overall lead to 6:33 over second-place Charly Mottet of France.

... Australian Shane Sutton kept out of trouble to retain the lead in the seventh day of the Tour of Britain. Sutton finished the 102-mile stage from Bridlington in the chase pack as Uwe Preissler gave East Germany its second stage victory in a row.

Football

Washington defensive back A.J. Johnson underwent reconstructive surgery on his right knee Tuesday and probably will miss the entire 1990 season. Johnson, a rookie last year, tied for the team lead in interceptions with four and doubled as a kick returner.

Hockey

Russ Farwell, general manager of the Western Hockey League's Seattle Thunderbirds, was named GM of the Philadelphia Flyers. Farwell was selected to replace Bob Clarke, who was fired in April. He is the first NHL general manager to come from junior hockey since 1967.

Horse Racing

A wide-open field for the 210-year-old Derby at Espom Downs was expected to draw a record $67 million in wagers. The 3-year-old colts and fillies will race Wednesday across 1 1/2 miles of the rolling Epsom Downs for a $1 million purse. ... The $250,000 Statue of Liberty International Trot at the Meadowlands has been rescheduled to July 21 in an effort to lure a more select group of trotters.

Olympics

International Olympic Committee President Juan Antonio Samaranch said he wants fewer athletes at the 1992 Barcelona Olympics. He has been told by the Barcelona Organizing Committee that it cannot accommodate more than 15,000 athletes and officials.

Soccer

Self-styled king of the English soccer hooligans Paul Scarrot has been deported after conviction on charges of entering Italy on a false passport. Scarrot, with a long arrest record for soccer-related violence, was on a list of 100 Britons whose passports had been confiscated by Scotland Yard in an effort to prevent troublemakers from traveling to Italy for the World Cup.

Track and Field

Former world champion javelin-thrower Fatima Whitbread has vowed that a shoulder operation will not prevent her from returning to international competition. Whitbread broke a bone in her right shoulder at the British Championships and now is out of contention for a place on the British team for the European Championships in August.

#90156u3042 06/05/1990 ~United Press International
(JUNE 5) UPI - The federal prosecutor in the drug and perjury trial of Washington, D-C, Mayor Marion Barry says there's NO truth to Barry's claim that the government leaked vidotaped evidence to a television station. U-S Attorney Jay Stephens said Barry may have be using the accusation as a ploy to affect potential jurors in his case. A Washington T-V station reported today that Barry's lawyers may have accidentally leaked the videotape.

A study published in the Journal of the National Cancer Institute supports the suspicion that dietary fat and lack of exercise may boost the risk of colo-rectal cancer. A study of 35-hundred Chinese people found that the risk for colo-rectal cancer increased with the proportion of saturated fat in the diet for both sexes in China and North America. The risk also rose along with the amount of time spent sitting.

In Washington, D-C, the pilot who survived a bizarre one-thousand-mile flight down the East Coast in a small plane last summer pleaded guilty today to five felony counts of defrauding clients and the federal government. The other 28 charges against communications lawyer Thomas Root were dropped as part of a plea agreement, in which Root pledged to co-operate in any related investigations. Root's light plane ran out of fuel and plunged into the Atlantic but he survived despite a gunshot wound in his stomach.

A stock analyst fired after questioning Donald Trump's wisdom in opening the opulent Taj Mahal casino in Atlantic City may benefit from financial troubles now being experienced by Trump. An attorney for analyst Marvin Roffman says Trump's cash-flow crunch confirms Roffman's position and strengthens a lawsuit the veteran gaming industry analyst is pursuing against Trump.

#90156u3180 06/05/1990 ~United Press International
(JUNE 5) UPI - Mikhail Gorbachev returns to Moscow and fresh ethnic unrest... Senate refuses to end debate on crime bill... and a mixed report on the environment. All from the wires of U-P-I, next:

Soviet President Gorbachev encountered a much different greeting when he arrived back in Moscow today.

One dozen members of the Politburo and the Presidential Council were on hand to welcome him back from his six-day U-S summit visit... a far cry from the hordes of Americans who fondly lined his motorcade routes.

Gorbachev's return home comes amid pressing economic and social

difficulties which could act to impede his perestoika program.

An economic formula recently proposed by his government as a step toward a market economy has been discredited by critics as ineffectual. The parliaments in two of the Soviet Union's largest republics have said ''NO'' to the plan. And the Russian parlimanet has hinted that it too may reject the hikes.

Also now heading the Russian Republic is Boris Yeltsin, a brash politician whose personality- coupled with the tough economic times throughout the communist giant- might serve to propel him past Gorbachev.

Gorbachev also faces growing nationalism problems throughout the vast and diverse Soviet Union.

-30- 1429

#90156u3230 06/05/1990 ~United Press International

(JUNE 5) UPI - The White House is giving the nation a mixed grade in a report highlighting the 20th anniversary of the original Earth Day celebration. It cites both improvements and further deterioration in the environment.

The 494-page report comes from the White House Council on Environmental Quality. It says progress during the past 20 years has ended the link between economic growth and environmental problems.

It notes, in particular, declines in pollution sources such as lead and sulfur dioxide during a time when the economy grew by 70 percent in real terms.

Council Chairman Michael Deland says that shows the nation can have both a growing economy and a clean environment.

But the council also notes that while a switch from leaded gasoline has resulted in a 96 percent decrease in total annual lead emmissions, more than 100 cities in 1989 still exceeded federal health standards for ozone smog.

The drug war and trade relations were major topics during a 40-minute White House meeting today between President Bush and outgoing Colombian President Virgilio Barco.

The meeting was partially built on a foundation laid down February 15th when Bush attended a drug summit in Colombia.

Barco leaves office August 7th. He got U-S backing last year when he escalated his own drug war but the results are considered mixed. But he

told Bush that his successor, President-elect Cesar Gaviria , will continue the battle.

#90156u3295 06/05/1990 ~United Press International

(JUNE 5) UPI - People exposed to fallout from above-ground nuclear weapons tests and the miners who dug the uranium that went into the bombs could benefit from a bill passed by the House today.

The measure creates a 100-Million-dollar fund for such cancer victims. It goes to the Senate next where a similar measure has won committee endorsement. But a companion appropriations bill must also win approval.

There were 223 above-ground nuclear blasts at the Nevada Test Site in the 1950's and 1960's. The bill would help the estimated 600 to 800 people in Nevada, Utah and the northwestern corner of Arizona who developed cancer.

It also covers the 250 to 450 miners who contracted cancer after digging uranium in Utah, Arizona, Colorado and New Mexico from 1947 to 1971.

The House-passed bill would give miners up to 100-thousand dollars. So-called ''Downwinders'' could get payments of up to 50-thousand dollars. Survivors of the victims would also be eligible for compensation.

Donald Trump's problems may jump into the federal court spotlight next if a class action suit filed in New York goes anywhere. It was filed against Trump on behalf of holders of bonds in two of his Atlantic City casinos.

The action comes from Peter Stuyvesant Limited, described NO further in court papers other than- quoting now- ''a corporation.'' It seeks UNspecified ''compensatory'' damages charging breach of contract and fraud.

In an odd twist, the suit itself mentions news media reports that two Stuyvesant interests violated bondholders' covenants by NOT charging Trump's newly opened Taj Mahal casino for a list of high rolling gamblers.

The Taj Mahal is drawing its own publicity with reports that Trump is asking more time to pay a one-point-six-Million-dollar bill on fees already 30 to 60 days overdue.

The reports involve the Perini Corporation, a Framingham, Massachusetts, construction firm that has worked with Trump before. The casino opened in April but subcontractors are owned more than 50-Million dollars.

Trump's financial woes are now getting the same media play that his private life has received... but a Trump spokesman says there is NO connection between the two.

The developer admitted yesterday he is meeting with major bank creditors. But he refuses to say if he is facing a major cash crisis.

-30- 2525

#90156u3362 06/05/1990 ~United Press International

(JUNE 5) UPI - Democrat Harvey Gantt is North Carolina's first black Senate nominee. Gantt easily beat attorney Michael Easley for the nomination. Primaries were held today in nine states around the country. In California, Democrat Dianne Feinstein is trying to become the first female gubernatorial choice of a major party in the Golden State.

New Jersey's Supreme Court says state aid will have to be used to bring poor school districts to the level of the richest. Today's ruling strikes down New Jersey's property tax-dependent system of paying for public schools.

Lawyers welcomed the New Jersey ruling in Illinois, where a similar court challenge to school funding is being drafted. The head of the group of Illinois school districts planning to sue the state says- ''it gives us greater hope.''

Delaware Senator Joseph Biden blames senators with alliances to the National Rifle Association for refusing to force a final vote on a tough anti-crime package. But the Democrat predicts senators will change their votes Thursday and cut off debate on the measure that would ban military-style assault weapons.

Soviet President Gorbachev is back in Moscow, leaving adoring crowds in the United States and Canada behind. Gorbachev faces long-term problems with the economy and nationalism... as well as an immediate crisis with ethnic violence in a central Asian republic.

A bomb scare prompted a Pan American jet to make an emergency landing today in Scotland. The flight carrying 288 passengers was diverted after a man said a bomb might be aboard. NO bomb was found and the man was detained by police.

#90157b0003 06/06/1990 ~Business Wire

LOUISVILLE, CO (JUNE 6) BUSINESS WIRE - Storage Technology Corp. (NYSE:STK) Wednesday announced the promotion of Fred Moore to corporate vice president, long-range strategic planning.

In his new position, Moore will continue to report to Ryal Poppa, StorageTek chairman, president and chief executive officer. Moore

previously held the position of staff vice president of strategic planning.

''Fred's contributions to StorageTek have proven invaluable to our growth. His understanding of where we are today and his vision of our future make Fred the right person to coordinate StorageTek's five- and 10-year planning effort,'' said Poppa. ''Personally, I am very proud of Fred and the respect he has earned from experts both inside and outside the company.''

Moore is the author of numerous articles including ''Large Systems Trends and Directions,'' ''The Development and Evolution of Direct Access Storage Devices, 1956 to 1990,'' and ''The Future of Storage Management.''

He is a requested speaker at industry conferences around the world and has spoken at the European Computer Measurement Association Conference, the Gartner Group Storage Conference, Computer Measurement Group (CMG) meetings, the Xephon Storage Management Conference in London and SHARE, among others.

Moore joined StorageTek in 1976 as the company's first systems engineer. He has held various positions in the product marketing and systems marketing areas. He earned a bachelor's degree in mathematics and a master's degree in computer science/physical geography, both from the University of Missouri. In 1989, Moore's alma mater honored him with its Arts and Science Distinguished Alumnus award.

MINNEAPOLIS (JUNE 6) BUSINESS WIRE - As this nation draws nearer to the year 2000, one prediction made by futurists is unlikely to come true: a cashless society.

For as the nation's leading issuer of money orders celebrates its 50th year in business on June 12, Travelers Express Co. Inc., continues to bank on an estimated 15 percent of households that handle finances on a cash basis.

And with an estimated annual growth rate of 5 percent for the money order market, Travelers Express expects to continue to profit from an industry that has taken the company from a one-man operation in 1940 to the market leader today.

With about 800 million money orders sold annually, it's estimated that money order sales constitute the exchange of over $68 billion a year, according to the industry's Nilson Report.

Together, Travelers Express and its recently acquired subsidiary, Republic Money Orders Inc., issue 245 million money orders worth an estimated $21 billion each year, as compared to the second highest seller, the U.S. Postal Service, issuing 144 million annually.

Money orders first appeared during the Civil War when the postal money order system was devised as a means for Union solidiers to send their army pay home. After the war, the post office extended the service to all citizens.

First called Checks Inc., Travelers Express was founded in 1940 in Minneapolis by Elmer A. Dalldorf, with its original business as selling bondified money orders and postcard checks (a type of money order) to banks to use in place of cashiers' checks.

Travelers Express Co. Inc. supports its money order business with official check and share draft services. Travelers Express is the largest volume processor of share drafts/checks for the credit union industry and is a leader in official check processing.

Greyhound Dial Corp., parent compnay to Travelers Express, operates companies in four areas of business: consumer products, services, transportation manufacturing and financial services. Greyhound Dial sold Greyhound Bus Lines in 1987.

BOULDER, CO (JUNE 6) BUSINESS WIRE - EXABYTE Corp. (NASDAQ:EXBT) Wednesday announced the signing of four European OEM agreements, expanding EXABYTE's penetration into the rapidly growing overseas market.

The contracts with Bull, Nixdorf, Philips and Siemens represent a combined forecasted value of approximately $20 million over the next three years.

EXABYTE President Peter Behrendt said, ''We have established business relationships with each of these large European OEMs to provide them with the 8mm cartridge tape subsystem for their unattended backup requirements. All four international companies base their reputations on maintaining very stringent quality standards and we're proud that the EXB-8200 meets those exacting standards.''

Bull will integrate the EXB-8200 8mm Cartridge Tape Subsystem into its DPS 7000A computer, a compact department-size mainframe which incorporates

5-1/4 inch Winchester drives. Bull, headquartered in Paris, France, is a $7 billion (U.S. dollars) corporation with 47,000 employees worldwide.

Philips Information Systems, headquartered in Apeldoorn, The Netherlands, selected the EXABYTE tape drive because of its excellent characteristics in price/performance, applicability and high storage capacity. The EXB-8200 will be used for unattended backup on its minicomputer and optical filing systems. Manufacturing a range of data processing equipment, Philips Electronics employs 300,000 people worldwide and posts annual revenues of $30 billion (U.S.).

Siemens, one of the world's major electrical engineering and electronics companies, selected the EXB-8200 for unattended backup of its UNIX/SINIX Computer Systems. These systems are used for a wide range of applications. Headquartered in Munich, Germany, Siemens reports annual revenues of $67 billion (U.S.) and employs 365,000 people worldwide.

EXABYTE Corp. is a worldwide leader in high-capacity, cost-effective 8mm cartridge tape subsystems which are used primarily with workstations, network file servers and minicomputers. Headquartered in Boulder, EXABYTE markets to original equipment manufacturers, value-added resellers, system integrators and distributors.

#90157b0037 06/06/1990 ~Business Wire

DENVER (JUNE 6) BUSINESS WIRE - CREDO Petroleum Corp. reported Wednesday that for the second quarter ended April 30, 1990, net income increased 8 percent to $146,000, or 4 cents per share, on revenues of $485,000, compared with net income of $135,000, or 4 cents per share, on revenues of $441,000 last year.

Cash flow from operations increased 8 percent to $284,000 compared to $262,000 last year.

For the six months ended April 30, 1990, net income increased 13 percent to $272,000, or 8 cents per share, on revenues of $960,000, compared with net income of $240,000, or 7 cents per share, on revenues of $803,000 last year. Cash flow from operations increased 21 percent to $565,000 for the six months ended April 30, 1990, compared to $466,000 for the same period last year.

James T. Huffman, president, said that 1990's record results reflect the combination of improved gas production and increased oil prices. Gas production increased primarily due to enhanced production at the company's

Bear Creek and San Arroyo Fields and a new market for gas from the company's southwest Kansas wells.

Production volumes reached record levels in the first half of 1990. Gas production rose 12 percent to a record 165 million cubic feet in 1990 compared to 148 million cubic feet last year. Oil production increased 6 percent to 19,600 barrels compared to 18,500 barrels last year.

Gas prices received during the first half increased 8 percent to $1.54 per thousand cubic feet compared to $1.43 last year. Oil prices rose 22 percent to $18.79 per barrel compared to $15.35 last year.

At second quarter-end, working capital totaled $3,561,000, up $467,000 or 15 percent from $3,094,000 last year. Total assets were $9,207,000 including cash and temporary cash investments of $3,662,000. Shareholders' equity was $8,240,000 and the company had no debt.

CREDO Petroleum Corp. is a publicly traded independent oil and gas company based in Denver. The company's stock is traded on the NASDAQ System under the symbol CRED and is quoted daily in the ''NASD Bid & Asked Quotations'' section of ''The Wall Street Journal.''

MIDVALE, UT (JUNE 6) BUSINESS WIRE - Broadcast International Inc.'s (NASDAQ: BRIN) common stock will be listed in the NASDAQ National Market System commencing June 5.

Dwight H. Egan, president, stated that Broadcast International's entry into NMS provides investors with the best of both worlds - the continuous transaction data of the exchanges and the vigorous competition among multiple market makers that are the hallmarks of NASDAQ.

Stockbrokers will be able to provide last-sale prices and up-to-the second volume information on the company's common stock for their customers throughout the trading day. Broadcast International will be included in the NMS newspaper stock table which shows high, low and closing prices for the most active and prominent NASDAQ securities.

The quotation symbol for Broadcast International, which is projecting sales of approximately $15 million in 1990, is BRIN. There are currently several firms making a market in Broadcast International Inc. stock.

Broadcast International provides satellite-delivered business information and network services including background music, point-of-purchase advertising, high-speed data transmission, video and audio conferencing,

and satellite installation and maintenance services. Its customers include financial data network clients and leading food, drug, home improvement and general merchandise retailers and wholesalers.

CONTACT: Broadcast International, Midvale, Reed L. Benson, (801) 562-2252.

#90157b0045 06/06/1990 ~Business Wire

LINCOLN, NE (JUNE 6) BUSINESS WIRE - Isco Inc. (NASDAQ:ISKO) Wednesday reported earnings of $728,000, or 17 cents per share, on revenues of $7,518,000 for the third quarter ended April 27, 1990.

This compares with earnings of $862,000, or 21 cents per share, on revenues of $7,805,000 for the same period one year ago.

Earnings for the nine months just ended were $2,173,000, or 52 cents per share, on revenues of $22,566,000. This compares with earnings of $3,103,000, or 75 cents per share, on revenues of $23,973,000 for the same period last year. Cashflow from operations declined only 8 percent, from $2,015,000 to $1,863,000, despite the drop in earnings.

Robert Allington, president of Isco, said, ''We have experienced improved sales and operating profitability for the Environmental Division over the three quarters of fiscal 1990. However continued market softness for the Instrument Division has led to declining sales and profitability during fiscal 1990.''

''We are encouraged that overall incoming orders for the nine months just ended were about 2 percent ahead of the same period last year,'' he added.

Environmental Division orders were 4.5 percent higher while Instrument Division orders were 2.2 percent lower.

For the third quarter, overall orders were 8.5 percent higher when compared with the same period one year ago. Environmental Division orders were 17.5 percent higher while Instrument Division orders were 3.7 percent lower.

For the third quarter of fiscal 1990 the Environmental Division had operating income of $954,000. This compares with $805,000 and $655,000 for the second and first quarters respectively. For the third quarter of fiscal 1990, the Instrument Division had an operating loss of $138,000. This compares with operating income of $155,000 and $172,000 for the second and first quarters respectively.

Isco manufactures water pollution monitoring equipment including flow measuring devices, and is the leading manufacturer of wastewater samplers.

Isco also manufactures chemical separation instruments for use in biochemistry and biotechnology research.

#90157b0052 06/06/1990 ~Business Wire

SOUTH SAN FRANCISCO, CA (JUNE 6) BUSINESS WIRE - Genentech Inc. announced that the U.S. Food and Drug Administration (FDA) this week granted the company a license to market Activase, tissue plasminogen activator (t-PA), for the treatment of acute massive pulmonary embolism, or obstruction of the arteries of the lungs.

Activase, a biotechnologically derived product originally licensed for the treatment of patients with acute myocardial infarction, or heart attack, has now been proven to produce moderate or marked dissolution of blood clots lodged in the blood vessels of the lungs.

"The licensing of Activase for treatment of pulmonary embolism is an important step forward in realizing the full potential of clot- dissolving agents," said G. Kirk Raab, president and chief executive officer of Genentech. "We believe that the effectiveness of Activase has the potential to make it as important in the treatment of pulmonary embolism as it has become in the treatment of heart attacks."

Clinical trials of patients suffering from pulmonary embolism demonstrated that Activase provides safe and effective treatment.

"Among appropriately selected patients, t-PA works quickly and safely to help restore blood flow in acute pulmonary embolism," said Samuel Z. Goldhaber M.D., staff cardiologist at Brigham and Women's Hospital in Boston, and associate professor of medicine at Harvard University Medical School. "It appears that thrombolytic agents may have an important role in reducing the complications that generally result from severe pulmonary embolism."

t-PA is an enzyme which is produced naturally in small amounts by the body to dissolve forming blood clots. In situations of respiratory or cardiac distress caused by blockage in the pulmonary or coronary blood vessels, the body is unable to produce its own t-PA in sufficient quantities to quickly dissolve the clots.

Thus, Activase can be administered intravenously to more rapidly trigger

the body's own clot-dissolving mechanism. By dissolving the clot, Activase restores critical blood flow, thereby helping to salvage the endangered lung tissue or heart muscle.

Genentech Inc. is a leading biotechnology company focusing on the development, manufacture and marketing of pharmaceuticals produced by recombinant DNA technology.

SAN FRANCISCO (JUNE 6) BUSINESS WIRE - Subscribers to SABRE, American Airline's computerized reservations system, will now be able to access timely travel guidebook information right at their keyboards.

Worldview Systems Corp., makers of the Update series of destination information software announced Wednesday that its product line will be made available to travel professionals through the SABRE Travel Information Network (STIN).

This is the first arrangement Worldview has established with a computerized reservation system. The company is currently in negotiation with several others CRS vendors.

Announcement of the Worldview-Sabre arrangement was made at the recent SABRE subscriber conference held in Toronto, Ontario, Canada.

Worldview's flagship software package, Update/Europe (TM), will be the first product offered through STIN. The software offers an extensive database of up-to-the-minute European travel information that is often very difficult to find.

Travel professionals can use the software to develop a customized calendar of events and activities listing for clients known as the Worldview TripPlan.

Worldview and SABRE officials estimate that half of its subscription base will be using Update/Europe within the next year.

Worldview Systems is based in San Francisco, and has its European headquarters in Paris. Founded in 1987, the company introduced the first package in its update destination database series in 1989. Worldview will unveil Update/USA (TM) in the Fall of 1990, and will expand the software series to cover other regions in the near future.

#90157b0073 06/06/1990 ~Business Wire

DENVER (JUNE 6) BUSINESS WIRE - AIRCOA Hospitality Services Inc. announced operating results for its first quarter ended March 31, 1990.

Management fees for the first quarter of 1990 were $2,478,000 vs. $2,378,000 for the first quarter of 1989. Total revenues for the first quarter of 1990 were $3,601,000 vs. $4,171,000 for the same quarter in 1989.

A net loss of $202,000, or 4 cents per share, on 5,675,822 weighted average shares outstanding for the first quarter of 1990 compared to net income of $213,000, or 4 cents per share, on 5,675,822 weighted average shares outstanding for the first quarter in 1989.

Total revenues for the first quarter of 1990 decreased over the same quarter of 1989, even though management fees were slightly higher. This decrease in total revenues is principally a result of a management contract termination fee earned in 1989 with no corresponding fee in 1990.

AIRCOA Hospitality Services Inc. is a Denver-based company providing hotel management services on a contract basis since its inception in 1968. It currently manages approximately 50 hotels and resorts nationwide representing approximately 14,000 rooms including Clarion, Sheraton, Hilton, Quality, Comfort and independents.

#90157b0083 06/06/1990 ~Business Wire

SUNNYVALE, CA (JUNE 6) BUSINESS WIRE - Advanced Micro Devices Inc. Wednesday announced it extended a technology and marketing agreement with volume optoelectronic component manufacturer BT&D Technologies, a joint venture company of British Telecom & DuPont.

The extended agreement covers AMD's new fiber optic TAXI module, the FOXI solution, which is also being announced today.

The FOXI transmitter and receiver each occupies the same amount of space on a printed circuit board as does a standard 28-pin integrated circuit. The circuits are pin-compatible with AMD's TAXIchip products and therefore can be used on boards already set up for coaxial cable to lengthen data transmission distances.

Major applications for FOXI today are in proprietary local area networks, PBXs and computer interconnections. AMD estimates that the total available North American market for the new devices could reach more than $30 million in four years.

The FOXI set operates at a speed of up to 125 megahertz and can transmit data at a rate of up to 100 megabits per second, about 10 times the speed

of today's common wire-based data transmission links.

BT&D technologies, a joint venture of British Telecom and Du Pont, is a volume producer of standard and advanced optoelectronic components for use in telecommunications, data communications and R&D applications. The company's product line includes optoelectronic transmitters, receivers, couplers, switches, data communications components and research products.

Development and manufacturing, as well as European operations, are headquartered in Ipswich, U.K. North American headquarters are located in Wilmington, Del.

The FOXI solution is one of AMD's World Network products. AMD's World Network products provide OSI subnets for the Information Age. World Network products include: Ethernet and 10BASE-T solutions, the SUPERNET set for the Fiber Distributed Data Interface (FDDI), the industry's most complete solution for the Integrated Services Digital Network (ISDN), and the TAXIchip set for high-speed point-to-point data links. AMD is the fifth largest U.S. semiconductor manufacturer.

#90157b0087 06/06/1990 ~Business Wire

SAN BERNARDINO, CA (JUNE 6) BUSINESS WIRE - Kasler Corp. (NASDAQ:KASL), a leader in the highway/heavy construction industry, Wednesday announced operating results for the second quarter and the six months ended April 30.

For the second quarter, net earnings increased to $684,000, or 13 cents per share, on revenues of $40,700,000 vs. net earnings of $28,000, or one cent per share, on revenues of $29,904,000 for the like period last year.

For the first half of fiscal 1990, the company's earnings rose to $1,289,000, or 25 cents per share, on revenues of $73,159,000 compared with net earnings of $606,000, or 12 cents per share, on revenues of $54,756,000 for the like period in fiscal 1989.

In reviewing the results for the first six months of fiscal 1990, Bob Ferguson, president and chief executive officer, attributed the company's increased earnings to improved construction operations. Also contributing was the company's increased volume in 1990, which is the result of the record backlog level achieved in fiscal 1989 and the first quarter 1990.

During the second quarter, the company and a joint venture partner were the successful bidders on a $9 million pipeline contract in Orange County for the Santa Margarita Water District, Kasler's portion of the joint venture contract is $4.5 million.

Barr Brown, vice president and chief financial officer, commenting on the passage of Prop. 111 (The Traffic Congestion Relief and Spending Limitation Act of 1990) and Prop. 108 (The Passenger Rail and Clean Air Act of 1990) by California voters on the June 5 ballot, said: ''Californians have voiced their approval and support of the most significant transportation funding package in our state's history.

''These propositions are estimated to generate $18.5 billion over the next 10 years that will be used to revive California's aging infrastructure.''

Brown added, ''We are proud of our 40-year history of contributions to California's existing highway system and we look forward to participating in the revitalization of this system in the coming years.''

''With an improving financial position and a $276 million backlog at April 30, Kasler Corp. is prepared to benefit from the opportunities that will accompany a growing infrastructure market,'' Ferguson concluded.

Kasler Corp. is a general contractor engaged in the construction of concrete roadways, bridges and other public works projects, including airport runways and water control distribution facilities.

#90157b0088 06/06/1990 ~Business Wire

SANTA CLARA, CA (JUNE 6) BUSINESS WIRE - Hitachi Data Systems (HDS) announced a number of enhancements to all models of the HDS EX Series of mainframe computers.

The enhancements were made in conjunction with the addition of three new models to the series including the new high-end models, and incorporate functions which will ensure that HDS customers have the most current capabilities available on all EX modes.

The enhancements include:

--Enhancements to HDS' industry-unique Optical Channel Subsystems which

include support under ESA/370 along with support for 4.5 megabyte per second data transfer rates. HDS began offering Optical Channel Subsystems in 1988.

These channels allow customers' EX Series mainframes to communicate with storage devices over distances of up to two kilometers. Traditional cable technology allows maximum distances of only 120 meters.

--HDS' remote service support expert system, Hi-Track, will be available on all EX Series processors. Hi-Track CPU is designed to predict system failures before they happen. The system is designed to monitor critical elements of the CPU.

If the mainframe begins operating outside of normal parameters, Hi-Track automatically phones HDS' central support center with the appropriate information. A customer support representative is automatically dispatched by the system with a recommended course of action before the system fails.

Hi-Track was initially developed by HDS for disk storage subsystems in 1987 and has a proven record for significantly reducing the number of failures which could impact customers.

--A series of enhancements to HDS' remote operations facility, EX/Control Facility (EX/CF), which allows worldwide operation of HDS mainframes from any remote location. EX/CF Version 2 offers extended capabilities by supporting automated operations of a data center through support under Netview-managed console networks to run HDS mainframes.

Additionally, support is provided for coaxial attachment of 3270 format displays for EX systems operations.

--MLPF (Multiple Logical Processor Facility) has been enhanced. For example, the number of peripheral devices supported by the system has been increased. The number of units supported has been expanded from 4K to 24K.

Hitachi Data Systems is a joint venture company owned by Hitachi Ltd. and Electronic Data Systems (EDS). The company markets a broad range of mainframe systems, peripheral products and services.

Headquartered in Santa Clara, HDS employs 2,500 people with products installed in more than 30 countries worldwide.

PALO ALTO, CA (JUNE 6) BUSINESS WIRE - CF Motor Freight, one of the nation's leading long-haul trucking companies, has named Robert H. Newell vice president of pricing.

Newell, 46, who is based at Consolidated Freightway's administrative and data processing facility in Portland, Ore., is a 25-year veteran of the freight transportation industry. As vice president of pricing, he is responsible for overseeing pricing policies, ongoing development of freight tariff programs and procedures, and related rating and costing activities for CF Motor Freight.

Newell joined Consolidated Freightways in 1972 as a systems analyst after several years with a major trucking firm. He was promoted to manager of CF Motor Freight's rate center in Boise, Idaho in 1976 and in 1981 became director of rate services. In 1983, he was named director of pricing and costing and he relocated to Portland.

Newell is a member of the National Motor Freight Traffic Association. He also is a graduate of the Executive Management program of Columbia University. A native of Portland, Newell is married and has two children.

CF Motor Freight provides intermediate and long-haul transportation of less-than-truckload freight, which are commercial and industrial shipments generally weighing less than 10,000 pounds. It is the largest subsidiary of Consolidated Freightways, a $4 billion transportation company, which in addition to long-haul trucking, has businesses in regional next-day trucking, domestic and international air freight, intermodal truckload, customs brokerage and ocean freight services.

SANTA CLARA, CA (JUNE 6) BUSINESS WIRE - Applied Materials Inc., in celebration of its third anniversary of the Precision 5000 CVD, has opened a new manufacturing facility dedicated to production of the Precision 5000 CVD and Etch systems.

The new facility, located at 3300 Scott Blvd. in Santa Clara, meets stringent cleanliness standards and will accommodate the continuing and projected demand for the highly successful Precision 5000-family of semiconductor production systems. The Precision 5000 CVD was introduced

in April 1987, with the Precision 5000 Etch following in April 1988.

The new 60,000-square-foot facility's design incorporates the most advanced ''clean manufacturing'' concepts, with cleanliness level matched to the relative needs of each system and subsystem. Critical modules such as process chambers, gas-supply panels and wafer-handling systems are assembled under Class-100 cleanroom conditions.

The 12 individual final assembly and test areas are situated under separate laminar airflow zones which also have a Class-100 rating. Cleanroom procedures are practiced throughout the more than 10,000-square-foot manufacturing area, which meets a minimum of Class-1000 criteria.

The design of the new manufacturing area also includes many built-in features that ensure maximum cleanliness, as well as a safe, uncluttered work environment. All pressure, vacuum and power lines needed to test the systems are routed under the cleanroom flooring, with quick-connect fittings installed in a recessed panel in the floor next to each system assembly space.

Applied Materials Inc. is a global growth company based in Santa Clara, and is the leading independent supplier of wafer fabrication systems to the worldwide semiconductor industry. It is a market leader in chemical vapor deposition (CVD), dry plasma etching and silicon deposition.

It is also a leading manufacturer of ion implantation systems, and recently launched its entry into the physical vapor deposition (PVD) market.

SAN FRANCISCO (JUNE 6) BUSINESS WIRE - TIS Mortgage Investment Co. (NYSE:TIS) Wednesday declared a dividend of 32 cents per share for the quarter ended June 30, 1990, payable July 13, 1990 to stockholders of record as of June 29, 1990.

This is the company's third consecutive quarterly dividend of 32 cents per share. In the first three quarters of 1989, the company declared and paid dividends of 30 cents per share.

As a real estate investment trust, TIS Mortgage Investment Company's dividends are based on taxable income calculated under the internal

revenue code and not on book income which is computed in accordance with generally accepted accounting principles. Taxable income in each quarter of 1989 and for the first two quarters of 1990 exceeded the amount of dividends declared and paid.

TIS Mortgage Investment Co. is a San Francisco-based REIT which invest in various mortgage assets, including Residual Interests in Collateralized Mortgage Obligation Bonds. The company commenced operations on August 26, 1988.

CLAREMONT, CA (JUNE 6) BUSINESS WIRE - Frank W. Mayo, a dissident Qintex Entertainment Inc. (NASDAQ:QNTQE) shareholder with the support of minority shareholders nationwide, has sought leave of the United States Bankruptcy Trustee's Office to form a committee in the Qintex Bankruptcy protecting the interests of the non-insider shareholders of this insider-controlled company.

Response from the U.S. Trustee's office is pending.

According to Mayo, Qintex's recent attempt to sell at ''Fire Sale'' prices to insiders in disregard of shareholder rights will be vigorously opposed, as will the requests of the insiders who are currently asking the Bankruptcy Court for a $4 million kick-back/rebate for arranging this rape of the shareholders.

MONETT, MO (JUNE 6) BUSINESS WIRE - The board of directors of Jack Henry & Associates Inc. (NASDAQ:JKHY) unanimously approved an offer on June 5, 1990, from Allied Capital Corporation II (NASDAQ:ALII) to exchange shares of Allied Capital Corporation II stock or cash equal to a minimum of $4 for each share of Jack Henry & Associates Inc. stock pursuant to a proposed merger of Jack Henry & Associates Inc. and Peerless Systems Inc., an affiliate of Allied.

The offer is subject to the successful negotiation of a definitive

agreement. Negotiations have commenced on a definitive agreement, however there is no assurance that such negotiations will be successful.

Jack Henry, chairman of the board of Jack Henry & Associates, and Rod Armstrong, chief executive officer of Peerless Systems, jointly said that ''we believe the combination of Jack Henry & Associates with Peerless Systems will create the dominant company in the bank turnkey software market.

''The depth of technical and programming talent at the combined companies ensures that small- and medium-sized financial institutions will continue to receive the premier, fully integrated software solution for IBM's mid-range computers.''

Jack Henry & Associates markets, installs and supports integrated data processing software systems for banks and financial institutions. The company's software systems have been installed at approximately 600 banks throughout the United States.

Peerless Systems Inc. provides integrated data processing services to the community bank market place. More than 250 banks use Peerless for all their data processing needs.

Allied Capital Corporation II is a closed-end management investment company. The company provides debt, mezzanine and equity financing for small, publicly and privately owned companies.

REDONDO BEACH, CA (JUNE 6) BUSINESS WIRE - TRW Space & Technology Group announced Wednesday that TRW is one of two companies selected by NASA to negotiate $1.3 million contracts to perform definition studies and preliminary design leading to a Satellite Servicer System flight demonstration.

The Satellite Servicer System (SSS) flight demonstration is a NASA Johnson Space Center program that will show the ability to maintain satellites in locations not readily accessible to humans (such as polar and high-inclination orbits), to permit hazardous servicing, to reduce Space System Transportation System extravehicular activity dependency and to improve cost efficiencies. Martin Marietta Corp. was also selected to do definition and preliminary design work.

''The TRW team is delighted to be selected to participate in this program

'' said Arthur G. Stephenson, TRW SSS program manager. ''We believe that this SSS demonstration program will prove the feasibility of satellite servicing and give satellite users and owners the confidence to build satellites that can be maintained and refueled on-orbit. The ultimate success of satellite servicing will depend on the existence of 'service-friendly' satellites as well as on a means to provide the service.''

The study will define capabilities for autonomous rendezvous and docking, orbital replacement unit exchange and fluid transfer capabilities, and will use existing program technologies including NASA's Orbital Maneuvering Vehicle, being built by TRW, and elements of NASA's Flight Telerobotic Servicer. The program is jointly funded by NASA and the Department of Defense.

Four teams submitted proposals for the Phase B studies and two companies, including TRW, were selected. TRW is teamed with SPAR Aerospace Limited of Toronto and Ocean Systems Engineering of Houston for the the project.

TRW Space & Technology Group, based in Redondo Beach has built more than 175 communications, defense and scientific spacecraft, developed over 200 advanced space instruments and integrated some 550 experiments into their host spacecraft.

#90157b0129 06/06/1990 ~Business Wire

SAN DIEGO (JUNE 6) BUSINESS WIRE - A $79.95 software program that combines memory analysis with a full range of diagnostic capabilities for PC, XT, AT, PS/2 and 386 systems was announced Wednesday by Merrill & Bryan Enterprises Inc.

InfoSpotter is designed to benefit all personal-computer users, from the non-technical person to the MIS manager or network administrator to the programmer and power users.

InfoSpotter analyzes the PC's operating system, memory and devices, providing the information on-screen or to a printer for user analysis and better utilization of the system. The program's diagnostic capabilities aid troubleshooting and system-and-interrupt conflicts.

The new economical program peruses the current use of memory, finds unused memory locations and suggest where to lead TSRs and other utilities, buffers, mouse drivers, etc. for optimum use of memory.

According to Pat Bryan, president of Merrill & Bryan, it is "the best in its class" with an upper-memory-area display that breaks down the 384KB-system area above 640KB into ROM, RAM, Hi-RAM, Adapter RAM, EMS page frame, EMS pages and video areas to locate unused areas. Installation of hardware or memory managers can then be used to provide use of this area to its fullest potential.

Bryan added that, unlike competitive products that require use of specific memory managers, InfoSpotter's upper-memory-area feature allows display of all TSRs, device drivers and Hi-RAM regardless of what memory-manager program is in use.

It provides detailed disk information, IRQ level and device tests. Also, it provides the ability to edit CONFIG.SYS and AUTOEXEC.BAT files. The program allows user-defined menus and screen colors and displays in multiple formats (HEX, Decimal, ASCII and Templates).

"Identifying what's in-use inside the computer, what's available for use and the most efficient ways to use those resources can be invaluable to an MIS manager," Bryan said. "Problem-solving becomes easier and productivity increases at the user level," she aded.

For the non-technical user, InfoSpotter provides the starting tools to be able to probe inside the PC - to view and edit config.sys and autoexec.bat files without the need to know external DOS commands. With a simple keystroke, system overview, memory under 1MB, expanded and extended memory-manager information, drivers, open files, environments and disk allocations can be displayed.

LOS ANGELES (JUNE 6) BUSINESS WIRE - Michael E. Rosen, chairman of Shop Television Network Inc. (STN), reported Wednesday that STN's offer to acquire a permanent production facility in Burbank, Calif., has been accepted and is now in escrow.

STN has agreed to pay approximately $3.8 million for the property, a 51,000-square-foot facility which includes a parking structure. JCPenny Television Channel Inc. has agreed to cover certain refurbishment, renovation and moving costs associated with the new facility. The new facility will meet all of STN's current production and office space needs and substantially enhance its ability to diversify and expand its independent production capability.

STN's offer is subject to certain contingencies, including obtaining satisfactory bank financing and the government approvals of STN's plan for the renovations and modifications of the building.

STN is the exclusive production, marketing and cable affiliate distribution entity for the JCPenny Television Shopping Channel.

STN trades on the Vancouver Stock Exchange under the symbol: SHS.

NOTE: The Vancouver Stock Exchange has not reviewed and does not accept responsibility for the adequacy or accuracy of the content of this news release.

#90157b0156 06/06/1990 ~Business Wire

REDMOND, WA (JUNE 6) BUSINESS WIRE - Microsoft Corp. Wednesday announced the results of the first known study comparing the broad effects of two kinds of software interfaces - the graphical user interface (GUI) and the character user interface (CUI) on worker productivity.

The study, conducted by Temple, Barker & Sloane Inc., an independent consulting and research firm, concluded that GUI generates a greater return on information technology investment than a traditional interface because users:

- work faster and more accurately,
- master more capabilities,
- require less training and support,
- are better able to self-teach and explore, and
- report lower levels of frustration and fatigue.

A graphical user interface relies more on visual cues than on keystroke commands to direct software functions. A GUI user selects software commands by recognizing and choosing a symbol from the screen by pointing to it with a mouse. The CUI user, however, must remember and enter preassigned, and often unintuitive, commands by using the keyboard.

"Microsoft believes that a graphical user interface transforms the PC from a useful, but not entirely inviting, system into a tool that provides easy, friendly access to your data," said Mike Maples, vice president of applications division at Microsoft Corp. "Microsoft has invested in graphical software for years. It's great to see our commitment supported

by this research."

In the last year, the software industry has seen a dramatic increase in the number of graphical environments. Examples include the Microsoft Windows graphical environment, Microsoft OS/2 Presentation Manager and the Apple Macintosh. Traditional MS-DOS computing, on the other hand, is character-based.

This study, conducted by Temple, Barker & Sloane, a consulting and market research firm in Massachusetts, was funded by Microsoft Corp. and Zenith Data Systems.

The study, which took 12 months to complete, tested the responses of both new and experienced computer users to GUI and CUI environments in clinical tests, attitudinal surveys and focus groups.

The study found clear evidence of seven benefits of the graphical environment over traditional character-based systems and a strong user preference for graphical systems.

ORINDA, CA (JUNE 6) BUSINESS WIRE - WordTech Systems Inc., the only manufacturer of both interpreters and compilers for the dBASE language,

Wednesday said it would make a major announcement regarding their next generation of fully dBASE compatible products at a press conference to be held at PC EXPO in New York on June 19.

The new database products from WordTech will include both an interpreter and a compiler, and are expected to become the new industry standard in speed and power. These new systems will provide an alternative for DBMS users needing full dBASE compatibility in a reliable product at an affordable price.

''We have been working on our new architecture for nearly three years now and we believe that it will become the standard for the 90s,'' said Michael Gardner, WordTech's vice president of research and development. ''It's clean, exceptionally fast, modular and every component is fully portable.''

According to WordTech, the new system is an entire rewrite, not just an upgrade. Numerous state-of-the-art language processing techniques were used to improve the systems performance and flexibility.

WordTech's press conference is scheduled at PC EXPO in New York on Tuesday June 19 from 2-3 p.m. in Room 1C01. For more information contact Earle Speranza at WordTech Systems Inc., 415/254-0900.

WordTech Systems is a leading supplier of fully dBASE compatible database management systems, and the only company that provides and compiles both interpreters and compilers for the dBASE language. WordTech products offer users and integrated applications development environment and also provide migration paths to UNIX and SQL environments.

SAN JOSE, CA (JUNE 6) BUSINESS WIRE - Sherwood/Kimtron Wednesday issued the following statement in reply to the lawsuit filed on June 1 by Wyse Technology's subsidiary, Link Technologies Inc., alleging misappropriation of Link confidential information in conjunction with the development of several new products announced by Sherwood on June 3:

The allegations made by Link Technologies Inc. are totally preposterous and without foundation. We have worked hard to develop products which have competitive advantages to those manufactured by Link and intend to bring those products to the market. We intend to defend our rights to free enterprise vigorously and will take whatever steps are necessary to that end.

We believe that Link's suit is an attempt on their part to delay our entry into the terminals market. While we are complimented by their concern for our success, we will not let this deter us from entering the market.

LOS ANGELES (JUNE 6) BUSINESS WIRE - Valencia Capital Inc. announced that it has acquired all of the shares of stock of J/N Entertainment Inc. in exchange for 10,487,500 shares of restricted, unregistered company stock.

In addition, Valencia Capital Inc. announced that Stephen G. Callandrella and the entire board of directors has resigned in connection with said transaction and has been replaced by Spike Jones Jr. as president and a director, Gabrielle M. Boone as secretary and a director, and Christine Naughton as a director.

J/N is a corporation which has been organized to utilize the potential of television ''infomercials'' and initially market the Vera Brown line of proprietary skin care products. It is intended that this business activity will be conducted by the company after its acquisition of J/N and that the company will expand its marketing efforts to include other products used in the same marketing concepts.

J/N has executed a license agreement to allow the marketing of the Vera Brown skin care products in this manner. Production of filming of the first infomercial relating to the Vera Brown skin care products has already commenced.

The principal shareholders of J/N have substantial experience in the marketing of consumer products using television and the infomercial concepts.

The company's stock is traded over-the-counter in the pink sheets.

SEATTLE (JUNE 6) BUSINESS WIRE - Celerex Corp. held its annual stockholder's meeting Tuesday at the company's manufacturing facility in Lynnwood, Wash.

The shareholders voted to re-elect the seven current members of the company's board of directors -- John V. Saeman, Thomas A. Marinkovich, Thomas R. Kegley, George M. White, Jose V. Porto, H. DeWitt Mitchell Jr. and Arnold Yost. Shareholders also confirmed the appointment of Price Waterhouse as the company's independent public accountants.

During the meeting Saeman, co-chairman of the board, discussed the company's current need for additional capital to fund the company's operations and working capital needs beyond June 30, 1990. In response to shareholder questions, Saeman described the various steps being taken by the company to raise capital, which includes a private placement of common stock to accredited investors. Saeman also stated that it was seeking a ''strategic partner'' that would provide capital for the company as well as a working relationship to enhance the overall impact of the company in the marketplace.

The company also announced that it has recently added additional test installations of its Celerex System. The test installations include both franchisees and franchisors of fast food restaurants. Thomas M. Coccione, vice president of sales, announced that the company had completed an installation and commenced trial operation of its system in 80 stores located in the Tampa, Fla., area, which are owned and operated by one of the country's largest fast food restaurant chains. The company cautioned that these trials were undertaken by the restaurant chain to determine the acceptability of the Celerex System in its market niche, and does not yet represent a long-term commitment to the Celerex System.

Celerex is in the electronic payment systems business, specializing in credit card authorization, electronic draft capture and check verification. Celerex's stock is traded through the NASDAQ System under the symbol CEXY. For more information, contact Jose Porto, president, at 206/623-0225.

SOUTH SAN FRANCISCO, CA (JUNE 6) BUSINESS WIRE - Genentech announced that a judge in Delaware's Chancery Court Wednesday denied a motion for preliminary injunction to enjoin the stockholder vote on the proposed merger between Genentech and Roche at Genentech's annual stockholders meeting, which will be held on Friday, June 8.

The meeting and stockholder vote on the proposed merger between Genentech and Roche Holding Inc. will proceed as planned beginning at 10 a.m. PDT at the Westin Hotel in Milbrae, Calif.

The motion to enjoin was brought by plaintiffs in a consolidation class action lawsuit which was filed in Delaware state court following the Feb. 2 announcement of the proposed merger between Genentech and Roche. The plaintiffs claimed, among other things, that the company and its board of directors did not provide full disclosure of information to shareholders prior to asking them to vote on the proposed merger.

The motion was heard by Vice Chancellor Chandler in Chancery Court, New Castle County, Del. Genentech is incorporated in Delaware.

#90157b0236 06/06/1990 ~Business Wire

VANCOUVER, BRITISH COLUMBIA (JUNE 6) BUSINESS WIRE - Harry C. Moll, chairman and chief executive officer of Cross Pacific Pearls Inc. Wednesday announced the company has opened negotiations with Japanese and Tahitian cultured pearl growers for the sale of Cross Pacific implant beads.

These beads, made from mollusk shells, start the cultured pearl production process.

An implant bead (nucleus) is implanted into the body of a host clam, along with a snippet of live tissue -- or mantle -- from another mollusk. This process, or nucleation, induces the host to start secreting concentric micro-layers of protective coating, or ''nacre,'' around the foreign irritants. After a period of time, traditional round cultured pearls result.

Cross Pacific, which has established a major cultured pearl operation near Marysville, Calif., 45 miles north of Sacramento, also has developed its own shell- and bead-honing machines capable of producing 25 kilos of product -- or several thousand implant beads of various standard sizes per day.

To date, the Japanese have dominated this industry, manufacturing beads and selling them to world cultured pearl producers at an average price of $750 per kilo.

Cross Pacific will now compete in this lucrative marketplace, and has found the Japanese and Tahitians to be eager prospective customers. Cross Pacific feels the marketplace for its shell beads will represent a second source of major revenue for the company.

The company's primary revenue will be derived from its cultured pearl operation. As of May 1, 1990, Cross Pacific had nucleated 114,000 clams with 547,200 implants, and continues nucleation at the rate of 30,000 implants per month.

First harvest is expected in February of 1991, with gross revenues of approximately $2 million from all sources. Subsequent large harvests will follow every 90 days.

CUPERTINO, CA (JUNE 6) BUSINESS WIRE - Symantec Corp. (NASDAQ/NMS:SYMC) Wednesday announced that revenues and earnings for its first fiscal quarter ending June 30, may be 10 to 20 percent higher than analyst expectations.

The strong growth reflects rapid acceptance of new products, including Time Line version 4.0, and continued growth in most other product areas, including utility and database products.

''These results show the benefits that we have been able to achieve through the investment over the last year in our domestic sales force and in new product development,'' said Gordon E. Eubanks Jr., president and chief executive officer. Eubanks also indicated that the company will continue to invest in its domestic and international sales organizations throughout the remainder of the 1991 fiscal year.

Symantec is a leading international software company which provides award-winning application and system software products for IBM PC and Apple Macintosh computer users. Founded in 1982, the company is based in Cupertino.

BOULDER, CO (JUNE 6) BUSINESS WIRE - Netwise Inc. Wednesday officially launched its overseas headquarters, Netwise International Ltd., based in Wokingham, Berkshire, in the United Kingdom.

The international office will develop, market and support Netwise's remote procedure call (RPC) technology. International operations will extend throughout Europe and into all world markets except North America.

Netwise's initial product, the RPC TOOL, allows developers to build client/server applications for a wide variety of computing environments. This is the only such tool to fully adhere to the appropriate Open Systems Interconnection (OSI) standards.

According to Don Taylor, Netwise vice president and European general manager, ''Netwise has already built up a strong leadership position in RPC technology through its strategic alliances with world-class vendors.''

Taylor, formerly director of continental Europe for Ingres, said, ''The establishment of Netwise International will reinforce that position by allowing us to be much closer to the European computer manufacturers who will form the world powerhouse of Open Systems computing in the 1990s.''

Netwise chief executive officer, David Andrus projects that in the next few years, at least 50 percent of the company's business will be international.

Joining Taylor at the international headquarters are Charles Ashman, marketing manager Europe, who most recently was enterprise networks marketing manager at Digital Equipment Co.; Mary Towner, OEM manager, Europe, previously business development manager, northern Europe for Sybase; and Tony Lowrey, technical manager, Europe, who ran his own open systems consulting firm before joining Netwise International.

Current versions of the RPC TOOL support a range of machine architectures, including microcomputers, workstations, minicomputers, and supercomputers. Support is available for major operating systems, including DOS, OS/2, MS-Windows, VMS, Wang VS/OS, DG/UX, Concurrent RTU (Real-Time UNIX) and OS/32, Domain/IX, NCR 32/700 OS, XENIX, Ultrix, SunOS, SCO UNIX V.3, (and most other implementations of the UNIX operating system), and others.

Network libraries are available for NetBIOS, NetWare SPX, Named Pipes, TCP/IP, DECnet, HP NetIPC, Touch OSI, Concurrent OSI and others.

The RPC TOOL implements remote procedure call technology to help programmers develop distributed processing software for a variety of hardware, operating systems, and networks.

Based in Boulder, Netwise is the leading independent software company producing advanced products that simplify development of client/server applications.

WASHINGTON DC (JUNE 6) BUSINESS WIRE - An independent jury of environmental and energy experts from outside industry has selected the winners of the American Paper Institute and the National Forest Products Association (API/NFPA) Environmental and Energy Achievement Awards.

Weyerhaeuser Co. (Longview, Wash.) was the winner in the category of Air Pollution control ''for development of procedures and sensors for on-line monitoring of air flow in precipitators, thereby increasing their effectiveness in meeting performance standards and preventing air pollution.''

Weyerhaeuser Co. president Jack Creighton was in Washington D.C. to receive the award Wednesday at a luncheon featuring Vice President Dan Quayle.

The awards were judged for significant company achievements during 1989 in six environmental and energy areas relating to the paper and other forest products industries. The competition was open to companies throughout the United States engaged in the growing and harvesting of timber and the manufacture of pulp, paper, paperboard and solid wood products.

The awards' judges were: Alton Balkeslee, science editor, Associated Press (retired), free-lance writer and educator; Dr. Kenneth G. Kreider, senior scientist, Center for Chemical Technology, National Institute of Standards and Technology, U.S. Department of Commerce; Dr. Daniel A. Okun, Kenan Professor of Environmental Engineering Emeritus, University of North Carolina at Chapel Hill and international consultant; Dr. Arthur C. Stern, past chairman of the Environmental Protection Agency Environmental Engineering and Pollution Process Peer Review Panel, and professor

emeritus of air hygiene, University of North Carolina at Chapel Hill; Dr. Earl L. Stone, professor emeritus of forest soils, Cornell University, and currently adjunct professor, Unviersity of Florida, Department of Soil Science and Department of Forestry; and Alan J. Streb, deputy assistant secretary for conservation, Office of Conservation and Renewable Energy, U.S. Department of Energy.

Frank Guthrie, Longview unit manager, said in reaction to the award: ''We at Weyerhaeuser Longview are extremely happy to receive the American Paper Institute's Air Pollution Control award for 1989 because it demonstrates Weyerhaeuser's commitment to continuous improvement of its environmental performance. Improved performance is one of Weyerhaeuser's top priorities. Today's milestone award provides additional motivation for even better environmental performance in the future and demonstrates to our neighbors, our employees, and others, that we are committed to being a good community citizen.''

SCOTTS VALLEY, CA (JUNE 6) BUSINESS WIRE - Quattro Pro, Borland International's (NASDAQ:BORL) high-end spreadsheet software, has consistently received industry awards and top ratings in product comparisons.

However, many industry analysts have questioned whether a new spreadsheet such as Quattro Pro could make a significant impact in such a well-established market.

Borland's spreadsheet market share (in units) for the United States and Canada was 28 percent in the first quarter of 1990, according to figures derived from the Software Publishers Association (SPA) data.

This achievement was fueled, in part, by shipments of a significant number of units sold under special introductory programs, and represented a fivefold increase over Borland's market share one year ago.

Borland Spreadsheet Market Share

(Based on spreadsheet software for IBM PC and compatibles)

Q2 1989: 5 percent

Q3 1989: 7 percent

Q4 1989: 16 percent
Q1 1990: 28 percent

This growth in Quattro Pro's market share is supported by a ''PC/Market Opinion'' survey to be released this week by Techtel Corp. (Emeryville, Calif.), an independent market research firm.

''Quattro Pro's purchase penetration in North America during the first quarter matched that of Lotus 1-2-3, Release 2.2, a milestone achieved by no other spreadsheet product against Lotus 1-2-3 in the five years we've been measuring the market,'' said Michael Kelly, president of Techtel Corp.

Though past achievements are not necessarily indicative of future performance, these results appear to confirm that a better product can have success in a well-established market.

Borland International Inc., based in Scotts Valley, is a leading developer of high-performance software products. Borland offers some of the world's most widely used business applications and software development tools, such as Paradox, Quattro Pro, SideKick, Turbo Pascal, Turbo C, Turbo C++ and Turbo Debugger and Tools.

MENLO PARK, CA (JUNE 6) BUSINESS WIRE - Ernst & Young, the nation's largest professional services firm, Wednesday named Harry Saal, president and chief executive officer of Network General Corp. (NASDAQ:NETG), the Bay Area 1990 Software Entrepreneur of the Year.

''With such a high concentration of talent in the Bay Area software industry, I'm honored to receive this recognition as Software Entrepreneur of the Year,'' said Saal.

''Above all, I consider this award a tribute to the efforts and spirit of the other Network General employees, whose contributions have enabled us to be so successful in the computer networking industry.''

Saal was selected for the 1990 Software Entrepreneur of the Year award by an independent panel of 12 judges from business, academia and the financial community. Last year the award was presented to Larry Ellison of Oracle Corp., with Paul Brainerd of Aldus Corp. receiving it in 1988.

Network General, which Saal founded with personal funds in 1986 and took public in 1988, is the industry leader in designing, developing and

marketing diagnostic systems for local area networks.

The company's Sniffer Network Analyzer has earned numerous awards from leading trade publications. As a result, Network General has experienced dramatic growth, more than doubling sales for each of the past three years.

Prior to starting Network General, Saal co-founded Nestar Systems Inc., the first company to introduce PC-based local area networking. Previously, he worked for IBM in a variety of development positions. Saal holds a Ph.D. in high-energy physics from Columbia University.

Network General is located at 4200 Bohannon Drive, Menlo Park, Calif. 94025. Phone 415/688-2700.

ALAMEDA, CA (JUNE 6) BUSINESS WIRE - Aquanautics Corp. (NASDAQ:AQNT) and ZapatA Industries Inc. jointly announced Tuesday that they have now completed negotiations with several breweries regarding Smartcap crown closure evaluation programs.

These confidential relationships will enable brewers to taste test beer capped with Smartcap beer closures and for Aquanautics and ZapatA to refine those closures as needed.

''The particular brewers were chosen because of their technical expertise in studying beer oxidation and flavor loss: thorough investigations of both topics are necessary before introducing a commercial Smartcap crown closure,'' said N. Ross Buckenham, Aquanautics' president and chief executive officer.

''Taste testing and evaluation schedules are being jointly developed with each brewer for a program covering several months of testing. Negotiations are under way with several additional brewers for similar taste testing and evaluation programs.''

Aquanautics Corp. is a development stage separations and specialty chemical company producing new oxygen technologies. Aquanautics' proprietary synthetic oxygen-binding molecules can be structured into a variety of systems for extracting, concentrating, and/or eliminating oxygen. The company is currently developing applications for food,

medical, industrial and defense markets.

ZapatA Industries Inc. is a major supplier of crowns to leading U.S. brewers. The company also maintains a strong and growing presence in Europe and Latin America.

FOSTER CITY, CA (JUNE 6) BUSINESS WIRE - Another chapter to the biggest boom-and-bust story in Wall Street history will be written June 13 when Ross-Dove Company auctions off the plush furnishings and personal computers of Drexel Burnham Lambert's New York headquarters and offices.

From the computers used to build a vast junk bond/stock brokerage and merger/acquisition business to the conference tables where executives strived to save their foundering firm, Drexel Burnham Lambert has put everything at seven New York area offices on the auction block.

Ross-Dove Company's National Account Executive Andy Eliopoulos said, ''This will be a very historic auction.''

The Jacob Javits Convention Center, in New York City, will serve as the auction site. Furniture and technology assets are located at 60 Broad St. 55 Broad St., 1211 Avenue of the Americas, 25 Broadway and 2 Broadway in Manhattan; 40-52 Washington in Brooklyn; and 5 Marine View Plaza in Hoboken, N.J. These locations will be open for public inspection June 10-12 from 9 a.m. to 5 p.m.

Ross-Dove Company is one of the nation's leading auction firms. It specializes in selling capital assets, real estate and loan portfolios for corporate America. Clients include Apple Computer, AT&T, Bank of America, Businessland, General Electric, GTE, Hughes Aircraft, NCR, RCA, Unisys, US Sprint, Xerox and Zenith.

Ross-Dove Company's Sales Vice President Donald Cowan said, ''We are pleased to have been selected as Drexel Burnham Lambert's exclusive auctioneer and anticipate record breaking prices and attendance.''

FREMONT, CA (JUNE 6) BUSINESS WIRE - Power Spectra (OTC:PWSP) is pleased to announce the addition of General John W. Pauly, (USAF (RET) to Power Spectra's board of directors.

Pauly's background includes a distinguished 35-year career in the United States Air Force, retiring in 1980 as the Commander-in-Chief, U.S. Air Forces in Europe and Commander, Allied Air Forces Central Europe.

Since 1982, Pauly has served as chairman of the board of directors and chief executive officer of Systems Control Technology Inc. He is a member of the Army Science Board and serves on its sub-committee on Space and Simulations/War Gaming.

Additionally, he is a participant in the ongoing National Research Council study on Strategic Technologies for the Army (STAR).

Power Spectra Inc. was recently awarded a $3.8 million cost plus fixed fee contract from the Air Force Space Technology Center, Kirtland AFB, New Mexico. This 18 month contract is to develop a solid state HPM (High Power Microwave) switch.

Power Spectra is developing its patented bulk avalanche semiconductor switch (BASS) under a research agreement with Boeing Aerospace and Electronics which calls for approximately $8 million in funding during a 2-1/2 year development term.

Power Spectra is engaged in the development of semiconductor switching devices and high voltage pulse generators for commercial and military applications.

SAN JOSE, CA (JUNE 6) BUSINESS WIRE - Helios Systems has introduced the MAA-4 and MAA-8 series memory boards for the Apollo DN3010A, 3500, 3550, 4000 and 4500 workstations.

The boards provide additional memory in increments of 4MB (MAA-4) or 8MB (MAA-8). They're 100 percent Apollo-compatible and are available immediately.

The MAA-4 and MAA-8 series boards provide a flexible and economical way to

enhance the speed and performance of Apollo software operations. Installation or reconfiguration can be done in the field in a matter of minutes and can be performed by the user.

Each system contains four 80-pin bus-to-board interface slots for memory expansion. All memory transfers are performed by the system processor which uses a 32-bit word width with four additional bits for parity error checking. Both the MAA-4 and MAA-8 are populated with 100ns fast page-mode DRAMs and can be mixed and matched depending on the needs of the system.

Competitively priced, volume shipments are available direct from Helios, as well as from manufacturers' representatives and distributors worldwide. Helios products are assembled in-house using state-of-the-art manufacturing technology, including stringent burn-in and test procedures. Each product also comes with a 30-day money back guarantee and lifetime warranty.

Helios Systems, a division of Piiceon Inc., is a fully integrated manufacturing, test and design company owned by Dynatech Corp. (NASDAQ:DYTC). Founded in 1986, Helios is a major supplier in workstation compatible memory and storage products.

The company is a full-line, third-party manufacturer of SIMMs, VME memory boards and SCSI storage devices. Helios also offers custom memory boards for non-Sun platform vendors, OEMs and VARs.

SANTA ANA, CA (JUNE 6) BUSINESS WIRE - The Swiss American Sausage Co. division of Provena Foods (NASDAQ:PVNA) in San Francisco Wednesday leased a 45,000-square-feet building containing substantial refrigerated storage space, which when improved at a cost of about $500,000 with a targeted completion date of Nov. 1, 1990, will increase the division's annual production capacity of pepperoni from 16 million to about 19 million pounds per year.

The newly leased facility is about four blocks from the existing plant.

Management expects to be able to sell the added poundage as soon as it is available.

Planned capital expenditures for all divisions for 1990 increase to about $1.5 million with the addition of this project. Any financing required will be accomplished by use of the company's unsecured revolving credit line with Wells Fargo Bank, with repayment accomplished in 1991.

The maximum expected effect from the newly leased facility is an increase of about $5 million a year in sales and a possible addition of about 10 cents per share to annual earnings.

Provena's management considers this step as an interim move to address its production needs until such time as a package of equity and debt can be produced to construct a new pepperoni factory with a capacity of about 48 million pounds a year at a cost of $10 million or more.

For further information contact Jim Bolton at Provena Foods, 420 W. Central Ave., Santa Ana, Calif. 92707. Telephone: 714/557-9834.

SUNNYVALE, CA (JUNE 6) BUSINESS WIRE - William J. O'Meara, president and chief executive officer of Headland Technology Inc., and a founder of LSI Logic, has been named to the board of directors of IKOS Systems Inc.

IKOS is the leading manufacturer of hardware-based simulators for the verification of application-specific integrated circuits (ASICs) and large systems.

According to Gerald S. Casilli, chariman and chief executive officer of IKOS: ''Mr. O'Meara's more than 20 years of experience in the semiconductor industry and his success in the management of high-growth companies make him an excellent addition to our board of directors. His broad marketing experience will be an asset to IKOS in this time of rapid growth.''

O'Meara co-founded LSI Logic in 1981 and served as vice president of marketing and chief marketing officer until 1987. With funding from LSI Logic, O'Meara then founded G-2 Inc. and served as president and chief executive officer until the firm merged with Video-7 to form Headland Technology in 1989.

Prior to co-founding LSI Logic, O'Meara served in a variety of management

positions at Texas Instruments, Fairchild Semiconductor and Synertek.

O'Meara is a 1959 graduate of the United States Military Academy at West Point. He served in the U.S. Army from 1959 until 1965.

The IKOS board of directors includes:

Glenn Penisten, Alpha Partners

Richard Magnuson, Menlo Ventures

Gerald S. Casilli, chairman/chief executive officer, IKOS Systems

William Fazakerly, president/chief operating officer, IKOS Systems

The company is privately held and employs more than 90 people worldwide. In addition to its corporate office in Sunnyvale, IKOS supports direct operation in Germany and the U.K. as well as distributor relationships with Instrumatic (Europe), SIMAC Electronics (Benelux), and C. Itoh (Japan).

#90157b0633 06/06/1990 ~Business Wire

NEW YORK (JUNE 6) BUSINESS WIRE - MGM Grand Air, the luxury coast-to-coast airline, Wednesday unveiled a ''fortunate flyer'' program as elaborate as its luxury in-flight service.

The new program, ''Premiere, The Ultimate Reward,'' is one of the world's most lucrative frequent-flyer programs and provides free travel accommodations worldwide, luxury merchandise and free travel on MGM Grand Air to the world's most elite airline passengers.

Unlike other frequent-flyer programs, Premiere's awards are generally unrestricted, with no capacity controls or ''black out'' periods on usage. This, along with the elaborate nature of the awards, separates MGM Grand Air's program from all others in the world.

MGM Grand Air passengers can enroll as members of Premiere by completing a membership application and flying on MGM Grand Air. After every five flights, members receive certificates which can be redeemed for luxury merchandise and travel awards from an annual catalogue. ''The MGM Grand

Air Premiere Collection.''

For example, passengers earn 4,000 points for each first-class one-way trip on MGM Grand Air.

As a passenger accumulates points, the award options increase in prestige and value: 20,000 points/Baccarat crystal vase or MGM Grand Air ticket discounts or fine dining and more; 60,000 points/Angela Cummings hand-woven silver cuff or a trip to the U.S. Space Camp and more; 100,000 points/Toshiba laptop computer or Desert Inn package or seven nights for two on Windstar Sail Cruises and more.

At the top of the award structure, passengers with 160,000 points, or 20 round-trip first-class flights can choose to drive a Porsche 944 S2 Cabriolet for one year, receive an annual MGM Grand Air Premiere Pass, spend a week at the grand opening of the MGM Grand Hotel and Theme Park opening in 1992, fly to Paris via the Concorde or fly to Tahiti via Air France.

The luxury air travel industry was revitalized in 1987 with the launch of MGM Grand Air, which provides coast-to-coast travel from Los Angeles and New York. Passengers on MGM Grand Air enjoy expertly prepared gourmet cuisine, private staterooms or comfortable swivel chairs, top in-flight audio and video entertainment and other amenities.

In August, MGM Grand Air, which currently flies 727's twice daily from New York and Los Angeles, will inaugurate service on reconfigured DC-8 Super 62 aircraft. The 727's will be reserved for charter service. MGM Grand Air, the Desert Inn Hotel and Casino and the newly announced MGM Hotel and Theme Park in Las Vegas are subsidiaries of MGM Grand Inc.

SAN DIEGO (JUNE 6) BUSINESS WIRE - San Diego-based Mitek Systems Inc., a leading value-added manufacturer of TEMPEST computers and peripherals, and AST Research Inc. have announced an agreement whereby Mitek will purchase AST Cupid-32 architecture-based computers for TEMPEST modification and resale as Mitek's newest addition to its growing line of state-of-the-art TEMPEST computer products.

This new product represents the addition of an entire new product line for Mitek Systems Inc. AST's revolutionary Cupid-32 architecture provides the unique ability to upgrade the computer system's processor as user needs change, and/or new technology becomes available, through the exchange of a singel card.

Mitek will be developing a variety of TEMPEST-modified versions of AST's Premium Computer product line, ranging from 16 MHz 80386 to 33 MHz 80486 models.

AST is a leading manufacturer of high-performance desktop solutions. The AST systems product line ranges from entry-level 286 systems to 25- and 33-MHz 1488 high-performance personal computers, including the new extended industry standard architecture (EISA). AST's board-level products include memory/multifunction add-on cards as well as 5250, 3270 and local area network connectivity solutions.

AST Research Inc. corporate headquarters are located at 16215 Alton Parkway, P. O. Box 19658, Irvine, 92713-9658.

Mitek Systems Inc., based in San Diego, is a value-added manufacturer of sophisticated TEMPEST-accredited computer products that are modified to prevent electronic eavesdropping by unauthorized parties. PHOENIX (JUNE 6) BUSINESS WIRE - Phoenix-based America West Airlines (NASDAQ:AWAL/PSE:AWA) has announced plans to open a members only airport lounge, The Phoenix Club, at John Wayne Airport in Orange County, Calif.

The lounge's opening will coincide with the opening of the new terminal at

John Wayne Airport on Sept. 15, 1990.

Located on the mezzanine level of the airport terminal, the Club will be accessible by a special elevator. The private retreat will be available to America West passengers who are Phoenix Club members and will offer a library, conference rooms, personal computers, copiers, facsimile machines and telephones.

Complimentary beverages and snacks, easy chairs and color televisions will also be provided. Passengers may even check in, receive seat assignments and make future reservations in The Phoenix Club.

''The Phoenix Club at John Wayne Airport will have all the unique and luxurious Southwestern design features of our original lounges located at our Phoenix hub,'' said Mark Coleman, America West senior vice president of sales and product development. ''The new facility at Orange County offers our Southern California passengers more of the extra services that set America West apart from other carriers.''

America West opened its first Phoenix Club in Sky Harbor International Airport in September 1987 and added a second lounge there in December 1988. The Orange County Phoenix Club will be the third in the America West system. New clubs are also planned for the airline's hub in Las Vegas, New York's Kennedy airport, Honolulu, San Diego and Chicago O'Hare.

America West is the national champion in on-time performance for 1989, 1988 and since the Department of Transporation began mandatory reporting in September 1987. The carrier serves 60 destinations coast-to-coast with daily service to Hawaii and western Canada, utilizing an all-Boeing fleet of 92 aircraft including 747s, 757s, 737s and de Havilland Dash 8s.

SAN FRANCISCO (JUNE 6) BUSINESS WIRE - Pacific Gas and Electric Co. Wednesday was named a winner of the 1989 Edison Award, presented by the Edison Electric Institute in recognition of PG&E's concern for customers and quick restoration of service after the Loma Prieta earthquake last Oct. 17.

Richard A. Clarke, PG&E chairman and chief executive officer, accepted the award from EEI Chairman John Ellis at the institute annual convention in Kansas City, Mo.

For the first time in history, two utilities received the Edison Award.

South Carolina Electric & Gas Co. won for its efforts on behalf of customers after Hurricane Hugo blasted through the company's service area last Sept. 22.

Edison Electric Institute is the association of investor owned electric companies. Its 180 members produce and distribute about 75 percent of the nation's electric power. Its Edison Award is the most prestigious industry recognition an electric utility can receive.

''Outstanding emergency planning, an ability to improvise and a concern for human suffering were all evident in PG&E's response to the Loma Prieta earthquake,'' EEI said in a news release.

Although the quake disrupted electric service to some 1.4 million PG&E customers and caused major damage to equipment and facilities, PG&E restored service to all but the most seriously damaged neighborhoods within 48 hours.

#90157b0646 06/06/1990 ~Business Wire

SAN DIEGO (JUNE 6) BUSINESS WIRE - San Diego-based Mitek Systems Inc. (NASDAQ:MITK), a leading value-added manufacturer of TEMPEST computers and peripherals, is introducing a new state-of-the-art TEMPEST laser printer based on the popular, low-cost four-page-per-minute LaserJet IIP from Hewlett-Packard.

The model 104T represents the latest in Hewlett-Packard laser printer technology and, supported with an extensive set of options, provides the versatility and price/performance capability ideally suited for desktop publishing and graphics applications in sensitive information-processing environments.

The 104T is a lightweight, small footprint 4-PPM laser printer with 300 dpi text and graphics resolution. The 104T includes 14 internal fonts, 24 internal symbol sets and the ability to print lines and shading for extra emphasis. It provides bold, medium and italic in different font sizes and can use line printer fonts for data-intensive documents and footnotes.

The 104T supports portrait and landscape print orientations and autorotates fonts and graphics.

The main memory of 512KB (standard) is expandable in cost-effective increments to a maximum of 4.5MB to support 300 dpi full-page graphics,

downloadable fonts and macros. The 104T is backward compatible with the software, scalable type, soft fonts, font cartridges and many accessories that support Mitek's existing 120T LaserJet printer.

Optional Adobe PostScript and Epson FX/IBM Proprinter cartridges allow high-quality LaserJet print capability from PostScript and dot matrix applications.

The 104T offers the user a variety of ease-of-use features. Paper handling is simplified through a standard multi-purpose tray that automatically feeds paper (up to 50 sheets of letter, legal, A4 or executive), envelopes (Com-10, Monarch, DL and C5), labels and transparencies. The printer has an optional lower cassette that increases the paper capacity to a total of 300 sheets and gives the user full dual-bin printer functionality.

With correct order output stacking, no paper reshuffling is required. The easy-to-maintain cartridges combine toner, drum and other consumable components. A simplified front panel includes a two-line, eight-character-per-line LCD window angled for easy reading and allows messages to appear in several languages.

The 104T's RS-232-C/RS-422-A serial, Centronics parallel and AppleTalk communication interfaces allow instant compatibility with a wide range of host systems and networks. With the optional PostScript cartridge and AppleTalk interface, the 104T fully supports Macintosh software and hardware.

The 104T joins a comprehensive line of laser printers supporting both the Mitek Macintosh and IBM PC compatible computer product lines. These include the newest Hewlett-Packard LaserJet III, Apple's LaserWriter IINT and the popular QMS-PS 810 PostScript laser printer. Together they provide the user the maximum in flexibility and quality, and the most extensive price/performance selection in a TEMPEST laser printer.

Mitek is presently seeking accreditation for the 104T under the U.S. government's Endorsed TEMPEST Products Program. The printer is available in models that operate at 100-115VAC (104T) and 220-240VAC (104T-1). Expected list price of the 104T is under $4,000. Projected deliveries of the 104T begin in September 1990.

Mitek Systems Inc., based in San Diego, is a value-added manufacturer of sophisticated TEMPEST-accredited computer products that are modified to prevent electronic eavesdropping by unauthorized parties. Mitek's value-added TEMPEST products are used by U.S. and NATO goverments and private industry in high-security applications.

#90157b0651 06/06/1990 ~Business Wire

SAN DIEGO (JUNE 6) BUSINESS WIRE - San Diego-based Mitek Systems Inc. (NASDAQ:MITK), a leading value-added manufacturer of TEMPEST computers and peripherals, is introducing a new state-of-the-art TEMPEST laser printer based on the 8-page-per-minute (PPM) LaserJet III from Hewlett-Packard.

The Model 108T represents the latest in Hewlett-Packard laser printer technology and, supported with an extensive set of options, provides the versatility and performance capability ideally suited for desktop publishing and graphics applications in sensitive information processing environments.

The 108T is a compact, lightweight, 8-PPM laser printer utilizing HP's innovative 300-dpi Resolution Enhancement technology that eliminates jagged lines and edges, smooths curves and sharpens corners and intersections. In addition, the 108T utilizes HP's PCL printer language that combines scalable type and enhanced page formatting features.

Internal font support includes 14 bit-mapped fonts and eight scalable typefaces. With the integration of the HP-GL/2 pen plotter language into PCL 5, users can now merge publication-quality type into business graphics print in portrait and landscape on the same page, and rotate text and graphics in one-degree increments.

The 108T supports portrait and landscape (standard and reverse) print orientations and auto-rotates fonts and graphics.

Dual font cartridge slots increase font selection and flexibility. The main memory of 1MB (standard) is expandable in cost-effective increments to a maximum of 5MB to support downloadable fonts and macros. The 108T is backwards compatible with the software, scalable type, soft fonts, font cartridges and many accessories that support Mitek's existing 120T LaserJet printer.

Optional Adobe PostScript and Epson FX/IBM Proprinter cartridges allow high-quality, LaserJet print capability from PostScript and dot matrix applications.

With the optional PostScript cartridge and AppleTalk interface, the 108T fully supports Macintosh software and hardware.

Additional four-port serial and high-speed parallel interface options allow users to share the printer and its cost in standard as well as high-performance graphics applications.

Mitek Systems Inc., based in San Diego, is a value-added manufacturer of sophisticated TEMPEST-accredited computer products that are modified to prevent electronic eavesdropping by unauthorized parties. SAN DIEGO (JUNE 6) BUSINESS WIRE - San Diego-based Mitek Systems Inc. (NASDAQ:MITK), a leading value-added manufacturer of TEMPEST computers and peripherals, is introducing an MIL-STD-188-161B Protocol Conversion Module that allows existing digital facsimile equipment to communicate and interoperate in compliance with the DoD's new Military Standard for digital facsimiles.

Operating with secure digital facsimile products from both Mitek and Ricoh the SPC-12T is designed for placement directly below the facsimile to conserve desktop space. The SPC-12T interfaces with the STU-II, STU-III (AT&T, GE/RCA, Motorola and NTI), KG84 and KG84A, and interoperates with other MIL-STD-188-161B compliant equipment.

It provides for Type 1 transmission and reception of image data and is fully compatible and interoperable with Type 1 NATO facsimile equipment as defined in STANAG 5000.

The SPC-12T features two operator selectable compatibility modes: 1) normal mode supporting MIL-STD-188-161B Type 1, and 2) bypass mode supporting additional synchronous/asynchronous protocols. The normal mode operates at rates from 2.4 kbps to 32 kbps. In the bypass mode, synchronous communication rates of 2.4 kbps to 9.6 kbps and asynchronous rates of 300 bps to 19.2 kbps are supported.

The SPC-12T supports simplex, half-duplex, full-duplex, handshake and broadcast communication modes. In addition, transmission of data in uncompressed, compressed, and compressed with forward error correction modes are provided to support a wide variety of requirements. The SPC-12T is transparent to the communications process once the proper selections have been made from the front panel.

The SPC-12T can be purchased with new digital facsimiles from Mitek or Ricoh. Additionally, it can be purchased separately as an upgrade for their large installed base of digital facsimiles to provide

MIL-STD-188-161B compliant communications.

The SPC-12T was developed through a joint agreement with Ricoh Corp. Mitek is presently seeking accreditation for the SPC-12T under the U.S. government's Endorsed TEMPEST Products Program.

The SPC-12T operates at 50/60Hz and either 115VAC or 220/240VAC. The input power operating characteristics are switch selectable by the operator. Projected deliveries of the SPC-12T begin in July 1990.

Mitek Systems Inc., based in San Diego, is a value-added manufacturer of sophisticated TEMPEST-accredited computer products that are modified to prevent electronic eavesdropping by unauthorized parties. Mitek's value-added TEMPEST products are used by U.S. and NATO governments and private industry in high-security applications.

SAN DIEGO (JUNE 6) BUSINESS WIRE - San Diego-based Mitek Systems Inc. (NASDAQ:MITK), a leading value-added manufacturer of TEMPEST computers and peripherals, is introducing a new Macintosh personal computer, the Model 660T.

The 660T is based on the advanced, high-performance Macintosh IIfx and offers the ultimate in Macintosh responsiveness, ease of use and capability. This innovative computer is ideal for computation-intensive applications that demand fast processing of large amounts of data, such as simulations, computer-aided design, 3-D graphics rendering, enhanced desktop publishing and 24-bit image processing.

The 660T provides a variety of new features to increase system performance and flexibility. It features a 68030 microprocessor and 68882 math coprocessor that operate at 40 megahertz and a built-in 32K Static RAM Cache memory subsystem.

New I/O processors increase system efficiency by freeing the 68030 from managing many of the low-level input/output tasks for the serial ports, Apple Desktop Bus devices and floppy disk drives. A dedicated SCSI/DMA (Small Computer System Interface/Direct Memory Access) controller reduces the workload of the main processor and speeds performance of the SCSI bus.

Together, processors and cache speed program execution of CPU-intensive applications by up to 100 percent (two times as fast) over Macintosh IIci

systems and up to 300 percent (four times as fast) over Macintosh IIx and IIcx systems. Maximum performance plus access to more than 3,500 existing Macintosh programs.

Mitek adds this innovative product to an already extensive Macintosh product line. Mitek's existing product line includes the 650T Macintosh IIx, the T5270cx Macintosh IIcx, T5270ci Macintosh IIci, and the recently introduced T5240x Macintosh SE/30.

All systems are fully supported by a wide range of memory, mass storage (featuring removable media/drive technology), video and communications options. Together, they provide the user the full range of Macintosh price/performance options for applications in sensitive information processing environments.

Mitek Systems Inc., based in San Diego, is a value-added manufacturer of sophisticated TEMPEST-accredited computer products that are modified to prevent electronic eavesdropping by unauthorized parties. Mitek's value-added TEMPEST products are used by U.S. and NATO governments and private industry in high-security applications.

SAN DIEGO (JUNE 6) BUSINESS WIRE - San Diego-based Mitek Systems Inc. (NASDAQ:MITK), a leading value-added manufacturer of TEMPEST computers and peripherals, is introducing an extensive array of new options for its 650T Macintosh IIx personal computer.

These options expand the wide range of memory, mass storage, communications and video options already available for the 650T. These new options are available for immediate delivery.

OPTION: 650M205 200MB Removable Hard Drive

The 650M205, a high-performance 3.5-inch disk drive, provides 202 megabytes of fast, compact, removable data storage with an embedded SCSI interface. Featuring a 15-msec average seek time, it is ideal for users who want a fully removable drive with large mass storage capacity and quick response time. Fully removable, the drive can be securely stored with ease and is highly transportable.

OPTION: 650M206 600MB Removable Cartridge CD-ROM Drive

The 650M206 optical disk CD-ROM (Compact Disk-Read Only Memory) drive is ideal for users who want high performance and reliability with access to 600MB of data. The CD-ROM drive allows users to read the increasing number and variety of 12-cm CD-ROM disks. Utilizing removable media, this option offers a high-density storage system with the added benefit of data transportability and security.

OPTION: 650M207 5.25-Inch Floppy Disk Drive

The 650M207 5.25-inch floppy disk drive and controller board are ideal for users who want to use data created from MS-DOS programs in their Macintosh applications. Compatible with formatted MS-DOS 5.25-inch disks, the drive allows users to read and write files from MS-DOS-formatted media to the 650T, and vice versa.

OPTION: T5319 19-Inch High-Resolution Color Monitor

The T5319 is a 19-inch high-resolution color monitor designed using the most advanced technology available. Its uniquely coated screen combines low glare with high light transmission for optimum performance. Users with a color monitor requirement will benefit from its automatic scanning features, preset monitor controls and compatibility with most high-performance graphics boards.

OPTION: 650M351 High-Resolution 8-Bit Graphics Board

The 650M351 is a high-resolution, 8-bit graphics board for large format video displays. The board provides multiple resolutions for the Macintosh II family of computers with selectable resolutions of 1,024 x 768, 800 x 600 or 640 x 480. Each pixel is 8 bits deep and supports bit modes of 1, 2, 4 and 8. The board also supports QuickDraw.

OPTION: 650M352 High-Resolution 24-Bit Graphics Board

Mitek Systems Inc., based in San Diego, is a value-added manufacturer of sophisticated TEMPEST-accredited computer products that are modified to prevent electronic eavesdropping by unauthorized parties. #90157b0656 06/06/1990 ~Business Wire
ATLANTA (JUNE 6) BUSINESS WIRE - American Software's (NASDAQ:AMSWA) revenues and net earnings for the fiscal year ended April 30 are the highest revenues and net earnings in the company's history.

Revenues and net earnings for the fiscal year ended April 30, 1990, over the corresponding fiscal year ended April 30, 1989, show growth in revenues of 27 percent and net earnings of 28 percent.

American Software's revenues for the fourth quarter of fiscal 1990 were $26,532,000, up from $21,694,000 in the same period last fiscal year. Net earnings for the fourth quarter increased to $5,436,000, from $4,046,000 a year ago, a 34 percent increase. Fiscal 1990 fourth quarter earnings per share were 36 cents, up from 27 cents per share in the corresponding quarter in fiscal 1989, on 15,171,308 and 14,954,450 weighted average shares outstanding, respectively.

For fiscal 1990, the company's revenues were $91,119,000, compared to $71,623,000 for last year. Operating earnings for the same period were $24,230,000, compared to $19,724,000 a year ago. Net earnings were $18,556,000, compared to $14,480,000 last year (excluding any impact from SFAS96 ''Accounting for Income Taxes'').

Earnings per share for fiscal 1990 were $1.23 compared to 96 cents (excluding a 5 cent per share impact from SFAS96 ''Accounting for Income Taxes'') last year on 15,125,459 and 15,018,275 weighted average shares outstanding, respectively.

American Software, headquarted in Atlanta, develops, markets and supports business application software for a wide range of end-users, including manufacturing companies, public utilities, financial institutions, health-care facilities and distribution concerns.

#90157b0657 06/06/1990 ~Business Wire
BLUE BELL, PA (JUNE 6) BUSINESS WIRE - Unisys Wednesday announced that it will begin delivery of X.500 OSI Directory Services software for its U Series UNIX OS-based systems next month.

The corporation also revealed that it has opened two engineering laboratories--one in Malvern, Pa. and one in Kelsterbach, West

Germany--that conduct OSI product conformance and pre-certification tests according to specifications of the various international standards organizations and user group profiles.

The Kelsterbach lab is connected to the German Open Systems Testing Consortium (OSTC) laboratory. OSTC is a group of OSI protocol testing laboratories supported by European Postal Telephone & Telegraph organizations (PTTs).

According to Gil Piddington, vice president of Communications Program Management for the Unisys Computer Systems Group, demand for OSI network applications is already strong in Europe and the Far East, and is growing in the United States.

Unisys is also developing X.500 OSI Directory Services products for its BTOS/CTOS workstations and for its 1100/2200 and A Series mainframes. All Unisys Directory Services products will conform to the CCITT X.500 Recommendations, and to the International Standards Organization's IS 9594 standard.

The U 6000 Series X.500 product shipping in July will provide both centralized and distributed directory services, and it is fully integrated with previously released Unisys X.400 Message Handling and File Transfer and Access Method (FTAM) OSI products. Consequently, the many operational and administrative advantages offered by the Directory Services database are provided automatically as Unisys OSI users send files and messages to each other across a multivendor network.

The Unisys X.500 product provides both Directory User Agent (DUA) and Directory System Agent (DSA) functionality. Users can build directories on Unisys U 6000 systems, and can access them from a DUA on another vendor's system via an OSI network. The directory can be centralized on a Unisys system or can be distributed across many systems provided by Unisys or by other vendors that implement the X.500 standard.

Unisys has licensed test software from Danet and its U.S. subsidiary, GSI-Danet, to ensure that its OSI software products conform to the International Standards Organization (ISO) specifications.

PHOENIX (JUNE 6) BUSINESS WIRE - Valley National Corp. has announced that it has engaged First Boston Corp. of New York to solicit offers for its Utah and California bank subsidiaries.

These subsidiaries will be marketed at a price in excess of book value.

The corporation's main bank is The Valley National Bank of Arizona with assets of $9.2 billion. The principal subsidiaries to be marketed are Valley Bank and Trust Co. of Utah with assets of $944 million and California Valley Bank with assets of $111 million.

Valley National Corp. acquired Valley Bank and Trust Co. of Utah in May 1987 and California Valley Bank in December 1987. Valley Bank and Trust Co. of Utah is that state's third largest bank with 35 branches throughout Utah. The California subsidiary has consistently maintained a strong operation whose business focus is primarily in the Central Valley of California.

To date, the company has not entered into negotiations for the sale of these subsidiaries.

TEMPE, AZ (JUNE 6) BUSINESS WIRE - Tempe-headquartered Health Advancement Services Inc. (NASDAQ:HASI) said Tuesday it has signed two significant new contracts.

Glenn M. Friedman, M.D., president and chief executive officer, said a major California non-profit religious organization with 1,150 eligible participant employees has signed a two-year contract for the Personal Health Advisor System.

The system is a unique new worksite health promotion program, which provides employers with a health evaluation, promotion and education system designed to identify and reduce health risk factors.

The system reduces costs for employee health coverage by controlling claims costs through reduction of these health risk factors.

''This system improves productivity, reduces absenteeism and accidents and reduces employer health care costs,'' he said.

Friedman said the second one-year contract is for a health risk appraisal for an Arizona governmental entity with more than 600 employees.

HAS is one of the first companies in the United States to implement cost containment health promotion programs. It has serviced more than 80,000

individuals and more than 250 employers with operations in Arizona and California.

#90157b0682 06/06/1990 ~Business Wire

KANATA, ONTARIO (JUNE 6) BUSINESS WIRE - Mitel Corp. (NYSE/TSE/ME:MLT) announced Wednesday that its U.S. subsidiary, Mitel Inc. (Mitel) has entered into an agreement to acquire, by means of a cash merger, all of the issued and outstanding capital stock of Coradian Corp. (NASDAQ:CDIN).

The price per share will be the same for both the preferred and common stock of Coradian.

The merger agreement provides for payment by Mitel to Coradian stock holders of a maximum sum of U.S. $10 million.

The Agreement provides that such price will be adjusted downward to a minimum of $7.5 million to the extent of (i) any liabilities arising out of a breach by Coradian of its representations and warranties in the Agreement or any other matter as to which Mitel is indemnified under the Agreement; (ii) the reduction, if any, in retained earnings or the increase, if any, in accumulated deficit incurred by Coradian from Oct. 1, 1989, until the effective date of the merger; and (iii) certain liabilities of Coradian as of the effective date of the merger that were not reflected in its balance sheet as of Sept. 30, 1989.

Under the terms of the Agreement, $2.5 million of the purchase price will be held in escrow for up to one year pending determination of the foregoing adjustments. Such escrow may continue beyond one year to the extent that there are unresolved claims under the Agreement at the end of such year.

Coradian suffered net losses of approximately $665,000 and $247,000 during the fourth quarter of 1989 and the first quarter of 1990, respectively, and anticipates additional losses prior to the effective date of the merger. Coradian does not expect that such losses will be recovered prior to the effective date. The price will be reduced accordingly based upon the amount of such losses.

Assuming a minimum adjusted purchase price of $7.5 million and a maximum adjusted purchase price of $8.5 million, it is anticipated that each holder of Coradian's common and preferred stock will receive between 36

cents and 41 cents for each share of stock owned.

Coradian has retained First Albany Corp. as financial advisor to provide a written opinion as to the fairness, from a financial point of view, of the consideration to be paid to the holders of Coradian's common and preferred stock, respectively.

Consummation of the merger is subject to various conditions, including receipt of the fairness opinion from First Albany Corp. and approval of the merger by Coradian's shareholders at a special meeting to be convened for such purpose. If approved by the shareholders, the merger is expected to be concluded as soon as practicable following the shareholders meeting.

Coradian, headquartered in Latham, N.Y., is one of the leading independent interconnect companies in the United States with over $27 million in sales recorded in 1989.

Mitel Corp. is an international manufacturer of sophisticated, reliable business telecommunications systems and public switching systems, with annual revenues of more than $400 million. More than 120,000 Mitel telecommunications systems have been sold in over 80 countries.

WOODBURY, NY (JUNE 6) BUSINESS WIRE - Millfeld Trading Co. (NASDAQ/NMS:SHOE, NASDAQ:SHOEU, SHOEW) Wednesday announced operating results for its fiscal first quarter ended April 30, 1990.

Net earnings increased 142 percent in the current period to $240,532, or 8 cents per share compared to earnings of $99,294 for the same quarter last year.

Millfeld also reported an increase of 20 percent in sales for the quarter ended April 30, 1990 compared to the same period a year ago.

Millfeld's new Team Sports Footwear line introduced in the second half of last year accounted for sales in the amount of $856,474 during the current fiscal quarter.

Commenting on the results, Barry Feldstein, chairman and chief executive officer said, ''We are very pleased with the early response to our Team Sports Footwear line as well as the continued growth in our traditional areas.''

The company also announced that its shares of common stock have been included on the NASDAQ National Market Security System.

Millfeld Trading Co. Inc. designs, markets and distributes a wide variety of footwear including a product line bearing the ''No Excuses'' label and the recently introduced Team Sports Footwear line bearing logos of various professional sports teams and colleges.

#90157b0689 06/06/1990 ~Business Wire

LOS ANGELES (JUNE 6) BUSINESS WIRE - Whittaker Corp. announced that it Tuesday entered into a new, $140 million credit facility with a group of banks led by Security Pacific National Bank.

Under the new facility, which replaced Whittaker's $432.5 million recapitalization credit facility, Whitakker has the choice of borrowing at prime or other specified rates if they are more favorable. The entire amount of the new facility will be available during its three year term.

The company also Wednesday announced the results of its operations for the second quarter and first six months of fiscal 1990 which ended April 30.

Sales and operating profit of continuing operations for the second quarter were $51,203,000 and $7,583,000, respectively, compared to $45,534,000 and $8,387,000, respectively, a year ago. Sales and operating profit of continuing operations for the six months were $90,622,000 and $12,455,000, respectively, compared to $87,488,000 and $15,005,000, respectively, a year earlier.

Operating profit for the aerospace segment for the second quarter and six months of 1990 reflects a $1.7 million provision for costs relating to the move of the Carlsbad, Calif. operations of the company's Whittaker Electronic Systems division to the headquarters of that division in Simi Valley, Calif.

Income from continuing operations for the second quarter amounted to a loss of $3,290,000, or 40 cents per share, compared to a profit of $3,237,000, or 43 cents per share, a year earlier and for the first six

months amounted to a loss of $4,388,000, or 54 cents per share, compared to a profit of $5,367,000, or 71 cents per share, a year ago.

Income from discontinued operations for the second quarter amounted to a loss of $2,089,000, or 25 cents per share, compared to a profit of $4,303,000, or 60 cents per share, a year earlier and for the first six months amounted to a loss of $4,176,000, or 50 cents per share, compared to a profit of $6,967,000, or 98 cents per share, a year ago.

The sharp decline in income from both continuing operations and discontinued operations in the current year is due largely to increased interest costs resulting from debt incurred to finance the recapitalization of the company in June 1989.

In addition, income from continuing operations for the second quarter and first six months of 1990 was unfavorably affected by a nonrecurring pre-tax charge of $7.0 million ($4.3 million after tax, or 52 cents per share) for the write-off of the balance of unamortized loan costs related to the recapitalization credit facility which was replaced with the new, $140 million credit facility.

The gain on disposal of discontinued operations for the second quarter and six months of 1990 amounted to $80,464,000, or $9.71 per share and $85,248,000, or $10.29 per share, respectively. For the second quarter and six months of 1989 the gain on disposal of discontinued operations amounted to $5,100,000, or 72 cents per share.

As a result of the company's decision in February, 1990, to sell its specialty chemicals segment as well as its previously discontinued coatings business to Morton International Inc., the specialty chemicals segment has now been classified as a discontinued operation. The company's continuing operations are now comprised of two operating business segments: aerospace and biotechnology.

In addition, during the second quarter of fiscal 1990, the company decided to reinstate as continuing operations, within the aerospace segment, two businesses previously included within the discontinued technology segment. The businesses are Whittaker Power Storage Systems, which manufactures high performance batteries, and Whittaker Ordnance which manufactures pyrotechnic actuators, squibs and initiators.

The financial statements reflect the operating results and balance sheet items of the discontinued operations separately from continuing operations. Previously reported financial statements have been restated to reflect the discontinuance of the specialty chemicals segment and the reinstatement to continuing operations of the two businesses previously included within the discontinued technology segment.

SAN RAMON, CA (JUNE 6) BUSINESS WIRE - PacTel Meridian Systems Wednesday announced Peter Ianace is appointed to the position of president.

In this position, Ianace is responsible for all operations of PacTel Meridian Systems.

Ianace joined Northern Telecom in 1986 and has held several senior management positions since then. Most recently, he was vice president, marketing, Meridian Business Systems, Northern Telecom Inc. (NYSE:NT).

PacTel Meridian Systems is a partnership formed by subsidiaries of PacTel Corp. and Northern Telecom Inc. in February 1988. The company, located in San Ramon, sells and services Northern Telecom Meridian 1 private branches exchanges and associated products in California and northern Nevada; it employs more than 650 people.

PacTel Corp. is a subsidiary of Pacific Telesis Group, a worldwide diversified telecommunications corporation based in San Francisco.

Northern Telecom is the leading global supplier of fully digital telecommunications systems. The company provides products and services to the telecommunications industry, businesses, universities, governments and other institutions worldwide. Northern Telecom Inc., with its headquarters in Nashville, Tenn., employs approximately 22,000 people across the United States.

#90157b0695 06/06/1990 ~Business Wire
CLEVELAND, OH (JUNE 6) BUSINESS WIRE - LDI Corporation (NASDAQ: LDIC)

achieved record revenues, pretax earnings, and net earnings for the first quarter ended April 30, 1990, Robert S. Kendall, chairman and chief executive officer, told shareholders today at the Company's annual meeting.

''First quarter net earnings were 50 percent higher than a year ago, totaling $2,064,000, or 32 cents per share, on 26 percent more average shares outstanding,'' Kendall said. Net earnings in last year's first quarter were $1,373,000, or 27 cents per share.

Kendall also reported that pretax earnings for the first quarter were up substantially to $3,334,000, a 48 percent increase from $2,253,000 for the first quarter of 1989, while revenues increased 33 percent to $81,402,000 from $61,410,000 a year ago.

''Our progress continues to reflect the success of our diversification program which has enabled us to expand our role as the provider of a broad array of data processing, telecommunications and other high tech products, selected capital equipment, and technical services,'' Kendall said. ''We are pleased with our progress toward becoming less dependent upon any single product or service. Each of our major operations contributed to the record results in the first quarter.''

Kendall said the Company will continue to expand through internal growth and by selective acquisitions that broaden product or service capability. He said LDI's personal computer business is benefitting from the trend toward personal computer networks replacing some mainframe operations. As a result, LDI has expanded its field service capability to provide network training and support.

LDI Corporation, with headquarters in Cleveland, leases and sells a full range of new and used data processing, telecommunications and other high technology equipment, and provides maintenance, disaster recovery, technical support and related services. The Company's products include mainframe and mid-range central processing equipment and peripheral devices, as well as personal computers, telecommunications equipment, computerized medical diagnostic systems, and selected capital equipment. LDI is also an active dealer in the secondary market for used data processing, telecommunications and related equipment.

BIRMINGHAM, AL (JUNE 6) BUSINESS WIRE - Matthew L. Gold, chairman and chief executive officer of Precision Standard Inc. (NASDAQ:PCSN) announced Wednesday that its Space Vector subsidiary had launched its 28th successful ARIES rocket from the White Sands Missile Range, N.M.

The mission, which was contracted by the Air Force's Geophysics Laboratory and sponsored by the Defense Nuclear Agency, carried a 5000 pound experiment designated EXCEDE III to an altitude of approximately 74 miles in order to simulate the effects of energy deposition on the atmosphere and to obtain spatial/temporal measurements of the infrared and optical emissions created by such a disturbance in the upper atmosphere.

EXCEDE III successfully used an onboard, high power electron beam to initiate the condition, and a remote sensor module (subsequently recovered via parachute) to investigate the effects.

Gold indicated that Space Vector Corp. was responsible for all vehicle structures, guidance and launch systems, as well as payload attitude-control and recovery sub-systems.

Gold also announced that Robert S.W. Given, had been elected assistant secretary of the corporation at the board of directors meeting held on May 22, 1990.

Given, 31 years old, joined the company's Pemco Aeroplex subsidiary earlier this year as corporate counsel, a position he will continue to

hold. He formerly was associated with the Birmingham law firm of McDaniel Hall, Conerly & Lusk. Given is a graduate of Vanderbilt University and the University of Alabama School of Law.

Precision Standard, with facilities in Alabama, California, Colorado and Florida and offices in Denver, Boston and London performs maintenance and modification of aircraft for the U.S. government and foreign and domestic commercial customers.

The company also manufactures aircraft cargo systems, aerial targets for military customers, precision springs and components, and rocket vehicles and control systems.

CLEVELAND (JUNE 6) BUSINESS WIRE - First Union Real Estate Investments (NYSE:FUR) Wednesday announced its second quarter 1990 dividend of $0.375 per share ($1.50 annual rate).

The dividend will be paid July 31, 1990, to shareholders of record June 29 1990.

This most recent dividend is the 115th consecutive regular quarterly dividend declared by the Trust and represents a 9.7 percent yield based on

the current market value of its shares. During its 29-year history, the Trust has never had a downturn in its dividend rate.

First Union Real Estate Investments is a self-administered equity real estate investment trust specializing in the ownership of regional enclosed shopping malls, downtown office buildings and multi-family complexes located throughout the United States. The Trust's shares are traded on the New York Stock Exchange, providing shareholders the opportunity to participate in real estate ownership while maintaining investment liquidity.

ATLANTA (JUNE 6) BUSINESS WIRE - NOTICIERO TELEMUNDO/CNN, the national and international newscast produced by CNN and broadcast live in the United States exclusively on Telemundo, the Spanish-language television network, has signed Cecilia Bolocco to co-anchor.

Bolocco will join co-anchor Jorge Gestoso in mid-June.

Bolocco's professional television career began in 1989, when she became co-host of the popular prime time variety show, MARTES TRECE, on Chilean television. The show scored the highest rating in its 15-year history with Bolocco as co-host.

Bolocco was crowned Miss Universe in 1987 and marked her reign with numerous humanitarian activities including hosting a telethon to aid disaster relief when floods ravaged her native Chile. She studied civil engineering at Universidad de Santiago.

''Cecilia brings extensive talents to NOTICIERO TELEMUNDO/CNN,'' said Jon Petrovich, executive vice president of CNN HEADLINE NEWS. ''She has been an international ambassador of good will. Her great versatility as a performer, interviewer and host has contributed to her remarkable success on Chilean television.''

On Bolocco's addition to the news team, Carlos Barba, Telemundo senior vice president of programming, commented, ''Since its inception, NOTICIERO TELEMUNDO/CNN has set standards in Spanish-language news programming. Cecilia has a rare combination of talents which will help elevate the professional calibre of the newscast even higher. Cecilia and Jorge Gestoso will make an outstanding team.''

NOTICIERO TELEMUNDO/CNN is produced by a bilingual staff at CNN's world

headquarters in Atlanta and its full service bureaus in Miami, New York, Washington and Los Angeles. The newscast also benefits from the extensive worldwide newsgathering resources of CNN.

The 30-minute program, which airs at 6:30 p.m. and 9:30 p.m. (ET), offers viewers in-depth coverage of Latin America and world events, live reports from around the globe and exclusive interviews with newsmakers.

VALENCIA, CA (JUNE 6) BUSINESS WIRE - 3-D Systems Inc. (NASDAQ: TDSSF) (VSE: TDS.V) announced Wednesday that it had been issued a new United States Patent, No. 4,929,402, which substantially enhances the company's patent position in the field of StereoLithography.

The new patent issues from a divisional application of the company's original patent (No. 4,575,330) which was issued in March 1986. In November 1989, the U.S. Patent Office upheld the "330" patent after E.I. du Pont de Nemours & Co. had requested a reexamination.

With the issuance of the new "402" patent, the scope of patent protection has been considerably enlarged. 3-D Systems believes that all known potentially competitive stereolithographic systems appear to infringe its current patents.

Charless Hull, president of 3D Systems and the developer of StereoLithography, said, "We have been consistent in our belief that our patent position is not only very secure, but will over time beomce even stronger. We are therefore pleased that we have received this new patent and we will continue to protect and strengthen our position."

3-D Systems Inc. is the Canadian parent company of 3D Systems Inc., a California company formed in March 1986 to develop, manufacture and market equipment which produces plastic models from solid modeling CAD data.

The company's StereoLithography process currently utilizes an ultra violet laser beam which passes over a vat of liquid polymer, hardening the liquid wherever the beam impinges on the liquid, so that it creates a solid,

three-dimensional object which conforms exactly to the stored computer design.

EXETER, NH (JUNE 6) BUSINESS WIRE - In testimony filed with the New Hampshire Public Utility Commission (NHPUC), UNITIL Corp. warned that approval by the NHPUC of the proposed hostile takeover by Eastern Utilities Associates of Boston (EUA) would subject electric customers of UNITIL's distribution subsidiaries, Concord Electric and Exeter & Hampton Electric, to potential cost increases of up to $16 million, or approximately 20 percent, above existing rates.

The risk of higher rates is a result of cost differences between UNITIL an EUA and the exposure to EUA's impending financial problems stemming from their investments in the Seabrook Nuclear Power Plant.

UNITIL is a New Hampshire based utility holding company. Subsidiaries are Concord Electric Co., Exeter & Hampton Electric Co., UNITIL Power Corp., UNITIL Realty Corp., and UNITIL Service Corp.

NORCROSS, GA (JUNE 6) BUSINESS WIRE - The Hilton at Peachtree Corners, Gwinnett County's second largest hotel, has announced two managerial changes for its 272-room property.

Martin R. Faye, a veteran of some 10 years with the Hilton Hotels Corp., has been appointed General Manager. He comes to Atlanta from his previous position as General Manager of the St. Louis Airport Hilton.

Faye's educational background includes a Bachelor of Arts degree from Michigan State University, majoring in Restaurant and Institutional Technology. Additionally, Faye holds a Special Certificate of Study from the Italian State Hotel University, in Palermo, Italy.

Faye's 17 years of experience in the hospitality industry, at some of the nation's finest hotels, have prepared him well to undertake the control and responsibility for all operations of the Hilton at Peachtree Corners.

The hotel has also announced the selection of Natalie S. Shoaf as Director of Marketing. Shoaf previously served as Manager of International Sales with Days Inn of America Inc., where she was responsible for domestic and international sales and marketing efforts. She brings to the Hilton over 10 years of hospitality sales and marketing experience.

Shoaf holds a Bachelor of Science degree in Merchandising and Marketing from the University of Tennessee.

As Director of Marketing, she will be charged with the total responsibility for all sales and marketing activities of the Hilton at Peachtree Corners.

SHANNON, IRELAND (JUNE 6) BUSINESS WIRE - GPA Group plc announced Wednesday that its consolidated net profit after tax increased by 59 percent to U.S. $242 million in the year to March 31, 1990.

Fully diluted earnings per ordinary share increased 49 percent to $42.

A final ordinary dividend of $3.30 is being proposed, bringing the total for the year to $12, up 37 percent.

Summary financial information is given below.

Commenting on the results, Dr. Tony Ryan, chairman and group chief executive said, ''I am pleased to be able to report that GPA has again made considerable progress in the year just ended.

''Revenue, profit and earnings per share show a substantial advance on last year's figures and are clear evidence of our leadership position in our industry and GPA's ability to grow profitably.''

''All of our three business units have done well. GPA Leasing won 20 new airline customers, placed 148 aircraft for 1990 and the future and delivered aircraft to customers at an average rate of over two per week.

GPA Leasing is responsible for the design, sale and administration of aircraft operating leases and for the trading to airlines of new and used aircraft. GPA is the world's leading provider of new commercial aircraft on operating lease and at the end of March was leasing to 68 airlines in 41 countries.

GPA Capital designs and markets aviation related products to individual

and corporate investors and provides related investment banking services including cross border and tax based financings.

GPA Technologies develops and manages GPA's investments in a range of businesses providing technical support to airlines.

SARASOTA, FL (JUNE 6) BUSINESS WIRE - Omni Films International Inc. (NASDAQ:OFII) announced its most promising statement yet about its current and future financial situation.

Already this current fiscal year sales have surpassed the previous year sales by an estimated 300 percent. The third quarter is not yet complete and the sales back log going into the next fiscal year is just as impressive as the sales gains of this year.

Overseas sales have been booming and film production is up as well. Several of Omni's new systems are scheduled to be installed in the United States over the next several months and sales are expected to match the pace set in Japan.

To further enhance the outlook that Omni has on it's future, an altogether new system and product line is expected to be announced this fall, 70mm film and entertainment has a very strong producer/supplier in Omni Films International Inc.

Application of Omni products and systems are finding homes in malls, trade shows, theme and amusement parks, museums, planetariums and other areas.

MONTGOMERY, AL (JUNE 6) BUSINESS WIRE - Kinder-Care Learning Centers Inc. the nation's largest child care company, Wednesday announced that J. Phillip Samper has been named president and chief executive officer of the company.

Samper, the former vice chairman and executive officer of Eastman Kodak Co., said, ''I am tremendously excited about the child care industry and working with Kinder-Care Learning Centers, the industry leader.

Samper, 55, served Kodak for 28 years. He was a highly respected Kodak executive and gained international recognition for his role in the growth and restructuring of the Eastman Kodak Co.

Kinder-Care Learning Centers has 1,258 child care centers in 40 states, including 17 corporate centers, with 10 new contracts being negotiated. Kinder-Care Learning Centers is the child care provicer for children of employees of Disney World, Cigna, Monmouth Medical Center (N.J.), University of Kentucky, Hospital Corporation of America and other corporations, universities and hospitals across the country.

The new members of the board of directors elected at the Kinder-Care Learning Centers annual shareholder meeting are: Samper, Herbert Baum, president of Campbell North America; Jack Greenberg, senior executive vice president and chief financial officer of McDonald's Corp.; Malcolm Hopkins former vice chairman and chief financial officer of St. Regis Corp.; Geraldine Laybourne, president of Nickelodeon, the well-known children's television program; Dr. Sandra Scarr, Commonwealth Professor of Psychology of the University of Virginia and Wayne Thornbrough, chief investment officer of The Lodestar Group.

They join Ken Miller, chairman of the board, who is president of the Lodestar Group; Edward Gibson, vice chairman of Kinder-Care; Perry Mendel, founder of Kinder-Care and chairman emeritus; Gearreald, vice chairman of The Lodestar Group and Taylor Dawson Jr., president of Andrew and Dawson.

In late 1989, Kinder-Care Learning Centers became an independent company in a rights offering underwritten by the Lodestar Group, a New York-based merchant banking and investment advisory firm.

The elections took place on June 6, 1990, at the annual stockholder meeting. The meeting was held at the executive offices of Kinder-Care Learning Centers in Montgomery, Ala.

#90157b0778 06/06/1990 ~Business Wire
ARMONK, NY (APRIL 6) BUSINESS WIRE - As part of its $25 million, five-year grant program to help improve U.S. elementary and secondary education, IBM has announced the first three recipients of awards designed to stimulate innovative uses for computer technology in the classroom.

As a result of one grant, high school foreign language students will get the opportunity to interact in simulated environments with native speakers. A $1.2 million grant has been awarded to The University of

Michigan's (U-M) Project for Language Research and Development, in Ann Arbor, Mich., under the direction of Professor Edna Amir Coffin. U-M plans to use the grant to develop a multimedia curriculum for foreign language instruction at three Michigan schools -- Martin Luther King Jr. High School in Detroit, Community High School in Ann Arbor and the United Hebrew Schools in Southfield.

The program is called Project FLAME -- Foreign Language Applications in the Multimedia Environment. Language skills are developed by having students solve realistic problems in a multimedia learning environment, using computers, interactive video and audio systems. U-M will conduct research on the effectiveness of this approach.

NORTHWESTERN UNIVERSITY Another grant will enable researchers to apply artificial intelligence and cognitive science to teaching and learning in K-12 environments. A $1.4 million grant has been awarded to The Institute for Learning Sciences at Northwestern University in Evanston Ill., under the direction of Professor Roger C. Schank. Using computers, the Institute seeks to change what people learn -- as well as the way in which they learn it -- based on research on human understanding and learning. For example, one aspect of this approach is to tell an educational story at the precise time at which an individual child is ready to learn from it. The Institute will work with school systems in and around Chicago, including District 65 in Evanston and the Chicago Public Schools.

ORANGEBURG SCHOOL DISTRICT FIVE In South Carolina, a $1.8 million grant has been awarded to Orangeburg School District Five for a computer project to restructure teaching and learning. The district, under the direction of Superintendent of Schools Dr. James A. Wilsford, has had considerable success reducing its dropout rate through the use of computer technology. The Orangeburg project will apply additional techniques for technology use by the general student population. South Carolina State College in Orangeburg is assisting the Orangeburg School District with project evaluation and assessment.

IBM SUPPORT OF K-12 EDUCATION These three grants are the first of approximately ten innovation grants to be awarded under the $25 million program announced by IBM in May 1989. Each grant includes appropriate IBM hardware and educational software, interactive multimedia systems, training and technical support and a cash grant to cover new technology and staff costs.

IBM continues to accept proposals for the innovation grants program. Accredited academic institutions, school systems and associated organizations are invited to submit grant proposals to IBM any time during the next two years. Award recipients are selected by an IBM review committee, based on criteria in published guidelines.

#90157b0800 06/06/1990 ~Business Wire

MANCHESTER, NH (JUNE 6) BUSINESS WIRE - The board of directors of EnergyNorth Inc. adopted a shareholder rights plan and declared a dividend distribution of one share purchase right on each outstanding share of the company's stock,

Each right will entitle shareholders to buy one share of the company's common stock for each share owned, at an exercise price of $48, subject to adjustment. The rights will be exercisable only if a person or group acquires 10 percent of more of the outstanding company's stock or announces a tender of exchange offer, the consummation of which would result in ownership by a person or group of 20 percent or more of it common stock.

The company will be entitled to redeem the rights at one cent per right at any time not later than 10 days after the acquisition of a 10 percent position by an person or group, subject to extension by the board of directors, in its discretion. The redemption rights will be reinstated if such person or group reduces its shareholdings to less than 10 percent.

In addition, if a bidder who beneficially owns less than 1 percent of the shares proposes an all-shares, all-cash offer for the shares at a fair price, the company, upon the bidder's request, will hold a special meeting of the shareholders to vote on a resolution requesting the board of directors to accept such offer. If a majority of the outstanding shares vote in favor of such resolution, the rights will be redeemed automatically at the redemption price.

The shareholder rights plan is designed to assure that all the company's shareholders receive fair and equal treatment in the event of any proposed takeover of the company and to guard against partial tender offers and other abusive tactics to gain control of the company without paying all shareholders an appropriate price.

If the company were to be acquired in a merger or other business combination transaction, each right would entitle its holder to purchase, at the right's then current exercise price, a number of the acquiring company's common stock shares having a market value at the time of two times the right's exercise price.

Alternatively, if anyone owning 10 percent or more of the company's outstanding common stock merges with the company and the company's is the

surving corporation, or if anyone acquires 15 percent or more of the company's common stock, or in the event of other self-dealing transactions with a 10 percent holder, each right, except those held by such persons or groups, would entitle the company's common stock or other securities or assets having a market value equal to twice the right's exercise price.

The rights dividend distribution will be made to common shareholders of record as of the close of business on June 18, 1990. Separate right certificates will not be distributed until such time as they become exercisable, and the rights will expire on June 18, 2000. The rights distribution is not taxable to shareholders.

Traded over-the-counter, EnergyNorth is a public utility holding company whose principal operating subsidiaries include a natural gas distribution company and a retail propane company.

#90157b0838 06/06/1990 ~Business Wire

PORTLAND, ME (JUNE 6) BUSINESS WIRE - Vincent E. Furey Jr., president and CEO of The One Bancorp (TONE-NASDAQ), said Wednesday that some media reports of the company's annual shareholders' meeting misstated his comments about prospects for success of the company's capital recovery

plan.

Furey also offered clarification of a shareholder's comment, widely reported following the May 23 meeting, that top executives of The One Bancorp had received excessive salary increases while the company's common stock price fell.

''According to one report, I said The One's stock will likely lose all its value,'' Furey said. ''I made no such statement. I said 'the odds are against us, but there remains a chance for success.'

''Another report stated that 'company executives said shares will probably become worthless.' None of our executives made such statements.''

Furey said a shareholder's widely reported interpretation of proxy material, seeming to indicate that a group of 11 One Bancorp executives received salary increases approximating 25 percent in 1989, was extremely misleading.

''The 11 highest-paid One Bancorp executives received an average salary increase of 6 percent in 1989,'' he said. ''In 1990 the 11 highest-paid executives received an even smaller increase--1.8 percent.''

The misleading interpretation of proxy statement information occurred whan a total compensation figure for the company's 11 highest-paid executives in 1988 was compared, by a shareholder, with a similar figure for 1989, Furey said.

''The aggregate figures cannot be utilized to measure compensation increases. Executives in the group change from year to year, and the inclusion of several executives who were compensated for only a portion of 1988 artifically magnified the percentage change,'' Furey said.

Furey said bonuses, another source of negative comment, were paid, selectively, to only four executives, the two largest of which were a performance bonus given to reward an officer for his development of an asset-disposition process critical to success of the company's capital plan; and a formula-based bonus given to the head of a banking subsidiary which achieved a pre-established profitability target.

According to Furey, the company bases salaries and bonus awards on market surveys of peer groups, with the recognition that it would not be able to attract and retain capable management if it were not competitive or did not reward officers who properly earned incentive compensation.

He also noted that the moderate salary increases of 1989 and 1990 did not represent ''bank executives feathering their own nests while ruining the institution,'' as one newspaper editorialized following news of the

misinterpreted compensation information.

The One Bancorp is a $2.3-billion, Maine-based bank holding company with banking subsidiaries in Maine, Connecticut and Massachusetts.

#90157c0013 06/06/1990 ~Comtex
WASHINGTON (JUNE 6) COMTEX - The House yesterday passed by voice vote legislation which will empower the Securities and Exchange Commission to "prohibit or constrain" program trading during periods of excessive market volatility.

The bill, entitled the Securities Markets Reform Act of 1990, is designed to grant the SEC expanded powers to monitor the securities markets in order to prevent extreme market gyrations and enhance investor confidence.

"We are not talking about banning computers or legitimate program trading strategies," said Rep. Edward J. Markey (D-Mass.), the author of the stock reform bill. "Far from it, we are giving the SEC the tools to protect the securities markets from manipulative trading strategies and to prohibit or constrain during volatile markets legitimate trading strategies which nonetheless result in extraordinary volatility and threaten fair and orderly markets."

Program trading refers to a computer-based method of buying or selling a group of stocks, in which traders move quickly between baskets of stocks and futures contracts. Futures contracts represent bets on the future prices of a basket of the same stocks. Traders attempt to profit by exploiting small differences between the price of stocks and futures contracts.

The program trading provision extends only to the stock markets and does not apply to the futures markets. The Bush administration opposes any powers to curtail program trading. Assistant Treasury Secretary Robert Glauber has gone on record stating "we continue to believe that the blunt approach of government intervention to stop program trading is an inappropriate way to address these problems."

The bill also requires large trader reporting, allows the SEC to assess the financial stability of broker-dealer parent firms and their affiliates, and gives the SEC authority to halt stock exchange trading in a market emergency, provided the action is not opposed by the president. Currently, only the president can halt trading of the overall market.

The Senate Banking Committee is also working on a similar market reform bill, without the program trading amendment.

#90157c0014 06/06/1990 ~Comtex

WASHINGTON (JUNE 6) COMTEX - The 8-K report filed at the SEC shows on June 1, 1990, Pulawski Savings Bank, S.L.A., consummated its conversion from a savings and loan association (Pulawski Savings and Loan Association) to a holding company subsidiary bank. In accordance with a preceding agreement and plan of reorganization, dated Sept. 21, 1989, stockholders of each share of Pulawski Savings experienced that share's automatic conversion to one share of Pulse Bancorp Inc., a chartered savings and loan company of New Jersey. By its June 1, 1990 conversion, Pulawski Savings became a wholly-owned subsidiary of Pulse.

This change was approved by shareholders of Pulawski Savings on Jan. 25, 1990, by the Office of Thrift Supervision on April 18, 1990, and by the New Jersey Department of Banking on May 4, 1990.

The executive office of Pulawski Savings Bank, S.L.A., is located at 6 Jackson St., South River, New Jersey 08882, and its telephone number is (201) 257-2400.

#90157c0058 06/06/1990 ~Comtex
WASHINGTON (JUNE 6) COMTEX - The 8-K report filed at the SEC shows in May of 1990, a bill to introduce intrastate competition to long distance telecommunications services within Alaska was passed by Alaska's legislature. The Alaska Public Utilities Commision has been directed to adopt the terms of the bill by Feb. 14, 1991, and to begin accepting bids for competitive long distance services on Feb. 15, 1991, which must be

accepted or rejected within 90 days.

Pacific Telecom Inc. expects this development to adversely affect the company's future long distance service revenues. Alascom Inc.'s long distance service revenues accounted for approximately 8 percent of Pacific Telecom's total revenues for 1989.

#90157c0059 06/06/1990 ~Comtex

WASHINGTON (JUNE 6) COMTEX - The 8-K report filed at the SEC shows on May 25, 1990, CytRx Corp. dismissed the firm of Arthur Andersen & Co. as the company's independent auditors, replacing them with the firm of Ernst & Young on June 1, 1990.

For the previous two years, audits performed by those former auditors contained no adverse opinion or disclaimer of opinion nor were they modified as to uncertainty, audit scope, or accounting principles.

For the previous two years, there were no disagreements between those former auditors and the company.

Also during the previous two years, CytRx did not consult with Ernst & Young on any matters related to its business, its audits or its corporate policies and practices.

SCHEDULE 13D

SEC - AMENDMENT NUMBER: 4

ANNOUNCEMENT:

In April 1990, Charles H. Murphy Jr. and Michael W. Murphy were re-elected to First Commercial's (TICKER: FCLR) board, bringing the Baria Trust's representation on the board to four directors.

Other directors who are reporting persons or who have control of reporting persons are William C. Nolan Jr. and Paul D. Tilley, who is president of Highland Resources Inc.

The Baria Trust has no plans to seek additional representation on the board.

It is not possible to determine the stake from the document.

The Barie Trust group consists of over 50 members, with Charles Murphy, who holds an 11.4 percent stake, as the largest shareholder.

Other group members who own at least one percent of First Commercial's stock are First Land & Timber Corp., with a 2.1 percent stake; Highland Industrial Park Inc. (subsidiary of Highland Resources) at 1.4 percent; and Chesley Pruet, 1 percent.

LATEST TRANSACTION:

Charles Murphy effected transactions covering 162,500 shares at $20 each between Jan. 25 and April 23 and 1,497 shares on May 21 for $19.50 per share.

On May 9, Murphy bought 15,000 shares at $19.44 each. Jeffrey W. Nolan bought 1,000 shares on April 3 at $18.50 each.

PURPOSE:

For investment and re-election to the board of directors.

MR STAHL OF OWNS 0 SHARES (%) OF APPLE BANCORP INC (TICKER: APK) OF NEW YORK, NY.

ANNOUNCEMENT:

Stahl filed an amended complaint against Apple Bancorp Inc. concerning Apple's rights plan and the withholding by Apple of certain confidential information.

Stahl said in the complaint that the definition of ''beneficial ownership'' in the rights plan bars stockholders from acting together to wage a proxy contest.

He also alleged that Apple has agreed to give third parties access to confidential information that he cannot obtain unless he abandons his tender offer and proxy contest.

The complaint seeks to prohibit Apple from trying to influence the election of directors at the annual meeting and to force it to change the definition of beneficial owner in the rights plan, among other things.

TAIPEI (JUNE 6) - Taiwan's exports in May fell a sharp 10.2 percent to 5.64 billion U.S. dollars, the worst monthly drop in 20 months, government statistics showed Wednesday.

Imports in the month dropped 7.2 percent to 4.38 billion dollars, leaving a trade surplus of 1.26 billion dollars, a 19.3 percent slide, according to the Directorate General of Budget, Accounting and Statistics.

The country's trade surplus in the first five months of 1990 dipped 27.5 per cent over the same period last year to 3.84 billion dollars, it said.

May's double-digit drop in exports was mainly because Taiwan products were less competitive overseas as the island's economy went through a "transitional stage," said Lee Kao-chao, director of Overall Planning Department of the government's Council for Economic Planning and Development.

He said Taiwan was moving from labor-intensive to higher value-added and capital-intensive industries.

Higher production costs, a labor shortage and greater public demand for environmental protection have also slowed industrial output, Mr. Lee added.

Mr. Lee said the performance in May last year was exceptional because of a large increase in orders diverted to Taiwan from South Korea, which was suffering from labor strikes.

The last double-digit export slide was 12.7 percent in September 1988.

Exports in the January-May period amounted to 26.59 billion dollars, down one percent, while imports grew 5.5 percent to 22.75 billion dollars, the directorate general said.

Taiwan's trade surplus with the United States, its largest trading partner, dipped 29.1 percent to 3.24 billion dollars in the first five months of 1990 as Taipei sought to narrow a surplus of 12 billion dollars last year, it said.

With export incentives and measures to boost imports from the United States, the trade imbalance is expected to fall to eight billion U.S. dollars this year, lower than the 10.7 billion dollar target, economic officials said.

The United States took a 33.1 percent share of Taiwan's overall exports in

the first five months, followed by Japan with 13 percent, the report said.

The long-standing trade deficit with Japan, Taiwan's biggest supplier, expanded by 18 percent to three billion dollars in the same period.

Japan sold products worth 6.47 billion dollars to Taiwan in the period, 28.4 percent of total imports.

TOKYO (JUNE 6) - Sales of imported vehicles in Japan in May jumped 21.4 percent from a year earlier to 16,325 units, the Japan Automobile Importers Association said Wednesday.

The increase was the 77th consecutive year-on-year rise, association officials said.

Sales of cars accounted for 16,152 units, up 21.3 percent from a year earlier and truck sales totaled 172 units, up 37.6 percent, while sales of buses fell from May 1989's eight units to one unit last month.

Of the total car sales in May, West German cars amounted to 9,461 units, up 9.9 percent from a year earlier, accounting for 58.6 percent of the imported car market.

Sales of U.S.-made cars came to 2,444 units, up 45.1 percent and British car sales totaled 1,480 units, up 23.0 percent.

Swedish car sales zoomed 82.8 percent to 1,117 units and French car sales rose 29.2 percent to 1,039 units while Italian car sales totaled 447 units up 84.6 percent.

Sales of South Korean-made cars whose imports started recently totaled 115 units and sales of Australian-made Mitsubishi cars totaled 16 units, down from 28 units a year earlier.

Imports from other countries totaled 33 units, down from 42 units a year before.

Nuremberg (JUNE 6) - Unemployment in West Germany totalled 1.823 million men and women in the month of May, down 91,300 from April, The Federal Labour Office announced Wednesday.

This figure was equivalent to 7.0 percent of the labour force, as opposed

to 7.3 percent in April.

One year ago, at the end of May 1989, 1.947 million people in West Germany were unemployed.

-30- 566

#90157d2520 06/06/1990 ~French/German News Agency

LISBON (JUNE 6) - Portugal is to ban British beef imports because of "mad cow" disease, the newspaper Diario de Noticias reported here on Wednesday.

The ban is intended as protection against the disease, bovine spongiforme encephalitis, the report said. It covers animals born before June 18 1988.

The disease has infected thousands of cows in Britain and has caused concern that the beef might not be fit for human consumption.

Portugal will accept only calves from Britain aged less than six months on condition that they are destined for the abattoir, the paper said, adding that the measures would be published in the form of a decree by the agricultural ministry in the official journal.

The British government has said that British beef is fit for human consumption, and British farmers hold that other countries in the European Economic Community (EEC) which have banned British beef are using the disease as a pretext to protect their domestic markets where meat prices had fallen because of the importation of meat from eastern Europe, mainly into Italy.

EEC officials have said that British beef is fit for consumption, and have unsuccessfully instructed countries which have banned the importation of British beef, notably France and West Germany, to resume the trade under threat of prosecution.

EEC agricultural ministers were due to hold an emergency meeting on Wednesday to resolve the dispute.

Saudi Arabia has also suspended imports of British beef.

#90157d2590 06/06/1990 ~French/German News Agency

PARIS (JUNE 6) - Senior officials of Western countries and Japan Wednesday began discussions that could lead to a further reduction of curbs on advanced technology sales to Eastern Europe in the light of its economic reforms and forthcoming moves toward German reunification, Western sources said.

A high-level meeting of the secretive 17-nation Coordinating Committee for Multilateral Export Controls (COCOM) - grouping the North Atlantic Treaty Organization countries except Iceland, plus Japan and Australia - got under way Wednesday at an undisclosed Paris location.

European officials expected the meeting, due to wind up by Thursday night, to reach a number of policy decisions following new proposals submitted a month ago by the United States, represented by Ambassador Allan Wendt, the senior State department official in charge of strategic technology policy.

According to these officials, the U.S. has now come around to the idea that COCOM countries should set "higher fences around fewer products", as advocated by the Europeans since the end of 1987.

They said the meeting could make a start in this direction by reducing the number of product areas on COCOM's embargo list from 120 to about 90, while directing COCOM experts to define by year-end a "hard core" of highly sensitive technologies for which tighter controls should be enforced to protect Western security.

-30- 1583

#90157d2610 06/06/1990 ~French/German News Agency

SYDNEY (JUNE 6) - The Westpac Banking Corp. said Wednesday that Australia faced some tough times ahead but long-term prospects were good for narrowing the country's massive current account deficit.

Westpac issued its encouraging assessment a day after Treasurer Paul Keating told West German businessmen in Frankfurt that Australia might have to face higher unemployment to cure its economic ills.

Westpac forecast in its latest Market Insight report that an export-led recovery would pull the Australian economy up with overseas sales rising 8.1 percent annually.

It said the current account deficit, currently about 5.7 percent of gross domestic product (GDP), would fall below three percent by 1993.

Economic growth to 1993 was expected to average 2.8 percent a year which "would enable the nation to weather an episode of slow world activity without crisis at home," Westpac said.

It said inflation would fall from a current 8.6 percent to 5.5 percent next year. Australia's net foreign debt, 123.5 billion dollars (95 billion U.S.) in March, should peak at about 35 percent of GDP before dipping to around 33.5 percent in 1993, it said.

But Westpac chief economist Bob Graham warned that interest rates kept high

to cool off the economy could trigger further corporate collapses and possibly weaken the export sector.

"While the macro policy mix must exercise appropriate restraint on domestic spending, it must also be flexible and sensitive to the most vulnerable sectors of the economy," he said.

Mr. Keating told the GermanAustralian Association in Frankfurt that monetary policy would remain "sufficiently tight so as to avoid an unwanted rebound in spending".

A copy of his address was released Wednesday in Canberra.

He said corporate collapses were a "learning experience" after financial deregulation here and insisted that economic reforms had paved the way for sustained growth in Australia.

But he added: "After the very rapid growth of employment in recent years, unemployment may well edge upwards for a time."

The seasonally adjusted unemployment rate here was 6.2 percent in April.

-30- 2367

#90157d2630 06/06/1990 ~French/German News Agency

MANILA (JUNE 6) - The Philippine cabinet here Wednesday prepared a series of fiscal reforms topped by new taxes aimed at businesses and "affluent consumption," Finance Secretary Jesus Estanislao said.

He said the reforms included the simplification of internal revenue and customs bureaucracies, as well as a reduction of the tax on oil products.

"There are going to be 11 measures that will tax mainly the rich and affluent and those who are engaged in idle land speculation ... a tax on houses that are too expensive, a tax on various types of recreational activities such as golf courses and memberships in clubs," he said.

Mr. Estanislao also said the reforms were aimed at bringing down domestic interest rates by abolishing certain taxes, but he also said this could be done only if the government removed "quantitative restrictions," on certain imports.

He said that his department would "work very closely with Congress to get the package passed into law, adding that "most of the measures really are initiatives coming from the congressmen themselves."

The presidential palace previously said it was readying a series of new fiscal measures to raise 20 billion pesos (868 million dollars) to keep the

1990 budget deficit from ballooning to 28 billion pesos (1.2 billion dollars).

Part of the package - a hike in taxes on liquor, tobacco and softdrink products - now looks set to be passed after rough treatment in Congress.

#90157d2890 06/06/1990 ~French/German News Agency

Tokyo (JUNE 6) - British engineering firm Rolls-Royce announced here Wednesday that it had agreed with two Japanese firms to jointly develop engines for a new jetliner to be made by America's Boeing planemaker.

Chairman of Rolls-Royce, Lord Tombs, told a news conference that his firm had agreed with Ishikawajima-Harima Heavy Industries and Kawasaki Heavy Industries to conduct the project.

Reports said the Rolls-Royce team planned to develope three types of engines with the Japanese side investing a 10 percent share of the 400-million-pound sterling project.

-30- 762

#90157d2900 06/06/1990 ~French/German News Agency

BONN (JUNE 6) - The West German economy grew by 2.5 percent in real terms in the first quarter of 1990 compared with the last quarter of 1989, on a seasonally adjusted basis, official figures showed on Wednesday.

Growth compared with the first quarter of 1989 was 4.4 percent, the economy ministry said.

Economy Minister Helmut Haussmann said: "Even if exceptional factors, such as favourable weather for the building trade, were a factor, these results show convincingly that the West German economy is currently dynamic."

The economy was therefore "excellently equipped to face the challenges which await it", he said in a reference to German economic and monetary union which is due to take effect on July 1.

Unemployment figures released Wednesday showed that the number of jobless fell to an eight-year low of 1.823 million people, or 6.2 percent of the workforce, in May from 6.6 percent in April.

The figures represented a month on month reduction of five per cent in the number of jobless, and the president of the federal labour office, Heinrich Francke, said that there was a "persistent employment boom."

The improvement was achieved despite the absorption of 721,000 people of

German origin from Eastern Europe last year. The flow has eased recently, with the number of East Germans arriving in May totalling 100,400, a reduction of 12 per cent over the April level.

Between April and May the number of unemployed fell by 91,300, and compared with May 1989, the rate of unemployment has fallen by six percent.

In the year to April, West Germany had created 550,000 jobs, taking the number of people in employment to 28.1 million.

The economic growth rate of 2.5 percent in the first quarter was the same as the rate recorded in the first quarter of 1989 following a period of mild weather.

Growth slipped by one percent during the following quarter, then rose by one per cent in each of the third and fourth quarters.

#90157d3180 06/06/1990 ~French/German News Agency

PARIS (JUNE 6) - French luxury goods group Moet Hennessy Louis Vuitton (LVMH) said Wednesday it was expecting profit this year around 15 percent above the 1989 level.

The group showed a net consolidated profit last year of almost three billion francs (526 million dollars), a 45 percent improvement over the 1988 level, on sales totalling 20 billion francs (3.5 billion dollars).

Group president Bernard Arnault told shareholders at the annual general meeting Wednesday that the climate would be more difficult this year than in 1989.

"The most worrying factor is the movement of the yen and the dollar which

is having a negative impact for the group," he added.

Exchange rate fluctuations would cut 20 percent of the growth in profit, he added.

ROTTERDAM (JUNE 6) - Anglo-Dutch oil group Royal DutchShell said Wednesday it was considering a two billion guilder (one billion dollar to modernise its largest refinery at Pernis outside Rotterdam.

The group has begun a feasibility study into the project, but a final decision is not expected until the second half of next year, Shell said in a statement.

The refinery would continue to operate at full capacity during the modernisation work, which would be completed in 1995, a spokesman for the group's Dutch refinery subsidiary, Shell Nederland Raffinader.

The Pernis refinery can currently treat 348,000 barrels a day, but the spokesman would not say how much this would be increased. He said however that the modernisation would enable it to produce products more in line with environmental protection standards.

WARSAW (JUNE 6) - The Polish central bank has given the green light for the country's first all-private bank, Leonard S.A., to go into operation, the Warsaw newspaper Zycie Warszawy said on Wednesday.

The bank, capitalised at 10 billion zlotys (one billion dollars) has been founded by 10 shareholders, without the involvement of a single state organisation, the newspaper added.

The bank's founder and chief shareholder is Leonard Prasniewski, a businessman from the Warsaw suburb of Zielonka where the new bank is to have its headquarters.

The new bank will offer account services to both business and individual clients, and "promote privatisation operations".

It is expected to be fully operational at the end of August or beginning of September, the Zycie Warszawy said.

SUVA (JUNE 6) - The government told Fiji's 23,000 sugarcane growers on Wednesday that it would listen to their complaints if they called off a boycott that threatened the country's second largest source of foreign exchange.

Primary Industries Minister Viliame Gonelevu told farmers' representatives that the interim cabinet would "take up your grievances if you set the procedures and go ahead and harvest the crop."

The boycott, called after the state-run Fiji Sugar Corporation announced a cut in the farmers' share of the proceeds from cane sales, put in jeopardy the corporation's plans to start crushing cane in its four mills in 10 days.

"We're certain that a lot of the issues you are crying about can be addressed in the proper forum and I hope you would accept whatever decision comes out of it," Mr. Gonelevu told the farmers.

He said there were provisions for a review of the new sugar industry master award, which cut growers' share of sales from 70 to 60 percent.

In another conciliatory gesture, the government on Wednesday gave farmers permission to stage a rally on Saturday to air their grievances.

Up to 6,000 are expected to gather in the township of Ba, on the west coast, to hear National Farmers Union secretary Mahendra Chaudhry.

On May 26, the country's army commander, Major General Sitiveni Rabuka, said his 5,000 troops were ready to harvest the sugarcane "in the economic interest of the nation."

Sugar brings in about 220 million Fiji dollars (148 million U.S. dollars) in foreign exchange earnings yearly.

Last year for the first time its importance to the national economy was overtaken by that of tourism, which netted 280 million Fiji dollars (180 million U.S.).

TEHERAN (JUNE 6) - Iranian President Ali Akbar Hashemi Rafsanjani Wednesday said he was ready to discuss a peace settlement with Iraqi leader Saddam Hussein but expressed doubts about Baghdad's desire for peace.

At a press conference, Mr. Rafsanjani reaffirmed his government's policy to help secure the release of Western hostages in Lebanon, saying the issue would be solved if Washington pressured Israel and Kuwait to free Moslem prisoners.

He also declared that Iran would restore ties with Britain if Prime Minister Margaret Thatcher condemned "The Satanic Verses," but he ruled out withdrawing the death sentence against the novel's author Salman Rushdie.

Mr. Rafsanjani, referring to Iraq's recent letters to Iran proposing a summit with President Hussein to reach a lasting settlement in the Gulf war,
 said "we have not given a negative reply to Iraq's proposal."

"But issues must be sorted out in preliminary negotiations at experts' level and in consultation with the U.N. Secretary General to guarantee the success of such a meeting, if there is going to be one," he added.

Iraq had proposed that the summit be held outside the framework of the United Nations, which secured a cease-fire in the eight-year Gulf war in August 1988 but has been unable to resolve differences on a lasting settlement.

Mr. Rafsanjani however said Iran had been discouraged by the final resolution of an Arab summit last week in Baghdad which backed Iraqi sovereignty over the disputed Shatt al-Arab waterway.

"The resolution of the Baghdad summit discouraged us in our assumption that Iraqis are serious about the establishment of peace," he said.

The Iranian Foreign Ministry reacted angrily to the resolution, saying it was "invalid, illegitimate and in contradiction with Iraq's peace overtures."

On the hostage issue, Mr. Rafsanjani said the way was "open" for the release of all 15 Westerners, including six Americans, believed held in Lebanon but "the irresponsible attitude of the U.S. has created difficulties."

BONN (JUNE 6) - West German Foreign Minister Hans-Dietrich Genscher will meet his Soviet counterpart Eduard Shevardnadze on Monday at the

Soviet-Polish border town of Brest in a new bid to smooth the path to German reunification.

Mr. Genscher had two rounds of talks with Mr. Shevardnadze on Tuesday in Copenhagen where both men are attending the ministerial session of the Conference on Security and Cooperation in Europe (CSCE).

Mr. Genscher, who also met U.S. Secretary of State James Baker in Copenhagen, said Wednesday on West German radio that he was confident a compromise would be found on the external aspects of German reunification.

PRAGUE (JUNE 6) - Former Czechoslovak Communist Party Central Committee Secretary Vasil Bilak has been arrested in Bratislava, Ctk news agency reported Wednesday.

He was suspected of involvement in ''serious crimes'', the report added without elaborating.

Bilak had been for some 40 years one of the main spokesmen of the extreme conservative wing of the party. He is regarded as one of the chief supporters of the Soviet-led Warsaw Pact invasion of Czechoslovakia which put an end to the ''Prague Spring'' in 1968.

#90157d3620 06/06/1990 ~French/German News Agency

LONDON (JUNE 6) - Cocoa prices continued to slide in London on Wednesday morning, and dealers said they could not see a halt in the fall for at least a few days.

The September contract was down 13 pounds (21.6 dollars) a ton from Tuesday's close at 870 pounds (1,450 dollars) in mid-morning trading after gaining seven pounds and then plunging by 30 pounds a ton.

"We are in a period of mass liquidation, both in London and in New York, and this could continue over the next five trading days," said one broker.

Wednesday morning's falls were largely due to heavy selling by French broker Sucres et Denrees, with the impact of the sales being accentuated by the tightness of the market.

There were no new factors, but the trend remained downward due to an apparent return to calm in Ivory Coast, the world's largest producer, and rumours that the Soviet Union could resell up to 80,000 of cocoa to help meet its foreign exchange needs.

#90157d3760 06/06/1990 ~French/German News Agency
PARIS (JUNE 6) - France will ban virtually all tobacco and alcohol advertising starting in 1993 under legislation proposed by the French government Wednesday.

Expanding on an existing ban on broadcast advertising for cigarettes and other tobacco products, the new law would also prevent tobacco companies from sponsoring cultural and sporting events. That would primarily affect tennis tournaments and auto rallyes.

Clothing manufacturers and travel tour organisers would also no longer be allowed to market their products and tour packages in conjunction with cigarette manufacturers. That would put an end to lines of shoes and leisure ware carrying cigarette brand labels, as well as to tobacco industry-sponsored tours to exotic countries featured as backdrops for cigarette ads.

In addition, the health warning on cigarette packages would carry sterner wording saying smoking ''seriously damages your health''.

Advertising for beer, wine and liquor containing more than 1.2 grams of alcohol per litre would also be banned from youth-oriented publications, and would be permitted in magazines for mature audiences and on the sides of delivery vehicles.

In announcing the legislation, government spokesman Louis Le Pensec said tobacco and alcohol are responsible for 100,000 deaths in France annually.

MANILA (JUNE 6) - The Philippine government has been given two weeks to settle disputes over a proposed 370 million dollar petrochemical project or the project's Taiwan investors will pull out, the official Philippine News Agency (PNA) said here Wednesday.

The PNA quoted Trade Secretary Jose Concepcion as saying the Taiwan-based USI Far East, main backer of the proposal to set up a petrochemical plant in nearby Batangas province, reportedly threatened to pull the project out of the country unless the matter was settled in two weeks.

The threat came as the ousted head of the Philippine National Bank (PNB) charged that more anomalies may be involved in the project, which he publicly questioned before he was sacked Tuesday.

"The fact of the matter is that this (petrochemical) scam is only the tip of the iceberg. There are a lot of things to be unfurled," ex-PNB chairman Joker Arroyo told reporters.

Company sources previously said the project may be relocated to Indonesia or Malaysia if Manila failed to settle the issue.

The project, which would be the largest foreign investment in this country since President Corazon Aquino took power in 1986, has been repeatedly delayed by bureaucratic and congressional infighting.

Mr. Arroyo, a former executive secretary of Mrs. Aquino, had brought the issue into the limelight once again when he accused the Taiwan backers of reaping a 20 million dollar windfall without having put in a cent into the project.

This would have been accomplished through a complex transaction involving the discounted purchase of Philippine debt papers to fund the country's first petrochemical complex.

He also accused other officials, including Mr. Concepcion and presidential economic coordinator Vicente Jayme, of pressuring government financial institutions to approve the project.

The two men denied the charge and said everything in the petrochemical transactions was above board.

JOHANNESBURG (JUNE 6) - Freegold, the world's largest gold mine, has

mothballed two shafts on which 921 million rands (346 million dollars) had been spent, according to the Anglo American Corporation-owned company's annual report Wednesday.

The cost-cutting measure formed part of a 149.8 million rand (56.3 million dollar) cut in capital expenditure, representing a 27.3 percent decline to 398.4 million rands.

"Economic circumstances do not permit further work at this time," Freegold chairman Clem Sunter said.

Turnover for the year ending March 31 was 3.7 percent up on the previous year, from 3.603 billion rands (1.354 billion dollars) to 3.737 billion rands (1.404 billion dollars).

But a decline in the gold price, only partially offest by the relative strength of the rand against the dollar, dropped pre-tax profits by 25.1 per cent to 762.1 million rands (286.5 dollars).

Distributable profits fell 8.3 percent from 378.5 million rands (142.3 million dollars) to 347 million rands (130.45 million dollars).

Costs increased 12.3 percent to 26,892 rands (10,110 dollars) a kilogram (2.2 pounds), and gold production improved 3.3 percent, thanks to an improvement in yield from 4.18 grams per tonne to 4.22 grams per tonne.

AAC chairman Julian Ogilvie Thompson told a press conference here Monday that Freegold was "having a tough time."

"They'll have to make sure their costs are as low as possible," he said.

The Johannesburg finance paper Business Day said Wednesday Freegold's costs in the March quarter were 1,019 rands (383 dollars) an ounce.

Gold closed in London Tuesday at 948.5 rands an ounce and 358.5 dollars an ounce, which means Freegold, in the ultra-conservative Orange Free State town of Welkom, is running at a loss.

#90157d4280 06/06/1990 ~French/German News Agency

PARIS (JUNE 6) - French water company Lyonnaise des Eaux said Wednesday that Japanese subsidiary Dic-Degremont had become the first foreign company to be accepted as a member of the Japanese drinking water producers' association.

This was an indispensable step to carve out a place on the Japanese public market, Lyonnaise chairman Jerome Monod said.

"If you are not a member of this circle," Mr. Monod said, "you cannot even hope to be in a position to pick up the crumbs" when major public water distribution contracts are being handed out.

Up until now, Dic Degremeont has won only industrial water treatment contracts for private groups, and no municipal water deals.

Its admission into the Process Kyokai association should see Dic Degremont take off, and it could even carve out a five to 10 percent share of the Japanese market, the world's biggest.

Mr. Monod also said that Lyonnaise would continue to focus on environment-linked services this year, and that they would account for 80 percent of turnover.

"Lyonnaise is one of the only groups in the world which has almost all its activities in this domain," he added.

The environment market is expanding and will be very sought after in the next 25 years.

This means that Lyonnaise will have to become "much larger" to "match up to the heavyweight champions" such as Thames of Britain, twice the size of the French group, or Japanese and South Korean companies which are moving into the Southeast Asian market.

The group is looking to boost its presence in Italy, Portugal and particularly Spain, where only a quarter of water distribution services are in private hands. Spain already accounts for almost a third of Lyonnaise's overseas sales.

Lyonnaise is also interested in eastern Europe, with plans to open an office in Berlin in July and work due to begin in East Germany at the end of the year.

The group's sales rose 15 percent last year to 21.6 billion francs (3.78 billion dollars) and Mr. Monod said that sales were expected to double in seven years. But he added that his aim was "even more ambitious."

#90157d4680 06/06/1990 ~French/German News Agency

PARIS (JUNE 6) - France's fair competition watchdog imposed fines totalling 358.5 million francs (62.8 million dollars) last year, more than 16 times the 1988 level of 22 million (3.8 million dollars), it was announced here Wednesday.

The Competition Council, an independent body made up of magistrates and experts, fined 197 companies and 40 professional organisations during the year in cases involving such matters as illegal deals, selective distribution and pressuring people.

Fines ranged from a few thousand francs in a case of suspect trade in angora gloves to tens of millions in cases where large companies had repeatedly indulged in forbidden practices on such jobs as roadworks and electrical installations.

The council received a total of 105 complaints during the year, ranging from bank cards to the artificial insemination of bulls, and examined 72 cases.

A total of 35 complaints came from companies criticising behaviour against free competition, and 34 came from the economy minister, up from 30 the previous year.

The council's only concrete sanction is to impose fines, which can be up to five percent of a company's sales or 10 million francs for a professional organisation.

It said in its annual report that France was one of the western nations making the greatest efforts to protect free competition.

But it added that there were still some "grey areas", noting that the number of complaints from such bodies as consumer organisations remained weak.

It also expressed concern that some professional groups "wanting to escape from the constraints of competition, can exert a certain amount of pressure on the authorities" to see that rules are introduced which protect their activities.

#90157d4910 06/06/1990 ~French/German News Agency
OSLO (JUNE 6) - Two of Norway's largest insurance companies, UNI and Storebrand, have signed an agreement of intent to merge, it was announced here Wednesday.

The merger will take effect on January 1 next year, the statement said. It did not give any further details.

Storebrand's net revenues last year were 850 million Norwegian kroner (130 million dollars), but the company lost 450 million (69.2 million dollars) on its financial operations.

Storebrand has in the last two years been trying to scale down its financial operations and concentrate on insurance.

UNI is a mutual insurance company, not listed on Oslo's Stock Exchange. UNI had record profits last year of 2.8 billion kroner (430 million dollars), including a 622 million kroner (95.6 million dollars) on stock sales. UNI's total assets were 45.4 billion kroner (seven billion dollars).

Norwegian financial laws are gradually being amended to allow insurance companies a wider financial role, and a concentration of resources in fewer companies has been expected.

Another large Norwegian insurance company, Vesta, was last year bought by Skandia of Sweden.

#90157d5130 06/06/1990 ~French/German News Agency

BERLIN (JUNE 6) - East German airline Interflug said Wednesday it was to halve its services to Eastern European countries from July 1 when German economic and monetary union takes effect.

Interflug officials told a press conference in East Berlin that the decision was necessary to ensure the survival of the airline as these routes were not profitable.

The flights to be axed include services to Kiev in the Soviet Union, Bratislava in Czechoslovakia, Belgrade and Zagreb. Interflug is also to halt services to Algiers and Singapore.

In addition, the number of flights to Moscow, Leningrad, Budapest, Bucharest and Sofia is to be cut.

But the number of flights linking East and West Germany is to more than double, from 31 a week to 68 as of September to cope with increasing demand.

The introduction of the Deutsche mark as the East German currency and the flight cuts will mean a 50 per cent cut in Interflug's expenses, but income in the second half of the year is expected to be down 30 per cent, the company said.

An end to state subsidies and a steep fall in reservations to half their previous level in the past few weeks had placed the airline in a very difficult position.

Interflug, which has hitherto fixed its prices with no relation to market forces, said it would base its pricing policy on that of its western counterparts from July 1, which would mean a 20 per cent reduction in the price of flights to the west.

#90157d5240 06/06/1990 ~French/German News Agency

BUCHAREST (JUNE 6) - Romania should aim for a rapid transition to a market economy within two or three years while guaranteeing social protection, according to a study by more than 1,000 experts.

"Like all radical change," the transition to a market economy "necessarily implies social costs: the loss of certain productive capacities, a flood of investments, unemployment and price rises," the Rompres official news agency quoted the study as saying.

The study, extracts from which were published by Rompres Wednesday, considered four major aspects of the situation: the general economic and financial climate, social policy, problems of various sectors of the economy, and the judicial system regulating it.

It said that the social costs of the change could be met by increasing economic efficiency and attracting foreign capital.

The study was carried out by a government-created commission led by Tudorel Postolache, an economist and secretary of state at the economy ministry.

#90157d5320 06/06/1990 ~French/German News Agency

PARIS (JUNE 6) - French luxury goods group Moet Hennessy Louis Vuitton (LVMH) had a stormy annual general meeting Wednesday, as four allies of ousted Louis Vuitton president Henry Racamier lost their posts.

A last-minute resolution from a Moet Hennessy family shareholder, Jean Couten, was adopted by 70 percent of votes and saw two members of the board of trustees and two other Racamier allies relieved of their functions.

The acrimony surrounding the move - Racamier produced a sworn statement dated Tuesday predicting Couten's move as proof that it was not a spontaneous action - suggested that Racamier's ouster has not resolved a dispute at the heart of the group.

Racamier lost his post as head of Louis Vuitton in November at the end of a lengthy court battle for control of the group with LVMH president Bernard Arnault, which focussed on a disputed share issue. "The battle

(for control of the group) is not over," said Andre Battestini, one of the board of trustees members who lost his post.

Arnault told the meeting that LVMH was expecting profit this year around 15 percent above the 1989 level. The group showed a net consolidated profit last year of almost three billion francs (526 million dollars), a 45 percent improvement over the 1988 level, on sales totalling 20 billion francs (3.5 billion dollars).

But Arnault warned shareholders that the climate would be more difficult this year than in 1989. "The most worrying factor is the movement of the yen and the dollar which is having a negative impact for the group," he added. Exchange rate fluctuations would cut 20 percent of the growth in profit, he added.

CANBERRA (JUNE 6) - Australia will offer refugee status to Chinese students afraid of returning home after last year's bloody crackdown on pro-democracy demonstrators in Beijing, Prime Minister Bob Hawke said Wednesday.

But Mr. Hawke said on Australian television that Cambodian boat people arriving in Australia were not political refugees and would be sent home.

The announcement on the Chinese students came amid new charges that Beijing's embassy here was spying on its compatriots during anniversary commemorations of the June 4, 1989, Tiananmen Square massacre.

Mr. Hawke said a separate immigration category would be created for more than 20,000 Chinese who were in Australia by June 20, 1989, allowing time for those who fled directly after the bloodshed.

"We've got to have a separate category for these people," the prime minister said, adding that details of the program would be announced "very soon."

"This is a situation which is unique and we will deal with it in those terms," Mr. Hawke said.

The government extended the visas of Chinese students until January 1991 after last year's violence in Beijing. But student leaders called for longer extensions or permanent residency for fears of reprisals on their return home.

Mr. Hawke's announcement Wednesday came as the attorney general of Australia's national capital said he had proof that Chinese Embassy

officials here threatened and spied on Chinese student demonstrators.

#90157d5450 06/06/1990 ~French/German News Agency
LONDON (JUNE 6) - British Foreign Office Minister William Waldegrave held a 45-minute meeting here Wednesday with Palestine Liberation Organization executive committee member Hani al Hassan, the foreign office said.

A foreign office spokesman described Mr. Hassan as a "moderate" and said Mr. Waldegrave told him the PLO should remain opposed to acts of terrorism like the attack on a group of bathers on the Israeli coast May 30.

"The two agreed on the dangerous nature of the current situation in the Middle East and on urgent need for progress in the peace process," the spokesman said.

They also discussed a possible role for the United Nations in helping bring about a settlement in the Israeli occupied territories.

A PLO source in London said the talks on a U.S. role were in line with a recent speech by PLO chairman Yasser Arafat in Geneva, but had no further details.

Britain was committed to finding a solution "in partnership with its EEC partners, the United States and the parties to the Arab-Israeli dispute," the foreign office said.

-30- 1268
#90157d5460 06/06/1990 ~French/German News Agency
LONDON (JUNE 6) - Thames Water, the largest of Britain's 10 privatised regional water companies, said Wednesday that its taxable profit fell 13.5 per- cent in the year to March to 179.2 million pounds (298.6 million dollars) from 207.2 million (345.3 million dollars).

But the fall in profit was expected, and the company announced a higher than expected dividend of 10.07 pence, or seven percent of the share's current stock market value.

The fall in profit was largely due to restructuring costs and the transfer of some profitable activities to the National Rivers Authority.

Turnover was up 9.6 percent at 611.5 million pounds from 557.6 the previous year.

The profit figure was above the 178 million predicted in the company's privatisation prospectus, and in line with market expectations of between

178 and 187 million pounds, and Thames shares were up a penny at 145 pence in mid-session in a falling market.

#90157d5490 06/06/1990 ~French/German News Agency

Harare (JUNE 6) - Thousands of striking teachers and children backing them scattered in panic Wednesday when riot police blasted teargas into the park in central Harare where they were gathering.

A day after the government announced it was invoking state of emergency powers to break a two-week strike by teachers and civil servants from other government departments, police also created chaos in the streets of the western city of Bulawayo where teachers, shoppers and passers-by alike were pursued by police with dogs.

In other centres, strikers dispersed in the face of contingents of riot police wielding batons, shields and shotguns. No arrests or injuries were reported.

Most schools have been deserted in the last fortnight as most of the country's 85,000 teachers downed chalks in support of a 33 percent pay claim. Since late last week the government has been unable to take in income tax revenue as the income tax department went on strike.

Government payday later this month is also expected to be chaotic, as hundreds of employees of the central payments office, the government's pay office, also stopped working.

The deeds office, the registrar of companies and the central mechanical equipment department in Bulawayo, which issues and maintains government vehicles including police vehicles and ambulances, have been similarly affected.

During his election campaign in March, President Robert Mugabe promised to boost salaries and improve working conditions of civil servants. But since

the election, cabinet ministers have said they do not have the money to advance salary increases.

JOHANNESBURG (JUNE 6) - Six miners died and one was missing Wednesday after a rockfall at Elandrand gold mine near Carletonville, west of here, mine owners Anglo American said.

A company statement said one miner was seriously injured and a number of others sustained minor injuries in the rock fall. Rescue teams were trying to reach trapped workers.

"The rockfall some 2,100 metres (yards) underground, was precipitated by a seismic event measuring 1.7 on the Richter Scale," it said.

-30- 665

#90157d5690 06/06/1990 ~French/German News Agency

LONDON (JUNE 6) - Development aid for African and other Third World countries should be granted on condition that recipient governments are democratic, British Foreign Secretary Douglas Hurd said here Wednesday.

Speaking at a conference organized by the Overseas Development Institute, Mr. Hurd admitted that relief of poverty, hunger and disease were among the main objectives of foreign development aid donations.

But he added: "Aid must go where it can clearly do good. Countries tending towards pluralism, public accountability, respect for the rule of law, human rights and market principles should be encouraged.

"Those who persist with repressive policies, with corrupt management or with wasteful and discredited economic systems should not expect us to support their folly with scarce aid resources which could be better used elsewhere," he said.

Mr. Hurd contrasted the many countries in Africa where living standards have hardly improved in the past 30 years with countries in southeast Asia which in the past 15 years have seen economic productivity and prosperity rise sharply.

"The main lesson from the success of southeast Asia's economies is that where individual skills and enterprise are released and where creativity is rewarded, economic development will follow," he said.

He also cited eastern Europe as proof that centralized political, economic and social structures "have failed to deliver the goods."

His remarks were likely to reinforce fears in poor African and Third World countries that Western development aid could now be diverted and instead used to prop up the sagging economies of eastern Europe.

British foreign development aid currently stands at around 1.6 billion pounds (2.5 billion dollars) annually, about half of which goes to countries in Africa, according to official figures.

Beirut (JUNE 6) - Daughter of the longest-held American hostage in Lebanon, Terry Anderson, Wednesday sent her imprisoned father a letter on her fifth birthday saying she prays for his homecoming every night.

Anderson was the Associated Press chief correspondent in the Middle East. He was kidnapped from West Beirut on March 16, 1985 by a pro-Iranian group called the Islamic Jihad organization.

''Tomorrow is my birthday,'' said Sulome Anderson who was born to a Lebanese mother while her father was in captivity. ''I know you have never seen me,'' said little Sulome in her letter which will run in the Lebanese dailies on Thursday.

''I also have never seen you, but my mummy tells me everything about you and how you used to call me 'active little baby''', Sulome said in the letter which was accompanied by her picture.

Six Americans and ten other foreigners are detained in Lebanon by shadowy groups which have presented an array of demands for the hostages' release. Most of the kidnappers seek freedom for Moslem militants imprisoned in Israel,
Europe and the Arab world.

''I love you daddy. I pray for you and the others every night,'' Sulome

said, ending her brief note with the hope that her father's captors would show him the letter and picture.

Meanwhile, the International Committee of the Red Cross issued a statement in Beirut appealing for kidnappers to release two of its workers from eight months of captivity.

Elio Erriquez and Emmanuel Christin, both orthopedic technicians, were kidnapped from the southern port city of Sidon, 40 kilometres south of Beirut, last October.

Their kidnappers are thought to be members of the Palestinian radical group Fatah-Revolutionary Council led by guerrilla leader Abu-Nidal.

''The Icrc, already appalled by the abduction of two of its personnel, has a purely humanitarian purpose and demands their immediate release,'' the statement said.

JAMMU, India (JUNE 6) - At least five people were killed and 18 wounded as Moslem militants and paramilitary troopers clashed in Kashmir Wednesday, officials said here.

Three suspected militants and two civilians died in the clashes in Srinagar, the summer capital of northern Jammu and Kashmir state, while a total of 18 men of the Central Reserve Police Force (CRPF) were wounded, the officials said.

Three unidentified militants and one civilian died in one clash late Wednesday, the officials said.

Earlier, 11 people, including a CRPF deputy commandant, were injured when a Moslem militant hurled a grenade at a CRPF patrol in Srinagar, officials said.

The CRPF opened fire with semi-automatic rifles killing a Moslem civilian on the spot in the city's Tankipora area, the officials said, adding that a curfew was imposed in the district after the grenade attack.

Four more CRPF troopers were hurt when they fought a brief gunbattle with militants in the downtown Rainawara district of Srinagar, the hub of the Kashmiri secessionist campaign in this Moslem-majority state, they said.

Two of the injured troopers were in a critical state, officials said in Jammu, Kashmir's winter capital, adding that the clashes flared when authorities relaxed a five-month-old curfew for 12 hours during the day.

Similar clashes were reported from a third district in Srinagar but it was not known if there were any casualties.

Authorities imposed a curfew in the two areas to prevent a recurrence in violence and ordered a hunt for the snipers who shot at the troopers.

More than 600 people have died so far this year in violence related to the Moslem campaign against New Delhi's rule in the troubled Himalayan state bordering Pakistan.

Meanwhile, a court of inquiry set up by the Indian army Wednesday began probing a recent incident in which a local Kashmiri journalist working for the British Broadcasting Corporation (BBC) was briefly taken into custody by Indian soldiers for questioning.

Yousouf Jameel was taken from his house in Srinagar Saturday before being set free Sunday.

LAUSANNE, SWITZERLAND (JUNE 6) - A row has erupted between Eugene Lapointe, secretary-general of the Convention on International Trade in Endangered Species (CITES), and his employer Mostafa Tolba, executive director of the United Nations Environment Programme (UNEP), CITES sources here said Wednesday.

Mr. Tolba wants the CITES head sacked, according to the Lausanne-based CITES secretariat, which says that Mr. Lapointe's job has been advertised without his being informed or receiving a letter terminating his employment.

The removal of Mr. Lapointe would be seen as a victory for the United States and certain international associations which, at a conference in Lausanne last October on the protection of elephants, sharply criticised his stance as not going far enough to stop the ivory trade.

Tens of thousands of elephants have been slaughtered in Africa in recent years on behalf of traders in their valuable tusks.

In particular, Mr. Lapointe's critics accused the CITES secretariat of taking money from ivory dealers.

CITES sources freely admit they accepted 200,000 dollars over three years from such sources, saying this money had been used to strengthen checks on the ivory trade through the application of quotas.

The sources pointed out that UNEP in February officially acknowledged that CITES could not be reproached for having done this.

#90157d5990 06/06/1990 ~French/German News Agency

PARIS (JUNE 6) - U.S. semi-conductor maker Intel Corp said here Wednesday that it would be building a new plant in Ireland as France had not seemed sufficiently interested in hosting the factory.

"We were unable to obtain all the attention we would have hoped from the authorities, and that is a shame," Intel Europe president Bernard P. Giroud of France said.

"We found ourselves talking to people who had no motivation."

"France has lost a unique chance to see an ultra-modern 300 million dollar factory on its territory which would eventually have employed 1,000 people " Mr. Giroud said.

"For their part, the Irish have done everything necessary" for the project to succeed, "in tax terms as well as in trade and human terms."

Work on the Irish plant at Leixlip near Dublin will begin before the end of the year, and it will produce semi-conductor circuits in 1993.

It will be Intel's most modern plant, and marks the second phase of a three-stage, 10-year development plan unveiled in October which will create a total 2,600 jobs.

Intel is the world's eighth largest semi-conductor maker and had sales last

year of 3.1 billion dollars.

Mr. Giroud said that France might have a second chance with Intel, as "one day Intel will need a research centre in Europe and the only possible site is the Sophia-Antipolis zone on the Cote d'Azur. It is the only place where you can attract the people you want in Europe."

#90157d6060 06/06/1990 ~French/German News Agency

PRAGUE (JUNE 6) - Czechoslovakian auto maker Skoda is expecting to sign a joint venture agreement with a major western auto firm in October, Skoda director Petr Dedek said here Wednesday.

Six foreign companies are in the running for the partnership: Citroen and Renault of France, Volkswagen and Mercedes-Benz of West Germany and the European operations of U.S. giants General Motors and Ford, Mr. Dedek said.

Following several rounds of talks, Skoda has recently sent all six a memorandum recalling the conditions and future prospects of the joint venture, he added.

The company has given itself three months to consider the western companies' proposals.

The final contract will involve the Czechoslovakian government and not only Skoda, Deputy Mechanical Industry Minister Jiri Brabec said.

He also stressed that the western company would have to invest "several hundreds of millions of dollars" in the project but would not hold a majority stake in the joint venture.

Skoda is hoping to be able to increase its production from 190,000 cars this year to 250,000 in 1993 and 400,000 by 1996.

The company is in financial trouble and has obtained a government subsidy of 550 million koruna (34 million dollars) this year, an industry source said.

WASHINGTON (JUNE 6) - President George Bush Wednesday named the governor of the state of Oklahoma, Henry Bellmon, to head an official U.S. observer delegation to Bulgaria's national elections this Sunday, it was announced.

A White House communique said the six-member delegation, which also includes the U.S. ambassador to Bulgaria Sol Polansk, would leave Thursday

for Sofia.

The U.S. State Department has expressed concern about intimidation by the former communist party of opposition candidates and about shortages of newsprint for opposition party newspapers during the campaign period.

TURNBERRY, SCOTLAND (JUNE 6) - A second minister-level meeting between the two Germanies and the war allies Britain, France, Soviet Union and United States on German reunification will take place in East Berlin on June 22, French Foreign Minister Roland Dumas said here Wednesday.

The first "two-plus-four" ministerial meeting took place in Bonn on May 5.

The second one was to have taken place in Berlin at the end of this week, but was postponed in the face of continued Soviet opposition to a united Germany being fully absorbed into the NATO alliance, which is opening a meeting Thursday in this small town on the west coast of Scotland.

Talking on the plane from Paris to Turnberry, Mr. Dumas said he expected to have a "very important meeting" with his U.S., British and West German counterparts in Turnberry with a view to "harmonising" the four states' positions on German reunification.

#90157d6200 06/06/1990 ~French/German News Agency

WASHINGTON (JUNE 6) - The United States has agreed to a Soviet request to include Soviet diplomats in any U.S. evacuation of the embattled Liberian capital, Monrovia, the State Department said Wednesday.

"We are willing to consider evacuating foreign diplomats as well as the Americans should we be requested to do so," said department spokesman Richard Boucher.

"In response to a request from the Soviet Union, the United States has said that we would be willing to include Soviet diplomats along with the others in any evacuation from Liberia should that become necessary," he said.

The official was speaking as rebel forces closed in on Monrovia in their bid to topple the government of President Samuel Doe.

A flotilla of six U.S. Navy ships, carrying 2,000 Marines, is stationed off the Liberian coast to evacuate U.S. nationals if Washington deems this necessary.

The State Department said Wednesday that in addition to about 70 U.S. officials in Monrovia, there were 1,487 private U.S. nationals in the country.

The department said that including close relatives of these U.S. citizens, foreign diplomats and some other foreign nationals, about 3,500 people would be considered for evacuation.

"We suggested to other embassies that they follow our example of reducing embassy staffs in Liberia and of course we've urged all people who can do so to depart on the flights that are available now," Mr. Boucher said, adding that three such flights were now scheduled for Thursday and Friday.

One U.S. official said Washington was trying to organize additional flights.

#90157d6580 06/06/1990 ~French/German News Agency

ROME (JUNE 6) - When Diego Maradona struts into the centre of the Meazza stadium in Milan in less than 48 hours all the bickering and back-biting will be put on hold as the 'Biggest Show on Earth' - the World Cup - finally gets underway.

Football will take centre stage as Argentina-Cameroon star as opening act of the most spectacular and expensive football tournament in history.

More than 70,000 fanatical flag waving supporters will be packed into the ground but it will be the hundreds of millions more crowded round their television sets throughtout the world who will act as the litmus test of the sport's ever growing support.

FIFA officials have racked their collective brains to cure the disease that since 1954 has stricken the World Cup - the failure to score - and have come up with a series of potential cures.

Crack down on the professional foul, offer greater protection to the strikers, fine the offenders.

There were a miserable 2.5 goals averaged per game in Mexico four years ago, the lowest in the tournament's history. But goals or not, the passion football inspires will grow in intensity as the final approaches.

Hosts Italy are firmly lodged as favourites, followed by Brazil who are hoping to repeat their 1958 feat of becoming the only country to ever win the World Cup outside their continent.

West Germany and Holland fill the berths of third and fourth favourites.

But for the fans it will be the battle for the title of the 'world's greatest player' between Maradona and the Dutchman Ruud Gullit that will dominate.

Both players have nursed themselves back from injury to top the bill here. Both players, in a blink of eye, can turn defeat into victory with a breathtaking exhibition of skill.

But despite FIFA's dream of a football feast to surpass anything ever seen before, the lingering fear of the arrival of the 'hooligans' continues to haunt the spectacle.

Branded as an 'English problem', the victims of rampaging Dutch and West German hooligans are proof that violence is neither nationalistic nor confined by borders.

#90157d6650 06/06/1990 ~French/German News Agency

GENOA (JUNE 6) - Swedish captain Glen Hysen has all but been ruled out of his side's opening match against Brazil on Sunday.

Manager Olle Nordin admitted that is he had to name his side now the injured Hysen would not be in it.

"He is still not fully fit and I feel Roger Ljung would at present be a better choice," said Nordin shortly after his squad arrived here on Wednesday.

The 29 year-old Hysen strained a calf muscle at the beginning of May during a English league match with Liverpool and has been unable to do any serious training since.

It will be a serious blow for Sweden if Hysen fails to respond to treatment before the Brazil match.

Hysen is one of his country's most experienced players and a vital cog in their defence.

#90157d6660 06/06/1990 ~French/German News Agency

CAGLIARI, (JUNE 6) - The first wave of England's hardcore fans flew into Cagliari largely unnoticed on Wednesday as police kept a low profile at the airport.

A charter flight from London, the first of 50 or so expected in the next

few days before the opening group F match against Ireland, landed in the early afternoon bringing with it some 40 football fans, most of them without tickets and practically all of them without accommodation already booked.

Wearing replica England and Chelsea football shirts, tattoos and earrings,

they straggled through exhaustive customs searches and into the tiny airport lounge still clutching their duty free bottles of whisky.

Many of them had brought rucksacks and tents, clearly aiming to head for local campsites, but a self-appointed spokesman for one group of seven or so fans said: "We haven't come as part of the official tour party, we haven't got tickets and we haven't got hotels, but I don't expect we'll have any problems."

Hotels are likely to pose more of a problem than tickets, as news from London was that a group of touts were on their way to the island with about 50,000 pounds in cash stuffed into their bags, ready to buy tickets and sell them off to eager fans at inflated profits.

Travellers looked on in disbelief as the small band trooped on to airport coaches, many of the fans staring in defiant aggression at passers-by whose glances they crossed.

#90157d6780 06/06/1990 ~French/German News Agency

LIMA (JUNE 6) - An accomplished novelist of Spanish descent and an agronomist son of Japanese immigrants will vie next Sunday for this impoverished and strife-torn country's highest office.

Conservative Mario Vargas Llosa and independent Alberto Fujimori have generally divided the electorate into camps representing the two faces of Peru: the relatively affluent middle classes of European roots who back Mr. Vargas Llosa, and the poorer indian population behind Mr. Fujimori.

Each group represents roughly half of the country's 22 million inhabitants.

The Roman Catholic Church's efforts at containing the quickly expanding evangelists backing Mr. Fujimori -- a virtual unknown before the April 8 elections -- and the Shining Path guerrilla group's bloody 10-year struggle to subvert law and order, form a background to the elections.

At stake are a broken economy burdened with an 18-billion-dollar external debt and a hyperinflation which last year reached 2,700 percent, as well as an escalating cocaine trade which is weakening the country's agriculture.

Mr. Fujimori, an ever-smiling 51-year-old agronomist and former dean of Lima's Agrarian University, has been given a seven percent lead over Mr. Vargas Llosa in the most recent opinion polls.

Many observers predict the leader of the independent Change-90 movement will win Sunday's runoff, remembering that in the previous elections he made off with 31 percent of the vote after rising from virtual obscurity in a few weeks of campaigning.

Mr. Vargas Llosa, 54, of the Democratic Freedom (FREDEMO) alliance, had been slated to win the simple majority needed to clinch the elections, but had to settle for 34 per cent of the vote.

Working against the famed novelist is his burgeoise background and his plan to launch a shock austerity program to revive the country's moribund economy, a blueprint reminiscent of the seemingly failed policies adopted in Argentina and Brazil.

Branded as an opportunist by some -- university professor Tomas Escajadillo thinks he wants the presidency as a stepping stone to a Nobel Prize -- Mr. Vargas Llosa, after the April 8 election, shedded his well groomed image and began campaigning in rolled-up shirtsleeves in Peru's poorer districts.

#90157d6960 06/06/1990 ~French/German News Agency

ROME (JUNE 6) - Gianluca Vialli passed a strenuous training session here on Wednesday and promptly declared himself fit for Italy's opening match against Austria on Sunday.

The 25 year-old injured a hamstring earlier in the week in a friendly against the French club side Cannes.

He was unable to join the rest of the team for training but this afternoon he was given a full work out on his own and showed no after affects.

Fears that Vialli might miss the opening match nearly caused national panic.

The striker, valued at more than 10 million dollars, has taken over the mantle of the great Paolo Rossi, and Italy's hopes of winning the World Cup for a record fourth time rests for the most part on his goal-scoring ability.

However manager Azeglio Vincini will wait until Thursday morning to make sure there are no delayed reactions to the session before including him in the team to play Austria.

#90157d7520 06/06/1990 ~French/German News Agency
KINGSTON, CANADA (JUNE 6) - A 26-year-old Chinese immigrant said she was fired from the hotel where she worked here for leaving her job to attend a ceremony marking the first anniversary of China's Tiananmen Square massacre.

Che Zong, who attended the student pro-democracy protests in Beijing last June 3-4, said she thought her bosses at the Holiday Inn here "would understand".

She said she left work to attend a ceremony to remember those who died in Beijing when the army launched its vicious crack-down, killing hundreds of protesters.

Holiday Inn hotel manager Lorne Weary said he had no choice but to fire Ms. Che after she decided on her own to leave work Sunday.

Ms. Che, who immigrated here last year, is studying English and plans to pursue a career in administration here.

-30- 999
#90157d7750 06/06/1990 ~French/German News Agency
MONROVIA (JUNE 7) - The U.S. embassy Wednesday advised all U.S. citizens still in Liberia to leave the country immediately as rebels prepared to launch a final assault on the capital.

The advice was broadcast over local radio stations in the West African state, as a six-month-old rebel drive to oust President Samuel Doe appeared near victory.

The embassy, citing the "deteriorating security situation and a potential threat to life," asked all its citizens to contact embassy officials to obtain details of a special commercial flight being arranged to take them

out.

Earlier Wednesday rebel forces said they controlled the main towns and the Firestone plantation near Robertsfield, the country's only international airport east of the capital, while confident rebel political leaders were discussing how they would usher in the post-Doe era.

In Washington, officials said that the State Department had asked several African states if they would be prepared to give asylum to Mr. Doe, who came to power in a bloody coup d'etat in 1980.

The United States has long-standing links with Liberia, which was founded in the 19th century by U.S. freed slaves who opted to return to the African continent.

A State Department spokesman said Washington had agreed to a Soviet request to include Soviet diplomats in any U.S. evacuation of the capital.

A flotilla of six U.S. Navy ships carrying 2,000 Marines is stationed off the Liberian coast to evacuate U.S. nationals.

In the Ivory Coast capital of Abidjan, the secretary general of the rebels' organization, the National Patriotic Front of Liberia, said NPFL leaders were preparing to meet in rebel-held territory to resolve questions of leadership.

NPFL Secretary General Moses Duopu, a former Liberian labor minister and Doe adviser, said the NPFL would choose a leader of a transitional government once the "freedom fighters" took the capital "in three or four days."

He told Agence France-Presse in Abidjan that he was leaving the Ivory Caost late Thursday to meet with members of the front's executive committee which includes military chief Charles Taylor.

#90157d8210 06/06/1990 ~French/German News Agency

CANBERRA (JUNE 7) - Australia's unemployment rate rose slightly in May to a seasonally adjusted 6.3 percent, the Bureau of Statistic reported here Thursday.

The figure was up from the 6.2 percent recorded the previous month and in May of last year.

The unadjusted unemployment rate stood at 6.5 percent in May, compared with 6.3 percent in April and May 1989.

Seasonally adjusted employment rose to 7.885 million in May from 7.861 million in April and 7.717 million a year earlier, the bureau said.

Treasurer Paul Keating has said Australia might have to face higher unemployment as part of efforts to rein in the economy, cut the current account deficit and push down inflation.

"After the very rapid growth of employment in recent years, unemployment may well edge upwards for a time," he said in a speech Tuesday in Frankfurt.

#90157d8230 06/06/1990 ~French/German News Agency

Tokyo (JUNE 7) - The Soviet Union has asked Western television makers to sell it a factory for producing colour cathode ray tubes (Crt) to improve Soviet television technology, the Nihon Keizai Shimbun newspaper reported here Thursday.

The economic newspaper said a Soviet radio export corporation wanted to import a plant from one of such top television makers as Toshiba of Japan, Samsung electronics of South Korea and Thomson of France.

Under the 26-million to 32-million-dollar project, the Soviets planned to make medium-sized, mostly 20-inch, crts at an annual pace of 1-1.5 million units from 1994, the paper said.

Toshiba, whose machine subsidiary was punished in 1988 for illegally exporting sensitive submarine equipment to the Soviet Union, intends to meet the Soviet request positively, the newspaper said.

#90157e0005 06/06/1990 ~Latin America New Agency

MANAGUA (JUNE 6) EFE - Nicaragua is to ask the international community for dlrs 350 million in economic aid for an "Emergency Plan" designed to revive its war-ravaged economy, during a two-day Conference of Donor Countries which opens in Rome Wednesday.

Nicaraguan Foreign Minister Enrique Dreyfus has said that he would consider promises of dlrs 100 million in aid a "success" now that the United States has pledged dlrs 300 million to help the nation recover from a nine-year war with U.S.-funded Contra rebels.

During the conference, U.S. officials are to hand over to Nicaraguan delegates the remaining dlrs 240 million of the aid package approved by Congress last month. An initial dlrs 60 million of the package was handed over in a ceremony in Managua last week.

U.S. President George Bush lifted a devastating five-year U.S. trade embargo and recommended the aid package after Nicaraguan President Violeta Chamorro defeated the leftist Sandinista government in February elections.

The twelve European Community member countries are to attend the conference along with representatives from the United States, Canada, Japan, Sweden, Finland, Norway, and, possibly, the Soviet Union.

Diplomats in Managua have predicted pledges of dlrs 50 million from the EC and between 10 and 15 million from individual EC member countries such as Spain, Italy and West Germany.

The International Monetary Fund, the World Bank, the Inter-American Development Bank and several United Nations- sponsored agencies are also to attend the conference.

Dreyfus is attending the conference with a delegation including the Nicaraguan ministers of economy and finance, the president of Nicaragua's Central Bank, representatives of the former leftist Sandinista administration and a trade union leader.

The money is needed for an "Emergency Program" which involves setting up social projects and streamlining the industry.

Under the social projects, the aid would be used to resettle former Contra rebels and refugees, provide basic equipment for schools and hospitals, and to rebuild roads, bridges, electricity and telephone networks and other parts of the infrastructure damaged in the war.

Under an accord signed with the new government, the Contras are to demobilize by June 10 and settle in special development areas where they will receive housing and food.

Nicaraguan officials said the money would also be used to fund small business projects aimed at reviving the ravaged economy and to import fuel.

The Nicaraguan delegates are also to attempt to normalize their country's international financial relations.

At the previous conference, held in the Swedish capital in May last year, the then-president of Nicaragua Daniel Ortega secured promises of dlrs 50 million in economic aid.

Italy, Spain and Sweden each pledged dlrs 10 million to the leftist government, while the EC, Denmark, Finland, Holland and Norway promised smaller amounts.

The United States refused to attend the Stockholm conference, as did Britain.

#90157e0014 06/06/1990 ~Latin America New Agency

WARSAW (JUNE 6) EFE - The Soviet Union is to withdraw around a sixth of its troops stationed in Poland by the end of this year, a Polish daily reported Wednesday.

The daily "Gaceta Electoral" cited Polish military officials as saying that 10,000 of the estimated 58,0000 Soviet troops based in Poland would pulled out by the end of 1990.

Among the forces due to leave over the next couple of months would be two helicopter divisions based in the Baltic port of Kolobrzeg and a fighter-jet regiment stationed in the town of Brzeg just south of Warsaw.

The "Gaceta Electoral" said the pace of the withdrawal had been slowed by Moscow's problems in finding suitable housing for returning troops.

QUITO (JUNE 6) EFE - Ecuador's main leftist rebel group has announced it is to disband and form a political party more than a year after signing a peace agreement with the government.

The leader of the Alfaro Vive Carajo (AVC) rebel group, Pedro Moncada, said Tuesday that the guerrillas were shortly to start talks with the government of President Rodrigo Borja to set an exact date for their demobilization.

Interior Minister Andres Vallejo said the announcement that the AVC is to disband was "great news for the whole country" and "a success for democracy".

The Borja administration and the AVC signed a peace agreement in March, 1989.

The AVC, which is named after an earlier Ecuadorean revolutionary leader, emerged in 1983 and quickly established itself as Ecuador's most active leftist rebel group with a string of bank heists, kidnappings and attacks on security forces.

Vallejo said the government had not opened peace talks with Montoneras Patria Libre guerrillas, another of Ecuador's armed left-wing organizations.

#90157e0016 06/06/1990 ~Latin America New Agency
ATHENS (JUNE 6) EFE - Millions of Greek workers brought the country to a partial standstill Wednesday as they walked off their jobs for the second time in less than three weeks to protest government economic austerity measures.

Public transport was stopped, banks were closed and most public services reduced as an estimated two million members of the General Confederation of Greek Workers (GSEE) and the Federation of Civil Servant Unions (ADEDY) stayed at home for the second time since the end of May.

But the national carrier, Olympic Airways, ran its normal schedule of flights after air-traffic control workers decided not to join fellow workers in the strike.

GSEE Chairman Lambros Kanelopulos lead a march to the Greek parliament to press the three-month-old, center-right government of Constantine Mitsotakis to reintroduce inflation-linked wage rises and back down on restrictions on labor protests.

Kanelopulos, who is also calling for the government to ease taxes on low income groups, said Mitsotakis' austerity measures were, "leading the working class up a dead-end alley".

After taking office in March, Mitsotakis raised prices on public services by 10 to 30 percent and has called for reductions in public sector jobs in an effort to reduce the country's massive fiscal deficit.

In a crackdown on labor dissent, Mitsotakis has also pledged to cut the salaries of teachers who carry out threats not to correct end-of-term exam papers to press for pay rises.

Finance Minister Yianis Paliokrasas said Wednesday that the government would not cave in to "blackmail" demands from workers which are threatening to scupper attempts to drag the country out of its economic crisis.

Meanwhile, a nationwide strike by gas station owners, who are pushing for higher sales commissions, entered its second day Wednesday.

PRAGUE (JUNE 6) EFE - A former Czech Communist leader, who allegedly helped orchestrate the 1968 Soviet-led invasion of Czechoslovakia, has

been detained by police, the Interior Ministry announced Wednesday.

Vasil Bilak, former secretary of the Communist Party central committee, was arrested in Bratislava suspected of committing serious crimes, according to the ministry, which refused to give further details on the charges.

Bilak, who was the second-in-command of Czechoslovakia for more than 20 years under the former Communist government, has been accused of inviting Soviet-led Warsaw Pact troops to invade the country to crush the "Prague Spring" reforms of Alexander Dubcek.

He remained the number two in the hardline government from then until the Communist rule was dissolved at the end of last year.

The former Communist leader cannot be tried for high treason because of a 20-year statute of limitations. However, he could be prosecuted under Czech law for "crimes ag ainst peace."

Bilak's arrest comes two days before Czechs are to go the polls in the first democratic general elections in over 50 years.

Former Czech Communist Party boss Milos Jakes was arrested Wednesday along with four other top-ranking leaders of the hardline regime that was removed from power last November, officials said.

Besides Jakes, who was Communist Party general-secretary, police also picked up top communists Josef Lenart, Rudolf Hegenbart and Michal Stefanak.

The arrests followed the detention earlier Wednesday in the Slovak capital of Bratislava of Jakes' deputy, Vasil Bilak.

Both men came to power after the Soviet invasion of Czechoslovakia in 1968 but fell last November after widespread public agitation for greater democracy.

The authorities did not confirm whether the arrests were connected to the brutal suppression by communist security forces of a pro-democracy demonstration in Prague last Nov. 17.

The first democratic general elections in more than 50 years are to be held Friday.

RIO DE JANIERO (JUNE 6) EFE - Brazilian oil workers have suspended an

indefinite nationwide strike which was to begin Wednesday to press for increased pay and protest the government's plans for massive refinery layoffs.

Members of the Brazilian Petroleum Workers' National Strike Council decided Tuesday night to suspend the strike which was due to start at midnight Tuesday (0300 GMT Wednesday).

Strike organizers said the stoppage was suspended to see if the state-owned Petrobras petroleum company would come up with a definite answer to the union demands.

The strike was called Monday to protest the planned dismissal of 16,000 of Petrobras' 60,000 employees, following decreased fuel consumption reulting from new economic austerity measures.

Workers were also to press for a 167 percent pay hike to keep up with inflation over the past two months.

Economic austerity measures imposed by the government of President Fernando Collor de Mello, who took office in March, have sparked labor unrest and strikes among dock and transport workers.

BUDAPEST (JUNE 6) EFE - Hungarian Prime Minister Jozsef Antall is to ask Warsaw Pact members gathered in Moscow Thursday to fundamentally reconsider the organization's role in Eastern Europe and abolish its military functions.

Antall gave a press conference Wednesday, along with Finnish Prime Minister Harri Holkeri who was on an official three-day visit to Hungary, just before taking off for the Soviet capital.

The Hungarian leader said he and Holkeri agreed that restructuring of the Warsaw Pact must be done in conjunction with the Conference on Security and Cooperation in Europe (CSCE).

The 35-nation CSCE is composed of the United States, Canada and all of Europe, except Albania.

Antall also promised to propose that the Warsaw Pact members do away with a series of clauses in the organization's charter which he said violate the sovereignty of member nations.

LIMA (JUNE 6) EFE - One person was killed as three new tremors rocked the northern Peruvian jungle over the past 24 hours following last week's major quakes which killed dozens and laid waste to vast sections of the area, officials said Wednesday.

There is still no official death toll from the May 29 quakes, but it is estimated that between 56 and 100 people have died.

The towns of Rioja, Moyobamba and Soritor in the San Martin department were most affected, as were several villages in the Rodriguez de Mendoza province in the Amazonas department.

Some 40 per cent of the houses in the areas were destroyed, and those left standing were uninhabitable, officials said.

Torrential rains in the area has made the situation worse for the homeless forced to sleep in the streets.

Aid has arrived from Mexico, Chile and Germany, but Civil Defense Chief Jorge Ferreyros said it was not enough.

Presidential candidate Mario Vargas Llosa has also sent help to the area's homeless, and Wednesday he personally delivered tents, food, warm clothing and medicine to the victims.

Moyobamba's mayor, Cesar Arevalo, said some 500 children were suffering from respiratory problems because of the cold rains.

Meanwhile, the Sabancaya volcano in southern Peru which began erupting the same day as the major quakes struck, continued to spew gasses and ashes on nearby farms, destroying crops.

Faculty director of geology at the University of San Agustin in Arequipa, Roberto Kosaka, said that for the moment there was no danger of a complete eruption, but said residents of towns within a 10 to 15 km radius should take precautions.

The Sabancaya volcano is about 80 km from Arequipa and 1,000 km south of Lima.

#90157e0040 06/06/1990 ~Latin America New Agency

SANTIAGO (JUNE 6) EFE - Eight bodies found in a secret grave in northern Chile have been identified as detainees shot by the military following the 1973 coup led by former president Gen. Augusto Pinochet, a human rights group said Wednesday.

The Chilean Committee of Human Rights said the eight were identified as people who were arrested after Pinochet came to power in the September 11, 1973, coup.

Their bodies were among 15 corpses found since Friday in a 15-meter-long grave near the northern port of Pisagua, 1,909 km north of Santiago.

Pisagua was the site of a concentration camp for political prisoners set up by the military after the coup which toppled an elected Marxist president, Salvador Allende.

Judge Nelson Munoz said Wednesday he would remain in Pisagua until all remains had been removed from the grave, which lawyers said may contain more bodies.

A panel appointed by the Justice Ministry is working on identification of the corpses.

The bodies, with bullet holes in the chest, were blindfolded and their hands were tied behind their backs.

Munoz Friday ordered a search of the grave after the Roman Catholic human rights organization, the Vicariate of Solidarity, reported its location based on an anonymous tip-off.

A Santiago newspaper Tuesday published an interview by a doctor who said he witnessed the execution of five detainees by troops under command of Col. Ramon Larrain at the Pisagua prison camp in October, 1973.

Meanwhile Wednesday, a company operating an explosives factory at a former Air Force base in northern Chile said human remains had been found buried at the site.

A spokesman for Industrias Cardoen said workmen Tuesday found skeletons buried about 50 meters from the factory, which is on the site of the former Los Condores Air Force base in Iquique, 1,850 km north of Santiago.

He said the company had informed authorities.

Human rights groups charge that some 700 people disappeared after being arrested during Pinochet's 16-year rule.

Another 2,000 people were allegedly killed by security forces in mock shootouts, summary executions and other circumstances, according to human rights groups.

Democratically-elected civilian President Patricio Aylwin, who succeeded

Pinochet in March, has named a special commission to investigate alleged human rights violations under the dictatorship.

BEIRUT (JUNE 6) EFE - Syria and Iran Wednesday began mediation aimed at ending two years of fighting between rival Shiite Moslem factions in Lebanon, Moslem politicians in the Lebanese capital said Wednesday.

Iranian ambassador to Syria Hussein Akhtar arrived in Beirut Wednesday to meet with the spiritual leader of the pro-Iranian Shiite Moslem group Hezbollah, Mohammed Hussein Fadlallah.

The chief of Syrian intelligence in Lebanon, Ghazi Kanaan, was mediating in talks between military chiefs of Hezbollah and its rival Shiite group, the Syrian-backed Amal.

Lebanese politicians said the Syrian-Iran peace initiative was aimed at bringing the leaders of Amal and Hezbollah to Damascus for direct talks.

About 950 people have died and more than 3,000 have been wounded in the groups' fight for control of Lebanon's 1.3 million Shiite population, which began in 1988.

Meanwhile, Syrian troops in West Beirut patrolled Shiite areas for the eighth consecutive day to prevent an outbreak of inter-militia fighting.

An Amal statement Wednesday said the group supported all moves to end the fighting, and called on Hezbollah to join a common front against Israel.

The statement said Amal hoped the Syrian-Iran initiative would find a +solution to put an end to the country's internal conflicts+.

"These problems only help the enemy Israel," Amal said.

BOGOTA (JUNE 6) EFE - A Colombian court Wednesday ordered the arrest of five British mercenaries said to have trained rightist paramilitary groups financed by drug traffickers between 1988 and 1989, officials said.

The court in Bogota based its decision on information provided by Colombia's secret police force, DAS, which has asked INTERPOL to aid in the mercenaries' arrest, as they are believed to have fled the country.

The court named the mercenaries as Bryan David Tomkins, Stewart McAleese,

Andrew Gypson, Dan Shelley and John Owen.

LIMA (JUNE 6) EFE - Peru's center-left government Wednesday ran full-page newspaper ads accusing conservative presidential candidate Mario Vargas Llosa of income tax invasion, in what Vargas Llosa's FREDEMO coalition termed a "dirty war" tactic four days before the elections.

The ads placed by the Economy and Finance Ministry said, "Mr. Mario Vargas Llosa should comply with his duty to pay his taxes."

"The above-mentioned candidate has not paid any payments of income tax in the last five years," the ads continue.

"The Economy and Finance Ministry believes that before suggesting adoption of economic programs that will seriously affect the living conditions of the poor, Mr. Vargas Llosa ought to pay the income taxes he owes the state " the ads said.

President Alan Garcia's APRA party candidate lost out in the first round of presidential voting in April and, on Sunday, novelist Vargas Llosa is to face independent candidate Alberto Fujimori in the runoff.

Vargas Llosa has called for a tough economic austerity program that, if adopted, is expected to cause unemployment and real income losses, especially for the poor.

But he has also proposed creating an emergency fund to soften the impact on the poor.

National Tax Administration chief Luis Alberto Latinez was quoted in a pro-government daily Wednesday as saying the government planned to seize Vargas Llosa's residence for non-payment of taxes.

Latinez said the state was seeking to fine Vargas Llosa 500 million intis (dlrs 8,000) for author royalties he received an did not declare to tax authorities.

Latinez said a fine of 100 million intis would also be levied on Vargas Llosa for allegedly failing to tell the state of his stake in the polling firm Apoyo, in which he owns 1,543 shares, according to the report in the daily Pagina Libre.

A FREDEMO spokesman dismissed the tax evasion accusations as part of a "dirty war" against the candidate.

Economy and Finance Minister Cesar Vazquez Bazan first raised the tax evasion accusations against Vargas Llosa at the beginning of the campaign.

The government is also studying a possible charge against Fujimori for allegedly undervaluing his residence for tax purposes.

-30- 2438

#90157e0050 06/06/1990 ~Latin America New Agency

BOGOTA (JUNE 6) EFE - Colombian police Wednesday announced a hike in the rewards paid for informing on the country's notorious Medellin Cartel drug barons, as part of a renewed effort to crack down on the cocaine gangs.

Some dlrs 200,000 is already on offer for information leading to the arrest of Pablo Escobar, the Medellin Cartel's chief, whose paramilitary squads have allegedly killed 112 policemen in the city of Medellin alone since the beginning of the year.

National police chief Gen Miguel Antonio Gomez Padilla said government bounties to informants would be raised in the next few days.

The hikes are timed to tie in with a new publicity campaign which will see +Wanted+ posters of cartel chiefs pasted up all over the country.

Since last August, the country has been in a virtual state of war with the drug chiefs hitting back against a government crackdown, ordered following the assassination of Liberal Party senator and presidential candidate Luis Carlos Galan.

Earlier this year, the drug barons offered to give themselves up and fold up their cocaine trade, in return for an end to the government's extradition of alleged drug traffickers for trial in the United States.

But, after the government resumed extraditions in March, the cartel retaliated with a renewed campaign of violence, accusing Medellin police of carrying out a +dirty war+ against them and their families. They have killed more than 50 policemen in the last month.

Since the nine-month-old drug war began, 15 suspected drug traffickers have been extradited and more than 300 people have been killed.

ANKARA (JUNE 6) XINHUA - TWO ANCIENT SITES HAVE BEEN FOUND IN SOUTHERN TURKEY, LOCAL NEWSPAPERS REPORTED HERE TODAY.

RUINS OF AN UNDERGROUND CITY DATING BACK TO THE FIFTH CENTURY WERE DISCOVERED ACCIDENTALLY IN A SQUARE UNDER CONSTRUCTION IN KAVAKTEPE VILLAGE, NIGED PROVINCE.

ACCORDING TO NIGDE GOVERNOR AHMET OZYURT, THE UNDERGROUND CITY HAD ROOMS AND CORRIDORS LARGER THAN THOSE FOUND PREVIOUSLY IN THE AREA. RESEARCH TO DETERMINE THE ORIGIN OF THE SITE IS NOW UNDER WAY, HE SAID.

MEANWHILE, RUINS OF A CITADEL WERE DISCOVERED NEAR ANAMUR, A COASTAL CITY ON THE SOUTHERNMOST TIP OF ANATOLIA, WHERE TWO OTHER CITADELS, YELBIZ AND BONCUKLU CITADELS, WERE FOUND EARLIER.

THIS PART OF SOUTHERN TURKEY WAS ONCE THE ROMAN PROVINCE OF CILICIA.

ANAMUR GOVERNOR ARDAHAN TOTOK SAID THAT NO RECORD OF THE NEWLY FOUND CITADEL EXISTED ANYWHERE AND THAT NO ONE HAD BEEN AWARE OF IT.

HE SAID THE CITADEL WAS FOUND ON A 600-METER-HIGH HILL. NUMEROUS ROMAN CISTERNS LEFT OVER FROM THE 4TH TO THE 6TH CENTURY WERE FOUND AROUND THE CITADEL.

GRATA ANKARA (JUNE 6) XINHUA - THE TURKISH GOVERNMENT HAS DECLARED JAMES CHAFFEY, REPRESENTATIVE OF THE WORLD BANK IN TURKEY, "PERSONA NON GRATA," THE LOCAL DAILY NEWSPAPER "TERCUMAN" REPORTED TODAY.

THE PAPER SAID THAT CHAFFEY WAS DECLARED "PERSONA NON GRATA" BECAUSE OF HIS "NEGATIVE REPORTS" ABOUT TURKEY AND HIS "INCREASING CRITICISM OF TURKEY'S ECONOMIC AFFAIRS."

TURKISH GOVERNMENT OFFICIALS EARLIER COMPLAINED TO THE WORLD BANK CHIEF BARBER CONABLE THAT IT WAS "IMPOSSIBLE TO WORK WITH CHAFFEY IN VIEW OF HIS ATTITUDES TOWARD THE DEVELOPMENTS OF THE TURKISH ECONOMY," SAID THE PAPER.

CHAFFEY WAS APPOINTED THE WORLD BANK REPRESENTATIVE IN TURKEY IN 1987.

BANGKOK (JUNE 6) XINHUA - THE NATIONAL ARMY OF INDEPENDENT CAMBODIA (ANKI FORMERLY CALLED THE SIHANOUKIAN NATIONALIST ARMY) SUCCEEDED IN LIBERATING THREE DISTRICT TOWNS IN KOMPONG THOM PROVINCE WITHIN ONE WEEK.

THE OFFICE OF THE PERSONAL REPRESENTATIVE OF SAMDECH NORODOM SIHANOUK IN CAMBODIA AND ASIA ANNOUNCED HERE THIS AFTERNOON THAT THE DISTRICT TOWN OF PRASATH SAMBAUR, 32 KM NORTHEAST OF THE PROVINCIAL CAPITAL OF KOMPONG THOM HAS BEEN LIBERATED ON JUNE 1 BY THE FIRST BRIGADE OF THE NATIONAL ARMY.

DURING THE FIGHTING, 28 ENEMY TROOPS WERE KILLED AND 56 OTHERS WERE CAPTURED.

ON JUNE 2, ANOTHER BATTALION OF THE ARMY ATTACKED THE DISTRICT TOWN OF SANDAN, NORTHEAST OF THE CAPITAL OF THIS CENTRAL CAMBODIAN PROVINCE.

SANDAN DISTRICT TOWN FELL INTO THE RESISTANCE'S HAND WITHOUT ANY REAL FIGHTING, IT SAID.

ON JUNE 4, TWO BATTALIONS FROM THE 1ST AND 15TH BRIGADES OF THE NATIONAL ARMY RE-TOOK THE STRATEGIC DISTRICT TOWN OF STAUNG FROM THE ENEMY, SITUATED ON NATIONAL ROAD NO. 6 AND 40 KM FROM THE PROVINCIAL CAPITAL.

ON THE ODDOR MEANCHEY BATTLEFIELD, THE OFFICE SAID, THE NATIONAL ARMY CUT OFF NATIONAL ROAD NO. 68 FROM KRALANH TO SAMRONG ON MAY 30, DESTROYING THE STRATEGIC BRIDGE OF O-CHIK AND OVERRUNNING SEVEN OUTPOSTS ALONG THE ROAD.

ON JUNE 5, TWO UNITS FROM THE 5TH AND 8TH BRIGADES OF THE ARMY RAIDED SAMRONG, CAPITAL OF ODDOR MEANCHEY PROVINCE.

BEIJING, JUNE 6 (XINHUA) -- THE UNITED NATIONS DEVELOPMENT PROGRAM (UNDP) WILL PROVIDE CHINA WITH 990,000 U.S. DOLLARS FOR THE TRAINING OF MANAGEMENT PERSONNEL IN INSTITUTIONS OF HIGHER LEARNING.

HERBERT BEHRSTOCK, ACTING RESIDENT DEPUTY REPRESENTATIVE OF THE UNDP, AND ZHU YULI, ASSISTANT MINISTER OF THE STATE EDUCATION COMMISSION, SIGNED AN AGREEMENT TO THIS EFFECT AT THE BEIJING HOTEL TODAY.

DR H. LEO TELLER, REPRESENTATIVE OF THE UNITED NATIONS EDUCATIONAL, SCIENTIFIC AND CULTURAL ORGANIZATION (UNESCO), AND LONG YONGTU, DEPUTY DIRECTOR OF THE CHINA INTERNATIONAL CENTER FOR ECONOMIC AND TECHNICAL EXCHANGES (CICETE), ALSO PARTICIPATED IN THE SIGNING CEREMONY.

ZHU SAID CHINA WILL IMPROVE ITS EDUCATIONAL MANAGEMENT AT ALL LEVELS SO AS TO ADAPT ITS EDUCATION TO SCIENTIFIC, TECHNOLOGICAL AND ECONOMIC DEVELOPMENTS IN THE NEXT CENTURY.

AT PRESENT, HE SAID, CHINA IS PREPARING TO ESTABLISH A HIGHER LEARNING MANAGEMENT INSTITUTE AND LEGAL SAFEGUARDS FOR CHINA'S EDUCATION.

BEHRSTOCK SAID THAT, SINCE THE AID WILL BE USED FOR THE TRAINING OF MANAGEMENT PERSONNEL, IT WILL NOT ONLY CONCERN TEACHERS AND STUDENTS BUT WILL ALSO AFFECT MANAGEMENT PERSONNEL THROUGHOUT THE COUNTRY.

"I HOPE THIS SMALL AMOUNT OF AID WILL YIELD BIG RESULTS," HE ADDED. ZHU SAID THAT CHINA, THROUGH YEARS OF HARD WORK, HAS FORMED A BASIC TRAINING NETWORK FOR EDUCATIONAL MANAGEMENT PERSONNEL.

HE SAID THE UN P'WPIUQMARM OF PERSONNEL TRAINING, INTRODUCTION OF LIBRARY BOOKS AND MATERIALS AND ADVANCED MANAGEMENT EXPERTISE AND APPROACHES, AS WELL AS RESEARCH INTO TEACHING MATERIALS.

TO ASSIST THE TRAINING PROGRAM, CHINA HAS ALLOTED SOME 50 MILLION YUAN (MORE THAN 10 MILLION U.S. DOLLARS) AS SUPPORT FUNDS FOR THE PROGRAM, HE NOTED.

#90157h0053 06/06/1990 ~Chinese News Agency

DAR ES SALAAM (JUNE 6) XINHUA - TANZANIAN PRESIDENT ALI HASSAN MWINYI HAS SAID THAT SOME WESTERN COUNTRIES ARE MAKING THE ADOPTION OF THE MULTI-PARTY SYSTEM AS A PRE-CONDITION FOR ECONOMIC ASSISTANCE TO

DEVELOPING COUNTRIES.

THE PRESIDENT MADE THE REMARKS DURING TALKS EARLIER THIS WEEK WITH VICE CHAIR-PERSON OF THE EUROPEAN ECONOMIC COMMUNITY (EEC), MANUEL MARIN, WHO WAS ON AS OFFICIAL VISIT HERE, TANZANIAN NEWSPAPER "THE UHURU" REPORTED TODAY.

PRESIDENT MWINYI SAID TO USE THE ADOPTION OF MULTI-PARTY SYSTEM AS A PRE-CONDITION FOR ECONOMIC ASSISTANCE BY SOME WESTERN COUNTRIES CONSTITUTES AN INTERFERENCE OF THE INTERNAL AFFAIRS OF OTHER COUNTRIES, WHICH IS TOTALLY UNACCEPTABLE.

HE SAID THAT THE CHOICE OF A MULTI-PARTY SYSTEM SHOULD BE MADE BY THE PEOPLE OF DEVELOPING COUNTRIES NOT BY THE WESTERN COUNTRIES WHO PROVIDE ECONOMIC ASSISTANCE.

HE STRESSED THAT ESTABLISHMENT OF A MULTI-PARTY SYSTEM WITHOUT PEOPLE'S SUPPORT WILL CAUSE BLOODY VIOTENCE ANCE SPLIT OF THE SOCIETY WHICH RUN COUNTER TO THE PRINCIPLE OF ECONOMIC DEVELOPMENT.

TANZANIA LAUNCHED A NATION-WIDE DEBATE ON MULTI-PARTY SYSTEM LAST FEBRUARY AT THE APPEAL OF JULIUS NYERERE, CHAIRMAN OF THE COUNTRY'S SOLE POLITICAL PARTY, THE TANZANIA REVOLUTIONARY PARTY.

#90157h0060 06/06/1990 ~Chinese News Agency

BEIRUT (JUNE 6) XINHUA - RIVAL CHRISTIAN FORCES EXCHANGED MORTAR AND AUTOMATIC GUNFIRE IN OVERNIGHT SKIRMISHES IN EAST BEIRUT, VIOLATING A 10-DAY-OLD CEASEFIRE, AND POLICE SAID TODAY THAT ONE PERSON WAS WOUNDED.

POLICE SAID THE INTERMITTENT EXCHANGE OF FIRE BETWEEN TROOPS OF REBELLIOUS GENERAL MICHEL AOUN AND THE LEBANESE FORCES (LF) MILITIAMEN UNDER SAMIR GEAGEA ERUPTED A FEW HOURS AFTER TWO CHRISTIAN MINISTERS TOOK UP THEIR PORTFOLIO IN THE NATIONAL RECONCILIATION GOVERNMENT OF PRESIDENT ELIAS

HRAWI. THE CLASH DIED DOWN AT 3:15 A.M. (00:15 GMT).

POLITICAL OBSERVERS HERE ATTRIBUTE THE RENEWED VIOLENCE TO AOUN'S DISSATISFACTION WITH THE PARTICIPATION IN HRAWI'S GOVERNMENT BY MICHEL SASSINE AND GOERGE SAADEH.

SASSINE, A GREEK ORTHODOX PARLIAMENT MEMBER, WAS NAMED DEPUTY PREMIER AND MINISTER OF PUBLIC WORKS, AND SAADEH, A MARONITE CATHOLIC, WAS NAMED MINISTER OF POSTS AND TELECOMMUNICATIONS.

AOUN HAS REJECTED HRAWI'S ELECTION LAST NOVEMBER AS WELL AS THE ARAB LEAGUE-BROKERED PEACE PLAN WORKED OUT BY LEBANESE LEGISLATORS, INCLUDING SASSINE AND SAADEH, IN THE SAUDI TOWN OF TAIF LAST OCTOBER. THE PLAN WAS DESIGNED TO END LEBANON'S 15-YEAR-OLD CIVIL WAR.

BUT GEAGEA, AOUN'S MAJOR CHALLENGER IN THE CHRISTIAN ENCLAVE, RECOGNIZED HRAWI AND HIS GOVERNMENT.

AOUN AND GEAGEA HAVE BEEN FIGHTING FOR CONTROL OF THE 800-SQUARE-KILOMETER CHRISTIAN ENCLAVE SINCE JANUARY 30. THE CARNAGE HAS LEFT MORE THAN 1,000 PEOPLE DEAD AND ALMOST 3,000 WOUNDED.

BEIJING (JUNE 6) XINHUA - THE COMMUNIST PARTY OF CHINA (CPC) IS KEEN TO ESTABLISH AND DEVELOP FRIENDLY RELATIONS WITH THE JANATA DAL (THE RULING "PEOPLE'S PARTY") OF INDIA.

THIS STATEMENT WAS MADE BY QIAO SHI, A STANDING COMMITTEE MEMBER OF THE POLITICAL BUREAU OF THE CPC CENTRAL COMMITTEE, WHEN HE MET WITH A

DELEGATION FROM THE JANATA DAL HERE THIS AFTERNOON.

THE DELEGATION, LED BY RAMAKRISHNA HEGDE, VICE-PRESIDENT OF THE PARTY, INCLUDES THE PARTY'S INTERIM PRESIDENT, SOMAPPA ROYAPPA BOMMAI, AND GENERAL SECRETARY SUDINI JAIPAL REDDY. THEY ARRIVED IN CHINA JUNE 2 AT THE INVITATION OF THE CPC.

QIAO DESCRIBED THE VISIT OF THE DELEGATION AS "AN IMPORTANT EVENT IN THE RELATIONS BETWEEN THE CPC AND THE JANATA DAL, AND BETWEEN CHINA AND INDIA."

THE CPC IS READY TO ESTABLISH AND DEVELOP FRIENDLY TIES WITH THE JANATA DAL UNDER THE PRINCIPLES OF INDEPENDENCE, COMPLETE EQUALITY, MUTUAL RESPECT AND NON-INTERFERENCE IN EACH OTHER'S INTERNAL AFFAIRS, QIAO TOLD THE VISITORS.

HE ADDED THAT EXCHANGES BETWEEN THE TWO PARTIES WILL BE USEFUL IN DEEPENING MUTUAL UNDERSTANDING AND DEVELOPING FRIENDLY RELATIONS BETWEEN THE TWO PEOPLES AND THE TWO COUNTRIES.

HE SAID TO CONTINUOUSLY DEVELOP FRIENDLY RELATIONS BETWEEN CHINA AND INDIA ON THE BASIS OF THE FIVE PRINCIPLES OF PEACEFUL COEXISTENCE IS IN THE INTERESTS OF THE TWO PEOPLES, AND WILL BE WELCOMED BY THE TWO PEOPLES AND MAKE A GREAT CONTRIBUTION TO ASIAN AND WORLD PEACE.

BRIEFING HIS GUESTS ON CHINA'S DOMESTIC SITUATION, QIAO SAID BOTH CHINA'S POLITICAL SITUATION AND SOCIAL ORDER ARE STABLE, AND THE ECONOMIC RECTIFICATION AND THE DEEPENING OF REFORM HAVE ACHIEVED INITIAL RESULTS.

HE EXPLAINED THAT CHINA IS DEVELOPING IN A HEALTHY WAY IN EVERY RESPECT. "THERE IS NO DOUBT THAT THE CHINESE PEOPLE WILL REACH THEIR AIM OF BUILDING SOCIALISM WITH CHINESE CHARACTERISTICS," HE ASSURED THE VISITORS.

HEGDE SAID THAT IN THE PRESENT CHANGING WORLD, THE CAUSE OF PEACE AND DEVELOPMENT HAS BECOME A SELF-EVIDENT TRUTH.

HE SAID GREAT POTENTIAL EXISTS FOR ENLARGING MUTUAL UNDERSTANDING AND CO-OPERATION BETWEEN INDIA AND CHINA. HE HOPED THAT HIS PARTY'S CO-OPERATION WITH THE CPC WOULD BECOME CLOSER.

AFTER THE MEETING, QIAO HELD A BANQUET IN HONOR OF THE INDIAN GUESTS. IN THE MORNING, ZHU LIANG, A MEMBER OF THE CPC'S CENTRAL COMMITTEE AND HEAD OF THE INTERNATIONAL LIAISON DEPARTMENT OF THE PARTY'S CENTRAL COMMITTEE, HELD TALKS WITH THE INDIAN DELEGATION. BOTH SIDES EXCHANGED VIEWS ON DEVELOPING FRIENDLY RELATIONS BETWEEN THE TWO PARTIES AND ON ISSUES OF COMMON CONCERN.

BEFORE COMING TO BEIJING, THE INDIAN DELEGATION VISITED SHENZHEN, GUANGZHOU AND SHANGHAI.

COLOMBO (JUNE 6) XINHUA - A SRI LANKAN MINISTER SAID TODAY THAT IT IS UP TO THE FOREIGN MINISTER OF PAKISTAN TO INITIATE ACTION ON THE HOLDING OF SAARC FOREIGN MINISTERS' MEETING TO DECIDE THE VENUE OF THE SAARC SUMMIT.

SRI LANKAN PLANTATION INDUSTRIES MINISTER RANJAN WIJERATNE, WHO IS ALSO STATE MINISTER FOR DEFENSE, TOLD A PRESS BRIEFING HERE THAT THERE WAS A TALK THAT THE FOREIGN MINISTERS OF THE SEVEN MEMBER NATIONS OF THE SOUTH ASIAN ASSOCIATION FOR REGIONAL COOPERATION (SAARC) SHOULD MEET TO WORK OUT A FORMULA ON THE SUMMIT VENUE.

"I TOLD THE HIGH COMMISSIONER (OF PAKISTAN HERE) THAT IT IS UP TO THE FOREIGN MINISTER OF PAKISTAN TO INITIATE ACTION," HE SAID.

THE MINISTER NOTED THAT PAKISTAN IS THE CURRENT CHAIRMAN OF THE SAARC UNTIL THE NEXT SUMMIT IS HELD.

SAARC, ESTABLISHED IN 1985, GROUPS BANGLADESH, BHUTAN, INDIA, THE MALDIVES NEPAL, PAKISTAN AND SRI LANKA.

WITH SRI LANKA AND THE MALDIVES BOTH KEEN ON HOSTING THIS YEAR'S SUMMIT, THE VENUE OF THE FIFTH SAARC SUMMIT HAS BECOME A CONTENTIOUS ISSUE.

AT THE FOURTH SUMMIT IN ISLAMABAD IN DECEMBER 1988, IT WAS DECIDED THAT SRI LANKA SHOULD HOST THE NEXT SUMMIT IN 1989 AND THE MALDIVES IN 1990.

HOWEVER, SRI LANKA WAS RELUCTANT TO HOST THE SUMMIT IN 1989 BECAUSE OF THE PRESENCE OF THE INDIAN PEACE-KEEPING FORCE ON ITS SOIL.

INDIA COMPLETED THE WITHDRAWAL OF ITS TROOPS FROM SRI LANKA IN MARCH THIS YEAR AND SRI LANKA IS NOW WILLING TO HOST THE SUMMIT THIS YEAR.

MEANWHILE, THE MALDIVES WANTS TO HOST THE SUMMIT TO COINCIDE WITH THE 25TH ANNIVERSARY OF ITS INDEPENDENCE THIS YEAR.

PAKISTAN PRIME MINISTER BENAZIR BHUTTO, THE CURRENT SAARC CHAIRPERSON, SENT HER FOREIGN MINISTER YAQUB KHAN TO SAARC CAPITALS TO EVOLVE A CONSENSUS ON THE VENUE OF THE SUMMIT.

THE PAKISTAN FOREIGN MINISTER HAS TOLD SRI LANKAN PRESIDENT RANASINGHE PREMADASA THAT THE CONSENSUS AMONG THE OTHER SIX SAARC MEMBERS WAS THAT THIS YEAR'S SUMMIT SHOULD BE HELD IN MALE, THE MALDIVES.

BUT THE SRI LANKAN PRESIDENT INSISTED ON HOLDING THE SUMMIT IN COLOMBO THIS YEAR.

MANILA (JUNE 6) XINHUA - PHILIPPINE PRESIDENT CORAZON AQUINO TODAY APPROVED A COMPREHENSIVE PACKAGE OF SOCIO-ECONOMIC REFORMS THAT FRONTALLY ADDRESSES INFLATION, THE DEFICIT AND HIGH INTEREST RATES IN ORDER TO RESHAPE THE COUNTRY'S ECONOMY.

AT A PRESS BRIEFING AFTER TODAY'S CABINET MEETING, PRESS SECRETARY TOMAS GOMES SAID, "THE GOVERNMENT WILL EXERCISE DECISIVELY AND VIGOROUSLY ITS PREFERENTIAL OPTIONS IN FAVOR OF THE POOR, THE UNDERPRIVILEGED AND THE DISADVANTAGED -- IN ITS DRIVE TO RESHAPE THE ECONOMY AND POLITICS OF THE COUNTRY."

THE PACKAGE OF REFORMS WAS PRESENTED TO THE CABINET BY FINANCE SECRETARY JESUS ESTANISLAO, WHICH COVERS THE FISCAL AND FINANCIAL SECTORS, AGRARIAN REFORM, DECENTRALIZATION AND A TIGHTER AND MORE EFFICIENT GOVERNMENT BUREAUCRACY.

MEASURES MUST BE TAKEN, ESTANISLAO SAID, TO CUT THE BUDGETARY DEFICIT. FOR 1990 ALONE, HE NOTED THAT SOME 20 BILLION PESOS (869.5 MILLION U.S. DOLLARS) ARE REQUIRED TO CLOSE THE FISCAL GAP.

THE 20 BILLION PESOS, ESTANISLAO SAID, WILL BE RAISED BY THE GOVERNMENT BY INCREASING EXCISE TAXES ON SELECTED PRODUCTS AND IN FEES AND DIVIDENDS; REPROGRAMMING GOVERNMENT EXPENDITURES AND OTHER SAVINGS; AND INCREASING THE COLLECTION EFFICIENCY OF THE BUREAU OF INTERNAL REVENUE AND THE BUREAU OF CUSTOMS.

MONEY WILL ALSO BE RAISED, ESTANISLAO NOTED, FROM SPEEDIER PRIVATIZATION, IMPROVED FINANCIAL OPERATIONS OF GOVERNMENT, AND SAVINGS FROM THE DISCONTINUANCE OF THE OIL SUBSIDY.

THE MAJOR REFORM TO BE UNDERTAKEN IN THE FINANCIAL SECTOR, ESTANISLAO SAID IS THE STRENGTHENING OF THE CENTRAL BANK (CB).

"THE CB MUST REMAIN STRONG, INDEPENDENT, AND BE ARMED WITH POWERS TO CONDUCT MONETARY POLICY FLEXIBLY AND RESPONSIBLY, MOST PREFERABLY IN A NON-INFLATIONARY MANNER," ESTANISLAO SAID.

TIANJIN (JUNE 6) XINHUA - AN EXHIBITION DISPLAYING PRODUCTS MADE IN CHINA'S ECONOMIC DEVELOPMENT ZONES OPENED HERE TODAY.

ITEMS ON SHOW INCLUDE MACHINERY AND ELECTRONIC PRODUCTS, CHEMICALS, PHARMACEUTICALS AND MEDICAL INSTRUMENTS, GARMENTS, FOODSTUFFS AND HOUSEHOLD ELECTRICAL APPLIANCES.

MORE THAN 140 FOREIGN FIRMS HAVE BEEN INVITED TO THE EXHIBITION. TRADE TALKS, SEMINARS, BRIEFINGS AND TECHNICAL DICUSSIONS WILL BE HELD DURING THE EXHIBITION.

MEANWHILE, THE 1990 INTERNATIONAL INDUSTRIAL PRODUCTS AND TECHNOLOGY EXHIBITION IS ALSO BEING HELD HERE.

-30- 731

#90157h0071 06/06/1990 ~Chinese News Agency

SHIJIAZHUANG (JUNE 6) XINHUA - A NEW ECONOMIC DEVELOPMENT ZONE WILL SOON BE COMPLETED IN NORTH CHINA'S HEBEI PROVINCE, XINHUA LEARNED TODAY.

THE ZONE WILL COVER TANGSHAN CITY AND PART OF TWO ADJOINING COUNTIES. THE AREA BOASTS RICH COAL, IRON AND LIMESTONE RESOURCES.

AS PART OF THE PROJECT, THE CONSTRUCTION OF TANGSHAN HARBOR, WHICH HAS EIGHT BERTHS WITH A COMBINED ANNUAL HANDLING CAPACITY OF 880,000 TONS, IS WELL UNDER WAY. A 77.8 KM RAILWAY LINE WILL SOON BE PUT INTO OPERATION.

WORK ON THE EXPANSION OF A NUMBER OF LARGE FACTORIES, INCLUDING A SALT FACTORY WITH AN ANNUAL PRODUCTION CAPACITY OF 1.7 MILLION TONS -- THE LARGEST IN THE COUNTRY -- IS GOING AHEAD, AS IS WORK ON A SODA ASH FACTORY AND THE JIDONG OILFIELD.

#90157h0073 06/06/1990 ~Chinese News Agency

HONG KONG (JUNE 6) XINHUA - A HONG KONG GOVERNMENT OFFICIAL TODAY URGED LOCAL TRADERS AND MANUFACTURERS TO ADOPT A MORE POSITIVE AND AGGRESSIVE APPROACH IN MARKETING THEIR PRODUCTS.

SPEAKING AT A LUNCH MEETING OF THE INDIAN CHAMBER OF COMMERCE, JOHN CHAN, SECRETARY FOR TRADE AND INDUSTRY, SAID THIS COULD BE DONE BY ESTABLISHING OVERSEAS SALES AND MARKETING OFFICES, STEPPING UP EFFORTS IN MARKET AND PRODUCT RESEARCH, ADVERTIZING PRODUCTS IN TRADE MAGAZINES, PARTICIPATING IN INTERNATIONAL FAIRS AND EXHIBITIONS, AND MAKING DIRECT CONTACT WITH CUSTOMERS.

TO REMAIN COMPETITIVE, HE SAID, HONG KONG'S MANUFACTURERS MUST BE ABLE TO PRODUCE QUALITY GOODS OF HIGHER PRECISION AND ACCURACY AND WITH BETTER RELIABILITY AND LOWER DEFECT RATES.

CHAN SAID THAT TOGETHER WITH THE MOVE TOWARDS HIGHER TECHNOLOGY, IT WAS TIME FOR HONG KONG MANUFACTURERS TO CONSIDER DEVELOPING THEIR OWN BRAND NAMES AND REDUCING CONVENTIONAL RELIANCE ON ORIGINAL EQUIPMENT MANUFACTURE BUSINESS.

HE ALSO CALLED ON THE COMMUNITY AS A WHOLE TO REDOUBLE ITS EFFORTS TO IMPROVE EXPORT PERFORMANCE.

HE SAID THE HONG KONG GOVERNMENT ATTACHES GREAT IMPORTANCE TO MAINTAINING THE FUNDAMENTAL PRINCIPLES AND STRENGTHENING THE DISCIPLINES OF THE MULTILATERAL TRADING SYSTEM.

NEW DELHI (JUNE 6) XINHUA - ONE PERSON WAS KILLED AND 10 OTHERS INJURED WHEN MUSLIM MILITANTS CLASHED TODAY WITH THE SECURITY FORCES IN THREE

SEPARATE PLACES IN SRINAGAR, CAPITAL OF INDIA-CONTROLLED KASHMIR.

ACCORDING TO REPORTS REACHING HERE, MILITANTS HURLED A POWERFUL GRENADE ON A PATROL PARTY OF SECURITY FORCES IN TANKIPORA IN THE CITY.

AN UNIDENTIFIED CIVILIAN WAS KILLED ON THE SPOT AND AN ASSISTANT COMMANDANT OF THE CENTRAL RESERVE POLICE FORCE (CRPF) AND THREE SOLDIERS WERE INJURED WHEN SECURITY FORCES RETALIATED.

IN RAINAWARA LOCALITY, SIX PERSONS INCLUDING FOUR CRPF SOLDIERS WERE INJURED IN THE CROSS-FIRE BETWEEN MILITANTS AND SECURITY FORCES.

THE THIRD INCIDENT OCCURRED IN SADAKADAL LOCALITY IN THE CITY. THE REPORTS SAID THAT THE AFFECTED AREAS AND ADJOINING LOCALITIES WERE BROUGHT UNDER CURFEW IMMEDIATELY AFTER THE INCIDENTS TOOK PLACE. THE STEP, ACCORDING TO OFFICIAL SOURCES, WAS TAKEN TO NAB THE PERSONS RESPONSIBLE FOR SUBVERSIVE ACTS.

HOWEVER, LIFE IN REST OF THE CITY AND ELSEWHERE IN THE KASHMIR VALLEY WAS NORMAL, THE REPORTS ADDED.

MEANWHILE, INDIAN DEFENSE MINISTRY SOURCES TOLD REPORTERS HERE TODAY THAT A NEW RANGE OF ULTRA SOPHISTICATED LIGHT ARMS ARE TO BE GIVEN TO SECURITY FORCES FIGHTING MILITANTS IN INDIA-CONTROLLED KASHMIR AND THE NORTHWEST STATE OF PUNJAB.

THE NEW RANGE OF LIGHT WEAPONS WILL BE PROVIDED WITH NIGHT FIRING CAPABILITY, WITH A PROVISION OF NIGHT SIGHT, THE SOURCES SAID.

BANGKOK (JUNE 6) XINHUA - CHINESE ASSISTANT FOREIGN MINISTER XU DUNXIN ARRIVED HERE TODAY TO EXCHANGE VIEWS WITH THAILAND ON THE CAMBODIAN ISSUE.

LATER HE WILL FLY TO VIETNAM AND DISCUSS THE PROBLEM WITH THE VIETNAMESE SIDE. BUT HE SAID THAT WHILE BOTH SIDES AGREED SUCH TALKS WOULD BE USEFUL, THERE REMAINED GREAT DIFFERENCES BETWEEN THEM. HE EXPRESSED THE HOPE THAT VIETNAM WOULD JOIN IN A COMMON EFFORT TO SOLVE THE ISSUES.

REVIEWING HIS TALKS WITH VIETNAMESE DEPUTY FOREIGN MINISTER DINH NHO LIEM LAST MAY, HE SAID, " BOTH SIDES THINK THE MEETING IS CONDUCIVE, BUT TO BE FRANK, WE ARE DISTANCED TO A GREAT EXTENT IN VIEWS ON SOME BIG PROBLEMS, WHICH ARE UNAVOIDABLE AND SUBSTANTIVE IN SOLVING THE CAMBODIAN ISSUE."

NORMALIZATION OF SINO-VIETNAMESE TIES, XU POINTED OUT, COULD ONLY COME AFTER A SOLUTION HAS BEEN FOUND TO THE CAMBODIAN QUESTION.

IN RESPONCE TO A QUESTION ABOUT THE HOPE EXPRESSED BY SOVIET DEPUTY FOREIGN MINISTER IGOR GOGACHEV HERE FOR A BREAKTHROUGH IN SINO-VIETNAMESE MEETING, XU SAID: "WE ALSO HOPE THAT THE SOVIET SIDE WOULD TAKE AN ACTIVE ATTITUE TO PROMPT AN EARLY SOLUTION TO THE CAMBODIAN ISSUE."

HANGZHOU (JUNE 6) XINHUA - RURAL ENTERPRISES IN ZHEJIANG PROVINCE, EAST CHINA, HAD EXPORTS WORTH 1.358 BILLION YUAN (225 MILLION U.S. DOLLARS) IN THE FIRST FOUR MONTHS THIS YEAR, A 50 PERCENT INCREASE OVER THE SAME PERIOD LAST YEAR.

LOCAL OFFICIALS SAID RURAL ENTERPRISES HAVE GROWN RAPIDLY IN ZHEJIANG PROVINCE IN RECENT YEARS. IN 1989, THEY HAD A TOTAL OUTPUT VALUE OF 65.7 BILLION YUAN, AN 8.9 PERCENT INCREASE OVER THE PREVIOUS YEAR. RURAL INDUSTRIES ACCOUNT FOR MORE THAN 50 PERCENT OF THE PROVINCE'S TOTAL

INDUSTRIAL OUTPUT VALUE.

THE PROVINCIAL GOVERNMENT HAS ADOPTED A SERIES OF MEASURES TO ENCOURAGE RURAL ENTERPRISES TO DEVELOP INTERNATIONAL MARKETS WHILE EXPANDING THE DOMESTIC MARKET.

LOCAL AUTHORITIES ENSURE LOANS AND SUPPLIES OF RAW MATERIALS, FOREIGN TRADE DEPARTMENTS PROVIDE INFORMATION AND STATE ENTERPRISES OFFER TECHNICAL BACKUP.

IN 1989, RURAL ENTERPRISES IN THE PROVINCE DELIVERED GOODS WORTH 4.489 BILLION YUAN (955 MILLION U.S. DOLLARS) FOR EXPORT, 47.9 PERCENT MORE THAN IN THE PREVIOUS YEAR.

MANY RURAL ENTERPRISES HAVE SHOWN FLEXIBILITY IN EXPORTING. THE PINGHU GARMENT FACTORY PROCESSED 720 JACKETS ON ONE-DAY NOTICE FOR A JAPANESE BUSINESSMAN.

SHENYANG (JUNE 6) XINHUA - THE 90TH BIRTHDAY OF GENERAL CHANG HSUEH-LIANG WAS CELEBRATED THIS MORNING IN HIS NATIVE PROVINCE OF LIAONING.

MORE THAN 1,200 PEOPLE ATTENDED THE CELEBRATION GATHERING IN SHENYANG, THE CAPITAL OF THE NORTHEAST CHINA PROVINCE.

PRESENT AT THE MEETING WERE GUO FENG AND SONG LI, MEMBERS OF THE COMMUNIST PARTY OF CHINA (CPC) CENTRAL ADVISORY COMMISSION, LI TAO, MEMBER OF THE STANDING COMMITTEE OF THE NATIONAL COMMITTEE OF THE CHINESE PEOPLE'S POLITICAL CONSULTATIVE CONFERENCE, AND WAN SHAOFEN, DEPUTY HEAD OF THE UNITED FRONT WORK DEPARTMENT OF THE CPC CENTRAL COMMITTEE.

CHANG'S RELATIVES AND FRIENDS ON THE CHINESE MAINLAND AND FROM THE UNITED STATES, TAIWAN AND HONG KONG WERE ALSO AT THE MEETING.

SOME 54 YEARS AGO, CHANG, COMMANDER OF THE KUOMINTANG'S NORTHEAST ARMY, WAS A LEADER OF THE XI'AN INCIDENT, IN WHICH CHIANG KAI-SHEK WAS DETAINED AND THEN ALLOWED TO RETURN TO NANJING AFTER CHIANG AGREED TO CEASE THE FIGHT AGAINST THE COMMUNISTS AND FIGHT THE JAPANESE INVADERS INSTEAD. THAT MARKED THE START OF ALL-OUT RESISTANCE TO THE JAPANESE INVASION.

IN HIS OPENING SPEECH, GUO WEICHENG, HONORARY PRESIDENT OF THE CHANG HSUEH-LIANG AND THE NORTHEAST ARMY RESEARCH SOCIETY, PRAISED CHANG'S DEVOTION TO THE MOTHERLAND.

QUAN SHUREN, SECRETARY OF THE CPC'S LIAONING PROVINCIAL COMMITTEE, EXTENDED BIRTHDAY GREETINGS TO GENERAL CHANG IN TAIPEI, ON BEHALF OF THE

PROVINCIAL PARTY COMMITTEE AND GOVERNMENT, AND THE LOCAL PEOPLE.

QUAN EXPRESSED THE HOPE THAT CHANG WOULD BE ABLE TO REVISIT HIS HOME TOWN.

GENERAL CHANG'S FORMER ARMY COMRADES AND HIS RELATIVES ALSO SPOKE AT THE MEETING.

AT THE END OF THE MEETING A GREETINGS TELEGRAM WAS SENT TO GENERAL CHANG.

BEIJING (JUNE 6) XINHUA - THREE ZOOS IN CHINA WERE HONORED TODAY FOR THEIR CONTRIBUTIONS TO THE PROPAGATION OF THE RARE GIANT PANDA.

AMONG THOSE HONORED WAS THE FUZHOU ZOO, WHERE A GIANT PANDA GAVE BIRTH TO A CUB THROUGH ARTIFICIAL INSEMINATION LAST YEAR. THE ZOO ALSO MADE PROGRESS IN TAMING PANDAS AND IN PREVENTION OF DISEASES.

ALSO HONORED WERE THE XI'AN ZOO, WHERE THE ONLY BROWN-AND-WHITE GIANT PANDA IN THE WORLD GAVE BIRTH TO CUBS LAST YEAR, AND THE CHENGDU ZOO, WHERE TWO GIANT PANDAS WERE BORN.

THEY WERE CITED AT A MEETING OF CHINA'S ZOO ASSOCIATION, WHICH OPENED HERE TODAY.

ACCORDING TO A REPORT MADE AT THE MEETING, A TOTAL OF SIX GIANT PANDAS WERE BORN LAST YEAR IN CHINA'S ZOOS BUT ONLY THREE SURVIVED. THERE ARE ABOUT 1,000 GIANT PANDAS THROUGHOUT THE COUNTRY BOTH IN CAPTIVITY AND IN THE WILD.

A SPECIAL COMMITTEE WAS SET UP LAST YEAR TO STUDY THE PHYSIOLOGY, BEHAVIOR FERTILIZATION, PREGNANCY, FEEDING HABITS AND DISEASES OF GIANT PANDAS, WITH A VIEW TO PROMOTING ARTIFICIAL INSEMINATION.

THE MEETING ALSO HONORED THE BEIJING ZOO AND THE SHENYANG ZOO FOR THE BIRTHS AND SURVIVAL OF TWO WHITE CRANES AND SEVEN RED-CROWNED CRANES, RESPECTIVELY, IN CAPTIVITY.

#90157h0084 06/06/1990 ~Chinese News Agency

NEW DELHI (JUNE 6) XINHUA - BOMBS EXPLODED AT FIVE PLACES IN INDIA'S NORTHWESTERN STATE OF PUNJAB TODAY, KILLING TWO PERSONS AND INJURING MANY OTHERS.

ACCORDING TO REPORTS REACHING HERE, AT LEAST TWO PERSONS WERE KILLED AND SEVERAL OTHERS INJURED WHEN A POWERFUL BOMB EXPLODED THIS AFTERNOON AT

HOTEL SHIVALIK IN CHANDIGARH, JOINT CAPITAL OF THE NORTHWESTERN STATES OF PUNJAB AND HARYANA.

THE BOMB WAS PLANTED ON THE FOURTH FLOOR OF THE NEWLY CONSTRUCTED FOUR-STAR HOTEL. SOME OF THE INJURED WERE STATED TO BE IN CRITICAL CONDITION.

IN BATALA, 13 PERSONS, INCLUDING TWO SPECIAL POLICE OFFICERS, WERE INJURED IN A POWERFUL BOMB BLAST OUTSIDE THE CITY POLICE STATION TODAY.

POLICE TOLD REPORTERS THAT A BICYCLE FOUND ABANDONED NEAR THE SUBZI MANDI WAS BROUGHT TO THE POLICE STATION ON A RICKSHAW BY A SPECIAL POLICE OFFICER. AS THE RICKSHAW REACHED THE POLICE STATION, THE BOMB PLANTED IN A TIFFIN CARRIER ON THE BICYCLE WENT OFF, INJURING THE SPECIAL POLICE OFFICER AND SEVERAL OTHER PERSONS.

A BOMB EXPLODED ON THE RAILWAY LINE BETWEEN GHARIALA AND KHEM KARAN STATIONS IN AMRITSAR REGION, DAMAGING THE TRACK AND TWO COACHES.

ANOTHER BOMB EXPLODED OUTSIDE THE MEDICAL HEALTH CENTER OFFICE WINDOW AT PATIALA, CAUSING SOME DAMAGE TO THE BUILDING.

ONE MORE EXPLOSION IN THE CITY OUTSIDE THE DIVISION FOUR POLICE STATION DAMAGED A PORTION OF THE BUILDING.

MEANWHILE, A BOMB WAS DEFUSED WELL IN TIME WHEN ONE RAILWAY EMPLOYEE NOTICED IT LYING NEAR RAILWAY CROSSING NO. 17 OUTSIDE THE PATIALA RAILWAY STATION.

THESE BOMB EXPLOSIONS COINCIDED WITH THE SIXTH ANNIVERSARY OF THE OPERATION BLUE STAR, A CODE NAME OF A MILITARY OPERATION BY THE INDIAN GOVERNMENT TO ATTACK THE GOLDEN TEMPLE, A HOLIEST SIKH SHRINE IN AMRITSAR CITY.

LHASA (JUNE 6) XINHUA - THE PEOPLE'S CONGRESS OF THE TIBET AUTONOMOUS REGION HAS RECENTLY ISSUED REGULATIONS ON THE PROTECTION OF RELICS.

THE 48-ARTICLE REGULATIONS STIPULATE THAT RELICS ABOVE GROUND, UNDERGROUND AND IN THE WATERS OF THE REGION ALL BELONG TO THE STATE.

THEY ALSO PROVIDE THAT RELICS WHICH ARE USED FOR RELIGIOUS ACTIVITIES SHOULD BE TAKEN CARE OF UNDER THE JURISDICTION OF THEIR RESPECTIVE TEMPLES.

TEMPLES WITH A GREAT QUANTITY OF RELIGIOUS RELICS SHOULD SET UP RELICS PROTECTION COMMITTEES OR PUT SOMEONE IN CHARGE OF THE WORK.

NO UNITS OR INDIVIDUALS ARE ALLOWED TO ALLOCATE, GIVE AS PRESENTS OR TRADE RELIGIOUS RELICS WITHOUT THE APPROVAL OF THE RELEVANT CULTURAL AFFAIRS DEPARTMENTS, ACCORDING TO THE REGULATIONS.

#90157h0087 06/06/1990 ~Chinese News Agency

TOKYO (JUNE 6) XINHUA - JAPANESE EMPEROR AKIHITO AND PRIME MINISTER TOSHIKI KAIFU TODAY HAD SEPARATE MEETINGS WITH VISITING PRESIDENT OF CAMBODIA SAMDECH NORODOM SIHANOUK.

KAIFU TOLD SIHANOUK THAT JAPAN WOULD MAKE ITS UTMOST EFFORTS TO SOLVE THE CAMBODIAN ISSUE, BUT "THERE ARE LIMITATIONS TO WHAT IT CAN DO." HE EXPRESSED THE HOPE THAT SIHANOUK WOULD CONTINUE EXERCISING HIS LEADERSHIP ABILITIES SO THAT A COMPREHENSIVE POLILTICAL PEACE SETTLEMENT COULD EVENTUALLY BE ACHIEVED.

SIHANOUK REPLIED THAT THE KIND OF PEACE NEEDED WAS IS ONE IN WHICH JUSTICE PREVAILED AND CAMBODIA'S FULL INDEPENDENCE AND SOVEREINTY WERE RESTORED. TO THAT END, VIETNAM MUST WITHDRAW ITS PRESENCE FROM CAMBODIA, BOTH MILITARY AND CIVILIAN, AND RETRACT ITS MODIFICATION OF THE CAMBODIA-VIETNAM BORDER.

SIHANOUK EXPRESSED HIS APPRECIATION OF JAPAN'S EFFORTS IN FACILITATING THE CAMBODIA PEACE TALKS IN TOKYO.

#90157h0088 06/06/1990 ~Chinese News Agency

MANILA (JUNE 6) XINHUA - THE ASSOCIATION FOR PHILIPPINES-CHINA UNDERSTANDING (APCU) SPONSORED A PAINTINGS EXHIBITION AND A CONCERT HERE THIS EVENING TO MARK THE 15TH ANNIVERSARY OF THE ESTABLISHMENT OF DIPLOMATIC RELATIONS BETWEEN CHINA AND THE PHILIPPINES.

OVER 200 PEOPLE INCLUDING GOVERNMENT OFFICIALS, PROMINENT FIGURES IN VARIOUS CIRCLES HERE, MEMBERS OF DIPLOMATIC CORPS AS WELL APCU MEMBERS ATTENDED THE EXHIBITION AND THE CONCERT. ON DISPLAY WERE MORE THAN 30 OIL AND WATER COLOR PAINTINGS BY BOTH CHINESE AND FILIPINO ARTISTS. DANCERS OF THE FAMOUS HWA YI ETHNIC DANCE CENTER AND THE PHILIPPINE MADRIGAL SINGERS OF THE UNIVERSITY OF THE PHILIPPINES PRESENTED SONGS AND DANCES OF BOTH COUNTRIES AT THE CONDERT.

ADDRESSING THE OPENING CEREMONY FOR THE EXHIBITION AND CONCERT, PHILIPPINE FOREIGN AFFAIRS UNDERSECRETARY MANUEL YAN SAID THAT SINCE THE ESTABLISHMENT OF OFFICIAL CONTACT BETWEEN THE PHILIPPINES AND CHINA, "OUR RELATIONSHIP HAS GROWN AND NOW COVERS THE WHOLE RANGE OF BILATERAL COOPERATION."

HE ADDED THAT OFFICIAL CULTURAL EXCHANGES AND PROGRAMS "ARE MORE EXTENSIVE THAN ANY EITHER COUNTRY HAS WITH ANOTHER," AND EXPRESSED THE HOPE THAT THE FRIENDSHIP BETWEEN THEM WOULD GROW FROM STRENGTH TO STRENGTH.

IN HIS SPEECH, APCU PRESIDENT CEFEIRNO BENEDICTO HAILED THE EVER-GROWING FRIENDSHIP AND ECONOMIC AND CULTURAL EXCHANGES BETWEEN THE TWO COUNTRIES SINCE 1975 AND SAID THE BILATERAL RELATIONSHIP WOULD BECOME STILL CLOSER IN THE YEARS TO COME.

CHINESE AMBASSADOR TO MANILA WANG YINGFAN STRESSED ON THE OCCASION THAT CHINA ATTACHES IMPORTANCE TO OFFICIAL RELATIONSHIP WITH THE PHILIPPINE GOVERNMENT AS WELL AS PEOPLE-TO-PEOPLE EXCHANGES BETWEEN THE TWO COUNTRIES.

"I AM CONVINCED THAT IN THE COMING YEARS WITH OUR JOINT EFFORTS SINO-FILIPINO FRIENDSHIP WILL FURTHER DEVELOP," THE AMBASSADOR SAID.

HE ALSO PRAISED THE APCU FOR THE IMPORTANT CONTRIBUTIONS MADE TO THE PROMOTION OF SINO-FILIPINO FRIENDSHIP SINCE IT WAS FORMED IN 1971 BY NOTED FIGURES IN POLITICAL, ECONOMIC AND CULTURAL CIRCLES IN THE PHILIPPINES.

LONDON (JUNE 6) XINHUA - A MAN WAS KILLED AND HIS WIFE SERIOUSLY INJURED IN A CAR BOMB EXPLOSION IN NORTH BELFAST ON WEDNESDAY.

POLICE REPORTED THAT THE MAN, A RETIRED MEMBER OF THE SECURITY FORCES, WAS DRIVING TOWARDS THE CITY CENTER WITH HIS WIFE WHEN THEIR CAR EXPLODED NEAR A PRIMARY SCHOOL.

THE MAN DIED IN HOSPITAL WHERE HIS WIFE IS CRITICALLY ILL. TWO PEOPLE WALKING ON THE FOOTPATH ALSO CAUGHT THE FORCE OF THE EXPLOSION AND WERE TREATED IN HOSPITAL FOR MINOR INJURIES.

THIS IS THE SECOND KILLING OF CIVILIANS IN BELFAST SINCE MONDAY WHEN PROTESTANT GUNMAN KILLED A ROMAN CATHOLIC AND WOUNDED TWO OF HIS SONS AT THEIR HOME IN SOUTHWEST BELFAST.

THE PROTESTANT ULSTER VOLUNTEER FORCES, AN OUTLAWED ORGANIZATION FIGHTING TO END BRITISH RULE IN NORTHERN IRELAND, SAID IN A STATEMENT LATER THAT THE ATTACK HAD BEEN A MISTAKE. BUT NO ONE HAS CLAIMED RESPONSIBILITY FOR TODAY'S EXPLOSION.

NEW DELHI (JUNE 6) XINHUA - INDIAN POLITICAL PARTIES THAT SUPPORT THE

GOVERNMENT RULED OUT TODAY ANY POSSIBILITY OF ESTABLISHING A "NATIONAL GOVERNMENT" IN THE COUNTRY -- AN IDEA WHICH WAS FAVORED BY PRIME MINISTER V.P. SINGH, ACCORDING TO A REPORT BY THE PRESS TRUST OF INDIA.

ON BOARD THE SPECIAL AIRCRAFT ON RETURN FROM KUALA LUMPUR ON TUESDAY, V.P. SINGH TOLD REPORTERS THAT HE FAVORS THE IDEA OF A NATIONAL GOVERNMENT IF IT COULD MOVE THE COUNTRY FROM PERSONALIZED POLITICS TO ISSUE-BASED POLITICS.

REPLYING TO REPORTERS' QUESTIONS IN MANGALORE, SOUTH INDIA, BHARATIYA JANATA PARTY (INDIAN PEOPLE'S PARTY) PRESIDENT L.K. ADVANI SAID THE PROPOSAL FOR A NATIONAL GOVERNMENT AT THE PRESENT MOMENT "CANNOT BUT BE VIEWED AS A POLITICAL GAMBIT."

HE DECLINED TO COMMENT FURTHER ON THE REPORTED PROPOSAL, SAYING, "LET THE PROPOSAL COME BEFORE US FOR DISCUSSION."

ANSWERING A VOLLEY OF QUESTIONS FROM NEWSMEN AT A CROWDED PRESS CONFERENCE IN CALCUTTA, COMMUNIST PARTY OF INDIA (MARXIST) GENERAL SECRETARY E.M.S. NAMBOODIRIPAD ALSO RULED OUT ANY POSSIBILITY OF A NATIONAL GOVERNMENT IN THE COUNTRY.

HE SAID, "THIS IS HIS PERSONAL VIEW AND WE (CPI-M) DO NOT AGREE WITH IT. NOR ARE WE GOING TO JOIN ANY SUCH GOVERNMENT EVEN IF IT COMES INTO EXISTENCE."

NAMBOODIRIPAD SAID THAT THE CPI (M) COULD ONLY JOIN A GOVERNMENT WHICH IS OF A LEFTIST CHARACTER.

CAIRO (JUNE 6) XINHUA - A SENIOR EGYPTIAN OFFICIAL SAID TODAY EGYPT IS KEEN ON RESOLVING THE LEBANESE ISSUE AND ENDING THE CURRENT TURMOIL IN LEBANON.

IN A STATEMENT FOLLOWING A SESSION OF TALKS BETWEEN EGYPTIAN PRESIDENT HOSNI MUBARAK AND VISITING LEBANESE PRESIDENT ELIAS HRAWI, FIRST FOREIGN UNDERSECRETARY USAMA EL BAZ SAID EGYPT COULD PLAY A ROLE IN SOLVING THE LEBANESE ISSUE BY TAKING ADVANTAGE OF ITS "HISTORICAL AND DEEPLY-ROOTED RELATIONS WITH LEBANON."

BAZ SAID EGYPT ATTACHES GREAT IMPORTANCE TO HRAWI'S VISIT TO EGYPT, ADDING THAT COORDINATION AND UNDERSTANDING BETWEEN THE TWO COUNTRIES WILL HELP SOLVE THE LEBANESE ISSUE.

HRAWI ARRIVED HERE TUESDAY WITH HIS PRIME MINISTER SALIM HOSS AS PART OF A THREE-NATION TOUR TO SOLICIT POLITICAL, ECONOMIC AND MILITARY SUPPORT TO

END THE CIVIL WAR IN HIS COUNTRY. HE WILL ALSO VISIT LIBYA AND TUNISIA.

"EGYPT SUPPORTS LEGITIMACY IN LEBANON AND UPHOLDS THE UNITY OF LEBANON," BAZ SAID.

THE TAIF ACCORD BROKERED BY THE TRIPARTITE ARAB COMMITTEE LAST YEAR WAS THE "ONLY WAY TO START IMPLEMENTATION OF LEGITIMACY AND STATE POWER (IN LEBANON)," BAZ ADDED.

EGYPT AND U.S. WILL CONTINUE THEIR CONTACTS WITH ISRAELI OFFICIALS TO ENSURE A FULL IMPLEMENTATION OF U.N. SECURITY COUNCIL RESOLUTION 425 WHICH CALLED FOR AN ISRAELI TROOP WITHDRAWAL FROM SOUTHERN LEBANON, BAZ ADDED.

EGYPT REMAINS GOOD RELATIONS WITH BOTH THE UNITED STATES AND THE SOVIET UNION AND IS THE ONLY ARAB NATION WHICH HAS DIPLOMATIC TIES WITH ISRAEL.

UNITED NATIONS (JUNE 6) XINHUA - WITH A FINAL SETTLEMENT OF THE CYPRUS DISPUTE STILL FAR AHEAD, U.N. SECRETARY-GENERAL JAVIER PEREZ DE CUELLAR HAS RECOMMENDED TO EXTEND THE MANDATE OF THE U.N. FORCE TO MAINTAIN PEACE AND STABILITY IN THE ISLAND COUNTRY FOR ANOTHER SIX MONTHS.

IN A REPORT TO THE U.N. SECURITY COUNCIL, WHICH WAS MADE AVAILABLE TODAY, THE SECRETARY-GENERAL SAID THAT THE U.N. FORCE, OFFICIALLY KNOWN AS THE U.N. PEACE KEEPING FORCE IN CYPRUS (UNFICYP), "CONTINUED TO PERFORM ITS IMPORTANT FUNCTIONS OF SUPERVISING THE CEASE-FIRE, MAINTAINING CALM AND PROMOTING PEACEFUL CIVILIAN ACTIVITY" IN THE COUNTRY.

THEREFORE, HE SAID, HE BELIEVES THAT THE CONTINUED PRESENCE OF THE FORCE IN THE COUNTRY "REMAINS INDISPENSABLE" AND ITS MANDATE SHOULD BE EXTENDED FOR A FURTHER SIX-MONTH PERIOD UNTIL DECEMBER 15 THIS YEAR.

CYPRUS, WHOSE POPULATION IS MADE UP OF GREEK-CYPRIOTS (82 PERCENT) AND TURKISH-CYPRIOTS (12 PERCENT), WAS DIVIDED INTO TWO ETHNICAL COMMUNITIES FOLLOWING A TURKISH ARMED INVASION IN 1974 AND THE SUBSEQUENT CREATION OF A TURKISH FEDERATED STATE OF CYPRUS.

THE TWO COMMUNITES ARE SEPARATED NOW BY A BARBED WIRE FRONTIER, MINEFIELDS AND THE 2,000-PERSONNEL UNFICYP.

HOWEVER, THE SECRETARY-GENERAL'S SUGGESTION CAME AT A TIME WHEN THE U.N. FORCE IS FACING A CRITICAL FINANCIAL CRISIS AND ITS CONTRIBUTORS HAVE COMPLAINED ABOUT AN ACCUMULATED SHORTFALL OF 174.8 MILLION DOLLARS FOR ITS MANDATE PERIODS ENDING ON DECEMBER 15, 1989.

IN A LETTER TO THE SECRETARY-GENERAL ON MAY 14, THE CONTRIBUTING COUNTRIES

-- AUSTRALIA, CANADA, FINLAND, SWEDEN, AUSTRIA, DENMARK, IRLAND AND BRITAIN, SAID THEY "CONTINUE TO BE GRAVELY CONCERNED AT THE GROWING DEFICIT" WHICH HAS PLACED "AN EXCESSIVE AND WHOLLY UNFAIR FINANCIAL BURDEN" ON THEM.

THE SECRETARY-GENERAL, IN HIS REPORT, SHOWED HIS CONCERN ON WHAT HE CALLS "A CHRONIC AND EVEN-DEEPENING FINANCIAL CRISIS" FACING THE U.N. FORCE. "I SHARE THEIR GOVERNMENTS' CONCERN AT THIS SITUATION," HE SAID.

HE CALLED ON THE U.N. SECURITY COUNCIL TO MAKE "AN IMPORTANT STEP TOWARDS ALLEVIATING IT" BY AGREEING TO FINANCE PART OF THE COST OF THE U.N. FORCE FROM THE U.N. ASSESSED CONTRIBUTIONS.

BUT, U.N. OFFICIALS HAVE SAID SINCE UNFICYP WAS FIRST ESTABLISHED ON THE BASIS OF VOLUNTARY CONTRIBUTIONS, THERE IS LITTLE CHANCE THAT THE SECURITY COUNCIL WILL CHANGE THE U.N. FORCE'S FINANCIAL STRUCTURES.

MANILA (JUNE 6) XINHUA - PRESIDENT AQUINO COULD HAVE VIOLATED THE CONSTITUTION WHEN SHE NAMED JUSTICE SECRETARY FRANKLIN DRILON AS BOARD CHAIRMAN OF THE STATE-OWNED PHILIPPINE NATIONAL BANK, SEVERAL SENATORS SAID TODAY.

THE SENATE, ON MOTION OF SENATOR AQUILINO PIMENTEL AND WITH NO ONE OBJECTING, AGREED TO SEND A FORMAL RESOLUTION CALLING THE PRESIDENT'S ATTENTION TO THE CONSTITUTION INFRACTION IN APPOINTING DRILON YESTERDAY TO REPLACE FORMER EXECUTIVE SECRETARY JOKER ARROYO.

SENATORS CITED CONCERNED ARTICLE OF THE CONSTITUTION WHICH PROVIDES THAT MEMBERS OF THE CABINET SHALL NOT HOLD ANY OTHER OFFICE OR EMPLOYMENT DURING THEIR TENURE.

THE CONSTITUTION ALSO PROHIBITS MEMBERS OF THE CABINET FROM DIRECTLY OR INDIRECTLY PRACTISING ANY OTHER PROFESSION OR PARTICIPATING IN ANY BUSINESS INCLUDING GOVERNMENT-OWNED OR CONTROLLED CORPORATIONS. AND THE SENATORS CLASSIFIED THE PHILIPPINE NATIONAL BANK (PNB) AS A GOVERNMENT-CONTROLLED CORPORATION.

SENATE PRESIDENT JOVITO SALONGA RAISED THE ISSUE DURING THE SENATE PLENARY SESSION.

BUT, WHEN ASKED BY A SENATOR IF THE VIOLATION CONSTITUTED A GROUND FOR IMPEACHMENT, SENATE PRESIDENT JOVITO SALONGA REPLIED, "NO, I DON'T THINK SO."

SENATOR VICTOR ZIGA AND OTHERS SAID DRILON COULD NOT OCCUPY THE BOARD

CHAIRMANSHIP POSITION BECAUSE IT IS TANTAMOUNT TO OCCUPYING TWO GOVERNMENT POSTS, WHICH THE CONSTITUTION PROHIBITS.

ATHENS (JUNE 6) XINHUA - A SPECIAL COURT TODAY UNANIMOUSLY REJECTED DEFENCE APPEALS FOR THE WRITING OFF OF OFFENCES CONNECTING WITH THE CORN SCANDAL WHICH INVOLVED SOME FORMER PASOK GOVERNMENT SENIOR OFFICIALS.

THE TRIAL CONCERNS THE ALLEGED 1986 10 MILLION DOLLAR ILLEGAL SALE OF YUGOSLAV CORN PASSED OFF AS GREEK TO THE EUROPEAN COMMUNITY FOR WHICH GREECE WAS FINED 2.5 MILLION DOLLARS BY THE COMMUNITY IN 1987.

THE SPECIAL COURT, HEADED BY SUPPEME COURT PRESIDENT AND FORMER CARETAKER PREMIER YANNIS GRIVAS, ISSUED ITS DECISION ON THE TENTH DAY OF THE TRIAL, THE FIRST OF A SERIES INNVOLVING FORMER PREMIER ANDREAS PAPANDREOU AND SOME MINISTERS OF HIS SOCIALIST GOVERNMENT.

THE DEFENDANTS ARE NIKOS ATHANASSOPOULOS, A FORMER ALTERNATE FINANCE MINISTER, THE PRESIDENT AND A LEADING OFFICIAL OF A STATE TRADING COMPANY AND FOUR SENIOR FINANCE MINISTRY AND CUSTOMS OFFICIALS.

CHARGES INCLUDE FRAUD, FORGING STATE DOCUMENTS, MAKING FALSE STATEMENT, MORAL INSTIGATION AND COMPLICITY.

JUDICIAL SOURCES SAID THE DECISION WOULD SERVE AS A PRECEDENT FOR THE OTHER TRIALS DUE TO BE HELD IN CONNECTION WITH A 200-MILLION DOLLAR EMBEZZLEMENT SCANDAL AT THE PRIVATELY-OWNED BANK OF CRETE AND TELEPHONE TAPPING DURING PAPANDREOU'S EIGHT-YEAR RULE.

AFTER ANNOUNCING THE COURT'S DECISION, GRIVAS CALLED THE FIRST WITNESS FOR THE PROSECUTION AND THE TRIAL PROPER GOT UNDER WAY.

ATHANASSOPOULOS, WHO WAS GIVEN THE FLOOR, SAID: "I NEVER COMMITTED PUNISHABLE ACTS. MY PROSECUTION ... WAS BY A POLITICAL BODY AND FOR POLITICAL EXPEDIENCIES, TO USE ME TO HURT THE THEN PASOK GOVERNMENT AND, BY EXTENSION, THE POLITICAL PARTY TO WHICH I BELONG."

THE SPECIAL COURT ADJOURNED UNTIL TOMORROW MORNING.

MANILA (JUNE 6) XINHUA - PHILIPPINE SENATE MINORITY FLOORLEADER JUAN PONCE ENRILE TODAY SAID HE WOULD CONVINCE CASHIERED COLONEL GREGORIO HONASAN AND OTHER COUP LEADERS, WHO WENT UNDERGROUND, TO SURRENDER AND FACE THEIR COURT CHARGES.

ENRILE MADE THE STATEMENT AFTER THE SUPREME COURT HAD UPHELD AN EARLIER RULING THAT THE CRIME OF REBELLION COMPLEXED WITH MURDER IS NON-EXISTENT.

"I WILL ENCOURAGE AND CALL UPON THEM TO SURFACE AND LITIGATE THEIR CASES BEFORE THE COURTS, POST THEIR BAIL AND GO TO TRIAL SO WE CAN SETTLE ALL THESE PROBLEMS IMMEDIATELY," ENRILE TOLD REPORTERS.

ENRILE WAS REFERRING TO HONASAN, KEY LEADER IN THE DECEMBER 1989 COUP, AND THE OTHER MEMBERS AND LEADERS OF THE REVOLUTIONARY ALLIANCE FOR THE MASSES-SOLDIERS OF THE FILIPINO PEOPLE (RAM-SFP), NEWSMAN CECILIO ARILLO AND FORMER MEMBER OF PARLIAMENT HOMOBONO ADAZA, WHO ALL WENT UNDERGROUND.

IN A PRIVILEGE SPEECH THAT FOLLOWED HIS PRESS CONFERENCE, ENRILE PRAISED THE SUPREME COURT FOR THE PRECEDENT-SETTING DECISION THAT THE CRIME OF REBELLION COMPLEXED WITH MURDER IS NON-EXISTENT.

"THE DECISION OF THE SUPREME COURT ON MY CASE IS A TRIUMPH OF JUSTICE AND A TRIUMPH OF THE FILIPINO PEOPLE," ENRILE SAID.

THE SUPREME COURT'S DECISION SAID THAT HE COULD POST BAIL FOR HIS TEMPORARY LIBERTY. EARLIER, HE WAS IMPRISONED AFTER A COURT RULED THAT HIS CASE IS NON-BAILABLE.

BUT ENRILE SAID THAT ALTHOUGH THE HIGH COURT RULED THAT THE CRIME OF REBELLION COMPLEXED WITH MURDER IS NON-EXISTENT, THE STATE PROSECUTORS COULD CHARGE HIM ANEW WITH AMENDED CHARGES.

ARILLO AND ADAZA WENT UNDERGROUND AFTER STATE PROSECUTORS FILED SIMILAR CHARGES AS ENRILE'S. EARLIER JUSTICE SECRETARY FRANKLIN DRILON RULED THAT ARILLO AND ADAZA WERE NOT ENTITLED TO BAIL, PROMPTING THEM TO GO UNDERGROUND.

ADAZA IS BELIEVED TO BE IN HONG KONG, WHILE ARILLO SAID IN A STATEMENT THAT HE HAS JOINED REBEL SOLDIERS AND THE RAM.

ENRILE ALSO TOLD REPORTERS THAT HE NEVER DOUBTED POLITICS AS THE MAIN REASON FOR THE FILING OF CHARGES AGAINST HIM.

GABORONE (JUNE 6) XINHUA - GENERAL SECRETARY FRANK CHIKANE OF THE SOUTH AFRICAN COUNCIL OF CHURCHES (SACC) TODAY LEFT FOR KENYA, WHERE HE WILL MEET MEMBERS OF THE AFRICAN NATIONAL CONGRESS (ANC) AND THE PAN AFRICANIST CONGRESS (PAC).

ACCORDING TO REPORTS FROM JOHANNESBURG TODAY, DR. CHIKANE'S OFFICE SAID IN

A STATEMENT THAT THE SACC GENERAL SECRETARY IS MAKING THE ONE-DAY MISSION AT THE REQUEST OF THE ALL AFRICA CONFERENCE OF CHURCHES AND IN RESPONSE TO RECENT ALLEGATIONS OF THE MALTREATMENT OF ANC DETAINEES BY THE ANTI-APARTHEID MOVEMENT. CHIKANE HAS ALREADY HELD EXTENSIVE DISCUSSIONS WITH THE ANC ON THE MATTER. THE ANC HAS AGREED HE VISITS THE PEOPLE IN ORDER TO FIND A SOLUTION.

MANAGUA (JUNE 6) XINHUA - COMMANDER JAVIER LOPEZ, SECOND IN COMMAND OF NICARAGUA'S NATIONAL POLICE FORCE, SAID TUESDAY THAT SEVERAL DRUG TRAFFICKERS HAVE ENTERED THE COUNTRY TO EXPLORE THE POSSIBILITY OF NEW DRUG RUNNING ROUTES TO THE UNITED STATES.

DURING A PRESS CONFERENCE, LOPEZ PRESENTED SEVERAL COLOMBIAN DRUG TRAFFICKERS WHO WERE ARRESTED ON SUNDAY WHEN THEIR LIGHT AIRCRAFT WAS FORCED TO LAND FOR REFUELING IN APOSENTILLO, CHINANTEGA PROVINCE, AND WAS FOUND TO BE CARRYING 323 KILOS OF COCAINE.

ACCORDING TO LOPEZ, A FEW COLOMBIAN DRUG DEALERS HAVE DESCRIBED NICARAGUA AS "A DRUG TRAFFICKING PARADISE" SINCE POLICE THERE HAVE LITTLE OR NO EXPERIENCE IN FIGHTING THE PLAGUE.

LOPEZ ADMITTED THAT NICARAGUAN AUTHORITIES SIMPLY STUMBLED ONTO THE COLOMBIAN DRUG TRAFFICKERS SUNDAY AS THEY HAD LANDED THERE MISTAKENLY THINKING THEY WERE ON GUATEMALAN SOIL.

ACCORDING TO LOPEZ, NICARAGUA'S NATIONAL POLICE FORCE IS CURRENTLY SEEKING THE AID OF INTERPOL TO GATHER MORE NECESSARY INFORMATION.

YANGON (JUNE 6) XINHUA - MYANMAR'S OFFICIAL PAPER PRAISED THE SINO-MYANMAR FRIENDLY COOPERATION IN BUILDING THE SATELLITE COMMUNICATIONS PROJECT IN THIS COUNTRY IN A RECENT EDITORIAL.

THE WORKING PEOPLE'S DAILY SAID THAT ALL THE MYANMAR PEOPLE ENTHUSIASTICALLY WELCOME THE ESTABLISHMENT OF THE SATELLITE COMMUNICATIONS STATIONS. THE TELECASTING OF MYANMAR TV PROGRAMS, ACHIEVED WITH THE SINO-MYANMAR FRIENDLY COOPERATION, WILL GREATLY BENEFIT THE ALL-ROUND DEVELOPMENT OF THE COUNTRY, THE EDITORIAL STRESSED.

THE YANGON CENTRAL SATELLITE TV EARTH STATION AND OTHER FIVE EARTH STATIONS IN THE NATION HAVE ALL GONE INTO OPERATION SO FAR.

THE EDITORIAL SAID MYANMAR TV PROGRAM BEGAN IN 1980, BUT BORDER AREAS AND

SOME PARTS OF THE COUNTRY CAN NOT RECEIVE TV PROGRAM FROM YANGON. NOW, THROUGH THE EFFORTS OF CHINESE AND MYANMAR ENGINEERS, ALL AREAS COVERED BY THE EARTH STATIONS CAN RECEIVE TV PROGRAMS FROM THE CAPITAL.

CHINA HAS CONTRACTED TO SET UP A NATIONAL SATELLITE TV RETRANSMITTING SYSTEM FOR MYANMAR. THE PROJECT WILL COST A TOTAL OF OVER 8.8 MILLION U.S. DOLLARS, ACCORDING TO THE DAILY.

WINDHEOK (JUNE 6) XINHUA - THE KENYAN MILITARY CONTINGENT WILL WITHDRAW FROM NAMIBIA AND RETURN HOME AT THE END OF THIS MONTH, A LOCAL RADIO REPORT SAID TODAY.

THE KENYAN CONTINGENT WAS PART OF THE UNITED NATIONS TRANSITIONAL ASSISTANCE GROUP (UNTAGE) WHICH HAD SUPERVISED THE INDEPENDENCE PROCESS OF NAMIBIA IN ACCORDANCE WITH THE U.N. PEACE PLAN. IT IS COMPOSED OF A 850-MEN BATTALION, DOZENS OF MILITARY OBSERVERS AND SOME OTHER MILITARY PERSONNEL.

NAMIBIA ACHIEVED ITS INDEPENDENCE ON MARCH 21 THIS YEAR AND THE UNTAG HAD WITHDRAWN. UPON THE REQUEST OF THE NAMIBIAN GOVERNMENT, THE KENYAN CONTINGENT HAS STAYED HERE TO HELP TRAIN THE NEW NAMIBIAN DEFENCE FORCE AND MAINTAIN THE SECURITY IN THE NORTHERN PART OF THE COUNTRY.

#90157h0110 06/06/1990 ~Chinese News Agency

BRAZILIA (JUNE 6) XINHUA - FOR THE FIRST TIME IN 10 YEARS, THE FEDERAL GOVERNMENT OF BRAZIL IN MAY MANAGED TO REDUCE A SIZEABLE PART OF ITS NATIONAL DEBT WHICH TODAY STANDS AT 7.2 TRILLION CRUZEIROS (WITH 88 CRUZEIROS TO THE DOLLAR AT THE PARALLEL EXCHANGE RATE).

ACCORDING TO GERALDO GARDENALLI, BRAZIL'S FINANCE SECRETARY, IN MAY THE GOVERNMENT PURCHASED 60.3 BILLION CRUZEIROS WORTH OF THE NATIONAL DEBT, TAKING A CONSIDERABLE BITE OUT OF THE TOTAL PUBLIC DEBT AND SIMULTANEOUSLY SHRINKING FUTURE INTEREST PAYMENTS. IN THE PAST FEW YEARS BRAZIL HAS ATTEMPTED TO REDUCE ITS NATIONAL DEBT IN THE SAME WAY, BUT THE AMOUNTS PURCHASED WERE ALWAYS TOO INSIGNIFICANT TO MAKE ANY KIND OF DENT IN THE TOTAL FIGURE.

THE GOVERNMENT IS EXPECTED TO PURCHASE ANOTHER SUBSTANTIAL PART OF THE PUBLIC DEBT AGAIN THIS MONTH: AT LEAST 350 BILLION CRUZEIROS WORTH. THE GOVERNMENT HAS NOT DECIDED, HOWEVER, WHETHER IT WILL CONTINUE TO DO SO AFTER JULY. THE CONTINUATION OF THE STRATEGY WILL DEPEND ON THE BUDGET REVISION CURRENTLY AWAITING APPROVAL FROM CONGRESS.

GARDENALLI SAID THAT THE PURCHASES MADE IN MAY AND JUNE WERE MADE POSSIBLE THANKS TO SURPLUSES REGISTERED IN THE NATIONAL TREASURY. MAY'S SURPLUS WEIGHED IN AT 178.3 BILLION CRUZEIROS, THUS ELEVATING THE TREASURY'S AVAILABLE FUNDS TO 687 BILLION CRUZEIROS, OR THREE TIMES THE FEDERAL GOVERNMENT'S MONTHLY PUBLIC EXPENSES.

LIMA (JUNE 6) XINHUA - AUTHORITIES FROM THE TOURISM SECTORS OF ANDEAN PACT COUNTRIES PLAN TO MEET IN CARACAS, VENEZUELA, THIS WEEK TO OUTLINE A JOINT ANDEAN PACT TOURISM POLICY.

ACCORDING TO A PRESS RELEASE ISSUED TUESDAY BY THE CARTAGENA ACCORD COUNCIL (JAC), THE PACT'S DECISION-MAKING BODY, TOURISM AUTHORITIES WILL STUDY PRELIMINARY DOCUMENTS FORMULATED BY THE JAC ON "INTEGRATION OF TOURISM IN THE ANDEAN AREA" AND "ROADWAY INTERNATIONAL TOURISM TRANSPORTATION."

BOTH PROJECTS INCLUDE A SERIES OF MEASURES DESIGNED TO MAKE TOURIST CENTERS ACCESSIBLE TO THE PEOPLES OF THE REGION AND THUS CONVERT TOURISM INTO ONE OF THE MAIN AREAS OF ECONOMIC AND SOCIAL INTEGRATION.

ONCE THE PROPOSALS HAVE THE BACKING OF ALL THE COUNTRIES, BOTH PROJECTS WILL COME BEFORE THE COUNCIL FOR THE FINAL STAMP OF APPROVAL, THE RELEASE SAYS.

AFTER THE MEETING IN CARACAS, THE TOURISM DIRECTORS WILL PARTICIPATE IN AN INTERNATIONAL TOURISM FAIR ORGANIZED BY VENEZUELA'S PRIVATE SECTOR. REPRESENTATIVES FROM THE FIELD OF TOURISM FROM THE ENTIRE REGION HAVE BEEN INVITED TO ATTEND THE FAIR TO OFFER THEIR SERVICES TO TRAVEL AGENTS FROM OTHER NATIONS.

#90157h0115 06/06/1990 ~Chinese News Agency

CAIRO (JUNE 6) XINHUA - ISRAELI FOREIGN MINISTER MOSHE ARENS TODAY RENEWED ISRAEL'S DEMAND THAT THE UNITED STATES END THE DIALOGUE IT INITIATED MORE THAN 17 MONTHS AGO WITH THE PALESTINE LIBERATION ORGANIZATION (PLO), REPORTS FROM JERUSALEM SAID.

THE REPORTS QUOTED ARENS AS SAYING IN A SPEECH TO PARLIAMENT THAT U.S. CREDIBILITY WAS BEING "PUT TO THE TEST" AFTER ISRAEL "OFFERED PROOF THAT THE PLO VIOLATED ITS PLEDGE TO RENOUNCE TERRORISM."

"THE CREDIBILITY OF THE AMERICAN CLAIM THAT THERE WILL BE NO DIALOGUE WITH THE PLO IF IT CONTINUES TO DEAL IN TERRORISM IS BEING PUT TO THE TEST " HE SAID.

ARENS SAID ISRAEL HAD OFFERED "PROOF OF PLO INVOLVEMENT" IN LAST WEEK'S ABORTED SEABORNE ATTACK ON ISRAELI BEACHES BY PALESTINIAN GUERRILLAS.

THE PALESTINE LIBERATION FRONT LATER CLAIMED RESPONSIBILITY FOR THE RAID, SAYING THAT IT WAS ONLY TARGETING AT ISRAELI MILITARY INSTALLATIONS.

THE PLO HAS DENIED ANY CONNECTION WITH THE ATTACK. ISRAEL HAS BEEN DEMANDING AN END TO THE U.S.-PLO DIALOGUE WHICH WAS OPENED IN DECEMBER 1988 AFTER PLO CHAIRMAN YASSER ARAFAT PUBLICLY DENOUNCED TERRORISM AND RECOGNIZED ISRAEL'S RIGHT TO EXIST.

REPLYING TO RECENT SOVIET THREATS TO HALT JEWISH EMIGRATION UNLESS ISRAEL BLOCKS SOVIET JEWISH SETTLEMENT IN THE OCCUPIED TERRITORIES, ARENS SAID THE NUMBER OF SOVIET IMMIGRANTS MOVING THERE "IS MINISCULE."

ISRAELI OFFICIALS ESTIMATE THAT SOME 500,000 SOVIET JEWS ARE EXPECTED TO ARRIVE IN ISRAEL AND THE OCCUPIED LANDS IN THE NEXT FIVE YEARS.

BRAZILIA (JUNE 6) XINHUA - REPRESENTATIVES OF BRAZIL'S FOREIGN TRADE ASSOCIATION, WHICH COMPRISES 950 BUSINESSES IN THE EXPORT SECTOR, TUESDAY ASKED U.S. FOREIGN TRADE SECRETARY CARLA HILLS TO EASE CUSTOMS AND TARIFF RESTRICTIONS ON BRAZILIAN EXPORTS TO THE UNITED STATES.

HILLS, WHO ARRIVED HERE TUESDAY TO SPEAK WITH BRAZILIAN OFFICIALS REGARDING TRADE PROBLEMS BETWEEN THE TWO COUNTRIES, MET WITH THE BUSINESS REPRESENTATIVES AT THE U.S. EMBASSY HERE.

THE BRAZILIAN BUSINESSMEN PRESENTED HILLS WITH A LIST OF GRIEVANCES, INCLUDING WHAT THEY CONSIDER TO BE UNFAIRLY HIGH SURCHARGES ON IMPORTED ORANGE JUICE, WHICH REPRESENTS 40 PERCENT OF BRAZILIAN EXPORTS TO THE UNITED STATES.

MARCOS PRATINI DE MORAIS, PRESIDENT OF THE FOREIGN TRADE ASSOCIATION, INDICATED HE WAS SATISFIED WITH THE OUTCOME OF THE TALKS, SAYING HILLS SEEMED SENSITIVE TO THEIR DEMANDS AND HAS PROMISED TO STUDY THE LIST OF GRIEVANCES.

MANILA (JUNE 6) XINHUA - THE PHILIPPINE NAVY TODAY FORMED A FLOTILLA OF FOUR WARSHIPS READY TO RESPOND AT A MOMENT'S NOTICE IN TIMES OF NATIONAL CRISIS ANYWHERE IN THE COUNTRY.

THE BATTLE GROUP, HEADED BY THE PF-7, THE NAVY'S MOST POWERFUL WARSHIP, WAS FORMED AT THE REACTIVATION OF ITS READY FORCE HERE WHICH WAS PRESIDED OVER BY NAVY CHIEF REAR ADMIRAL MARIANO DUMANCAS, THE PHILIPPINE NEWS AGENCY REPORTED.

ASIDE FROM THE PF-7, THE TASK GROUP IS COMPOSED OF PF-11, A HEAVY ENDURANCE CUTTER, PS-70 AND PS-74, BOTH FRIGATE-TYPE SHIPS.

THE FLOTILLA OF WARSHIPS WILL GO AROUND THE COUNTRY ALL YEAR ROUND TO SHOW ITS NAVAL PRESENCE AND TO REACT QUICKLY IN NATIONAL EMERGENCY, PARTICULARLY DURING A COUP D'ETAT, THE PNA REPORT SAID.

THE TASK GROUP'S FIREPOWER INCLUDES SEVERAL 5-INCH-38, 3-INCH-50 GUNS, 40 AND 20MM ANTI-AIRCRAFT WEAPONS AND .50-30 CALIBER MACHINEGUNS.

THE FORMATION OF THE TASK GROUP IS THE MOST FORMIDABLE FLOTILLA THE NAVY HAS ASSEMBLED TO SHOW ITS FLAG WHEREVER IT GOES, NAVY CAPTAIN PABLO PEREZ, NOW READY FORCE COMMANDER, SAID.

THE TASK GROUP WILL ALSO DETER ANY FUTURE ADVENTURISM BY MILITARY REBELS TO MOUNT A COUP.

ANOTHER MISSION OF THE NAVY'S READY FORCE IS TO TRAIN NAVAL OFFICERS AND SEAMEN IN SEA WARFARE, PEREZ SAID.

#90157h0118 06/06/1990 ~Chinese News Agency

KATHMANDU (JUNE 6) XINHUA - THE NEPALESE GOVERNMENT HAS DECIDED TO CANCEL AMEND OR POSTPONE ON-GOING PROJECTS FOUND UNPRODUCTIVE OR ECONOMICALLY AND TECHNICALLY UNPROFITABLE IN AN EFFORT TO CONTROL EXPENDITURES.

FORMULATION OF THE PROGRAMS HAS BEEN INITIATED BY THE NATIONAL PLANNING COMMISSION, FINANCE MINISTRY AND THE MINISTRIES CONCERNED, THE NATIONAL NEWS AGENCY RSS SAID TODAY.

IN INVESTMENT, THE INTERIM GOVERNMENT WILL GIVE ATTENTION TO EVALUATING IMPORTANT SECTORS LIKE AGRICULTURE AND MANY OTHER DEVELOPMENT WORKS.

REPAIR AND MAINTENANCE OF THE ROAD, IRRIGATION, ELECTRICITY AND DRINKING WATER SECTORS WILL BE GIVEN PRIORITY.

AS FOR INDUSTRY, A CLEAR-CUT POLICY WILL BE ADOPTED TO ENCOURAGE NEPALESE INDUSTRIALISTS AND BUSINESSMEN TO INVEST IN INDUSTRIES BASED ON LOCAL RESOURCES AND MATERIALS AND IN INDUSTRIES WHICH THEY CAN RUN ON THEIR OWN INITIATIVE.

THE MAIN OBJECTIVE OF THE INDUSTRIAL SECTOR WILL BE TO ATTRACT PRIVATE

SECTOR INDUSTRIALISTS IN ORDER TO GENERATE EMPLOYMENT OPPORTUNITIES.

STEPS WILL ALSO BE TAKEN TO REOPEN THE SICK INDUSTRIES AND TO CREATE AN ATMOSPHERE TO ATTRACT DIRECT FOREIGN INVESTMENT IN JOINT VENTURES.

WHEN TAKING FOREIGN LOANS AND GRANTS, NATIONAL NEEDS AND POSITIVE SOCIAL AND ECONOMIC IMPACT WILL BE EVALUATED.

FOREIGN EXCHANGES WILL BE MADE AVAILABLE TO IMPORT MACHINERY AND RAW MATERIALS IN ACCORDANCE WITH THE NEED OF THE COUNTRY.

THE GOVERNMENT HAS ALREADY POSTPONED WORK ON THE EIGHTH FIVE-YEAR PLAN (1991-1995) UNTIL THE FORMATION OF AN ELECTED GOVERNMENT.

#90157h0119 06/06/1990 ~Chinese News Agency

SANTIAGO (JUNE 6) XINHUA - CHILE'S FOREIGN RELATIONS MINISTER, ENRIQUE SILVA CIMMA, CALLED ON MEMBER NATIONS OF THE ORGANIZATION OF AMERICAN STATES (OAS) TUESDAY TO ADOPT JOINT MEASURES TO COMBAT TERRORISM AND DRUG TRAFFICKING IN THE REGION.

SPEAKING DURING THE OAS' 20TH GENERAL ASSEMBLY NOW BEING HELD IN ASUNCION, PARAGUAY, SILVA SAID "TERRORISM, DESPITE ITS BLIND AND BLOODY ACTIONS, CAN AND MUST BE DEFEATED WITH THE TOOLS AND RULES OF DEMOCRACY."

SILVA ADDED THAT DRUG TRAFFICKING "IS, WITHOUT DOUBT, THE MOST DANGEROUS AND INSIDIOUS OF THE CURRENT ENEMIES OF SOCIETY."

ACCORDING TO SILVA, THE CONSEQUENCES OF THE VIOLENCE AND CORRUPTION THAT ARE ASSOCIATED WITH THE PRODUCTION AND DISTRIBUTION OF ILLICIT DRUGS, AND THE DANGERS TO THE MENTAL AND PHYSICAL HEALTH OF USERS, "HAS DRAMATIC REPERCUSSIONS ON THE STABILITY OF NATIONAL INSTITUTIONS."

SILVA STRESSED THAT WITHIN THE UNITED FRONT NEEDED TO COMBAT DRUG TRAFFICKING AND ITS RAMIFICATIONS, THERE MUST ALSO EXIST MUTUAL RESPECT AMONG NATIONS SO THAT ALL BEAR THE SAME RESPONSIBILITY AND MAKE THE SAME SACRIFICES IN THIS FIGHT.

"AT NO TIME DOES THIS SIGNIFY A LESSENING OF THE SOVEREIGNTY OR THE RIGHT THAT ALL STATES HAVE TO PROTECT AND DEVELOP THEIR EXISTENCE," SAID SILVA, ADDING "CHILE DECISIVELY COMMITS (ITSELF) TO THE FIGHT AGAINST THIS SCOURGE."

#90157h0120 06/06/1990 ~Chinese News Agency

UNITED NATIONS (JUNE 6) XINHUA - U.N. SECRETARY-GENERAL JAVIER PEREZ DE

CUELLAR TODAY URGED ALL LIBERIANS TO STOP FIGHTING AND RESTORE PEACE IN THE COUNTRY IMMEDIATELY.

"THE SECRETARY-GENERAL STRONGLY URGES THAT PEACEFUL CONDITIONS BE RESTORED WITHOUT DELAY," U.N. SPOKESWOMAN NADIA YOUNES SAID, QUOTING A STATEMENT OF THE U.N. CHIEF, AT THE U.N. REGULAR NOON BRIEFING.

PEREZ DE CUELLAR ALSO STRONGLY URGES THAT "THE ATROCITIES BEING INFLICTED ON INNOCENT CIVILIANS BE BROUGHT TO AN IMMEDIATE END," YOUNES SAID.

THE SECRETARY-GENERAL'S STATEMENT WAS MADE AT A TIME WHEN SEVERE FIGHTING HAS BEEN GOING ON IN THE WEST AFRICAN COUNTRY OVER THE PAST WEEKS BETWEEN THE LIBERIAN GOVERNMENT ARMY AND THE REBELS LED BY A FORMER SENIOR CIVIL SERVANT CHARLES TAYLOR.

ACCORDING TO REPORTS REACHING HERE, THE SPORADIC RAIDS ON GOVERNMENT OUTPOSTS BY THE GUERRILLAS FIRST BEGAN LAST DECEMBER AND IN RECENT WEEKS, THE REBELLION GATHERED MOMENTUM AND THE INSURGENTS HAVE TAKEN SOME AREAS OF THE COUNTRY.

THE U.N. CHIEF TODAY SAID HE "IS GREATLY CONCERNED OVER REPORTS OF INCREASING LOSS OF LIFE AND SUFFERING RESULTING FROM THE CONTINUING CONFLICT" IN THE COUNTRY.

EARLY LAST WEEK, THE U.N. COMPOUND IN MONROVIA, THE LIBERIAN CAPITAL, WAS ATTACKED BY A GROUP OF GOVERNMENT SOLDIERS AND A U.N. GUARD WAS KILLED DURING THE RAID.

WHILE ISSUING A STRONG PROTEST WITH THE LIBERIAN GOVERNMENT OVER THE ATTACK, THE SECRETARY-GENERAL HAD ALSO ORDERED ALL THE U.N. STAFF THERE TO LEAVE THE COUNTRY, TEMPORARILY SUSPENDING THEIR FOOD RELIEF OPERATIONS.

THE SECRETARY-GENERAL SAID TODAY THAT THE UNITED NATIONS STANDS READY TO RESUME ITS HUMANITARIAN OPERATIONS AS SOON AS THE SITUATION PERMITS.

#90157h0123 06/06/1990 ~Chinese News Agency

DAR ES SALAAM (JUNE 6) XINHUA - TANZANIAN REVOLUTIONARY PARTY CHAIRMAN JULIUS NYERERE SAID HERE TODAY THAT HE WANTS TO RETIRE WHEN HE IS STILL CLEAR-HEADED.

NYERERE MADE THE REMARKS AT A MASS MEETING ORGANIZED BY THE RULING PARTY. ALL TANZANIAN LEADERS AND HIGH RANKING OFFICIALS ATTENDED THE MEETING.

MR. MYERERE SAID, "A SOBER LEADER MUST RETIRE WHEN HE IS STILL CLEAR-HEADED, IF YOU POSTPONE THE RETIREMENT, YOU WILL BECOME MUDDLE-HEADED."

HE SAID THAT THE PARTY WILL HOLD A SPECIAL NATIONAL CONFERENCE IN AUGUST AT WHICH HE WILL RETIRE FROM THE CHAIRMANSHIP AND PRESIDENT ALI HASSAN MWINYI WILL BE ELECTED BY THE PARTY AS THE SOLE CANDIDATE FOR THE GENERAL ELECTION IN NOVEMBER.

THE PARTY WILL REVISE ITS CONSTITUTION TO BRING THE CHAIRMANSHIP AND THE PRESIDENCY TO ONE PERSON AND MR. MWINYI WILL BECOME THE PARTY CHAIRMAN AFTER BEING RE-ELECTED AS THE PRESIDENT, SAID MR. NYERERE.

THE 68-YEAR-OLD CHAIRMAN RESIGNED FROM THE PRESIDENCY IN 1985 AND WANTED TO RESIGN FROM THE CHAIRMANSHIP IN 1987. BUT HE AGREED TO STAY IN THE LEADERSHIP BECAUSE THE RULING PARTY'S ROLE WAS WEAKENED THEN.

MR. NYERERE, WHO IS ALSO CHAIRMAN OF THE SOUTH COMMISSION OF THE NON-ALIGNED MOVEMENT, SAID AFTER HIS RETIREMENT, HE WILL LEAD A CO-ORDINATE BODY OF THE MOVEMENT TO PROMOTE COOPERATION AMONG THE DEVELOPING COUNTRIES.

#90157h0125 06/06/1990 ~Chinese News Agency

TEHRAN (JUNE 6) XINHUA - IRANIAN PRESIDENT HASHEMI RAFSANJANI TODAY RULED OUT AN IMMEDIATE SOLUTION TO IRAN'S ROW WITH BRITAIN BECAUSE LONDON STILL REFUSED TO COME TO TERMS WITH TEHRAN ON THE RUSHDIE AFFAIR.

RAFSANJANI TOLD A PRESS CONFERENCE FOR ABOUT 200 FOREIGN AND LOCAL REPORTERS THAT THE STRAINS IN THE RELATIONS WITH BRITAIN WOULD CONTINUE TO EXIST AS THE UNITED KINGDOM FAILED TO MEET THE PRECONDITION SET BY IRAN FOR NORMALIZING TIES.

AFTER IRAN'S LATE LEADER IMAM KHOMEINI ISSUED A RULING LAST YEAR TO SENTENCE TO DEATH SALMAN RUSHDIE, THE BRITISH AUTHOR OF THE CONTROVERSIAL BOOK "THE SATANIC VERSES" WHICH IRAN SAYS BLASPHEMES ISLAM, THE IRANIAN MAJLIS (PARLIAMENT) PASSED A BILL ASKING BRITAIN TO BAN THE PUBLICATION OF THE NOVEL AND LIFT THE PROTECTION OF THE AUTHOR.

LONDON REFUSED TO BOW TO IRAN'S PRESSURE. THIS LED TO THE REPTURE OF DIPLOMATIC RELATIONS BETWEEN THE TWO COUNTRIES IN MARCH, LAST YEAR.

"THE BRITISH GOVERNMENT MUST DEPLORE THE INSULTS ON ISLAM IN 'THE SATANIC VERSES' AND DECLARE ITS RESPECT FOR MOSLEMS' SANCTITIES," RAFSANANI REITERATED.

HE MADE THE REMARKS IN RESPONSE TO BRITISH PRIME MINISTER MARGARET THATCHER'S RECENT OUTSPOKEN "ANXIETY" TO RESTORE RELATIONS WITH IRAN.

THE BRITISH PRIME MINISTER ALSO SAID EARLIER THIS WEEK THAT SHE HAD THE

"GREATEST POSSIBLE RESPECT" FOR ISLAM, BUT IRAN SAID THATCHER'S WORDS LACKED SINCERITY.

THE IRANIAN PRESIDENT SAID, "IN PRINCIPLE WE HAVE NO DIFFICULTY IN NORMALIZING RELATIONS WITH BRITAIN ... WE HAVE INSTRUCTED THE FOREIGN MINISTRY TO RESUME TIES WITH BRITAIN IMMEDIATELY AFTER THE CONDITIONS SET BY THE MAJLIS BILL ARE MET."

"WE HAVE NO RIGHT TO WITHDRAW THE LATE IMAM'S VERDICT ON RUSHDIE," HE ADDED.

IRAN'S NEW SUPREME LEADER AYATOLLAH ALI KHAMENEI MADE A SOFT TUNE TUESDAY, SAYING THE ROW WITH BRITAIN WAS A "SIMPLE AND SOLUBLE" PROBLEM, BUT OBSERVERS HERE SEE IRAN'S PRECONDITION HARD FOR BRITAIN TO MEET.

ON TIES WITH THE UNITED STATES, THE IRANIAN PRESIDENT SAID THAT WASHINGTON SHOULD CORRECT ITS MISTAKES BY DEEDS INSTEAD OF WORDS IF IT INTENDS TO BE ON GOOD TERMS WITH IRAN.

RAFSANJANI PROMISED TO CONTINUE EFFORTS TO HELP FREE THE REMAINING HOSTAGES HELD IN LEBANON, BUT HE BLAMED THE U.S. FOR MAKING THINGS COMPLICATED BY GIVING AN "IRRESPONSIBLE RESPONSE" TO THE IRANIAN EFFORTS.

IN APRIL, IRAN, IN COOPERATION WITH SYRIA, INFLUENCED THE RELEASE OF TWO AMERICAN HOSTAGES, BUT THE U.S. REFUSED TO TAKE A RECIPROCAL ACTION UNTIL ALL THE WESTERN HOSTAGES ARE SET FREE.

IF THE U.S. PRESSURED ISRAEL TO FREE HUNDREDS OF PALESTINIAN AND LEBANESE HOSTAGES, IT WOULD BE GOOD FOR ITS OWN INTERESTS, RAFSANJANI NOTED.

-30- 2851

#90157h0126 06/06/1990 ~Chinese News Agency

UNITED NATIONS (JUNE 6) XINHUA - THE UNITED NATIONS SAID TODAY THAT IF THE CURRENT WORLD ECONOMIC ENVIRONMENT REMAINS UNFAVORABLE FOR DEVELOPING COUNTRIES, THE ECONOMIC GROWTH OF THE AFRICAN COUNTRIES IN 1990 WILL BE EVEN SLOWER THAN LAST YEAR.

IN A SUMMARY OF THE SURVEY OF ECONOMIC AND SOCIAL CONDITIONS IN AFRICA IN 1988 TO 1989, THE U.N. ECONOMIC AND SOCIAL COUNCIL SAID THE OVERALL GROSS DEMOSTIC PRODUCT (GDP) GROWTH RATE OF THE AFRICAN COUNTRIES IN 1990 "COULD FALL DRASTICALY FAR BELOW THE 1989 PERFORMANCE TO ONLY 1.4 PERCENT", IF THE EXTERNAL ECONOMIC ENVIRONMENT WORSENS.

THE COUNCIL, WHICH IS NOW IN ITS SECOND REGULAR SESSION OF 1990, SAID THAT ALTHOUGH ECONOMIC PERFORMANCE IN AFRICA IMPROVED MODESTLY IN 1988 AND 1989 THE ECONOMIC SITUATION IN THE REGION REMAINS "EXTREMELY FRAGILE AND HIGHLY SUSCEPTIBLE" TO THE INFLUENCE OF EXOGENOUS FACTORS.

IT POINTED OUT, IN PARTICULAR, THE ECONOMIC GROWTH IN THE REGION WOULD DEPEND MUCH ON FACTORS RELATING TO THE UNSTABLE INTERNATIONAL ECONOMIC ENVIRONMENT AND DOMESTIC STRUCTURAL LIMITATIONS OF THE CONTINENT.

ACCORDING TO THE COUNCIL, THE FALL IN COFFEE AND COCOA PRICES TO THEIR 14-YEAR LOW HAS A "DEVASTATING EFFECT" ON THE ECONOMIES OF A NUMBER OF AFIRCAN COUNTRIES LAST YEAR, BRINGING THEIR ECONOMIC GROWTH NEARLY TO A FULL STOP.

MEANWHILE, THE COUNCIL SAID THE INADEQUACY OF FINANCIAL INFLOWS TO SUPPORT POLICY REFORMS AND THE ESCALATING DEBT SERVICE OBLIGATIONS HAD A PROFOUNDLY DELETERIOUS EFFECT ON THE REGION'S EFFORTS TO EXTRICATE ITSELF FROM ITS PRESENT DEVELOPMENT DOLDRUMS.

FIGURES PROVIDED BY THE SUMMARY SHOWED THAT THE REGION'S DEFICIT ON THE CURRENT ACCOUNT STAGNATED AT THE HIGH LEVEL OF 13.8 BILLION DOLLARS IN 1989 WHILE EXPORT VOLUMES FELL BY 8.6 PERCENT.

AT THE SAME TIME, THE STOCK OF DEBT ROSE BY ABOUT 2.9 PERCENT TO REACH A MASSIVE 256.9 BILLION DOLLARS, AMOUNTING TO ABOUT 328.4 PERCENT OF EXPORTS OF GOODS AND SERVICES.

THE COUNCIL OBSERVED THAT WITHOUT AN EARLY RESOLUTION OF THE DEBT PROBLEM, THE RECOVERY PROCESS IN THE REGION WILL BE SEVERELY STIFLED.

-30- 2252

#90157h0127 06/06/1990 ~Chinese News Agency

LUANDA (JUNE 6) XINHUA - THE ANGOLAN GOVERNMENT HAS ORDERED ITS TROOPS TO WITHDRAW FROM THEIR FORWARD POSITIONS IN SOUTHEASTERN MUCUNDI REGION IN AN EFFORT TO CREATE AN ATMOSPHERE CONDUCIVE TO THE RESTORATION OF PEACE IN ANGOLA.

IN A STATEMENT ISSUED HERE TODAY, THE OFFICE OF THE COMMANDER-IN-CHIEF OF THE PEOPLE'S ARMED FORCES FOR LIBERATION OF ANGOLA SAID THAT LUANDA'S CHIEF REPRESENTATIVE AT THE UNITED NATIONS MANUEL PEDRO PACAVIRA TUESDAY INFORMED THE UNITED STATES, PORTUGAL AND ZAIRE OF THE DECISION TO PULL GOVERNMENT TROOPS OUT OF THE WAR-TORN REGION.

THE TROOPS ARE WITHDRAWING TO CAIUNDO IN THE WESTERN PART OF KUANDO-KUBANGO PROVINCE AND READY TO WITHDRAW FURTHER TO THE AREAS NEAR THE ANGOLA-NAMIBIA BORDER, NOTED THE STATEMENT.

THE STATEMENT HOWEVER URGED THE ANTI-GOVERNMENT NATIONAL UNION FOR THE TOTAL INDEPENDENCE OF ANGOLA (UNITA) TO STOP IMMEDIATELY ITS SABOTAGE ACTIVITIES OF CUTTING THE SUPPLY OF ELECTRICITY AND WATER TO THE CAPITAL CITY OF LUANDA AND OTHER CITIES.

ANGOLA HAS BEEN LOCKED IN CIVIL WAR FOR 15 YEARS. THE GOVERNMENT AND THE UNITA HELD THEIR FIRST MEETING BEHIND CLOSED DOORS IN PORTUGAL FROM APRIL 24 TO 25 THIS YEAR AND THE PREPARATION FOR THE SECOND ROUND OF PEACE TALKS IS NOW IN FULL SWING.

THE UNITA ANNOUNCED ON APRIL 30 THAT IT WILL STOP ITS RHETORIC ATTACKS ON THE GOVERNMENT AND ITS LEADERS. MEANWHILE GOVERNMENT TROOPS STARTED PULLING OUT FROM THE TOWN OF MAVINGA, A MAJOR UNITA STRONGHOLD WHICH THEY RECAPTURED FROM THE REBELS ON FEBRUARY 2 THIS YEAR.

LAGOS (JUNE 6) XINHUA - MORE THAN 10 MILLION NIGERIANS REGISTERED AS POLITICAL PARTY MEMBERS DURING THE NATION'S FIRST EVER PARTY MEMBER REGISTRATION WHICH ENDED LAST MONTH.

MR. JERRY GANA, CHAIRMAN OF THE NATIONAL POLITICAL MOBILIZATION BODY CALLED "MAMSER", ANNOUNCED THE FIGURE AT A NEWS CONFERENCE YESTERDAY IN ABUJA, THE FUTURE CAPITAL OF NIGERIA.

THE NUMBER OF NIGERIANS REGISTERED AS PARTY MEMBERS CONSTITUTES NEARLY ONE TENTH OF THE COUNTRY'S POPULATION.

NIGERIAN PRESIDENT IBRAHIM BABANGIDA ANNOUNCED THE CREATION OF TWO GOVERNMENT-SPONSORED POLITICAL PARTIES, THE SOCIAL DEMOCRATIC PARTY (SDP) AND THE NATIONAL REPUBLICAN CONVENTION (NRC), LATE LAST YEAR.

MEMBERSHIP REGISTRATION OF THE TWO GRASS ROOTS PARTIES WAS CONDUCTED NATIONWIDE FROM MARCH 26 TO MAY 5.

SOME 12 MILLION COPIES OF MEMBERSHIP CARDS WERE DISTRIBUTED TO THE 5,572 WARDS ACROSS THE NATION DURING THE REGISTRATION PERIOD.

HOWEVER, THE MAMSER CHAIRMAN REFUSED TO DISCLOSE THE NUMBERS OF NIGERIANS REGISTERED AS MEMBERS OF EACH OF THE TWO PARTIES. THE SDP AND NRC WILL ANNOUNCE THEIR STRENGTH NEXT MONTH, HE SAID.

ACCORDING TO THE GOVERNMENT'S TRANSITION-TO-CIVIL RULE TIMETABLE, THE TWO PARTIES WILL CONTEST FOR THE LEADERSHIP OF THE WEST AFRICAN COUNTRY'S THIRD REPUBLIC IN 1992 WHEN THE MILITARY REGIME HANDS OVER POWER TO CIVILIANS.

#90157h0130 06/06/1990 ~Chinese News Agency

TEHRAN (JUNE 6) XINHUA - IRANIAN ECONOMICS AND FINANCE MINISTER MOHSEN NOURBAKHSH DENIED HERE TODAY THAT THE GOVERNMENT WAS PREPARING TO REPLACE THE CURRENT "RIAL" WITH NEW MONEY NOTES CALLED "NOUR."

SPEAKING AT A PRESS CONFERENCE FOR FOREIGN AND LOCAL REPORTERS, NOURBAKHSH SAID THAT THE GOVERNMENT HAD NO SUCH A PLAN TO DEVALUATE THE RIAL.

HE WAS REFERRING TO A REPORT CARRIED BY THE LOCAL WEEKLY "BAZZAR RUZ" IN ITS LATEST ISSUE THAT NEW MONEY NOTES WOULD BE PUT INTO CIRCULATION SOON.

EARLIER, A MAJLIS (PARLIAMENT) OFFICIAL SAID IN NICOSIA THAT SUCH MEASSURE WOULD SURELY BE TAKEN, BUT THE PROBLEM WAS WHEN.

THE MINISTER, WHO WAS FORMER DIRECTOR OF THE IRANIAN CENTRAL BANK, SAID THAT WHAT THE GOVERNMENT HAD DECIDED WAS TO PROVIDE CHEAPER FOREIGN CURRENCY TO PRODUCERS AND IMPORTERS.

"WE NOW HAVE NO NEED TO PRINT NEW MONEY NOTES" SINCE THE IMPLEMENTATION OF THE GOVERNMENT'S ECONOMIC POLICY HAD BEEN "SUCCESSFUL," HE SAID.

DEVALUATION OF THE RIAL MIGHT PUSH PRICES HIGHER, A FEAR FEULED BY A RUMORED CUT IN SUBSIDIES ON SOME COMMODITIES.

CURRENCY DEVALUATION IS A CONDITON SET BY THE WORLD BANK FOR PROVIDING LOANS TO DEVELOPING COUNTRIES.

NOURBAKHAH STRESSED THAT IRAN'S FIRST FIVE-YEAR DEVELOPMENT PLAN, ENDING IN 1993, ENVISAGES THE USE OF FOREIGN FINANCIAL RESOURCES FOR SOME VITAL PROJECTS.

THE WORLD BANK IS ONE OF THE FOREIGN RESOURCES AND IS BETTER THAN THE INTERNATIONAL MONETARY FUND (IMF) FOR IRAN, THE MINISTER SAID.

HE ADDED THAT THE RECENT VISIT BY AN IMF DELEGATION TO TEHRAN WAS A ROUTINE MISSION TO ASSESS THE ECONOMIC SITUATION IN IRAN, A MEMBER OF THE MONETAY ORGANIZATION.

THE LOCAL PRESS HAS REPORTED THAT THE IMF AND THE WORLD BANK RECENTLY REACHED AN AGREEMENT TO HELP IRAN TO PREPARE A REPORT ON IRAN'S ECONOMIC SITUATION.

THE NEWS GAVE RISE TO SPECULATIONS THAT IRAN MIGHT FINALLY AGREE TO DEVALUATE ITS MONEY AND CUT GOVERNMENT SUBSIDIES TO CLEAR THE WAY FOR GETTING FOREIGN CREDITS.

INTENDING TO EASE THE FEAR OF MIDDLE AND LOWER INCOME EARNERS, THE MINISTER PLEDGED TO CONTINUE THE POLICY OF SUBSIDIZING SELECTED GOODS.

ACCORDING TO OFFICIAL FIGURES, THE GOVERNMENT PLANNED TO EARMARK MORE THAN 4 BILLION U.S. DOLLARS FOR SUBSIDIES THIS YEAR, DOUBLING THAT OF LAST YEAR A BIG BURDEN FOR THE GOVERNMENT.

NOURBAKHSH SAID THAT THE GOVERNMENT MANAGED LAST YEAR TO CUT THE BUDGETARY DEFICIT BY HALF AND RECUCE THE AMOUNT OF MONEY NEEDED TO BE PRINTED BY ONE-THIRD. BUT HE DID NOT GIVE ANY FIGURE.

THE GOVERNMENT WOULD CONTINUE ITS EFFORTS TO PROMOTE PRODUCTION AND CURB INFLATION IN A BID TO RESTRUCTURE AND AILING ECONOMY, THE MINISTER SAID.

MOST OF THE FACTORIES IN THE COUNTRY ARE STILL OPERATING AT ABOUT 50 PERCENT OF THEIR CAPACITIES AND THE INFLATION RATE WAS OFFICIALLY DECLARED AT LESS THAN 20 PERCENT, BUT THE ACTUAL FIGURE MIGHT BE MUCH HIGHER.

Larry King Live (CNN) June 5, 1990

Trump's Financial Condition / Rain Pryor: Chris Welles of Business Week wrote an article published May 14th saying that Donald Trump was in financial trouble, that he has a substantial negative cash flow and that he is $350 million to $400 million in debt. Al Glasgow, Publisher of Atlantic City Action and long-time consultant to the Trump organization, says Summer is coming and casino income will provide the necessary cash flow for Trump's loan payments. Mr. King's third guest this evening, Rain Pryor, is in a feature film coming out this Fall, Blackbird Fly, about a father's sexual abuse of his daughter. She feels the treatment of the subject is very real and unsoftened, and that it is important for young people to be informed about the subject. In talking about her career, Ms. Pryor makes it clear that she wants the public to have no doubt that acting is her profession, and that she is not riding on Dad's coattails. (Transcript #59)

#90157k0001 06/06/1990 ~Japanese News Agency

TOKYO (JUNE 6) KYODO - THE NUMBER OF IMPORTED CARS SOLD IN JAPAN IN MAY JUMPED 21.4 PERCENT FROM A YEAR EARLIER, SETTING A RECORD FOR SALES FOR THE MONTH OF 16,325 VEHICLES, THE JAPAN AUTOMOBILE IMPORTERS' ASSOCIATION SAID WEDNESDAY.

THE INCREASE WAS THE 77TH CONSECUTIVE YEAR-ON-YEAR RISE, THE ASSOCIATION SAID.

SALES OF IMPORTED PASSENGER CARS WITH AN ENGINE CAPACITY OF 2000CC OR MORE SURGED 36.8 PERCENT IN MAY TO 8,538 VEHICLES, AND THOSE OF SMALLER CARS ROSE 7.7 PERCENT TO 7,614 VEHICLES.

ONE BUS AND 172 VANS WERE ALSO IMPORTED DURING THE MONTH. WEST GERMAN CARS

DOMINATED THE IMPORTED CAR MARKET, WITH THE VOLKSWAGEN-AUDI GROUP RETAINING THE TOP SLOT WITH 3,270 VEHICLES, FOLLOWED BY MERCEDES-BENZ WITH 3,014 VEHICLES.

BMW CAME THIRD, SELLING 2,659 VEHICLES IN MAY.

-30- 954

#90157k0016 06/06/1990 ~Japanese News Agency

TOKYO (JUNE 6) KYODO - MAJOR JAPANESE CORPORATIONS ARE EXPECTED TO POST INCREASED SALES AND PROFITS IN THE CURRENT BUSINESS YEAR ENDING NEXT MARCH 31 FOR THE FOURTH STRAIGHT YEAR, A PRIVATE RESEARCH ORGANIZATION SAID WEDNESDAY.

THE WAKO RESEARCH INSTITUTE OF ECONOMICS SAID THE FOUR-YEAR GROWTH IN UNCONSOLIDATED PROFITS WILL BE THE SECOND LONGEST STRETCH OF CORPORATE PROSPERITY FOLLOWING THE FIVE CONSECUTIVE YEARS OF PROFIT GAINS REGISTERED FROM FISCAL 1966 THROUGH 1970.

UNCONSOLIDATED SALES WILL GROW 0.4 PERCENT AND PRETAX PROFITS 1.6 PERCENT IN ALL INDUSTRIES, IT SAID, THOUGH THE PACE OF PROFIT GROWTH WILL SLOW FURTHER FROM A 7.2 PERCENT RISE FOR THE LATEST BUSINESS YEAR ENDED LAST MARCH DUE TO THE WEAK YEN, HIGH CRUDE OIL PRICES, AND RISING INTEREST RATES.

THE RESEARCH ORGANIZATION AFFILIATED WITH WAKO SECURITIES CO. MADE THE PREDICTION BASED ON AN AVERAGE EXCHANGE RATE OF 155.0 YEN TO THE DOLLAR, AN AVERAGE CRUDE OIL PRICE OF 18.50 DOLLARS PER BARREL, AND THE CURRENT OFFICIAL DISCOUNT RATE OF 5.25 PERCENT.

THE PREDICTION WAS BASED ON A SURVEY CONDUCTED BY THE ORGANIZATION COVERING 495 FIRMS LISTED ON THE FIRST SECTION OF THE TOKYO STOCK EXCHANGE EXCLUDING BANKS, SECURITIES HOUSES, AND INSURANCE COMPANIES.

OF 30 INDUSTRIES COVERED BY THE SURVEY, 20 WILL SEE BETTER PROFITS AND 10 WILL RECORD LOWER EARNINGS, IT SHOWED.

THE MANUFACTURING SECTOR WILL POST A 5.5 PERCENT GAIN IN PRETAX PROFITS, WHILE THE NONMANUFACTURING SECTOR WILL SUFFER A 5.5 PERCENT DECLINE, WAKO SAID.

IN THE MANUFACTURING SECTOR, ALL 11 PROCESSING INDUSTRIES WILL REMAIN BULLISH, REGISTERING AN 8.3 PERCENT PROFIT GAIN AS A WHOLE UNDER THE LEAD OF SHIPBUILDING AND MACHINERY, HELPED BY BRISK CORPORATE CAPITAL SPENDING AND PERSONAL CONSUMPTION, IT SAID.

SEVEN INDUSTRIES WERE PROJECTED TO POST DOUBLE-DIGIT PROFIT GROWTH, INCLUDING SHIPBUILDING, SHIPPING, AND CONSTRUCTION.

THE PROFIT GROWTH IN SEVEN MATERIALS INDUSTRIES WILL BE A MEAGER 0.5 PERCENT, DAMAGED BY THE YEN'S LOWER VALUE AND RISING CRUDE OIL PRICES, THE ORGANIZATION SAID.

-30- 2250

#90157k0054 06/06/1990 ~Japanese News Agency

TOKYO (JUNE 6) KYODO - A BANK OF JAPAN SOURCE SAID WEDNESDAY JAPAN NEEDS TO REMAIN A NATION WITH A CURRENT ACCOUNT SURPLUS, BUT CAUTIONED AGAINST HALTING EFFORTS TO REDUCE THE SURPLUS AT THE MOMENT.

"THE SURPLUS MUST BE REDUCED TO RECTIFY WORLD TRADE IMBALANCES, BUT IT WOULD CAUSE TROUBLE IF THIS RESULTED IN JAPAN BECOMING A COUNTRY WITH A DEFICIT," THE SOURCE SAID.

THE COMMENT WAS A REFERENCE TO DEBATE OVER WHETHER JAPAN SHOULD CONTINUE ITS ENDEAVOR TO SLASH ITS SURPLUS ON THE CURRENT ACCOUNT, A BROAD MEASURE OF TRADE IN GOODS AND SERVICES.

AFTER PEAKING AT 94 BILLION DOLLARS IN FISCAL 1986, JAPAN'S CURRENT ACCOUNT SURPLUS HAS BEEN SHRINKING STEADILY, DWINDLING 30.8 PERCENT IN FISCAL 1989 FROM A YEAR EARLIER TO 53.5 BILLION DOLLARS, OR 2.0 PERCENT OF GROSS NATIONAL PRODUCT.

THE SOURCE SAID THE PERSISTENT DECLINE IN THE NATION'S CURRENT ACCOUNT SURPLUS DOES NOT PROVIDE ANY GOOD REASON FOR STOPPING EFFORTS TO CHANGE THE NATION'S ECONOMY FROM AN EXPORT-DEPENDENT ONE TO ONE BASED ON DOMESTIC DEMAND.

ANALYZING THE SHARP NARROWING OF THE CURRENT ACCOUNT SURPLUS IN FISCAL 1989, THE SOURCE CITED ONE-OFF FACTORS SUCH AS HIGHER CRUDE OIL PRICES AS MAJOR CONTRIBUTORS AND NOTED THAT THESE WILL NOT CONTINUE IN THE LONG TERM.

ASKED ABOUT THE SIZE OF PUBLIC SPENDING, THE SOURCE TOOK A CAUTIOUS VIEW OF BOOSTING PUBLIC SPENDING WHEN THE ECONOMY IS ON AN EXPANSIONARY PATH, ALTHOUGH DESCRIBING SUCH OUTLAYS AS NECESSARY TO IMPROVE LIVING AND ENVIRONMENTAL CONDITIONS FOR THE PEOPLE.

"GIVEN AN EXPANSIONARY EFFECT ON THE ECONOMY, PUBLIC SPENDING MUST BE DONE OUT OF DUE CONSIDERATION TO ITS RESULTING IMPACT," THE SOURCE SAID.

-30- 1834

#90157k0075 06/06/1990 ~Japanese News Agency

TOKYO (JUNE 6) KYODO - TEIKOKU OIL CO. SAID WEDNESDAY IT HAS ACQUIRED JOINTLY WITH THREE U.S. COMPANIES SIX-YEAR DRILLING RIGHTS IN AN OIL FIELD IN PAPUA NEW GUINEA.

THE FIRM HAS PURCHASED A 20 PERCENT INTEREST IN THE FIELD, CALLED PPL-123, WITH THE REMAINING 80 PERCENT STAKE SHARED BY TREND INTERNATIONAL LTD., PENNZOIL CO., AND UNION TEXAS PETROLEUM HOLDINGS INC., ALL BASED IN HOUSTON, TEXAS.

TEIKOKU WILL ESTABLISH A SUBSIDIARY, NAMED TEIKOKU OIL (GULF OF PAPUA) CO. ON JULY 11 WHICH IS TO HANDLE THE DRILLING OPERATIONS.

THE NEW FIRM WILL SPEND 1.57 MILLION DOLLARS TO INVESTIGATE THE OIL FIELD DURING THE FIRST TWO YEARS, AFTER WHICH IT WILL BEGIN TEST DRILLING. IF THE TESTS GO WELL, THE COMPANY WILL START PRODUCTION.

THE 8,000-SQUARE-METER FIELD, LOCATED SOME 400 KILOMETERS WEST OF PORT MORESBY, CONTAINS AN ESTIMATED 100 MILLION BARRELS OF OIL.

-30- 1063

#90157k0076 06/06/1990 ~Japanese News Agency

TOKYO (JUNE 6) KYODO - AN OVER-THE-COUNTER (OTC) BROKER SAID WEDNESDAY THAT IT WILL CUT ITS OPERATING TIME BY 30 MINUTES EVERY MORNING AND AFTERNOON SESSION FOR A WHILE TO REDUCE ITS TENDENCY TO OVERHEAT.

JAPAN OTC SECURITIES CO., A BROKER ESTABLISHED BY BROKERAGE HOUSES FOR OTC TRADING, SAID THE DECISION WAS MADE IN AN AGREEMENT WITH THE SECURITIES DEALERS ASSOCIATION OF JAPAN.

YOSHIO YOKOTA, CHAIRMAN OF JAPAN OTC SECURITIES, CALLED ON SECURITIES HOUSES TO TAKE A CAUTIOUS ATTITUDE IN SALES AND PROMOTION OF OTC TRADING, POINTING OUT THAT OTC PRICES ARE MORE VOLATILE THAN THOSE ON THE TOKYO STOCK EXCHANGE (TSE) AND INVESTORS SHOULD BE PROTECTED.

STARTED IN FEBRUARY 1963, JAPAN'S OTC TRADING MARKET HAS GROWN RAPIDLY, ESPECIALLY IN THE PAST SEVERAL YEARS.

PRICES ON THE MARKET HAVE RENEWED THEIR RECORDS IN RECENT TRADING AFTER RECOVERING FULLY FROM THE CRASH, INDUSTRY OFFICIALS SAID.

ITS TRADING VOLUME EXCEEDED THAT OF THE TSE'S SECOND SECTION IN APRIL, AND WAS ON PAR WITH IT IN MAY, THEY ADDED.

INDUSTRY OBSERVERS ATTRIBUTE THE BOOM PARTLY TO EASIER LISTING REQUIREMENTS FOR THE OTC MARKET THAN FOR THE TSE. MANY SMALL- AND MIDDLE-SIZED INSTITUTIONS AND VENTURE BUSINESSES WITH HIGH GROWTH POTENTIAL HAVE ACTIVELY BEEN LISTED, CONSEQUENTLY PROVIDING INVESTORS WITH SUFFICIENT PROFITS, OBSERVERS SAID.

JAPAN OTC SECURITIES SAID THERE ARE A TOTAL OF 292 ISSUES ALREADY ON THE

MARKET AND ANOTHER 80 ISSUES TO BE LISTED SOON.

HOWEVER, THE MARKET NEEDS MORE REGULATIONS ON POINTS SUCH AS INSIDER TRADING, OBSERVERS SAID.

-30- 1746

#90157k0078 06/06/1990 ~Japanese News Agency

TOKYO (JUNE 6) KYODO - THE POSTS AND TELECOMMUNICATIONS MINISTRY SAID WEDNESDAY IT WILL LAUNCH A FORUM TO STUDY THE POSSIBILITY OF ESTABLISHING A FINANCIAL INFORMATION NETWORK USING SATELLITES.

THE MINISTRY SAID THE GROUP, COMPRISING REPRESENTATIVES FROM THE FINANCIAL TELECOMMUNICATION SERVICE AND EQUIPMENT MANUFACTURING INDUSTRIES, WILL HOLD ITS INAUGURAL MEETING IN JULY.

THE FORUM WILL FORMULATE AN INTERIM REPORT IN OCTOBER AND A FINAL DOCUMENT IN MARCH NEXT YEAR, THE MINISTRY SAID.

FORMATION OF THE GROUP FOLLOWS A SURVEY OF FINANCIAL INSTITUTIONS ON THE USE OF SATELLITES FOR DISTRIBUTION OF BUSINESS-RELATED INFORMATION, INCLUDING EMERGENCY MEASURES IN CASE OF NATURAL DISASTERS AND OPERATION OF CASH DISPENSERS.

BANKS, SECURITIES COMPANIES AND OTHER FINANCIAL INSTITUTIONS HAVE SO FAR TAKEN A PASSIVE STANCE TOWARD USE OF SATELLITES BECAUSE OF THEIR HIGH COSTS, ESTIMATED AT 500 MILLION YEN TO 600 MILLION YEN A YEAR.

THE MINISTRY SAID IT IS STUDYING THE POSSIBILITY OF LAUNCHING A SATELLITE TO BE USED EXCLUSIVELY BY FINANCIAL INSTITUTIONS IN THE FUTURE.

-30- 1256

#90157k0083 06/06/1990 ~Japanese News Agency

TOKYO (JUNE 6) KYODO - EIGHT MAJOR INSURANCE COMPANIES ON WEDNESDAY REPORTED INCREASED INSURANCE SALES REVENUE FOR FISCAL 1989 ENDED LAST MARCH 31 BUT GROWTH RATE WAS LOW DUE MAINLY TO SLOW SALES OF ENDOWMENT INSURANCE.

THE COMPANIES ALSO SAID THEY SUFFERED LOSSES TOTALING 930 BILLION YEN FROM THE SLUMP ON THE STOCK AND BOND MARKETS IN THE FIRST QUARTER OF THIS YEAR.

THEY SAID THEIR LATENT PROFITS INVOLVED IN SECURITIES HOLDINGS DECREASED 8,990 BILLION YEN TO A TOTAL OF 28,880 BILLION YEN.

THE COMPANIES SAID THEIR ANNUAL GROWTH IN REVENUE FROM INSURANCE SALES RANGED FROM 3.9 PERCENT TO 17.0 PERCENT, MANY OF THEM THE LOWEST SINCE WORLD WAR II.

THEY SAID INCREASED PAYMENTS ON MATURITY OF HIGH INTEREST RATE-CARRYING ENDOWMENT INSURANCE WHICH BOOMED FIVE YEARS AGO ALSO ADVERSELY AFFECTED THEIR BUSINESS RESULTS.

THE COMPANIES SAID THEY SOLD FOREIGN SECURITIES AND BONDS TO MAKE UP FOR A SHARP FALL IN PRETAX PROFITS.

-30- 1110

#90157k0086 06/06/1990 ~Japanese News Agency

TOKYO (JUNE 6) KYODO - CANON INC. SAID WEDNESDAY IT WILL SET UP RESEARCH AND DEVELOPMENT COMPANIES IN FRANCE AND AUSTRALIA, BRINGING TO FIVE ITS OVERSEAS R AND D SUBSIDIARIES.

THE 43-MILLION-FRANC CANON INFORMATION SYSTEMES R AND D EUROPA S.A., BASED IN THE OUTSKIRTS OF RENNE, BRETAGNE, WILL BE ENGAGED IN RESEARCH OF ELECTRIC TELECOMMUNICATIONS TECHNOLOGY, WITH A WORKFORCE OF ABOUT 100.

ANOTHER SUBSIDIARY, CANON INFORMATION SYSTEMS RESEARCH AUSTRALIA PTY. LTD. IN NORTH RYDE, CAPITALIZED AT 2 MILLION AUSTRALIAN DOLLARS, IS INTENDED TO RESEARCH INFORMATION-RELATED SOFTWARE AND WILL HAVE 20 EMPLOYEES, THE COMPANY SAID. THE NEW FIRMS FOLLOW R AND D SUBSIDIARIES -- TWO IN THE UNITED STATES AND ONE IN BRITAIN, IT SAID.

-30- 904

#90157k0089 06/06/1990 ~Japanese News Agency

TOKYO (JUNE 6) KYODO - THE RULING LIBERAL DEMOCRATIC PARTY (LDP) SAID WEDNESDAY IT WILL SEND A GROUP OF DIETMEN TO WASHINGTON NEXT WEEK TO RALLY SUPPORT FOR JAPAN'S FARM TRADE POLICIES.

THIS IS IN ADDITION TO AN EARLIER ANNOUNCEMENT OF A SIMILAR GROUP TO BE SENT TO GENEVA.

FACED WITH FARM TRADE TALKS IN MID-JULY IN GENEVA SCHEDULED BY THE GENERAL AGREEMENT ON TARIFFS AND TRADE (GATT), THE LDP IS TRYING TO CULTIVATE UNDERSTANDING OF JAPAN'S INSISTENCE ON SELF-SUFFICIENCY IN RICE PRODUCTION LDP OFFICIALS SAID.

THE GROUP GOING TO WASHINGTON, LED BY FORMER AGRICULTURE, FORESTRY AND FISHERIES MINISTER MICHIHIKO SHIKANO, CONSISTS OF SIX DIET MEMBERS FROM THE LDP. THEY INCLUDE TAICHIRO OKAWARA, A MEMBER OF THE HOUSE OF COUNCILLORS AND MORIO KIMURA, A MEMBER OF THE HOUSE OF REPRESENTATIVES.

THEY ARE TO VISIT WASHINGTON FROM JUNE 11 TO 15 TO EXCHANGE OPINIONS ON FARM TRADE WITH THEIR U.S. COUNTERPARTS, HOPEFULLY INCLUDING AGRICULTURE SECRETARY CLAYTON YEUTTER AND TRADE REPRESENTATIVE CARLA HILLS, THE

OFFICIALS SAID.

THE DELEGATION TO GENEVA THE LDP ANNOUNCED EARLIER IS LED BY TSUTOMU HATA, ALSO A FORMER FARM MINISTER. THE DELEGATION ARRIVES IN THE CITY ON JUNE 14.

A GATT TRADE NEGOTIATION COMMITTEE (TNC) IS EXPECTED TO HOLD A MEETING ON FARM TRADE IN GENEVA FROM JULY 23 TO NARROW THE GAP AMONG THE MEMBER NATIONS ON FARM SUBSIDIES.

THE UNITED STATES IS EXPECTED TO PUSH A PLAN FOR "TARIFFICATION" OF AGRICULTURAL IMPORT RESTRICTIONS WHERE COUNTRIES WITH FARM IMPORT CURBS WILL BE ALLOWED TO APPLY SUCCESSIVELY DECREASING TARIFFS BASED ON THE EXTENT OF PREVIOUS RESTRICTIVE MEASURES OVER A CERTAIN PERIOD OF TIME.

IF SUCH A PROPOSAL IS ACCEPTED IN JULY, JAPAN'S STANCE WILL BE CONSIDERABLY WEAKENED DURING THE CLOSING STAGES OF THE CURRENT URUGUAY ROUND OF MULTILATERAL TRADE TALKS IN DECEMBER, THE OFFICIALS ADDED.

-30- 2063

#90157k0093 06/06/1990 ~Japanese News Agency

TOKYO (JUNE 6) KYODO - A TOP-RANKING OFFICIAL AT THE BULGARIAN BANK FOR FOREIGN TRADE SAID WEDNESDAY HIS BANK WILL CALL FOR A 90-DAY GRACE PERIOD FOR PAYMENT OF ITS EXTERNAL DEBT AT UPCOMING NEGOTIATIONS WITH WESTERN BANKS SLATED FOR JUNE 21 AND 22.

THE REMARK WAS MADE BY GEORGY GEORGIEV, THE BANK'S DIRECTOR AND GENERAL MANAGER, IN A MEETING WITH THE SOFIA BRANCH OF THE JAPAN EXTERNAL TRADE ORGANIZATION (JETRO).

BULGARIA'S EXTERNAL DEBTS TOTALED ABOUT 10.8 BILLION DOLLARS AT THE END OF LAST YEAR, 90 PERCENT OF WHICH WERE OWED BY THE FOREIGN TRADE BANK.

IN LATE MARCH, THE BANK TOLD 11 WESTERN FINANCIAL INSTITUTIONS, INCLUDING JAPANESE BANKS, THAT IT WOULD LIKE TO STOP PAYING THE PRINCIPAL ON ITS DEBTS. THE WESTERN INSTITUTIONS AGREED IN LATE APRIL TO EXTEND A 90-DAY GRACE PERIOD.

GEORGIEV SAID THAT DESPITE THE HALT IN PAYMENTS BY THE BANK, BULGARIA'S OTHER COMMERCIAL BANKS ARE AND WILL BE CONTINUING THEIR PAYMENTS.

HE ALSO TERMED ''UNFEASIBLE'' A DEBT-RELIEF PROPOSAL PRESENTED BY U.S. COMPANIES WHICH CALLED FOR A SWAP OF THE COUNTRY'S DEBTS FOR SECURITIES IN ITS STATE-RUN COMPANIES.

-30- 1285

#90157k0095 06/06/1990 ~Japanese News Agency

TOKYO (JUNE 6) KYODO - NIPPON CARGO AIRLINES (NCA) ANNOUNCED WEDNESDAY A 393.6 PERCENT GROWTH IN ITS PRETAX PROFIT IN THE BUSINESS YEAR ENDED MARCH 31 TO A RECORD 2,518 MILLION YEN.

SALES, HOWEVER, RECORDED A PLUNGE OF 22.9 PERCENT TO 35,167 MILLION YEN DUE TO A CHANGE IN THE ACCOUNTING METHOD.

THE COMPANY SAID THE BRISK SHOWING IS DUE TO INCREASED CARGO SERVICE TO THE UNITED STATES AND RISING CARGO IMPORTS AMID BOOMING DOMESTIC DEMAND.

AS FOR THE CURRENT BUSINESS YEAR TO MARCH 31, 1991, THE COMPANY EXPECTED ITS PROFIT BEFORE TAX TO FALL TO 1.5 BILLION YEN ON SALES OF 42 BILLION YEN, A 19.8 PERCENT INCREASE, BECAUSE OF MASSIVE COSTS EXPECTED FROM THE EMPLOYMENT OF ABOUT 40 U.S. PILOTS SCHEDULED FOR THE YEAR.

-30- 907

#90157k0100 06/06/1990 ~Japanese News Agency

DHAKA (JUNE 6) KYODO - JAPAN WILL EXTEND A 4.2 BILLION YEN GRANT TO BANGLADESH UNDER THREE EXCHANGES OF NOTES SIGNED HERE TUESDAY BETWEEN REPRESENTATIVES OF BOTH GOVERNMENTS.

THE FUNDS WILL BE USED FOR FINANCING THREE ONGOING PROJECTS IN IRRIGATION, COMMUNICATIONS AND PUBLIC HEALTH SECTORS.

THE LARGEST AMONG THE THREE IS THE IRRIGATION SECTOR, AMOUNTING TO 1,796 MILLION YEN. THIS WILL BE THE SECOND INSTALLMENT OF THE TOTAL GRANT ASSISTANCE OF 3,343 MILLION YEN FOR THE NARSINGDHI IRRIGATION PROJECT, SITUATED ABOUT 20 KILOMETERS EAST OF HERE.

THE FUND WILL BE USED TO CONSTRUCT A FLOOD PROTECTION EMBANKMENT, PUMPING STATIONS, DRAINAGE AND IRRIGATION FACILITIES AND FOR PROCUREMENT OF MACHINERY AND VEHICLES.

JAPANESE EMBASSY OFFICIALS HERE SAID THE IMPLEMENTATION OF THE PROJECT WAS EXPECTED TO FREE THE PROJECT AREA FROM FLOODS AND DROUGHT.

CROP INTENSITY IS EXPECTED TO RISE 250 PERCENT, THE EMBASSY SAID, ADDING THIS WOULD GREATLY CONTRIBUTE TO BANGLADESH ACHIEVING THE GOAL OF SELF-SUFFICIENCY IN FOOD SUPPLY.

THE GRANT IN THE COMMUNICATIONS SECTOR RELATES TO SOME FINAL WORK ON THE MEGHNA BRIDGE, DUBBED AS THE JAPAN-BANGLADESH FRIENDSHIP BRIDGE. IT WAS OPENED WHEN JAPANESE PRIME MINISTER TOSHIKI KAIFU VISITED HERE LAST MONTH.

#90157m0001 06/06/1990 ~Market Consensus Surveys
FALLS CHURCH, VA (JUNE 6) MCS -- A SAMPLING OF TODAY'S COMMENTARY COMPILED BY MARKET CONSENSUS SURVEYS, INC. IN TWO SECTIONS (1) STOCKS (2)MONEY & ECONOMY.

IN THE NEWS:

DREXEL BURNHAM LAMBERT will present its creditors with a bankruptcy reorganization plan. ... NATIONAL INTERGROUP plans to sell its Ben Franklin unit, pay a special dividend or repurchase stock, move its headquarters and change its name to FOXMEYER. ... REVCO D.S. agrees to sell 220 of its drugstores to JACK ECKERD, a privately held chain of 1,575 drugstores. ... BLOOMINGDALE'S says it will close two branch stores in Dallas and Stamford, Conn. and consolidate store credit operations in a move that will affect nearly 1,100 employees. ... COORS announces that it will buy STROH BREWERY's Memphis, Tenn. plant for an undisclosed sum.

WHAT'S AHEAD:

White House and Congressional budget negotiators continue discussions today. ... The AMERICAN ENTERPRISE INSTITUTE FOR PUBLIC POLICY RESEARCH holds a panel discussion on deposit insurance and strengthening banks and thrifts. ... The JOINT ECONOMIC COMMITTEE meets on American economic power in the 1990s. ... According to "Reuters," middle east crude oil prices

could crash to $10 a barrel unless OPEC acts fast to stop a spiral of price cuts as producers try to sell into a glutted market, say some oil experts. ... In an effort to challenge IBM's dominance and become a major player in the U.S. market, Japan's HITACHI is expected to unveil today a mainframe computer that is more powerful than those now on the market.

FROM THE BULLS:

"What we're seeing is pockets of profit-taking," says BRAD WEEKES, chief block trader at DONALDSON, LUFKIN & JENRETTE, "but that doesn't mean we're not going to Dow 3000 -- we are going to 3000, and pretty soon." ("The Washington Post", 6/6)

CNN's DAN DORFMAN asks the question, "How high is up? We all know the market has to take a breather, but if you're scared ... don't be." Dorfman notes that historically, in the past 20 years the market has risen an average of 14.5% following the 12 rallies of this time period. If history repeats itself, the Dow will reach 3320 in six months according to Dorfman. (CNN "Moneyline", 6/5)

"I think we are in a [Dow] trading range for the rest of 1990," says FRED ASTMAN of FIRST WILSHIRE SECURITIES MANAGEMENT in Los Angeles. "Longer term, I'm cautiously optimistic," he says. He is encouraged that mutual fund cash positions are "at one of their highest levels ever," and he believes that the P/E ratio of the S&P 500 has the possibility of going higher. Mr. Astman adds, "Also, one of these days we'll have a balanced budget, with a corresponding need to borrow. And the Social Security system, which already has a $50 billion-a-year surplus, will have a $200 billion annual surplus by the end of the decade. That money could be used to pay down the deficit. All this could lead to lower interest rates. So five to ten years out, I think you could build a strong case of the Dow hitting something close to 10,000, based on the normal growth of earnings." ("Personal Investor", July 1990)

FROM THE BEARS:

"People keep asking me: 'When are you going to buy?'" says HENRY VAN der EB, manager of the $235 million MATHERS FUND, which has had a 90% cash position since January. His answer: Stocks are highly overvalued, and the U.S. is "potentially on the edge of a deflationary recession or worse." He vows: "We are not going to deviate from our discipline. Stocks are more expensive than they were six months ago, while earnings are lower and interest rates are higher." (WSJ, 6/6)

"I would recommend to anybody who's in the market to liquidate all longs no later than the close this afternoon," says MICHAEL JENKINS, editor and publisher of "Stock Cycles Forecast." "I feel very strongly [that] this is a very significant top." (CNBC "Market Wrap- Up", 6/5)

"This market reminds me of 1987 all over again," says a bearish CHARLES ALLMON, president and chairman of the $127 million GROWTH STOCK OUTLOOK TRUST, which has a 79% cash position. "The pipelines are full, and a slowdown is in the cards. Common sense should tell you that this [market] is living on borrowed time. People are not investing, they're speculating." (WSJ, 6/6)

STOCK MARKET:

Tuesday's 10.19 drop in the Dow "was very constructive," says JIM ANDREWS, a trader at JANNEY MONTGOMERY SCOTT. "It was a few steps back before we surge ahead. We need a couple more days like this." ("USA Today", 6/6)

"We are seeing good rotation," says PRESCOTT BALL & TURBEN INC. chief market strategist RAO CHALASANI. "Selected technology stocks are declining, while transportation issues are rising as oil prices come down and financial issues are improving, reflecting the recent decline in interest rates." Chalasani was not bothered by yesterday's small decline, calling it, "a well-deserved small correction," and says he feels the market will reach 3000, but not much more. "I would advise investors to sell into the rallies because from here on there may not be much more to gain," cautioned Chalasani. "I expect a sideways market in July." ("Investor's Daily", 6/6)

"I think that the market is overdue for a pause," says STEPHEN LEEB, editor of "Personal Finance," and "Indicator Digest." He goes on to add, " Any time, we could fall 50 or even 100 points ... [that] would mean nothing. This market's clear message is it's going higher." Any correction would be an opportune time to buy, in Leeb's view, for he believes that lower inflation, which is "down to stay," and slower growth are positive signs for the future of the market. (CNBC "Market Wrap-Up", 6/5)

"I don't think we are due for a big correction right away," says ERIC MILLER of DONALDSON LUFKIN & JENRETTE. "I think there's still too much money trying to press into this market. Another day or two, perhaps it wouldn't be surprising, but I think the trend is still higher short-term." Mr. Miller credits the market's rise to the drop in interest rates both here and abroad and a reduction in inflation fears. He recommends holding some cash and being selective in choosing stocks. He feels the best values can be found in individual secondary stocks. (FNN "Marketwrap", 6/5)

"Anytime when program trading is a fact of life you could have a 5% correction any day," says KEN TOWER of DELAFIELD HARVEY TABELL. He believes a fall of 100 points on the Dow is likely, but such a pullback would be only temporary. "I think we can see 3100 on the Dow without too

much trouble." (CNBC "Business View", 6/5)

"The market was just tired today," says JAY GOLDINGER of CAPITAL INSIGHTS. "We've gone up so far so fast, I think we just had a breather [yesterday] more than anything else. Bonds were down just a little after a major advance and I think stocks may rest for a few days, but then continue higher." (UPI, 6/5)

"I don't think that the correction has run its full course," says MONTE GORDON, director of research at DREYFUS CORP. "You've crossed through something like 2900. You're going to go back and test it. I'd be more concerned if the market didn't give the ground. I feel more comfortable that there has been a little bit of an escape valve in here." Gordon feels that once the market completes its regrouping, probably around the end of June, it may reach as high as 3200. (CNBC "Market Wrap-Up", 6/5)

"The market has crept up a bit into over-valued territory. But the same thing happened in early 1987, and the Dow headed even higher," says JAMES SCHMIDT, chief investment strategist for CAPITAL MANAGEMENT CORP. "The Dow could go up another 200 points from here." ("USA Today", 6/6)

"What we're seeing is a little bit of consolidation, which is totally to be expected," says JOHN A. CONLON JR., a managing director at ROTHSCHILD INC. "You could see some continuation of this for the next session or two." (WSJ, 6/6)

NORMAN MAINS of BATEMAN EICHLER says the rally is far from over. In fact, it may get a boost from the fall in oil prices. "It could turn into an oil market. If we get further weakness in oil prices you'll get a positive impact on interest rates from that. You've got the CRB index going down, you've got the dollar going up ... it all points to higher prices." (FNN "World Business Update", 6/6)

STOCK TIPS:

MICHAEL BENSON of SHEARSON LEHMAN HUTTON reports oil and financial stocks are down in London this morning. Traders are also waiting for word on rumors that UPJOHN may be the target of a takeover bid. The stock moved up a point in the last 10 minutes of trading in New York yesterday and London traders are waiting for confirmation of the takeover rumors before formulating their investment strategy. (FNN "World Business Update", 6/6)

ROGER HONOUR, manager of the ALLIANCE TECHNOLOGY FUND, says it may take a strong stomach to invest in technology issues because of their inherent volatility, but the rewards are usually great. His favorite stocks include AUTODESK, LOTUS and KLA INSTRUMENTS. ("Nightly Business Report", 6/5)

GEORGE BOYD of KIDDER PEABODY thinks most stock shares have become a little too pricey. "The expected total return on stocks is only 4.3% higher than the yield on one-year Treasuries. That's made us move money into bonds," says Boyd, who upped his bond allocation from 20% to 30% at the beginning of May, when long rates topped 9%. As for equities, Boyd still likes drug companies, retailers and money center banks. Some of his favorite companies: MERCK, TOYS 'R' US and CHASE MANHATTAN. ("Fortune", 6/18)

"HOME DEPOT has emerged as the company which is head and shoulders above anybody else in the industry," says DONALD TROTT senior vice- president of research at DEAN WITTER REYNOLDS. "Every market they have gone into they have not only quickly come to dominate, but have achieved a market share far in excess of what anyone had anticipated." Trott believes the stock could go as high as $70 per share, but it closed down 1 1/8 yesterday at $60 per share. (FNN "Marketwrap", 6/5)

JAMES SCHMIDT, chief investment strategist for CAPITAL MANAGEMENT CORP. says that one has to blend in a number of factors when choosing a stock. "There are plenty of stocks that are good values, but happen to be selling at a higher P/E than the market. You can justify a higher P/E for higher earnings growth." Mr. Schmidt likes three stocks that fall into this higher P/E category: BROWNING- FERRIS INDUSTRIES, AVERY INTERNATIONAL and BRISTOL-MYERS SQUIBB. ("USA Today", 6/6)

GRAHAM TANAKA of TANAKA CAPITAL says that "growth stocks have generally underperformed the market averages. Now they are poised to reverse that trend in the sluggish economic environment I envision of this decade." Five future growth standouts favored by Tanaka are: AIRBORNE FREIGHT, INTEL, NATIONAL DATA, FEDERAL NATIONAL MORTGAGE ASSOCIATION and TELEFONICA. ("MONEY", June 1990)

DON HAYS, director of investment strategy for WHEAT FIRST BUTCHER & SINGER in Richmond, Va. believes the market is in the opening stages of an upswing that could last well into autumn. Currently he is 54% in stocks, 40% bonds and 6% cash. He has big hopes for stocks on the industrial side of the economy: BAKER HUGHES, the oil services company; HARNISCHFEGER INDUSTRIES, which makes heavy equipment; and glassmaker CORNING. ("FORTUNE", 6/18)

PIPER, JAFFRAY & HOPWOOD INC. recommends stock in WAUSAU PAPER MILLS CO., a maker of specialty and fine printing paper used in items such as greeting cards and food packaging. Fiscal 1990 earnings will be below anticipated levels due to problems at one of its mills, but profits should rebound to an average 15% annual growth of the next five years due to steady demand for its high-profit products and falling pulp prices. ("USA Today", 6/6)

SALOMON BROTHERS INC. analyst JACK SEIBALD has downgraded PRICE CO. from a hold to a sell on a decline in same-store sales. "Clearly, the trend [for this indicator] is still downward," says Seibald. "It hasn't bottomed yet. That's what concerns me." Price's stock fell 2 1/2 to 36 3/4 yesterday as the company reported flat results for its fiscal second quarter. ("Investor's Daily", 6/6)

"Financial World" magazine lists, in order, the following industries as having the best earnings prospects in the second half of 1990: oil - drilling, machine tools, oil - equipment & services, oil - secondary, oil - pipelines, media, computers, engineering/construction, retailing - general merchandise and telecommunications. Despite Tuesday's drop in oil prices, PAUL GIBSON says that the magazine analysts believe that oil prices will remain relatively stable at $18 a barrel. The industries with the worst estimated earnings growth for the rest of the year are: lodging, metals - aluminum, metals - steel, forest products - wood, and securities brokerage. The companies with the best estimated earnings growth and yield potential for the remainder of the year are HONEYWELL, BOEING, KELLOGG, AMERICAN CYANAMID and ELI LILLY. (FNN "Marketwrap", 6/5)

ANDREW ADDISON of "The Addison Report" favors RAYMOND JAMES FINANCIAL for the aggressive investor because of its strong short position and heavy volume. He also likes UNIVERSAL FOODS with its estimated growth potential of 16% for the next year, high earnings and healthy volume. (FNN "World Business Update", 6/6)

#90157m0003 06/06/1990 ~Market Consensus Surveys

FALLS CHURCH, VA (JUNE 6) MCS -- A SAMPLING OF TODAY'S COMMENTARY COMPILED BY MARKET CONSENSUS SURVEYS, INC. IN TWO SECTIONS (1) STOCKS (2) MONEY & ECONOMY.

MONEY & CREDIT:

The dollar's failure to reach 1.7000 marks during European trading led to selling of the U.S. currency below 1.6900 marks, says CHARLES COSSENTINO, a vice president at DEUTSCHE GENOSSENSCHAFTSBANK in New York. Mr. Cossentino says their outlook for the dollar against the mark remains bullish, with nervousness over the domestic economic consequences of unification again leading the list of factors weighing on the West German currency. (WSJ, 6/6)

A "Wall Street Journal" story reports that despite signs of a stagnant economy, Federal Reserve officials appear to have no intention of cutting short-term interest rates. "I am comfortable with policy as we sit here today," says FED GOVERNOR EDWARD KELLEY. Mr. Kelley adds that a recession is possible, but says, "I don't see that in the cards at this time and I

don't expect it." ROGER GUFFEY, president of the FEDERAL RESERVE BANK OF KANSAS CITY agrees saying, "I think the best analysis might be that we are accomplishing precisely what we set out to do. The economy is slowing into the area of 2% growth." CLEVELAND FED PRESIDENT LEE HOSKINS says that the employment numbers haven't changed his views. "We shouldn't react to short-term numbers. There is a lot of noise in the economic numbers that come out, and our ability to forecast is quite weak." (WSJ, 6/6)

VARICK MARTIN of MANUFACTURERS HANOVER says rumors that the Fed won't ease credit any time soon will impact today's currency trading. "It will probably help the dollar. High interest rates in stable currency markets--and they are stable now--favor higher interest rates, but it probably isn't very good for the bond market." (FNN "World Business Update", 6/6)

Interest rates falling? "No, they're not coming down. No, they're not going to continue coming down," replies LOUIS EHRENKRANTZ of EHRENKRANTZ & KING. FEDERAL RESERVE BOARD CHAIRMAN ALAN GREENSPAN is "more worried about inflation than any other economic factor." (FNN "Business Tonight", 6/5)

"I wouldn't expect an easing just yet," says MARTIN REGALIA of the NATIONAL COUNCIL OF SAVINGS INSTITUTIONS. Regalia feels central bank policymakers will wait until more data confirms the present economic trend and more importantly, until they see inflation is under control. (Reuters, 6/5)

PAUL KRONLOKKEN of PIPER, JAFFRAY & HOPWOOD says that yesterday's decline in the bond market was an enigma. He pointed out that nothing occurred to change perceptions of inflation or interest rates, so he concluded, "It was probably profit taking." (NYT, 6/6)

"Bond yields will have difficulty moving lower since core inflation remains around the 4.5% level," said senior analysts at KIDDER, PEABODY & CO. "In this type of inflation environment, the lower bound on (Treasury) bond yields is 8.25%." This economic situation should convince the Fed that, "policy should remain on hold until the third quarter, yet a strong case is building for an easing move" in the next three months, according to these analysts. ("Investor's Daily", 6/6)

"I think global equity markets are being pushed up to a degree by Germania and Europhoria," says MADHAV DHAR, global equity strategist at MORGAN STANLEY. "At the same time we think the world economy is slowing down, so we are heavier in bonds than usual." ("Fortune", 6/18)

THE ECONOMY:

"We're already in a recession or will be by the end of the year," says

DAVID RANSON of H.C. WAINWRIGHT. ("Newsweek", 6/11)

"Basically, economic activity is slow, and I don't see any inflationary pressure that would generate a crisis and a hike in interest rates," says TIM CLARA of SEQUOR GROUP. "The Fed's going to watch employment, and that employment number we had last week was the significant number. (FNN "Marketwrap", 6/5)

The economy may receive further damage from the credit crunch if several experts are to be believed. When credit tightens, "small business gets the worst of it," says WILLIAM A. BROCK, an economist at the UNIVERSITY OF WISCONSIN. At the same time, small business expert DAVID L. BIRCH of COGNETICS INC. points out that small companies are the "flywheel that keeps the economy going." ("BusinessWeek", 6/11)

"Financial World" magazine's PAUL GIBSON has a mid-year forecast that is quite bullish on the economy. He says the full year forecast last December was quite bullish as it foresaw a 13% gain in earnings for the big 1,000 companies and now the forecast is even more bullish seeing a 16% gain in earnings for the year. "We see GNP for the balance of the year running at about a 3% growth rate, capital spending staying strong, interest rates looking fairly nice and the money supply being well regulated by Mr. Greenspan. We are quite bullish, certainly." (FNN "Marketwrap", 6/5)

LOUIS EHRENKRANTZ of EHRENKRANTZ & KING believes that the recent Summit will bring business opportunities to the United States. The Summit "opens up Middle/Eastern Europe to the American market." Ehrenkrantz points out that "if 1% of the communist countries became middle class, we would have a bigger market than we've had from the turn of the century." (FNN "Business Tonight", 6/5)

IN WASHINGTON:

The BUSH administration unveiled its long-awaited proposal to shift oversight of stock-index futures to the SECURITIES AND EXCHANGE COMMISSION. "The fact that we have separate regulators at this time is history," says TREASURY SECRETARY NICHOLAS BRADY. "It's the way things started, but it's not the way things should be." (WSJ, 6/6)

After 40 minutes of debate yesterday, the House of Representatives passed legislation designed to make American companies more competitive by limiting their liability for anti-trust violations. REP. NORMAN Y. MINETA (D. - Calif.) called the bill "a large step toward helping United States high-tech industries resume their leadership." Others, however, were not quite so complimentary. As " we are trying to remove investment restrictions around the world," said REP. BILL FRENZEL (R. - Minn.). He argued that the bill "discriminates against international investment."

The measure eventually passed in a voice vote. (NYT, 6/6)

#90157p5545 06/06/1990 ~PR Newswire

OREM, UT (JUNE 6) PR NEWSWIRE - Wicat Systems Inc. (NASDAQ: WCAT), announced today that its subsidiary, Wicat Systems Ltd., located in the United Kingdom, will provide Thai Airways International with computer-based training software and systems valued in excess of $400,000.

Under the agreement, Wicat will provide Boeing 747-400 avionics courseware which was jointly developed with the Northwest Aerospace Training Corp. (NATCO).

Training systems to be installed in Bangkok will consist of three upgraded S-2260 Wicat fileservers, one of which will be used for maintenance training and two for flight operations. Additional equipment will include two WIT 4000 Novell fileservers and 16 WIT 4000V workstations in Thai's Maintenance and Flight Operations centers.

Courseware to be delivered on the network includes 747-400, MD-11, A300-600, ATR42, and A310.

This installation is one of the first to configure a computer-based training system to deliver courseware for all three major aircraft manufacturers (Boeing, Douglas, Airbus).

Wicat Systems is a world leader in technology-based training and education solutions, providing products and services to help clients achieve 30 to 50 percent learning improvement in schools, industry and government. Wicat's stock is traded in the NASDAQ market under the symbol WCAT.

CONTACT: Sally Jenkins of Wicat Systems Inc., 801-224-6400, ext. 304.

#90157p5548 06/06/1990 ~PR Newswire

PRINCETON, NJ (JUNE 6) PR NEWSWIRE - The board of directors of the Tobacco Merchants Association of the United States Inc. (TMA) announced today that Ernest Pepples, senior vice president of Brown and Williamson Tobacco Corp., has been elected chairman of the board of the TMA.

"The tobacco industry must pull together to face the many challenges of the 1990s," said Pepples. "I believe that through the TMA's efforts the industry will unite to meet these challenges."

Pepples has been a member of the TMA board of directors since May 1976. He also serves as a member of the boards of directors of the National Tobacco

Council of Washington D.C. and of the Council for Tobacco Research (USA) Inc. of New York City. He is the tobacco manufacturers' representative to the Kentucky Tobacco and Health Research Board at the University of Kentucky in Lexington, Ky.

Pepples joined Brown & Williamson Tobacco Corp. in 1972 as assistant general counsel and secretary. In 1975 he was appointed vice president and general counsel and elected a director. In 1980 he was appointed senior vice president.

Before joining B&W, Pepples was a partner in the law firm of Wyatt, Grafton & Sloss. He received an A.B. degree from Yale University in 1957 and an LL.B. degree from the University of Virginia in 1963. He served as regular army officer from 1957 to 1960. He is a member of the American Bar Association and the Kentucky and Louisville Bar Associations.

A native of Louisville, Pepples is married and has three children. Celebrating its 75th year, the TMA is the oldest tobacco trade association supported by companies and organizations in all sectors of the tobacco industry including growers, manufacturers, suppliers, leaf dealers, tobacco product distributors, securities firms and management consultants. The TMA is the nation's foremost source for current, objective information on the tobacco industry.

CHICAGO (JUNE 6) PR NEWSWIRE - Three of the country's leading entertainment and communications companies -- Acclaim Entertainment Inc., Saban Entertainment and Bohbot Communications Inc. -- are joining together to launch "Video Power," an innovative, 30-minute syndicated live action and animation television series. Geared to a teen and "tween" audience, "Video Power" will air five days a week this fall, on independent stations nationwide.

"Video Power" will feature both live action and original animation. Its live host, Johnny Arcade, greets viewers every show, offering news and information pertaining to the video game industry. He is the "ultimate video game player" and in the animated portion of the show, Johnny directs the "Power Team" -- five video game characters who have sprung from their cartridges and join forces to combat an evil crime syndicate.

Members of the "Video Power" cast of characters include "Kwirk," the chilled tomato star of the new puzzle/maze game for Nintendo's Game Boy; "Max Force," and "Mr. Big" from the forthcoming anti-drug themed Nintendo Entertainment System title and coin-op hit, Narc; Tyrone from the "basketbrawling" arcade game, Arch Rivals; Kuros, the knight warrior star of Wizards & Warriors and IronSword: Wizards & Warriors II video games; and Bigfoot, the 4X4 monster truck.

"Video Power," which represents Acclaim's first venture within the television industry, has already received clearance in 65 percent of the television markets nationwide, including the top 10 markets in the country.

Saban Entertainment is a broad-based entertainment company specializing in the creation, production, acquisition and distribution of all forms of television programming and music for the worldwide marketplace, providing programming in all day parts to all media including network, first-run syndication, cable television and home video. The company is also a leading supplier of music for television, both domestically and internationally.

Bohbot Communications Inc. is a multi-faceted communications company specializing in media planning and buying, television production and distribution.

Acclaim Entertainment Inc. (NASDAQ: AKLM) is a leading publisher, marketer and distributor of home entertainment products under the Acclaim and LJN labels. These include Nintendo Entertainment Systems software, Nintendo Game Boy compact video system software, wireless remote controllers and

hand-held electronic video games.

Nintendo, Nintendo Entertainment System and Game Boy are trademarks of Nintendo of America Inc.

#90157p5575 06/06/1990 ~PR Newswire

HOUSTON (JUNE 6) PR NEWSWIR - Compaq Computer Corporation (NYSE:CPQ) today announced the availability of COMPAQ personal computers in Mexico through six authorized COMPAQ computer dealers. The newly authorized dealers are Division Conectividad, Grupo Cige, Grupo Tea, Pixel Internacional, Execuplan, and Mundo Digital. In addition to announcing the availability of COMPAQ products, Compaq announced that it will also provide comprehensive sales training and technical support programs for these dealers.

Compaq began sales operations in Latin America in 1989 by authorizing dealers in Chile, Colombia and Venezuela. In 1990 dealers were authorized in Argentina and Trinidad.

"Due to the increased demand for COMPAQ products throughout Latin America, we saw the need to have fully trained authorized COMPAQ computer dealers in Mexico in addition to the five countries in South America", said Tom Howard, director, International Market Development, Compaq Computer Corporation.

Compaq Computer Corporation operates 17 wholly owned sales and marketing subsidiaries located in Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Italy, the Netherlands, New Zealand, Norway, Singapore, Spain, Sweden, Switzerland, and the United Kingdom. The company also has manufacturing facilities in Houston, Scotland and Singapore. Compaq employes more than 7,000 people in North America and over 10,000 people worldwide.

Compaq Computer Corporation is a world leader in the manufacture of PC systems, and desktop, portable and laptop business personal computers.

Founded in February 1982, Compaq is a Fortune 200 company with 1989 worldwide sales of $2.9 billion. COMPAQ products are sold in 63 countries through a network of more than 3,000 authorized COMPAQ computer dealers.

#90157p5576 06/06/1990 ~PR Newswire

CHICAGO (JUNE 6) PR NEWSWIRE - Entertainment software leader, Activision, and Twentieth Century Fox Licensing and Merchandising Corp., have entered into an agreement granting Activision rights to develop video and computer games based on the two greatest creatures of our time: the "Aliens"(TM) and "Predator"(TM), from the hit movies by the same names.

Under the agreement, Activision will develop "Aliens vs. Predator" across multiple computer and video game formats, including a Christmas 1991 release of the game for the Nintendo Entertainment System (NES).

Popularized by the Twentieth Century Fox blockbuster movie and more recently by the Dark Horse Comics, "Alien" is a sci-fi thriller that terrified more than 50 million movie-goers worldwide since the release of the original movie and its sequel, "Aliens," in the mid-1980's.

Still a major hit in the video rental stores, the star creature in "Aliens" is an ideal match for the powerful mercenary "Predator," based on the popular hit movie starring Arnold Schwarzenegger. In "Predator," Schwarzenegger is stalked by an alien manhunter that is relentless in its pursuit; in "Aliens," a group of space adventurers confront a hideous creature that is seemingly unstoppable ... until now with the ultimate confrontation of "Aliens vs. Predator." Dark Horse Comics has recently begun publishing a successful comic book series of the same name. Twentieth Century Fox is planning to release sequels to both "Aliens" and "Predator" in the coming year.

Activision has long been a leader in developing video and computer games based on hit motion pictures, most recently with the release of "Die Hard " another Fox movie that was one of the top-grossing films of 1989.

Activision's parent company is MEDIAGENIC (NASDAQ: MGNC), an international publisher of floppy-disk, cartridge and CD-ROM based entertainment software headquartered in Menlo Park, Calif. The company publishes Activision, Infocom, Gamestar, Electric Dreams and ZSoft software and serves as an exclusive distributor for Absolute Entertainment, Interplay Productions, Dynamix Inc., Sierra On-Line and System 3.

"Alien," "Aliens" and "Predator" are trademarks of Twentieth Century Fox Film Corp.

SCOTTSDALE, AZ (JUNE 6) PR NEWSWIRE - EXECUTONE Information Systems Inc. (NASDAQ: XTON), announces the immediate availability of the INFOSTAR(R)/CA 100 Call Accounting package, a sophisticated software-based management tool.

The menu-driven INFOSTAR(R)/CA 100 runs on an IBM PC, XT/AT, or compatible. The INFOSTAR(R)/CA 100 software interfaces with the customer's telecommunications system via the call accounting port, and collects and stores raw call data on the hard disk of a PC.

INFOSTAR(R)/CA 100 provides numerous useful management reports designed to: help businesses control costs, identify long-distance abuse, verify telephone company bills, bill back clients or internal departments for cost of phone calls and analyze call traffic.

The INFOSTAR(R)/CA 100, can be used with most telecommunications systems, with up to 1,000 phones, and it effectively stores and processes up to 250,000 call records for each reporting period. INFOSTAR(R)/CA 100 stores call data, and processes this information into various reports, which can be printed, viewed on screen or saved to a file. Additionally, remote polling provides multi-location customers with cost-effective options in performing call accounting functions remotely from one central location.

One of the more useful reports is Callgraph, which uses detailed graph formats. Callgraph displays or prints either bar, pie or line graphs. Other reports generated include: extension detail, trunk detail, traffic by trunk, summary by department and summary by call count. Altogether, up to 20 reports can be created, including a special multiple report request and customized reports.

"A very useful feature of the INFOSTAR(R)/CA 100 is that reports can be customized for the individual customer's business. Our customers' needs vary, that is why we felt it was important to create a call accounting package that permits customization, and that is actually indicative of how we design all of our applications-specific telecommunications software," Jim Stirling, vice president of marketing, said.

EXECUTONE Information Systems Inc. designs, manufactures, sells, installs and services voice and data communications equipment for businesses with under 300 desktops, and is the leading supplier of specialized hospital communications equipment. Products are sold under the EXECUTONE(R), ISOETEC(R) and INFOSTAR(TM) brand names through a nationwide network of company-owned direct sales and service offices and independent distributors.

WEST CHESTER, PA (JUNE 6) PR NEWSWIRE - The 33rd Annual Meeting of the Shareholders of Roy F. Weston Inc. (Weston) (NASDAQ: WSTNA) was held at the company headquarters in West Chester on June 1, 1990.

Among the items on the agenda, company shareholders elected two new outside directors to serve one-year terms, increasing the number of outside directors to five.

The newly elected directors are Henry Diamond, partner, Beveridge & Diamond, P.C., in Washington, D.C. and Marvin O. Schlanger, senior vice president and chief financial officer, ARCO Chemical Co.

Additionally, Weston's Chairman Roy F. Weston said the company has retained the public accounting firm of Coopers and Lybrand, which can provide additional services the company currently requires. Mr. Weston thanked the accounting firm of Tait, Weller and Baker for its 23 years of dedicated service.

Weston shareholders also approved an amendment to the company's Employee Stock Purchase Plan to reserve an additional 450,000 shares of Series A Common Stock, to increase the shares available for future issuance under the plan to 545,233.

Reflecting on the difficulties the company experienced last year, Mr. Weston said, "1989 was a year of personal tragedy and an unending flow of unexpected profitability problems and need for organizational change."

Weston's former President and Chief Operating Officer (COO) Thomas M. Swoyer, died last December from brain cancer. As previously reported, Mr. Swoyer's untimely death brought about a rebuilding of Weston's senior management team that extended well into 1990. "We have positive evidence of improved performance and have confidence in the capability and stability of our new team," Mr. Weston said.

Headquartered in West Chester, Weston is a full service environmental engineering, design and consulting firm providing nationwide analytical laboratory services, remediation, facility construction and operations, technical information management and major program management services, through 44 offices.

ATLANTA (JUNE 6) PR NEWSWIRE - C&S will become the first major bank in the Southeast to help its customers replace or repair virtually any merchandise that is lost, stolen or damaged when purchased with checks drawn on select C&S checking accounts or line of credit accounts.

The new C&S "Buyer's Coverage" program will allow customers who use certain C&S accounts to protect most purchases, such as televisions, furniture and other goods from loss, damage, theft or fire. This feature, called Purchase Security, will allow customers to call a toll-free telephone number 24 hours a day, seven days a week, to report claims.

In addition, these C&S customers will receive "Extended Protection," a feature which doubles the original manufacturer's U.S. warranty on most items up to one additional year.

"C&S Buyer's Coverage is a quality service that our customers will find to be a genuine enhancement to their relationship with C&S," said J. Harold Chandler, C&S's director of Corporate Marketing. "This program will not only help our customers avoid costly repair bills, but expensive extended warranties, too."

The program will be available to C&S customers with selected accounts throughout its three-state banking territory of Georgia, Florida and South Carolina. The program will begin this week in Georgia and South Carolina and in Florida on June 18.

While other financial institutions have made similar programs available only to their credit card customers, C&S will extend its coverage to a wide array of customers, including its personal line of credit, senior citizen checking and a new interest-bearing checking account.

Current C&S customers with any of these accounts will automatically qualify for the new program at no extra cost.

The Purchase Security and Extended Protection components of C&S Buyer's Coverage will be provided by National Union Fire Insurance Co. of Pittsburgh. Certain restrictions, limitations and exclusions apply. A program description will be sent to eligible account holders with full details.

#90157p5590 06/06/1990 ~PR Newswire

PASADENA, CA (JUNE 6) PR NEWSWIRE - Jacobs Engineering Group Inc. (NYSE: JEC) today announced the acquisition of the assets of Applied Engineering Co., of Orangeburg, S.C.

Applied is the leader in the new technology of modular construction -- the engineering, design, assembly and construction of chemical process plants in modular form. Applied also is the dominant engineer and supplier of a proprietary line of propane-air standby gas systems for industries and utilities worldwide. Its annual revenues have averaged approximately $20 million over the last three years and it currently has a backlog of approximately $24 million.

Applied enjoys a unique position in the engineering and construction marketplace as a leading constructor of large, multi- modular process plants. Their Advanced Construction Technology(SM) is in use today on major projects for a variety of process industry clients. According to Noel G. Watson, president and chief operating officer of Jacobs, "Modular construction is a radical new technology that may well revolutionize how chemical and process plants are built."

There are numerous factors that drive process companies to consider alternatives to traditional field construction methods. According to James E. Berkley, executive vice president of Jacobs, "We see the entire industry striving for added value, improved safety, and better quality in all engineering and construction services." He noted that most engineering and construction companies have made great strides in recent years in the areas of controlling construction costs and providing operating companies with greater value. However, Berkley added, "In many areas, we still build process plants the same way we did 50 years ago. Therefore, we view the selective use of advanced modular techniques for off-site engineering, design and assembly as a cost-effective way of addressing industry-wide issues of quality, constructibility, and value head-on." Berkley indicated that operating companies which employ advanced modular techniques have reported dramatic improvements in quality construction site safety, schedule, and project costs.

Jacobs Engineering Group Inc. provides single-source environmental and hazardous waste management, consulting, engineering, design, architectural construction, construction management, contract maintenance, and operations services to government and industry worldwide.

RESTON, VA (JUNE 6) PR NEWSWIRE - Systems Center, Inc. (NYSE: SMX) of Reston, Va., and software Developments International Pty. Limited (SDI) of Chatswood, New South Wales, Australia, yesterday announced the consummation of a transaction which resulted in SDI becoming a wholly-owned subsidiary of Systems Center, Inc.

This transaction consolidates ownership and distribution of NET/MASTER, an integrated family of software products for networks management and automated operations.

Under the terms of the previously announced agreement, Systems Center issued 696,930 shares of its registered common stock in exchange for all of the outstanding SDI common stock, in a transaction valued at approximately $43 million and accounted for as a pooling of interests.

Also announced by Systems Center today was the election of John Robinson to the Systems Center board of directors. Robinson will serve as SDI's nominee to the Systems Center board, pursuant to the agreement.

Systems Center, Inc., founded in 1981, currently develops, markets and supports network, systems, and relational database software. The company offers over 50 products, including NET/MASTER for network and systems management; Network DataMover for data transfer among diverse operating environments; VMCENTER II for IBM's VM operating systems; and relational database products for IBM's SQL/DS and DB2.

SDI, a private company founded in 1982, is one of the world's leading developers of network management software. Its concepts in Advanced Systems Management address the most critical problems confronting large organizations today -- their growing dependence on increasingly complex

computer networks.

NEW YORK (JUNE 6) PR NEWSWIRE - The Carter Organization announced today that it has changed its name to Quorum Communications, Inc. Simultaneously, the name of the company's investor relations consultancy unit, Carter Valin Pollen, has been retired and the unit will now be a division of Quorum.

In announcing the establishment of Quorum Communications, Dennis Mensch, chief executive officer, said: "This change should make it clear that we are looking to the future, rather than relying on the past, to establish our corporate identity. While the founder is no longer with the firm, many of our other employees who have made major contributions to the firm's success and strong reputation in the past decade remain. We are all seeking to build an even better firm with an enhanced range of services more responsive to the needs of our current and future clients."

Speaking in London, Angus Maitland, chairman and chief executive of Quorum Communications' parent, the VPI Group PLC, a publicly quoted U.K. communications group, said: "The management team, the consultants, and all the staff at Quorum Communications have come through a very difficult period. This has tempered the company and allowed it to focus on what it does best -- serving a wide range of blue chip clients with sophisticated corporate governance, proxy solicitation, stock surveillance and IR consultancy services."

Quorum Communications has 77 full time employees and has served over 400 clients since 1988. It is located at 237 Park Ave., New York.

WEST CHESTER, PA (JUNE 6) PR NEWSWIRE - QVC Network Inc. (NASDAQ: QVCN) today reported that it has completed its fourth private offering of convertible preferred stock to cable system operators in conjunction with the acquisition of long-term cable carriage commitments.

The offering has resulted in the issuance of 231,285 convertible preferred shares, each share convertible into 10 common shares either after two

years have passed or after QVC common stock has traded at $25 or more for 20 trading days, whichever comes first. According to QVC Chairman Joseph M. Segel, no further offerings of this type are contemplated.

In conjunction with the issuance of the convertible preferred shares, QVC secured 10-year contractual commitments for its televised- shopping network to be carried on a dedicated cable channel, 24 hours a day, to 1.4 million cable subscribers who have been receiving QVC Network via cable systems but were not covered by long-term contracts until now, plus 600,000 new cable subscribers. The commitments were made by nine multiple cable system operators serving approximately 300 communities.

The QVC televised shopping channel is broadcast live 24 hours a day, seven days a week. Transmitted from the powerful Galaxy III communications satellite, QVC now reaches more than 34 million cable subscribers and nearly 3 million satellite dish owners across the entire United States, from Hawaii to the Caribbean.

PHILADELPHIA (JUNE 6) PR NEWSWIRE - Geriatric & Medical Centers, Inc. (NASDAQ: GEMC) announced it has retained the investment banking firm of Wheat First Butcher & Singer Capital Markets to explore and advise in developing and implementing strategies to maximize the company's inherent value to the investment community and to position the company for growth in the rapidly changing health care field.

Management expects to capitalize on the rapidly growing home care market and become a full-service contract management company by considering, where possible, acquisitions, spin-offs, consolidations, joint ventures and refinancing.

The company has also met its fiscal year end May 31, 1990 debt reduction requirement with its primary lending group through the refinancing of $6,175,000 in New Jersey Economic Development Authority refunding bonds with a 30-year amortization at a fixed rate.

Daniel Veloric, chairman, president and chief executive officer of the company, noted that over the past 24 months, "GeriMed's" outstanding debt has been brought down from approximately $140 million to $105 million, for a reduction of about $35 million. "Our company is now better equipped to look at the future and carry out its strategies for meeting the challenges of the changing health care marketplace," he observed.

Geriatric & Medical Centers, Inc. is a multi-disciplinary health care

company serving the home care and long-term care industry through groups specializing in home care equipment and infusion therapies, contract management, including financial dietary and housekeeping services to over 5,500 beds at company-owned and unaffiliated long-term care and residential facilities, and real estate development, including construction management and refinancing.

#90157p5607 06/06/1990 ~PR Newswire

STAMFORD, CT (JUNE 6) PR NEWSWIRE - General Host Corporation (NYSE: GH) today reported a 261 percent increase in earnings for its first quarter ended May 20, 1990. Net income rose sharply to $5.5 million, or $.29 per share, from $1.5 million, or $.08 per share, in the year-earlier period. The nation's largest specialty retailer of lawn and garden products said this marked the second consecutive quarter of record earnings from its core business. Sales in the 16-week first quarter improved approximately 5 percent and comparable-store sales rose about 3 percent.

General Host Chairman Harris J. Ashton said the improvement in first quarter profits resulted primarily from higher sales, reduced operating expenses and careful inventory management; factors that also played an instrumental role in producing record operating results in the final quarter of last year. In the company's fourth quarter ended Jan. 28, 1990 pre-tax income rose by nearly $5 million over the year-earlier quarter.

Operating overhead at the company's flagship subsidiary, Frank's Nursery & Crafts, has been cut substantially this year in line with a highly focused plan to increase profitability, Ashton said. He cited strategic cuts in advertising expenditures and reduced labor expenses as examples of moves having a positive effect on the company's profitability.

Ashton said the company also took a series of steps in the first quarter which, in aggregate, improved the balance sheet. They included repayment of $35 million of 12.5 percent senior debt and repurchase of over $5 million of mortgage notes at a substantial discount. He said the company also took through its income statement a reserve on an equity investment that was deducted from net worth last year; a charge that was more than offset by elimination of income tax reserves no longer required.

General Host operates the nation's largest chain of specialty retail stores devoted specifically to the sale of lawn and garden products, crafts, and Christmas merchandise. Its primary operating unit is Frank's Nursery & Crafts.

#90157p5609 06/06/1990 ~PR Newswire

NORTH WILKESBORO, NC (JUNE 6) PR NEWSWIRE - Lowe's Companies, Inc. (NYSE:

LOW) New York Stock Exchange, Pacific Stock Exchange and London Stock Exchange, announced its May sales totaled $254.0 million, an eight percent increase from May of 1989. Sales to retail customers increased 12 percent and sales to contractors increased one percent. The table below presents sales comparisons and trends:

4 Weeks Ended:			June 1, 1990		June 2, 1989	
		Pct Change	Total Sales (000,000)	Pct of Total	Total Sales (000,000)	Pct of Total
Retail Sales		+12	$171.1	67	$152.3	65
Contractor Sales		+1	$ 82.9	33	$ 82.0	35
Total Sales		+8	$254.0	100	$234.3	100
Comparable Stores(a)	(273)	+1	$222.3	88	$219.7	94
New Projects(b)	(33)	+140	$ 31.7	12	13.2	5
Closed Stores(c)			$ 1.4	1		
Total Stores	(306)		$254.0	100	$234.3	100

(a) - Stores open more than one year on May 1 with comparable square footage.
(b) - Stores open less than one year and stores which have been retrofitted or relocated within the past twelve months.
(c) - 4 stores closed through May 1990

Management commented that unseasonably cool weather during the last two weeks curtailed major sales of air conditioners and other cooling products which held down comparable stores sales gains. As shown, however, new project stores continued to post high average sales, and for the first third of fiscal 1990, total sales have surpassed one billion dollars.

Of further interest, Lowe's Board of Directors declared a quarterly cash dividend of 13 cents per share. This will be the 116th consecutive cash dividend and will be paid on July 31, 1990 to shareholders of record July 17, 1990.

At the annual shareholders' meeting, held on May 21,1990 in North Wilkesboro, North Carolina, Messrs. William A. Andres, John M. Belk, Russell B. Long, and Robert L. Strickland were reelected to three-year terms on Lowe's Board of Directors.

A new contractor yard in Frederick, Maryland and a retrofit project in Denbigh, Virginia opened during the month. Remerchandising projects in twelve stores were completed.

Lowe's now operates 306 stores in 20 states, in the South Atlantic and South Central regions of the United States. Lowe's is a speciality retailer pursuing three businesses in our stores: the home center do-it-yourself business, the consumer durables business, and the building contractor

business.

RIDGEFIELD, NJ (JUNE 6) PR NEWSWIRE - Sentex Sensing Technology, Inc. (NASDAQ: SENS) announced today the introduction of the Scentoscreen, a new product designed specifically to aid states and industrial companies to comply with the proposed Clean Air Bill. The Scentoscreen is a light-weight, battery operated air analyzer which detects emissions of literally hundreds of the volatile organic compounds deemed potentially hazardous by the proposed bill. Totally computerized with a built-in lap-top PC, the device is easy to use and can operate automatically for continuous monitoring.

"We are pleased to introduce this new generation of air analysis equipment " Dr. A. Linenberg, president of Sentex, said. "This is an important and cost effective step in the detection of airborne toxics and we hope that our equipment will serve to improve the health and safety of the general public."

The company also announced that another Sentex product, the Scentoscan, a multipoint monitoring station, has been installed at the Lipari Landfill in Mantua Twp., N.J. The landfill site is ranked by the Environmental Protection Agency (EPA) as the number one hazardous waste site tabbed for cleanup under Superfund. The Scentoscan is being used for perimeter air monitoring during remediation activities to insure that the volatile organic material released during cleanup is not hazardous to the surrounding neighborhoods.

Sentex also reported that it has been advised by the U.S. Customs Service that a proposal submitted to them for the development of a contraband drug detector has been found technically acceptable. Currently, the project is suspended because funding is unavailable, although Sentex has been notified that there is significant effort underway to acquire funding. The funds received, if any, will determine whether or not negotiations between Sentex and the U.S. Customs Service will be initiated on this project.

Sentex Sensing Technology, Inc. manufactures and markets a broad range of detection devices used, primarily, in the environmental and security areas. For further information, call Sentex at 201-945-3694.

CONTACT: Sentex public relations, 201-945-3694.

ARLINGTON, VA (JUNE 6) PR NEWSWIRE - USAir reported virtually no change in revenue passenger miles flown in scheduled service during May compared with the same month of 1989.

Available seat miles flown during May rose 6.6 percent and passenger boardings were down 6.4 percent. May load factor was 58.9 percent versus 62.8 percent for May of last year.

During the first five months of 1990, USAir posted a gain of 5.8 percent in revenue passenger miles versus the same period of 1989, a gain of 6.6 percent in available seat miles flown, and a decline of six-tenths of 1 percent in passengers carried. Year-to-date load factor was 58.7 percent versus 59.1 percent for the same period a year earlier.

Statistics for 1989 periods prior to USAir's merger with Piedmont Airlines on Aug. 5, 1989, have been restated to reflect the combined airline operations of both carriers on a pro forma basis.

	May		Percent	Year to date		Percent
	1990	1989	change	1990	1989	change
Passengers

ORLANDO, FL (JUNE 6) PR NEWSWIRE - RoTech Medical Corporation (NASDAQ-NMS: ROTC) a marketer and distributor of home care products and repackaged pharmaceuticals, announced that it has signed a letter of intent to acquire the home infusion company, VitalCare of America, Inc. and other assets from American Medical Technologies, Inc. VitalCare of America is based in Houston with additional offices in Beaumont, Texas; Dallas; Philadelphia; Longwood, Fla.; and Reno, Nevada.

The purchase is subject to certain contigencies, including the completion of due diligence by Rotech Medical and shareholder and requisite regulatory approval in respect of American Medical Technologies and the execution of a mutually acceptable purchase agreement. The revenues from the acquisition are expected to double the home infusion revenues of RoTech Medical Corporation to over $10 million. Accordingly with this acquisition, revenues from home infusion therapy would represent greater than 50 percent of the total revenues of RoTech Medical.

William P. Kennedy, chairman and president of RoTech stated, "The combination of our successful home infusion segment and the potential inclusion of VitalCare's home infusion, makes for exciting times ahead. While we plan to maintain durable medical equipment services, mainly for ease and quality of patient care, our emphasis is directly focused on home infusion therapy. This aspect of home care has unlimited potential with the introduction of new products and services and its acceptance in new service areas."

The purchase price of VitalCare consists solely of RoTech Medical Corporation stock with an attractive earn-out possibility. RoTech Medical plans to use its cash resources to favorably restructure the debt position of VitalCare.

SIOUX CITY, IA (JUNE 6) PR NEWSWIRE - Midwest Energy Co. (NYSE: MWE) has announced that it will respond as promptly as practicable to a Federal Trade Commission (FTC) request for more information about the company's proposed merger with Iowa Resources Inc. (NYSE: IOR), Des Moines. The merger would create a new holding company to be called Midwest Resources Inc.

The FTC requested the additional information last Friday on pre-merger notification reports filed by the two companies. The request was made under the Hart-Scott-Rodino Antitrust Improvements Act of 1976.

"The FTC's action has the effect of extending their 30-day waiting period after pre-merger notification reports have been filed," said Paul J. Leighton, corporate secretary for Midwest Energy. "The waiting period, which would have expired on June 3, will now be extended 20 days from the date the FTC receives the new information."

Shareholders of Midwest Energy and Iowa Resources approved the proposed merger at annual meetings held on May 23, 1990.

Midwest Energy (MWE) is a holding company with major interests in electric and natural gas utility operations and additional investments in diversified businesses. Midwest Energy's utility subsidiary, Iowa Public Service Co., serves 156,000 electric customers in Iowa and South Dakota and 347,000 natural gas customers in Iowa, Minnesota, South Dakota and Nebraska.

Iowa Resources (IOR) is a holding company with interests in electricity, telecommunications, computers and real estate investments. IOR owns Iowa Power, an electric utility with 250,000 customers, all in Iowa. Iowa Power serves central and southwest Iowa, including Des Moines and Council Bluffs.

#90157p5624 06/06/1990 ~PR Newswire

LATHAM, NY (JUNE 6) PR NEWSWIRE - Coradian Corporation (NASDAQ: CDIN) (Coradian) announced today that it has entered into an agreement with Mitel, Inc. (Mitel) and one of its subsidiaries pursuant to which Mitel would acquire, by means of a cash merger, all of the issued and outstanding capital stock of Coradian. Mitel is a subsidiary of Mitel Corporation (NYSE: MLT).

The Merger Agreement provides for payment by Mitel to Coradian stockholders of a maximum sum of U.S. $10 million. The agreement provides

that such price will be adjusted downward to a minimum of $7,500,000 to the extent of (i) any liabilities arising out of a breach by Coradian of its representations and warranties in the agreement or any other matter as to which Mitel is indemnified under the agreement; (ii) the reduction, if any, in retained earnings or the increase, if any, in accumulated deficit incurred by Coradian from Oct. 1, 1989 until the effective date of the merger; and (iii) certain liabilities of Coradian as of the effective date of the merger that were not reflected in its balance sheet as of Sept. 30, 1989. Under the terms of the agreement, $2,500,000 of the purchase price will be held in escrow for up to one year pending determination of the foregoing adjustments. Such escrow may continue beyond one year to the extent that there are unresolved claims under the agreement at the end of such year.

Coradian suffered net losses of approximately $665,000 and $247,000 during the fourth quarter of 1989 and the first quarter of 1990, respectively, and anticipates additional losses prior to the effective date of the merger. Coradian does not expect that such losses will be recovered prior to the effective date. The price will be reduced accordingly based upon the amount of such losses. Assuming a minimum adjusted purchase price of $7,500,000 and a maximum adjusted purchase price of $8,500,000, it is anticipated that each holder of Coradian's Common and Preferred Stock will receive between $.36 and $.41 for each share of stock owned. Coradian has retained First Albany Corporation as financial adviser to provide a written opinion as to the fairness, from a financial point of view, of the consideration to be paid to the holders of Coradian's Common and Preferred Stock, respectively.

Consummation of the merger is subject to various conditions, including receipt of the fairness opinion from First Albany Corporation and approval of the merger by Coradian's shareholders at a special meeting to be convened for such purpose. If approved by the shareholders, the merger is expected to be concluded as soon as practicable following the shareholders meeting.

Coradian, headquartered in Latham, is one of the leading independent interconnect companies in the United States with over $27 million in sales recorded in 1989. Coradian Corporation is traded on NASDAQ under the symbol CDIN.

Mitel Corporation is an international manufacturer of sophisticated, reliable business telecommunications systems and public switching systems, with annual revenues of more than $400 million. More than 120,000 Mitel telecommunications systems have been sold in over 80 countries. Mitel Corporation's common shares are traded on the Toronto, Montreal, New York and London stock exchanges under the symbol MLT.

EXTON, PA (JUNE 6) PR NEWSWIRE - Intelligent Electronics Inc. (NASDAQ: INEL) today announced that its directors approved a 2-for-1 split of its common stock.

According to Chairman and Chief Executive Officer Richard D. Sanford, the stock split is prompted by a desire to obtain a wider distribution of the company's shares by making the price more attractive to a broader group of investors.

Intelligent Electronics will issue one common share for each share held, payable July 13, 1990, to holders of record July 6.

With more than 6.2 million shares of stock issued and outstanding as of April 30, 1990, the split will result in approximately 12.5 million shares issued and outstanding.

Intelligent Electronics is North America's largest network of computer centers, whose chains include Connecting Point of America, Entre' Computer Centers and Todays Computers Business Centers.

STATE COLLEGE, PA (JUNE 6) PR NEWSWIRE - Richard E. Perry, chairman, president and chief executive officer of C-COR Electronics Inc. (NASDAQ-NMS: CCBL), has announced that C-COR will exercise its option to enter into an Agreement and Plan of Merger with COMLUX, wherein COMLUX will be merged into a wholly owned subsidiary of C-COR.

In an agreement dated Dec. 1, 1989, C-COR agreed to fund the development, by COMLUX, of digital fiber optic equipment for use in CATV systems. Under the terms of the contract, C-COR has paid COMLUX $1,000,000 to fund the development project. In a related agreement, C-COR was granted the option it is now exercising to acquire all of the outstanding shares of COMLUX in exchange for a number of shares of C-COR Common Stock equal to approximately 3 percent of the outstanding shares of C-COR. The option agreement provides both parties with the right to not complete the transaction in the event the price of C-COR stock is not within an agreed upon price range in the 10 days before closing. All principals of COMLUX will remain with C-COR.

Commenting on the contract, Perry stated, "C-COR's acquisition of COMLUX will benefit both companies, as well as the entire cable industry. Fiber has a great future in cable television, and the combination of C-COR's experience in CATV and COMLUX's expertise in digital fiber optics positions us extremely well for the future. Our work with COMLUX in digital fiber and our recent announcement of an agreement with American Lightwave Systems to develop and market AM fiber make C-COR the leader in fiber optic transmission equipment for the CATV industry."

Added COMLUX President Joe Hawkins, "The acceptance of the C-COR/COMLUX digital fiber optic products in the cable industry has been outstanding. Together, C-COR and COMLUX will be able to serve the total system needs of cable operators worldwide."

C-COR, founded over 35 years ago, designs and manufactures high quality electronic equipment used in cable television and data communication systems. C-COR's headquarters is in State College, Pa., with production facilities in Altoona and State College, Pa. C-COR Electronics Canada Inc., a subsidiary of C-COR Electronics Inc., is located in Ontario, Canada, and C-COR Europe B.V., C-COR's European marketing arm, is located in The Netherlands. C-COR's Common Stock is listed in the NASDAQ National Market System under the symbol CCBL.

COMLUX, founded in 1986, designs and manufactures fiber optic transmission systems and associated communications products. The company serves professional television, research and industrial markets with high data-rate digital systems for transmission of video, audio and data signals. COMLUX is a privately held company, with headquarters and production facilities in Mountain View, Calif.

LOS ANGELES (JUNE 6) PR NEWSWIRE - TransTechnology Corporation (NYSE: TT) Chairman Dr. Arch Scurlock stated today that results for the fiscal year ended March 31, 1990, will be worse than the company had previously expected.

"Although final figures will not be available for a couple of weeks, inventory and other adjustments at several divisions are expected to substantially exceed reserves previously established for these purposes. Consequently, we expect to report losses for both continuing and discontinued operations for the fourth quarter and the fiscal year ended March 31, 1990. With most of our problems now behind us, our present fiscal year is projected to be profitable," said Dr. Scurlock.

Dr. Scurlock also said that the previously announced disposition of Space Ordnance Systems division was completed on May 30.

TransTechnology Corporation is a diversified manufacturer of a wide range of aerospace products, advanced-technology products, and industrial products.

#90157p5634 06/06/1990 ~PR Newswire

JACKSONVILLE, FL (JUNE 6) PR NEWSWIRE - Robert L. Stickler, former executive business editor of The Miami Herald, has been named manager of external communications for Barnett Banks, Inc. (NYSE: BBI). Stickler has been a business journalist for 15 years, the last four as business editor of Florida's largest newspaper.

Primary responsibilties will include communication with the news media and managing the company's external communications, including annual and quarterly financial reports as well as executive speech writing.

"We're excited that a journalist of Bob's stature -- with his extensive background in the business press -- is joining Barnett's communications team," said Russell S. Hoadley, director of corporate communications. "He has covered banking for a number of years and is familiar with our company our market and our goals."

Stickler, 39, has been a reporter, columnist and editor at The Miami Herald. He joined that newspaper in 1980 and quickly became its reporter specializing in banking and the economy. He was appointed deputy business editor in 1984, then became executive business editor overseeing all of the Herald's business and economic coverage in 1986. He became a columnist earlier this year.

Previously, Stickler worked as a reporter for The Chicago Sun-Times and the Providence (R.I.) Journal-Bulletin. He has also written extensively for the American Banker.

A native of Chicago, he earned bachelor's and master's degrees in journalism from Northwestern University.

Barnett is a $30-billion-asset, two-state banking organization. It is the leading financial institution in Florida and the eighth-largest in Georgia. The company's stock (BBI) is listed on the New York Stock Exchange.

#90157p5636 06/06/1990 ~PR Newswire

NEW YORK (JUNE 6) PR NEWSWIRE - Assix International, Inc. (NASDAQ-NMS: ASIX), which markets the exclusive Tire Matching(R) service to leading tire dealers, today announced its decision to call all its publicly-traded common stock purchase warrants (NASDAQ-NMS: ASIXW) at an exercise price of $5.75 per share. Calling the warrants will provide the company with proceeds of approximately $3.4 million for future growth, including the development of new markets in Europe.

The company has 588,100 publicly traded common stock purchase warrants outstanding. Each warrant is exercisable into one share of the company's common stock; if all warrants are exercised, total proceeds to the company will be approximately $3.4 million, and shares outstanding will rise approximately 13 percent to 4.6 million.

R. Park Newton, president and chief executive officer, said that the proceeds will be used initially to reduce debt, resulting in interest savings of approximately $400,000 annually. The increased equity, he added, will provide a stronger base and allow increased borrowing capacity to support the company's rapid growth. Part of the proceeds also will be used to develop new opportunities in Europe.

"We are encouraged by the recent interest expressed by several European volume tire chains," Newton said. "The size of the European market for our services approximates that of the U.S., and therefore represents enormous potential for Assix."

The expiration date and time of the warrant call is July 11, 1990, at 5 p.m. EDT.

Holders who fail to exercise their warrants prior to July 11 will receive $.05 per warrant from the company and their warrants will be redeemed and expire worthless.

Copies of the prospectus and instruction form will be sent to warrant holders. Holders who do not receive these materials are urged to contact either their broker or Assix International, Inc.

Assix International markets ride-related automotive services, principally the advanced, proprietary wheel-balancing service called Tire Matching. Providing the equivalent of a new car ride and longer tire life, Tire Matching is considered to be the most advanced and complete wheel

balancing available to the motoring public.

CONTACT: S. Lee Puckett of Assix International, 813-224-0228, or Cindy Knoebel, 212-661-8030, or Linda Eitel, 312-266-7800, both of the Financial Relations Board, for Assix

MONTREAL (JUNE 6) PR NEWSWIRE - The Seagram Company Ltd. (NYSE: VO) today reported operating income of $157 million for the three months ended April 30, 1990, a 25.6 percent increase over $125 million a year ago. Sales advanced 5.4 percent to $1.3 billion from $1.2 billion in the first quarter of 1989.

Net income, which includes cash dividends and unremitted Du Pont (NYSE: DD) earnings, was $187 million, 4.6 percent lower than the $196 million reported in the 1989 quarter. Earnings per share for the quarter were $1.97 compared with $2 in the 1989 period.

"We are pleased with the increases in operating income and sales, which reflect the strength of our international spirits and wine operations as well as an unexpectedly strong performance from our Brazilian affiliate," said Edgar Bronfman Jr., president and chief operating officer.

Seagram said lower unremitted earnings from E.I. du Pont de Nemours and Company -- $79 million in the first quarter vs. $108 million a year ago -- resulted in its lower net income.

Dividend income from Du Pont was $66 million for the quarter, up 13.8 percent from $58 million last year. Seagram held a 24.3 percent interest in Du Pont at the end of the quarter.

The Seagram Company Ltd., with affiliates in 28 countries, is a leading producer and marketer of distilled spirits, wines, coolers, fruit juices and soft drinks.

CAMP HILL, PA (JUNE 6) PR NEWSWIRE - The National Committee for Quality Assurance (NCQA) has concluded that Keystone Health Plan (KHP) Central "is in full compliance with the commonwealth of Pennsylvania standards for quality assurance," and that the plan's "overall QA program is comprehensive and well run." These findings result from the NCQA's three-day site visit earlier this year.

Overall purpose of KHP Central's QA plan is to provide a general oversight of its health care delivery system so as to assure the availability and accessibility of services and the delivery of acceptable patterns of care to its members.

The QA plan's three primary components, according to QA Manager Sandra Ogurkis, R.N., are the credentialing of physicians, the perceptual assessing of quality, and the clinical assessing of quality.

Concerning member perception, in a national membership survey contracted by the Blue Cross and Blue Shield Association and conducted by the Gallup Corp., KHP Central received the "Award of HMO Excellence" for its "Exceptional Member Satisfaction" in 1989.

Operational since 1983, KHP Central is the HMO affiliated with Capital Blue Cross and Pennsylvania Blue Shield. Its 60,000 members work for 600 employers in eight central Pennsylvania/Lehigh Valley counties.

HOUSTON (JUNE 6) PR NEWSWIRE - Stewart & Stevenson Services, Inc. (NASDAQ: SSSS), a leading manufacturer of diesel and gas turbine powered equipment, today reported earnings of $7,237,000, or $.49 per share, on revenues of $143,696,000 for the first quarter of fiscal 1990, compared to $6,598,000, or $.48 per share, on revenues of $127,691,000 in the first three months of fiscal 1989.

"We are pleased with this modest improvement over the prior-year performance, which was enhanced by deliveries under the Peace Shield contract. We accomplished our goal to replace the revenues and net earnings of this major contract within one year," said Bob O'Neal, president.

Currently, both segments of the company are performing well. Activity within the engineered power systems segment, particularly in gas turbine generator, petroleum and bus products, is very encouraging. The company's distribution segment also continues to improve, along with the economy of the Southwest.

CINCINNATI (JUNE 6) PR NEWSWIRE - Eagle-Picher (NYSE: EPI) today announced its intention to sell three operations -- the Eagle-Picher Trim Division, Orcomatic and the Injection Molding Division. The sale of these assets is part of a previously announced plan under which the proceeds from the sale of non-core businesses would be needed, in addition to operating cash flow, to fund anticipated asbestos litigation settlements and expenses for the remainder of 1990 and 1991.

The Trim Division, located in Kalkaska, Mich., manufactures such automotive interior trim as headliners, rear package trays, spare tire covers, door panels and hood insulators. Orcomatic operations consist of two manufacturing facilities at Norwich and Stratford, Ct. These operations make precision molded rubber parts used in automotive and selected industrial applications. The Injection Molding Division, located in Paris, Ill., produces engineered rubber and rubber to metal bonded products primarily for the automotive industry.

STERLING, VA (JUNE 6) PR NEWSWIRE - Star Technologies, Inc. (NASDAQ: STRRC) today announced the successful completion of a $15 million recapitalization program. This program has enabled the company to retire its $11 million subordinated debt and provided additional working capital.

As reported earlier, the recapitalization program involved several investors: GE Capital Corporation, and two other major investors. Under the plan, on May 31, 1990, Star issued $14,750,000 of preferred stock in a private placement to the investors. Under the terms of the agreement, the preferred stock will yield a 10 percent dividend, which may, at the option of the company, be paid in stock for the first two years. This may provide a cash savings of nearly $3 million. The preferred stock is redeemable at full value, at the option of the company, and is convertible

to common at $1. In addition, GE has extended the payment due date for a $797,000 promissory note related to Star's 1988 acquisition of the Graphicon(tm) Products Division until April 1991.

"The plan significantly strengthens our financial condition," said Robert C. Compton, Star's president and chief Executive Officer. "Not only does it enable Star to substantially improve its capital structure through reduced debt, but it also provides us with the capital necessary to bring new products to market. These innovative new products are expected to provide Star with its future growth."

As a result of the equity placement, GE Capital Corporation will hold approximately 25 percent of the company's stock, based on an if-converted basis.

With the completion of the recapitalization, the company's bank line of credit has been extended from July 31, 1990 to Dec. 31, 1990.

In a related matter, Robert C. Compton, Star's president and chief executive officer, has assumed the additional responsibilities of chairman of the board of directors. Compton replaces Herbert S. Shaw, who will remain a member of the Board. Compton has served as president of Star Technologies for two years and a member of the board for one year. He joined Star in 1985 as vice president of finance and CFO, after spending 17 years with the General Electric Company in various financial management positions.

Additionally, the Board has accepted the resignations of Ralph R. Shaw and J. Robert Newton. No replacements have been appointed at this time. The company expects to announce new board members in the near future.

Star Technologies, Inc., is a leading manufacturer of high- performance computing products, including array processors and graphics processors. MINNEAPOLIS (JUNE 6) PR NEWSWIRE - Best Buy Co., Inc. (NYSE: BBY), today reported sales for May 1990 (May 6 through June 2) and the first quarter of the company's 1990-91 fiscal year.

According to Allen Lenzmeier, senior vice president/finance, May 1990 sales of $40 million were 25 percent more than the $32 million achieved for the comparable four-week period last year. Sales for the first fiscal quarter were $127 million, a 21 percent increase over $105 million for the comparable period last year.

Of the company's 49 stores, 34 are currently considered comparable whose sales increased 15 percent from May 1990 and 7 percent for the first quarter. Best Buy considers a store to be comparable the 14th full month following its opening. Seven stores in the St. Louis market were excluded from the comparable store computation due to remodeling. These stores were closed for remodeling for a period of two to three weeks during the months of April and May. Best Buy now reports sales on a 5-4-4 week basis. Net income and earnings per share are disclosed quarterly. First quarter earnings are expected to be released at the end of June, Lenzmeier said.

Best Buy is the fourth largest publicly held consumer electronics and major appliance retailer in the U.S. The company sells nationally recognized name brand consumer electronic products, 35mm photographic equipment, home office products, entertainment software, and major appliances at 49 stores located in Minnesota, Iowa, Wisconsin, South Dakota, Illinois, Kansas, Missouri and Nebraska. Best Buy's common stock is traded on the New York Stock Exchange, symbol BBY.

ROCKY MOUNT, NC (JUNE 6) PR NEWSWIRE - Peoples and Planters banks will sell 11 offices to Unity Bank as part of the proposed merger of Peoples and Planters into Centura Banks Inc. The sale of these offices is a divestiture of deposits required by the regulators.

"Unity Bank offers our customers a continuation of the convenience and service they have enjoyed with Peoples and Planters," said J. Richard Futrell Jr., chairman and chief executive officer for Planters.

"Leigh Ballance (president of Unity Bank) is very familiar with this area and with the employees because of his previous association with Peoples Bank," said Robert R. Mauldin, chairman and chief executive officer for Peoples. "He is very community-minded and will work hard to meet local customers' needs."

The Federal Reserve and the Justice Department require Peoples and Planters to divest a certain amount of deposits to keep Centura Bank from having a concentration of market share in two markets: Nash-Edgecombe counties and Halifax-Northhampton counties.

The offices to be sold are: for Peoples, Bailey, Battleboro, Hobgood, Middlesex, Scotland Neck, Sharpsburg, Spring Hope, Tarboro and Whitakers. For Planters, Red Oak and Seaboard. The 11 offices represent about $100 million in deposits to Peoples and Planters.

Employees in the offices will be offered jobs with Rocky Mount-based Unity Bank as part of the transaction.

"We're excited to have this opportunity to serve a greater customer base in Nash and Edgecombe Counties along with the new markets in Halifax and Northampton counties," said H. Leigh Ballance Jr., Unity president. "Unity Bank is committed to providing the same high level of service and community involvement offered by Peoples and Planters. We look forward to working with the local boards and employees of both banks."

Unity Bank will have 12 offices after the transaction, with assets of $140 million.

CONTACT: Frank Pattillo of Planters Corporation, 919-977-8341; William H. Wilkerson of Peoples Bancorporation, 919-977-4088; H. Leigh Ballance, Jr. of Unity Bank, 919-972-2265

WALTHAM, MA (JUNE 6) PR NEWSWIRE - Workgroup Technologies Corp. (formerly CAD/CAM Technologies) today introduced two network document management software systems, CMS and DCS, that permit end-users and system administrators to manage, control and build interconnecting relationships between documents and files residing in Sun/UNIX-based network computing environments.

Both CMS (Configuration Management System) and DCS (Document Control Software) are designed to help companies connect isolated islands of information, streamline operations, eliminate the complexities of working with the UNIX operating system, and make information in the network intuitively accessible to all levels of users.

CMS (base selling price $19,500 plus $5,000 for installation and training) is a comprehensive management system that enables users to manage information residing on an unlimited number of PCs, UNIX-based workstations, ASCII terminals, minicomputers, and mainframes.

Based on Oracle, the industry's leading relational data base management system, CMS permits system administrators to organize the data base, control user access, perform data base backup functions, and customize operating procedures and data base attributes.

CMS allows users to access and manipulate files and documents, electronically notify other users about any data base transaction, protect files from other users, interconnect projects and files residing in different corporate departments, view files and documents directly from CMS's main menu without running native software, and create an unlimited number of reports using a WYSIWYG report generator.

Installation, customization, and training takes about one week. DCS (priced at $4,000 plus $1,000 for installation and training) is designed to manage information residing on PCs and Sun workstations.

The system incorporates a folder system to organize projects and files, a point-and-shoot method of accessing information, and an advanced help-menu system that gives users instantaneous information on how to perform any data base function.

System administrators can use DCS to create up to 2,000 project folders, each of which can hold an additional 2,000 drawings and documents or 400,000 network documents in total.

Users can create a wide range of standard project status reports - from archive, file history, and file check-out to time accounting and file authorization levels, check-in and check-out folders and files, and perform any number of document-related functions individually or by group.

CONTACT: James Carney, president, (617) 895-1500 or Richard Abrahams, PR, (508) 653-3552, both of Workgroup Technologies Corp.

LAKE SUCCESS, NY (JUNE 6) PR NEWSWIRE - Tambrands Inc. (NYSE:TMB) announced today that it will relocate its corporate headquarters from Lake Success, N.Y. to southern Westchester County, N.Y. All of the approximately 200 permanent employees at the company's current headquarters will be offered positions either at the new location in Westchester County or at Tambrands' existing Technical Center in Palmer, Mass.

Tambrands has not yet finalized its choice of a site in Westchester County but the company expects to move there by the end of 1991. The current headquarters facility in Lake Success will be sold.

The headquarters relocation is part of the restructuring program announced by Tambrands in December 1989. The restructuring program was designed to reduce costs and improve the company's ability to focus on its core Tampax tampon business worldwide.

As part of the restructuring, Tambrands has previously sold its diagnostics and cosmetics businesses, reduced its workforce, and revalued certain investments.

Martin F. C. Emmett, chairman and chief executive officer of Tambrands, said, "In implementing our strategy of focusing on the Tampax business, we have completed the process of reducing our headquarters staff to the point where our current facility in Lake Success has more space than we need. By moving to Westchester, we will improve our access to the Palmer Technical Center and to our existing manufacturing plants in New England and upstate New York, while maintaining proximity to the majority of our employees and suppliers. We will also reduce our operating expenses and increase our cash assets when we sell our existing building and move to a smaller facility in Westchester County."

Before deciding on Westchester County for its headquarters location, Tambrands considered a number of alternatives, including Nassau County, Long Island. Emmett commented, "We regret leaving Long Island, because we have found the environment here to be favorable to business. However, we hope to sell our current headquarters facility to a company that will bring even more jobs to Nassau County."

Tambrands is a multinational manufacturer and marketer of personal care products, including Tampax(R) tampons and Maxithins(R) sanitary pads.

DALLAS (JUNE 6) PR NEWSWIRE - BancTec Inc. (NASDAQ: BTEC) has received an ImageFIRST workstation order valued at approximately $8 million from Monogram Retailer Credit Services Inc., a G.E. Capital company.

Monogram will use 9400 systems with image capability to process payments in three regional centers for various clients of G.E. Capital. All systems are expected to ship in the current fiscal year.

On May 30, BancTec announced that the initial high-speed ImageFIRST system shipped to Chemical Bank Delaware, N.A. for beta testing was accepted and will be recorded as revenue in the first quarter of fiscal 1991.

Additionally, orders for ImageFIRST systems totaling $3.2 million have been received from Indiana Bell Telephone Co. Inc., an Ameritech company, and New York Telephone Co. Both systems will be used to process customer payments.

BancTec provides computerized systems for processing financial transactions, including checks, remittance advices, sales drafts and giro documents. BancTec designs, manufactures, markets and services products that employ optical character recognition, magnetic ink character recognition and image processing technologies to read, digitize, encode, sort, and process financial documents.

#90157p5678 06/06/1990 ~PR Newswire

HOUSTON (JUNE 6) PR NEWSWIRE - Initial production will begin this fall from BP Exploration's first Gulf of Mexico subsea production well. The well is located at High Island Block A-587 in 460 feet of water and will produce to BPX's Snapper platform (East Breaks Block 165), which is located 5.7 miles away in 860 feet of water.

Production facilities are designed for 25 million cubic feet of gas per day. The production well was drilled in 1988 and is connected to a three-slot template. No additional wells are planned at this time.

Two four-inch flow lines and one one-inch glycol injection line will run between the well and the Snapper platform. Once the flow lines have been laid, a semi-submersible drilling rig will be used to clean, perforate and test the well before the hydrualic control line is run back to the Snapper platform.

BPX owns a 75 percent interest in High Island A-587, with Union Texas Petroleum Corp., a subsidiary of Union Texas Petroleum Holdings, Inc. owning a 25 percent interest. The lease was acquired in 1984.

#90157p5679 06/06/1990 ~PR Newswire

NORTHBROOK, IL (JUNE 6) PR NEWSWIRE - Scientists at International Minerals & Chemical Corporation's (IMC) (NYSE: IGL) Mallinckrodt Medical unit in St. Louis and at NeoRx Corporation (NASDAQ: NERX) in Seattle are teaming up with physicians and researchers at several of the nation's leading hospitals to study a new approach for detecting Alzheimer's

Disease, the fourth leading cause of death in the United States.

Mallinckrodt Medical has agreed to fund a three-year research project at the Massachusetts General Hospital (MGH), Boston, to develop a radiolabeled imaging agent for diagnosis of Alzheimer's Disease.

The research will utilize monoclonal antibodies developed at McLean Hospital, an affiliate of the MGH, and the University of Rochester (N.Y.), that bind to an amyloid protein (designated A4) found in the brain of persons with Alzheimer's Disease, according to C.R. Holman, president of Mallinckrodt Medical.

"This research, pending successful results, is expected to lead to a new diagnostic agent for Mallinckrodt Medical, to be available in the mid-1990s," Holman said.

Alzheimer's Disease is a progressive, irreversible disease that attacks the brain and strips away its victim's mental and physical capabilities. As many as four million Americans currently suffer from the disease.

Senile plaques of the Alzheimer brain, containing excess amyloid protein, have been correlated with the intellectual decline of patients. Most victims of the disease also have amyloid accumulation in brain blood vessels.

Definitive diagnosis of Alzheimer's has been possible only after the patient's death because symptoms of the disease are similar to those found in other dementias, some of which are treatable.

Although no treatment or cure has been discovered for Alzheimer's Disease, early detection by means of the new agent would benefit the patient by eliminating the performance of unnecessary diagnostic tests.

Families of Alzheimer's victims would be able to make decisions more readily about the long-term care of the patient, saving dollars which might otherwise be spent in an acute-care setting. Diagnosis also would be essential if a treatment or cure becomes available.

The project at MGH is headed by Charles Marotta, M.D., Ph.D., director of the neurobiology laboratory at MGH and one of the nation's premier experts on Alzheimer's Disease. He is also director of the molecular neurobiology laboratory at the McLean Hospital and associate professor of psychiatry and neuroscience at the Harvard Medical School. The MGH and McLean are affiliates of Harvard Medical School.

NEW YORK (JUNE 6) PR NEWSWIRE - Advatex Associates, Inc. (NASDAQ: ADTX), an independent asbestos abatement company, expects 1990 to be "another year of growth and increased profitability generated by our core business in New York and our New England operation," Joseph P. Donnolo, chairman and chief executive officer, told the annual meeting of shareholders. "In addition, the company's entry into the Los Angeles marketplace is progressing on schedule. Operation there should commence in late 1990 or early 1991," he said.

"The positive economic benefits realized by the abatement of asbestos combined with increasingly stringent asbestos regulations at the federal, state and local levels are fueling our growth and contributing to our optimism for the future," Donnolo continued.

The company announced it has successfully negotiated a new bank credit line of $6 million, replacing a prior credit line of $2.5 million, and has signed a new bonding relationship providing substantially higher limits.

"These actions are highly beneficial to our planned expansion program," Richard C. Telesmanich, president, chief operating officer and chief financial officer, explained.

At the meeting, shareholders re-elected the board of five directors, approved an amendment to the stock option plan for outside directors and ratified the selection of KPMG Peat Marwick as independent auditors for 1990.

#90157p5683 06/06/1990 ~PR Newswire

DEARBORN, MI (JUNE 6) PR NEWSWIRE - CMS Energy Corporation (NYSE: CMS) announced today that Michigan Circuit Court Judge James R. Giddings granted a stay of certain parts of the Michigan Public Service Commission's (MPSC) March 27, 1990, order which would have blocked the sale and leaseback of the Midland Cogeneration Venture (MCV) assets scheduled to close by June 16, 1990.

The Circuit Court's order also permits CMS Energy to sell approximately $1.2 billion of MCV notes and allows CMS Energy to utilize, without restriction, the interest and gain on the notes during the period in which the unstayed portion of the MPSC order is in effect.

The Circuit Court order also stayed a provision of the MPSC's March 27,

1990, order which would have required Consumers Power Company to post a $450 million bond in connection with revenues collected pursuant to the MPSC's 1985 financial stabilization order.

The Circuit Court's order limits the investment of cash realized from the sale of the principal amount of the notes if they are sold while the unstayed portions of the MPSC order are in effect, but allows CMS Energy to utilize the interest and gain on these investments. However, CMS Energy has appeals pending with the Michigan Court of Appeals on a number of related questions dealing with the MPSC's statutory authority and jurisdiction over CMS Energy and its non-utility subsidiaries and businesses.

In an earlier action, on May 23, 1990, the Michigan Court of Appeals vacated a Circuit Court injunction which similarly attempted to enjoin CMS Energy and its non-utility subsidiaries from completing the sale and leaseback of the MCV and utilizing its debt and equity interest in the MCV.

The company believes that this court decision, along with the Circuit Court decision of May 28, 1990, and the Michigan Court of Appeals decision of May 23, 1990, further enhances the prospect for completion of the MCV sale and leaseback by June 16, 1990. Resolution of the remaining related matters is expected to occur at the Michigan Court of Appeals.

CMS Energy Corporation is a $3 billion (sales) diversified energy company with businesses engaged in the distribution of electricity and natural gas interstate storage and transmission of natural gas, oil and gas exploration and production, independent power generation and utility services. CMS Energy Corporation's principal subsidiary is Consumers Power Company, Michigan's largest utility and the nation's fourth- largest combination utility.

VANCOUVER, BRITISH COLUMBIA (JUNE 6) PR NEWSWIRE - Sonatel Telecommunications Corp. (Alberta: STQ) announced today that its subsidiary, Cycomm Corporation, has commenced full-scale marketing of the Secure Cellular System to cellular operating companies in North America.

The Enhanced Privacy Unit was developed jointly by Bell Cellular (a unit of BCE Mobile Communications Inc.) and Cycomm. The system, the first service of its kind, allows cellular operating companies the ability to offer subscribers complete security from listening devices and scanners.

Marketing of the system in Canada will be through Bell Cellular and in the United States through other leading cellular companies. Bell Cellular customers in Canada can obtain the Enhanced Privacy Unit and Privacy Plus Service through Cellular Plus Centres in Ontario and Quebec early this summer.

Cycomm is well advanced in negotiations with a number of major North American cellular operators for the sale of further systems.

Sonatel is involved in the development and licensing of communication products emanating from its proprietary signal processing technology.

TROY, MI (JUNE 6) PR NEWSWIRE - MLX Corp. (NASDAQ: MLXX) announced today the appointment of Thomas A. Burton to the additional position of vice president - Finance & Administration for the Mid-Central Operations of the MLX Refrigeration & Air Conditioning Group.

In announcing the appointment, William P. Panny, chairman and chief executive officer of MLX, stated that "Tom will retain his current MLX position of vice president. Tom will report to William C. Houser, president of the Mid-Central Operations for his new duties."

In commenting on the new appointment, Panny stated that "with the completion of the refinancing of the debt for the Refrigeration & Air Conditioning Group, MLX is now able to redeploy Tom's talents to the operating needs of the business instead of the financing needs."

Houser also added that the Mid-Central Operations are "pleased to be able to obtain Tom's experience to help the Mid-Central Operations in the reorganization and streamlining of their accounting and information systems. All accounting and information functions will report to Tom."

MLX is the largest independent nationwide distributor of commercial refrigeration and air conditioning equipment, parts and supplies, and a leading global manufacturer of high energy friction products and components used in aircraft brakes and in clutches, brakes and transmissions for heavy-duty trucks and off-highway equipment.

FRESNO, CA (JUNE 6) PR NEWSWIRE - Gottschalks Inc. (NYSE: GOT) announced that May 1990 sales increased 23.3 percent to $18.4 million from $14.9 million during the prior year May sales levels. Same store sales for the same period increased 12.1 percent.

For the 1990 17-week period, company sales increases 21.8 percent to $71.0 million from $58.3 million for the prior year 17-week sales results. Same store sales for the 17-week period increased 12.0 percent.

Robert Lawson, chief financial officer, noted that "strong sales increases continue across broad merchandise categories. Apparel sales again led the increases but the home side of the business continued to pick up steam. With Mother's Day falling during the period, cosmetics and accessories ran ahead of plan.

"We're planning to open our Capitola store on June 14 which is three weeks ahead of schedule. With the early opening and our current sales trends we're looking for much improved second quarter earnings results," added Lawson.

Sales results are summarized as follows:

	June 2, 1990	May 27, 1989	Total Percent Increase	Same Store Sales Increase (percent)
Sales, four				

weeks ended	$18,424	$14,944	23.3	12.1
Sales, 17 weeks ended	$70,983	$58,303	21.8	12.0

Gottschalks is a regional department store chain, currently operating 21 department stores and 32 specialty apparel stores in the Central Valley and Central Coast areas of California. Gottschalks offers moderate to upper moderately priced brand-name fashion merchandise, and is in its 86th year of continuous family management.

#90157p5705 06/06/1990 ~PR Newswire

MOUNTAIN VIEW, CA (JUNE 6) PR NEWSWIRE - Adobe Systems Incorporated (NASDAQ: ADBE) today said it has signed an agreement with Xerox Corporation that gives Xerox licensing rights to Adobe's PostScript(R) language interpreter.

PostScript is an industry-standard language that supports computer systems and electronic printing and publishing products.

Xerox, based in Stamford, Conn., said it is developing products for the electronic printing and publishing market that can be integrated into customers' existing computer, network, and software environments. No specific Xerox products using PostScript software were announced and financial details of the agreement were not revealed.

"As one of the most respected and influential companies in electronic imaging, Xerox is in a position to develop outstanding products that incorporate PostScript technology," said Dr. Charles Geschke, Adobe's president and chief operating officer. "We look forward to working together to bring those products to market."

William C. Lowe, Xerox executive vice president of development and manufacturing said, "Incorporating industry standards such as Adobe's PostScript technology into our products will make them compatible with existing hardware and software -- allowing us to help our customers improve productivity with document solutions to their business problems.

"Our strategy is to capture the energy of the desktop computer explosion and be the premier supplier of printers, smart copiers, and publishing machines," Lowe said.

Adobe, the developer of the PostScript page description language, offers the PostScript interpreter on a licensing rights basis to major original equipment manufacturers(OEMs).

Adobe Systems Incorporated, founded in 1982 by Dr. John Warnock and Dr. Geschke, is headquarter in Mountain View, Calif. Adobe is the developer of PostScript, the industry-standard page description language for electronic printing and publishing and Display PostScript(R), a device-independent graphics software component for computer displays. In addition, the company develops and markets the Adobe(R) Type Library and a line of application software products including Adobe Illustrator 88(TM), Adobe Type Manager(TM) and Adobe Photoshop(TM). Revenues for 1989 were more than $120 million.

#90157p5707 06/06/1990 ~PR Newswire

KANSAS CITY, MO (JUNE 6) PR NEWSWIRE - Amended tender offer materials were filed today with the Securities & Exchange Commission, and will be mailed to shareholders of DST Systems Inc. (NASDAQ: DSTS), reflecting revised terms of a proposed acquisition by Kansas City Southern Industries Inc. (NYSE: KSU) of the minority common stock interest in DST, resulting from an agreement and plan of merger entered into yesterday by the two companies.

The amended offer increases the cash purchase price to be paid to DST shareholders, from $14 per share to $15.85, eliminates certain conditions, and changes others, set forth in the original proposal made by KCSI on May 23, 1990. The terms of a proposed second-step merger were also changed. The amended offer and merger has been approved by the board of directors of DST, whose recommendation that DST shareholders tender their shares will be mailed shortly.

Changes to the tender offer and merger resulted from negotiations between KCSI and a special committee of outside directors of DST, who were advised by independent financial and legal counsel. After receiving an investment banker's opinion that the revised transaction was fair from a financial point of view to DST shareholders (other than KCSI and its affiliates), the committee unanimously recommended approval to the DST Board.

Information about the amended tender offer and merger will also be mailed to DST shareholders. Tenders should be made only after careful review of those materials.

DST learned yesterday that an additional lawsuit has apparently been filed in connection with the proposed transaction. The suit was filed by an individual claiming to be a shareholder of DST, purportedly on behalf of all DST shareholders as a class, in the United States District Court,

Eastern District of Pennsylvania, against KCSI, DST and Thomas A. McDonnell (a director and executive officer of DST and KCSI) seeking damages, costs and the divestiture of certain claimed profits and benefits. The suit alleges, among other things, that the defendants have violated federal securities laws by allegedly manipulating the price of DST stock, and misrepresenting and failing to disclose material information in connection with the tender offer in an attempt to acquire the outstanding shares of DST stock for inadequate consideration ($14 per share). The suit also alleges that McDonnell approved the transaction in violation of his fiduciary duties.

As previously announced, on May 17, 1990, certain individuals claiming to be share-holders of DST filed a lawsuit in Jackson County Circuit Court, Kansas City, against KCSI, DST and DST's directors seeking injunctive relief, damages and costs in connection with the tender offer.

KCSI, DST, Mr. McDonnell and the DST and KCSI directors deny the allegations in these suits and intend to vigorously defend against the claims.

CONTACT: Thomas A. McDonnell, 816-435-8660 or Kenneth V. Hager, 816-435-6535 both of DST Systems Inc.

ST. PAUL, MN (JUNE 6) PR NEWSWIRE - Northwest Airlines passenger traffic grew 10.8 percent last month compared with May 1989, NWA Inc., Northwest's parent, said today. The increase marks the 15th consecutive month of double-digit year-over-year traffic growth.

Northwest flew 4.17 billion revenue passenger miles in May, up 10.8 percent from the 3.76 billion revenue passenger miles flown in May 1989. Capacity was up 14 percent to 6.49 billion available seat miles in May from 5.69 billion a year earlier. Load factor dropped 1.8 points to 64.3 percent. The airline's cargo ton miles increased 1.4 percent to 149 million from 147 million a year earlier.

For the first five months of 1990, Northwest flew 19.82 billion revenue passenger miles, an increase of 18.5 percent over the 16.73 billion flown in the first five months of 1989.

Available seat miles were up 16.4 percent to 31.06 billion from 26.68 billion in 1989. Load factor for the five-month period increased 1.1 points to 63.8 percent from 62.7 percent. Cargo ton miles were down 0.1 percent to 734 million from 734.9 million.

NORTHWEST AIRLINES TRAFFIC SUMMARY
System Scheduled Service (000 omitted)

	May 1990	May 1989	Percent Change

#90157p5718 06/06/1990 ~PR Newswire

DENVER (JUNE 6) PR NEWSWIRE - Continental Express announced today the appointment of Pat Lee as director of destination marketing. Lee is an 18-year veteran of Aspen Airways, where she recently served as vice president of sales and marketing.

"Pat is known to tourism, travel and government officials around the world and we're fortunate to have her as part of our marketing team," said Lance Perrin, vice president, marketing of Continental Express. Perrin added, "We are delighted to have someone of Pat's caliber, distinction, and energy to assign to the exciting range of marketing initiatives we have under development."

Lee will be handling the marketing efforts of all leisure destinations for Continental Express, including cities throughout Colorado and Wyoming.

Lee had been with Aspen Airways since 1971. During that time, she had greatly expanded the airline's marketing division, and gained an international reputation for promoting Colorado and the Rocky Mountain West. Lee is particularly well known in the lucrative Pacific Rim and South Pacific travel circles. Lee is a Montana native and a graduate of the University of Arizona at Tucson.

Continental Express has aggressively developed its destination markets with numerous sponsorships, marketing programs, and community action plans. Last season the airline sponsored Aspen's main event, Winterskol, and Telluride's Governor's Cup, as well as developed the "Aspen Preferred Club" for frequent travelers. Continental Express is continuing this effort through the summer months with sponsorships including the Aspen Food and Wine Classic, the Snowmass 1990 Summer Events Program, and Telluride's Bluegrass Festival.

Continental Express, a wholly owned subsidiary of Continental Airlines, operates to over 100 cities nationwide with approximately 800 daily departures. The airline operates a fleet of 105 aircraft including 31 46-passenger ATR 42s and 27 30-passenger Embraer 120 Brasilias. Continental Express boarded over 2.5 million customers in 1989, with over 50 percent of those connecting with Continental Airline flights.

ATLANTA (JUNE 6) PR NEWSWIRE - Scientific-Atlanta Inc. (NYSE: SFA) received a major order for distribution equipment from Columbia International for its Woodbridge, Va., system.

The 550 MHz-type "FT" feedforward trunk amplified distribution equipment will be utilized to rebuild and upgrade a 750-mile system in Eastern Prince William County, Va.

Installation is expected to be accomplished over a five-year period, with approximately 65 percent of the plant located underground. Eventually, the Woodbridge system plans to upgrade further by integrating fiber equipment.

"The upgrade will allow us to enhance the picture quality available to our subscribers," said Troy Fitzhugh, Woodbridge general manager, "and this will raise customer satisfaction levels. We've enjoyed a long-standing

relationship with Scientific-Atlanta. The selection was based on their ability to deliver reliable products and provide excellent, total support." Fitzhugh added that Columbia should eventually increase channel capacity from 36 to 78 and have the capability to offer HDTV.

Scott Weber, Woodbridge chief engineer, said: "Only Scientific-Atlanta's FT equipment provided the performance to the degree that we needed. It also satisfied our requirements for reliable equipment that won't fail and resists downtime."

Scientific-Atlanta offers a complete line of 400, 450 and 550 MHz trunk stations in conventional push-pull, distortion improving parallel hybrid, or feedforward configurations. They are designed to plug into a standard trunk housing with amplifier modules that can be easily exchanged for increased channel capacity or upgrading.

Columbia International is one of the top 50 MSOs in the U.S. with over 191,000 basic subscribers. It has five cable operating systems in five states.

Scientific-Atlanta Inc. is a leader in cable television electronics, satellite-based communications networks, and instrumentation for industrial, telecommunications and government applications.

ROCHESTER, NY (JUNE 6) PR NEWSWIRE - Record sales and earnings were announced today for Transmation, Inc. (NASDAQ: TRNS) by William J. Berk, president. Sales for the year ended Mar. 31, 1990, rose to $23,734,000, up 12 percent from last year's $21,219,000. Net earnings for the fiscal year totaled $1,069,000, a 23-percent increase over last year's $864,000. Earnings per share amounted to $.45 in 1990, a 22-percent increase over last year's $.37.

Transmation also broke its own records in the fourth quarter of the fiscal year, Berk noted. Quarterly sales totaled $6,168,000. This represents Transmation's 10th consecutive quarter of record sales, and represents a 9.6-percent increase over last year's fourth-quarter sales of $5,627,000. "Transmation's earnings were the highest recorded for any quarter in its history," Berk said. "Net earnings increased to $384,000, a 26-percent gain over the year-ago's quarter total of $304,000. Earnings per share amounted to $.16 in 1990's fourth quarter, compared to $.13 in 1989."

The company is currently planning to expand its facilities in Rochester to accommodate its continued growth. Transmation develops, manufactures and distributes instrumentation used in monitoring industrial processes. Its products include analog instrumentation, portable test and calibration equipment, and computerized systems for supervisory control and data acquisition. Transcat, its distribution subsidiary, sells both Transmation products and those of approximately 200 additional manufacturers through catalogs produced by the company.

#90157p5749 06/06/1990 ~PR Newswire

JAMESTOWN, NEW YORK (JUNE 6) PR NEWSWIRE - Electronic Technology Group Inc. (NASDAQ: ETE) today announced that it has completed the first two phases of the Electroluminescent (EL) flat panel display project with Digital Equipment Corp. (NYSE: DEC) and Planar Systems Inc. This project makes DEC the only vendor to offer a large-screen EL flat panel display. Electronic Technology is the sole provider of the power supply for these

units.

According to Ed Lonergan, president of Electronic Technology Group, Phase I of the project, was the Design Verification Testing (DVT) element. The DVT program called for Electronic Technology Group to complete the design and to build 78 prototype power supply units. The power supplies are unique in that they provide for the same output to the flat panel display regardless of the input voltage. In this design, a DEC/Planar flat panel monitor could be used in such diverse power environments as the United States, Europe and Japan without the need for additional voltage adaptors.

The Electronic Technology Group unit provides power to drive a 19 inch (diagonal) flat screen panel supplied by Planar Systems for use by Digital Equipment Corp. for use with DEC workstations and windowing terminals.

Phase II of the program was a Process Maturity Testing (PMT) activity during which period Electronic Technology Group produced 300 units for purposes of reliability testing. This part of the program called for testing each product 250,000 times per hour to determine failure rates.

Currently, Electronic Technology Group is producing and shipping products under Phase III of its contract with DEC and Planar. This is the Ongoing Reliability Testing (ORT) and continued manufacturing. At the present time the company is anticipating shipping 200 to 250 units per month of the power supplies.

Lonergan indicated that he was pleased with the progress of this pilot project and that he is hopeful that the project will result in an ongoing contract and relationship among the three companies.

Frank T. Costanzo, chief executive officer of Electronic Technology Group commented that the original contract for this project was valued at approximately one million dollars. He stated that should all testing verify the reliability of the units as has happened so far, that additional contracts would be expected.

NEW YORK (JUNE 6) PR NEWSWIRE - Bank Polska Kasa Opieki S.A., Poland's largest commercial bank, will be the first East Bloc banking entity to expand to the United States, it was announced today by Theodore M. Sysol of the legal firm of Haight, Gardner, Poor & Havens, which acts as advisor to the bank.

Bank Polska Kasa Opieki S.A. has been granted a conditional license by the comptroller of the currency to open a branch office in this country. The initial branch operation will be located at 470 Park Avenue South in New York.

"Bank Polska is seeking a presence in the United States to provide specialized expertise on the Polish market for American businesses. In addition, the bank expects that its presence will promote investment in Poland," said Sysol.

"The regulations governing joint ventures and foreign investment in Poland are complex and not always well understood in the U.S.," Sysol added. "By providing insight into the workings of the Polish system and the Polish economy, this branch will be able to facilitate trade between the two countries."

Bank Polska Kasa Opieki S.A. will offer a full range of international trade financing, including buying, selling, paying or collecting bills of exchange; issuing letters of credit; receiving or transmitting monies by cable; and making loans and receiving deposits (but not retail deposits of less than $100,000).

Bank Polska Kasa Opieki S.A., Poland's largest commercial bank, currently has branches in Paris and Tel Aviv, and trade companies in New York, Toronto, Frankfurt, West Germany, and Sydney, Australia.

Haight, Gardner, Poor & Havens will be attorney of record for the New York branch of Bank Polska Kasa Opieki S.A.

Founded in 1830, Haight, Gardner, Poor & Havens is an international law firm specializing in transportation and finance. Based in New York, the firm maintains offices in Washington, Houston and San Francisco.

MELVILLE, NY (JUNE 6) PR NEWSWIRE - Greenstone Rabasca Roberts, Inc. (NASDAQ: GRRI) today reported revenues from commissions and fees for the second quarter ended April 30, 1990, of $2,142,019 as compared to $1,354,616 in the comparable quarter of last fiscal year. Net income in the second quarter was $220,693 ($0.02 per share) as compared to $241,750 ($0.02 per share) in fiscal 1989. Commissions and fees for the six months ended April 30, 1990, were $3,786,856, and net income was $156,995 ($0.01 per share).

Comparative six months figures are not provided because the company became a corporate tax-paying entity as a result of going public on Feb. 10, 1989 whereby its "S Corporation" status was terminated.

"Although our second-quarter earnings are somewhat lower than anticipated because of our rapid expansion, we hope to continue our profitable growth over the balance of the year," said company President Ronald Greenstone.

Greenstone Rabasca Roberts, Inc., a full-service advertising agency headquartered in Melville, is the parent company to GRR/Wescot Ganoff Marini, Coconut Creek, Fla.; Greenstone Rabasca Roberts South, Melbourne, Fla., and GRR/Sommer, Englewood, N.J. Additionally, the company has public relations and recruitment advertising divisions.

SAN FRANCISCO (JUNE 6) PR NEWSWIRE - TIS Mortgage Investment Co. (NYSE: TIS) today declared a dividend of 32 cents per share for the quarter ended June 30, 1990, payable July 13, 1990, to stockholders of record as of June 29, 1990. This is the company's third consecutive quarterly dividend of 32 cents per share. In the first three quarters of 1989, the company declared and paid dividends of 30 cents per share.

As a real estate investment trust ("REIT"), TIS Mortgage Investment Co.'s dividends are based on taxable income calculated under the internal revenue code and not on book income which is computed in accordance with generally accepted accounting principles. Taxable income in each quarter of 1989 and for the first two quarters of 1990 exceeded the amount of dividends declared and paid.

TIS Mortgage Investment Co. is a San Francisco-based REIT which invests in various mortgage assets, including Residual Interests in Collateralized Mortgage Obligation (CMO) Bonds. The company commenced operations on Aug. 26, 1988.

#90157p5775 06/06/1990 ~PR Newswire

NEW YORK (JUNE 6) PR NEWSWIRE - Chock full o' Nuts Corporation (NYSE: CHF) today reported net income of $3,167,000, or $.40 per share, for the quarter ended April 30, 1990. This compares to net income of $763,000, or $.10 per share, in the year-ago quarter.

The current quarter's results include an after-tax $1 million, or $.13 per share, extraordinary gain on redemption of convertible subordinated debentures. Last year's results reflect an unrealized gain of $249,000 ($.02 per share) on marketable equity securities and an extraordinary

credit of $107,000 ($.02 per share) arising from the utilization of capital loss carryforwards. Net sales for the quarter were $61.7 million compared to $60.7 million last year. Operating profits increased by 77 percent reflecting increased margins as well as the results of the instant coffee business acquired from Tetley, Inc. on Nov. 7, 1989.

Net income for the nine months was $6,845,000, or $.87 per share, vs. $4,018,000, or $.52 per share. The current period's results include the aforementioned extraordinary gain on redemption of debentures, while last year's results included an unrealized gain on marketable equity securities of $1.6 million ($.11 per share) and the extraordinary credit of $671,000 ($.09 per share). Net sales were $181.1 million compared to $176.1 million in the year-ago nine-month period. Operating profits increased by 57 percent, reflecting increased margins as well as the results of Jimbo's Jumbos, Incorporated acquired Nov. 14, 1988, and the acquired instant coffee business.

Dr. Leon Pordy, chairman and chief executive officer, stated, "The strong growth of all of our food product operations is generating a record performance for the company. We are gratified by the results of our food service coffee operations and its integration of our recently acquired instant coffee operations. We are especially pleased with the operating profits of our peanut company and retail coffee operations."

Chock full o' Nuts Corporation roasts, packs and markets regular, instant and decaffeinated coffees under the Chock full o' Nuts label. Its best known coffee product is its premium, vacuum packed, all-method grind coffee. The company is one of the largest marketers of food service and private label coffee, tea and beverage products, as well as the number one supplier of in-the-shell peanuts in the United States.

SUGAR LAND, TX (JUNE 6) PR NEWSWIRE - Henley International Inc. reported record revenues and earnings during its second quarter ended April 30, 1990. Net revenues of $6.5 million represented an increase of $2.1 million or 48 percent over the $4.4 million reported for the second quarter of fiscal 1989.

Sales in core businesses were up 13 percent in the second quarter of fiscal 1990 as compared to the second quarter of fiscal 1989. The balance of the sales increase results primarily from business acquisitions completed in the first and second quarters of fiscal 1989. Net income for the second quarter was $338,000 or 5.2 percent of sales, up from $128,000

or 2.9 percent for the second quarter of 1989. Despite the increased number of shares outstanding after the initial public offering at the end of the first quarter, earnings per share of 13 cents advanced 62.5 percent compared to 8 cents for the corresponding quarter in the previous year.

Net revenues for the first six months of fiscal 1990 were $12.4 million, an increase of $5.1 million or 70 percent over the $7.3 million reported for the first six months of fiscal 1989. Earnings per share for the six months were 24 cents compared to 12 cents for the first half of fiscal 1989.

Kenneth W. Davidson, chairman, president, and chief executive officer said "I am encouraged by the significant sales growth of our existing products while we continue to look for expansion through acquisition of either new products or businesses."

Henley International develops, manufactures and distributes a diversified range of physical therapy, home pain management and disposable hospital products. Headquartered in Sugar Land, with an additional facility in Southern California, the company has experienced significant growth in revenues and earnings in recent years.

CONTACT: Peter M. Graham of Henley International, 713-240-2442 or 800-237-8749.

#90157p5784 06/06/1990 ~PR Newswire

TROY, MI (JUNE 6) PR NEWSWIRE - United Satellite/America, Inc. (NASDAQ: SAMI) ("US/A") today announced the recent signing of a major agreement to virtually double its size.

US/A, newly listed on NASDAQ, will acquire for stock all of the cable television franchise and related assets of the St. Louis-based Great Plains Cable TV, Inc. Upon execution of the agreement, the Troy- based US/A will add to its holdings four satellite master antenna television (SMATV) franchises in Missouri and Florida, consisting of 3,035 passings. The merger will also mark US/A's first entry into the CATV community franchise industry, as it will also acquire nine CATV franchises in Missouri, Kansas, Iowa and South Dakota, consisting of 9,049 passings, putting US/A's acquisitions from Great Plains at more than 12,000 new passings and 3,200 new subscribers.

US/A presently owns and manages 29 cable television systems servicing mainly apartment complexes in Michigan, California, Florida, Texas and New Mexico with nearly 9,000 passings and over 6,100 subscribers. Including the acquired Great Plains assets, US/A is projected to have total holdings of more than 21,000 passings and at least 9,300 subscribers.

"We're very excited about this opportunity," said US/A Chairman and President Gary A. Rasmussen. "It will allow US/A to further implement its strategy of consolidating and clustering existing cable systems to increase their profitability. Also, with the acquisition of 3,200 new subscribers, each valued at between $1,800 and $2,000 in the marketplace, we feel that the Great Plains systems will provide a substantial boost to US/A's assets, revenues, stock price and stock activity. Great Plains will be a welcome addition to our current network."

The proposed merger will consist of US/A issuing 350,000 shares of a to-be-authorized Series C preferred stock in exchange for currently issued Great Plains stock and assumption of approximately $500,000 in debt. The US/A preferred stock may either be redeemed or converted into three shares of US/A common stock. The agreement is scheduled to close on June 30, 1990, subject to the approval of the board of directors of both companies.

US/A's ongoing strategy is to unite cable systems into cost- efficient geographic clusters, which become more profitable as a result of the economies of scale inherent in such consolidations. US/A has creative approaches for acquiring systems, and then geographically clustering and developing them. Profitable clusters provide US/A with the ability to offer various ownership and investment alternatives, including retention of the systems, syndication of the systems to limited partnership or sale of the systems to already-established SMATV or CATV franchise operators.

#90157p5789 06/06/1990 ~PR Newswire
MOUNT CLEMENS, MI (JUNE 6) PR NEWSWIRE - First Macomb Mortgage Company, a subsidiary of First Macomb Bank, recently announced another new innovative residential mortgage called the Zero Point Plus Mortgage.

Through this mortgage, consumers pay no points and receive a credit equal to one point at closing. (A point is equal to 1 percent of the mortgage amount.) For example, on a $65,000 mortgage with two points, the customer would pay $1,300 in points but also an additional $650. Total cash savings on this program can be substantial depending upon the amount borrowed.

"This mortgage program will be attractive to many consumers, especially those who may be purchasing their first home and have not quite saved enough for a down payment and closing costs," said Timothy J. Cuttle, president. "In addition, many new homeowners don't realize that during this time, they face the added cash requirements of homeowners insurance, potential repairs and remodeling costs. The Zero Point Plus Mortgage lets the home buyer retain more cash toward these costs."

"The impact on the home buyers' monthly payment on the example is $43 more per month," Cuttle added. The cash savings the homeowner achieves would take almost 48 months to exhaust as a result of a slightly higher payment. In addition, the homeowner also benefits from a higher tax deduction because of the payment. This product is also ideal for people who don't plan on staying in their new home for a long time, such as persons subject to employment transfer. The Zero Point Plus Mortgage alleviates the need for the home buyer to put a significant amount of their cash into the expense of closing costs.

"Selecting a mortgage today involves making the best choice possible. It really is a form of financial planning, considering a home purchase is the largest single investment a person will make," commented Cuttle.

ROSEMEAD, CA (JUNE 6) PR NEWSWIRE - Southern California Edison Company today sold $200 million of 31-year, first and refunding mortgage bonds. The company will use the proceeds from the financing for the redemption, repayment or retirement of outstanding indebtedness, the financing of construction expenditures or other general corporate purposes.

The bonds, Series 90B, due 2021, were sold to a group of underwriters led by Salomon Brothers Inc. The bonds were priced at 95.44 percent of the

principal amount with a 9-1/4 percent coupon, resulting in a 9.72 percent annual cost to the company. Salomon's offer was the lowest cost of money among the three competing bids received by the company.

The bonds are expected to be offered to the public by the underwriters at 95.92 percent of the principal amount, to yield 9.67 percent.

This offering is being made only through a prospectus, which may be obtained from the underwriters.

DALLAS (JUNE 6) PR NEWSWIRE - Comstock Resources Inc. (NASDAQ: CMRE) today announced that it has commenced drilling the first well in a seven-well drilling program on the Bivins Ranch Lease, a 54,000 acre oil and casinghead as lease covering part of the West Panhandle field located northwest of Amarillo, Texas. The seven-well drilling program marks the beginning of the company's plans to maximize the overall value of the Bivins Ranch Lease and, accordingly, presently intends to drill approximately 150 wells in 1991 and 130 wells each in 1992 and 1993. Additionally, the company is continuing the development of the Bryan Woodbine Unit by participating in a tertiary recovery pilot program, as well as in the unitization of the Austin Chalk formation.

Comstock Resources Inc. owns and manages income producing assets in oil, casinghead and natural gas, precious metals and real estate, with subsidiary operations since 1865. Additional information about the company may be obtained by contacting M. Jay Allison, president and chief executive officer, at 5005 LBJ Freeway, Suite 1150, Dallas, Texas 75244, telephone number 214-701-2100.

SAN FRANCISCO (JUNE 6) PR NEWSWIRE - MacroMind(R) Inc., the leading developer and publisher of software tools for creating multimedia presentations and animations, announced today the appointment of David Kaiser as vice president of product development.

Most recently Kaiser was director of research and development at Innovative Data Design (IDD), a developer of computer-aided design and drafting software products. Kaiser was responsible for the development of such products as Dreams and MacDraft. Kaiser, a graduate of the University of California at Berkeley, comes to MacroMind with a solid background in product development management for simulation, animation and visualization software.

Founded in 1984, MacroMind offers a family of multimedia presentation and animation tools designed for professional users and Macintosh enthusiasts. Products include: MacroMind Director version 2.0 ($695), the industry's leading interactive multimedia presentation and animation tool; MacroMind Windows Player, a run-time environment that allows users to play back MacroMind Director documents on a PC running Microsoft Windows; MacroMind Three-D ($1,495), a three- dimensional animation, rendering and image manipulation tool for the Macintosh personal computer, and MacroMind Accelerator ($195), a utility program that speeds up and smooths animations for professional-quality output. In addition, MacroMind offers clip sound and animation sequences, available in CD-ROM format ($195) or floppy-disk format ($59.95 per disk).

MacroMind products are available through resellers and distributed by Ingram Micro D, Softsel Computer Products and MacAmerica to computer dealers and other resellers.

MacroMind has a worldwide network of distribution partners that are located in France, the United Kingdom, Canada, Japan, Australia, Sweden, Germany, Italy, Switzerland, Denmark, Spain, Belgium, Holland and Asia. A localized version of MacroMind Director is currently available in France. Japanese and German versions are under development.

A privately held company, MacroMind is backed by the Cole Gilburne Fund and Kleiner Perkins Caufield & Byers.

MacroMind and MacroMind Director are registered trademarks of MacroMind Inc. MacroMind Accelerator, MacroMind Three-D, and MacroMind Windows player are trademarks of MacroMind Inc.

MINNEAPOLIS (JUNE 6) PR NEWSWIRE - Control Data Corp. (NYSE: CDA) announced today that William J. Miller has been named executive vice president and chief financial officer, effective June 11. He will report to Lawrence Perlman, president and chief executive officer.

Miller, 44, has been acting president of Micrognosis, the Control Data business that provides trading room systems solutions. John J. Driver, vice president of marketing for Micrognosis, was named to succeed him as president of the business.

"Bill Miller brings strategic perspective, financial acumen, intelligence and energy to the CFO job," said Perlman. "He is a strong addition to the senior management team that is driving the change process within Control Data."

In addition to overall management of the Finance function, Miller will be responsible for financial policy and strategy, and for interaction with stockholders, commercial bankers, investment bankers and others in the financial community. He will also direct the strategic planning and financial analysis process.

From 1988 to 1989, Miller was president and chief executive officer of Imprimis Technology Inc., the disk drive subsidiary Control Data sold to Seagate Technology Inc. He was a Seagate executive for a short time before he joined Micrognosis in early 1990. Prior to joining the data storage business at Control Data, he was senior vice president for the Consumer Banking and Insurance Services group of Commercial Credit, Control Data's former financial services subsidiary. Miller came to Control Data in 1981.

Miller earned JD and BA degrees from the University of Minnesota. Control Data is a provider of data solutions that integrate hardware, software and services to meet customers' complex data collection, processing and communications needs. Its businesses include the Arbitron Company,

Automated Wagering, Business Management Services, Computer Products, Data Services, Empros Systems International, Government Systems and Micrognosis.

#90157p5813 06/06/1990 ~PR Newswire

BAKERSFIELD, CA (JUNE 6) PR NEWSWIRE - ARCO announced today it has sold all its interest in the South Cuyama oil and gas field in California's Santa Barbara County to an Oklahoma-based general partnership. The sale price was not disclosed.

Effective immediately, the new owners are Santa Barbara Partners of Oklahoma City. Santa Barbara Partners includes Cuyama Oil and Gas company of Oklahoma City, controlled by Stream Energy Inc., also of Oklahoma City; Trio Petroleum Inc. of Bakersfield; and Hallador Production Company of Denver.

Located near the town of New Cuyama, the field produces approximately 1,000 barrels per day (b/d) of crude oil and 2.5 million cubic feet per day of natural gas from 93 wells. The sale also includes a gas treatment plant located in New Cuyama. Approximately 18 ARCO employees are affected.

"The South Cuyama field occupies an important place in ARCO history, but it is no longer central to our expanded efforts in California which are now focused on the San Joaquin Valley area of Kern County," said Paul B. Norgaard, Western District vice president of ARCO Oil and Gas Company, ARCO's Lower 48 exploration and production division.

Discovered in 1949 by Richfield Oil Corporation, one of ARCO's predecessor companies, South Cuyama was one of the first oilfields in California to be unitized and developed through good conservation practices.

Peak daily production reached 38,000 b/d in 1951, and production remained in the 30,000 b/d range until the early 1960s. To date, the field has produced over 200 million barrels of oil and 600 million cubic feet of gas.

#90157p5815 06/06/1990 ~PR Newswire

NEW YORK, (JUNE 6) PR NEWSWIRE - William Shaw, president of Volt Information Sciences, Inc., (NASDAQ: VOLT) announced today that the net income for the second quarter ended May 4, 1990, was $1,067,000 or $.19 per share on revenues of $138,325,000 compared to $352,000 or $.06 per

share on revenues of $118,634,000 for the second quarter ended April 28, 1989.

Net income included an extraordinary gain of $102,000 (net of taxes) or $.02 per share in the second quarter of 1990 and $170,000 (net of taxes) or $.03 per share in 1989 resulting from the repurchases of $800,000 and $2,800,000, respectively of the company's 12-3/8 percent subordinated debentures. Net income was reduced by $1,431,000 (net of taxes) or $.23 per share in 1989 due to the loss from and disposal of discontinued operations.

The net loss for the six months ended May 4, 1990, was $2,384,000 or $.41 per share on revenues of $251,236,000 and included a loss from and disposal of discontinued operations of $885,000 (net of taxes) or $.15 per share and an extraordinary gain of $150,000 (net of taxes) or $.02 per share resulting from the repurchase of $1,150,000 of the company's debentures. The net loss for the first six months of fiscal 1989 of $1,116,000 or $.18 per share on revenues of $226,375,000 included a loss from and disposal of discontinued operations of $1,986,000 (net of taxes) or $.32 per share and an extraordinary gain of $170,000 (net of taxes) or $.03 per share resulting from the repurchase of $2,800,000 of the company's debentures.

Volt Information Sciences, Inc. is a diversified technical services, human resources, computer systems and electronics manufacturing company.

NOTES:
(A) The results of the first six months of fiscal 1990 include gains on the sales of securities of $592,000 ($.06 per share) and an unrealized loss of $345,000 ($.04 per share) to reduce short-term equity investments to market value. The second quarter of fiscal 1990 includes an unrealized loss of $111,000 ($.01 per share).

(B) A substantial joint venture, which operates in Australia, sells yellow page directory advertising under contract for directories to be issued through June 30, 1993. This joint venture produces a major portion of its revenues and all of its profits in the company's second and third fiscal quarters.

(C) During the first quarter of 1990 the company discontinued its full service reproduction and printing operations. The operating losses, previously reported in the technical publication services and other segment, and the losses on disposal, have been reclassified, net of income tax benefits, to loss from discontinued operations. In fiscal 1989, the company discontinued its operations in the business information services market, which had been conducted through two joint ventures.

(D) The extraordinary items are gains due to repurchases, at a discount, of $1,150,000 and $2,800,000 face value of the company's 12-3/8 percent subordinated debentures for six months ended May 4, 1990 and April 28, 1989, respectively.

(E) The 1989 amounts have been restated to conform with the current year's presentation.

NEWPORT BEACH, CA (JUNE 6) PR NEWSWIRE - Mazda today announced U.S. sales figures for Mazda Passenger Cars and Trucks.

MAZDA
May, 1990

		Passenger Cars:	
Passeger car sales	24,960	Mazda 323	2,126
Truck sales	10,989	Mazda Protege	4,736
Total sales	35,949	Mazda 626	4,276(a)
		Mazda MX-6	2,215(a)
		Mazda MX-5 Miata	4,103
		Mazda RX-7	1,460
		Mazda 929	2,321
		Mazda MPV (Wagon)	3,723
		Trucks:	
		Mazda B-Series/MPV (van)	10,989

(a) - includes 5,308 domestically produced units.

The following statement on Mazda's May sales records may be attributed to Clark Vitulli, chief operating officer for Mazda Motor of America Inc.:

"Sales of 35,949 vehicles represent the best May total ever Mazda, eclipsing the previous figure by 12 percent. This outstanding performance was made possible by our best May passenger car sales total ever, and by a strong resurgence in our truck sales. Sales of Mazda's new Protege compact sedan reached their highest level ever last month, and solid performances also were turned in by the MPV multi-use vehicle and MX-5 Miata sports car.

"In addition, for the year to date, Mazda passenger car sales are running 8.3 percent ahead of last year's record pace. The MPV is running over 16 percent ahead of last year. These results show that Mazda has what it takes to compete and thrive in a tough market."

MILAN, Italy (JUNE 6) PR NEWSWIRE - Kraft General Foods (KGF) Italy has announced its plans to acquire majority ownership of the Negroni S.p.A. processed meat company. Terms of the agreement call for KGF to purchase an additional 47 percent of the shares.

Through its Oscar Mayer franchise, KGF Italy presently holds a 25 percent minority interest in Negroni.

Negroni, based in Cremona, Italy, is a leading producer of quality meat products. Founded in 1907, the company had 1989 revenues of 141 billion lira ($117 million). The company employs 800 people at four plants in northern Italy, in addition to its headquarters. Among Negroni's main products are salami, ham and other specialty meats.

According to Ernesto Fugazzola, president of Kraft General Foods Italy, the agreement will create an important new Italian meat group which will allow faster development of processed meats into European markets.

KGF Italy, based in Milan, markets a variety of products in Italy through the following organizations: Kraft, Fini, Invernizzi and Simmenthal. In addition, it holds a 51 percent ownership in Fattorie Osella and 25 percent in Crippa e Berger.

The leading brands of KGF Italy include Sottilette, Philadelphia, Jocca, Mato Mato, Fini, Invernizzina, Mozary, Gim, Robiola Osella, Carne Simmenthal, Tonno Mareblu and Spunti.

KGF Italy is part of KGF Europe, based in Munich, which is one of three divisions of KGF International. KGF International is in turn one of seven operating units that make up Kraft General Foods, an operating company of Philip Morris Companies Inc. (NYSE: MO).

DODGEVILLE, WI (JUNE 6) PR NEWSWIRE - Lands' End, Inc. (NYSE: LE) has named David Dyer executive vice president-merchandising, replacing Russell C. Gaitskill, who has resigned, according to Richard C. Anderson, president and chief executive officer of the direct merchant apparel firm.

The change is effective immediately, said Anderson. Dyer joined Lands' End in July 1989 as managing director of a new business unit that will launch a separate home catalog early next year.

Dyer will continue to serve in that capacity in addition to his new responsibilities in charge of merchandising at Lands' End, which markets traditionally styled casual clothing and accessories for men, women and children.

Dyer came to Lands' End from Burdines, the Miami-based division of Federated Department Stores, where he was senior vice president and general merchandising manager of women's apparel, accessories and cosmetics.

He holds a bachelor of engineering degree in computer science from Vanderbilt University.

Dyer will report to Anderson and is a member of the company's executive and policy committees.

Lands' End net sales for its most recent fiscal year (Jan. 31, 1990) totaled $545 million.

JACKSONVILLE, FL (JUNE 6) PR NEWSWIRE - The Tampa Bay Economic Development Corporation (TEDCO) announced today that First Union National Bank of Florida has committed $1 million to the group's 504 Loan Program to finance small business expansion. First Union will be the lead bank for this project in conjunction with the Small Business Associaiton (SBA).

Organized in 1983, TEDCO is a non-profit economic development company focusing on stimulating private sector investment in community revitalization. TEDCO's primary goals are to assist small businesses by providing alternative sources of financing and to create employment opportunities in the community. TEDCO offers several different loan programs to achieve economic development.

The 504 Loan Program is a fixed asset financing program for expanding small businesses and is the first federal financing tool to recognize the importance of small businesses in the job creation process through their physical plant expansion.

"There is a real need for competitive financing for small business expansion and development, and with this commitment from First Union, we are on our way to meeting that need in this community," said George Unanue vice president of TEDCO.

First Union will take the lead in marketing the 504 program by identifying opportunities for lending to expanding businesses and encouraging other lenders in the community to advance similar commitments to the 504 program. The 504 Loan Program is part of the Lender Commitment Program (LCP) which makes available long term fixed asset financing for small businesses in Hillsborough County.

"The 504 Loan Program is an excellent example of cooperation between the public and private sectors and we will get behind this project and make it work," said Roy Whitehead, First Union's Hillsborough County Area Executive.

The purpose of the LCP is to develop a formal partnership between TEDCO and the lending community in Hillsborough County to effectively manage the small business need to acquire real estate and to purchase machinery and

equipment.

First Union National Bank of Florida, headquartered in Jacksonville, Fla., has assets of $16 billion and 371 banking offices in 33 counties. It is a subsidiary of Charlotte, N.C.-based First Union Corporation (NYSE: FTU), which reported assets of $40 billion at March 31, 1990 and operates banking and financial services in 36 states and two foreign countries.

#90157p5869 06/06/1990 ~PR Newswire

JERSEY CITY, NJ (JUNE 6) PR NEWSWIRE - Square Industries, Inc. (NASDAQ: SQAI), a major parking facilities operator, reported today that the company has continued to maintain its yearly record growth in revenues which, for the year ended Feb. 28, 1990, were $68,131,000, an approximate 20.0 percent increase over the prior year's revenues of $56,769,000.

The company, however, incurred for the 1990 year a loss of $1,591,622 from the sale in March 1990 pursuant to a December 1989 contract of the company's residential properties and the surrender as of Feb. 28, 1990 of $586,844 in security deposits with respect to parking operations at two sites which had not been profitable. As a result, the company realized for the 1990 year a loss of $1,140,000 or $(.94) per share, based on an average of 1,216,667 shares and equivalent shares as compared with net income of $1,700,000 for the previous fiscal year, or $1.43 per share based on an average of 1,189,901 shares and equivalent shares.

Lowell Harwood, chairman of the board of directors, noted that this was the fifteenth consecutive year of increased revenues, attributed by him to higher occupancy levels, increased rates and the net addition during the year of nine parking facilities comprising an additional 4,163 parking spaces. He also reported that since the beginning of the current fiscal year, to date, the company has effected a net addition of seven parking operations and 7,637 parking spaces.

He particularly noted the commencement in May, 1990 of a long-term agreement to manage the approximately 2,000 car parking operation at Bally's Park Place Casino Hotel in Atlantic City, N.J. The Bally's contract, which increases to approximately 3,100 spaces which the company is operating in Atlantic City, is expected to make a material contribution to revenues.

For the quarter ended Feb. 28, 1990, revenues increased by approximately 23.8 percent from $15,071,000 to $18,661,000 from the quarter ended Feb. 28, 1989. However, as a result of the foregoing loss from the sale of the residential properties and the surrender of deposits as to two operations, the company suffered a net loss of $(1,386,000) or $(1.14) per share for the quarter as compared with net income of $745,000 or $.62 per share for the last quarter of the prior fiscal year.

SAN FRANCISCO (JUNE 6) PR NEWSWIRE - Visa International has become the first international consumer payment system in East Germany with the announcement today of its first East German member, Berliner Stadtbank AG. The Visa board of directors for Europe, Middle East, and Africa (EMEA) formally accepted the bank as a member at Visa's annual meeting in Berlin this week.

Berliner Stadtbank will be the first bank to offer plastic cards to East German citizens. The first Visa cards will be issued there in the autumn of this year.

Frank Stelzner, member of the board, Berliner Stadtbank AG, said: "The new constellation in the GDR will create consumer demand for modern and

convenient banking services which Visa can fulfil. Berliner Stadtbank will take the lead in consumer banking product development and Visa cards are a vital part of our strategy."

Jacques Kosciusko, managing director for Visa EMEA, said: "This is another first for Visa in Eastern Europe. It follows our successes in Czechoslovakia, where cards will be issued this summer and Hungary."

Swiss Bank Corp., Basel, also has become a member of Visa International. This is a new development in Switzerland where, until now, no large commercial bank had joined Visa. In addition, the Swiss Bank Corp. obtained a Visa licence for its subsidiary bank in Germany, Swiss Bank Corp. AG Frankfurt, to issue cards in Germany.

"Our new Visa cards will be available during the first quarter of 1991," said Dr. Schlechthaupt, senior vice president, Swiss Bank Corp. "We see an enormous potential for Visa cards in East Germany and will be pursuing all opportunities now open to us."

Visa's presence in Germany was further strengthened this week by the acceptance of Citibank AG Frankfurt which plans to issue Visa cards as a service within its private banking range.

Visa International accepted 16 new members during its 1990 annual meeting. These are: Jardine Fleming (Isle of Man) Limited, Isle of Man Banky Fampandrosoana Ny Varotra (BFV Bank), Madagascar Arab National Bank, Saudi Arabia Berliner Stadtbank AG, East Germany Schweizerischer Bankverein (SBC), West Germany (Deustchland AG) Citibank AG, West Germany V.A.G. NEW YORK (JUNE 6) PR NEWSWIRE - Bankers Trust New York Corporation (NYSE: BT) has priced an issue of $250 million of preferred stock, in four series of $62.5 million each.

The initial dividend rates are as follows: Series E, 6.55 percent; Series F, 6.60 percent; Series G, 6.625 percent; Series H, 6.65 percent. The next dividend rates will be set through a Dutch auction process in 53, 60, 67 and 74 days for the four series, respectively. Subsequent dividend rates will be set through Dutch auctions every 49 days.

The issue, which is expected to be rated a1 by Moody's and A+ by Standard and Poor's, will close on June 14.

Bankers Trust New York Corporation will use the proceeds of the issue to make additional investments in Bankers Trust Company, its principal banking subsidiary.

The underwriting group is comprised of Shearson Lehman Hutton Inc. (lead), Goldman, Sachs & Co., Merrill Lynch Capital Markets and Salomon Brothers Inc. The corporation is planning to place a number of shares directly with investors.

HOUSTON (JUNE 6) PR NEWSWIRE - Sabine Pipe Line Co., a subsidiary of Texaco Inc. (NYSE: TX), has joined the Oklahoma-Arkansas Pipeline Company partnership in its proposed project to transport new gas supplies from the Arkoma Basin of Oklahoma and Arkansas to several major interstate pipelines serving the Midwest and Northeast.

Sabine Pipe Line Co., along with subsidiaries of CMS Energy Corp., International Paper, National Fuel Gas Co., Panhandle Eastern Corp., Reliance Pipeline Co., and The Williams Companies Inc., proposes to build a 352-mile, 36- and 30-inch diameter pipeline from Pittsburg County, Okla. to Tate County, Miss., eventually interconnecting with six interstate pipelines along the route. Panhandle Pipelines Operating Co., a Panhandle Eastern subsidiary, will construct and operate the pipeline.

The Oklahoma-Arkansas Pipeline Co. is requesting an optional expedited certificate from the Federal Energy Regulatory Commission (FERC) to build the $273 million pipeline project, which will have an initial capacity of 500 million cubic feet per day. The request was filed on Oct. 31, 1989.

With timely approval by the FERC and with transportation commitments from shippers, construction of this project will start in the spring of 1991 with the first volumes scheduled to flow in the fall of 1991.

Sabine is an open access interstate pipeline that transports gas in Louisiana, Texas and the Outer Continental Shelf. Sabine operates the Henry Hub, a major natural gas interchange center in Louisiana and the delivery point for natural gas futures traded on the New York Mercantile Exchange.

NEW YORK, (JUNE 6) PRNEWSWIRE - Manufacturers Hanover Trust Company (NYSE:MHC) and Midlantic Corporation (NASDAQ: MIDL) today announced the execution of an agreement under which Manufacturers Hanover will purchase Midlantic's credit card accounts and receivables.

At April 30, 1990, those credit card receivables of Midlantic amounted to approximately $252 million. When the purchase is completed, the premium on the sale is expected to be approximately $60 million.

In addition, Midlantic will enter into an agent bank agreement with Manufacturers Hanover which will enable Midlantic to continue providing customers with credit cards under the Midlantic name.

Charles R. Walsh, Manufacturers Hanover group executive in charge of retail card services, said, "In keeping with our strategy of expanding our profitable national credit card franchise, this transaction represents a quality addition to our portfolio. We are already one of the leaders in the credit card business and look to further diversify our portfolio and build our franchise nationwide."

Frank P. Garnevicus, executive vice president and treasurer, Midlantic Corporation, stated, "This sale represents an important step in our previously announced activities to restructure the corporation's balance sheet, and it will enable Midlantic to concentrate its efforts on its more traditional lines of business."

Consummation of the transaction is subject to federal regulatory clearance. The sale is expected to be completed in the second quarter.

After completion of the transaction, Manufacturers Hanover's managed portfolio of credit card receivables will be in excess of $3.3 billion.

Manufacturers Hanover Corporation, the parent company of Manufacturers Hanover Trust, is a New York money-center bank holding company, with approximately $60 billion in assets, providing financial services through more than 200 retail branches in New York State and offices in 37 countries.

HOUSTON (JUNE 6) PR NEWSWIRE - Republic Waste Industries Inc. (NASDAQ: RWIN) announced it has completed the acquisition of Bay County Development Inc., a Michigan corporation.

Bay County Development has been issued a construction permit for a Class II sanitary landfill in Bay County, Mich. The permit allows for construction of approximately 2.6 million cubic yards of airspace subject to receipt of final zoning approval from the county.

Republic has employed the former owners, David and Mike White to manage the company during the construction phase and to operate the site after construction is complete and the operating license has been issued.

Republic additionally announced that it had recently closed escrow on a private placement of 1,980,000 shares of common stock authorized by the board of directors in January 1990. The $2,772,000 provided additional capital to be used in the company's acquisition program.

"We completed the acquisition of Russ Fetrow Engineering Inc. in February and recently acquired C.S.C. Disposal and Landfill Inc. and Bay County Development Inc. and are progressing toward completing the additional acquisitions we have previously announced, including Alliance Holding Company, R.E. Wolfe Enterprises of Texas Inc. and related companies, the assets of Boyas Excavating Inc. and the assets of Malloy Landfill and Sanitation," commented James D. Lee, president.

Republic Waste Industries Inc. is a waste management company specializing in environmental engineering and the processing, disposal and transportation of solid waste. Republic Waste Industries Inc.'s common stock is traded over the counter.

#90157p5895 06/06/1990 ~PR Newswire

CHICAGO (JUNE 6) PR NEWSWIRE - United Airlines announced today it will award triple mileage to members of its Mileage Plus frequent flier program who fly the carrier's new West Coast corridor service between San Francisco and Los Angeles.

The triple mileage offer for corridor flights, retroactive to April 7 and in effect through Dec. 31, 1990, is part of an enhanced frequent flier promotion directed at West Coast customers. Other elements of the promotion include:

-- the opportunity to earn double miles for paid nonstop flights from the San Francisco and Los Angeles airports to non-corridor destinations throughout the United States;

-- triple miles for flights between San Francisco/Oakland and Portland/Seattle beginning with the third paid segment, and quadruple miles beginning with the ninth segment.

"United Airlines has made the strongest commitment in its history to California and the West Coast," said Jack Pope, executive vice president-marketing and planning.

United's current schedule offers 27 flights every business day between San Francisco International Airport and Los Angeles International Airport with departures scheduled in each direction every half hour.

United also offers customers flying this route the convenience of close-in airport departure gates, express ticketing and check-in, express baggage check, express car rental from Hertz and Dollar Rent A Car and free newspapers.

Any Mileage Plus member who flies 10 corridor segments between April 7 and Dec. 31, 1990, can capitalize on an additional bonus. He or she will qualify to earn double miles on all domestic non-corridor flights that originate or terminate in one of the seven corridor airports: San Francisco, Oakland, Los Angeles International, Burbank, Long Beach, Ontario or Orange County.

The San Francisco/Oakland-Seattle/Portland offer is effective through Aug. 31, 1990, and customers will be awarded triple miles for their third through eighth segments in these markets, and quadruple miles for their ninth and all subsequent segments.

PHILADELPHIA (JUNE 6) PR NEWSWIRE - The board of directors of the Private Industry Council (PIC) of Philadelphia today announced the selection of Patricia E. Irving as president and chief executive officer.

Irving was selected following the recommendation of a search committee formed in March to find a candidate for the position.

The PIC is a non-profit corporation that delivers employment training and job development services in the Philadelphia area.

"The board unanimously selected Patt based on her demonstrated leadership over the last 10 years in the employment and training business," said Frances Carlson, chair, board of directors, Private Industry Council of Philadelphia. "She brings a wealth of knowledge to the position and has developed a commanding and respected presence in the industry. I look forward to working with her," she added.

Irving assumes the position with more than 10 years of employment and training executive experience. Most recently she served as vice president Welfare Reform Initiatives and Participant Services, at the PIC. Since joining the PIC, Irving has held the positions of vice president, Youth Operations and Participant Services, and director of Operations and Neighborhood Relations.

"I look forward to the challenges of this new position," said Irving. "The PIC and it's staff are dedicated to delivering quality services to our clients and therefore ensuring well trained, highly qualified employees to Philadelphia employers."

Responsibilities as president and chief executive officer will be assumed by Irving immediately.

#90157p5905 06/06/1990 ~PR Newswire

HOUSTON (JUNE 6) PR NEWSWIRE - Texas Air Corp. Chairman Frank Lorenzo announced at the company's annual meeting today that Texas Air Corp. is changing its name to Continental Airlines Holdings Inc. As of next Monday, when the change takes effect, the company's stock will trade on the American Stock Exchange under the symbol CTA.

Lorenzo said, "The name change was made to reflect the fact that the principal business of the company is Continental." Lorenzo added, "We will continue to build Continental, to make it ever more successful, to enlarge its global presence, and to make Continental truly one of the best airlines in the skies."

At the meeting, shareholders approved management proposals related to the election of four new directors representing the preferred shareholders,

and 10 directors representing the non-preferred shareholders.

The four directors elected to represent the preferred classes are Lindsay E. Fox, Robert Garrett, James A. Lawrence, and Gerald Tsai, Jr.

The shareholders also approved the re-appointment of the corporation's accounting firm.

In his remarks, Lorenzo said that Continental Airlines' recent financial and operational improvements were gratifying. He cited the airline's improvement in service performance as "evidence of the resurgence of Continental as a service oriented carrier that has shown marked progress in building its market position and economic viability."

Lorenzo said that, "This has been the result of a company-wide focus on improving product quality." He also noted that Texas Air's computer reservations subsidiary, System One, will be "significantly strengthened through our joint venture agreement with EDS (Electronic Data Systems Inc. a subsidiary of General Motors)."

In referring to containing the liabilities flowing from Eastern Airlines, Lorenzo said, "We continue to negotiate with the Pension Board in an effort to reach agreement on the amount and terms under which Texas Air and Continental will participate in providing support to Eastern's pension plans. Today we're pleased to tell you that we have every reason to believe that these negotiations will result in a settlement that is manageable and will not have an adverse impact on our company, its financial health and its future."

SAN FRANCISCO, CA (JUNE 6) PR NEWSWIRE - Jerry D. Phillips has joined Sutro & Co. Inc. as the investment firm's senior vice president of fixed income. His responsibilities encompass the trading and sales of all fixed income products, including corporate bonds, municipals and mortgage-backed securities.

Sutro & Co. President Jack Luikart, who previously directly managed the fixed income group, states, "This is another step in our continuing program to upgrade and expand our fixed income effort. Jerry's superior qualifications, knowledge, and proficiency will provide added advantages for our clients and our firm."

Phillips, 36, joins Sutro & Co. from the Los Angeles office of Batemen Eichler, Hill Richards where he also held the title of senior vice

president of fixed income. He began his investment career in 1984 with Merrill Lynch as a municipal bond trader in New York and was later transferred to that firm's Los Angeles branch.

After receiving a degree in Civil Engineering (BSCE) from the University of Nebraska, Phillips served for five years as a Civil Engineer, working on large construction projects throughout the United States. He then returned to school and obtained an MBA in Finance from the University of Texas.

Phillips, his wife, Carla, and their three daughters will relocate from Los Angeles to the Bay Area.

Sutro & Co. Inc., founded in 1858, is the longest-established investment firm in the west. It is a wholly-owned subsidiary of John Hancock Freedom Securities. The firm is engaged in securities brokerage and investment banking as well as a full range of financial services focused on individuals and institutional investment firms nationwide. The company's retail branch system includes 12 offices throughout California and one office in Arizona.

DALLAS (JUNE 6) PR NEWSWIRE - InterVoice (NASDAQ: INTV) President, Allen Fleener, announced today that revenues in the first quarter of fiscal 1991 were below expectations at $4.88 million. Earnings were affected accordingly and will be reported later in June. Fleener went on to state that, "The revenue short fall was due in part to the delay of the new product offering based upon Operating System/2 software, which in turn was late in introduction by IBM. Whereas, there is no assurance the reduced first quarter deliveries will be made up, the pre-release customer acceptance of the new OS/2 platform is gratifying. The expanded functionability of the new product strategically positions the RobotOperator System in the mainstream of IBM system database and network connectivity and control." Fleener continued, "The new product is scheduled for deliveries in mid second quarter."

Chief Executive Officer, Daniel Hammond, reported that the InterVoice board of directors approved the repurchase of up to 1 million shares of common stock from time to time in the open market or by direct purchases.

InterVoice Inc., a Dallas-based voice response company, designs, manufacturers, sells and services voice automation systems. InterVoice is a publicly held company traded on the NASDAQ, National Market System under the ticker symbol INTV. Based on IBM PS/2 architecture, systems are used

in numerous applications which enhance customer service and productivity in financial institutions, investment firms, Fortune 500 companies, retail firms and other companies for automated telephone operator services.

#90157p5923 06/06/1990 ~PR Newswire

NEW YORK (JUNE 6) PR NEWSWIRE - Assetronics, Inc., a New York-based company whose stock is publicly traded, has purchased Scottsdale-based Cornerstone Productions, Inc. which operates four TGI Friday's restaurants in Arizona and Nevada and has exclusive development and franchise rights for those two states plus New Mexico and El Paso, Texas.

According to officials of Assetronics, the transaction involved an exchange of stock whereby Assetronics received all of the shares of Cornerstone Productions in exchange for shares of Assetronics common stock. As a result of the transaction, 4,897,000 shares of Assetronics stock were issued.

Terms also call for the company to be listed on the National Association of Securities Dealers Automated Quotations system. However, prior to the transaction, a special dividend was declared which may entitle existing Assetronics shareholders to receive 625,000 shares of common stock if Assetronics fails to gain listing on NASDAQ in a pre- arranged time period.

As a result of the transaction, change in control of Assetronics has occurred. Steven A. Sherman, a founder of Cornerstone Productions, was elected chairman of the board and chief executive officer of Assetronics and Michael R. Stewart, also a founder of Cornerstone, was elected president and chief operating officer. Sherman and Stewart held similar positions in Cornerstone Productions.

Sherman was chairman and founder of Scottsdale based Vodavi Technology Crop., now known as EXECUTONE Information Systems Inc., a NASDAQ company with annual sales of approximately $300 million.

Assetronics had 625,000 shares of common stock outstanding and in excess of $430,000 in cash and no debt at the time of the transaction.

The four TGI Friday's restaurants in Tucson, Mesa, Phoenix and Las Vegas employ a total of 431, of whom 311 are in Arizona and 120 are in Nevada. Expansion plans for the development territory include at least five new TGI Friday's restaurants within the next five years. The company also plans to develop amusement, hospitality, sports and entertainment complexes, Stewart said.

MIAMI (JUNE 6) PR NEWSWIRE - The following is the statement regarding the Nutri/System, Inc. position on the lawsuits filed against the company today.

Recent lawsuits separately filed against Nutri/System, Inc., by the same Miami law firm, regarding alleged gallbladder problems, are totally without merit. We intend to vigorously defend against these lawsuits and expect to be vindicated.

Obesity is a condition that predisposes people to many health problems including, heart disease, high blood pressure, diabetes, and gallbladder disease.

Obese people are three-to-four times more likely to develop gallstones than the average person. Last year, there were more than 500,000 gallbladder operations performed in the United States alone.

Obesity, not weight loss, is the source of the alleged gallbladder problems suffered by the plaintiffs in these lawsuits against Nutri/System. No authoritative study or medical research has demonstrated a causal connection between the Nutri/System weight loss program and gallbladder disease.

Our primary concern is the health and well-being of our clients. Nutri/System has millions of thinner, healthy graduates and there are currently more than 300,000 people on the program each week.

Nutri/System is proud of its program. It is a safe and effective way to diet. We will continue to provide the public with this valued service.

CONTACT: A.J. Barranco, attorney for Nutri/System, Inc., (305) 371-8575.

OKLAHOMA CITY, OK (JUNE 6) PR NEWSWIRE - Devon Energy Corporation (AMEX: DVN) today announced the re-election of three of its directors at its annual meeting of shareholders, held today in Oklahoma City. Michael E. Gellert, H.R. Sanders, Jr. and H. Campbell Stuckeman were each elected for a three-year term expiring at the annual meeting in 1993. The shareholders also ratified the appointment of KPMG Peat Marwick as Devon Energy's independent certified public accountants for 1990.

At the shareholders' meeting, J. Larry Nichols, president and chief executive officer, told shareholders that 1989 was another year of record growth for the company. "For the second year in a row our reserves reached a new record. More importantly, reserves per share also rose again."

By year-end 1989, the company's reserves had grown to 179 billion equivalent cubic feet, or 21 million cubic feet per common share. Since then the company has completed two acquisitions. In March 1990, the company purchased 9.6 billion cubic feet of reserves for $7.4 million. In May 1990, the company purchased an additional 25 billion cubic feet of gas for $7.2 million.

Devon Energy Corporation is an independent energy company engaged primarily in oil and gas property acquisitions, exploration and production activities, and oil and natural gas remarketing. The company's common and preferred stocks trade on the American Stock Exchange under the symbols DVN and DVN.Pr, respectively.

HIGHLAND PARK, MI (JUNE 6) PR NEWSWIRE - Chrysler Corporation (NYSE: C) marked its 65th anniversary today by doing what it is in business to do: design, engineer, manufacture and sell cars and trucks. There were no formal festivities.

Chrysler Corporation was founded on June 6, 1925, by Walter P. Chrysler, a true pioneer of the Kansas prairie, who established himself as a first-class engineer in the railroad industry then turned his dreams to engineering an automobile that would be safe, attractive and comfortable, and sold at a moderate price.

Chrysler moved into the auto business in 1912 and in five years was president and general manager of Buick and subsequently first vice president of manufacturing for General Motors. By 1920 he became executive vice president of Willys-Overland, then was sought out to revitalize the Maxwell Motor Car Company.

His dream of producing his own car led to the debut of the Chrysler Six in January 1924, and that year almost 32,000 Chryslers were built and sold by Maxwell dealers - then a record for first-year car sales.

The following year, Maxwell transferred its business and property to a new company, Chrysler Corporation, and Walter P. Chrysler was elected president. By the fall of 1925, nearly 3,800 dealers were selling Chrysler cars and by 1926, the new corporation had grown from 27th to fifth in the industry.

Walter P. Chrysler served as chairman until his death in 1940. His successors saw the company through the World War II and post-war eras and into the present era of leadership under Lee A. Iacocca.

Chrysler Corporation today is the third-largest car and truck producer in the United States, and seventh-largest in the world with annual sales of more than two million vehicles and total sales and revenue of nearly $35 billion.

The company produces a wide range of automobiles, from economy to luxury cars and a variety of light trucks plus automotive products for sale through a network of 5,300 Chrysler/Plymouth, Dodge/Truck and Jeep/Eagle dealerships in the United States, and through its dealer networks or distributorships in other nations.

LANCASTER, PA (JUNE 6) PR NEWSWIRE - Armstrong World Industries Inc. (NYSE: ACK) said today that it and the First City Financial Corporation affiliates have resolved all outstanding issues, including the withdrawal of all litigation between the parties. On May 30, the First City affiliates announced that they had sold their holdings of Armstrong shares.

Under the agreement, Armstrong said, for a period of ten years the Belzberg group will limit its holding of Armstrong stock to no more than 50,000 shares, which are to be held only for investment purposes, and will not engage in any business combination or related transactions with Armstrong.

The First City affiliates have agreed not to pursue their petition proposing changes in Armstrong's Articles of Incorporation, or the litigation regarding that petition, Armstrong said. The company noted that had the petition proposals been binding and on the agenda for Armstrong's annual meeting, they would not have received the required support for adoption.

The agreement also calls for the First City affiliates to pay Armstrong $605 thousand and for Armstrong to pay the First City affiliates $5 million. The payments are in consideration for the agreement, for the mutual resolution of litigation, and as reimbursement of certain First City affiliates' expenses related to the proxy contest.

"We have entered into this agreement because it will put an end to the many disruptions caused by the litigation, not to mention the substantial expense," said an Armstrong spokesman. "Now we can devote all our resources and energies to running the business, which is certainly in the best interests of the corporation, its shareholders, and the other groups who must be considered in Armstrong's continuing success."

#90157p5954 06/06/1990 ~PR Newswire

VIENNA, VA (JUNE 6) PR NEWSWIRE - EER Systems Corporation of Vienna has been awarded a $117 million contract by the U.S. Army Missile Command to provide systems engineering support for battlefield automated systems.

The four-year contract is the largest ever won by EER Systems, according to Dr. Jai N. Gupta, the company's president.

EER Systems will provide the expertise and resources required to support the entire life cycle activities of a large number of the Army's air defense, land combat, and field artillery battlefield automated systems. Under the contract, EER will provide acquisition and development engineering support; software engineering; software verification and validation; configuration and data management; and interoperability engineering and testing.

EER's winning team included SYSCON Corporation, Vitro Corporation, Coleman Research Corporation, and Smith Advanced Technologies, Inc. The work will be performed in EER Systems' Huntsville, Ala., facility.

The award was delayed for almost six months pending a General Accounting Office decision on a protest by SRS Technologies, Inc. and RMS Technologies, Inc. A recent GAO ruling failed to support their claims alleging flaws in the Army's evaluation process.

The contract is a major milestone in EER Systems' expansion of its original aerospace, energy and environmental systems client base into a wide spectrum of defense, telecommunications and systems customers.

FORT COLLINS, CO (JUNE 6) PR NEWSWIRE - 3CI Inc. announced today that on May 18, 1990, the board of directors approved a stock transaction that would result in a change of control to Callidus America Inc. a privately held Delaware corporation. The board also approved a name change to "Cordero Industries Inc."

Ronald Tucker has resigned as interim president and director of the company and Glen Leason resigned as director and chairman of the board.

Karim Eddine has been appointed as president and director. Allen C. Falcone has been appointed director and secretary and chief financial officer. Stephen H. Raven has been appointed director and vice president.

Eddine is CEO of Arctic Gulf Ltd. and a director of Worldwide Barter Ltd., Whetherill, Mathieson & Assoc., TEC Commodities International Ltd., and Italy Jewelry Inc.

Eddine has spent most of his professional career in the shipping industry as a charterer and a ship owner with offices in Athens and London. In 1985, Eddine sold the majority of his shipping interests, which included vessels with a total tonnage of approximately 110,000 M/T.

Falcone is a former president and chairman of Gaynor-Falcone Inc., a publicly traded marketing communications company. Falcone has advanced degrees from the University of Miami, Wayne State University, and the University of California, Berkeley. He has spent the majority of his professional career abroad managing corporate assets and personnel with the Interpublic Group of companies.

Raven is a former British Army officer with 23 years service in the armed forces. Raven has extensive experience in the fields of industrial, commercial and national security. Through 1979 to 1981, Raven was employed by a Middle East government as an advisor to help establish a special department for advising industries and government agencies on planning and implementing security systems. Raven is a director of Arctic Gulf, security director of Smirg Group in Italy and the managing director of Security Planning Ltd.

The board of directors has also approved: (1) a 1 for 10 reverse stock split; (2) an increase in the authorized common shares to 30,000,000 and 10,000,000 preferred shares and; (3) the change of fiscal year end from March 31 to Dec. 31.

#90157p5966 06/06/1990 ~PR Newswire

VANCOUVER, BRITISH COLUMBIA (JUNE 6) PR NEWSWIRE - Advanced Gravis announced the following results today:

Annual Results - Jan. 31, 1990 Total revenues for the year ending Jan. 31, 1990 were $4,785,000 an increase of 9 percent or $391,660 over 1989. Net earnings for the year showed a loss of $1,111,000 or 24 cents per share,

versus a profit of $228,000 or 6 cents a share for prior year. The loss as compared to prior years is attributable to certain non-recurring costs to ensure future growth. New product introductions of the Mousestick and entry into the European market increased advertising costs by $444,000. Additions to personnel resulted in additional wage and benefits costs of $359,000. R&D expenses of $166,000 were expensed versus being capitalized in 1989. Higher bank borrowings to finance inventories and high Canadian interest rates increased interest expense by $134,000. Non-recurring professional fees increased professional fees by $105,000 resulting from our listings on the TSE and NASDAQ stock exchanges. Additionally appreciation of the Canadian dollar versus the US dollar and the expediting of raw materials, production and finished products during the third and fourth quarters reduced average gross margins to 35.3 percent of sales from 39.4 percent.

The company faced significant back orders in the fall of 1989, due to working capital constraints. Product demand was very strong particularly from the expanded dealer base of Gravis, which was up significantly over the prior years. Management believes over $2,000,000 in revenues was lost in Christmas business.

The working capital position continues to be deficient as a result of excessive Mousestick raw materials. While monthly Mousestick demand continues to increase, high inventory levels resulting from prior purchase commitments made in September 1988 continue to be a factor.

First Quarter Results - April 30, 1990 Total revenues for the first quarter ending April 30, 1990 were $1,122,000 versus $888,000 for the same period last year, an increase of 26 percent. Net earnings for the period showed a loss of $25,000 or 1 cent per share versus a loss of $119,000 or 2 cents for the same period last year. The increase in revenues and improvement in financial position results from the continued strong acceptance of the company's new Switch Joystick, increased distribution particularly in Europe, as well as numerous cost reduction programs.

New Product Announcements The company introduced several new products during the first quarter. In February the company began shipping its new improved Turbo Switch Joystick. In mid-April the company commenced shipping its Nintendo licensed joystick. In addition, at quarter-end the company began shipping its new Eliminator MCA Game Card for the IBM PS/2 microchannel line.

All three products have received good initial receptions, and the company expects continued growth from these news products.

Msound Update Advanced Gravis is a designer, manufacturer and marketer of high quality joysticks for all personal computers and game systems, and the highly acclaimed Msound for the IBM PC.

SPRINGFIELD, IL (JUNE 5) UPI - State officials said Tuesday vandals stole money from the vault of Abraham Lincoln's tomb and broke two stone cigarette urns, causing about $1,600 worth of damage.

The incident happened sometime either Monday night or late Tuesday morning.

Lincoln Tomb site manager Nan Wynn of the state Historic Preservation Agency said someone stole $100 by using bolt cutters to break into a container where people throw coins to help pay for the upkeep of the tomb.

Wynn said two cigarette urns on top of a stairway were thrown down, causing minor damage.

''They broke off a piece of the granite stairs and chipped some other stairs in small areas,'' Wynn said, adding the tomb will remain open to the public while the repairs are made.

Lincoln's tomb has been vandalized frequently in the past. In 1987, vandals stole a painting of the former president. In another incident, racist and obscene slogans were painted on the tomb.

Lincoln, who is buried at Oak Ridge Cemetery in Springfield, lived in the capital city while he was a state legislator and when he became president in 1860. The 125th anniversary of his death was celebrated in April.

#90157u0153 06/06/1990 ~United Press International
ORLANDO, FL (JUNE 6) UPI - Five postal workers were ecstatic over winning a $214,000 lottery jackpot, but four of them got mad when they learned the fifth had purchased another winning ticket on the side, diluting their take by about $11,000 each.

The workers filed suit Friday in Orange County Circuit Court to force Willie Schmidt, 50, to add his second winning Fantasy Five ticket to theirs.

Schmidt said he did not realize when he bought a ticket with his son-in-law that he had played the same combination - 10, 16, 17, 19, 31 - but he said he never promised his co-workers he would not play their numbers on his own.

The workers refused to pay Schmidt his $42,000 share of the $214,000 windfall, but Schmidt received his half-share of the $214,000 he won with his son-in-law.

''It's a shame it had to turn out this way,'' he said.

The Fantasy Five jackpot on May 25 was worth $1.7 million.

The five postal workers agreed last year to play Fantasy Five weekly. The group played the same numbers every week.

Schmidt said he was shocked when he learned he had won twice.

''I almost had two heart attacks that night,'' he said. ''I hope I never have to go through that again.''

Schmidt said he may sue his co-workers to collect his share of their jackpot.

Schmidt also said he had planned to throw a party for post office drivers but changed his mind when they became hostile toward him. He did, however, give $500 to the only driver who congratulated him the day after the drawing.

#90157u0222 06/06/1990 ~United Press International

AUBURN HILLS, MI (JUNE 6) UPI - Gritty defense on one end and Isiah Thomas on the other proved once again to be an unbeatable combination for the Detroit Pistons.

Thomas scored 33 points - including two backbreaking 3-pointers in the final 3:39 Tuesday night - to rally the Pistons to a 105-99 victory over the Portland Trail Blazers in the opener of the NBA Finals.

Thomas rattled off 16 points in the fourth quarter as the defending league champions returned from a 10-point deficit with seven minutes left to improve to 10-0 at home in this year's playoffs and 18-1 at their Palace over the last two postseasons.

The All-Star guard's jumper with 2:25 remaining gave the Pistons their first lead at 96-94. Detroit held Portland scoreless for a stretch of almost 4 1-2 minutes late in the fourth quarter and outrebounded the league's leading rebounding team 54-46.

''In these situations, it's never a battle of skills; it's a battle of wills,'' said Thomas, who made 13 of 27 shots for a team that sank just 37 percent of its attempts. ''You sit on the bench with six or eight minutes left and ask yourself, 'How badly do you want it?'''

Badly enough, apparently. The Pistons outscored the Trail Blazers 25-9 to close the game and will play host to Game 2 of the best-of-seven series Thursday night with their home court advantage intact.

With Detroit trailing 94-89 and 4:53 remaining, Thomas hit two free throws then nailed his first 3-pointer of the game, to tie the score with 3:39 remaining.

On Portland's next two possessions, Clyde Drexler was called for an offensive foul and missed a jumper. Thomas then connected again from the outside with 2:25 to play to give Detroit the lead to stay at 96-94.

The 6-foot-1 guard then struck for another 3-pointer 35 seconds later for a 99-94 lead.

''It's just a great player making great shots from long range, that's what it amounted to,'' Detroit Coach Chuck Daly said. ''Isiah played one of those magic 10 minutes. He was on fire.''

Portland's Buck Williams then missed two free throws, Mark Aguirre made two for Detroit and Jerome Kersey missed two more for Portland with 46 seconds left. Thomas then sealed the victory with two free throws with 32.8 seconds to go.

Joe Dumars added 20 points and Aguirre 18 off the bench for Detroit, which received 15 rebounds from Bill Laimbeer. Drexler paced Portland with 21 points and Williams contributed 20 points and 12 rebounds.

The Pistons, who entered allowing 85.6 points at home in the playoffs, are 12-0 when their opponents score fewer than 100 points. The Trail Blazers, though, managed more than any other Detroit playoff opponent at the Palace.

Portland, making its first league championship appearance since 1977, pulled out four victories in the Western Conference championship series by a total of 12 points. This time, they folded down the stretch.

''They turned their defense up, and that's a lesson we should learn,'' Trail Blazers Coach Rick Adelman said. ''They're going to turn it up at this level, and we should respond.''

Portland had opened the final quarter with a 10-4 burst that featured two baskets by Williams. The run handed the Trail Blazers a 90-80 lead with 7:05 to play.

But Thomas countered with two baskets, Dumars made a 3-point play and Aguirre scored off a rebound to draw the Pistons within 92-89 with 5:22 remaining.

Williams' jumper with 4:53 left gave Portland a 94-89 edge but the Blazers would not score again until Terry Porter hit a 3-pointer with 28.6 seconds to play.

The Trail Blazers led by as many as 11 points in the first quarter and by 33-24 after one period. Detroit, though, opened the second quarter with an 11-2 spurt, Laimbeer concluding the run with a tying 3-point play

following three end-to-end rushes.

That got the crowd into it for the first time but the Trail Blazers did not fold. Drexler remained in the game despite picking up his third foul at the 5:28 mark, and Porter scored 6 points in a 17-9 run that assured Portland its five-point edge at intermission.

The Pistons made only 34 percent of their shots in the first half.

Detroit, seeking to become only the third franchise to repeat as champion, had missed its first six shots. Portland, sharp despite a four-day layoff, made seven of its first 10. When Porter nailed a 3-pointer, the Trail Blazers' advantage was 20-9.

Thomas, who scored 12 points in the first period, scored 6 straight points to bring the Pistons within 20-15. Detroit was within 28-24 but Kersey soared for a tip-in and Danny Young sank a 3-pointer with one-tenth of a second left for Portland's five-point lead at the quarter.

(JUNE 6) UPI - North Carolina's first black Senate nominee says ''times have really changed.'' Democrat Harvey Gantt easily beat attorney Michael Easley Tuesday in a runoff to decide who will oppose conservative Republican Jesse Helms in November. In Alabama, Republican Governor Guy Hunt easily defeated token opposition... with a six-person Democratic race for the right to challenge him NOT yet decided. Alabama Senator Howell Heflin breezed to a nomination for a third term... while his Republican opponent, Bill Cabiniss, ran UNopposed. Democratic Senator Bill Bradley easily won nomination to a third term in New Jersey. A total of nine states held primaries Tuesday.

The Soviet Union is dealing with UNrest Kirghizia, the fourth of the Soviet Union's five Central Asian republics to be hit with ethnic violence this year. At least 11 people have been killed and hundreds of others injured in the fighting over land allocation. The fighting began Monday in the republic's second biggest city.

The White House is welcoming a Soviet delay in acting on emigration laws as a move that buys time to resolve the issue and ease conflict over Lithuania's independence drive. Spokesman Marlin Fitzwater reacted to reports that the Kremlin may postpone any move until September, saying- ''that may NOT be bad.''

NASA will pump rocket fuel aboard the shuttle Columbia Wednesday at Cape Canaveral, Florida, but NOT to get the ship ready for launch. The space agency is making a last-ditch effort to find a leak before hauling the

spaceplane back to a hanger for major repairs that may keep it grounded until August.

Onlookers watched in horror as a man ''white-water rafted'' over the Niagara Falls Tuesday in a stunt that apparently killed him. The Tennessee man used a kayak in the stunt that police say took him a decade to plan. Debris from the man's kayak was recovered... but there was NO trace of the young daredevil.

Doctors say a new test may help prevent patients suffering from other neurological diseases from being mis-diagnosed as having Alzheimers. Researchers at Abbott Laboratories in Illinois developed the test that detects a substance in brain tissue linked to the degenerative condition.

#90157u0338 06/06/1990 ~United Press International

WASHINGTON (JUNE 6) UPI - The Senate refused to end debate and force a final vote on an anti-crime bill that includes proposals for an expanded federal death penalty and a ban on military-style assault weapons.

The Senate voted 54-37 Tuesday to limit debate - six votes short of the 60 required to impose so-called cloture - and Senate Democratic leader George Mitchell ordered a second vote Thursday.

The failure to end debate left the Senate, which began considering the

bill May 21, facing a determined stalling campaign by opponents of the ban on assault weapons and a staggering backlog of 246 amendments.

The party breakdown showed that 44 Democrats and 10 Republicans voted to impose cloture and six Democrats and 31 Republicans voted no. There were nine absentees, many of them in their homes states for primaries.

Sen. Joseph Biden, D-Del., chairman of the Senate Judiciary Committee, who said Tuesday's vote would kill the bill, bounced back with a prediction that cloture would be invoked Thursday with votes to spare.

Biden told reporters that some Republican senators and perhaps even some Democrats who ''had to give the NRA (National Rifle Association) their first vote'' would switch.

''This is all about guns,'' Biden said. ''What happened is they lost on guns and poof - 200 amendments appeared. I think the NRA has lost on this thing, so I don't think they are going to hold on to their votes.''

Biden's sudden optimism was in sharp contrast to his prediction for the bill before the vote.

''This vote will determine the fate of the crime bill,'' Biden said. ''If cloture is invoked, we will get a crime bill. If cloture is not invoked, we will not get a a crime bill.''

Attempts to work out a compromise before the week-long Memorial Day recess collapsed, forcing Tuesday's attempt to cut debate to 30 hours and winnow out any amendments that do not deal with provisions in the bill.

In the week before the recess, the Senate reached a consensus, by vote and compromise, on three major provisions of the bill:

-An expanded federal death penalty covering 30 crimes and provisions to meet the Supreme Court's 1972 objections that invalidated federal and state death sentences. The Senate voted to prohibit the execution of mentally retarded persons and set 17 as the minimum age for the ultimate penalty.

-A limit on the number of appeals to federal court a death rown inmate can make and a fixed timetable for disposing of the petitions for a review. The sponsors said this part of the bill would assure that almost all those who are sentenced to death would be executed within a year of the time a state Supreme Courts approved a conviction.

-A ban for three years on the importation of five foreign semi-automatic weapons and the manufacture of four U.S. semi-automatic weapons, rapidly becoming the weapon of choice among criminals and drug dealers.

Still under consideration are sections of the bill putting into law a Supreme Court ruling allowing evidence to be introduced if it was obtained in ''good faith'' searches by police; requring the Treasury Department to report money laundering transactions; and creating an Organized Crime and Dangerous Drug division in the Justice Department.

Biden, a liberal, and conservative Sen. Strom Thurmond, R-S.C., teamed to plead with the Senate to vote for the cloture motion.

Thurmond said the vote was ''critical'' for passage of anti-crime legislation and said changes made the measure a ''much tougher bill'' than the one first introduced by Biden.

Warning the Senate could lose its chance for an anti-crime bill, Thurmond said ''The American people demand action. A vote for cloture ... is a vote for law enforcement.''

''We're not here to say the bill has all the answers,'' Biden said. ''The question is not will this bill by itself make America safe. The question is will this bill make America safer.''

Biden said at a news conference hours before the vote that the Senate has the chance to approve a ''very significant anti-crime bill'' but acknowledged there were difficulties.

Asked to outline the obstacles, Biden replied, ''First, the NRA (National Rifle Association) and second, thos who feel very strongly about not voting for the death penalty. It is not an unusual coalition.''

The NRA mounted a major campaign against the ban on assault weapons and President Bush also voiced his opposition to the prohibition, although, he by executive order, banned the importation of foreign-made weapons.

(JUNE 6) UPI - Former San Francisco Mayor Dianne Feinstein has an early lead over Attorney General John Van de Kamp in a primary election to decide California's Democratic gubernatorial nominee. With just one percent of the ballots counted, Feinstein held more than half of the vote... while Van de Kamp claimed 42 percent. A San Francisco television station projected Feinstein the winner based on an exit poll. The race is one of the most closely watched of all the primaries held in nine states on Tuesday.

New Jersey is going to have to come up with a new way to pay for its public schools. A unanimous decision by the state Supreme Court Tuesday struck down the property-tax dependent Public School Eduation Act of 1975. The court said the law kept children in poor urban school districts from getting the same education enjoyed by those in ''propety-rich'' New Jersey suburbs.

Talks resume in Ottawa Wednesday as Canada's political leaders try to resolve a unity-threatening constitutional impasse. Prime Minister Brian Mulroney said after a third day of negotiations that progress was made, but the provinces remain a long way away from any final agreement. The French-speaking province of Quebec has threatened to secede until it is granted special cultural privileges.

A retired Michigan doctor says at first he was NOT going to let an Oregon woman with Alzheimer's disease use his so-called ''suicide-machine.'' But Dr. Jack Kevorkian says experimental treatment didN'T help Janet Adkins, and she threatened to take her life another way. In Kevorkian words- ''medically, my device is much better than putting a sack over your head or trying to drown yourself.'' It's NOT yet clear if Kevorkian will face charges in Adkins' death, which occurred Monday in a van about 50 miles northwest of Detroit.

Jury selection continues Wednesday in the drug and perjury trial of Washington Mayor Marion Barry. 12 potential jurors were questioned Tuesday with two eliminated for lying about previous arrests and another excused for personal reasons. One potential juror questioned the government's handling of the Barry case, saying- ''the ends did NOT justify the means.''

#90157u0500 06/06/1990 ~United Press International
JOHANNESBURG, South Africa (JUNE 6) UPI - Black leader Nelson Mandela left Botswana, the first stop on a 45-day tour of three continents, optimistic that President Frederik de Klerk soon will meet a key demand and scrap a nearly four-year-old nationwide state of emergency.

Mandela told reporters Tuesday before leaving for Paris he was aware of reports that the emergency would be lifted and he expected De Klerk to make ''a very important statement'' in his absence.

But he said he told Botswana President Quett Masire during his two-day stay that de Klerk's reforms had still not included any effort to include the black majority in any real decision-making.

The 71-year-old African National Congress leader, who was freed in February after 27 years in prison, said he will tell the leaders of the 14 nations he plans to visit to maintain anti-apartheid sanctions and keep Pretoria under pressure to move away from white minority rule.

Mandela has said the government must repeal the emergency, free prisoners held for politically motivated crimes and allow political exiles to return before the ANC negotiates a post-apartheid constitution.

The state of emergency, which South African newspapers with links to the government said may be modified or lifted within days, prompted a severe tightening of economic sanctions against Pretoria in 1986 by the European Community, Canada and the United States.

From France, Mandela takes his message to Switzerland, West Germany, Italy and the Vatican before heading to Canada June 18. He arrives in New York to a ticker-tape parade June 20 and then goes on to Boston, Washington, Atlanta, Detroit, Miami and Los Angeles.

In Washington, Mandela is to meet President George Bush and address a joint session of Congress.

On June 30, he goes on to Britain, and then to Uganda, Ethiopia, Kenya and Mozambique.

#90157u0503 06/06/1990 ~United Press International
(JUNE 6) UPI - Everyone knows Tony Fernandez can play shortstop, but yes, he can hit too.

Fernandez drove home three runs on successive triples and scored twice

Tuesday night, powering Toronto to a 7-3 victory over the Minnesota Twins.

The soft-spoken Dominican is has gone 9-for-14 since Saturday, raising his average to .278 since being moved down from leadoff to second spot in the order.

''A lot of people stopped believing in me as a hitter,'' Fernandez said. ''I got 200 hits in 1986.''

Fernandez displayed his fielding prowess when he made a key grab of a bases-loaded line drive in the fourth inning to squelch a Minnesota threat.

''We had one good chance to get Wells out of the game, but Fernandez made the big play,'' Minnesota Manager Tom Kelly said. ''He is an outstanding player and had a fabulous game.''

Kelly was speaking of David Wells, whom Toronto Manager Cito Gaston moved into the starting rotation on May 24. Wells, 3-1, scattered four hits over seven innings for the win, striking out a career-high nine batters.

''I couldn't get a feel of the ball whatsoever out there,'' Wells, who walked five, said. ''I'm not making any excuses for that, because it didn't effect my fastball.''

Wells had high praise for Fernandez too.

''I want to thank Tony for a great play at shortstop,'' said Wells. ''That's something that Tony will do - he's an unbelievable infielder.''

Toronto collected 14 hits off of three Minesota pitchers. Starter Roy Smith, 4-5, gave up five runs over 4 2-3 innings.

The Blue Jays broke a 1-1 tie on Fred McGriff's ninth homer, a solo shot in the fourth.

Toronto added three runs in the fifth to extend their lead to 5-1 as Fernandez lashed a triple down the first-base line to score two runners and Kelly Gruber singled to score Fernandez.

Minnesota closed the gap to 5-3 in the seventh on a two-run homer by Shane Mack, his second home run of the year.

Toronto added two runs in the seventh on a wild pitch and a George Bell RBI single.

Minnesota took a 1-0 lead in the second inning on Gary Gaetti's solo homer his seventh of the year. Toronto evened the score in the third on Fernandez' first RBI-triple.

Elsewhere in the American League, Boston nipped New York 9-8, Detroit clipped Cleveland 6-2, Seattle dumped Chicago 10-6, Milwaukee topped Baltimore 6-4, California downed Kansas City 6-4 and Oakland tripped Texas 7-4.

In the NL, it was: New York 6, Montreal 5 in 11 innings; Pittsburgh 6, Chicago 5; Philadelphia 9, St. Louis 6; San Diego 11, Houston 2; Atlanta 6 Los Angeles 4 and San Francisco 6, Cincinnati 1.

-- AROUND THE AL --

Red Sox 9, Yankees 8

At Boston, Wade Boggs tripled and scored on Jody Reed's suicide squeeze bunt in the eighth inning to lift Boston after New York rallied from a five-run deficit. Jeff Reardon, 3-1, got his second win in as many nights. Eric Plunk took the loss, falling to 2-2.

Tigers 6, Indians 2

At Cleveland, Alan Trammell drove home two runs and Cecil Fielder knocked in his 48th run of the year. Detroit scored all of their runs in the first four innings to make a winner of Dan Petry, 5-2, and Edwin Nunez pitched four innings for his first save. Cleveland starter Tom Candiotti, 5-3, suffered the loss.

Mariners 10, White Sox 6

At Chicago, Jay Buhner hit a three-run double and Henry Cotto went 2-for-2 with three RBI in a seven-run fifth inning. Brian Holman, 7-3, won his fourth straight game while Chicago starter Greg Hibbard, 4-4, took the loss. He worked just four-plus innings, his shortest outing of the season.

Brewers 6, Orioles 4

At Milwaukee, Jamie Navarro, 2-1, allowed one run, struck out three and walked five to lead Milwaukee. Chuck Crim hurled the final 1 2-3 innings for his fourth save. Mickey Tettleton hit a three-run homer for Baltimore.

Angels 6, Royals 4

At Kansas City, Mo., Chili Davis hit a two-run homer and Luis Polonia stroked three hits and drove home two runs. Mark Langston, 4-5, scattered 11 hits over six innings for his first win since May 15. Bryan Harvey gained his sixth save of the season. Loser Rich Dotson, 0-4, has not won a game since last Sept. 25.

A's 7, Rangers 4

At Arlington, Texas, Mark McGwire hit his 14th and 15th homers of the year and equalled a career high with five RBI to power Oakland to victory. Bob Welch, 8-2, gave up seven hits for the win and Dennis Eckersley earned his 17th save while dropping his ERA to 0.75. Brian Bohanon, 0-3, took the loss.

-30- 4749

#90157u0522 06/06/1990 ~United Press International

(JUNE 6) UPI - Just call Tom O'Malley the bearer of gifts.

O'Malley's lead-off home run in the 11th inning, his first homer in three years, gave the New York Mets a 6-5 victory over the Montreal Expos as well as an early birthday present for new Manager Buddy Harrelson.

Harrelson, who turns 42 years-old on Wednesday, turned to dugout coach Doc Edwards as the decisive inning began and said, ''The best present I could get is for this guy to hit a homer.''

O'Malley belted a delivery from Dale Mohorcic, 0-1, to dead center field that eluded the leap of Otis Nixon and just cleared the wall at the 410-foot mark.

''Everybody on the team was blowing to get the ball out of the park,'' O'Malley said.

His last major-league homer came in 1987 when O'Malley was a member of the Texas Rangers. His last National League home run came in 1983, while playing for the San Francisco Giants.

O'Malley, entered the game as a defensive replacement in the 10th inning, and had just two hits in 22 at-bats this season.

''He worked hard for that (homer),'' said Harrelson, who won his second game in six outings since replacing Davey Johnson. ''I couldn't think of a better guy to win it. He's struggling.''

John Franco, 2-0, who pitched the 11th inning, picked up the win.

''I played with O'Malley. He's a pretty good hitter,'' said Mohorcic, who was O'Malley's teammate with Texas in 1987. ''I was trying to work him away to make him go the other way. I didn't have good control of anything tonight.''

Kevin McReynolds, shackled in a 1-for-23 slump, also caught a break by smashing a two-run homer in the eighth off Drew Hall to tie the game 5-5.

Gregg Jefferies reached first on a wild pitch after he swung and missed a third strike, and one out later McReynolds followed with his seventh homer.

Elsewhere in the National League, Pittsburgh clipped Chicago 6-5, Philadelphia downed St. Louis 9-6; San Diego blasted Houston 11-2; San Francisco clobbered Cincinnati 6-1 and Atlanta tripped Los Angeles 6-4.

In the AL, it was: Boston 9, New York 8; Toronto 7, Minnesota 3; Detroit 6 Cleveland 2; Seattle 10, Chicago 6; Milwaukee 6, Baltimore 4; California 6, Kansas City 4 and Oakland 7, Texas 4.

-- AROUND THE NL --

Pirates 6, Cubs 5

At Pittsburgh, Wally Backman scored on a groundout by R.J. Reynolds in the ninth inning to make a winner of Stan Belinda, 1-1, who pitched two innings of scoreless relief for his first major-league win. Mitch Williams 0-5, allowed one hit over 1 1-3 innings and took the loss.

Phillies 9, Cardinals 6

At St. Louis, Von Hayes delivered a two-run single in the eighth inning and Len Dykstra added two hits and two RBI. Trailing 5-3 in the eighth, the Phillies scored four runs to recapture the lead after St. Louis scored five runs in the seventh. Scott Terry, 0-4, took the loss while Don Carman earned the win by pitching a scoreless eighth inning.

Padres 11, Houston 2

At San Diego, Shawn Abner and Garry Templeton homered to highlight a six-run fifth inning. Dennis Rasmussen, 6-2, pitched a four-hitter for his second complete game of the season and his third straight win. Jim Deshaies, 3-3, who gave up seven hits and seven runs, suffered the defeat.

Giants 6, Reds 1

At San Francisco, Scott Garrelts scattered four hits over seven innings to spark San Francisco to their fifth straight victory. Garrelts improved to 2-6 and Jeff Brantley picked up his seventh save. Jack Armstrong, 8-2, absorbed the loss.

Braves 6, Dodgers 4

At Los Angeles, Pete Smith yielded one hit over seven innings and Los Angeles third baseman Lenny Harris' errant throw home in the eighth inning led to six unearned runs. Smith improved to 5-4 and Mike Morgan fell to

-30- 3991
#90157u0534 06/06/1990 ~United Press International
OTTAWA (JUNE 6) UPI - Political leaders reached informal agreement on a process to reform the 123-year-old Senate, moving closer to resolving a constitutional impasse that could result in Quebec seceding from the rest of Canada.

''We did a pretty good day's work. We made some progress, but arrived at no conclusions and are a long way from any final arrangements,'' Prime Minister Brian Mulroney said after a third straight day of negotiations, which adjourned Tuesday night until Wednesday.

The 10 provincial premiers, including those most strongly opposed to the constitutional amendment, agreed that there was a more positive mood during negotiations. Some, like Nova Scotia Premier John Buchanan, predicted that the talks would conclude Wednesday with agreement on all outstanding issues.

The constitutional amendment, formally called the Meech Lake Accord, recognizes the French-speaking province of Quebec as a ''distinct society '' and grants the province powers to promote and preserve its French language and culture.

The amendment was drafted three years ago after Quebec objected to a constitution that Canada adopted in 1982. Quebec refused to sign the constitution on grounds it did not recognize the province's 6.2 million French-speaking residents. The country's 10 provincial premiers must approve the measure by June 23 or it becomes void.

The three provinces that oppose the accord, New Brunswick, Manitoba and Newfoundland, want the amendment changed to ensure that the distinct society clause does not override Canada's Charter of Rights and Freedoms. The provinces fear that Quebec will use the clause to pass laws that disadvantage the English-speaking and other ethnic minorities in the province.

Manitoba and Newfoundland also are seeking a legally binding commitment that Canada's Senate, the upper chamber of Parliament, will be reformed to better reflect the interests of smaller provinces. Ultimately, they want an elected, rather than appointed Senate, with equal representation from all provinces.

The 11-hour meeting Tuesday went a long way toward addressing the issue of Senate reform. According to premiers and sources close to the negotiations the federal government will set up a commission to examine Senate reform

and present options to the premiers.

If Senate changes are not completed within the next three years, the federal government would increase the number of seats in the Senate, giving additional representation to all provinces except Quebec and Ontario. Those two provinces already account for about half of Senate members.

Senior federal government officials said late Tuesday the Senate question has not been ''precisely'' completed and that approval of the Meech Lake Accord was linked to a process for Senate reform and clarification of the distinct society clause.

Leaders of all 10 provinces expressed cautious optimism they could forge a deal and save the Meech Lake Accord.

But Quebec's Intergovernmental Affairs Minister, Gil Remillard, made it clear that Quebec will not accept changes to the Meech Lake Accord and will consider seceding if the accord is not approved.

Across the country, millions of Canadians have agonized and argued over the accord. Opinion polls indicate a majority of those outside Quebec oppose the constitutional amendment, mainly because they believe Quebec no longer wants to be part of the country.

Most Quebecers have said they would prefer separation and the province would be economically viable on its own.

#90157u0539 06/06/1990 ~United Press International

BEIJING (JUNE 6) UPI - China announced Wednesday the release of 97 more people imprisoned since the 1989 crackdown on the pro-democracy movement, including several student leaders, bringing to nearly 900 the number freed this year.

The releases, which occurred quietly in recent days, were timed to coincide with the June 3-4 anniversary of the Chinese army's brutal crackdown last year on the protests in Beijing, and followed a larger round of releases in May.

According to government figures given last month, the latest releases of 76 prisoners in Beijing and 21 in Shanghai mean at least 355 people remain held in Beijing. Officials have issued no figures on detainees in other regions.

But Western analysts and human rights groups have estimated the number of people detained in a nationwide dragnet last year as far beyond the

official figures, and believe thousands remain jailed. Many have been held for nearly a year without formal charges.

The announcement came after nearly a week of tension over possible renewed unrest on the June 3 anniversary, averted by a massive show of force by security authorities, except for noisy protests Sunday and Monday by students at Beijing University.

A spokesman for the Ministry of Public Security, China's national police agency, said 97 ''lawbreakers involved in the turmoil and counterrevolutionary rebellion last year have been given lenient treatment and released upon completion of investigation.''

Authorities had freed 573 people in January and 211 others last month. The latest release brings to 881 the total number freed.

Among the 76 freed in Beijing were 21 college students, including Xiong Wei, 24, a law student, and Zhou Fengsuo, 23, a physics student, both from Beijing's Qinghua University. They were on a ''most wanted list.''

Among those released in Shanghai was Yao Yongzhan, 20, a student from Hong Kong at Fudan University. Yao, whose detention had strained relations with the British colony, was freed Tuesday.

Xiong Wei, among the leaders during last May's occupation of Tiananmen Square, was instrumental in delivering an appeal to the United Nations and the International Red Cross on behalf of student hunger strikers. He surrendered to authorities in late June.

''The released persons had pleaded guilty and voluntarily confessed their wrongdoings and expressed a willingness to repent,'' the Public Security Ministry spokesman said.

The releases do not mean full freedom, according to recent interviews with former detainees. Some ex-detainees are expelled from school or workplaces and many must report to local police regularly. Many are ordered not to discuss their confinement.

The government has also begun prosecutions of some detainees held at Qincheng Prison in Beijing's northern suburbs, including Ren Wanding, one of the country's leading human rights activists.

Two prominent dissidents released from prison earlier, Gao Xin and Zhou Duo, are believed to have been again detained along with a third, Taiwan-born pop singer Hou Dejian. All three disappeared mysteriously last week.

The trio had written an appeal to China's leaders to free all detainees,

but vanished hours before a scheduled news conference to announce the letter, which referred specifically to a fourth dissident, university lecturer Liu Xiaobo, who is still jailed.

The four had staged a last-ditch hunger strike in Tiananmen Square in the days before the June 3 army assault. They had boldly again begun to speak out in public before they vanished.

Beijing University was reported quiet again after the Sunday and Monday night unrest. Witnesses said two small posters had been tacked up on a notice board on the campus referring to the incidents and students were crowding around to read them.

#90157u0545 06/06/1990 ~United Press International

(JUNE 6) UPI - Thunderstorms with heavy rain, small hail and lightning whipped across the Central Plains early Wednesday, while much of the West sweltered under clear skies and New England shivered because of a frosty cold front.

The National Weather Service said turbulent weather developed rapidly overnight near the Kansas-Nebraska border, covering a 20-mile band from Alma to Red Cloud, Neb. Showers and thunderstorms developed over northeast Kansas, from near Topeka to Manhattan, while cloud-busters headed east toward Indiana.

Meanwhile in northern Illinois, high winds that raked the region Tuesday afternoon died down early Wednesday.

The winds, sometimes gusting to more than 60 mph, tore through the Chicago area, downing power lines, uprooting trees and disrupting traffic at O'Hare International Airport. One man who was boating on Lake Michigan at the time of the windstorm fell overboard and died, authorities said.

About 90,000 metropolitan and suburban homes were affected by the power outages caused by the winds, which also tore through the town of Hanna in neighboring Indiana.

Early Wednesday, Chicago stood at 60 degrees under partly cloudy skies. Clouds also dominated skies elsewhere around the Midwest.

Clear skies and high temperatures reigned over the Southern Plains, the South and the West for a second day Wednesday.

Wink and Presidio in Texas and Carlsbad, N.M., Tuesday recorded highs of 107, with five other towns just a degree less. Low humidity and southerly winds kept the region unseasonably warm overnight as temperatures headed

back toward the century mark.

Temperature records were broken Tuesday in Arizona. Tucson's 108 broke a record of the previous record of 105 for that day, while Phoenix's 112 tied a record set in 1938.

On the East Coast, a cold front brought chilly weather to the northern reaches of New England, with Portland, Maine, and Concord, N.H., dropping to 38. Cloudiness and a chance of showers were expected later Wednesday.

The South was dominated by a high-pressure system that kept weather pleasant and springlike overnight, with morning temperatures ranging from 64 in Chattanooga, Tenn., to 81 in Miami.

In the mid-Atlantic states, scattered light rain fell Wednesday over parts of southwestern Pennsylvania and West Virginia. Other isolated light rain was reported from Westfied, N.Y., to just west of Columbus, Ohio, the NWS said.

ADDIS ABABA, Ethiopia (JUNE 6) UPI - Ethiopia said it would allow the rebel-held port of Massawa to be used to move food to people at risk of starvation in Eritrea this year, the official Ethiopian News Agency reported Wednesday.

A statement released by the government also said it accepted rebel terms for a peace conference, in particular a condition that U.N. observers participate in talks.

The announcements followed a joint U.S.-Soviet statement over the weekend welcoming both concessions and formally agreeing to a joint airlift into Ethiopia by the two superpowers.

About 4 1/2 million people face severe food shortages in Ethiopia this year, according to U.N. estimates. But renewed fighting in the north in February sabotaged plans to move emergency food through Massawa, 470 miles north of Addis Ababa.

Rebels of the Eritrean People's Liberation Front took the port in early February. They offered to reopen the docks but, the government refused to allow the food to be controlled by the opposition force.

The government controls the road out of Massawa and was able to dictate the port's usefulness.

Both sides in the 30-year war accused each other of playing politics with

famine but neither changed its position. The government made strenuous efforts on land to retake Massawa, the only port serving northern Ethiopia and dropped cluster and incendiary bombs on the dock area, setting fire to grain warehouses and burning food.

The rebels, for their part, attempted but failed to take the government-held regional capital of Asmara, 40 miles inland from Massawa.

Western diplomats in Addis Ababa estimated up to 40,000 government troops may have died in the three months of full-scale warfare that ensued and said that toll may have been instrumental in persuading the government to change its stance.

They said it was particularly significant that the government had also decided to drop its objection to U.N. observers at peace talks. That objection stalled ''talks about talks'' in December 1989, because the government saw the call for observers as a bid to establish de facto independence for Eritrea.

HONG KONG (JUNE 6) UPI - Chinese officials said Wednesday a shot was fired at the office of China's official Xinhua news agency during mass protests marking the first anniversary of Beijing's brutal crackdown on protesters at Tiananmen Square.

No injuries were reported and officials of Xinhua, which serves as Beijing's unofficial embassy in the British colony, said they planned to contact the Hong Kong government over the incident.

Hong Kong Police had no immediate comment on the alleged shooting, which Chinese officials said involved a single gunshot that shattered an 11th-floor window of an unoccupied office in their headquarters.

''We are making representations with Hong Kong's Political Adviser's office,'' a Xinhua official, who asked not to be identified, told United Press International. ''I think the police have to make an investigation into this case.''

The Xinhua official said the damage, discovered Tuesday, probably occurred during mass rallies and marches outside the Xinhua building Sunday and Monday to mark the anniversary of the June 3-4, 1989, military attack on pro-democracy demonstrators in Beijing.

Hong Kong reverts to Chinese control in 1997 at the expiration of Britain's 99-year lease on the territory.

China's brutal repression of the democracy protests in Beijing sent shockwaves through the colony and severely damaged public confidence in the future under Chinese rule.

MANILA, Phillipines (JUNE 6) UPI - The military Wednesday announced the arrest of a top communist rebel leader while warning the public that its improved counter-insurgency campaign could lead to stepped-up guerrilla attacks on urban areas.

Antonio Tujan, 37, described as a member of the politburo and ruling central committee of the outlawed Communist Party of the Philippines, was captured Tuesday evening while making a telephone call at a store in a suburban Manila, the military said.

Tujan, a former engineering student, was armed with a .38-caliber revolver but did not resist troops bearing a judicial warrant for his arrest for subversion, the military said.

A $43,500 bounty had been posted for Tujan's arrest, officials said.

Ten top guerrilla leaders have been captured in the past two years. Two of them escaped, including Romulo Kintanar, the chief of the party's armed wing, the New People's Army.

Defense Secretary Fidel Ramos, in a speech delivered Tuesday night, said the armed forces had scored significant gains in its campaign against the NPA and right-wing forces seeking to oust President Corazon Aquino.

Ramos said the spate of ambushes and bombings that had left a dozen people dead in the capital in the past two weeks indicated that both communist insurgents and military rebels were trying to strike at the heart of the political leadership.

''Knowing they cannot win by hitting out against the armed forces, they're trying to intimidate metro Manilans by striking at their morale and by attempting to destroy the government's credibility,'' Ramos said.

He said the ambushes staged by NPA hit squads, called Sparrows, were meant ''to project the false image of an all-powerful communist leadership able to reach out against whomever it chooses to strike down in the very heart of the republic.''

Rebel soldiers who spearheaded the Dec. 1-9 failed coup also were ''resorting to intrigue, innuendo, disinformation, rumor, to frighten the civilian population, divide the government leadership and project an image

of purposefulness, organization and strength that in reality it no longer has,'' Ramos said.

At least 119 people were killed and more than 500 were wounded in the December coup attempt, the sixth in Aquino's four years as president. The mutineers have threatened to mount a new uprising.

Ramos said the military has succeeded in bringing down the NPA's armed strength from a peak of 25,200 in 1987 to 18,600 in 1989 - a decline of 26 percent. The NPA has been battling the Manila government for 21 years.

He said the recent attacks launched in Manila by leftist and rightist groups were ''propelled largely by noise, smoke and shadows.''

''If we keep our cool, we can easily prevail,'' Ramos said.

(JUNE 6) UPI - Around the world... around the clock... the latest news from U-P-I.

Former San Francisco Mayor Dianne Feinstein has won her battle to be the first woman chosen to run for governor by a major party in California. Feinstein easily defeated Attorney General John Van de Kamp in California's Democratic primary. Feinstein told cheering supporters... ''One mission completed- one to go.''

North Carolina Democrat Harvey Gantt is the first black Senate nominee in his state. Gantt, a former mayor of Charlotte, easily defeated attorney Michael Easley in a Democratic run-off. Gantt will run against Republican Senator Jesse Helms in November.

In other primaries, Alabama's Republican Governor, Guy Hunt, easily defeated token opposition. New Jersey Senator Bill Bradley, a Democrat, also defeated token opposition.

President Bush will meet with South Korean President Roh today. Roh says he will compare notes with Bush on their meetings with Soviet President Gorbachev. A White House aide says Bush will get what he calls a ''read-out'' on talks between the Korean and Soviet leaders.

Colombian President Barco had a final meeting with President Bush yesterday. Barco is leaving office in August. The two presidents discussed the war on the drug cartels.

South African President de Klerk's ruling party faces a crucial test of white support in a parliamentary by-elections today. Today's election in

Durban is the first barometer of white opinion since de Klerk began his major reforms in February. A right-wing backlash at the polls is possible.

#90157u0719 06/06/1990 ~United Press International

PORTLAND, OR (JUNE 6) UPI - The husband of a woman who killed herself on a doctor's "suicide machine" quoted her final statement as saying she didn't want to put her family "through the agony" of Alzheimer's disease.

Janet Adkins, 54, committed suicide Monday with the assistance of Dr. Jack Kevorkian, 62, a retired Royal Oak, Mich., pathologist who hooked her to a "suicide machine" he created that injected potassium chloride into her veins.

Adkins' husband Ronald, 57, said Tuesday that his wife was a woman who "loved life." He said she was an adventurer who had climbed Mount Hood, traveled to the Himalayas, flown in hot-air ballons, and spoke French.

"She was an exciting person," he said. "She loved philosophy, she loved reading good literature, she was a good musician, she played the piano. Really, she loved life to the fullest."

Ronald Adkins, an investment consultant in Portland, said his wife made the decision to kill herself when she learned that she had Alzheimer's and since then the only question was how.

"When this happened she was really very much upset with it, particularly because her mind was her," he said about the diagnosis, which he and his family referred to as "the bomb."

"She was a member of the Hemlock Society and also believed that if you do have a terminal illness that it's your right to decide when to exit," he said.

Ronald Adkins, who was married to Janet for 35 years, said that he also was a member of the Hemlock Society, a group based in Eugene, Ore., that supports the concept that people should be able to legally kill themselves.

Adkins said he and his wife had discussed the possibility of "self-deliverance" in the past and said his wife had read several books on the subject. He said he respected his wife's decision to die.

Adkins said his wife tried a experimental Alzheimer's treatment at the University of Washington in Seattle, but gave up after 2 1/2 months with no results.

He said his wife was coherent right up to the end of her life, but said

that little things like forgetting tennis scores and losing the ability to read music were starting to add up.

"She didn't want to let this go for two or three years, and then be at a point where most Alzheimer's patients are where they can't make any rational choices or decisions," he said.

He said the family spent a wonderful two days in Detroit before his wife committed suicide. "Through all of this she's been a very vivacious person and a very positive person. I was the weak one, the family was the weak one," he said.

Smith said the Hemlock Society will introduce Death for Dignity legislation to the Oregon State Legislature next year that would make it legal for terminally ill people to choose to commit suicide.

#90157u0729 06/06/1990 ~United Press International

(JUNE 6) UPI - Mexican President Salinas de Gortari served notice on his nation as he hosted World Environment Day celebrations. He wants strict anti-pollution measures for industry and unleaded gasoline by the end of the year. Mexico City is regarded as the world's most polluted capital.

New York prosecutors say a ''mystery witness'' who came forward after the first two Bensonhurst trials has retracted her claim she saw the racial killing. Prosecutors say she can't help them in their case against the remaining defendants. One source called her a ''mad housewife.''

A survey of teen-agers in Alaska found that one out of every six has attempted suicide. The state-commissioned report found 23 percent of the girls and 13 percent of the boys in the state tried to commit suicide. Half said they tried to kill themselves more than once.

Jailhouse author Jack Henry Abbott says the actor he stabbed in the heart was ''partly responsible'' for his own death. Abbott is on trial for wrongful death in the killing of Richard Adan in New York City. He already is serving a 15-year to life term for manslaughter.

The Commerce Department says it's investigating whether Japan and Mexico are violating international treaties by slaughtering endangered sea turtles. If violations are found, the United States could impose economic sanctions. Conservation groups asked for the probe.

A survey of university presidents and corporation chief executive officers indicates half of them read for as much as two hours a day. One-fourth say the book that influences them the most is the Bible. And they say that's the book they recommend. National Louis-University of Evanston, Illinois,

did the study.

#90157u0847 06/06/1990 ~United Press International
KARACHI, Pakistan (JUNE 6) UPI - Gunmen attacked a bus carrying factory workers Wednesday, killing at least 18 people and wounding 10 in renewed ethnic violence in southern Sind province, police and hospital sources said.

More than 350 people have died and hundreds more wounded in Sind's two largest cities of Karachi and Hyderabad in the past two weeks in communal clashes and sniper attacks mostly involving the native Sindhis and Mohajir migrants from India.

The latest incident follows three days of relative calm in the province and comes as an all-party conference called by Sind Chief Minister Aftab Shaban Mirani opened in Karachi to find a solution to the trouble.

Leaders of the Mohajir Quami Movement, a major opposition party representing the Mohajir community, boycotted the conference, contending the meeting could achieve no positive results.

Police said unidentified gunmen opened fire on a bus carrying about 50 employees of a cement factory as it stopped at a railway crossing about 18 miles northeast of the southern port of Karachi at about 12:30 p.m.

Hospital sources said 18 people were killed and 10 wounded.

Police said the passengers were Mohajirs and they believed the attack was ethnic-related.

The cement factory was owned by Mohsin Siddique, an independent member of the Senate who was killed by a sniper in Karachi last week.

There were no immediate reports the bus attack had sparked further unrest elsewhere in the province.

Several areas of Karachi and Hyderabad, 150 miles to the northeast, are under curfew and thousands of troops, police and paramilitary personnel are stationad at key points in the cities.

More than 1,000 people have died in communal clashes in Sind in the past few years. The situation has been aggravated by the easy availability of automatic weapons because of the 12-year-old war in neighboring Afghanistan.

The Sindhis believe they are being made a minority in Sind by natives of other provinces and by the Mohajirs, who came to Pakistan from India following the partition of the subcontinent in 1947.

The Mohajirs, who form 40 percent of the population of Karachi, Pakistan's largest city, feel are discriminated against by the other ethnic groups.

#90157u0886 06/06/1990 ~United Press International

(JUNE 6) UPI - Stock prices on the Tokyo Stock Exchange edged higher Wednesday in sluggish trading ahead of Thursday's expiration of June options and futures contracts.

The blue-chip Nikkei Stock Average of 225 selective issue, which eased 3.75 points Tuesday, gained 31.88 points to 32,953.50.

The broader-based Tokyo Stock Exchange Price Index, which slipped 2.31 points Tuesday, eased another 1.86 points to 2,423.07.

Volume was light, with an estimated 600 million shares changing hands, roughly the same as the 568 million shares on Tuesday.

Declines, however, outnumbered advances 498 to 438, while 180 issues remained unchanged.

The market sagged in the morning with many investors stepping to the sidelines while futures trading dominated the floor action, analysts said.

Contracting for June stock-index futures ends Thursday.

''There was very little energy and a lot of caution in the market ahead of the June futures contracts,'' said Betty Wu, a broker with SBCI Securities.

Wu said an afternoon rally was sparked by rumors that most futures players would roll over their contracts into September, thus having a neutral effect on the spot market.

In futures trading, investors contract to buy shares linked to market indexes such as the Nikkei at a specified price and date in the future.

Wu said many investors sought out shares unlikely to be included in such contracts.

''We noticed electricals and retailers like Seibu doing well,'' she said.

Semiconductors and technology issues that stand to gain from an expected easing of COCOM regulations governing exports to communist nations also gained.

In addition, three out of the day's top-10 gainers were from the Toyota family of companies, due to the auto giant's outstanding profit performance. The parent company, Toyota Motor, headed the list with its rise.

Elsewhere in Asia, stock prices closed higher on the Hong Kong Stock Exchange on expectations of a strong earnings report from Hongkong Telecom and a late surge of overseas buying.

The key Hang Seng Index, which gained 5.84 points Tuesday, rose 13.43 points to 3,172.49.

Among the narrower indexes, utilities climbed 64.82 points, financials shed 19.53, industrials gained 16.17 and properties dropped 5.67 points.

An estimated 2.18 billion shares chnaged hands, compared with 1.76 billion shares on Tuesday.

''People expect Hongkong Telecom to release an earnings growth rate of around 20 percent and that news started a run on the blue chips,'' said Albert Leun, an analyst with ChinTung Investments.''

Hongkong Telecom rose 20 cents on the day to close at $6.20.

The market opened lower in slow trading, with secondary issues accounting for most of the action, analysts said.

Stocks, lower around noon, moved higher on a late wave of overseas buying.

In Singapore, stock prices closed mixed in light trading on the Singapore Stock Exchange.

The closely-watched Straits Times Industrial Index, which slipped 1.74 points Tuesday, added 0.22 points to 1,550.93. The narrower All Singapore Index eased 0.57 points to 432.94.

An estimated 46.24 million shares chnaged hands, compared with 50.4 million shares on Tuesday.

Analysts said participation by institutional investors was minimal.

The key baromer slipped through the afternoon but edged higher in the final hour of tarding on Tokyo's performance.

''Unless there are fresh leads, the institutions will remain on the sidelines,'' one analysts said, noting ''as long as the institutions remain sidelined, there will not be much activity in the market.''

Dealers said investors' funds were being absorbed by short-term fixed deposit rates, which have been on the increase recently.

On the trading floor, Great Eastern Life paced the declining issues followed by, Overseas Chinese Banking Corp. (foreign) shares, Singapore Press (foreign) shares and Fraser and Neave ordinary shares.

Magnum Corp. led the advancing issues followed by Isetan, Singapore Land, Metro Holdings, National Iron, Oriental Holdings and Prima Co.

In Manila, stock prices closed lower across the board for the fourth successive session on the Manila Stock Exchange as institutional selling sent prices to a 26-month low.

The closely-watched Manila Composite Stock Index of 25 selected blue-chip issues, which fell 3.36 percent or 26.94 points on Tuesday, plunged 33.19 points or 4.29 percent to 740.31.

Analysts said the market was depressed following Philippine National Bank's annual meeting wre the governments as majority shareholder, replaced the controversial chairman with Justice Secretary Franklin Drilon.

In Seoul, the Korea Stock Exchange was closed for a national holiday. Trading will resume Thursday.

The closely-watched Korea Composite Stock Index, fell 6.43 points to 807.97 in active trading Tuesday.

In Australia, stock prices closed lower in moderate trading on the Sydney Sharemarket, ending a two-week rally.

The closely-watched All Ordinaries Index, which gained 3.9 points Tuesday, eased 1.9 points to 1,526.9.

An estimated 106.2 million shares chnaged hands, compared with 144.5 million shares on Tuesday.

Analysts said profit taking chipped away at the blue-chip stocks, ending the markets recent two week rally.

Losses occured between the top resources and industrial issues.

On the trading floor, Brambles lost 5 cents to $13.90, Burns Philp eased 5 cents to $3.25 and Pacific Dunlop eased 1 cent to $5.00.

-30- 5751

#90157u0910 06/06/1990 ~United Press International

BONN, WEST GERMANY (JUNE 6) UPI - Foreign Minister Hans-Dietrich Genscher will meet Soviet counterpart Eduard Shevardnadze in the historic Soviet city of Brest Monday for talks on German unification, officials said Wednesday.

Officials said the two were expected to visit the grave of Shevardnadze's brother, killed in 1941 when German troops captured the city near the Polish border.

A Foreign Ministry spokesman said the two will continue the talks they started at a Copenhagen meeting of the Conference on Security and Cooperation in Europe Tuesday and Wednesday.

The Soviet Union, Britain, France and the United States, which retain post-war powers over Germany, are involved in unification negotiations with the two German states.

The main hurdle in the talks has been disagreement over the military status of a united Germany, with the Soviet Union sharply opposed to the Western concept that Germany be part of NATO.

Brest is where Germany and Russia signed an armistice in 1918 at the end of World War I. The city was captured by German troops in 1941 and retaken by the Russians in 1944.

#90157u0919 06/06/1990 ~United Press International
HARARE, ZIMBABWE (JUNE 6) UPI - Riot police used tear gas Wednesday to disperse about 2,500 striking school teachers and students demonstrating near Parliament after the teachers defied government orders to return to work.

No casualties were reported in the capital's Africa Unity Square, but police in full riot gear continued to patrol the area, fearing the demonstrators would try to regroup.

Senior police officers told the teachers the protest was illegal and gave a 30-minute warning to disperse. But they fired tear gas before the deadline expired after students joined the protest and strike leaders began to address the crowd.

The government Tuesday invoked emergency regulations to order the teachers who are demanding a 33 percent pay increase, and striking civil servants, including tax officials and computer operators, to return to work Wednesday or face dismissal.

The strike reflects the discontent in the country over the deteriorating economy and low wages and the walkout at the central computer bureau raised the possibility pay checks for civil servants would not be processed.

The government appealed Tuesday to qualified teachers and high school graduates to volunteer for duty and a line of several hundred formed at the registration office early Wednesday.

Introduction of the emergency measures follows more than a week of strike action, which has paralyzed primary schools and income tax offices and showed signs of spreading to the government-owned vehicle assembly plant.

#90157u0920 06/06/1990 ~United Press International
(JUNE 6) UPI - The latest developments from Washington to Moscow... from North Carolina to California... news from around the world and across the nation with United Press International.

The White House will have its welcome mat out again today for the third head of state in less than a week.

South Korean President Roh goes to the White House this morning to meet President Bush and compare notes on their meetings with Soviet President Gorbachev.

Roh's meeting with Gorbachev Monday in San Francisco ended Korea's 42

years of diplomatic silence with the Soviet Union. A White House aide described today's upcoming Bush-Roh meeting as a ''courtesy'' by the South Korean leader.

Yesterday, Bush met with outgoing Colombian President Barco , who gives way in August to his successor, President-elect Gaviria.

Bush and Barco reviewed their mixed success in the war against South American cocaine cartels. Barco again urged Bush to help Colombia bolster its trade so it will be in a better financial position to carry on the struggle.

President Gorbachev is back in Moscow after the U-S-Soviet summit... facing new challenges. At the top of the list of problems are the economy and growing nationalist tension in the Soviet republics.

The Soviet government's plan to move toward a market economy... a plan that includes drastic price increases... faces grave opposition.

Parliaments in two of the country's largest republics- the Ukraine and Byelorussia- already have given a resounding ''NO'' to the plan. And the Russian republic also has indicated it may reject the price increases.

In the republic of Russia, Gorbachev also must deal with the election of populist Boris Yeltsin as the effective president of the republic. Once allies... Gorbachev and Yeltsin now are political enemies.

Yeltsin already has outlined a plan for increased autonomy for the republic that may make the central government led by Gorbachev largely irrelevant.

Gorbachev also faces an immediate crisis with ethnic violence in the central Asian republic of Kirghizia. At least 11 people reportedly were killed and hundreds wounded in clashes the past two days.

#90157u0931 06/06/1990 ~United Press International

BUCHANAN, Liberia (JUNE 6) UPI - Liberian rebels seized the vast U.S.-owned Bridgestone-Firestone rubber plantation Wednesday and attacked the adjoining international airport but government troops apparently killed a senior aide to insurgent leader Charles Taylor, rebel sources said.

The rebels made ''friendly'' contact with the U.S. management of the rubber plantation, the largest in the world, 1 mile from the Robertsfield International Airport, residents and the rebel sources said.

The rebels attacked the airport Tuesday night and seized the nearby key checkpoint at Owensgrove and the Firestone company town at Harbel but did not immediately capture the airport, which is 35 miles southeast of the capital Monrovia, said the sources.

Bridgestone-Firestone Inc., a U.S. subsidiary of the Japanese company Bridgestone Corp., owns the 300-square-mile plantation housing some 75,000 people and 10,000 refugees from the fighting.

Rebels searched Wednesday for the body of Elmer Johnson, a former U.S. Army sergeant who took part in the American invasion of Grenada in 1982 before becoming chief military advisor to Taylor, a former civil servant.

Johnson, 33, a Liberian who served in the U.S. Army for six years, was part of a convoy of 30 rebels that was attacked by government troops Sunday 2 miles outside the port of Buchanan, 80 miles south of Monrovia.

Rebels have recovered the bodies of two bodyguards of the U.S.-educated Johnson's and found his identification papers and gun in a captured army truck. Liberian state television in Monrovia reported he was killed.

Rebel troops credited Johnson with holding the rebel force together and instilling discipline in the field as well as attempting to stop looting by rebel troops. But they said there are other experienced leaders in their force to continue the war.

There was no immediate trace of Johnson's body at the scene of the ambush Wednesday.

''The army have chopped Elmer up into little pieces by now,'' one rebel source said.

Johnson previously led an unsuccessful attempt to overthrow President Samuel Doe in 1985 and escaped from Monrovia after a gun battle.

Doe, a former master sergeant, seized power in a coup in 1980. Taylor's rebels, estimated at about 4,000 men, accuse Doe's government of corruption, brutality and ruining the economy of the West African nation.

Four U.S. ships are anchored off the Liberian coast to rescue Americans and other Western nationals if they are unable to evacuate by air. The State Department Monday urged U.S. nationals to leave before the situation deteriorates further. Some 1,100 to 1,200 U.S. business people, missionaries and their families live in Liberia.

The State Department said Tuesday that attempts to negotiate a solution to the conflict have failed. More than 1,000 people have died and tens of thousands have been made homeless since the rebellion began in northern

Nimba County in December.

Bodies littered the streets of Buchanan. Dogs roamed the rubble as rebel troops ambled through the city looting shops of beer and Coca Cola.

Doe is believed to have flown to his home town in the east of the country Saturday. The rebels said his mansion is surrounded by 1,000 of his remaining troops. A U.S. official in Monrovia said government troops are deserting by the score.

Taylor said Monday he is ready to attack Monrovia if Doe does not surrender or leave the country, whatever the human cost.

''I am not going down in history as the man who brought this country to war and then screwed up,'' he said.

(JUNE 6) UPI - There were two historic firsts in Democratic primary elections yesterday.

Both firsts were scored by former mayors... Dianne Feinstein of San Francisco and Harvey Gantt of Charlotte, North Carolina. Feinstein became the first woman to win a major party nomination for governor in California. Gantt is the first black to win nomination to a major office in North Carolina. He told supporters in his victory speech the times have really changed.

But both Gantt and Feinstein will have to contend with formidable Republican opponents in the November election. Their foes have well-established political bases and have proven they can win statewide.

Feinstein will face Republican Senator Pete Wilson. The popular two-term federal lawmaker and former San Diego mayor easily defeated token opposition in the G-O-P primary yesterday.

Gantt will be up against three-term Republican Senator Jesse Helms, who is one of the most outspoken conservatives in the country.

In all, nine states held primaries yesterday. Incumbent governors and senators seeking re-election generally faced little opposition and had an easy day.

In Alabama, Governor Guy Hunt, a Republican, and Senator Howell Heflin, a Democrat, both breezed to re-nominations. Senators Bill Bradley of New Jersey and Max Baucus of Montana easily won new Democratic nominations.

In New Mexico's race to replace Republican Governor Garrey Carruthers...
former two-term Governor Bruce King won the Democratic nomination and
Frank Bond, a Sante Fe attorney, won the G-O-P nod.

CHICAGO (JUNE 6) UPI - The Chicago Mercantile Exchange has expelled and

fined a broker who pleaded guilty to federal commodity fraud charges.

William A. Walsh, 23, a trader in the Swiss franc pit, is expected to testify for the prosecution this week in the fraud trial of three Swiss franc traders.

Without admitting or denying guilt, Walsh agreed to the expulsion Tuesday and $35,000 fine. The Merc charged he prearranged trades and ''participated in an ongoing pattern of illegal trading'' at customer expense.

Walsh is expected to provide key testimony in the racketeering and fraud trial of Robert Mosky, Danny Scheck and David Zatz.

U.S. District Judge Ann Williams Tuesday dismissed one count of wire fraud and two counts of violating the Commodities Exchange Act against Mosky after the prosecution informed the court they had mistakenly failed to introduce evidence to support those charges. She earlier dismissed another wire fraud count against Mosky for the same reason.

Testimony in the trial has implicated Walsh in several alleged prearranged trades he executed with Randall Jannett, the FBI agent who is the government's star witness.

The CME said it expelled Walsh in part for executing a prearranged trade with Jannett on Oct. 13, 1988, in which profits were funneled into Jannett's account.

Jannett, who used the alias Randy Jackson, testified last week he funneled $950 from the trade back to Walsh so Walsh could avoid federal taxes on the transaction.

#90157u0966 06/06/1990 ~United Press International

(JUNE 6) UPI - Canada's 10 provinces look a little more unified today.

Political leaders have reached informal agreement on a process to reform the Senate... moving closer to resolving a constitutional impasse that could result in Quebec seceding from the rest of Canada.

Prime Minister Mulroney said last night... after a third day in a row of negotiations... they made some progress. But Mulroney said the provincial leaders did NOT reach any conclusions and are a long way from any final arrangements.

The negotiations will resume in Ottawa today.

The 10 provincial premiers agree there's a more positive mood during negotiations. Some, like Nova Scotia Premier John Buchanan, predict that the talks will conclude today with agreement on all outstanding issues.

The constitutional amendment, formally called the Meech Lake Accord, recognizes the French-speaking province of Quebec as a ''distinct society.'' The amendment grants the province powers to promote and preserve its French language and culture. Quebec threatens to secede if the other provinces don't O-K the amendment.

Rebels in the West African nation of Liberia are a step closer to overthrowing the government of President Samuel Doe.

The rebels reportedly have taken control of Buchanan, Liberia's second-largest port, after two weeks of fighting.

And rebel troops led by Charles Taylor are poised to move on Monrovia from positions near the Robertsfield Airport, which serves the capital city.

Despite these reports, Doe remains optimistic. He said... ''I'm 100 percent sure that the rebels will NOT be able to enter the city of Monrovia.''

Taylor's rebels, estimated to be four-thousand strong... say the Doe government is corrupt and brutal and has ruined the country's economy. Doe himself seized power in a 1980 coup.

In Washington, the State Department says attempts to negotiate a solution to the conflict have failed. Four U-S ships are anchored off the Liberian coast to rescue U-S nationals if they are unable to leave by air.

JOHANNESBURG, SOUTH AFRICA (JUNE 6) UPI - Police searched two houses belonging to black leader Nelson Mandela for a murder suspect before dawn Wednesday but the man was not found, a police spokesman said.

The houses were among several searched by warrant Wednesday after police received a tip-off that the suspect may have decided to shelter there during the overseas tour by Mandela and his wife, Winnie.

The Mandelas, on a 45-day trip to Europe, the United States, Canada and several African nations, left South Africa Monday.

The two houses in the sprawling black satellite city of Johannesburg were identified as the home of Mrs. Mandela before her husband's release from 27 years imprisonment in February and the first house he lived in after

his release.

The couple last month moved into a larger house that was not targeted in the search.

''We just went through the houses to see if the suspect was there,'' a police spokesman said. The suspect has been wanted since 1988 in connection with a non-political murder case.

The people responsible for security at the houses in the absence of the Mandelas ''gave their full cooperation to the police in good spirit,'' he said.

#90157u0972 06/06/1990 ~United Press International

NEW YORK (JUNE 6) UPI - Prices opened lower Wednesday in moderate trading of New York Stock Exchange issues, extending Tuesday's pullback.

The Dow Jones industrial average, which lost 10.19 Tuesday, was off 5.83 to 2919.17 shortly after the market opened.

Declines led advances 559-361 among the 1,476 issues crossing the New York Stock Exchange tape. Early turnover amounted to about 18,000,000 shares.

The stock market closed lower Tuesday in heavy trading, dragged down by profit taking after the Dow industrials and other major indexes rallied to all-time highs Monday.

After opening mixed and turning higher shortly thereafter, prices gradually weakened for the rest of the session. The Dow industrials lost early gains by mid-morning and, by mid-afternoon, the broad market followed suit.

Analysts said profit taking after Monday's broad-based rally undercut the early bid for an advance.

Early strength in the bond market tied to falling oil prices supported stocks in the early going. Oil prices fell on the belief that Saudi Arabia would cut prices to hang on to its share of OPEC's output.

But the gains in bonds were lost to profit taking by afternoon.

Analysts said the dearth of economic news scheduled for this week may provide a good excuse for a pause.

#90157u0974 06/06/1990 ~United Press International
(JUNE 6) UPI - The husband of a woman who killed herself on a doctor's ''suicide machine,'' says his wife wanted to die before Alzheimer's disease claimed her ability to make such a decision.

54-year-old Janet Adkins committed suicide Monday in Michigan. She used a so-called ''suicide machine'' that injected potassium chloride into her veins when she pushed a button.

Adkin's husband, Ronald, read her final statements yesterday. The 57-year-old investment consultant in Portland, Oregon, says his wife decided to kill herself when she learned she had Alzheimer's disease. Adkins says his wife was a member of the Hemlock Society and believed that a person who has a terminal illness has a right to decide when to die.

Adkins, too, belongs to the Hemlock Society, a group that supports the concept that people should be able to legally take their own lives. He says he respects his wife's decision.

Atkins says his wife tried an experimental Alzheimer's treatment at the University of Washington in Seattle... but gave up after two-and-a-half months with NO results.

She tried the treatment at the advice of a retired pathologist who built the ''suicide machine''... Dr. Jack Kevorkian of Royal Oak, Michigan. He says he considers her death a doctor-assisted suicide. In his words- ''The last thing Janet Adkins said was, 'You just make my case known.'''

Michigan officials are considering whether to file charges against Kevorkian.

#90157u0984 06/06/1990 ~United Press International
MOSCOW (JUNE 6) UPI - Ethnic battles sparked by a dispute over 79 acres of land spread to the capital and other regions of the central Asian republic of Kirghizia, with the death toll climbing to 40 on the third day of violence Wednesday.

Additional Interior Ministry troops were rushed into the riot area from

neighboring republics but authorities were unable to stop the violence, Soviet Parliament Chairman Anatoly Lukyanov said.

Lukyanov told Parliament 40 people had been killed and more than 200 wounded in the three days of violence between minority Uzbeks and Kirghizians in the republic, about 2,000 miles southeast of Moscow near China.

Soviet officials are talking with leaders from Kirghizia and Uzbekistan in an effort to calm the tensions in the area, Lukyanov said.

The clashes began Monday night near the republic's second-largest city, Osh, in a dispute over which ethnic group was going to be allowed to build homes on 79 acres of fallow farm land, Lukyanov said.

On Tuesday the clashes spread to three other regions and Lukyanov said there were disturbances in the capital Frunze Wednesday.

''Unfortunately the events continue,'' he said.

The official Tass news agency said local police forces had to open fire at times during the demonstrations.

Additional detachments of police and Interior Ministry forces have been dispatched to the region to end the disorders,'' Tass said.

The Komsomolskaya Pravda daily newspaper said the violence, which began Monday over a land dispute in Kirghizia's second largest city of Osh, ''has spread to the capital of Frunze and other towns.''

The newspaper said Interior Ministry troops had to intervene in Frunze and a soccer match between a team from Kirghizia and Uzbekistan had to be cancelled.

It said that law enforcement authorities had to use tear gas in Osh.

Authorities have declared a state of emergency and imposed a nightly curfew in the region, about 2,000 miles southeast of Moscow. They also took the unusual step of appointing the republic's interior minister as the area's military commander.

''The situation continues to be extremely tense'' despite the emergency measures, said Interior Ministry spokesman Yuri Makarov.

The fighting in and around Osh made Kirghizia the fourth of the Soviet Union's five Central Asian republics to be struck by ethnic unrest during the past year in the mainly Moslem ''southern crescent.''

Some rioters were believed armed with hunting rifles and there were unofficial reports of bands of men on horseback terrorizing parts of the city, the Interior Ministry said.

The ministry said the clashes erupted when about 10,000 Uzbeks and several thousand Kirghizians gathered Monday night on a collective farm near Osh. Tass said a group of Kirghizians had seized farm land in the area to build homes because of a housing shortage in the republic. A group of Uzbeks claimed the same land.

The crowd grew violent when another large group of Kirghizians approached the cotton farm, Tass said. Rioters broke through police lines and rushed into the center of the city, where they went on a rampage and fought pitched battles.

In the rampage, at least seven houses and eight automobiles were burned and several shops were looted, Tass said. Fifty-one people were arrested.

About half Kirghizian's population of 4.2 million is Kirghizian and 12 percent are Uzbeks. Osh is near the border between Kirghizia and Uzbekistan and has large communities of both ethnic groups.

#90157u0988 06/06/1990 ~United Press International

(JUNE 6) UPI - Former mayors Dianne Feinstein and Harvey Gantt scored a pair of historic firsts for women and blacks by easily winning the Democratic nominations for governor in California and senator in North Carolina, but both face tougher odds in the general election.

Highlighting the busiest primary day of the year thus far, Feinstein, who made her gender a campaign issue, Tuesday became the first woman to capture a major party gubernatorial nomination in the Golden State. Gantt became the first black to win nomination to any major office in the Tarheel State.

However, both Feinstein, a former mayor of San Francisco, and Gantt, a former chief executive of Charlotte, N.C., now must contend with a pair of Republican opponents who have well-established political bases and have proven they can win statewide.
